

CLASS SCHEDULE

Booklets of the schedule of classes for the spring semester will be available Monday, Clarence E. Byrd, registrar, announced this week.

The schedule will be available in the registrar's office. Mr. Byrd cautioned each student to take only one copy and to have it available on registration day, Feb. 3, as there are only a limited number of them.

Carnival Features First Competition Under NCAA

This year's Ski Carnival will feature the first organized ski competition under the National College Athletic Association. It is hoped that representatives from 15 different colleges and universities will participate in the events, which are scheduled to be held from March 4-7.

Meanwhile, Otto Schultz revealed that the social committee is meeting today, and although no results have been reported as yet, Paul Argeres, committee chairman, stated that plans would be laid for house decorations, the dance, banquet and other social activities attending the carnival.

Assisting Schultz on the committee are Bob Winkel, Leo Quicci, Clair Earl and Jerry Mann. Although all plans are in the nebulous stage, it is hoped that the carnival will open with an assembly Thursday, followed by the judging of house decorations and then open house to be held by all fraternities and sororities.

Friday will tentatively be filled by a smorgasbord at the Sky Tavern, although no specific arrangements have been laid out at this time.

Saturday, if all goes well, will see a banquet at the El Cortez, during which many awards will be presented, followed by a dance at the Mapes.

Events for Sunday have not yet been considered.

Tickets for the dance will cost \$2 and should be on sale about Feb. 1.

LANCERS SING

The Lancers, a quartet, entertained students for half an hour with numerous songs Thursday. Recently returned from a London engagement at the Palladium, the singers are now billed downtown. Their latest hit is "Tree-Top Woman." Now popular in their own right, the Lancers sang for three years with Kay Starr.

Paintings, Ceramics To Be Displayed

Exhibitions of painting and ceramic work will be displayed from Jan. 10-24 Monday through Friday from 8:00-1:00 a. m. and on Sundays from 1:00-4:00 p. m. in the art gallery of the university Art department.

Student examples of ceramic work done during the semester will be on display from Jan. 13-23 in the temporary buildings. The art work is comprised of paintings done by the Virginia City workshop group which meets there to develop their artistic abilities. Their display here is being arranged by Gus Bundy, Washoe Valley photographer and artist.

Edward W. Yates, assistant professor in the Art department, said that this will be an opportunity for students interested in ceramics to see the type of art created in the ceramic classes. Yates added that he is trying to schedule the next semester's class at an hour which enables more students to take the class.

Prof. Craig Sheppard, head of the Art department, suggested that students could view the exhibits between classes on their way to the English and the Engineering buildings. The exhibits are open to the public.

GETS DEGREE

Prof. William L. Garrott, electrical engineering, has been informed his application for his mas-

ter of science degree has been accepted. The degree will be formally awarded by the university of Kentucky on June 4, 1954.

Social Calendar To Be Scheduled

The calendar committee for the spring semester will meet on Wednesday, Jan. 13 at 4:00 p. m. in the Journalism building, according to a bulletin issued this week by Elaine Mobley, dean of women.

Dean Mobley sent letters to the class managers, to presidents of the fraternities and sororities, and to presidents of other campus organizations. However, some group may have been overlooked, in which case they are urged to send a representative to the meeting regardless.

The social calendar arranged at the Jan. 13 meeting will be final. For this reason Dean Mobley has urged that all groups and organizations decide definitely before the meeting what dates they want for their dances and other social activities.

SHOTS NEEDED

Snapshots of students or campus activities are needed for use in the Artemisia, scheduled for issue in June. Marie Nielsen, editor of the yearbook, also mentioned that photographs of Wolves' Frolic skits are available at \$1 each.

Time to Pay

Board and room contracts for the spring semester were distributed to the men and women in the dormitories this week by William D. Carlson, dean of student affairs.

The deadline for the return of the contracts has been set at Jan. 18. At that time the initial down payment of \$30 is also due.

The monthly board payments for the spring semester will be \$49.50, as compared to \$38.45 in the fall. This difference in amount is explained by the fact that the students made four monthly payments during the first semester, and will pay only three times during the second. The figures show a saving of \$5.30 the second semester, Dean Carlson pointed out.

Vol. XXX—No. 35

U OF N Sagebrush

Established by the ASUN — Founded October 19, 1893

SOPH MANAGER NEEDED

The job of sophomore class manager is vacant and elections must be held to fill the post. Former manager Bill Thornton is joining the Air National Guard pilot training program.

Nominations for the election must be filed in the ASUN building before 5:00 p. m. on Tuesday, Jan. 12.

Nominations should be given to student body president Milt Sharp.

Cast Will Read Their Lines on Stage In Eugene O'Neill's 'Ah Wilderness'

The cast of "Ah, Wilderness" by Eugene O'Neill will be reading their lines in the comedy being presented on Jan. 13 and 14, Wednesday and Thursday, at 8:15 p. m. in the Education auditorium. Using the script, the cast is going to combine play reading and acting in this experimental production.

Dr. William C. Miller, director, said that this technique has been used before in campus plays, and is being used this time to further the students' talents. There will be a formal setting with no scenery. Only the properties like tables and chairs are being used.

Four of the cast of 11 students have acted in previous campus

plays. George Evans, Sue Casey, Julie Stavros and Warren Young were in "The Royal Family" last year. O'Neill wrote "Ah, Wilderness," his only comedy, in six weeks. Known for his serious drama, for which he received the Nobel prize, O'Neill wrote this comedy on a wager.

It concerns itself with the romantic poetical problems of a young senior in high school who sends bits of passionate verse to his girlfriend. Conflict arises when the girl's father, alarmed at the verses, forces the couple to stop their romancing. It is set in the year 1906 in a small Connecticut town where the hero and heroine's family represent the typical humors and vexations of the time.

Experienced Cast

Members of the cast are George Evans as Nat Miller, owner of the Evening Globe, Sue Casey as Essie, his wife; Warren Young as Arthur, their son; James Larabee as their other son, and Julie Stavros as their daughter. Drawing from off-campus talent to fill the part of the Miller's ten-year-old son, Director Miller chose Robert M. Gorrell, the son of Dr. R. M. Gorrell of the English department. John Tollefson is Sid Davis, Essie's brother and reporter on the "Waterbury Standard." Roxanne Miller plays Lily Miller, Nat's sister.

Doubling on the parts of David McComber, dry-goods merchant, and Wint Selby, a classmate of Arthur's at Yale is Richard Hill. Judy Dempsey carries the part of Nora, the maid.

Dr. Frank Barsalou and Mr. Robert James, hired on a one-year basis, will not receive permanent status on the university faculty. Dr. Barsalou has been a faculty member for two years and Mr. James for three.

Dean Wood explained that all instructors are hired on a one-year contract system. The contracts are renewed each year for a three-year period at the end of which time their status is made permanent or they are released.

Favorably Recommended

The reason for the release of the instructors was pointed out by Dean Wood as a lack of space in the university Economics department. He said that both men would be given favorable recommendations for positions elsewhere.

He said that one position in the department was previously allocated to Walter S. Palmer Jr., who is presently finishing work at Stanford and will join the university faculty in the fall. Palmer, a Ph.D., is slated for the chairmanship of the Economics department.

SUE CASEY takes the part of Essie Miller in "Ah Wilderness."

Students Urged To Join Meeting On \$5 Assessment

The \$5 assessment on Nevada students for maintenance of the proposed student union building will move back into prominence tomorrow afternoon.

An open discussion will be held in the Education auditorium at 2:00 p. m. to attempt to put the proposed amendment to the constitution back on the ballot. The amendment was defeated Nov. 4 in the largest election turnout in university history.

Badly Written

Student body president Milt Sharp said that the original amendment was beaten because of the way it was written, rather than because of its contents or purpose. He hopes that tomorrow's discussion will prevent a recurrence of this situation.

Urges Attendance

Sharp urges all interested students to attend the meeting. He wants their opinions as an aid to writing an amendment suitable to all, but still practical.

Principal opposition to the previous amendment was the contention that it was too vague and that students did not understand what their money would be used for. Sharp feels that this problem can be avoided by an open meeting welcoming student questions.

Sharp said that if a primary is needed, it will be held on Friday, Jan. 15.

WUS Carnival

March 20 is the date for the annual WUS Carnival, announced Beverly Sue Hug, chairman. The World University Service aids needy schools in foreign countries devastated by the last war.

Miss Hug said that the committee will be named early next week and work will begin immediately.

The traveling secretary for WUS is expected to be on campus early in February to help with the carnival plans and to assist in finding new ideas for raising money.

YOUNG SON of the Millers in the experimental production "Ah Wilderness" opening in the Education auditorium Jan. 13 will be played by James Larabee.

ALARMED FATHER Nat Miller is portrayed by George Evans in Eugene O'Neill's comedy to be presented Jan. 13-14.

Two Profs Lose Contracts; Will Not Return in '54

The contracts of two Nevada economics instructors will not be renewed in July of this year.

The news was issued this week by Dean Frederick Wood of the College of Arts and Sciences.

Frosh Cagers to Meet Elko Tonight

The university freshman basketball team returns to action tonight when it plays the Elko high school at Elko. Tomorrow it will move to Wells, to appear against the University of Utah's freshman team.

The Pack yearlings have had a clear slate so far in season play. They have won games from Yerington, a Stead air force base quintet, and Folsome, a California high school.

Northeastern Nevada basketball fans will recognize such freshman players as forward Dan Sullivan from Elko, Lawrence Bianucci and Frank Kendrick from Carlin, and John Schoppman from Austin, in the weekend games.

Remaining games on the freshman schedule are:

Jan. 15—Mare Island Navy, at Reno.

Jan. 16—Lassen Junior College at Reno.

Jan. 19—Fallon high (there).

Jan. 29—Yerington high school at Reno.

Jan. 30—To be scheduled.

Feb. 5—Chico State frosh, at Reno.

Feb. 6—Chico State frosh, at Reno.

Feb. 12—Sparks high school, at Reno.

Feb. 13—Lassen Junior College at Reno.

Feb. 19—Reno high (there)

Feb. 22—Fernley high school, at Reno.

Feb. 23—Manogue high school, at Reno.

Deans to Excuse Only Students Representing U

The dean of student affairs and the dean of women have no authority to excuse students from class attendance.

This was the statement issued by the deans in a faculty bulletin to be read to all classes this week.

"There appears to be misinformation on the part of the students," Dean William Carlson said.

The only exception to the rule is for students absent because of participation in a university function sponsored by the university.

"In such cases notices are published in the faculty bulletin, requesting the listed students be excused from class attendance but not excused from responsibility for the class work."

In cases of expected or prolonged absences, students are urged to notify the dean so that the information may be forwarded to the instructors concerned.

The end is very near.

Harlem Men Play

University basketball fans who were disappointed a year ago when a snowstorm in eastern Nevada prevented the Harlem Globetrotters from playing their scheduled games here, will have another chance to see the professional club in action next Thursday.

The comic trotters, who do everything with a basketball but swallow it, will play in the Reno high school gym on Jan. 14.

Students Plugging March of Dimes In Reno Schools

To raise funds for the 1954 March of Dimes campaign, 21 Nevada students taking speech will visit the Reno elementary and intermediate schools Wednesday. These students will speak in each class room on the achievements of the polio foundation and the necessity for continuing its preventive work.

Students and faculty members may take advantage of the test tube cards being placed for contributions in the greek houses, the dormitories, and in centrally located areas. Dr. William C. Miller, head of the campus drive, pointed out that there is no set quota aside of the national one of 75 million dollars. Each individual is being asked to donate what he can.

The student speakers will stress the state's combat against polio which in 1953 reached epidemic proportions. Nevada ranked fifth in the nation case rates. Because of the increase in cases the state funds received from the National foundation had to be replenished. In 1953, \$66,275 went to polio victims.

Students who are going to speak in the Reno schools are: Ray Brown, Barbara Moore (Pi Beta Phi), Rita La Voy, Karen Phillips, Vivienne Potter, Margery Andrews, Carol Dickerson, Celeste McAdam, George Young, Eileen Beardall, Georgia "Jinks" Blankinship, Jan McGill Benson, Josephine Warwick, Joanne West, Ann Cronin, Diana Collins, Leah Gregory, Dallas Watkins, Don Schulz, Boyce Ford and Grandin Worden.

Phi Kappa Phi To Initiate Eleven

Four students and seven faculty members will be initiated into the Nevada chapter of Phi Kappa Phi, national honorary scholastic fraternity. Prof. Howard B. Blodgett, president of the local chapter, scheduled the initiation for Wednesday, Jan. 13.

The students honored with the key have maintained an overall average above 3.5 during their years at Nevada, thereby keeping well within the upper 10 per cent requirement for the honor.

James Kjeldsen, senior political science major had the highest average, a 3.8, followed by Joline McCarthy, senior, majoring in zoology, with 3.71. Carol Ann Normandy, senior and language major, tied with Dorothy Bell, senior psychology major, averaging a 3.5.

Faculty Members

The faculty members elected to the national honor society are Virginia Carroll, associate professor of home economics; Dr. James A. Langford, assistant professor of education; Dr. Thomas V. Frazier, assistant professor of physics; Dr. Donald G. Cooney, assistant professor of biology; Prof. Alden J. Plumley of the Economics department; Dr. Harold Richardson, assistant professor of psychology, and Dr. Gabriel J. Paolozzi, assistant professor of foreign languages.

Faculty members are elected on the basis of their scholastic records while students, their position on the faculty and their evidence of advancement in their field.

HELP WANTED

MEN and WOMEN:

We need representatives in your locale to help fill out an organization for business surveys, delinquent account listings, polls, and public opinions . . . ideal part-time work . . . Choose your own hours.

Your nearest telephone may be your place of business for surveys not requiring the signatures of those interviewed . . . Tumblers to Visit Nevada Schools

The university tumbling team will perform before several high schools throughout the Northern part of the state during a tentative four-day exhibition tour.

Three winged "N" award winners are featured on the team: Bert Munson, Bob Gerring and Gary Luther were given awards for correctly completing a series of tumbling exercises.

The team which works out every Tuesday and Thursday also includes Mel Peasnell, Hans Mohr, Jim Calder, Duke Fuller, Don Nelson, Jerry Bowler and Allan Ramsey.

STUDENTS SEE PHONES

Twenty junior electrical and mechanical engineering students inspected the local telephone plant Jan. 4 and 5.

Nevada graduate, Milton Murphy, '53, conducted the tour. Various new devices were shown, including the antennae system for bringing in the two new television channels.

One UN Delegate Needed for Model United Nations

A student to represent Nevada in the model United Nations conference held by the West coast colleges in Los Angeles, is now being sought. Beverly Sue Hug, sophomore, has volunteered as one of the two needed.

Milt Sharp, ASUN president, believes that Nevada, along with San Jose State college, will be assigned to take the role of Australia in the "world meet." The delegates must perform preparatory research on the "strange continent" and understand some of its basic economic and political problems. The meet will take place during the last week in March.

YWCA will finance half of the trip and the Washoe County United Nations Committee will underwrite the remainder. The model UN meet is to promote attention to world affairs.

It is surprising how many students study for exams by taking neck-stretching exercises so they can look over other students' shoulders.

Plan the Union

The new student union building will be completed by the fall of 1955, according to the student committee, the faculty committee and the architects.

A report by the student committee which compiles recommendations and facts based upon questionnaires recently filled out by students indicates that many decisions must be made.

Desired facilities and functions are too numerous for the available floor space in the new structure. Some method of raising money must be devised. These are but two of the problems which must be solved by Nevada's students.

A meeting has been arranged for Saturday morning in the Education building just for the purpose of working out the details.

It is imperative that all students interested in the student union contribute by attending this discussion.

But sophomores and freshmen will use the building every day after its completion. What is in the building and what it will do for the student body must be decided now. Who knows better than those who will use it?

LOVE CAN BE BEAUTIFUL

By DEBORAH DESIRE

Dear Miss Desire:

Christmas at our house was pretty awful. My husband and I had planned a quiet Yule to be spent sprawled out in easy chairs swilling Xmas hooch and other goodies. This was not to be the case. My husband's brother Kilmer showed up with his wife and four children. We do not have any children and it was just not our type of caper. We didn't mind when Kilmer got chilled on eggrog and threw the piano bench in the fireplace. We didn't even mind when he tried to throw his wife in. We kept silent when the children shoveled 400 pounds of snow into our Buick, and we smiled bravely as the family took our bed and then sat up all night in it and swore at each other. The payoff, however, was when Kilmer made Christmas punch in our bathtub—he filled the whole tub, using 54 fifths of assorted whiskey. Instead of inviting us to share the punch, he climbed into the tub and stayed there up to his eyes, for three days, singing bawdy songs. The point is this—Kilmer & Co. are still in our house and it is now January third. We would like to start living again. How do we do this and not offend Kilmer?
—Harried Hostess

Dear "H. H.":

My seventh husband, Newton Carlot, (inventor of the Carlot Flush Bomb for opening frozen water closets), was of the same breed as this Kilmer animal. Newton loved to overstay his leave with our friends. He used to go wild over a new house to install inventions in. Rip out doors, tear down walls, construct hidden panels, automatic rug-roller-uppers, automatic cocktail shakers built in the showers, and player pianos connected to the doorbells and telephone bells. People were patient, but Newton usually got pretty nerve-wracking. I early learned that cajolery and argument and treachery were of no use in getting him to come home. My solution was this: I would attach a 50-foot length of 1/4-inch steel cable to the rear bumper of our car. I would attach the other end to Newton, wherever he happened to be lurking and inventing. Then I would get in the car and drive home. I divorced Newton after two years of this because he once slipped out of the cable and tied it to a police car. I would still like to have him back, but I cannot tolerate a man who won't play fair.

Dear Miss Desire:

My husband's new year's resolution was that he would stop practicing golf in the living room. Most men, you see, PUT the ball, but he DRIVES it. Through windows, French doors, imbeds them in plaster and is always clobbering floor lamps with his backswing. He resolved to stop for 1954. Today was January 2nd. I was doing the dishes. Bang! Golf balls through the soup tureen I was holding. Crash! Through the leaded glass windows in the front door. I took cover under the washing machine. What do you suggest I do, since he is obviously not a man of his word?
—Combat Wife.

Dear "C. W.":

The most commendable approach to this man, is to take the clubs out of the bag, one by one, and break them over his head while shouting, "Happy New Year."

HIGGINBOTHAM INJURED

Prof. A. L. Higginbotham, head of the university journalism department, is convalescing at home following an automobile accident

Pack Tracks

By ROLLAN MELTON

AT VICTORY HEIGHTS:

Harry and Jan Green (Apt. 504) want to peddle a bag of golf clubs . . . The Buddy Brooks' are expecting a new addition to the family . . . Mrs. Don (Bobbie Lee Conant) Jones was hospitalized for a day last week but is back keeping house now . . .

The Rost Bowl game last week must have brought back extra special memories to one Victory Heights resident. Bob Martin, ex-Nevada football player, appeared at Pasadena during the 1949 game between Northwestern and California. Bob was then a sophomore tackle on the Northwestern squad. Although he suffered a broken back in practice two days after the Big Ten team arrived on the coast, he was on the bench in street clothes, and was in on the sight-seeing tours and all the color that goes with participating in the biggest of the bowl games . . .

Ken Yenter and his roommate, Mrs. (Dorothy Berger) Yenter head for Ft. Benning, Georgia next May where Ken gets more instruction on how to be a 2nd Lt. . . . Two family men at the Victory Heights units, Neil Garret and Ron Einstoss, learned upon their return from Holiday vacations that they had won the \$500 sum given from the Little Wal pool for the winning Rose Bowl combination . . .

Stan and Maggie Drakulich are now making their home at Victory Heights (Apt. 404) . . . Mr. and Mrs. Bill Kerston have a six-weeks-old daughter, first child, named Laura. Mrs. Kerston's a Laura too, so's her mother, and also her grandmother . . .

Mr. and Mrs. Mike (Ruth Fitz) Pintar solved the Christmas celebration site problem . . . Mike headed for home at Ely and Ruth went 63 miles to home at Fallon . . .

MILITARY: Dave Buckman, '53, received his commission as a 2nd Louie at the same time he got the sheepskin last spring. He reported to Ft. Benning for further military training but suffered a knee injury during a bayonet practice. The medics treated the knee, then awarded Dave a medical discharge. He's back home now. His engagement to Miss Diane Lewers was announced two weeks ago . . .

Bob (Spade) Moran recently dropped university friends Christmas cards from Paris, France . . . He's a sailor . . . Pvt. Bob Ballard, former ATO president, is going to army school in Baltimore . . .

Capt. Frye of the ROTC staff here, will be Mr. Frye as of Jan. 31. The well-liked military instructor told an advanced class of military students last week he plans to return to his home in Oklahoma. He then reminded everyone of the Okla. Sooners' 7-0 win over previously unbeaten Maryland in the Orange Bowl . . .

A Nevada delegation at Ft. Benning gets together occasionally, according to word from the old Red Head, Willard Esplin. Hashing over campus days have been John Cowley, Frank Shadrack, Wally Burnett, Len Savage, John Sandorf, Bill Pelter, Leo O'Brien . . .

HOW NICE . . . Veteran educator Dr. Harold Brown, who now heads the education department here, will be considered as Dean of a College of Ed. when it is formed, according to news stories published in Reno . . .

Dr. Frank Richardson, the fellow who dropped a decision here last spring, was back in the USA briefly during the holidays. The death of his father brought Richardson from fellowship study in Hawaii . . .

Bill Griggs, a junior, has schedule problems . . . He marries Jeanne Leadon of Hawthorne here in St. Albert's Jan. 30 . . . and he's fighting a San Jose 175-pounder two nights later when the Nevada Wolf Pack opens its mitt season at San Jose . . .

University students working in the post office's parcel post division over the holidays were Joe Leal, Ed Jesse, Bill Cuddy, Ron Einstoss . . . and Ed Stevens of Sparks spent his working hours with the Railway Express . . .

Mary Ann Norlen, who transferred to San Jose this year, was a visitor on the campus this week . . . She's rooming with Miss Joan Miller, also transferred from the U of N . . .

FIGHTERS
Things are looking up for the Nevada boxing varsity . . . Griggs, a two year vet who was undefeated during the regular season in '53, looks impressive in early workouts . . . Duane Moore, also a two-letter winner, has never looked better, according to Coach Jimmy Olivas . . . Moore's concentrating on conditioning . . .

Bill Azbill, at 139 lbs. is all set and ready . . . Letterman Stan Drakulich is working out at 165 pounds, but isn't sure whether or not he'll fight . . . He's now got family responsibilities, money problems . . . Marvin Baker, a letterman last season, returns to man the heavyweight post . . .

Ed Hancock looks sharp in the 155-pound class . . . Elwood Haggerty is back again in the 125-lb. class. He gave national AAU champ Art Guerra of San Jose a tough fight here last season and would like another shot at him . . . Dale Duval, a middleweight, from Lund, is inexperienced, but Coach Olivas describes him as one of the heaviest punchers on the squad . . . Ray Brookman, 125, from Sparks, is working hard and will develop . . .

in which his shoulder was fractured county hospital and was sent home on Dec. 31.

He was thrown from his car in a collision at the corner of Sixth and West streets in Reno on Dec. 28th. The driver of the other car ran a boulevard stop. Prof. Higginbotham was taken to Washoe county hospital and was sent home on Dec. 31. His automobile was wrecked and he suffered severe shock in addition to the shoulder injury. He is not expected to return to his teaching duties until the second week in January.

LITTLE MAN ON CAMPUS

by Dick Bibler

"TRY TO FORGET for a moment I'm your professor and let's talk your problem over man to man."

Graduate Exams

Dates for the national examinations for graduate study were announced this week by William D. Carlson, dean of student affairs.

The graduate record examination will be given on Saturday, Jan. 30, in room 215 in Mackay science hall. Applications must be mailed to the Educational Testing

Service by Jan. 15.

The admission test for graduate study in business will be offered on Saturday, Feb. 6. Jan. 23 is the deadline for applications.

The law school admission test will be given on Feb. 20 in room 110 in the agriculture building. Applications must be mailed by Feb. 5.

Additional information may be obtained from Dean Carlson.

Student Union Committee Report Completed; Open Meeting Tomorrow

By BOB WINKEL

With the new student union building as close to reality as it is, we are once more faced with the problem of finances. On Saturday, Jan. 9th, at 2:00 p. m., a meeting will be held in the Education building auditorium for the purpose of working out a solution to this problem. Everyone is invited.

There will also be special representatives of the halls and various campus groups, the ASUN senate, and the student union committee present at this meeting. The purpose of this article is to put the facts together so that they may be more closely seen and understood.

Representatives of the student union committee have met with the faculty planning and relations council and Dean William Carlson and agreed on the floor plan and recommendations to be submitted to the central planning committee. The central planning committee is the university's liaison with the architect and is composed of representatives of the above mentioned groups, Dean Carlson, Silas Ross, regent, and an alumni representative. The recommendations to be submitted are well within the allotted space as set by the architect. They set the following things to be in the building:

First Floor

Music, browsing or listening room, main desk, director's and secretary's office, office of student chairman, office for ASUN president, special events and organization office, YWCA and AWS office, alumni office, graduate manager's office, student union board and senate room, lobby and circulation space, lounge, auditorium-ballroom, stage, dressing room, and servery for food and toilets.

Basement

Desk for supervision of recreation area, four meeting rooms, kitchen, snack bar, recreation room, toilet, work room and boiler room.

Space has also been allotted for storage, stairs and halls. The com-

plete report can be seen at the ASUN president's office.

All recommendations have been made with the site north of Manzanita lake in mind. This site was recommended by the students, accepted by the board of regents and the architect, and endorsed by persons educated in student union management on the basis of practicality and utility.

Complete in 1955

With the planning proceeding much faster than expected President Minard Stout was contacted and asked when he thought the building would be ready. He said, "the start of the actual construction will be held up until summer (1954) due to a delay in the liquidation of certain securities in the

Travis estate. Construction should take about a year. Therefore, if there are no serious delays, the building should be completed not later than September of 1955." This means the building should be a reality within three semesters.

President Stout also issued a statement on what the university can be expected to contribute to the financing of operations and furniture for the new student union building. He said, "the university can probably be expected to underwrite the following:

- 1.—Upkeep of the grounds.
- 2.—Insurance on the building.
- 3.—Partial janitorial service.
- 4.—Janitorial supplies.
- 5.—Upkeep and maintenance of non-commercial area of the building.
- 6.—Heat, light and power.

The rest of the operative expenses (including director's salary, assistant's salary, activities, etc.) are a student responsibility. In addition, the students must be expected to furnish the building, which according to estimates, will cost between \$70,000.00 and \$90,000.00.

Keeping in mind the speed at which plans are being made and President Stout's statements of

what aid we can expect from the university we are immediately faced with certain very important financial problems, which will arise before the building is even built.

It has been recommended that a director be hired as soon as possible. He could perhaps save the students much money and prevent many mistakes in the construction of the building. In addition he should start working on the program and help the students in raising funds to furnish the union.

We must have some money set aside for furnishings even if we have to borrow the rest or can get some money from donations.

A cash reserve is necessary just for good business practice.

Reserves to reimburse the foods area in case it should lose money during the first months of operation should be established.

In addition, once the student union building is built it is not a money-making operation. It is a

building for the students to be operated in the most beneficial way for them. As a result many of the original expenses must be expected to continue in addition to various other operative expenses.

Examples of some of the expenses which must be faced by other unions already in operation are a director's salary, assistant's salary, office help, etc., part of the janitors' salaries, furniture replacement and money to carry on the program.

Examples of expenses run into by other unions in carrying on their programs have been concerts and speakers, conferences, dances, banquets, movies, assemblies, social and coffee hours and various games for individuals and groups.

These are just a few expenses which may have to be met by the students in carrying on a program. Some money is taken in by the various projects but many times

Boxing to Start With San Jose Meet in February

Pack boxers begin a season of five dual meets and two tournaments when they meet San Jose State at San Jose on February first.

The squad will compete in the San Francisco State invitational tournament on March fifth and sixth and will end the season with the Pacific Coast Intercollegiate on March 18, 19 and 20.

Only two contests are scheduled to be held in Reno this year. Chico will box here on February 26 and San Francisco State on February 20. The UN fighters will meet Chico State there on Feb. sixth and Idaho State at Pocatello on March 13.

Public Workouts

Coach Jimmy Olivas is directing workouts. The squad works out at four o'clock in the back room of the old gymnasium and Coach Olivas welcomes any students who would like to watch practice.

Boxing for the UN this season are Elwood Haggerty, 125 lbs.; Ray Brookman, 125-132; Duane Moore, 132; Bill Agbil, 139; Walt McIntyre, 139; Ted Contri, 147; Bill Priest, 139-147; Ed Hancock, 155; Dale Duval, 155; Carl Looney, 155 or 165; Don Schulze, 155; Don O'Day, 165; Jim Wittenburg, 165.

Other boxers are John Hawkins, 165-178; Bill Griggs, 178; Frank Stewart, 155-165; Bob Genasci, heavyweight. Stan Drakulich, former UN light heavyweight, may join this year's squad but has had a two year layoff and will need a lot of sharpening up.

Coach Olivas hopes to be able to use heavyweight Marvin Baker at San Jose, but Baker will not enroll until next semester and his eligibility before that is questionable.

He: "Do you believe in love at first sight?"
She: "It saves lots of time."

Pack Beat Fresno; Sees Gators Next

When the Wolf Pack twisted the tails of the Fresno State Bulldogs just before Christmas vacation following a fast sixty minutes of scrimmage, it broke the too-long losing streak for the "U." The score board in the new gym read 83-64 in favor of the Nevadans when the two roughed-up teams retired from the court.

Both teams were hampered by the loss of key players due to fouls but with marksmen like Nevada's Reg DePaoli scoring 14 points before dropping out, and Chuck Handley and John Legarza, who stayed on to get 17 points each, or Bill Cooper's 13 before leaving the game, Nevada never lost her early lead.

Tonight the Pack will meet the Golden Gators of San Francisco there for the university's debut in the Far Western conference.

"This double-header with Frisco is really a tossup," said Coach

Jake Lawlor when questioned about the Pack's chances this evening. The coach stated that the two week vacation may tell on the team when they face the men from the Bay City.

The Nevadans will go into the game with only three days practice since the holiday break, but for a welcome change they will face a team of almost equal height. "Speed is going to be the thing tonight," was the coach's comment on tactics, "and San Francisco has a fast team."

The Pack's coach affirmed his belief that the team would "really put out effort to take the first conference games, and I'm pretty sure we'll take at least a split."

PHELPS INJURED

John Franklin Phelps, a sophomore transfer student in engineering, was injured in an automobile accident over the holidays. Phelps was hospitalized for ten days after his car was hit by another vehicle outside of Sacramento, Calif.

He underwent surgery for internal injuries and is now at home convalescing.

STUDENTS WED

Judy MacNeil, junior journalism major, and Earle Dempsey, Nevada mining graduate last June, were married Dec. 26 at Our Lady of the Mountains church in Virginia City.

Mrs. Dempsey is affiliated with Pi Beta Phi and is active in the Press club, Ski club and Newman club. She also does a local radio program of campus news.

Dempsey is a member of Phi Sigma Kappa fraternity. While on campus he was active in Sigma Tau, Blue Key, Scabbard and Blade, Sundowners, Coffin and Key, Crucible club, Associated Engineers and the tumbling team. He was a member of the student senate, and was listed in Who's Who in American colleges and universities.

Now serving a commission in the army engineers, Dempsey is stationed at Fort Belvoir, Virginia.

Shook of the Month: The guy who wore Marilyn Monroe's sweater backwards to a masquerade—and won first prize as a camel.

Delegation of Five Attend Conference

Five university co-eds, the largest delegation Nevada has ever sent, recently returned from the annual Pacific Southwest student YWCA-YMCA conference at Asilomar, Calif., on Monterey Bay Dec. 27 through Jan. 2.

LaVern Gates, Shirley Allen, Pat Davis, Ann Cunningham and Beverly Sue Hug represented Nevada at the conference.

LaVern Gates said the knowledge they gained from the conference "was very valuable in that it will help to build and broaden better understanding of campus activities of all kinds through the 'Y' center."

"Finding meaning in the midst of confusion" was the general theme of the conference.

"Dearest, your stockings are wrinkled."

"You brute! I haven't any on."

31,000 ACTUAL STUDENT INTERVIEWS SHOW COLLEGE SMOKERS PREFER LUCKIES TO ALL OTHER BRANDS!

Latest extensive nationwide survey, supervised by college professors, proves Luckies lead again!

In 1952, a survey of colleges throughout the country showed that smokers in those colleges preferred Luckies to any other cigarette. In 1953, another far more extensive and comprehensive survey—supervised by college professors and based on more than 31,000 actual student interviews—once again proved Luckies' overwhelming popularity. Yes, Luckies lead again over all other brands, regular or king size ... and by a wide margin! The number-one reason: Luckies' better taste!

Committee Report

(Continued from Page Four)
it is not nearly enough to meet the incurred expense.

What To Do?
We should have a new student union building within three semesters . . . a student union building containing only the student wishes. President Stout has told us what the university will give. The people of the state and the late Mr. Travis have already given, with no strings. It is now squarely up to the students.

Expenses which are immediately ahead of us must be met. In addition we must make some provision for the students who will follow us, and not throw all the weight on their shoulders. Every student union in the United States pays a fee to support its building. On the average the fees run from \$5 to \$25 per semester, depending on the debt that the union must pay off. Nevada is indeed fortunate in not having to pay for its building. It is truly the exception rather than the rule. But the students must pay for the operation and furniture for the building. They must provide funds and set up machinery for handling these funds as soon as possible.

Any funds which are raised can be handled in one of three ways:

1. The comptroller of the university could handle the funds, thus taking them out of student hands.
2. The finance control board, which has been set up to take care of other student funds, could handle student union funds.

Coaches Salaries More Than Profs

Coaches in U. S. colleges are paid more than professors, both jobs falling pecuniarily behind physicians and lawyers, said a spokesman for a national education association survey.

Median for coaching salaries in land grant colleges was found \$9,540 as compared to \$8,900 for professors. Some land grant colleges reported salaries to top coaches as high as \$18,000.

Dr. Frank Hubbard, head of the survey, lauded "trained staff members found at work year after year at salaries far below those of occupations which require less or no formal education."

Physicians are paid an average \$10,285 and lawyers \$6,956. The median for university and college presidents is \$15,000.

3. A special group could be set up to handle student union funds. The students must decide. What can we do? It's up to the students. It is hoped that an answer can be found at the student meeting on Saturday. Let's hear from the students at this meeting and show everybody that we can solve our own problems.

It takes a heap of heaping, to make a heap a heap.

STUDENTS OF DRAFT AGE SHOULD KEEP IN TOUCH

Selective service registrants, regardless of status and age, should keep in touch with their local draft boards. This warning was issued by Major General James A. May, State Director of Selective Service.

Hardships have evolved which could have been avoided had the registrants kept his local board informed of his whereabouts. The General reminds registrants of this continuing obligation.

State Selective Service Headquarters also released the following figures on the state's January draft call: Elko and White Pine counties will call one man each; Clark county, six; Nye county, two; and Washoe county, five.

MILITARY GETS NEW MAN

Capt. Edward M. Frye, who took over as assistant professor of military science and tactic in Sept., 1952, will be replaced by Captain James A. Crowe who has recently returned from Korea.

Capt. Frye will accept his army

discharge Jan. 31st and return to Oklahoma City to complete study for his law degree.

He graduated from the University of Oklahoma in 1941 and returned to finish law school but was reactivated with the 45th division of the Oklahoma national guard after completing only two years.

His replacement, Capt. Crowe, joined the school military staff Nov. 10. He graduated from West Point in 1945 and served as a rifle batallion staff officer and company commander in Korea.

Comstock Story Being Reprinted

Reprinting of "The History of the Comstock Lode" is now in process under the direction of the Nevada Bureau of Mines. Two thousand copies selling for \$1.75 each will be on sale sometime in the early spring.

The history was first printed in 1943 by the bureau. The four thousand paper-bound copies have

since been completely sold.

Grant H. Smith, mining attorney in close contact with the Comstock, compiled the information in the book.

The Bureau's office in the Mackay School of Mines, Nevada State Museum in Carson City and various tourist centers serve as distributors for the book.

We go through life, humiliated, degraded, frustrated, thwarted, browbeaten, tormented, broke and married. Then we die and have a large hunk of granite set on our forehead. It's no good.

Breathes there a man with soul so dead, who never hath turned his head and said, "Hmmm, not bad."

GOOD AND QUICK

We'll radiant-broil (not fry) honest-to-GOODness ground beef (not hamburger!), and serve it with trimmings on toasted bun for 35c . . . Ask us and see.

THEY STARTED OUT EVEN AT GRADUATION:

Why is one doing better now?

You may not see it in their outward appearances — but there's a big difference between these young men. One has held three jobs in the five years since graduation. He's still looking for a job that offers him a lifetime career. The other has been with a Bell Telephone Company during that time. He's on his way up!

Seventy-five per cent of college men hired by the Bell Companies since World War II are still with these telephone companies after five years! Here's why:

Telephone Work Is Interesting — You may train to supervise forces engaged in constructing, installing or maintaining telephone facilities; or to manage groups of people handling customer contact, accounting or statistical work. You may work on engineering problems or be engaged in planning or other important staff activities, such as personnel relations, public relations, or revenue studies.

You Grow with a Growing Business — The Bell System is one of the fastest growing businesses in the world. Since the end of World War II, it has spent about nine billion dollars for new construction. The past five years have seen the introduction of network TV transmission, dialing of Long Distance calls and the development of the remarkable transistor. And the next five years will bring many more changes. In addition, each year the number of college people hired is related to estimates of the number of future management positions to be available.

No matter what your military status, it's worth inquiring about Bell System employment opportunities. Your Placement Officer has the details. See him soon. And be sure to talk to our employment representatives when they visit the campus. The time to plan your future is now!

BELL TELEPHONE SYSTEM

'53 UN Grad Dies Suddenly on Trip

Mrs. Charles M. Alpin, the former Miss Elizabeth (Betty) Harris and a 1953 Nevada graduate, died suddenly on Jan. 2 while returning to Boulder, Col. from a Christmas trip to Las Vegas.

Mrs. Alpin was stricken suddenly and was rushed to a hospital in Las Vegas, N. M. She died shortly after reaching the hospital.

Both Were Grads

A Reno resident since 1943, Mrs. Alpin attended the university and was a member of Tri-Delt sorority. She and her husband were members of the 1953 graduating class. They were married in 1951.

The couple had been spending the Christmas holiday with Mr. Alpin's family in Las Vegas. They were returning to Boulder where he is a graduate student and instructor at the University of Colorado.

Mrs. Alpin is survived by a six-month-old daughter, Galey, and her parents, Mr. and Mrs. Deane A. Harris, formerly of Reno and now residing in Concord, Cal.

Funeral services were held at Mr. Alpin's home in Las Vegas, Nev. yesterday.

Objectivity is something you get from both sides in a controversy. (T. Scott)

Three Will Speak At Engineer Meet

Prominent guests will speak at three engineering meetings here this month.

Dr. Perry Byerly, chairman of the University of California Geology department, will speak on the relation of earthquakes to the structure of the earth.

Nevada graduate, A. James Shaver, will speak Jan. 14 at 8:00 p.m. in the Electrical building. Shaver, chief engineer and operating manager of the Colorado river commission, is sponsored by the American Institute of Electrical Engineers.

The American Society of Mechanical Engineers will hear Dean Stanley G. Palmer, college of engineering, on the registration of professional engineers. The meeting is being held in the new electrical engineering building at 7:15 p. m. on Jan. 13.

Women pull themselves together better than men. But they unstrap the thing at night.

MENTAL HEALTH

Reno's mental health society is urging Nevada students interested in mental health to join the organization.

The society met downtown last night to discuss plans for a mental hygiene clinic.

Sue Casey, a member of the student board of directors, said that there are seven committees and a student is needed on each one. The society meets on the first Tuesday of each month and those interested may see Dean Elaine Mobley.

HELMS ON CRUISE

William 'Bilbo' Helms, who was recently called into the Navy while attending the university has sailed for a cruise of the Pacific.

Helms was affiliated with ATO fraternity. His home is in Boulder City where he was a former Boulder high school athletic star.

He has asked his old friends to write him. The address is: William E. Helms, SOSN 422-48-76, USS Perkins, DRR-877, care F.P.O., San Francisco.

Many women set out to conquer the world with a lipstick and a tight skirt. They come very close.

Far Western Meet Has Ten Schools; Nevada Is Newest

University of Nevada basketballers play San Francisco State at San Francisco, tonight and tomorrow night, in marking Nevada's entrance in the new Far Western conference.

The league has been completely reorganized, and for all practical purposes could be considered brand new.

All 1954 members of the league have been affiliated with the league some time or other during the past quarter-century.

Humboldt Has 725

Humboldt State is the only school in the conference with a smaller enrollment than Nevada. Humboldt has about 725 students. Chico State has about 1,450 students, and the California Aggies

approximately 1,500 students, mostly men. San Francisco State has the largest enrollment of any other school in the league with 5,200.

The above members of the league will stage competition in basketball, football, baseball, track, tennis and golf.

San Francisco State has a veteran squad and has already played 10 games this season. Chico State has a winning record to date. Humboldt State and the California Aggies have better appearing squads than they had last year.

SCHEID ATTENDS HEARING

Dean Vernon E. Scheid, Mackay school of mines, recently attended a hearing held by the Nevada Oil and Gas Conservation commission.

Exploration and development of petroleum in Nevada was discussed according to Scheid, chairman of the commission.

How the stars got started...

Eddie Sauter and Bill Finegan,

leaders of America's most excitingly-different dance band, met in 1939 as struggling young arrangers. Ed had studied trumpet and drum at college, worked up to arranging for "name" bands; Bill had studied in Paris, won a spot with Tommy Dorsey. After 13 years of pooling new ideas, they formed their own band. It clicked!

Sauter-Finegan Orchestra

AMERICA'S NEWEST, MOST COLORFUL DANCE BAND

Eddie Sauter says:
"I'VE TRIED MANY BRANDS, BUT I GET MOST PLEASURE FROM CAMELS. YOU WILL, TOO!"

Bill Finegan says:
"WITH ME, CAMELS CLICKED INSTANTLY. THE FLAVOR'S HOW I LIKE IT, THE MILDNESS JUST RIGHT."

START SMOKING CAMELS YOURSELF! Smoke only Camels for 30 days and find out why Camels are first in mildness, flavor and popularity! See how much pure pleasure a cigarette can give you!

For Mildness and Flavor

Camels agree with more people THAN ANY OTHER CIGARETTE!

DIRTY BITS

By SANDRA MITTS

The Pi Phi's started off the new year with four girls passing candy Monday night.

Judy MacNeil Dempsey revealed her marriage to Earl Dempsey. The ceremony took place at St. Mary's of the Mountains Catholic church in Virginia City on Dec. 26.

The engagement of Dolores Steinheimer to SAE Tom Ogg was also announced. Both of the freshmen are Renoites. No future plans have been set as yet.

Another engagement was that of Peg Duckett and John Staunton, SAE. They plan a late summer wedding at their home in Tulelake, Calif.

Peggy, a sophomore, transferred to Nevada this year from Stephens college in Columbus, Mo.

The pinning of Barbara Moore and Herb Holman marked the third Pi Phi-SAE combination of the evening. Barbara is from Reno and Herb from Winnemucca.

On the Tri-Delt scene, Guylene Ferguson announced her pinning to Ted Hicks, a second year student at Annapolis. Both of them are from Reno.

Jo Warwick, another Tri-Delt, this week revealed her engagement and forthcoming marriage to John Onderdonk of Alabama. March 25 is the date set.

Diane Lewers and Dave Buckman will have a Valentine's Day wedding as Diane announced when she passed candy at the three D house before the holidays.

The ceremony will take place at the First Methodist church with the reception following at the sorority house.

Diane will graduate in June, while Dave, an ATO, graduated last spring.

Also announced before the holidays was the pinning of Barbara Dooley, another Tri-Delt, to Paul Fox. Paul belongs to Tau Kappa Epsilon fraternity.

At the Gamma Phi house Monday night, Barbara Darrah passed candy as she announced her engagement to Gene Rummel. Gene, a native of Wausaw, Wis., is presently stationed at Stead. Barbara is president of Panhellenic association.

The women at the Kappa Alpha Theta house made a plea in song for candy Monday night when no one came forth with an announcement.

Dave Ryan, Sigma Nu, came back from the holidays with a ring on the third finger of his left hand. His wife, as of Dec. 27, will graduate from the University of Oregon in February and will then join him here in Reno.

The Tri-Delt activities turned

Quake Expert Will Give Two Talks

A leading seismologist of the West, Dr. Perry Byerly, will return to the Nevada campus after a 25 year absence to give two talks.

Dr. Byerly, an earthquake expert, will speak to the public in Mackay science hall where he taught physics in 1924-1925.

"A Key to the Structure of the Earth" is title of the lecture at 8:00 p. m. Thursday.

Dr. Sigmund Leifson, chairman of the Physics department, and a friend of the seismologist since

the books this week when they took a sneak while the officers were meeting upstairs.

The Theta Chi's invited the Theta women to their house Wednesday night for a party. The main event of the evening was a taffy pull.

1922, said that Dr. Byerly is the most noted earthquake expert in the West. Dr. Leifson and he were classmates at the University of California.

Dr. Byerly will give a more technical talk at 4:00 p. m. in room 200 Friday in the Mackay school of mines, titled "Seismic Prospecting."

The 57-year-old scientist recently made news by proving that the Sierra Nevadas stand on massive foundation of basaltic rock 30 to 40 miles deep. The evidence was supplied by gauging the velocity of earthquake waves.

Dr. Byerly is chief of the Seismology department at the University of California and is in charge of the widely distributed seismographs including the one now at Nevada. Seismologists hope to be able to predict earthquakes with some certainty in the future.

There is something to be said for birth control. It would cut down juvenile delinquency.
