

AIEE VISITS DAM AREA

Senior students of the AIEE returned from a field trip to Boulder City where they demonstrated the use of various electrical devices, chairman Robert Martin announced recently.

The program at Boulder subsection was as follows: Ted Robb, high fidelity; Hans Mohr, transistor radio; Wayne Adams, electric filters; Kermit Reister, radio transmitter; Art Imagine, radio receiver; Jerry Markowski, lie detector; George Samstead, oscilloscope, and Robert Martin, electronic bag pipes.

The students were accompanied by Prof. William Garrott. During the field trip they visited the substation of U. S. Bureau of Reclamation, Western Electrochemical, Stauffer Chemical, the Henderson Rotary club, and the plant of the Pioche Manganese company.

Poetry Contest Open to Students

All university and high school students in the state of Nevada are invited to submit entries to the National League of American Penwomen poetry and painting contest.

The deadline for submitting poetry for the contest has not yet been set. May 1 is the final day for anyone entering a painting to be judged.

Four prizes of twenty-five dollars each will be given.

Paintings should be delivered in person or sent to Mrs. Ivan Sack, in care of the Nevada Art Gallery, 643 Ralston street, Reno. Mrs. Sack will be there from 1 p. m. to 4 p. m. on weekdays.

All poems should be sent to Mrs. Galen deLongchamps, P.O. Box 2526, Reno.

The rules concerning the poems are that they are not to exceed fifty lines, they are to be typewritten, and may be on any subject in any form. One person may not submit more than two to be judged.

Secrecy

The poetry should be submitted anonymously, accompanied by a separate sealed envelope with the title of the poem or poems outside and the name and address of the author inside.

Rules regarding painting entries are that they be limited to two paintings in water color, oil, or casein mediums. They should be no longer than sixteen by twenty inches without the mat.

The awards will be announced on May 14.

Judges for the poetry division are Dr. Robert Gorrell, Dr. Robert Hume, and Mrs. Galen deLongchamps.

Included among the judges for the paintings are Crag Sheppard and Betty Bliss.

NEW BOOKS

Among the new books in the library browsing room rack are "View From Pompey's Head" by Hamilton Basso; "Alexandra" by Tradell; "Glory, God and Gold," by Paul Wellman, and "Stranger Home" by Shiner.

Ted Contri Second In Nationals

RUNNER-UP, TED CONTRI of Nevada, who two weeks ago fought his way to the finals of the National collegiate boxing tournament. The Wolf Pack 147-pounder, lost a narrow decision for the title to defending champ, Herb Odom.

—Photo by Len Crocker

By Rollan Melton

Completely unspoiled by the tremendous nation-wide publicity he earned two weeks ago in the National collegiate boxing tournament is 19-year-old Ted Contri, lko sophomore, who carries an all-American personality as gracefully as any bonafide champion.

While fellow Nevada students were heading for Easter vacation, Ted was at Pocatello, Idaho, the National tournament site, successfully meeting the rigors of America's biggest collegiate boxing event.

He pounded out decisions over Dave Van Etten, of Santa Clara; Terry Tynan of Wisconsin, and classy Bob Rigolis, Syracuse. He finished number two in the nation when defending champion Herb Odom, Michigan State, narrowly decisioned him in the final.

"Odom was big, fast, and plenty ring wise," says Ted. He was nursing a cracked rib from a previous fight and maybe he was coasting. But I tagged him with a few good jabs and a couple of rights. He's the best man I've ever fought, and I knew after the final bell that he'd get the decision."

Ted is completely saturated with modesty. His veteran coach, Jim Olivas saw the fight differently. He watched his protege match blow for blow with the more-experienced Odom and his honest evaluation of the fight was "that

Holstine Speaks To AAUW In Ely

"Education for every boy and girl is the American dream," stated Dr. Garold D. Holstine, dean of the college of education, University of Nevada, in addressing the White Pine branch of the American Association of University Women.

Speaking before the Ely group last week, Dr. Holstine discussed national and state problems faced by Nevadans, and outlined the difficulties and progress being made at the university.

He emphasized particularly the problems caused by the rapidly expanding population as well as the larger percentage of students completing high school and desiring higher education.

The new set-up in the college of education, he said, provides future teachers with a good background in liberal arts and a thorough understanding of what and why they are teaching, and whom they are teaching, as well as the bare mechanics of how to teach.

Nevada Professor Discovers Sacs In Female Cattle

A discovery that may be of great value to the dairy industry has been announced by Howard J. Weeth, assistant professor of animal husbandry. Professor Weeth has found sacs in the fallopian tube of the cow which he believes hinders reproduction.

The sacs, or diverticula, may possibly capture eggs passing through the fallopian tube, which leads from the ovary to the uterus. If Professor Weeth finds conclusive evidence of this in further study, he may have explained the trouble dairymen have occasionally in reproducing their cattle.

This is certainly an important discovery, James F. Kidwell, associate professor of animal husbandry, asserted.

Professor Weeth plans to report his discovery to the Dairy Science meet this summer at Michigan State university.

Pan Hel to Hear Theta Officer Talk

Mrs. Dana McDuffee, district officer of Kappa Alpha Theta, national sorority will speak at the April 19 meeting of the Panhellenic Council.

The Panhellenic Council, governing body for sororities, will meet in the Seminar room at the University of Nevada Library at 7 p. m. Mrs. McDuffee will speak to the group on National Panhellenic Policies.

Elaine Mobley, university dean of women, will also give a report on the National Association of Dean of Women convention. Dean Mobley attended the convention in Chicago, Illinois, during the Easter recess. Her topic will cover the Effects of Increasing Enrollments on Sorority Policies. The theme of the convention for 1955 was Counseling for Maturity.

While in Chicago, Dean Mobley also attended the convention of American Personnel and Guidance Association April 3 through 7th

SENIOR BALL SEMI-FORMAL

Seniors will have their last chance to dress up for an all-school affair tomorrow night when they attend the annual Senior Ball at the Riverside Hotel.

Stairway to Paradise will

be the theme of the semi-formal event which will be open to all university students and their guests.

Dancing will begin at nine in the Redwood Room and continue until midnight.

George Douglass Dies in Accident Returning to Reno

George Ross Douglass, University of Nevada junior, was killed early Sunday when his car went out of control and crashed into rocks about 23 miles east of Reno. He was 20 years old.

Douglass was en route to Reno after spending Easter vacation with his grandmother, Mrs. Nell Ashby, in Las Vegas.

The crash occurred on a straight and level stretch of Highway 40, about three miles east of Clark station. Washoe county sheriff's deputies said Douglass must have fallen asleep at the wheel of the new coupe he was driving. His wrist watch was broken and stopped at 4:35 a. m.

George was the son of James C. Douglass of New York City, and Mrs. Sybil Douglass Miles, of Hollywood, California. He had lived in Las Vegas with his grandmother and was a graduate of Las Vegas high school.

Other survivors include his brother, James Douglass and two sisters, Margo and Mary Lou Miles.

On Campus

On the campus, Douglass was a member of Phi Sigma Kappa fraternity house. He was also a member of the Blue Key and the 1954 varsity football squad. He was an economics major and was enrolled in advanced ROTC classes.

The body will be accompanied to the Bunker Brothers Mortuary in Las Vegas. Arrangements here are under the direction of the Ross-Burke Co.

Call Issued for New Cheerleaders

Call was issued for cheerleaders for next year according to Beverly Griggs, acting head cheerleader. Tryouts will be next week in either the new gym or Mackay stadium. All must be present for registration on Monday, April 18, at 12:15, Beverly stated.

Tryouts, which are usually held in the fall when students return to school, are being held now to eliminate confusion and to give new cheerleaders a longer training period.

Returning yell leaders for next fall will be Evelyn Titus and Bev Griggs. Hollis Manning will graduate this spring, and head caller Carol McGilvray is no longer in school.

RIDING PERIODS BEGIN

Members of Saddle and Spurs, university women's riding club, will begin their weekly riding periods this week and will continue until May 20, according to Jacqueline Wilson, advisor.

The riding hours will be from 3-5 p. m. on Thursdays, and from 1-3 p. m. and 3-5 p. m. on Fri-

FOR SADDLE AND SPURS

Pat Deaton, '54 Aggie club queen and Reno Rodeo queen, will be in charge of a beginner's class this year. Members of the beginner class learn how to handle a horse and to ride horseback.

Fifty-four forty or fight.

21 IN PRIMARY ELECTION; GENERALS NEXT FRIDAY

Twenty one candidates vied for offices of the Associated Students of the University of Nevada in today's primary elections. The surviving thirteen will be in the general election scheduled for Friday, April 22.

The deadline for nominations, which was extended until last Monday, was met with no new nominations after those made prior to the March 31 deadline.

Departing from custom, only two men will run for the office of ASUN president. They are Jerry Mann and Bob Genasci.

Candidates for man senator-at-large are Mike Marfisi, Chuck Coyle, and Ken Robbins.

Woman senator-at-large: Donna Fisher, Margaret Orr, Yvonne Lartley, and Joanne Sawle.

Class Managers

Senior class manager: Ted Scott, Bob Lewis, and Gail Altenburg.

Junior class manager: Gene Kiliany, Stan Draper, Walt Wiseman, and Ron Logar.

Sophomore class manager: Bob

Ferrari, Bobby Lewis, Crispian Cufflin, Braden Stauts, and Gary Brock.

The candidates for woman senator-at-large, senior class manager, junior class manager, and sophomore class manager were placed on the primary ballot today and the top two for each office will be placed on the general ballot.

The five candidates for ASUN president and man senator-at-large will appear on the general ballot only.

Identification may be required in order to vote as specified in the ASUN constitution. It may be requested in the form of drivers license or other positive identification. Student body cards will be dispensed with as a requirement to vote.

Give not thy strength unto women. (Proverbs 31:3).

ORCHESIS TO PRESENT DANCE IN P. E. SHOW

A variety program is planned this week for the annual Physical Education show to be held in the gym April 28, at 8 p. m.

Jacqueline Wilson, advisor of the Orchesis club, said the dance group members are planning one new composition to be ready for the show.

The 1955 show will be given in conjunction with the men's physical education department and will present a cross section of all the Physical Education program at the university.

Lillis Hatch is the newly elected president of the Orchesis club; Betty Ihfe, vice president; Annette Dickson, secretary, and Kathleen Eiland, treasurer.

Don't fire, Gridley. They'll shoot back.

Truisms are so true.

Vote for everybody.

Most Students Want Open Stacks, Recent Library Survey Reveals

Eighty per cent of the students questioned in a recent survey concerning the library at the university indicated that they were anxious to have open book stacks. However, library authorities feel that in the light of recent losses, such a change might bring further complications.

The 80 per cent felt the present practice of closed stacks of books in the basement inadequate, and that they were unable to browse. Of the students questioned, some preferred stack privileges for upperclassmen (most of those polled were juniors and seniors) while others favored having a large number of books available on open shelves in the reading room.

"If open stacks were available, the present honor system is going to have to be supplemented by additional checks on the use of material," according to Robert Staehlin, loan librarian.

"The trend is definitely toward open stacks," he said. Most libraries being constructed today have provisions for more books to be displayed on reference and reserve, but the present library constructed in 1924 has not the facilities nor the money this biennium. Plans are being formulated to bring more books up to the main reading room, however, Staehlin stated.

Time Flies

Many reference books are missing at the library this semester. Among the missing works are a volume of Grove's Dictionary of

Music, two volumes of the "Atlantic," one volume of "Literary Digest," "Newsweek," and four volumes of "Time."

The volumes of the Encyclopedia "Americana" and two of the "Britannica" lost last semester are still missing.

"Percentagewise, however, the university has not lost too many books in comparison to other libraries," Staehlin said.

Dr. Garold Holstine's 10:00 class in public relations made the survey that showed concern about open stacks. The class, which meets on Saturdays, will continue their survey work by polling the faculty in the future. There are 14 graduate students in the class.

GRAD RAGS

"Graduating seniors, please come in and get measured for your cap and gowns." The annual cry was issued this week by Mrs. Harris, director of the student YWCA.

Despite many notices, 35 or 40 seniors have failed to show up to be measured and the deadline is fast approaching.

Final dates are April 18 thru 22, from 9:00 a. m. to 1:00 p. m. in the YWCA room in the basement of Stewart hall.

Thy neck is like the tower of David builded for an armory, whereon there hang a thousand bucklers, all shield of mighty men. (Song of Solomon 4:4).

Vandals Cause Horn to Mourn

By Bob Guinn

Carl Horn sorrowfully shook his head and said that students have no regard for the beauty and care of the campus. They continually "cut across" lawns, violate parking rules, and are destructive in the dorms.

There was a time when these infractions were punished by paddling and throwing the violator in Manzanita Lake by the Men's Upperclass Committee. Since the beginning of World War II the committee has ceased to function as such, only as to preliminary freshman regulations.

For instance, all underclassmen and women students are forbidden to use the front steps of Morrill Hall. This is from the Constitution of the Associated Students of the University of Nevada.

All disciplinary action taken in regard to conduct and university regulations are handled by the Student Welfare Committee, headed by Dr. John R. Gottardi. In the scholastic standing, the regulations are enforced by the Scholastic Standing Committee. For dormitory infractions, the offender must see Dean William D. Carlson.

Dean Carlson and Carl Horn are both concerned with the students' failure to help keep the campus as beautiful as it might be.

There is no new thing under the sun (Ecclesiastes 1:9).

G. I. Bill

A number of students on the G. I. Bill are still kicking around and there are many in the service who will join them soon. But recent congressional action put the match to the dole until World War III or another police action brings it back.

One of the most frequent charges leveled at the G. I. Bill is that it is socialistic. This platitude is less an insult to the American Legion, who shoved the bill through, than it is to socialism. For the socialists stress equality, a welfare state in every sense meaning more than just getting rid of the blundering capitalists. And the G. I. Bill is the epitome of inequality.

A frequent defense of the vast expenditures for the subsidized students is that these educated persons will benefit the country with the skills they could not have acquired otherwise. They are an investment, so the theory goes. But if this cultural investment is so fine, why leave out the men with the flat feet, the broken eardrums, and those who were born at the wrong time to get into a nice juicy war? Through no fault of their own (and we'll ignore the draft dodgers for now) they are not being given equal opportunity.

And the bill is degrading when it is excused as a token of appreciation to the veterans—a veteran is laughably defined as nearly anything that drew government pay. The offer to put you through school if you give your body to Uncle Sam for a few years had become not only a bonus for patriotism but an out-and-out bribe.

One did not enlist, accept a commission, or refuse to dodge the draft in order "to do his bit," as the English say, but in order to GET his bit. Fight a war? Well, that was only the unpleasantness a handful of the men had to experience to get on-the-job training, low-cost insurance, housing loans, medical care, and benefits ad infinitum.

With the G. I. Bill a thing of the past, it is a safe prophecy armed forces recruiters will have more difficulty than ever. Patriots, who are called suckers in our day, are becoming lamentably scarce.

While the Pentagon is demanding more money and facilities for the troops to encourage re-enlistments, it is missing an important reason for the rapid turnover and the necessity of bribes: the unreasoning, petty-minded, stupidity of a conspicuous few of its junior officers and its senior NCO's. After more than four years of them in the foot troops we decided to get out and draw the G. I. Bill.

Now that the chief incentive for warriors is kaput, wearing the uniform is all the more distasteful to those who Citizen Tom Paine called the "Sunshine Patriots." But they may take hope in the probability of another war or the conversion of the nation to a complete welfare state.

High Schoolers Visit News Lab

Junior and senior students from Reno and Sparks high schools visited an informal journalism open house here Wednesday.

Representing journalism classes and newspaper and yearbook staffs of their respective schools, they came as guests of the university's Press club and the Sigma Delta Chi journalism fraternity.

Refreshments were served in the Journalism building as the visiting students were free to inspect the department's facilities and witness a newswriting class in actual session.

The open house program was

primarily a student-to-student function, with the journalism department cooperating.

Mutual problems of student publishing were discussed during the afternoon program.

Ron Einstoss, president of Sigma Delta Chi, acted as host for the group. Hostesses were Romaine Roth, president of the Press club, and Sandra Mitts, assistant editor of Artemisia, and staff members of the Sagebrush.

No representation without taxation.

Down the Drain . . .

With Bruce Bledsoe

Having been allowed to write another column, I will not mention looking out between my bars—every idiot who ever wrote a column at one time or another called himself a nut because he was afraid of the readers saying so and wanted to beat them to the punch—I'll just mention that the sun comes in in streaks.

Speaking of the insane, if you want to drive a friend here, there is no easier or more completely fascinating way than giving him a book of short stories and telling him it is a novel. Watch him try to figure it out and connect the stories. This method is especially recommended for rich relatives, who, as everyone knows, are better off where their money cannot harm them.

If you find life dull, sharpen your razor.

Anthropological Note on the Human Animal:

The human animal, well known for its large ego, is particularly active during the pinning season. The season is so called because the participants get stuck. During this season the typical male may be seen wandering around popping his mouth like a fish. Contrary to speculation, he is not a fish; he is practicing so he can pop the question. The female, not to be outdone, bursts forth in gorgeous colors, like the birds, and hisses constantly. Needless to say, she is practicing the final consonant of her expected one word reply.

The rules are simple. The male spies the female and whistles a tune from Wolfgang Mozart, with the accent more on the former than the latter, and pops expectantly. If the female is pleased, she hisses at him. In response to the hiss, the male pops frantically. The only known way to stop this popping is to place the lips in contact with those of the hissing female human animal. The male animal then pops once more, this time the "question." The female emits the mating call, a high pitched giggle, and, if she is still entranced by this bold adventurer, she hisses.

All that remains is to pin. The male pulls forth a fraternity pin (a fraternity pin is a small, curiously inscribed object, indicating the owner's subserviance to the group theory, more commonly known as the loss of human rights theory). The male then pins the female, and the loss of human animal's courtship is ended. Those few males not adhering to the group may use safety pins.

Letter TO THE EDITOR

Dear Editor: We dare you to print this. We are giving up reading the Sagebrush. We think your editorials stink.

Sincerely yours, Bruce Bledsoe and Sandra Mitts.

Try bullets. They satisfy.

Squatter's Rights

Not so many years ago the newspapers owned by W. H. Hearst were obsessed editorially with the vivisection of small animals. The Sunday supplements were perennially campaigning in a state of indignation.

The Sagebrush obsession seems to be Victory Heights.

It was recently announced that the married housing would be coming down piecemeal starting almost immediately. But the final eradication of all the buildings is not set until 1958. Their removal without replacement is made necessary by the stupidity and short-sightedness that was evident throughout the legislative session.

But it is quite difficult to comprehend why the buildings have to be destroyed one by one long before the 1958 deadline. This will require students to move from the selected building into another apartment for no logical reason. Like displaced persons, they must leave the apartment they have spent considerable money on for no advantage to anyone.

We know little about wrecking costs but it would seem far more expensive to move the heavy equipment several times a year than to tear all the buildings down simultaneously in 1958, which is the supposed object.

ALLEN NEW PRESIDENT OF CAMPUS Y.W.C.A.

Shirley Allen was recently elected president of the campus YWCA. Other new officers are: Lola Honey, vice president; Carol Tollefson, treasurer, and Francine Luwe, secretary.

The YWCA advisory board held a pot-luck lunch Thursday for the new members of the board in the YWCA room in Stewart hall.

New members recently elected to the advisory board are: Mrs. H. E. Norton, Mrs. Florence Byars and Mrs. John G. Folkes, all of Reno.

THETAS ROLLER SKATE WITH THETA CHIS

The Theta Chi's roller skated with the Kappa Alpha Theta's in the old gym last Wednesday night, while the Gamma Phi Beta's socialized with the Sigma Alpha Epsilons at the SAE fraternity house.

Sunday night the Theta's will congregate with the Alpha Tau Omega's in the old gym to play volley ball, followed by refreshments at the Tau house.

News makes names.

Why do more college men and women smoke VICEROYS than any other filter cigarette?

BECAUSE ONLY VICEROY GIVES YOU A PURE, NON-MINERAL, NON-TOXIC FILTER WITH 20,000 FILTER TRAPS IN EVERY FILTER TIP!

1. Yes, only Viceroy has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in *any other cigarette*.
2. Besides being non-mineral and non-toxic, this cellulose-acetate filter never shreds or crumbles.
3. The Viceroy filter wasn't just whipped up and rushed to market to meet the new and skyrocketing demand for filtered cigarettes. Viceroy pioneered. Started research *more than 20 years ago* to create the *pure* and perfect filter.
4. Smokers en masse report that filtered Viceroys have a finer flavor even than cigarettes without filters. Rich, satisfying, yet pleasantly mild.
5. Viceroy draws so easily that you wouldn't know, without looking, that it even had a filter tip . . . and Viceroys cost only a penny or two more than cigarettes without filters!

That's why more college men and women smoke VICEROYS than any other filter cigarette . . . that's why VICEROY is the largest-selling filter cigarette in the world!

20,000 TINY FILTER TRAPS . . . plus Richer, Smoother Flavor

Nevada Athletes Return to Action

Nevada athletes will return to action this weekend after the Easter vacation. The golf and tennis squads are scheduled to see action this weekend and the Wolf Pack baseball squad will play three games early next week.

The track and field men will be the only ones resting for another full week.

The golf squad traveled to Sacramento for a four-way match yesterday.

They resumed competition with a record of one win and four losses. The club men have defeated Humboldt State while losing to Chico State in a three-way meet. They dropped three more in a four-way go with Sacramento, San Francisco State, and Chico State.

Hutch Nenzel's racket men will also be in Sacramento Friday and Saturday to take on Chico State,

San Francisco State, and Sacramento State players.

The tennis squad boasts a 2-1 record with wins over the University of Montana and the Cal Aggies.

The only loss was at the hands of San Jose State, 6-3, on the Nevada court.

Crew Rests

Coach Glen "Jake" Lawlor's diamond crew will not see action until Tuesday, April 19, at which time they will play a double-header with Chico State.

The squad was scheduled to tangle with the Fallon Naval Air Station April 12, but due to difficulties the game was postponed until April 20 at 2:00 p. m.

All three of the games will be played at Threlkel's ball park in Sparks.

Chico comes to Reno after handling the Pack two losses at Chico April 2.

Nevada lost the first of the practice games by a score of 7-3 in the

DR. BROWN REPRESENTS UN IN DENVER MEET

Dr. Harold Brown, professor of education, will represent the University of Nevada college of education at a convention in Denver, Colorado, April 17-20.

The Conference on Instruction is second of a series of conferences sponsored by the National Educational Association. The purpose of the meetings is to discuss problems relating to the improvement of instruction in the elementary and secondary schools.

Dr. Garold Holstine, dean of the college of education, was one of the speakers and consultants at the first conference held in April of 1954.

Those who stand still too long get trench foot.

afternoon and dropped a nightcap 5-4.

Hugh Smithwick's track and field men will spend the week preparing for next weekend's meet at Chico State.

USE SUN'S POWER SAYS RESEARCHER

Applied solar energy research and development was the topic of two separate lectures given here Wednesday and Thursday.

Beardsley Graham, assistant director of Stanford Research institute, discussed the science of harnessing the sun's energy at lectures for students, faculty and the public, describing recent advances in the applied solar energy research.

"We Turn to the Sun" was the title of the noted solar energy expert's talk.

Graham pointed out the industrial and agricultural future of arid land regions that comprise more than one-fifth of the total surface of the earth may well depend upon our learning how to harness the tremendous energy output of the sun.

Graham, a registered professional engineer in Arizona and California, has been an engineer with RCA and chief engineer with the Bendix Aviation corporation. He

Pi Phis to Hold Costume Dance

Pi Beta Phi's and their dates will don their pajamas tonight for their spring pledge and costume dance. The annual event will take place at the New El Rancho, on Airport road, and will feature the club's combo for the dance music.

The El Rancho will be decorated by the committee headed by Margot Hoagland. Vivian Potter, social chairman, announced that guests invited were Mrs. Naismith, housemother at Manzanita hall; Professor Donald G. Cooney of the Agriculture department; Professor Eustin E. Hutcheson, history and political science, and the Pi Phi housemother, Lucille Moore.

LINCOLN HALL TV SET GONE FROM LOUNGE

Andrew Kajns, Lincoln hall monitor, dusted off the television set in the empty hall lounge room before he called it a day a week ago last Thursday.

When he returned to work on the morning of Good Friday he discovered that the television set that had been there the afternoon before was gone.

This is the situation as it still stands at Lincoln hall. The set is gone and no one seems to know what happened to it.

Valued at three hundred dollars, the TV set was bought last fall by the students residing at the hall. The set was also insured and is expected to be replaced—probably after a routine insurance investigation.

Contri Second

(Continued from Page 1)

it could have gone either way."

Two Years Left

Ted has two years' eligibility left, and Olivas believes the fast-developing fighter is a good bet for next year's U. S. Olympic team. Likewise, Ty Cobb, dean of Nevada's sportswriters, says Contri's style appeals to Olympic coaches.

"His straight stance, quick jabbing, and fast combinations are made to order for Olympic material," says Cobb. "Contri is one of the finest welters I've seen on any Nevada team."

Final judge on what the future holds will be Contri, himself. Right now, he's busy catching up on studies. He is a civil engineering student. In addition to ring talent, he also owns an eagerness to learn, to get a firm educational return out of his college investment.

No Football

He enrolled at Nevada in 1953, decided football was for beefier individuals, and he concentrated on boxing. Despite lack of experience, he was immediately labeled a "natural" by the Nevada coach. At the close of his freshman season, Contri had a 3-2 record with losses to Al White, San Jose, and Russ Lundgreen, Idaho State.

"Lundgren gave me my worst whipping," recalled Ted the other day. "But I'd like to get a shot at him now." Contri is speaking with the quiet confidence he gained this season as he won the Pacific coast 147-pound title, was national runner-up, and owner of an 8-1-1 record.

Ted's father, Larry Contri, of Sacramento, campaigned as a lightweight in the professional ranks and had about 25 fights. He's never pushed Ted into the ring, though. Just let him get started on his own.

His mother, Mrs. Cal Lynn, lives in Elko and rates as one of her son's top boosters.

DIPLOMA FEE DUE

Senior students who want to graduate this June are asked to take their diploma fee to the Registrar's office immediately.

Many students have not yet paid the eight dollar fee, the office reports.

LUCKY DROODLES! ALL BRAND NEW!

WHAT'S THIS? For solution see paragraph below.

ARE YOU METICULOUS about your choice of cigarettes? Do you want exactly the right taste? Then take a hint from the Doodle above, titled: Ash tray belonging to very tidy Lucky smoker. Luckies taste neat—and for excellent reasons. First of all, Lucky Strike means fine tobacco. Then, that tobacco is toasted to taste better.

"It's Toasted" is the famous Lucky Strike process that tones up Luckies' light, good-tasting tobacco to make it taste even better... cleaner, fresher, smoother. So enjoy yourself thoroughly whenever it's light-up time. Light up the better-tasting cigarette... Lucky Strike.

COLLEGE SMOKERS PREFER LUCKIES! Luckies lead all other brands in colleges—and by a wide margin—according to an exhaustive, coast-to-coast college survey. The No. 1 reason: Luckies taste better.

Better taste Luckies... LUCKIES TASTE BETTER CLEANER, FRESHER, SMOOTHER!

Debate Teams Compete at Montana, Idaho Universities April 18-23

Two debate teams from the University of Nevada will compete against the teams from the University of Montana and the University of Idaho for six successive days, April 18 to 23.

Members of the teams are: team one, Steve Stewart and Chad Combs, and team two, Dwight Powell and Sue Casey.

Sue Casey will be the only woman student competing against men debaters.

The question of the debate is "That the United States should extend diplomatic recognition to the Communist government of China."

At the University of Idaho in the Pacific Forensic League tournament this year, Steve Stewart and Chad Combs will debate. Stewart will represent the Uni-

versity of Nevada in oratory, extemporaneous, and after-dinner speaking contests.

Last Year

Bev Sue Hug and Sue Casey won the senior women's championship at the University of Montana tournaments last year. Because of a change in plans Bev withdrew from the competition this year. This left Sue without a partner.

As a consequence, Sue will retire as the senior women's champion in that division.

Last year Steve Stewart and Ray Kjeldsen, as a team, were the runners-up in the senior men's division at Montana. They lost a split decision in the last round.

Steve placed in the finals at Oregon State College in an oratory, extemporaneous, and after-dinner speaking contest last year.

Closing Scheduled For Victory Hgts.

Victory Heights, the University's housing project accommodating married students, is scheduled to be closed by July 1, 1958.

A notice from the office of William D. Carlson, dean of student affairs, has informed the current occupants of the project that the buildings are to be vacated no later than June 30, 1958, when the present freshmen are supposed to graduate.

No new students will be allowed to move into the project and occupancy will end for present occupants upon graduation, withdrawal from the university, or eviction as the result of violation of regulations.

Under the proposed arrangements, present freshmen will be expected to vacate no later than June 30, 1958; present sophomores, June 30, 1957; present juniors, June 30, 1956, and present seniors, June 30, 1955.

Dean Carlson has stated that those who are now graduate students would not be expected to leave until after they have finished their training and that staff mem-

bers residing in the buildings would be given until the summer of 1956 to vacate.

It is expected that one, possibly two, of the buildings could be completely vacated by this summer. To vacate a building completely, it may be necessary to shift occupants of buildings being closed to apartments in the buildings being retained.

At the present time there are no definite arrangements to replace the buildings. Legislation that would have made it possible to construct a new housing project was defeated in the 1955 session of the Nevada legislature.

As the buildings are vacated, Dean Carlson said, the state will be responsible.

HOME EC PROF. INJURED

In a horseback riding accident recently Home Economics teacher Harriet Fonda cracked a vertebrae and is now hospitalized.

Professor Mildred Swift is temporarily carrying the home economics teaching load alone since Miss Virginia Carol, another home ec teacher, died recently.

POWER FAILURE THREAT TO END AT LINCOLN HALL

A power failure which temporarily inconvenienced students living at Lincoln hall when they returned from the Christmas holidays will be permanently fixed sometime next week.

Carl Horn, superintendent of halls and grounds, said that the break in the power line was found last Friday afternoon under the electrical engineering building.

After the failure a temporary line was laid to supply Lincoln hall with electricity. Maintenance men then started digging to find the break.

An estimated three hundred feet of cable was ordered from San Francisco to repair the break. Concluding work will begin early next week.

Civil Engineers Take Field Trip

The senior civil engineers got off a week early this year for Easter vacation.

The occasion was the annual senior civil engineers trip to California.

Eleven seniors, accompanied by Prof. Robert Poolman, visited Shasta Dam, the masonite metal plant in Ukiah, a basalt rock plant in Napa, the Richardson Bay bridge in Marin county, now under construction, and the Richmond-San Raphael bridge under construction.

Those who made up the group were Gilbert Anderson, Jake Carpenter, Grant Engstrom, Eugene

Grows, Ronald Lemmon, Henry Martin, Ronald Munk, John Quintana, Allan Ramsey, Joseph Triunfo, and Floyd Vice.

Intramural Game Schedules Are Given

Intramural schedules for tennis, handball, and baseball were released this week by director of intramural activities, Professor Chester A. Scranton.

Official contest rules are that teams failing to show within ten minutes of the scheduled playing time will forfeit the match.

Athletic officials should be provided by the respective athletic managers, and games may not be postponed without first obtaining agreement from athletic managers of both teams and the Intramural Supervisor, G. A. Broten.

Holstine Tours Nevada, Calif.

Dr. Garold Holstine, dean of the college of education, is a busy man during this month. Speaking engagements take him to many areas of Nevada and even into California.

Talks during the month of April will take Nevada's lecturer to Ely, Carson City and Truckee, Calif.

At Ely, April 2, the dean spoke to the American Association of University Women at a luncheon.

"Opportunities in Higher Education for our Young People," was the title of a talk given by the dean at Truckee, Calif., on April 14.

Returning to Reno, Dean Holstine will speak before the Nevada Congress of Parents and Teachers on "Suggestions for Good Program Planning." The address will be given in Sparks April 25.

May 2 is the date set for an address by the dean to the Association for Childhood Education at Reno. His lecture will be entitled "Leadership in Education."

As dean of the University of North Dakota's college of education, Dr. Holstine averaged 75 to 100 talks annually to civic clubs, church groups, professional organizations, education conferences, commencements, and at many other events.

Wash often.

ROTC FIRES M-1
ROTC advance course students will fire the .30 caliber M-1 Saturday, April 16, at the Reno Rifle and Pistol Club

range. Weather permitting, firing begins at 8 a. m., as the fifty 3rd and 4th year students prepare for summer training camp.
