

## Violence Flares Here After Hornet Game

By Bob Brown

Dean of Student Affairs, William Carison, and ASUN president Chuck Coyle said they had not yet received any official notification from Sacramento State officials as to their intentions to seek "proper" restitutions for property damages incurred by several of their students last weekend, while in Reno.

In a release to United Press last Monday, Sacramento State officials told of plans to seek "restitutions" for damages allegedly inflicted by students of the University of Nevada. The Sacramento students were here for the basketball series, which decided the conference championship.

Sacramento State student body president, Tom Willoughby, told United Press of plans to write Coyle, asking the Nevadans to pay an automotive repair bill of almost \$150 to a Sacramento student for damages incurred during the fracas.

Willoughby also indicated the letter will charge the Nevada students with "slapping one Sacramento co-ed" and "insulting several others."

Coyle expressed displeasure at the manner in which the Sacramento State officials are handling the matter, releasing their plans to a press association before notifying him or Dean Carlson.

Coyle inferred that there is still much of a mystery as to the exact circumstances of the tussle, and refused to make any statements as to what course of action would be taken, until he receives the Sacramento State official's statement asking "restitution" be made.

First of these skirmishes was Friday night following the basketball game. A group of Sacramento students were carrying an air-horn, which they had in their rooting section, to their car in the University parking lot adjacent to the gymnasium.

They were accosted by a group of men believed to be from Nevada, who attempted to take the horn. A brief struggle for possession of the horn followed.

During the course of the struggle, the "tank" of the horn apparatus was pulled loose from the horn. The Sacramento students were able to keep possession of the horn, but the Nevada group got away with the tank.

During the scramble, a University of Nevada student suffered a fractured jaw, and a Sacramento yell leader a split lip.

The student whose jaw was fractured related the incident which took place in the parking

lot, saying "Before the game was over, I heard some guys talking about taking the horn. I was walking by just as the fight started. Before I knew it, someone had hit me on the jaw. That's when it broke. I went after him but just as I caught him, someone hit with a "rabbit-punch" and I went out. I don't know whether the person was from Nevada, Sac State, or somewhere else; it was too dark in the parking lot to be able to tell for sure just who he was."

### Reno City Police Called

The Reno City police were called, but by the time they arrived on the scene, the fracas was over and the crowd had dispersed.

Several of the Sacramento State rooters were provided with a police escort to a motel in Sparks, where they were staying. Escorting the students were patrolmen Clarence Wesley, and Al Barlow, of the Reno police department, who had been dispatched to the University parking lot to investigate reports of rioting.

Early Saturday morning a group of alleged "University of Nevada students" went to the motel in

## Phi Sigs Plan To Buy House

Phi Sigma Kappa will probably buy a house within the next month to replace the one which was ruined by fire February 4. They will not build a new one, said newly-elected president Bob Hemphill.

The Phi Sigs have looked at a house near the campus, but no decision has been made on it yet, Hemphill said.

Hemphill was elected president at a recent meeting of the fraternity. Other officers elected were:

Ed Piper, vice-president; Pat Lavin, secretary; Dennis Smith, treasurer; Leon Wells, house manager; Gary Foster, sentinel; Harvey Gordon, pledge instructor, and Dave Hansen, social chairman.

Several activities are planned by the Phi Sigs in the near future.

(Continued on Page 9)

## Three Co-eds Vie In AWS Election

Three women students on campus are competing for the "top" women's position at the University, that of Associated Women Students' president. The AWS president is automatically vice president of the student body. She will be elected by the women students in the primary election today, and the general election which will be held next Wednesday.

Qualifications on which these women have been cleared are: senior standing, an overall 2.4 grade average, and leadership ability.

### Candidates Include

Suzanne Swartz, a junior student in the college of education, is from Henderson, Nevada. She is 20 years old and stands 5'5" tall. Suzanne weighs 125 and has brown hair and brown eyes.

She has been the secretary-treasurer on the AWS council for the past two years. As a member of Gamma Phi Beta sorority, she acted as chairman of this year's Homecoming skit, recording secretary, and is the co-chairman of Mackay Day song team.

Suzanne is the secretary of the Newman club, and is also active on the debate team. She is a member of Phi Alpha Theta, an honorary history society.

Her major interests lie in dramatics and music.

**If I am elected to the post of AWS president, Suzanne said, I will be free to devote all my time to it, for I am not tied down with any burdensome duties. I am interested in and willing to represent all women**

**on campus fairly, and if need be, each one individually.**

Penny Molineux, also in the education department, is a physical education major. As a member of the PEMS, physical education majors and minors, Penny has served on many committees and is now the editor. She is 5'2" tall and weighs 120 pounds. Her hair is light brown and her eyes are also brown.

She has served as president of Saddle and Spurs, a women's riding club, for two successive years. She has been the secretary-treasurer and served on the executive board of the Aggie club. As a member of the Aggie club, Penny was secretary of the first Aggie horseshow and was the representative to the Nevada horsemen association's regional meeting. Her work in these clubs has been influenced by a life-long hobby of horseback riding. Penny's other hobby is writing.

A Renoite, who lives at 1318 Arlington, Penny is a member of Delta Delta Delta sorority. She is historian for her sorority, as well as being a member of Young Republicans, Band, and Women's Recreational Activities.

Penny attended school last year on the Judge A. J. Maestretti scholarship.

**Penny said that she would, if elected, "advocate no immediate changes because the present president has done a wonderful job. My main platform is that I will offer the women students my very best and try to keep things running just as smooth as they are running right now."**

Myram Borders, a 20-year-old Pi Beta Phi member, is also a candidate for the AWS presidency. She has come to the University from Las Vegas high school, where she was awarded the Harolds Club scholarship. Myram stands 5'3½" tall and has hazel eyes and black hair.

As a journalism major, Myram is the president of the Press club, a member of the ASUN publications board and editor of the University yearbook, the Artemisia.

Myram has worked as chairman of the constitutional revision committee and as a member of the hours committee on the AWS council this year.

As a member of senate, she has served on the executive committee, the dining hall committee, and as a member of the student news service.

Myram is now the vice president and historian of the Pi Beta Phi sorority. She has been the sorority's pledge supervisor, music chairman, house manager, censor, and alternate delegate to the 1956 national convention.

THE LARGEST CROWD to see a University basketball game in several years rises to its feet to cheer the Wolfpack to the conference championship.

PROF. A. L. Higginbotham, newly elected vice president of the Nevada State Press Association.

# Journalism Prof. Elected Nevada State Press VP

Prof. A. L. Higginbotham, chairman of the department of journalism, was elected vice-president of the Nevada State Press association at the 32nd annual convention last weekend in Las Vegas. Three Nevada journalism graduates received awards.

A check for \$515 was given to Professor Higginbotham at the convention "to further the teaching of journalism" at the University. The award was made by Claude Smith, publisher of the Fallon Standard.

"Nevada journalism graduates were so numerous at the convention that it was more like a campus re-union," Professor Higginbotham reported.

In a morning address Professor

Higginbotham told publishers that the growing shortage of reporting talent for newspapers will become even more acute if "grass roots recruiting and increased pay are not forthcoming."

The professor, whose students "are legion in West-Coast journalism," according to the Las Vegas Sun, declared that grass roots recruiting must be undertaken by the schools, the newsmen them-

selves, and by ads in Nevada newspapers.

"Interest the young people in the field while they are still in school," the professor said.

He also urged increases in journalism scholarships, especially for high school graduates just entering the universities.

Professor Higginbotham's remarks were underscored by E. W. "Ted" Scripps of the Scripps-Howard Newspapers. Scripps, a national vice-president of Sigma Delta Chi, professional journalistic fraternity, and a Nevada journalism graduate.

**Commercial**  
**HARDWARE CO.**  
**Builders Hardware & Tools**  
 500 E. 4th and 24 W. Commercial Row FA 9-0231

Frank McCulloch, manager of the Los Angeles Bureau of Times-Life, Inc., and one of Professor Higginbotham's star pupils, defended the necessity for interpretive reporting.

So-called objective reporting, he said, is a farce. Each reporter has to report the news as he sees it."

Awards received by University journalism alumni were:

For **BEST NEWS PICTURE**—Chris H. Scheerin, co-publisher and Gene Evans, city Editor, of the Elko Daily Free Press, received the award for the first pictures taken in a Nevada district court.

**BEST FEATURE BY A MAN**—Bill Gillis, editor of the Henderson Home News and the Boulder City News, for a four-part series on the Henderson school system.

The 1958 NSPA convention will be held on the University campus. It will be built around the 35th anniversary of the first class of journalism instruction in 1922. Chris Sheerin, editor-publisher of the Elko Free Press, and twice a president of the state association, was a member of the class, and also one of the first graduates in journalism.

In charge of the convention at Las Vegas was Mrs. Ruthe Deskin, Las Vegas Sun, and University journalism alumni. Working with her was Ray Germain, journalism teacher at Nevada Southern.

### FRATERNITY PLANS BOOSTED BY EXECUTIVE DIRECTOR

Plans for the formation of a chapter of Delta Sigma Pi, national business administration fraternity, were given a boost here on campus by James Thompson, executive director of the national chapter.

Thompson, on a visit to the western states, stopped for an informal inspection of the facilities at the University of Nevada.

Thompson was favorably impressed with the number of students available to support such a fraternity, the new quarters that will soon be ready for occupancy, and the success of the social fraternities.

Dean Weems urges all students interested in a fraternity of business people to contact his office at their convenience.

**Awards Presented At AWS Assembly**

AWS presidential candidates were introduced and three scholarship awards were presented at the Associated Women Students' "for women only" assembly held last night.

Pi Beta Phi won the improvement trophy, the U of N Women's Scholarship Award plaque.

Tri Deltas won both the Pan Hellenic cup for actives' scholarship and the Junior Panhellenic cup for pledges' scholarship.

The Lancers, recording artists and night club entertainers, were an added attraction on the program planned by Joan Sawie, AWS vice president. Originally planned for 11 a.m., the assembly time was changed in order that the Lancers could appear.

Designed to take the place of "Co-ed Capers," an all-women function held twice a year in the past, the assembly provided a time for Dean of Women Elaine Mobley to present three scholarship awards.

In addition, the WRA volleyball trophy was awarded to Pi Beta Phi.

**MYRAM BORDERS**, AWS presidential candidate.

Entertainment for the program was also provided by each of the living groups, with Diane Martin acting as emcee.

Appearing in Artemisia-Manzanita's "melodrama" were Betty Couch, Sheila Zail, Marlon Davidson, Marcia Craig, Carolyn Braswell, and Janet Mathews.

Gamma Phi Beta's skit was composed of Norma Jean Annett,

Pat Reynolds, Rita Miolini, and Olivia Forsythe.

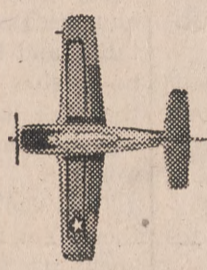

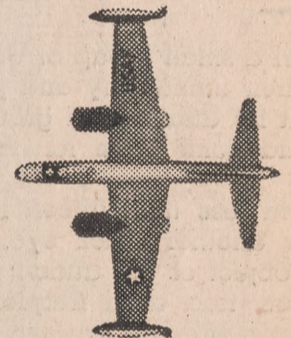

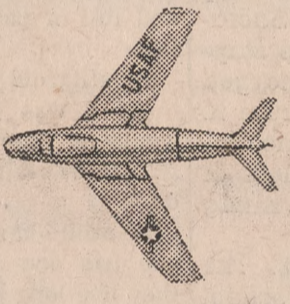

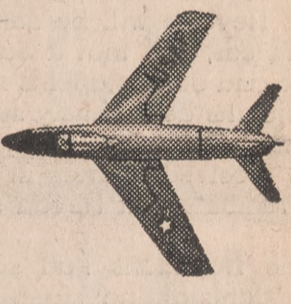

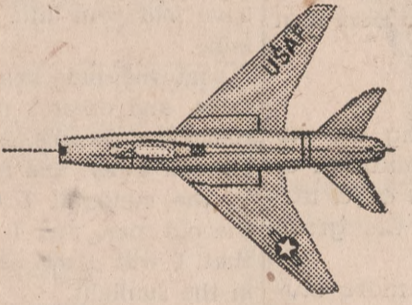

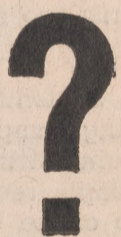

Tri Deltas Mac Jackson, Josie Aufdermaur, Sandra McNair, Diane Oldenburg, Diane Martin, Cynthia Heth, Nedra Norton, Simmie Cooper and Trudy Caddell presented "College Days."

Thetas Karen Knudson, Elsa

Freitag, Gayle Hall, Barbara Chancellor, Kress Harris, Gay Brennan, Kathy Warner, Virsiellen Eberle, Glenda Price, Sally Fokett, Penny McMullen, Fran Beer, Cathy Zimmerman, Karen Gaffney, and Jeannie Freeman were in the cast of "Scenes We'd Like to See."

"Hits of Broadway" was the presentation of Pi Phi's Barbara Ruark, Sharon Teglia, Kay Hicks, Kay Kelley, Theresa Mariani, Marilyn Ferrari, Marcia Bergevin, Mary Morton, and Marilyn Hall. The assembly was arranged for by Assembly Chairman Dick Bryan.

NORTH AMERICAN HAS BUILT MORE AIRPLANES THAN ANY OTHER COMPANY IN THE WORLD

## Editorial

Once again a small group of University students have publicly proven their immaturity and poor sportsmanship.

They did it by attacking a group of Sacramento State students who had come here for the championship basketball series.

It took them less than fifteen minutes to give the student body at large another black eye.

The main object of the attack was a horn which the Sacramento rooters had used frequently during Friday night's game. This horn evidently irritated some University students so much, that they could not resist starting a fray over it.

The result of all this is trouble. The Sacramento student body president says Nevada will be sued for damages to a Sacramento student's car, and that a Sacramento woman was slapped in the face and other students roughed up. He has charged that Nevada students deliberately stomped on the car to ruin it.

Now this may be so and it may not be. Certainly some Nevada students received injuries in the fight. But regardless of that, the fact remains that Nevada students attacked a visiting group.

Perhaps the Nevadans had some legitimate gripes. The Sacramento students did not stand up when the Nevada school song was played; they frequently tried to drown out Nevada cheers with their horn. But even if your visitor is rude, he is still a visitor, and should be treated as such. It is too bad that some Nevada students are incapable of doing this.

One doesn't ask students to refrain from walking on the grass because "cutting campus" is listed in the constitution of the Associated Students of the University of Nevada as a tradition but for the simple reason that it is bad for the grass and the appearance of the University grounds.

In the past few weeks it seems that more and more students find it easier to walk across the brief patches of grass around the Quadrangle and, since this is so convenient, some continue their journey to class on a bee-line across the broad expanse of greenery at the center of the University.

This petty and flagrant violation leads to other slovenly habits that degrade this Institution.

This is an open mockery to students making an effort to govern themselves. How can students submit suggestions for a social code with a straight face when they can't observe even the simplest of rules? This is the basis for many conflicts within a democratic society. Most people aren't capable of establishing rules which they think are beneficial to everyone and living up to them themselves.

## Boxers to Face Sacramento Again

Pack boxers will seek revenge for an earlier setback handed them by the Sacramento State "Hornets" when they meet in a return battle Monday evening. The Hornets downed the Nevadans 5-3 in a bout held last week in Sacramento.

The Pack will be at near full strength for the Sac. State mix. The 178-pound class will find newcomer Leonard Howard of Fernley, in his first collegiate start. Howard, a freshman, was recently discharged from service, where he

had several bouts.

Nevada will go with the regular line in the other classes. Sammy Macias, who regularly fights in the 119-pound class, will move up to the 126-pound class since the "Hornets" do not have an entry in the 119-pound class.

Others from Nevada participating in Monday night's card will include Joe Bliss, 132; Jerry Tobin, 139; Bill Short, 147; Jack Batchelder, 155; Chuck Smith, 165, and Bob Genasci, heavyweight.

## DOWN THE DRAIN

By BRUCE BLEDSOE

"Say, it's a nice sky out. Reminds me of the sky back home when I was a kid."

"Yes."

"I remember when I was your age, we did a lot things. Got drunk a lot, and raised hell in town."

"Yes."

"Yes, we did, too. I can remember a lot of things. But they're all very, very far away now."

The old man leans back, and tells of the time he put the cow on the roof, and the fight he had with the neighbor's boy, and the car that wouldn't go even when you cranked it.

He talks on and on, and I long to say, Be still, old man. There is nothing I can do about your age. And what do I care of these things you say? There are stories about dead people doing dead things. But I cannot interrupt him, because his eyes shine as he talks, and his voice is eager, and he pushes on relentlessly. But then the light fades and his eyes look out uncertainly again at the world.

"You don't realize how fast time flies. You'll be old before you know it. You'll be old, and you won't be able to do the things you used to do . . . How fast those years flew. Yes, sir. You'll be old and full of pain before you know it."

Be still, old man.

"If I was your age again, it would be fine. The things I'd do . . . there's all sorts of things I'd do."

Be still, old man, be still! Everyone has one life to live, and if they live long enough they will get old. I can do nothing about it, you can do nothing about it. You have had your life. Let me have mine.

And the old man talks, and talks, and dreams memories, and remember dreams. And eventually I break away, and hide from fear in the sunlight. I cannot forget the old man, and I cannot forget that I will grow old, and I hide in the sunlight.

—o—

"My love, my love, do not grow old. Stay young with me."

"What on earth do you mean?"

"Hold me. Do not go. I am afraid tonight."

"What of? What is there to be afraid of tonight?"

"Of you—growing old. Of your cheeks not so fair, and your eyes not so bright. Of a heaviness in your shoulders, and folds in your skin. And seeing it in you, I know it will be in me. I am afraid of growing old, and of not being any more. I want to live forever, and be young forever. You must promise me you will not grow old."

"My love, my sweet, I must grow old. It happens to everyone, and there is nothing we can do about it. But it is not so tonight. Let us have tonight."

"But it will happen! It will happen!"

"Then look at the moon. We who have a short time must hold on to things that do not change."

"The moon is a coward. It watches us come and go, and will not go itself. It will go someday."

(Continued on Page 8)

## Sideline Glances

By Ken Robbins

Student court, discussed thoroughly since it was suggested for this campus last year, is still in the talking and planning stage and from all indications will be scrapped this year. Whether it will progress next year or in the years to come depends entirely upon the initiative of present underclassmen.

The lack of progress this year seems to be centered around the question of: Will the student court function for the benefit of the students, and if instituted, who will act as its policing agency? These are the questions that next year's so-called student leaders must answer and resolve before further progress can be attained.

That the court will benefit this campus can be seen in part by the fact that other college campuses employ a similar system with beneficial results. On the Nevada campus, the desire for a student court would not only be an indication that students themselves are willing and able to cope with their own problems, it is a direct refutation of the administration's attitude that students are merely children who must be led by the hand.

As to how the court could benefit the students directly, a classic example is last year's miscarriage of justice when six students were expelled from this institution without a hearing and, in fact, without their knowledge of the action against them. Preventing such action as this would justify the existence of a student organization designed to assure student rights and insure justice.

Further justification can be found in the McHenry report. Recommendations are found to the effect that a student committee to handle matters of plagiarism and cheating is advisable, emphasizing the facts of general student severity in handling their own affairs and the healthy effect it can have on a student body. Another suggests that student disciplinary procedures should be reviewed with regards to deans who are both accusers and judges and in the interest of due notice and fair hearings.

With regard to the first suggestion, what better organization than a student court? Cheating does not hurt the administration or the instructors. It only touches the student, who is in fact cheating himself, and his fellow students who may suffer under the grade system. Offenses of this nature should be handled by the people affected.

Regarding review, which body should review student disciplinary procedures? Another administrative body which is generally of the same attitude as the original accusers and judges? If a student court can do no more than assure student justice and insure a fair hearing, it is valuable and justified.

Too much emphasis is being placed on the minute aspects of the court—who will be on it, what

(Continued on Page 7)

## Martin Mumbles

By Diane Martin

And so, the Pre-Spring slump begins . . . the first of March, somehow sounds the death knell to exciting gossip . . . Winter Carnival and initiations are over . . . costume dances have not yet begun . . . so the gossip biz goes a little slow at this time.

Instead of a column filled with juicy tid-bits about those who make their affections known publicly, you'll have to put up with stale news, and an occasional non-conformist who might give up his pin in the dead of winter.

But remember the war cry—"Wait till Spring!" and don't request return of funds on your subscription yet!

Spelled backwards, "sin" is pronounced "nice" . . .

**BIG-LITTLE SIS DINNER  
CLIMAXES INITIATION**

Four days of Tri-Delt initiation activities that began Thursday were climaxed Saturday night at the big-little sister banquet and were ended when members of Delta Delta Delta traditionally brought the twenty-one initiates breakfast in bed and the old and new active attended church together.

**Awards**

Award for the outstanding pledge went to Cynthia Heth for collecting the most pledge points. The best "cosmic ray" costume was the one worn by Barbara Swart, and Judy Buck composed the best song. Nancy Petrini received a trophy for writing the best theme.

The initiates are: Marlene Belli, Reno; Judy Buck, Reno; Marian and Dianne Coate, Ankara, Turkey; ErmaLee Gray, Las Vegas; Pat Dunn, Reno; Cris Gibson, Las Vegas; Carolyn Hall, Reno; Nancy Hansen, Sparks; Cynthia Heth, Walnut Creek, Calif.; Kathleen Karstens, Reno; Janie Kottinger, Reno; Helen Lenz, Reno; Ginger Ivers, Lovelock; Nancy Petrini, Sparks; Diane Pahor, Las Vegas; Sharon Sorensen, Reno; Barbara Swart, Reno; Carol Titus, Las Vegas, and Delores Watson, Reno.

**KAT INITIATES 16**

Kappa Alpha Theta welcomed sixteen new active members at initiation ceremonies Sunday afternoon.

The initiates had completed a semester of pledge training, and had met the scholarship requirement the past semester, which is a 2.2 average, in order to become members.

Big sisters of the initiates treated them to a dinner at the Circle RB lodge for the annual initiation banquet. The new members took over the house Sunday night and held a slumber party.

New initiates are: Fran Beer, San Mateo, Calif.; Linda Bergin, Fallon; Gay Brennan, Loomis, Calif.; DeAnn Colton, Reno; Janet Ferrel, Reno; Versiellen Eberle, Las Vegas; Elas Freitag, Reno; Kress Harris, Reno; Janet Hayden, Piedmont, Calif.; Barbara Howard, Winnemucca; Janis McDonald, Reno; Sonya Sanford, Reno; Ann Warren, Reno; Deanna Woodliff, Fallon, and Rita Woods, Carlin.

Three women accepted pledge bids this past rush season. They are Glenda Price, Fallon; Sally Foskett, Piedmont, Calif., and Barbara Chanslor, Reno.

**Regent Increase  
Asked by Counsel**

Legislation to increase the membership of the board of regents of the University of Nevada from the present five members to nine members will be introduced in the Nevada state legislature soon.

The legislative counsel bureau, acting on the McHenry report, voted unanimously last Monday to recommend action that would allow the legislature to elect four new members until such time as they can be chosen by general election.

Action to enlarge the board in this manner is designed to permit an immediate increase in membership until an amendment to the state constitution can be enacted.

The McHenry report proposes a constitutional amendment that will provide for the board of regents to be composed of the governor, the state superintendent of public instruction, and seven members appointed by the governor, confirmed by the senate.

The legislative counsel bureau also recommended that whenever a University president is chosen, the regents consult with the faculty.

Written statements from the individual regents agreed that increased faculty participation in University affairs is desirable. Archie C. Grant, chairman of the board of regents and Roy Hardy stated that they believed it was an internal affair of the University and should be handled without interference from the legislature.

Laugh of the week: Three men on a raft tossing useless coins to see which one they will eat first. Loser gets a bite of his own arm before he goes.

CENTER Stan Summers flips one at the basket as two Sacramento players and Jim Lyon look on.

**Air Guard Noses  
Nevada Riflemen**

The University of Nevada rifle team narrowly lost an unofficial meet last weekend to the Air National Guard. The defeat was by the score of 1909 to 1907. It was the second loss to the Air Guard in the last two weeks.

The Nevadans are the 1956 Sagebrush league and National Intercollegiate champions.

Leading the Guardsmen in the close victory was Elwood Block with a 387 score. Block's two sons, Clinton and Bill, shot scores of 382 and 378 respectively.

Top shooter for the Wolfpack was Bill Busk with a 386. Gene Espin scored 384, Dan Sobrio had 380, and Max Botz a 379, following the Nevada high man.

Nevada holds a good lead in the race for Sagebrush League honors, says M-Sgt. Day, rifle team coach. The Pack has won three out of the first four shoots. Two more meets are on tap before the season closes in the local league.

Other teams in the league are two teams from the Reno Rifle club, Reno high school, Stead Air Base, and Churchill Rifle club.

Fifth round is to be held for the teams on Sunday at the Nevada rifle range in the old gym. The meet begins at one p.m.

CARRIER pilot Richard Perry.

### Nevadan Qualifies As Carrier Pilot

Former University of Nevada student Richard Carl Perry recently became qualified as a carrier pilot after undergoing training at the Naval Aviation school in Pensacola, Florida.

Perry last attended the University in 1955 as a mining major. He

### Nevada Newmen Attend SF Confab

Members of the University Newman club attended the annual Cardinal Newman Day observance in San Francisco last week-end.

Those who went were Richard Arden, president of the University Newman club, Ed Randall, Ray Tucker, Barbara Galeppi, Virginia Pucci, Ruth Ruhl, Janet Mathews and Jeanette Lathrop. Father John McFadden accompanied the students.

The Newman club is a social, intellectual, and religious organization for Catholic students. There are approximately 70 members in the University of Nevada group. More than 250 college students from the Reno, Sacramento and San Francisco areas attended the

is the son of Mr. and Mrs. Clark A. Perry of Carlin, Nevada.

To qualify as a carrier pilot, Perry completed six landings aboard the light aircraft carrier USS Saipan in the Gulf of Mexico.

He is now undergoing instruction flying at the Corry Field Auxiliary Air station at Pensacola.

mass Sunday morning in honor of Cardinal Newman, the patron of Newman clubs. The Newman club of San Francisco State made arrangements for the observance.

After the mass a breakfast was held at San Francisco State college, a catholic journalist, John O'Connor was the principal speaker. Similar observances were held by the university students in Fresno and Los Angeles.

### NEVADA LEGISLATORS GUESTS AT SDX DINNER

Fifteen members and pledges of Sigma Delta Chi will attend a 'Press and Government' dinner of the organization at Carson City Sunday night. Sigma Delta Chi is the professional journalistic fraternity.

Members of the Nevada state legislature will speak in an "off-the-record" question and answer period. The questions will come from the members of the press covering the current state legislative session.

The dinner was arranged by the professional chapter, of which Ed Olsen, chief of the Reno bu-

### Caps and Gowns On Order Now

Seniors and faculty members may order caps and gowns for the June Commencement exercises. Deadline for the faculty is March 6. Seniors are not yet bound by a deadline, but may be measured any week day between 9 a.m. and 1 p.m. at the Campus YWCA.

Persons can cancel their orders up until May 8.

Seniors will not be required to make a deposit until they pick up their caps and gowns before graduation. The amount of the student fees has not been determined as yet.

Additional information can be obtained from Mrs. A. E. Harris, director of the Campus YWCA, or by calling FA 3-6470.

### Alvarez to Speak At Cal Press Meet

Edward Alvarez, University of Nevada journalism student, has been invited to address the California Press association at its annual convention this December in San Francisco.

Alvarez is from Guadalajara, Mexico, and is the grandson of Jesus Alvarez del Castillo, editor and publisher of El Informador,

reanu of the Associated Press, is president.

The campus groups will be under the direction of Professor A. L. Higginbotham, advisor to the undergraduate chapter of Sigma Delta Chi.

daily newspaper there. Alvarez came to the University of Nevada to study journalism at the recommendation of the president of the United Press. After his graduation, he will return to Mexico and become a member of the staff of El Informador.

The invitation to speak to the convention was extended by the president of the California Press association, Mr. Justus Craemer, of the San Rafael Independent-Journal. Alvarez has been asked to give his views on American journalism through the eyes of a student from Mexico.

## John Smith and Pocahontas

(OR) HOW TO KEEP YOUR HEAD WITHOUT HALF TRYING...

Back near the turn of the century (17th, that is), Captain John Smith and some of his sidekicks were exploring ye Chickahominy when some of his troops started to sprout arrows.

Well, Smitty and his squad got in a few good licks, but the weeds were full of redskins and they were soon hauled in to see the Top Dog Indian... Powhatan.

"Smith," thundered old full-of-feathers, "I'm tired of you puncturing my in-laws; we're going to do a disappearing act with your head!"

"Wild, man," said the good captain. "A little Rock 'n Roll, eh?"

This humor was lost on the chief, and he was all set to shorten Smith by about nine inches when in walked Princess Pocahontas... a nifty little number who'd been out scalping tickets to Cleveland baseball games.

Pokey sized up the situation, and screamed (in perfect Iroquois) "Man, it looks like my ship came in... that beard! That outfit! That build! Oh, Daddy-O—spare that cat!"

"Pokey," said Dad, "How many times have I told you not to come messin' around here during initiation! We're playing to a full house, and now I have to refund all those beads." But he was pretty sweet on the kid, and laid aside the meat cleaver.

Well, Captain John was so happy about his reprieve he broke out a barrel of Budweiser... and popped for the tribe.

Wouldn't you?

MORAL: When you want to treat the tribe (or, better yet, do a solo with a squaw), make it Budweiser...the chief of beers!

# Budweiser

KING OF BEERS

### Sideline Glances

(Continued from Page 4) cases will it handle, what will the penalties be—while the question of existence itself is being lost. Certainly the details are needed before such an operation can proceed, but details are secondary to the necessity of conviction on the part of the student body.

The student court, in its refined form, is the culmination of student hostility towards the present administration, and perhaps its termination.

Instituted for the purpose of insuring student welfare and fair play, and perhaps enforced by the presently ineffective upperclass committees, the court would not only express student self reliance but a willingness to accept self government in its ultimate and highest form.

### Three-Way Tie In League Play

Pi Beta Phi, Kappa Alpha Theta and the Artemisia-Manzanita association are in a three-way tie for the championship title in women's basketball. The tournament is under the direction of the Women's Recreational Activities program.

Evelyn Ames, president of WRA, reported that the Tri Delta team has lost to each of the teams tied for first place, and that the Gamma Phi Beta sorority did not en-

ter this year. At the games which took place this week, the Independents won over the Pi Phis, who were leading the tournament and the Thetas were victorious over the Tri-Delts.

Playing for Artemisia-Manzanita were Marge Hartman, Mary Ann Tonini, Kaye Ann Rowland, Delores Chambers, Betty Edmondson, Deanne Bonameche, and Georgia Weaver.

Evelyn Ames, Karen Knudson, Donna Butler, Janet Barton, Pat Cordes and Elsa Freitag played for the Thetas.

The Pi Phi team consisted of Lil Johnson, Carolyn McGowan, Jean Best, Deanne Munk, Barbara Buark, Sally Riley and Letitia Sawle.

Tri-Delts were Nedra Norton, Diane Martin, Diane Oldenburg, Pat Lamoreaux, Janene Assuras, Penny Molineux, Carol Titus, Marva Edwards and Sally Holmes.

### Westinghouse Engineers Build Nation's Most Efficient Turbine Generator

This 200,000-kw Westinghouse turbine generator at Burlington Station, Public Service Electric and Gas Company of New Jersey, is the most efficient in the country. The turbine is a tandem-compound, triple-exhaust, 3,600-rpm machine. The generator is hydrogen-cooled, with the rotor inner-cooled by hydrogen flowing through hollow field conductors.

Westinghouse is now working on generators even more effi-

cient than this. Electrical, Mechanical and Chemical Engineers—Physicists, Metallurgists and Mathematicians—all are urgently needed for these and other stimulating projects.

Westinghouse is an "engineer's company" where your professional status is respected and rewarded. Get all the facts. See your Placement Officer today and arrange an appointment with the Westinghouse recruiter soon to arrive on campus.

# High Schools Hear Taus and Snakes University Merits Lead in Kinnear

Visitation Program representatives from the University will visit 27 state high schools next week and speak to assemblies and individuals on the merits of university facilities, procedures, services, admission requirements, and summer session operation, Dr. Garold D. Holstine, chairman of the High School Relations committee, has announced.

The four men who will make the tour in the university station wagon are Dean Garold D. Holstine, college of education; Dr. M. W. Deming, professor of chemistry; Dean Stanley G. Palmer, college of engineers; and Dr. Eldon E. Wittwer, professor of agriculture. Their schedule is: Monday, March 4, they will be in the towns of Fernley, Lovelock, Winnemucca and Battle Mountain. Tuesday, March 5, they will visit Carlin, Elko, and Wells. On Wednesday, they will travel to Ely, Lund, Eureka and Austin. Thursday they will be in Gabbs, Hawthorne, Yerington and Smith Valley.

### Purpose

During the week of March 17-24 Dean Holstine will accompany Dean Ralph A. Irwin, arts and science; Dean Robert C. Weems, business administration; Dean James E. Adams, college of agriculture; Dean Palmer and others, to different towns and high schools for the purpose of speaking on the advantages of this university.

During this tour they will visit the towns of Boulder City, Henderson, Overton, Bunkerville, Panaca, Alamo, Beatty, Tonopah, and Fallon. In Las Vegas they will speak at Bishop Gorman high school, Las Vegas, and Rancho high school.

Other towns to be visited at later dates are: Sparks, Dayton, Montello, Mountain City, Carson City, Virginia City, Gardnerville, and Gerlach. They will also visit the Reno high school, and Manogue in Sparks.

This year's Kinnear trophy competition has become a two way race between Alpha Tau Omega with 280 points, and Sigma Nu with 270 points. Sigma Alpha Epsilon is in third place with 110 points.

The Kinnear trophy is awarded to the outstanding fraternity in inter-fraternity sports.

To date, five events have been played in the trophy competition. They are: softball, basketball, cross-country race, volleyball, and bowling.

Only three events, skiing, track, and baseball remain in this year's race for the coveted trophy.

The trophy was established by John Kinnear, a mining engineer and general manager of Kennecott Copper Corp., 1928-1942. It was won last year by Alpha Tau Omega.

The standings in the Kinnear Trophy competition are:

Alpha Tau Omega	.....280
Sigma Nu	.....270
Sigma Alpha Epsilon	.....110
Lambda Chi Alpha	.....67½
Theta Chi	.....32½
Phi Sigma Kappa	.....10
Civil Engineers	.....5
Lincoln Hall	.....5

## AWS

(Continued from Page 1)

"I am well acquainted with the women's problems on this campus," added Myram, "and if I am elected I will do my best to lead the women fairly and more than satisfactorily. I am very interested in the new set-up on hours and I'm willing to work out all the kinks in the new hours system, if the women find that there are any. As a representative of all the women, I would try to understand and lead them the best way I know how."

Cool Yul.

## Rainbow Coed Visits Group

Barbara Heward, grand worthy advisor for the Order of Rainbow Girls in Nevada made an official visit to the Lovelock assembly this week.

Barbara, a Nevada frosh, who was appointed at the Nevada Grand Assembly last June, must attend one meeting of every Rainbow assembly in Nevada throughout the year. She has already officiated at Elko, Ely, Tonopah, Hawthorne, Las Vegas, Henderson, Boulder City, Winnemucca, and Yerington.

Noted for her Rainbow work in Winnemucca during her high school career, she was the worthy advisor of the assembly there.

Other university students who have accompanied Barbara are Janice McDonald, grand treasurer; Donna Cook, grand worthy associate advisor; Deanna Woodliff, grand recorder; Sharon Stiff, grand chaplain; Kay

Ann Rowland, grand drill leader; Marcia Bergevin, grand love; Delores Chambers, grand religion; Ginger Ivers, grand lecturer, and Sally Riley, grand page.

These officers who have seven more visits to make in Nevada, also plan to attend the California Grand Assembly in Sacramento over Easter vacation.

## Drain

(Continued from Page 4)

"You are foolish!"

Yes, perhaps, It is wrong to be afraid. One must fight for today, and keep tomorrow out of mind. Come, let us run fast in the dark, let us clutch at trembling leaves and let them go too fast, let us laugh, and chase the long moon down the night.

More despair.

## AA OF UP DISCUSSES PO FOR A & P

Policies for appointment and promotion of faculty members were discussed at a meeting of the American Association of University Professors last night.

The local chapter invited all faculty members to attend whether or not they belonged to the organization.

# Violence

(Continued from Page 1)

Sparks, where three of the Sacramento State students were staying, and attempted to enter their room. They awoke the motel owner, Mrs. Marie Streeter, who told the group of about ten to "elave or she would call the police."

The group did not state where they were from, Mrs. Streeter explained, but they told they "were looking for their buddies who were staying there!" After Mrs. Streeter told them to leave, they agreed to do so, so no further action was taken at that time.

The following morning Mrs. Streeter received a report from the tenants of the motel unit adjacent to the Sacramento students quarters reporting the door of their unit had been kicked in during the early morning. The occupant told of hearing a noise at the door during the night and got up to investigate. He reported seeing a young man standing in the open doorway. The door which had been kicked over, was lying on the floor. The young man muttered

something about having the "wrong room" and left. Mrs. Streeter estimated the property damages to the motel at between 35 and 40 dollars.

### Saturday Morning Revelations

On Saturday morning, Mrs. Streeter also received a report from the tenants from Sacramento, reporting considerable damage to a 1956 sedan belonging to one of them. The hood was bent in and the doors were jammed and would not open. The damage was apparently inflicted in much the same manner in which the door of the motel unit was removed, by several hard kicks. There were footprints on the hood of the car, said Mrs. Streeter.

The threat of violence once again made itself known at Saturday night's championship game. The Sacramento State students once again asked for police escort from the gym. Patrolmen Barlow and Wesley once again provided the escort from the gymnasium to their car in the University parking lot.

While the group was escorted to their car, a group of "eight or ten" gathered close to the rear

entrance of the gymnasium. One of the group made a remark to the policemen about "playing hero," said patrolman Wesley. "If they had gone any further we would have booked someone," he added.

### Escort to California

Four cars of Sacramento students, planning to return to the California capital city that night, were escorted "about ten miles into California," according to Nevada State Highway Patrolman Fred Paszek. This escort was under the direction of the Nevada Highway Patrol. Reason for this escort was a rumor that there would be some Nevada students "waiting for them" at the Nevada-California state line. Members of the escort group included state patrolmen Fred and John Paszek, and James Lambert.

"These troubles may have start-

# Phi Sig

(Continued from Page 1)

A dance is scheduled for March 8 at the Mesa.

The fraternity's Founder Day banquet and alumni meeting will be held Saturday, March 16. The Phi Sigma Kappa Founder's day occurs one day earlier, March 15. The fraternity was organized in Massachusetts in 1893.

"We are tentatively planning an all-city benefit to raise funds to furnish our future home," Hemphill said. It will probably be the thirtieth of March. It's planned to have downtown entertainment with a "fire" theme, Hemphill said.

An initiation team is coming here in March from the chapter at Davis to initiate the twelve pledges, as the local house's ceremonial gear was destroyed by the fire, Hemphill said.

ed something more serious than we realize," patrolman Fred Paszek said. "Their parting words in California were 'Wait 'til Nevada comes down to Sacramento!' he added.

Another Sacramento State group was once again given police escort to their motel in Sparks. On Sunday they were given an escort to a local garage where necessary repairs were made to the damaged car, before they returned to Sacramento, Sunday afternoon.

# Labels New Gym Madison Square Garden

Nevada's gymnasium was labeled "Madison Square Garden" by Director of Health, Physical Education and Athletics G. Art Broten this week because of the numerous events calling for rigid scheduling at the popular building.

An evident need for a civic auditorium at the University of Nevada is shown by the requests of various groups for use of the gym, which is already carrying a heavier-than-usual schedule.

He said it is a tough job fitting in University basketball games, boxing, northern zone A and state high school basketball tournaments, (with additional practice sessions for each entry), about 38 physical education classes, student assemblies, and occasional "musicals" and other events on Sundays.

The never-ending string of events produces an equal unfinished amount of work to be done by maintenance crews. An example of this is the heavy antique boxing ring and its "ringside" seats and bleachers which have to be moved in and out of the gym once or twice a week.

A quick survey showed it takes eight men eight hours to move the boxing equipment from the old gym to the new gym, and the same again to cart it back after the fight.

And as a result, on Monday mornings eight o'clock classes have to be rescheduled for a later hour until the gym can be cleaned. And of course so much business calls for continuous cleaning of the gym. The place gets so dirty that the floor has to be washed down.

Because of the hard use the hardwood floor has begun to show much wear and tear. Broten said one of the main causes for the poor condition of the floor is brought about during the semi-annual registration. He said the floor will possibly get its overdue refinishing this summer.

Here are some of the events on the gymnasium agenda during the next few weeks: Northern Nevada 'A' basketball tournament through Saturday, March 2; Nevada-Cal Poly boxing card Monday, March 4; Nevada NCAA basketball game, Tuesday, March 5; State high school basketball tournament, March 13-16

### HIGH SCHOOLS HOLD TOURNAMENT HERE

Northern Nevada "A" high school basketball tournament play is in full swing this weekend in the University new gymnasium.

Two games will be played tonight in the semi-finals, and tomorrow three games will decide the zone winner and second place through fifth.

Thirteen high school "A" teams are taking part in the tournament this year. Playing of the sixteen games began Tuesday evening with the Lovelock-Stewart game.

# ENGINEERING GRADUATES

Lockheed representatives

will be on campus

Thurs. & Fri., March 7 & 8

to discuss how the company's

diversified development

program can advance

your career

For interview see

your Placement Officer.

Seventeen commercial and military models of aircraft are in production at Lockheed.

Development projects are even more diversified, include jet and propjet transports, fighters and bombers far exceeding present-day planes in performance, radar search planes, nuclear applications to aircraft and a number of significant classified activities.

This capacity to develop and produce such a wide range of aircraft is important to career-conscious engineers. It means more scope for your ability, more opportunity for promotion with so many projects in motion. It means more security — because your career is not restricted to one type of plane.

California Division

Lockheed

AIRCRAFT CORPORATION  
BURBANK

California

### Master's Degree Work-Study Program

The program enables graduates in Engineering, Mathematics and Physics to attain a Master's Degree at the University of California at Los Angeles or University of Southern California while gaining important practical experience on the engineering staff of Lockheed Aircraft Corporation in Burbank, California.

Additional information may be obtained from Lockheed interviewers or by writing E. W. Des Lauriers at Lockheed's Burbank facility.

# Wolfpack Thumps Sac State in FWC Showdown Series

In a brilliant comeback, the University of Nevada's well-balanced basketball squad won the Far Western Conference title here last weekend, beating Sacramento State in two games.

The Wolfpack quint, which had been in top position until it was handed a pair of losses by underdog Humboldt State, was trailing by one half game as it met final opponent Sacramento State. In a last-ditch stand Nevada beat arch-rival Sacramento State 80-73, thus tying the team with identical 7-2 records.

These events set the scene for the thrilling title-tilt Saturday night. With both teams seeking entry into the NCAA small school tournament play, the largest crowd of the season watched the Wolf Pack outclass the Hornets 72-59.

### Nevada All the Way

During the Friday night game, Nevada led all the way, by as much as 13 points, but Sacramento closed the gap to as little as two or three points at various times. A big pay-off came from the free throw line.

Senior Dan Sullivan was high point man for the evening, piling up 29 points, including 15 free throws. Senior-forward Jim Lyon chalked up 16 points as did center Stan Summers, who fouled out in the second half.

### Going Gets Tougher

Approximately three thousand fans from Reno and Sacramento saw the final game. A see-saw game throughout, its outcome was in doubt until the final six minutes, when Nevada took a dominating lead.

Sacramento scored the first point, but Nevada led from there until midway through the second half. Half time score was Nevada 35, Sacramento 29. The Hornets caught Nevada and the score was tied at 45-45 soon after the beginning of the second half.

The tie continued to a 55-55 score, when Nevada hit consistently and left Sacramento State trailing 10 points. Forward Jim Lyon got many rebounds, two long field goals, and Summers tipped in several baskets during the scoring streak.

Lyon was high point man with a total of 20, followed by Summers with 18, and Sullivan third with 15. In the last few minutes, coach "Jake" Lawlor put in sec-

# Players of 1938 Champion Team Cheer Nevada On

Five members of the championship University of Nevada basketball team of 1938 were in the stands Saturday night to watch the Nevada-Sacramento State championship Far Western conference game, and were presented with a Nevada victory.

The 1938 team also won the Far Western conference championship.

The five members included Ray Harris, operator of the White House cafe in Sacramento; Joe Radetich, in business in California; Dick Kolbus, manager of the London House waterfront cafe at Oakland's Jack London square; Dean Croft of Reno, and Elmer Bawden of Carson.

John (Ham) Robb, Reno high school basketball coach, and J. E. (Doc) Martie of the University of

Nevada physical education department and coach of the winning 1938 team joined the former teammates for a reunion dinner after the game.

Harris was responsible for the reunion. He telephoned his former teammates after Nevada won Friday night's game to tie for the league lead, and asked them to join him at the Saturday night championship game.

PENNY MOLINEUX, AWS presidential candidate.

ond stringers and gave the regulars a rest.

As the game ended, fans poured onto the floor to congratulate the champions.

# 'Pack Sluggers to Meet Cal Poly

Wolfpack boxers traveled to San Luis Obispo yesterday where they meet undefeated Cal Poly fighters in a dual meet tonight. Nevada has a 3 win, 2 loss record.

Coach Jimmie Olivas took a new man to fill the 178 pound division left vacant after the loss of two boxers via injuries, in two consecutive bouts.

Leonard Howard, of Fernley who just finished a hitch with "Uncle Sam" will be filling the twice vacated spot. Howard entered the University in January. He fought a few fights while in

the Army. The 178-pound division was left open after undefeated Carl Looney broke his left hand in a bout with the University of California Golden Bears." The following week Looney's position was filled by L. G. Griffin who received a broken nose during a bout with the Sacramento State "Hornets."

So far this season Nevada has racked up two wins over Chico State, and one over the University of California. They lost meets to San Jose State and Sacramento State.

# GRADUATING ENGINEERS

Research, development, and production activities at Northrop Aircraft, Inc., in Southern California, create a continuous demand for young men who wish to build a permanent career in engineering and science. In addition to a diversified production program in its several plants, Northrop is engaged in many vitally important, classified projects necessary to our country's defense

If your training qualifies you for positions in the categories listed below... if you want to settle in the Los Angeles area and work in Northrop's new multi-million-dollar engineering center... if you want to build a successful career in one of America's foremost research, development and production organizations... if you want to enjoy many outstanding benefits that are unexcelled in the industry, including Company-paid life, health, and accident insurance, two weeks and two days annual vacation plus an extra week at Christmas, both with full pay... if you want to work where your ability will be continually encouraged... please contact your school's placement office and make an appointment for an interview with one of Northrop's representatives.

- THESE FIELDS OFFER CHALLENGING OPPORTUNITIES
- AERONAUTICAL ENGINEERING • MECHANICAL ENGINEERING
- ELECTRICAL ENGINEERING • ELECTRONIC ENGINEERING • CHEMISTRY
- PHYSICS • MATHEMATICS • CIVIL ENGINEERING

Campus interviews will be conducted by Mr. Don Colvin, Engineering Personnel Representative of Northrop Aircraft, Inc., on Friday, March 1st, at University of Nevada Engineering Placement Office.

# Faculty Forum Proposes Study

A committee to study a possible new faculty organization was proposed by the Faculty Forum at its February 21 meeting in the Education auditorium, after a heated and lengthy discussion.

The formation of a faculty senate was one of the recommendations made in the controversial McHenry report on the University. Action on the McHenry report is now pending at the state legislature in Carson City. The legislature however would not act on the faculty senate proposal, as this is an internal affair.

The proposal, by Prof. Thomas T. Tucker, was a substitute for a motion made by Dr. Robert M. Gorrell, associate professor of English. Gorrell later withdrew his motion, and it never came to a vote.

The main point of dispute was whether or not the faculty had any specific rules governing it and what they were, and if the faculty had any power to act on its decisions.

Gorrell said he thought the faculty's position needed clarification, as there are now no written rules. The old catalogues had a statement on the faculty's position in relation to the administration, but recent catalogues have had no such statement.

Prof. Kidwell said that the faculty might as well state the case in plain English. Prior to Sept. 1, 1952, he said, the University had one kind of organization, since then another. Are the new faculty rules going to operate as they did then, or as they do now? he asked.

Gorrell drew much of his motion from the old catalogue, but said he was not suggesting the

faculty go back to the past, but merely obtain a written statement of their rights and powers. They could go on to the formation of a new faculty body from here, he said.

Gorrell's motion requested the President and the Board of Regents to establish the Faculty Forum as part of the University administration. In this proposal, the faculty, "subject always to the approval of the President and the Board of Regents," would have legislative jurisdiction in such areas as admission of students, curricula, academic standards and budgets, requirements for degrees, academic appointments and promotions, faculty welfare, and the organization of departments, schools, colleges and extension centers.

The motion also asked that the faculty be authorized to recommend further details concerning its organization and responsibilities and to consider the establishment of a University Senate.

Tucker's substitute motion, as amended, called for a committee elected by the several college faculties, one to represent each college, to study and draw up a proposal for a faculty organization. The committee would then report its findings back to the faculty forum for discussion, and a final vote would be made by the entire faculty by mail ballot. The sub-

stitute proposal makes no mention of outlining the faculty's rights and powers.

Gorrell said he thought the faculty was now in no position to consider a faculty senate.

James F. Kidwell, associate professor of animal husbandry, agreed that "the basic issue is whether we as a faculty have a right to consider the formation of a senate."

Asher Wilson, assistant professor of speech and drama, said if Gorrell's proposal were adopted, the faculty set-up would be a "very different thing from what we have at the present time."

Loneliness.

# Student Interview

Nine organizations will interview prospective employees from the senior class the week of March 4 through March 8.

Students interested in signing up for interviews should contact the Office of Student Affairs for companies interviewing in the ASUN building, and Dean Palmer's office for those companies interviewing in the electrical engineering building.

Monday, March 4—Crosley division of AVCO will interview engineering students in the ASUN building.

Tuesday, March 5—Pacific Telephone and Telegraph Co. will interview engineering students in

the engineering building.

Wednesday, March 6 — Pacific Telephone and Telegraph Co. and North American Aviation, inc., will interview engineers in the engineering building.

Thursday, March 7 — Mare Island Naval Shipyard of California will interview engineers and physics majors in the ASUN building. Lockheed Aircraft corp. will interview civil engineers, electrical engineers, and mining engineers in the engineering building.

Friday, March 8 — Lockheed Aircraft corp., Owens Illinois Glass co. of Oakland, and Corps of Engineers, U. S. Army, will interview civil, electrical, mining engineers in the engineering building.

## Standard tries a flood of fire to make worn out oil fields produce again

Fire flooding produces heat and pressure to boil out previously unrecoverable oil, driving it underground to nearby producing wells.

MANY INACTIVE WELLS STILL HAVE LOTS OF OIL left underground in spite of the industry's great advances in oil recovery. Our country must have this oil to meet the growing power requirements of industry, the Armed Forces and motorists. That's why Standard is trying a new conservation experiment called "fire flooding."

We ignite some of the oil in a pool . . . control burning by regulating the air supply. Heat and pressure drive the oil to surrounding wells for pumping. It will take more than a year's time and a million dollars to see if fire flooding works. We think it's worth the effort because it could add more to U.S. underground oil reserves than the discovery of an entire new oil field.

Progress in the West means . . .

Helping find new sources to supply the oil U.S. will need in 1966

1956	1966
8,827,000	13,000,000
barrels per day	barrels per day

Standard's petroleum engineers say, "Back in 1925 the industry could predict only about 20% recovery from a new field. Modern secondary recovery methods, of which fire flooding is one of the latest, could more than double recovery."

### UN Band to Play In May Helderado In Las Vegas

Approval of the UN Band trip to Las Vegas for Helderado was given this week by the University administration. The big annual Las Vegas celebration will be May 17-18 and 19.

Vacancies exist in the brass and woodwind sections which must be filled, Band Director Felton Hickman said, and all interested persons should see him "immediately."

Only forty persons may make the trip, and of these only 33 will be playing members, Prof. Hickman said. Non-playing members will include three majorettes, three flag-twirlers, and Prof. Hickman.

"This trip serves as a reward for all the loyal bandmen who have given their time for football games, basketball games, parades, and other activities," Prof. Hickman said.

The band will also play a "Sunday at Four" concert March 24, for which brass and woodwind players are also needed, he said.

The Helderado trip will be incorporated into a concert tour, with three performances scheduled.

The band will leave Thursday morning, May 16, and play a morning concert in Fallon, an afternoon concert in Hawthorne, and an evening concert in Tonopah. The band will stay in Tonopah overnight, and leave for Las Vegas the next morning, arriving in Las Vegas in time for the afternoon parade.

The band will play in all three afternoon parades, and will return home Sunday night.

The University administration approved an expenditure of \$1175 for the trip, \$975 from administra-

tive funds, and \$200 from music department funds.

Make yourself indispensable to people, develop their trust in you, because then you can really hurt them when you bring down the axe. If you get real good at it, you can almost destroy their lives. That's when it really feels good, way down inside.

Tears are wasteful.

Cry havoc (June).

## University of California Radiation Laboratory

### PLACEMENT INTERVIEWS

THURSDAY, MARCH 14

- Electronic Engineers • Mechanical Engineers
- Metallurgists • Physicists
- Chemists and Chemical Engineers
- Mathematicians

Contact Adelaide Steiner,  
Office of Dean of Student Affairs

today for appointment

At UCRL, there are unique opportunities to work with some of America's outstanding leaders in nuclear research and to utilize the most expansive facilities in this field. Here, new ideas and techniques are traditional and there is the opportunity to do what has never been done before.

Plan now to meet with UCRL's representatives. They will give you full details on opportunities in your field and discuss future openings at the Laboratory's Livermore and Berkeley sites in Northern California's San Francisco Bay Area.

- Current UCRL projects include:
- Nuclear Weapons, Nuclear Rocket Propulsion,
  - Controlled Thermonuclear Energy, Particle Accelerators,
  - High-Speed Digital Computers, Critical Assembly and Reactor Research

### SIGMA NU INITIATES TWENTY-TWO BY ORDEAL

If there were any Communist spies at the University of Nevada last week, their report to Moscow would probably say that the American student is forced to work nights without any pay, and then forced to go to school in the day time. He wears old ragged clothes and can barely keep awake in classes. His morale is so poor that he does not shave or comb his hair. He finds life nothing but sheer, hopeless misery.

The truth of the matter is that the Sigma Nu's held their traditional "hell week" recently. According to John Ingram, initiation chairman for Sigma Nu, the program promotes a better brotherhood among the members of the fraternity and establishes a closer understanding of fraternal principles.

New members of Sigma Nu are: Dan Bagliazo, Gary Bartlett, Lonnie Barnes, Jim Blakely, John Brown, Mike Connor, Rusty Crain, Don Cronin, Lyle Damon, Larry Dawson, Dick Dillman, Brent Fabbi, Ron Gott, Denny Jones, John Madariaga, Don Moore, Tom Murdork, Dave Persons, Bill Provin, Louie Reitz and Bob Stephens.

Jim Blakely was named "Best Pledge of the Year" at the initiation banquet, on Sunday, February 24. Each new member as well as the graduating seniors of Sigma Nu made short speeches at the dinner.

### FLU EPIDEMIC SUBSIDES

Nine hundred and seventy two students have been given medical treatment to combat influenza in the past three weeks and about fifty of the patients were hospitalized.

Since only three beds are filled at the infirmary this week, Bertha Nelson, infirmary nurse, believes that the epidemic is subsiding. The record number of cases is at a rate one third higher than last year.
