# DR. WOOD NAMED ACTING PRESIDENT

## Board of Regents Fills Post Until Permanent Selection Can Be Made

Dr. William R. Wood is now serving as president of the University of Nevada. The Board of Regents appointed Dr. Wood to the position at a meeting Saturday.

Dr. Wood's appointment as acting president is only temporary. It is effective until July 1 or until a president has been selected by the Board of Regents. The president's office became vacant on January 1 as a result of the resignation of former president Minard W. Stout.

### Up Through the Ranks

Dr. Wood has been the University of Nevada's academic vice-president. He has served in this position since 1955.

He came to the University in 1954 to serve as dean of a state-wide development program of higher education for the University. He was also chairman of the University's department of English.

Dr. Wood has been instrumental in establishing and expanding the University's branch campus at Las Vegas.

He has organized and administered the University's evening division of adult-study program in Reno, the correspondence study division, the audio-visual and materials of instruction department, and the University's adult study program in off-campus locales throughout the state.

One of the foremost experts in the field of curriculum and instruction, Dr. Wood was a specialist in higher education with the United States Office of Education before coming to Nevada.

Since he has been in Nevada, Dr. Wood has been active in such groups as the Nevada State Mental Health Committee, the American Cancer Society, for which he serves as chairman of the education committee for the Nevada chapter, and is chairman of the Nevada committee on state Fulbright scholarships.

Dr. Wood has taught at Harvard, Northwestern, Iowa, Oregon, Virginia, and American.

He has a B.A. from Illinois College and a Ph.D. from the University of Iowa.

### Writer and Editor

Numerous textbooks, short story collections, anthologies, and magazine articles on education and literature are among his writings. His most recent publication was "Reading for Life." It is a six-book series which he edited himself. It has been adopted for statewide use in six states.

## Shots for Sale -- \$1

Dr. Ruth Russell, chairman of the health committee of the University Health Service, urges students to take advantage of the Salk Polio Vaccine shots offered on the University of Nevada campus.

For one dollar per shot, students may receive the series of three shots by obtaining identification cards at the infirmary.

Families of married students may also obtain polio shots in this offer.

## 'Kismet' Tryouts Start Today

Nevada is soon to produce its own version of the Broadway musical hit, "Kismet."

Tryouts for parts in the musical production will begin today, January 10, from 1 to 5 p.m. in the Education auditorium. Tryouts will continue tomorrow morning from 9 to 12.

Asher Wilson announced that there will be a total of ten major leading roles. In addition, there is a need for some twenty dancers. There are also parts for "many" singers to provide depth in the chorus.

"Kismet" has been made into a movie in addition to its many successful appearances on the stage.

Tryouts and production are under the joint supervision of Asher Wilson and Keith Macy.

## Nevada Art Goes To New York City

The University of Nevada will be represented in Madison Square Garden from January 17 to 26. Bob Stites, senior student, and Harlan Holladay, instructor, will exhibit paintings in "Art: USA: 58", a national professional sculpture and painting competition.

They will be competing against four thousand other entrants in the painting division. In addition, there will be about three hundred pieces of original sculpture.

## Infirmary Slows After Xmas Rush

For the time being, at least, all is comparatively quiet in the infirmary.

With the battle of the "flu bug" won, the infirmary staff is enjoying a period of relative calm with only thirty cases or so each day.

Thirty cases a day may sound like a large number of ailing students. Nurses say, however, that compared to the "boom days" of the recent flu epidemic, thirty a day isn't so bad. Daily cases numbered in the fifties during that period.

Complaints at present range from the sniffles to an occasional hangover.

Since all students pay a fee for use of the campus infirmary, they have the right to go there for treatment whenever they feel that they need medical attention.

## '58 Winter Carnival Scheduled For Feb. 13

Five teams have formally accepted the invitation to participate in the 1958 Winter Carnival to be held February 13 through February 16. The teams are Stanford, Sierra Junior college, Oregon State college, University of Washington and Arizona State college. On Thursday, February 13, the activities will

consist of official team registration from 8 a.m. until 4 p.m. The student assembly will begin at 7 p.m. and at 8 p.m. the sorority houses and dormitories will greet guests and visitors during the traditional "open houses."

On Friday, February 14, the cross-country race will start at 1 p.m. Activities for the evening of the 14th will be announced later.

Saturday, February 15, will be the big day for the Alpine events with the down-hill races starting at 10 a.m. and the slalom at 1 p.m.

The annual banquet will start at 6:30 that evening and be followed by the Snow Ball.

Sunday, February 16 is the day for the co-eds to display their skiing ability in the Powder Puff Derby which is scheduled to begin at 11 a.m. Jumping starts at 1 p.m. that afternoon and will be followed by the presentation of awards.

## Female Invasion Of Once All-Male Engineering Frat

Gerty Berg is the first woman to be initiated into the Alpha Epsilon chapter of Sigma Tau, honorary engineering fraternity at the University.

Miss Berg is a junior majoring in Mechanical Engineering. She is originally from Stuttgart, Germany, but now claims Reno as her home.

### Twenty Three Initiated

Sigma Tau initiated twenty undergraduates and three alumni of the University of Nevada at recent ceremonies.

This year's initiates represented the school of civil, electrical, and mechanical engineering and the Mackay School of Mines.

Alumni initiated include Gilbert Kneiss, assistant to the president of Western Pacific Railroad for public relations; John Carlson, graduate of the U. S. Military Academy, now taking his Masters in civil engineering; and John C. Kinnear Jr., general manager of the Nevada Mines division of the Kennecott Copper corporation.

Undergraduates taken into Sigma Tau are Clark Gribben, Bob Morrill, George Corfield, Lester May, Stan Jones, Clayton Carlson, Carl Fisher, Leroy Wentz, Paul Gomez, Ben McNair, Kenyon Oakberg, William Walbridge, William Hadley, Arlen McGee, Dale Kulm, Hans Lindblom, George Boucher, John Brooke and Wallace Hedeon.

### Dinner and Speech

Following the initiation at the library of the Mackay School of Mines, a banquet was held in the Holiday Hotel. Mr. John Kinnear spoke on "The Engineer's Responsibility in Today's Industry" after the banquet.

## Holstine on Safety

Dr. Garold Holstine, dean of the College of Education at the University of Nevada, has been appointed to the National Commission on Safety Education.

## No Schedules Until January 11

Class schedules for the second semester will not be available at the office of the registrar until January 11.

## February 7 Is Date Set for Senior Day

University of Nevada Senior Day for Reno high school students will be held Friday, February 7, on the Reno campus.

The purpose of the visit is to acquaint graduating seniors of Reno high school with opportunities in higher education in the various colleges and schools at the University of Nevada. More than one hundred students are expected to attend.

The seniors will meet in the Education building auditorium. They will be introduced to administration officers, department chairmen, and advisors. The students will also be taken on a tour of the campus.

### WHAT A WAY TO START THE NEW YEAR!

#### FINAL EXAMINATION SCHEDULE

Class Periods	Day	Time
8:00 M.W.F.....	Saturday, January 18.....	8:00 A.M. to 10:15 A.M.
9:00 M.W.F.....	Monday, January 20.....	8:00 A.M. to 10:15 A.M.
10:00 M.W.F.....	Friday, January 17.....	10:30 A.M. to 12:45 P.M.
11:00 M.W.F.....	Tuesday, January 21.....	8:00 A.M. to 10:15 A.M.
12:00 M.W.F.....	Saturday, January 18.....	2:00 P.M. to 4:15 P.M.
1:00 M.W.F.....	Wednesday, January 22.....	8:00 A.M. to 10:15 A.M.
2:00 M.W.F.....	Monday, January 20.....	10:30 A.M. to 12:45 P.M.
3:00 M.W.F.....	Wednesday, January 22.....	2:00 P.M. to 4:15 P.M.
8:00 T.Th.....	Friday, January 17.....	2:00 P.M. to 4:15 P.M.
9:00 T.Th.....	Monday, January 20.....	2:00 P.M. to 4:15 P.M.
10:00 T.Th.....	Tuesday, January 21.....	10:30 A.M. to 12:45 P.M.
1:00 T.Th.....	Saturday, January 18.....	10:30 A.M. to 12:45 P.M.
2:00 T.Th.....	Wednesday, January 22.....	10:30 A.M. to 12:45 P.M.
3:00 T.Th.....	Tuesday, January 21.....	2:00 P.M. to 4:15 P.M.

All classes,  
English A,  
101, 102..... Friday, January 17..... 8:00 A.M. to 10:15 A.M.  
Conflicts..... Thursday, January 23..... 8:00 A.M. to 10:15 A.M.  
12:00 T.Th..... Thursday, January 23..... 10:30 A.M. to 12:45 P.M.

Note: Class sequences other than those listed above will be examined as of the first day of the week the class meets.

### Beaux Arts Ball Likely Next Spring

Because of the financial success of a Beaux Arts club painting exhibit last December, there will probably be a Beaux Arts ball this spring. This was announced by Prof. Craig Sheppard, chairman of Nevada art department.

The Beaux Arts club, an organization for students who have taken, or are taking an art course, sold more than \$200 in oil paintings and water colors at the show. It was held at Grey Reids store.

Sheppard said there was a tremendous amount of interest in the exhibit. He estimated there was at least a thousand persons who saw the show. Many requests for more student art exhibits were noted, he said.

Stop the world and let me off!

### Sororities Come and Go; Down Thru The Ages Only Four Still Flourish

By ESTELLE CARLEY

Sororities, both local and national, have come and gone on the University of Nevada campus. The four sororities now on the campus have evolved from eight local and six national organizations.

Delta Rho, a local sorority, established in 1900, is the oldest recorded sorority on the Nevada campus. Since Delta Rho, seven other women's living groups have existed on the campus, the latest in 1922.

#### Only Four Left

The four present sororities; Kappa Alpha Theta, Pi Beta Phi, Gamma Phi Beta, and Delta, Delta, are all nationally affiliated.

Delta Rho in 1915 petitioned to the national organization of Pi Beta Phi for national affiliation. This was granted in November of 1915.

Theta Theta chapter of Delta Delta Delta was established when the national convention voted to give local sorority Theta Epsilon national affiliation.

In 1917 I.O.A.O. became Gamma Phi Beta on this campus as Delta Kappa Theta became Kappa Alpha Theta.

Two other national sororities were established on the Nevada campus in 1932, Sigma Alpha Omega became affiliated with national Beta Epsilon Omega. Beta Delta in 1932 became a chapter of Alpha Delta Theta. For various reasons these two are no longer on this campus.

#### They Fade Away

Besides the six local sororities which became nationally affiliated there were two others which did not affiliate and which do not now appear on the campus. A. T. P. which first appears in 1902 Artemisa and again in 1905. The sorority is never again mentioned in University records. Alpha Theta appears in the 1922 Artemisa and then never again.

To become national a sorority must have first been local. A local sorority is one that has no national affiliation and has a local charter on the campus where it was established.

To become affiliated with a national sorority or one having chapters established throughout the country the local sorority must petition the national organization for affiliation. If accepted they become a chapter of the national.

### Independents Start New Year Right

The Independents of the University of Nevada began the New Year with a social last Friday night in the dining hall.

Refreshments were served and the students danced to records.

The guests were James S. Roberts, assistant professor of history and political science and the new advisor to the Independent organization; Mrs. Ida Davies, house-mother of Artemesia hall; and Mrs. Charles Engelke, Manzinita hall's housemother.

### Four Initiated Into Saddle and Spurs

Four persons were initiated into Saddle and Spurs December 8. The dinner initiation meeting was held at the home of Miss Marjorie Price.

Saddle and Spurs is the University's campus riding club.

Those initiated were Misses Beth Boyd, Roberta Liner, Joan Laidlaw and Iona Mowrer.

Pictures for the annual were also taken.

Those attending the meeting were Penny Molineux, Kay Karstens, Gail Wooster, Miss Price, Miss Ruth Russell, and Miss Barbara Lane.

Anybody for Russian roulette?

### A Campus-to-Career Case History

John Reiter (right) discusses the route of signals from the wave guide through the IF stages of a microwave receiver.

### "This was the kind of challenge I was looking for"

Here's what John A. Reiter, Jr., B.S. in Electronics, Arizona State College, '54, says about the biggest project so far in his Bell System career.

"This was the kind of challenge I was looking for—a chance to assist in planning a microwave radio relay system between Phoenix and Flagstaff, Arizona. Five intermediate relay stations would be needed, and I began by planning the tower locations on 'line of sight' paths after a study of topographical maps. Then I made field studies using altimeter measurements, and conducted path-loss tests to determine how high each tower should be. This was the trickiest part of the job. It called for detecting the presence of reflecting surfaces along the

transmission route, and determining measures necessary to avoid their effects.

"Not the least part of the job was estimating the cost of each of the five relay stations. All told, the system will cost more than \$500,000. When construction is finished in December of this year, I'll be responsible for technical considerations in connecting the radio relay and telephone carrier equipment.

"This assignment is an example of the challenges a technical man can find in the telephone company. You take the job from start to finish—from basic field studies to the final adjustments—with full responsibility. To technical men who want to get ahead, that's the ultimate in responsibility."

John Reiter is building his career with Mountain States Telephone and Telegraph Company. Find out about the career opportunities for you. Talk with the Bell interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office, or write for a copy of "Challenge and Opportunity" to: College Employment Supervisor, American Telephone and Telegraph Company, 195 Broadway, New York 7, N. Y.

## U. S. Lags In Library Ratio

"There is no reason to make either books or education easy, any more than tennis or football is easy. Like sports, books require a certain amount of hard work and practice, and like sports, books can be both a challenge and a delight."

These are the words of Gilbert W. Chapman, chairman of the National Book Committee, describing the book reading situation in the United States.

The United States has the low-

est proportion of book readers, compared to any other major English speaking country.

It would be necessary to increase the number of American libraries from 7,500 to 77,000 to have the same library to population ratio as Sweden.

"This Week" magazine claims that television has brought a reading incentive to the U. S. However, the magazine states the reading problem is still acute,

## Continental Schools Give College Students Better Early Background

By CAROL CRISLER

How does the average Western college student compare to the average European student?

Bente Larssen, 19 year-old Norwegian, feels that perhaps European schools give a better background for college life.

From the age of seven to fourteen the student in Norway is required to take German, English, and French besides learning his native tongue. The student also takes many courses in higher mathematics, chemistry, and physics.

At the age of fourteen, the student is eligible to go to high school only if he has made top marks in his previous schooling.

Bente was majoring in architecture when she was in high school. Practically all the courses she took in high school are similar to those offered in most American colleges.

When asked what she thought of the fine arts in the Western states, Bente replied that she was surprised as how few college students knew works of art, music and literature.

Bente says that all one ever hears on the radio here is some

form of rock and roll. But, though she does like Mozart, Beethoven, and Bach, Bente isn't strictly 'long-hair'. She appreciates the efforts of Art Tatum, Errol Garner, and Dave Brubeck.

Bente is now a ski instructor at Heavenly Valley, Lake Tahoe. This is her second year of instructing at the Lake.

Her plans for the future include attending the University of California at Berkeley next Summer and Fall '58.

She hopes to eventually start a school of ski instruction for pre-school age children in her hometown in Norway.

## Aggies Elect Sweeney

Lester Sweeney, senior, was elected president of Aggie club, at a meeting on December 6.

Other new officers are Ronald Lynch, vice president; Pat Reynolds, secretary; Betty Chism, treasurer; and Jim McCormick, historian.

The Aggies also discussed plans for their annual spring rodeo.

## Gamma Phi Pledges

Gamma Phi Beta pledges are offering University of Nevada students a chance to win a Philco portable radio, a party dress, a ski parka, and a \$5 gift certificate from a Reno record shop.

Pledge president and chairman Eleanor Bonenfant said that the winners will be determined Monday evening at the Gamma Phi house and will be notified.

Tickets are available from any Gamma Phi pledge or at the Gamma Phi house.

## Arizona Art Here

An art exhibit by nine faculty members of the Arizona State College at Tempe will begin January 6 and will run through the 31. It will be held in the Nevada Art Department in the temporary building.

Twenty-two items with a wide range of approach will be shown. They will be oil paintings and water colors.

Prof. John C. Sheppard, chairman of Nevada art department, explained that this in an exchange show. Next year, in turn, faculty members of the Nevada art department will take their paintings to Arizona State.

The paintings, contemporary in nature, will be for sale.

## REGENTS PLAN NEW PROGRAM

THE RUSSIAN BEAR looms ever larger, and it is becoming more and more evident that the United States is quickly becoming second rate in the race for leadership in technological development.

We shall soon see if the present session of Congress will push the panic button and go all out in a last desperate attempt to keep up with the Russians, or if it will assume its usual easy-going manner and pour millions of dollars into committees that will spend months, or even years, trying to find out just how far the U. S. is behind and, if so, who is to blame.

Action has already been taken here at the University to begin a program which will place Nevada in the field of nuclear engineering—one of the areas in which the U. S. seems to be lagging.

The Board of Regents last week appropriated \$15,000 for the establishment of a program in nuclear engineering. This came as a result of two months of study by University of Nevada Physics Department Chairman S. W. Leifson. Dr. Leifson's report to the Regents outlined plans of the University to obtain a \$25,000 sub-critical atomic unit from the Atomic Energy Commission.

The \$15,000 allocated by the Regents is designated for the hiring of a nuclear engineer or scientist or in other manners related to the development of a nuclear program.

The program, as yet, is technically not permanent. The funds allocated are not included in the present budget. The money is from non-recurring financial resources—gifts to the University.

This step by the Regents should prove valuable to the University. Congress will undoubtedly give financial aid to colleges and universities to advance studies in technological development, even if the panic button is not pushed by the recently convened legislators.

Schools that show interest in, or that have already set up programs in nuclear development will sensibly obtain a proportionate share of these government funds.

## J. W. All Washed Up New Way of Life On Nevada Campus

The statue of John W. Mackay has been cleaned once again—at the expense of the University of Nevada.

Carl M. Horn, superintendent of buildings and grounds, said that the statue has been coated with a white vaseline to prevent any paint from adhering to it again.

The statue was painted red last fall. At that time, there was some debate whether or not the student body should pay the bill.

The paint was removed sometime during the Christmas recess. As there was no way of determining who painted John, it was decided that the statue should be cleaned at the expense of the University.

## BROWN KNOWS

By BILL BROWN

The post of Student News service is vacant again. For the third time since its inception in 1956, the student administration must seek a student willing to devote many hours a week to publicizing the University.

The entire concept of a Student News Service was first thought up by Chuck Coyle during his term as Student Body President. The idea was to find some journalism student willing to write many stories per week to home town newspapers telling the folks at home what junior is doing at college.

The idea was thought to be a good one and Coyle and I worked on it and took it to the Senate where it was promptly shot down in flames. The idea being that the service should be some type of publicity organ for the fraternities and sororities.

Following this fiasco, Coyle retreated, and then came up with another plan. The service would be run by the ASUN with a minimum number of inches required for publication so that check could be kept on the person doing the work. The name Jim Joyce was placed before the Senate and he was approved. Joyce held the post some three months and then was elected editor of the Sagebrush and resigned his position.

As this occurred close to the end of school, nothing was done concerning the post until the start of this semester when Dewey Berscheid was named to fill the position. When Dewey took over the job he also inherited several refinements such as a minimum of 250 inches per month which must be written, there should be adequate news coverage of every student activity, and the director of the service would be responsible to several persons.

To achieve this he was given a desk in Morrill hall which was occupied by someone else most of the time. He was given the privilege of borrowing a typewriter, when and where he could find one that was not being used.

A vast number of promises were given but very few were being honored by the ASUN. Well, to make a long story short Dewey resigned this week to take over the post of assistant editor of the Sagebrush.

The purpose of telling this little tale of woe is to acquaint the students with the reason why their names seldom appear in their home town papers.

In my opinion the current student administration should revamp the entire setup of the student news service, and a realistic position should be taken as to the duties and responsibilities of the editor and the ASUN.

## Kellogg's Krispies

By Nora Kellogg

Old Father Time has once more watched a new year make its entry into the annals of history as 1957 fades into the realm of memory . . . a year filled with both favorable and unfavorable memories. And with the birth of 1958 have come the usual hangovers; a cascade of resolutions, many of which have already been broken; a long-awaited change in administration; the hope of miracles during final week; and the never-ending onslaught of new romances.

Many of the announcements will be old news by now since they failed to appear in the pre-Christmas edition of the paper, and some will be omitted because the couples are now non-existent.

Pi Phi Judy Stammer announced her pinning to SAE president Bill Kearney at a Christmas social between the two houses prior to vacation.

Pat Lamoreaux, Tri-Delt, is now wearing the Tau pin of Jerry Cobb. Sigma Nu Glen Piretto has given his pin to Nina Freeman.

Pat Reynolds, Gamma Phi, announced her pinning to Bob Ferraro, Sigma Nu. Both have been pinned before . . . to each other. Who says history doesn't repeat itself?

And speaking of repetition . . . KAT Shelley Branch is another who is sporting a fraternity pin. The one (and only???) is Leroy Arrascada who is another to be "scratched" off the eligibility list.

Among the pre-Christmas engagements are Tri-Delt Joyce Lindsay and Sigma Nu Bob Benedict . . . Theta Janet Ferrell and Bud Lauck . . . Pi Phi Gayle Shipley and Dave Newton . . . Sharon Sorenson and Theta Chi Tom Frost . . . Tri Delt Judy Nelson and Mickey Davies . . . and KAT Versiellen Eberle and Tau Del Driver. Versi and Del will be married during semester break. What a finale for finals!

After one year and four months, Sigma Nu Bill Provin could not escape the amorous clutches of the yule season and Tri-Delt Nancy Hanson who is now wearing his snake pin.

Other recent pinnings are those of Gamma Phi Lorelee Smith and Tau Jerry Evans . . . Pi Phi Myrna Howard and Sigma Nu Tom Murdock . . . Darlene Edger and Tau George Ancho . . . Pi Phi Carolyn McGowan and SAE Don Bernard . . . and Pi Phi Theresa Mariani and Tau Bill Witt.

SAE Steve Dollinger announced his pinning to DDD Charlotte Sheldon by passing cigars, exclaiming "It's a girl"! Charlotte, that is!

Theta Jolene Swearingen is engaged to Ruly Cazada of Trona . . . Pi Phi Martie Cleary to Pat McDonald of Tonopah . . . and Gamma Phi Marianne Capurro to ATO Vern Durkee.

Wedding bells were ringing during vacation as well as Christmas bells. Receiving their Mr. and Mrs. degrees were Angeline Vournazos and Sigma Nu Bruce Fabbi . . . Carolyn Braswell and Larry Oxborrow . . . Tri Delt Chris Gibson and Labda Chi Ray Little . . . and Mimi Morgan and Ted Beckett.

Love makes the world go round . . . and round . . . and round. No wonder so many have lost their sense of equilibrium!

**HOLIDAY WRAP-UP**

# Wolf Pack Kept Busy Over Holiday Vacation

While most of the students of the University of Nevada were relaxing over the holidays, the members of Nevada's basketball team were keeping very busy. The Wolf Pack played six games during the vacation.

The Wolf Pack played its first home game of the current season on December 16, just after the beginning of the Christmas vacation. It met Whittier College and downed the visitors 63-57 in an overtime period.

The same week, the Pack played host to the Pilots of the University of Portland. Nevada lost the two-game series with Portland, being defeated Friday night 69-55, and 59-52 the following night.

**TOURNAMENT**

The following week the Wolf Pack traveled to Sacramento to take part in the Holiday Tournament. In the opening game of the tourney, Nevada met the Whittier Poets for the second time during the season. This time the Poets were victorious, edging Nevada 51-50.

In Nevada's second game of the tournament, it met the Golden Gators of San Francisco State College. Again the Pack went down to defeat, this time by a score of 45-39.

Saturday night, December 28, the Pack began to find itself, and the basket, and, in its final game of the tourney, defeated Chico State College 67-50.

**TEAMS UNVEILED**

The tournament games gave the Wolf Pack and Coach Lawlor an opportunity to watch the other teams of the FWC in action.

Coach Lawlor tagged San Francisco State as the toughest conference team, with Sacramento State and Humboldt State close seconds.

WITH THE GREATEST OF EASE Dick Dorworth displays the form that carried him to first place in the Heavenly Valley Ski Meet.

# SPORTS

## Dorworth No. 1 At Nordic Meet

Dick Dorworth, University of Nevada skier, made news last week by placing first in the Class B cross-country and jumping events staged at the Nordic Training Camp in Heavenly Valley, Bijou, California.

Dorworth has an outstanding record as a competitor in Alpine events (slalom and downhill races) and has now proved to be one of the best collegians in the West on the ski jump and cross-country trail.

The physical conditioning and improved cross-country and jumping technique which Dorworth obtained at the Nordic Training Camp may be the big factor in keeping the "Ski-Miester" award for the Wolf Pack.

The "Ski-Miester" is an award made annually at the Nevada Winter Carnival to the skier who has the most outstanding record in the four events which are the basis for the Winter Carnival competition. The events are the cross-country race, slalom, downhill and jumping.

Dorworth left Reno Wednesday for Sun Valley, Idaho, to participate in the annual Sun Valley Open championships this week-end.

This meet consists of Alpine events only and the results he turns in may be considered on the "Ski-Miester" title.

## 10 Coeds to Calif.

Ten coeds will journey to Yuba City to represent the University of Nevada in the Yuba City College basketball play-day on January 11.

The women are: Marge Hartman, Evelyn Ames, Farol Spell, Joan and Jill Hulbert, Elizabeth Cox, Betty Edmonson, Deanne Munk, Georgie Weaver, and Mary Ann Tonini.

Among the other schools attending the play day are: The University of California at Davis, Chico State, Sierra college, College of the Pacific, Modesto Junior college and Stockton college.

Death and taxes—and finals.

# FWC Play Begins For Wolf Pack

The University of Nevada Wolf Pack will play its first Far Western Conference basketball game tonight, opening a two-game series with San Francisco State College.

Coach Jake Lawlor and eleven players left at 7:30 this morning for the trip to San Francisco. Players and coach will travel by private autos.

"This will be one of the toughest series of the season," commented Coach Lawlor just before departure. Lawlor and the Nevada squad met the San Francisco Gators in the Holiday Tournament at Sacramento on December 27. The Gators defeated Nevada 45-39.

**Starters**

Lawlor plans to use his regular starters most of the way in tonight's game. They are:

**Bob Lyon and John "Slug" Flynn** at forwards, **Chuck Walker**, center, and **John Legarza and George Nelson** at the guard positions.

Scrappy little John Borda has been ill the past week and will not make the trip.

The second game of the two-game series will be played tomorrow night.

The Wolf Pack is the holder of the Far Western Conference championship, but the height which made this possible is lacking in this season's team. The tallest man on the squad, Walker, is six ft. 4 in.

## Lawlor Named to UP Rating Staff

University of Nevada's varsity basketball coach, Jake Lawlor, has been selected to serve on the United Press weekly rating poll for small colleges basketball standings.

Coach Lawlor last year coached the University of Nevada Wolf Pack to the basketball championship of the Far Western Conference.

One coach from each state was selected to serve on the board. Each week these coaches will select their choice for the top ten teams. Their selections will then be used to determine the top ten small college basketball teams in the nation by consensus.

At the end of the basketball season, the board will then select a small college All-American basketball team.

Why is it that as the world gets smaller and smaller it takes more money to make it go around?

### To Address Gathering

Dr. Garold Holstine, dean of the College of Education at the University of Nevada, will address parents and teachers of Rancho High school in Las Vegas.

Discussion at the meeting January 16, will include recommendations for adapting school programs for mentally gifted children. Possibilities of vocational and trade schools in larger populated areas of Nevada will also be discussed.

### Interviews Offered

Persons interested in taking federal service entrance examinations may be interviewed next week.

Mrs. Virginia Cubberness, of the internal revenue office, will be on campus January 14, and Miss Sylvia Schoenfeld from the veterans administration will be here January 16.

Interviews will be in room 103 in Ross Hall, from 1 to 3 p.m.

### Wants Pen Pal

A former University of Nevada journalism student, Manfred L. Kikoley, appealed in a recent letter to Professor A. L. Higgenbottom for "some correspondence from his friends." Pvt. Nikoli, currently a Chaplains assistant at Fort Benning, Georgia, is planning on attending Officers Candidate school.

After eight weeks of Infantry basic training and getting used to the climate, Manfred attended an Army Administration School where "he brushed up on his typing".

Anyone who wishes to correspond with Nikoley may send their letters to:

Pvt. Manfred L. Nikoley,  
 Hq Det., 3rd Infantry Division  
 Trains,

Fort Benning Georgia.

In his letter, Manfred assured Higgenbottom that he is not too lazy to answer letters.

## History of Frats On UN Campus

By DICK TRACY

Do you know which fraternity has been on campus the longest?

The answer is either Sigma Alpha Epsilon or Phi Sigma Kappa. Both fraternities were preceded by local organizations in the 1890's and became national in 1921. Theta Chi came into existence on the campus in 1942 and is the newest fraternity here.

Lambda Chi Alpha was organized in 1929 and was preceded on campus by Kappa Lambda, established in 1921.

### Prevents Throat Cutting

The Interfraternity council was organized in February, 1921, by ATO, Phi Sig, SAE, and Sigma Nu as a clearing house for all fraternity matters. The original purpose of the IFC was to control "rushing" and prevent reciprocal throat cutting among fraternities.

It was through the efforts of the IFC that the annual fraternity bean feed was brought about, in order that the different houses get acquainted and forget their animosities during rushing and to present trophies and awards.

### SAE Oldest, Largest

Today, among the fraternities represented on campus, SAE has the largest national membership, and Lambda Chi Alpha has the most chapters. SAE also holds the honor of being the oldest national fraternity represented here, established in March, 1856.

In membership on the campus, Sigma Nu is the largest, ATO second, SAE third, Lambda Chi fourth, Theta Chi fifth, and Phi Sig sixth. Combined, the fraternities contain more than three hundred fifty men.

### Crime Does Pay As KAT Works for Frat

The Kappa Alpha Theta's were presented with a new trophy case by the Mothers Club Alumni during the Christmas vacation, but to fill it, 16 Theta women are hashing at the Theta Chi house this week for the return of 16 trophies.

The trophies were stolen from the Kappa Alpha Theta house before Christmas by Theta Chi men.

The women are assigned various duties, setting tables, answering the telephone, singing songs, and waiting on Theta Chi's in general.

Shifts were assigned. Groups of four women will hash on four different nights this week.

WHAT IS A MARCHING BAND THAT NEVER GETS A LUCKY BREAK?  
 (SEE PARAGRAPH BELOW)

**MEMO TO MAESTROS:** is your band dawdling instead of tootling? Is it full of feeble fifers and drooping drummers? Well, this musical slowdown *may* be traceable to lack of Luckies. Better give your band a break—and make it a Lucky one! A Lucky, you see, is a light smoke—the right smoke for everyone. It's all cigarette—all naturally light, wonderfully good-tasting tobacco. And Luckies' fine tobacco is toasted to taste even better. Now then, what's a marching band that never gets a Lucky break? Why, it's a *Sore Corps!* (Wasn't that cymbal?)

**STUCK FOR DOUGH?**  
**START STICKLING! MAKE \$25**

We'll pay \$25 for every Stickler we print—and for hundreds more that never get used! So start Stickling—they're so easy you can think of dozens in seconds! Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send 'em all with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.
