Army Notifies 35 ROTC Seniors

Thirty-five University of Nevada ROTC seniors have been notified by the Department of the Army of their branch assignments in the U. S. Army Reserve. The branch assignments are to be effective upon their graduation and commissioning as second lieutenants, which will take place during the coming year.

The same students are awaiting additional information due soon as to whether they will be required to serve for a six-month training period or for two years of active duty.

Branch assignments were announced as follows:

Infantry: Gilbert B. Ballinger, Richard J. Bortolin, Stephen H. Dollinger, William Kearney, John

President's Post Sought by 160

A list of 160 names has been given to the board of regents for consideration for the post of University of Nevada president. The board of regents will not start the selection process until March 1, however.

Candidate lists are being drawn up by three committees, one composed of college deans, one of faculty members, and one including the student body president, Don Travis, the alumni association, faculty members and deans.

The \$17,500 a year post is now being filled by Dean William R. Wood, who took over the post of acting president after the resigna-

TWO HUNDRED RENO SENIORS WILL TOUR UNIVERSITY CAMPUS FEB. 7

Two hundred Reno High School graduating seniors will tour the University of Nevada campus on Friday, February 7, from 2:10 p.m. to 3:30 p.m. in order to become acquainted with the University and its students and professors.

The tour has been arranged by Garold D. Holstine, dean of the College of Education and chairman of the University of Nevada High School Relations committee, and by the Reno high school faculty, headed by David Finch, principal, and Andrew Rosaschi, vice-principal.

The students will be divided into groups of eight to ten, according to their interest in a field of study that they may wish to take up in college.

At 1:00 p.m. there will be a general assembly of all guests, deans, department heads, and others in the College of Education auditorium.

A tour of the campus will be guided by such University organizations as Blue Key, and Sagens, starting at 1:30 p.m.

At 1:50 p.m., students will report to the colleges which interest

tion of Dr. Minard W. Stout. Sibbald, David Lowe, Donald L. Rasmussen, Ralph J. Rubenstein, John J. Flynn, Charles W. Fulkeron, James Hussey and Martin Johnson of Minden.

Artillery: William Bowser, Grant B. Hudlow, Bobby J. Lewis, Dale L. Fraser, George W. Corfield, Vernon C. Durkee, Jr., Robert G. Ferrari, and George A. Mross.

Corps of Engineers: Stanford C. Draper, William M. Schroeder, Dale S. Mosher, and Sidney R. Muck.

Adjutant General's Corps: Ken Fujii and James C. Wangness; Transportation Corps: George F. Murphy and Charles E. Smith; Medical Service Corps: Thomas A. See and Mark A. Nicklanovich; Military Police: Claude P. Moore; Chemical Cops: Phillip L. Hatch; Armor: Harry J. Mangrum, Jr.; Quartermaster Corps: Frederick Bartlett; Army Security Agency (Detailed to Signal Corps): John S. North.

The assignments were made on the basis of the student's desires and his major college studies, as well as the needs of the service.

The Nevada ROTC is a General Military Science unit. This allows the student a wide range of choice in regards to the branch of service he desires.

The concern evidenced by most of the graduating seniors regarding their still-undecided length of time they must serve on active duty stems mostly from the fact that interview personnel from the major industries will soon be invading the campus in search for new talent.

them for a general discussion on admission to the University and orientation to the programs of the college. They will be guided through classrooms and laboratories, and will have an opportunity to talk with department heads and other staff members, and will receive printed information concerning studies at the University of Nevada.

Students and faculty will report to the new Home Economics building reception room at 3:00 p.m. for a social affair which will include light refreshments.

Dean Holstine, who is also director of Summer School, stated that this is the largest turnout for a high school campus tour the University of Nevada has ever had.

Students Asked To Wear Ski Clothing Feb. 14

All students are requested to wear ski clothes to classes on Friday, February 14.

Bob Morrill, director of the Winter Carnival, has asked all students to wear ski clothes in an effort to stimulate interest in the winter carnival.

Failure to wear ski clothes will not bring a penalty, but it would be greatly appreciated by the winter carnival committee if all students cooperated, Morrill said.

Half-Million Cost New Building Nevada Southern

The Southern branch of the University of Nevada in Las Vegas will have a new half-million dollar classroom by April, 1959.

The board of regents in a recent meeting in Las Vegas gave the go-ahead signal to the project of building another addition to the Las Vegas campus.

The approval for the new school building was given by the Nevada legislature during the 1957 session.

There is now only one classroom building on the new campus, and many of the classes are held in rooms at the various Las Vegas high schools.

Two major problems arise with the construction of the new building, lack of sewer facilities, and the nearness of the McCarran airport to the school site.

The existing sewer line ends about a mile north of the campus and about \$450,000 would be needed to extend it out to the campus.

The present building is serviced by a septic tank which would be inadequate for another building.

The runway for the McCarran airport is being lengthened for jet travel and will terminate within two miles of the campus grounds.

It was stated at the regents meeting, that there would be no danger to the University buildings, but the noise might prove disturbing.

Peace Display Now At Nevada Library

The University has received a display entitled "Pathway to Peace." It illustrates and tells about United States proposals for the control and reduction of arms.

The government presentation is currently being shown in the lobby of the University library. The display was prepared by the disarmament staff at the White House.

It was set up under the direction of Mr. Kelly of the Audio-Visual department of the University.

'KISMET' REHEARSALS ARE IN FULL SWING; MUSICAL OPENS MARCH 14

The cast of "Kismet," the University of Nevada's spring production, is busily rehearsing for the March 14 and March 15 presentation of the hit Broadway musical.

Gay Lane, Jim DePriest, Charles Chester, Gary Shallenberger and Carol Stevers, all major soloists, are working daily with Dr. Keith Macy and Asher Wilson. Dr. Macy is the musical director for "Kismet" and chairman of the University of Nevada music department. Wilson is directing the acting of the production and is assistant professor of speech and drama.

The chorus of "Kismet" rehearses every Tuesday and Thursday with Macy, while the dancers practice

daily to recordings of the score of "Kismet." The recordings being used by the dancers were made by Robert Stange, a senior music major at the University.

Assistants with rehearsals are Mr. Orville Fleming and Mr. Earl Hultberg, both graduate students of the University of Nevada. Fleming is working with the male chorus and ensemble. Hultberg is rehearsing with the girls' chorus and the soloists.

At present, everyone in the cast is working separately on the singing, acting and dancing parts of the show. In about two or three weeks, says Dr. Macy, the entire cast will get together and rehearse the complete production.

Nevada Missile Also Explodes

In an attempt to enter the "Rocket Age," a group of fraternity pledges launched a missile with much the same results as the recent navy experiments.

The missile, which fizzled and exploded at a height of about 20 feet, was a 14-inch balsa wood one-stage rocket which returned to earth in three pieces.

The launching platform, an upright ash tray, was said to have flown several feet higher than the rocket.

The site of the launching, the front lawn of the Gamma Phi sorority house, was a scene of confusion as the Phi Sigma Kappa Rocket Research team fled for cover behind the sorority hedge and the Gamma Phi house mother scurried for the protection of the front porch.

Experiments have been discontinued until the cause of the explosion can be determined and a new launching site procured.

Victor Williams, director for project, stated simply, "Something must have gone wrong."

Aggie Students Place Fourth In Competition

Four students of the Max C. Fleischmann College of Agriculture range plant identification team placed fourth among 12 competing schools in the Collegiate Range Plant Judging contest last week.

The team was composed of Robert Ferraro, Pat Currie, Edwin DePaoli, and Fred Smith. Phoenix, Arizona, was the site of the contest, sponsored by the American Society of Range Management.

Robert Ferraro, Paradise Valley senior student in agriculture, was second highest scoring individual in a field of 44 competing students. Pat Currie, Reno senior in agriculture, was sixth.

Two Join Nevada Business Staff

Two new staff members have been added to the College of Business Administration, bringing the total to eleven.

Hilary H. Sax, C.P.A., has been appointed a lecturer to teach Accounting and Business Law. Sax is author of a textbook, "Shortened CPA Problems," and is under contract to the publishers, Prentice-Hall, to do a second book on industrial accounting.

A graduate member of the University of Toledo and Harvard Law School, Sax is a member of the American Bar Association. He comes to the campus from the University of Houston, where he taught law and accounting for seven years.

Harvey G. Hallenbeck has been named as assistant director of the Bureau of Business and Economic Research. He has spent the last ten years doing research on the economy and policy planning for the State of Pennsylvania. During this time, he published over twenty studies on state economic planning. Hallenbeck is a graduate of Lehigh and Columbia.

POOLMAN RESIGNS

The resignation of the campus engineer, Robert C. Poolman, was accepted by the board of regents at their February 1 meeting in Las Vegas.

Acting President William R. Wood told the board that Poolman had tentatively accepted appointment as chief engineer of Region Six of the Federal Housing and Home Finance agency.

Poolman will direct engineering activities for the agency's building program in the western states, Alaska and Hawaii.

The resignation, which was accepted with regret by the regents, will become effective February 28.

Poolman was named University engineer in 1955, when the office was created. Prior to that time he was an engineering faculty member since 1946.

Wolf Pack Moves To Second in FWC

The University of Nevada's Wolf Pack is now up to second place in the Far Western Conference standings after defeating the Cal Aggies in a twin bill last weekend on Nevada's home court.

The final scores for Friday and Saturday night basketball games were—Friday evening, Nevada 66, CCal Aggies 43; Saturday night, Nevada 64, Cal Aggies 37.

Nevada established large leads during the first two periods of both games and coach Jake Lawlor substituted his reserves freely all throughout the second, third, and final periods of play both evenings.

Leaders

High point men Friday night for Nevada were guard John Legarza, making 18 points, followed by Bob Lyon with 12, and John Flynn with 10. The Cal Aggies top scorers for Friday night were Montin with 12, followed by Granados with 8.

Saturday evening's play resulted in Bob Lyons scoring 16 points with many sharp and unfaltering jump and set shots from in and around the free-throw line. Bob was followed by Chuck Walker, center, who played a spectacular game in getting rebounds off the boards and scoring 12 points.

Many Hit Songs Being Readied By 'Kismet' Cast

Many hit songs are included in the production of "Kismet," the University of Nevada's spring production.

Under the direction of Dr. Keith Macy and Asher Wilson, the play will be presented on March 14 and 15 at the State building.

Some of the songs that will be heard are "Stranger in Paradise," sung by Charles Chester in the part of the Caliph; "Baubles, Bangles and Beads," sung by Johnny Madariaga as the Bauble man and Gay Lane as Marsinah; "Not Since Ninevah," done by Carol Stevers as Lalume; "And This Is My Beloved," done by Gary Shallenberger, Charles Chester, Jim DePriest and Gay Lane; and "Was I Wazir," sung by Gary Shallenberger as the Wzair.

Wolf Pack Ski Team

The final selection of the Wolf Pack ski team was made this week by Nevada ski coach Shelton Leonard. This year's team is "exceptionally strong and should turn in an outstanding record for the season," said Leonard when he made the Nevada roster official.

Dick Yates, a member of last year's ski team, is managing the eleven-man squad.

The members of the team are Dale Prevost, Buddy Garcia, Harry Ericson, Doug Salter, Tom Nicora, Jack Bosta, Tom Trabert, Dave Pruett, Dick Dorworth, Don Cronin and Mickey Hogan.

Dorworth and Salter plan to enter all events in the Winter Carnival in an effort to keep the "Ski-meister" award at Nevada this year. This is the most cherished individual award made during the meet and goes to the participant who has the most outstanding record in the downhill, cross-country, slalom and jumping events.

Three of the skiers are freshmen. Salter, Nicora, and Hogan have that distinction while Bosta and Ericson have two year's experience and Cronin has one year with Nevada's ski team.

Hogan and Dorworth are designated Class "A" skiers in Alpine events by the Far West Ski Association and Ericson is a Class "A" cross-country racer.

The roster:

NAME	AGE	EVENT	CLASS	HOME
DALE PREVOST	21	Downhill Slalom	Soph.	Reno
BUDDY GARCIA	21	Cross-country Downhill Slalom	Soph.	Reno
HARRY ERICSON	24	Cross-country Slalom	Soph.	Reno
DOUG SALTER	17	All events	Fros.	Reno
TOM NICORA	18	Downhill Slalom	Fros.	Reno
DAVE PRUETT	21	Cross-country Jumping	Soph.	Gardnerville
JACK BOSTA	20	Downhill Slalom	Junior	Reno
TOM TRABERT	20	Cross-country Jumping	Soph.	Sparks
DICK DORWORTH	19	All-events	Soph.	Reno
DON CRONIN	19	Cross-country Jumping	Soph.	Reno
MICKEY HOGAN	20	Downhill Slalom	Fros.	Truckee

English Profs Find New Home

Plans are now in progress for the movement of the Department of English to the old Agricultural building, it was announced recently.

The move was made possible by the transfer of the present Home Economics classes to the new Home Economics building. Five English instructors already have offices in the Agriculture building: Dr. Robert Hume, Dr. Charlton Laird, Dr. Paul Eldridge, Miss Verna Witrock and Miss Dolores Barracano.

English department classes are being distributed throughout the campus. In addition to those held

in the present quarters, there are fifteen classes in Ross Hall, others in the Education building, and in Stewart Hall.

The move was made necessary when increased enrollment made the present quarters inadequate. Department Chairman Robert Gorrell said he hopes the move will be completed by summer. It depends, he said, on how fast the new Home Economics building is completed, and needed renovations of the Agriculture building made.

Charles Smith Addresses UN Press Club, SDX

Charles J. Smith, secretary of the International Newspapers Collectors Club, Phoenix, spoke to journalism students at the Kappa Alpha sorority house on Thursday evening. Attending the meeting were members of the University of Nevada Press club, and of the Nevada chapter of the journalistic fraternity, Sigma Delta Chi.

Smith talked for nearly an hour, covering the history of news journalism from its beginning nearly three hundred years ago up to the present time.

He exhibited some papers from his collection and displayed some very early papers, foreign papers, and papers bearing headlines which have now become important history. Some of the highlights of his collection are The Observer of London of 1861, The Boston Chronicle of 1768, newspapers bearing the headlines of the 1906 San Francisco earthquake and fire, and papers from the Stamp Act days with stamps printed on them.

A. L. Higginbotham, professor of journalism at the University of Nevada, and Neal Van Sooy, editor of the Nevada Appeal in Carson City are the only two Nevada members of the International Newspapers Collectors club.

Art Exhibit Now On Display at UN

The University of Nevada's art department currently is exhibiting an art display on loan from the University of Washington. The exhibit includes water colors, oil paintings, drawings, photographs of jewelry and sculpture.

The display was done by the faculty of the University of Washington and is open every day except Saturday until 4:30 p.m. and from 1 to 4 p.m. on Sunday.

Polio Shots Are Still Available For Dollar Each

Polio shots are still available to students for one dollar each.

The shots are given at the Medical Arts laboratory located at 505 South Arlington avenue. Cards identifying university students as such must be picked up at the campus infirmary first, however.

The full polio treatment includes three shots costing one dollar each. The second shot is given one month after the first, and the final shot seven months after the second. A booster shot is now being given at yearly intervals.

Since nurses employed by the state cannot give these polio shots, the infirmary is unable to offer the service. The nurses on campus are state-employed.

A large number of students have picked up their cards but relatively few have received the shots so far.

Not only students, but also their dependents may receive these shots.

Nevada Girls In Training for Powder Puff Derby

Powder Puff Derby entries from Nevada for the Winter Carnival have been selected and in training since the first snow.

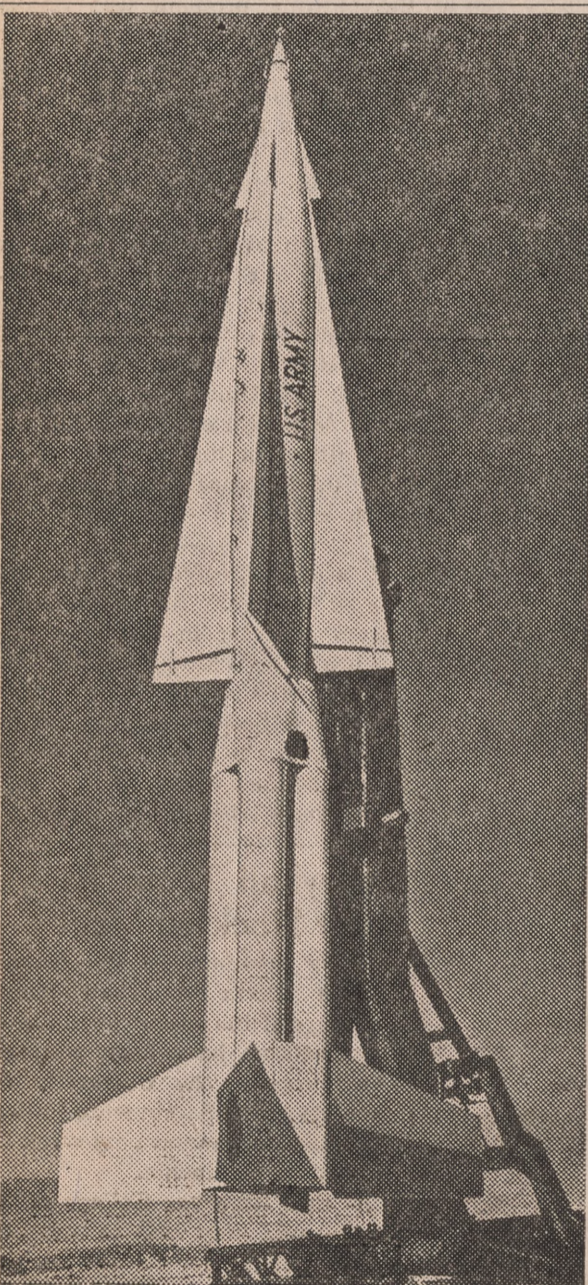

The ladies are Cathy Zimmerman, Gayle Hall, Gay Brennen, Fran Beer, Mary Ann Tonini, Janis MacDonald, and Marilyn Hall.

Bob Autry, a member of last year's male team, is acting as their trainer.

The Nevada coeds will compete against entries from Chico State, Stanford, UCLA, San Jose State, University of Washington, Sierra college, and University of Colorado.

Zimmerman, Tonini and Gayle Hall have two years previous experience in skiing for Nevada.

THIRTY-EIGHT STUDENTS AT CHURCH SKI MEETING

Thirty-eight students from colleges in Northern California came up to Reno for the annual Federated Congregational Presbyterian Church ski weekend. The skiers came up on Thursday, January 30, and stayed until Sunday, February 2.

The colleges represented were Stanford, San Jose State, and the

University of California.

The women stayed in Manzanita hall and the men stayed in the Federated Church in Reno. Meals were also furnished by the church.

BROWN KNOWS

By **BILL BROWN**

The resignation of University Engineer Robert Poolman at the regents meeting last week was greeted with mixed emotion by many people. On the one hand there were the people that Bob had waged war with at different times which included the State Planning Board and various local architects who seemed relieved that our outspoken engineer was moving to greener pastures. On the other hand many people, including the administration and regents were genuinely sorry to see Bob leave.

Not many students know Robert Poolman personally but every time they look at Ross Hall or the Student Union or the new Agriculture building they see the marks his personality has left on the face of the University.

These buildings were obtained by the joint efforts of many individuals but it was the work of the University Engineer who transformed the raw material of money into the finished product of steel and brick.

I first ran into Bob when as a novice journalist I was required to cover the Buildings and Grounds beat for the Sagebrush. The fact that I could not write any better than I can now did not deter Bob from taking time out on busy days to answer my silly questions about the construction programs, indeed he did everything but write the stories for me. Although I was not very successful in the course it was not the fault of Mr. Poolman.

Among his other chores the University Engineer is in charge of parking. Through the efforts of Mr. Poolman a realistic approach to

the parking problem was finally achieved, and for the first time in years garbage trucks were able to drive a campus and pick up the refuse of a generation.

Although the patrolman put a crimp in the activities of the "drive-in classroom set" (hose who wanted to park their cars in the basement of Stewart Hall) the new policy helped alleviate a pressing problem.

As Robert Poolman says "Aloha" to the University he can always rest assured that a job will be waiting for him here. After all, how many more years has Carl Horn left?

I was interested to hear that one of the great Rocky Mountain racers will be in Reno to help celebrate the Winter Carnival. Tom Smales of Colorado is currently nursing a broken leg but he decided to get a line on the Nevada skiers against whom he may have to compete later in the season.

Volleyball Team To Enter Stockton Meet

Five members of the Kappa Alpha Theta volleyball team, winners of the recent intramural competition, have been selected to represent the University of Nevada at the Sacramento Valley League tournament next week in Stockton, California.

At that time, the College of the Pacific will play host to members of the League for its annual Volleyball Playday.

Members of the Kappa Alpha Theta team chosen to go are Jolie Swearinger, Barbara Heward, Rita Woods, Karen Knudson and Evelyn Ames. Two other players will be selected later.

Kellogg's Krispies

By NORA KELLOGG

The mental strain of finals is over and now the physical strain of Winter Carnival begins with the building of house decorations. Plagiarizing may have worked during exams . . . for some it didn't . . . but only thousands of hours of unpaid slave labor will make Winter Carnival a success.

While students twist napkins and stuff chicken wire, and ski club members tamp the slopes, Sundowners are planning their big skit for the assembly.

Despite the efforts of some to burn the Tri-Delts' decorations last Saturday night, Bob Morrill, Chelton Leonard, and Bob Autrey have managed to keep things running smoothly.

They say bad luck usually comes in streaks and DDD has been victimized. Their charter plaque and 1957 homecoming trophy have been confiscated by a few admiring serenaders.

The same few honored (?) Tau Bobbie Burns and DDD Janie Kottinger last Friday night. Nothing like interrupting a good party!

Casualties seem to be contagious! Pi Phi Myram Borders got hit in the rear . . . of her car . . . by another car. Result of contact three forehead stitches. It must run in the family because her little sister, Barb Moncrief, is wearing an economy-sized cast on her right leg . . . skiing fatality.

New in the romance department is the pinning of Tri-Delt Sharon Went to Bob Clements, Phi Delt. They rhyme!

DDD Penny Molineux announced her pinning to Bob Hemphill, Phi Sig, for the third time.

Anita Taylor is now wearing the white star of SN John Ingram. John is now attending Thunderbird Foreign Trade School. The big day has already been set for August 17.

Also in line for that last-mile stretch to the altar are Janet Olsen and Jack Martin. Dave Adams and Marna Edwarde, elementary teacher in Oakland, are planning a June wedding.

Boy-wonder Dan Hulse and Juanita Springer of Reno will also exchange vows in June. With a combination of actor-dancer-comedian and ballerina, who knows what sort of talent will result?

Those who have already taken the fatal step are Theta De De Colton and Rudi Eisele, and Tri-Delt Marilyn Ferreira and Al Tabor.

In the promising-romance department are Pi Phi Carol Thix and Jim Hill . . . Gamma Phi Joanne Rogero and Phi Sig Bill Raney . . . DDD Jody McNally and SN Buddy Garcia . . . Theta Kathy Zimmerman and Stanford grad Paul Gilbert . . . KAT Deanna Woodliff and John Mayeroff . . . Sandy Powell and SAE Doug Kimmel . . . Sue Lemmon and Paul Rutherford . . . Pi Phi Janie Franklin and SAE Jim Greathouse . . . DDD Diann Coate and SAE Don Hudson . . . Pi Phi Sally Sherman and Tau Mack Fry . . . Gamma Phi Dorothy Howell ad A.T.O. Paul Huffy.

Bill Tyson can never find enough to do. He is now a representative for L.S.M.F.T. . . . Less Said Means Fewer Troubles.

It seems that the phones in both Manzanita and Artemisia halls were taken out and replaced by pay phones a couple of months ago. Pete Potter . . . SN, not the disc jockey . . . had been spinning a few dials. His calls to the foreign embassy in Puerto Rico and Khrushchev in Russia were charged to Manzanita. Phones were changed shortly after the bills were received.

And back to the local yokels who have been seen together recently . . . Rita Woods, KAT, and Gene Pretti . . . Janice Hinds and Bob Long . . . George Mross and Gay Lane . . . Pi Phi Carol Kirrene and SAE Jim Halley . . . KAT Marie McDonough and Lambda Chi grad Jim Carlson . . . Theta Leila Wolfe and SN Bob Perchetti . . . SN Dale Prevost and Pi Phi Farol Lee Spell . . . Pi Phi Kay Hicks and Buddy Sorenson . . . Connie Long and member of the Silver Sox, Fran Boniar, who was just named athlete of the year . . . KAT Paul Kingston and Lambda Chi Scratch Arrascada (he wasn't scratched for long)!

Planning a big day of skiing Saturday are pros Chuck Smith and Bilbo Helms. If their skiing attire is indicative of their ability . . . track!

Speaking of skiing, Pi Phis Kay Kelly and Penny Pemberton may be mastering the slopes, but they're a little wary of the customs of Finland.

Deanne Munk Named Pi Phi President

Deanne Munk, a junior from Lovelock, has been elected president of the Pi Beta Phi sorority.

Vice president is Carol Kirrene. Corresponding secretary is Sharon Stiff, and recording secretary is Joann Todd.

Other officers are: Treasurer, Jean Best; pledge supervisor, Letitia Sawle; rush captain, Marilyn Ferrari; scholarship chairman, Penny Pemberton; historian, Carolyn McGowan; house manager, Judy Stammer; program chairman, Mary Morton; social chairman, Theresa Mariani; settlement school chairman, Sandra Hesse; maga-

MEASURE

the scientific environment at UCRL

THE CHALLENGE Current projects at UCRL are at the very frontier of nuclear research. Assignments are fresh and stimulating at all levels. Here one calls upon his creative imagination — as well as his ability — to help solve fundamental problems in nuclear science.

ASSOCIATES Men noted for outstanding accomplishments in your field are on the UCRL staff. Many of them have contributed pioneer achievements in the nuclear field. You share their pioneering knowledge — and have their encouragement — at UCRL.

FACILITIES Generally considered unmatched in the field, UCRL facilities give project workers access to all the latest instruments of research — from high-speed

digital computers, water boiler reactors, particle accelerators, to facilities in nuclear magnetic resonance-electron spin resonance.

ATMOSPHERE UCRL is directed by scientists and engineers. Here you'll find the right "climate" for work and advancement, encouragement for initiative. And you'll enjoy the opportunity to work in the San Francisco Bay Area.

A UCRL staff member will visit your campus

to give you complete details on future opportunities at UCRL. Contact

now for appointment.

Sorority Rushing

Informal sorority rushing begins Monday, February 10. Interested women should sign a rush list in Dean Elaine Mobley's office. Panhellenic council president Gayl eSommer said informal rushing may last throughout the spring semester. During informal rushing there are no organized rush parties. Sororities invite rushees for dinner and other events.

New Building To Bear Name Of Doctor Church

The new fine arts building soon to be constructed on the University campus will be named for Dr. J. E. Church, professor emeritus of classics at the University. This action was taken at the board of regents meeting held in Las Vegas on February 1.

Dr. Church has gained world-wide recognition as a snow scientist.

The Regents are also in the process of naming a new men's dormitory soon to be constructed on the Reno campus.

The new Fine Arts building will be built at a cost of \$1,000,000 and will probably be constructed on the site of the temporary buildings at the lower end of the campus.

Business Students Form Organization

A group to promote better relationships between the students and faculty of the College of Business Administration is being organized.

It will be called the Commerce Club, and will be open to all students majoring in business administration.

The group hopes to have an advisor from each division of the department, in addition to its main advisor, Dean Robert C. Weems.

A constitution committee is formulating plans for a constitution. The committee plans to meet today to discuss the progress.

The committee is composed of Lawis Sutton, Ed Olesen, Fred Jesser, Warren Gibson, Margaret Cimizzotti, LeRoy Arrascada, Spiros Anastassatos, Robert Byrne, and is under the direction of acting president, Harvey Gordon.

Ever meet a trusting soul?

"You can't go wrong looking for a job these days," he assures you. "Opportunities are great all over. All the good companies have about the same to offer."

Do they? A lot of not-so-trusting souls think otherwise. They suspect that some companies have much more to offer than others, and they want to find out which those are.

We'll help. We want to tell you how much the Bell Telephone Companies offer in the way of advancement opportunities, training, pay and benefits, professional associates and working conditions. No matter what your educational background—the arts, the sciences, business or engineering—make a date to talk with a Bell interviewer when he visits your campus. You can also get information about the careers these companies offer by reading the Bell Telephone booklet on file in your Placement Office, or by writing for "Challenge and Opportunity" to:
