Campus Players Currently Offer 'The Crucible'

The Campus Players gave their first performance of "The Crucible" last night in the Education auditorium. The play will run through Saturday. The theme is witch-hunting in the early days of Salem.

"Arthur Miller wrote 'The Crucible' during the heat of the Army-McCarthy hearings," said Asher B. Wilson, the director. "It is a stirring incident of witch-hunting in any period."

The characters are taken from history. Many of the incidents in the play really happened.

The action is started when Abigail Williams, in love with John Proctor, calls out certain women in the town of Salem as witches. Proctor's wife is among them, and Abigail hopes to have her put to death. Proctor tries to stop this, is himself accused of being a wizard, and hanged.

The period costumes for the play are taken from the University Theater's wardrobe collection. Edith Rittenhouse is in charge of the costumes. Frank Way does the lighting, and Roger Joseph is in charge of publicity.

The cast of characters, in order of their appearance, are:

Betty Parris, played by Carol Dennison; Rev. Parris, Bill Evans; Tituba, Bertha Mack; Abigail Williams, Elen Saumer, Susanna Wallcott, Tamara Tenk; Ann Putman, Marcia Lil; John Putman, Bruce Rossman; Rebecca Nurse, Edith Rittenhouse; Giles Corey, Dan Hulse; John Proctor, Bob Moran; Mercy Lewis, Diane Rinehart; Mary Warren, Diz Bonahoom; Rev. Hale, Willard Day; Ezekiel Cheever, Robert Lemon; Willard, Buck Winter; Francis Nurse, Allen Van Vorst; Deputy Governor Danforth, Ed Meharg; Judge Hathorne, Frank Clawson; Sarah Good, Barbara Brewer.

Queen Patsy

With pomp and military splendor Tri Delt Patsy Lewis was crowned queen of the Thirtieth Annual Military Ball on Nov. 15. Gov. Charles Russell escorted the queen through the traditional military saber arch, then led the Grand March.

Attendants for the queen were escorted by officers of the advanced military students. Her attendants were Lillian Mason, Pi Beta Phi; Dorthiann Cook, Kappa Alpha Theta; Jackie Curti, Gamma

Phi Beta, and Ann Stockwell, Artemisia-Manzanita.

Performing at the dance was the Sierra Guardsmen drill team which is composed of underclass military students.

Many faculty members turned out in uniforms.

Chaperones were: Lt. Col. and Mrs. Charles E. Ronan; Maj. and Mrs. Homer Owsley; Capt. and Mrs. Thomas Berry, and Capt. and Mrs. Donald Hartin.

STUDENT UNION SAFE BURGLARY

More than \$270 was taken from a safe in the director's office in the Jot Travis Student Union building last Friday night. The unknown burglar apparently had a key to the office door and the combination to the safe.

A police report says Don Rasmussen, assistant to the direc-

tor, placed a cash box containing almost \$300 in the safe at 6 p.m. The burglary was discovered at 9:35 p.m. by Bob Morrill, Student Union president. Morrill found the cash box on the floor in front of the safe. It still contained more than \$20 in nickels and pennies.

Six persons have a key to the office and the combination to the safe; all of them volunteered to have their fingerprints taken and to submit to a polygraph (lie detector) test. They are Robert Kersey, director, who was out of town at the time of the burglary; Donald Rasmussen, assistant to the director; and employees Dick Deleissegues, Doris Farrell, Enid Terman, and Geraldine Field.

Bill Adams announced that "the people involved have been assured by the Student Union Board of Directors that they are not being held responsible for the burglary due to the circumstances. The combination to the safe has been the same for 12 years, the safe has been used by two different offices during that time, and a set of keys to the Student Union building was lost several weeks ago."

The safe was given to the Student Union by Dean Mobley, who had it in her office but had never used it. It originally belonged to Dean Mack, Dean Mobley's predecessor. It is believed that the safe was purchased in 1908.

"Precautionary measures have been taken to prevent any future burglary," stated Kersey. The locks have been changed on all the doors and the combination to the safe has been changed. "A larger safe has been offered to the Student Union by one of the departments on campus," added Kersey.

Student Directory Is Now Completed

Have you even seen a Crabtree, a Swan, or a Drum wandering about the University of Nevada campus? Sure you have. They are all students at the University and they, along with over 2,200 others, are listed in the 1958-59 student directory, which was published last week.

Selling to students for fifty cents per copy, the new directory has a grey cover, with blue lettering. Last year's directory had reverse coloring. The student's names are printed in black, highly legible type face, which is a striking feature of the directory.

The directory is available in the Student Union building, at the bookstore, at Knight's restaurant—formerly the Wolf Den, and from the undergraduate members of Sigma Delta Chi, the national journalistic fraternity.

Each student's name is listed in alphabetical order with his class standing, campus address, and telephone number. Also listed are all campus organizations, their committee chairman, and the officers in student government.

Listed first in the directory is Karen Abbott. Last is Ronald Zideck, who has undoubtedly seen the tag end of many a line.

Connie Ann Christofferson has the longest name in the directory. Philip DeLongchamps with Richard Deleissegues follow a close second. Yvonne Erb has one of the shortest last names.

Blue 'Russian' Bomb Worries Tri-Delt Sorority Sisters

"There's a bomb on the lawn in front of our house! It's big, it's blue, and it ticks!"

University of Nevada coed Jody McNally was just giving the police the facts last Friday evening. Police gingerly surrounded the object on the lawn in front of the Tri-Delt house at 845 North Sierra street and found Miss McNally essentially correct.

It was big, it was blue, and it was ticking sturdily away. Also, there were signs on it. One said "danger! Run like hellinski." Another said "Help- I'm a prisoner in a Russian bomb factory."

As it turned out, an aerial practice bomb had been rigged with a dry cell battery hooked to a mechanical linkage inside a small metal box, which produced the loud ticking.

The battery was disconnected, and it was found that the bomb was in no way dangerous. It was given to the girls at the sorority

house as a souvenir and later stolen by men in a "car with California plates."

"I'm sorry they took it back," commented Miss McNally.

"We thought the whole thing was pretty funny, after we got the barricades down from the windows."

"Probably the work of some of those geniuses at the University," said the police in their report.

Harpichord Recital On Sunday at Four

A harpichord recital will be presented by Dr. William H. Halberstadt, assistant professor of philosophy, at this weekend's Sunday At Four program in the new gym.

The program will bring together a wide selection of composers and styles, chosen by Dr. Halberstadt to show the great versatility of the instrument, he says. The major work to be presented is Johann Kuhnau's "David and Goliath."

STUDENT COURT QUESTION TO BE DECIDED BY STUDENT BODY AT DEC. 10 ELECTION

The ASUN senate voted to put the Student Court constitution to a special vote on Dec. 10.

At this time students will be asked to accept or reject the proposed court.

According to the ASUN constitution 30 per cent of the enrolled students of the University are needed to constitute a quorum.

This means that unless 630 students vote in the special election, the vote will be considered invalid.

Voting will be held in the Student Union building under the direction of the election committee.

Copies of the revised court plan are available in the office of the ASUN president.

DELEGATES—Attending the national convention of members of Sigma Delta Chi, national journalistic fraternity, are (left to right) Professor A. L. Higginbotham, chairman of the University's department of journalism; Bill Devereux, alternate delegate; Walt Ryals, alternate delegate, and Robert L. Brown, chapter delegate. The meeting started yesterday and will continue until Sunday. Journalists from all over the United States and members of undergraduate chapters of SDX from 65 colleges and universities will attend. At last year's meeting in Houston, Tex., the University of Nevada chapter was selected the best in the nation.

... JUST WHITTLIN'...

By JUDY V.

Ah, "If winter comes, can spring be far behind?" Man, I hope not; but I have a sneaky suspicion that— Guess old winter has come at last. The offices are already being flooded by calls from students whose cars won't start, or those who have fallen on our ancient brick heritage, which conveniently insulates the old snow (ice) and makes a great skating run, but unfortunately most of the professors look ungraciously at those students who bring skates to class, and have broken limbs; and from a few poor souls who forgot to take their flu shots and are now paying their debt to society. A few optimistic members of our student body can be viewed, parti-colored blobs of ski wax clenched in their fists, breaking in various pieces of ski-wear, such as after-ski boots and ski sweaters.

Some of these forward-looking folks managed to get our winter social season off with a "bang." The scene of the blast was the Rosemont Lodge; the event—why the Ski Club Party, of course. This was another of those shindigs which I always seem to have trouble reporting on. Even though I was there, I had the worst time figuring out the couples. Actually, I thing some of those fellas brought more than one girl—course it could of been the other way around. I'll have to admit, I did get there a little late, but I got there soon enough to catch some of the spectacular gymnastics of the Playboys. I just can't see how Dave could fall over like that and not hurt himself. He must have been awfully relaxed, or the benefit of those masculine individuals who become quite frustrated at seeing their name appear next to that of another guy, I'm going to list the ladies and gentlemen separately, O. K.? Here goes: (Fellas) Stan Sommers; Snake, Dave Pruet; Snake, Don Cronin; Snaks, Harry Erikson; Tom Nicora; Lynn Marrs, Sigma Nu Pat Monahan, Sigma Nu; Paul Kautz, ATO; Frank Cassas, ATO; Gary Machabee, ATO; Vance Bell, Snake; Gary Andras, ATO; and Bill Bowser. (Gals) Pi Phi, Sharon Wilkerson; Theta, Linda Smith; Theta, Joan Fike; Gamma Phi, Pat Reynolds; Gamma Phi Barbara Galeppi; Marsha Avinsino, Theta, Dianne Moore, Tri Delt; Kitty Humphrey, Theta; Gamma Phi, Jean Baker.

About a week later, both the Junior and Senior Classes decided to have their respective class days. Both affairs ended in utter confusion. While the Seniors, with their chilly kegs of beer, were snowed out, the Juniors were snowed in. Of course a few of the sympathetic seniors attempted to brave the raging blizzard in order to prevent the forlorn Juniors, who were trapped with several kegs of beer and many tons of Italian tidbits, from over-indulging and upsetting their tender little tummies. These noble Seniors found that the road to the heavenly hideaway was pretty slick; nearly as slick as the Juniors found the floor of the Flint barn, where some spastic (or whatever) individuals had upset their plates of goodies and then proceeded to dance in the scattered remains. How Primitive! Anyway, we had fun. Good fellow-

Editorial

A student vote for approval or rejection of the newly constructed constitution of the Student Court is scheduled for December 10. Although the staff of this newspaper does not advocate passage of the court, and has pointed out the shortcomings of the formation of the court, it is still felt that in any democratic group it is the will of the majority that must prevail.

Since the SAGEBRUSH is the students' newspaper, it is only fair that those favoring the court be allowed to present their views of the court through this media. We have selected ASUN President Dick Bryan as the spokesman for the pro-court group, and following are his views as told to SAGEBRUSH reporter Diane Gordon.

"A student court system is not a new concept, but has been an integral part of the student government in many universities for a number of years.

The court in itself could not expel or place a student on disciplinary probation, it can only recommend such action to the disciplinary committee, pending its appeal the court can only warn and equit.

The court would replace the student-faculty relations committee as a disciplinary body. The primary function of the student-faculty relations committee is to promote better relations among faculty and students in airing their problems. It was not intended to be a disciplinary body, but was forced to assume the responsibility in the absence of a disciplinary body.

Both Charles J. Armstrong and Dean Basta are in accord with the concept of the student court.

If the court is accepted by the student body, it will serve on a one-year trial basis and will again be put on the ballot for permanent acceptance or rejection.

The court is not designed to infringe on the jurisdiction of AWS, IFC or the Panhellenic council. The court will be an interpretative body for such things as contested elections and the violations of the University Code of Conduct and students' social code.

Dean Basta will present the case to the court. The court will call in witnesses and the defendant may call in witnesses, and before a decision is made, the defendant will be called for further facts. The defendant may also have counsel if he feels it is desirable.

Students will have the right of appeal before the court and the discipline committee. Court hearings will be closed to protect the student whose case is being heard.

The five member court will be composed of at least one man and at least one woman, with the remaining three to be of either sex. Qualifications for a court justice are that he must be an upperclassman, a regularly enrolled student, have a 2.1 grade average and no previous violation of the conduct code on his or her record. The term is for a two-year period.

The ASUN nominating committee presents two names for each justice to the Senate for approval or disapproval, and two-thirds of the Senate quorum must approve the nominees.

Justices will not be able to hold organizational presidencies or school committee chairmanships in order to give them time for the court and to insure impartiality."

PLANS AND DATES FOR CHRISTMAS FORMAL DANCES OF WOMEN'S GROUPS ANNOUNCED

The five women's living groups on campus have announced dates and places for their 1958 Christmas formal.

The Independent Artemisia-Manzanita association will hold its dance on Saturday, Dec. 13 at Lawton's, west of Reno. It will be from 9 p.m. 'till midnight.

The women of Kappa Alpha Theta and Pi Beta Phi sororities will hold a combined Christmas formal, also on the evening of Dec. 13 from 9 p.m. until midnight. Charlie Meyerson's group will play for the dance. It is to be held in the Fable room of the Mapes hotel.

The Tri-Delt formal will be Saturday, Dec. 6 in the Gaynor room of the Big-Y in Sparks.

The women of Gamma Phi Beta will hold theirs Friday, Dec. 12 at Lawton's. A buffet supper will be served afterward.

Pi Phi Drawings

Two \$10 gift orders—one for a male and one for a female—good at Grey-Reids will be awarded at a drawing at the Pi Beta Phi Christmas formal, Dec. 11 in the Fable room of the Mapes hotel.

Tickets can be obtained from Pi Phi pledges. The pledge class, under the direction of President Carol Best, eventually hopes to be able to buy the house a new dining room set.

Officers and gentlemen of the University of Nevada, along with their dates, attended the Annual Military Ball, held in the Garden Room of the Riverside Hotel. I understand some of the guests were not too sure whether or not they were in the right place; seems the dance could just as well have been in honor of the security officers in attendance. Oh well, guess we have to have at least one dry run a year.

The same night the military brains of the U of N were trying to out-fox the security officers, the good old SAE's were holding a ski party. (They decided to become more civilized, in a somewhat barbaric sort of way). The peak of the party came when the guests indulged in a "Hula-Hoop" contest. They also played huddle.

Phi Sigs had another mysterious dance.

IBM Machines in Home Ec Building Are To Be Used Only by University

International Business Machines equipment in the basement of the Home Economics building is once again for exclusive use of the University. The equipment became part of a controversy earlier this week when it was learned the machines were being used by the James Canyon Ranch creamery.

Owner of the creamery is William Tyson, elected to the University Board of Regents in this month's election.

Less than 12 hours after release of the information to the public, physical properties of the firm

were being removed from the building.

Perry Hayden, University Comptroller, said the specialized equipment is used by the University in compiling registration information and research data, but was used very little. The rental arrangement was made to help defray costs of the expensive machines.

University President Charles J. Armstrong said when the school is ready to use the equipment for its intended purposes there will be very little time when it will be available to outsiders.

Student Directory

(Continued from Page 1)

Larry Langendorf doesn't own a bread factory, Thomas Kinsey hasn't yet wrote a book on this or that behavior, and Charles Beck isn't a driver of truck drivers, but they're students at the University and so they're listed.

Holdnig a numerical superiority in names is that old American standby, the Smiths, with 23 names. Running close behind are the Jones 18 names, and 17 Browns.

Published by members of the undergraduate chapter of Sigma Delta Chi, the directory was paid for, in part, by ads solicited by them. This is the second year they have published the directory.

Prior to 1957 the directory had been published by the University News and Publications service, and sold for one dollar per copy.

Lost and Found

A lost and found department is available to all students at the campus Y. W. C. A. Many students have inquired about lost items but none have been turned in.

The Y. W. C. A. director says that anyone who finds lost articles may turn them in to her or phone FA 3-6470. The Y. W. C. A. office is on the main floor of the Student Union building.

FATBOY...

By GEORGE A. MROSS

in a phone booth

The Happy—Hobby Habit

My interest in hobbies has upped and downed in degrees of earnestness and stick-to-it-tiveness (sic) as frequently as the heart patter of a homely, dateless coed two days before the prom everytime the phone rings. Instead of taking a fix, I find it much easier to start new hobbies. (I've got to have it, you hear. I can't live without it. Bring it back! Please, please, don't take my hobby away. This'll be the last one. I promise.)

Upon psychosomatic study, self-analysis, yoga and all that bit, I have been helped to realize that my hobby habit goes back to a pack-rat instinct in my late thirties' childhood when the depression was still grappling for better times and material things to one so young were hard to come by. Through a little larceny and lesser skill I happen to horde away a fantastic collection of marbles. What I lacked in agates I made up in steelies. This was the beginning they tell me.

Eventually I got around to stamps—with a paper route I could begin to afford such luxuries. For two bits you could get 500 VAL-UABLE, RARE, and BEAUTIFUL stamps from all over the world. I even joined a stamp club, but then you had to pay two bits a stamp and dad-of-mine wasn't a very agreeable, supplementary financial source—besides they kept coming out with new stamps and there just wasn't room enough to put them in a book. Frustrating and highly anxiety invoking.

During high school I spent my idle leisure memorizing phone numbers and visualizing the various attributes on the other end of the line. This could hardly be called a hobby, but it was a habit. I explained this to my counselor also, and he said it was very normal.

By college I knew enough phone numbers to keep me socially well-rounded and depressed, but another sparkling star had been pasted next to my personality chart—money. More than I could spend. I gambled and drank and insulted little old ladies; I was typically yours and hers and everyones; I was built in Nevada by Nevadans. Then a change took place. I wanted to be (ouh wow) a writer. I bought an intellectual pallor at the 5 and 10 cent store. There was one draw back though. In twenty years—including *Amboy Dukes*—I had read about

three novels, confining my high school book reports to the Classic Comics; therefore, I needed a working background to feel at ease around the higher class phonies who could mention three titles and four authors in one breath. I scurried through the Salvation Army stores, relief centers, rummage sales, and bargain basements, buying books in tens and twenties. I crowded them into book shelves, across the floors, on top of chairs. Before I knew it, I was a . . . bibliomaniac from the planet Earth. Along with books I collected classical records and Picasso prints from New York. I was an aesthetic monster who was hooked on the happy—hobby habit.

All this was to say that my human relations counselor has really helped me. I now collect coins, whiskey decanters, match books, menus, ash trays, popcicle bags, cigar boxes, and stray cats. He has widened my horizons and my attitudes are pure.

Two University of Nevada Students On Campus Radio

Two University of Nevada students have been selected as announcers for the campus radio station's daily broadcast, "The University Hour."

The selection was made by Frank Way, director of the campus radio studio.

There are Barbara Marcus, a junior majoring in journalism, and Ross Rosenbaum, a junior majoring in engineering.

Miss Marcus has been assigned to report daily on various campus activities. Rosenbaum will help with the engineering in the control room and take over the announcing on Fridays.

Marcus and Rosenbaum working as a team covered the University of Nevada homecoming parade which was broadcast over the combined facilities of station KNEV-FM and KATO. The engineering at the studios of KNEV was done by

another University of Nevada student, Dan Hanley, a junior majoring in journalism.

"The University Hour" is broadcast by KNEV every day except Saturdays and Sundays at 4 p.m. from the studios on the third floor of Morrill hall. The program features two half hour segments of music with a three minute newscast of campus activities in between.

Happy Benefactor

RASCAL—Standing sedately at the end of the quad, looking off toward Virginia City and wearing a wry smile is the statue of our great benefactor, John Mackay. He isn't smiling about his great fortune in the silver mines, but rather about the delicate pair of lady's panties he's holding in his hand.

Expert Predicts Republican Needs In Coming Years

"A Republican will need an eight-thousand vote majority out of Washoe county in order to win a major state office in future elections in Nevada."

This was the prediction of Bryn Armstrong at the University of Nevada Press Club meeting last week. Armstrong is a political specialist and the assistant managing editor of the Reno Evening Gazette.

The Press club elected Carol Crisler the new president of the organization at its first meeting of the year. The meeting was held at the Sigma Alpha Epsilon fraternity house.

Following the election of the new president, Armstrong was introduced. He spoke in connection with the newspaper's recent coverage of the state-wide election. He stated that by 8:00 p.m. he knew that the Democrats would sweep the state because they were still holding their own, at that time, against Republicans in Washoe county.

However, he believed that the Republicans would make a comeback in 1962 because of "the attraction of the magic political slogan, it is time for a change."

Armstrong was one of two speakers at the meeting. The other speaker, Robert LeGoy, discussed the mechanics of the coverage of elections. According to LeGoy, over a hundred and fifty people were used by both Reno papers and radio station, KOH at a cost of \$800.

Both speakers were introduced by Professor A. L. Higginbotham, chairman of the journalism department.

After the meeting, refreshments were served by the new president, Miss Crisler. She replaces Cynthia Black who served last year.

Young Republicans Plan More Activities

Want to elect a Republican? You can at the next meeting of the Young Republican Club.

President Robert Hemphill said that a complete Republican slate was assured because Democrats won't be allowed to run.

Despite a recent Republican rout Hemphill said that the club would continue to function as in past years.

The meeting will be held in the Truckee room of the Student Union building Tuesday, Nov. 25 at 7 p.m.

Job Placement Program

A job placement program has been set up by the Nevada State Employment service, announced the University office of student affairs last week.

The Employment service said that they will be giving tests to students who wish to serve as sales people during the Christmas rush.

Men and women students whose homes are in Reno and Sparks are requested to take the test if they are interested in employment.

Tests will be given at the Nevada State Employment Service offices, 70 West Taylor St., Reno, at 3 p. m. Tuesday, October 28.

Evening Social Turns To Battle; SAE Members Said Responsible

What started out to be a normal evening social between Phi Sigma fraternity and Delta Delta Delta sorority a week ago Wednesday turned into a hilarious free-for-all when several members of Sigma Alpha Epsilon fraternity attempted a "Trophy Sneak" on the Tri-Delt house, occupied at the time by about 100 partying Greeks.

The party had shifted to the dining room, where a cake bearing the crests of both organizations was about to be cut, when one of the girls in the living room raised an alarm.

The startled SAE's grabbed trophies and headed in every direction, pursued by a handful of Phi Sigs nearest the living room.

Outside, one of the "attacking" SAE's flipped a switch turning off the lights in the sorority house, plunging it into darkness. At that same instant inside the house, Phi Sigs Bob Dohm and Bob Armstrong tackled a fleeing SAE and brought him to the floor, struggling fiercely. When the lights turned on, however, they found to their dismay that their prey had eluded them and they were fighting one another.

Tackles Self

Phi Sig Frank Way, galvanized into action by the sounds of the struggle, charged full tilt down a darkened hallway after what he thought was one of the trophy thieves and wound up throwing a flying tackle at his own image reflected in the hall mirror.

Kathleen Karstens, Tri-Delt,

grabbed at a trophy in the arms of a fleeing raider and received a punch in the eye for her trouble.

After the lights were turned on, and things returned to normal, the social continued with renewed vigor and turned out to be what the social chairmen of both organizations termed "a smashing success."

McBride Elected Players President

Mickey McBride is the new president of the Campus Players. He was elected last week to replace Daniel Hulse, outgoing leader.

The other officers are vice-president, Judel Samon and secretary, Edith Rittenhouse. They replace Trudy Brook and Ginger Ivars.

The Campus Players stages most of the dramatic presentations at Nevada.

McBride was the lead in the first play this year, "Squaring the Circle." He also appeared in "The Petrified Forest" and in the last two school musicals, "Kiss Me Kate" and "Kismet."

A Campus-to-Career Case History

Telephone engineer Stu Black—and the booming Southern California region he serves.

"The telephone company helps you blueprint your future"

Stuart C. Black had job offers from seven companies before he got his B.S. degree in Engineering from U.C.L.A. in 1954. His choice: the Pacific Telephone and Telegraph Company in Los Angeles.

"They told me exactly what to expect," he says. "Every phase of my training, covering two years of rotational job assignments, was outlined. They made it easy for me to see where I could go."

Since Stu was hired, he's climbed poles, installed telephones and worked with architects and contractors. He's designed ventilating systems and studied labor-management relations. He's handled million-dollar-a-month settlements

with connecting telephone companies for mutual use of Long Distance lines. And he's learned how complex bookkeeping is reduced to punches on IBM cards.

Today, Stu is a Staff Engineer in San Diego. He programs equipment and money for engineering projects as far ahead as 2½ years in one of the fastest growing areas in the United States.

"The telephone company is a 'look-ahead' kind of business," says Stu. "It can predict future telephone needs and the need for more and more management people. So there's a whale of an opportunity for the young fellow who really wants to get ahead."

Many young men like Stu Black are finding interesting and rewarding careers in the Bell Telephone Companies. Find out about career opportunities for you. Talk with the Bell interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office.

Nuclear Reactor Being Installed at University; To Be Ready Next Month

A five-ton nuclear reactor, designed to expand the atomic engineering program, is being installed in the department of physics at the University of Nevada.

This reactor, the sixth to be assembled in the United States, is supplied by the Atomic Energy commission. Two technicians from Nuclear-Chicago corporation are now at the University assembling the facility. Complete assembly will take approximately two days. The physics department hopes that the reactor will be ready for use by next month, announced Dr. T. V. Frazier, associate professor of physics. Dr. Frazier has conducted lectures in nuclear physics as part of the regular curriculum. "However," he explains "with this facility we can supplement this lecture with practical laboratory experience.

The reactor will be used to study reactor theory, chain reactions and neutron physics, adds Dr. Frazier. Operation will begin as soon as 5,500 pounds of natural uranium, fuel for the reactor, arrives.

Possible delivery of a nuclear machine was announced by Lewis L. Strauss, ex-chairman of the Atomic Energy Commission, during last year's commencement exercises.

The reactor is being installed on the main floor of the Mackay

Science building. A steel brace needed to support the extremely heavy machine was fixed between the first floor and the basement.

Frank Way, electrical engineering major, and Harry Garner, physics major, are assisting in the assembly.

Ralph Chubb, assistant sales engineer of Nuclear-Chicago, says that one of the reactors will be installed in the Atomic Energy headquarters in Greece. Queen Frederika of Greece recently witnessed a complete set-up, the same as that being installed at the University.

Turkey Shoot Has Chance for All

The annual turkey shoot sponsored by the University Rifle Club will be held tonight in the basement of the old gym.

It begins at 7 p.m. The public is invited at 75 cents for three shots.

One turkey will be given every time ten shooters fire.

There will be targets for both skilled and unskilled shooters. For those relying on luck, there will be targets similar to a punch board. No one knows which square on the target has the lucky number and this gives the novice and the marksman an equal chance.

Marine Corps Now Scheduling Talks

Interviews for students interested in the Marine Corps will be conducted Nov. 20 and 21 from 9:00 a.m. to 3:30 p.m. at the Student Union building.

Training can lead to a commission as either an aviator or a field officer after a bachelor's degree has been earned. The program is open to qualified freshmen, sophomores and juniors. No military classes or drills are required during the school year because the training is held during the summer in two six-week periods.

Also offered by the Marine Corps for senior students is the Officer Candidate course and the Aviation Officer Candidate course.

SAE Indian Dance Held at Game Farm

Sigma Alpha Epsilon's annual Indian dance was held recently at the game farm. Music was provided by Nello's band.

Guests included Dr. and Mrs. Willard Day, Dr. and Mrs. W. A. Smith, Mr. and Mrs. Russell Mills, Mrs. Agnes Auchampaugh, SAE housemother; Bob Morrill, Jim Santini, Dick Bryan, and Carol Gardenschwartz.

Sandwiches and coffee were served during the evening.

'Grecian Holiday' Theme for Dance

"Grecian Holiday" was the theme of Phi Sigma Kappa's recent costume dance.

Edith Rittenhouse and Frank Way won a prize for being the best dressed couple.

Decorations were provided by the University of Nevada art department and a Reno women's apparel store.

Guests were Professor John Gottardi, chairman of the foreign language department, and Dr. and Mrs. Austin D. Hutcheson. Dr. Hutcheson is associate professor of history and political science.

The Bob Stange Combo played for the dance, which was held at the Wee Ski Lodge on the Mt. Rose road.

Professor Probing Early Day Shocks

Information about "fugitive earthquakes" in Nevada is being sought by Dr. David B. Slemmons, professor of geology at the Mackay School of Mines.

Dr. Slemmons currently is engaged in a project to catalog all historic earthquakes in the state before 1915. He believes there were at least several quakes in the early-day history of Nevada about which little or nothing is known. Some of these may have given important ground breakage along faults.

One such shock probably was felt in or near the old mining camp of Wonder, located in the middle of the active Dixie Valley-Fairview Peak earthquake area, about 30 miles east of Fallon. The Wonder earthquake is believed to have occurred in 1902, 1903, or 1904, but could have taken place anytime between 1900 and 1910, said Slemmons.

The Mackay School of Mines professor hopes that there may be some old newspaper clippings, diaries, notes, or letters that may provide important clues about early-day earthquakes. He also hopes there will be some old-time residents who may recall being in an area where a quake was felt.

He said that the history of Nevada earthquakes after 1915 is rather complete since seismograph records of the State are available from that time. However, information on earlier shocks is sketchy. He adds that any knowledge of these early-day earthquakes will be of great scientific value.

Spring Film Series

A spring film series will be sponsored jointly by the University theater group and the Student Union. The series will probably start in January or February said Asher B. Wilson, associate professor of the speech and drama department.

The new series will be made up of English language films. Mr. Wilson said that the individual films have not yet been chosen.

Management Organization Being Newly Formed on Nevada Campus

The third national organization to come to the University of Nevada College of Business in recent months is SAM, the Society for Advancement of Management.

The club is being organized under the direction of Dr. Stephen J. Barres, associate professor of business administration. Dr. Barres said the club will give students experience in investments and management that they will need after graduation.

SAM has 137 chapters in leading

colleges and universities in the United States, Canada and Puerto Rico.

An oddity about the club is its policy on membership. It is not limited only to students in the College of Business Administration, but is open to all interested students on campus, including women.

One activity of the club will be investments. Revenues of the club will be used to purchase stock.

A pamphlet put out by SAM lists the objectives of the university program as "(1) to bring closer together executives in business and students preparing to go into business; (2) to serve as an effective medium for the exchange and distribution of information on the problems, policies, and methods of industry and management; (3) to provide students with the opportunity to participate in organizing, planning, directing and controlling activities of an organization dedicated to the promotion and advancement of the art and science of management."

Club meetings will be held on the second and fourth Thursdays of each month at 11 a.m. in Ross hall. A speaker will talk to the club each month.

Keep the Student Union green.

Chinese Engineering Student Enters Nevada; Had To Pass Rigid Tests

By JACK FERRIS

Ying D. Chan, a Chinese, is a new mechanical engineering student here.

Chan finished the three year Taipei Institute of Technology, at Taipei, Formosa, in 1956 but war clouds forming there at the time made it impossible for him to go on to the University of Formosa's engineering school.

"Why I did not go to Peiping university in communist China is simple," Chan says. "I don't like it there."

He found Hong Kong's British

controlled university too expensive, so he went through the red tape to gain a visa to the United States.

Physically and Financially

"Four of us seeking more education applied for visas at the same time," he says. "We had to pass English and physical fitness tests and also prove that we had \$2400 in the bank"

On Aug. 20, 1957 the four of them found themselves on the President Cleveland, headed for different places, one to Canada, one to Australia, one to the University of Texas, and Chan was on his way to Oakland, Calif.

I spent one year at Oakland with relatives. I studied English and attended the 1958 summer school at the University of California," said Chan.

He arrived here last September and expects to graduate in 1959. Chan may then go back to Hong Kong to work at his father's graphite mine. The mine is on an island 20 miles from Hong Kong. His father sells the graphite to United Kingdom and American buyers.

Chan says the students and faculty are most friendly here. About Reno, he says, "too many slot machines."

UNITED AIR LINES

offers its Stewardesses an opportunity to travel, visit beautiful cities and meet interesting people.

You may get information through the office of the Dean of Women or any United Air Lines Office

ENGINEERING INTERVIEWS

Interested mining students will have an opportunity to be interviewed by John F. Dugan, personnel consultant for the Anaconda company.

Dugan will be on campus from Dec. 5th to the 9th.

In 1796 a small group of Egyptians, fighting in the battle of the Pyramids and armed with only wooden clubs, met 8,000 French soldiers commanded by Napoleon. The Egyptians were annihilated.

Newston's Law Is Substantiated

"To every action there is an equal and opposite reaction." So states Newton's third law of motion. Two University of Nevada students tried it out last week and found it works perfectly.

The Reno police department booked both students Monday night of last week after they were involved in separate accidents.

Val York, 19, sophomore basketball player, bounced his auto off a parked car near the Alpha Tau Omega fraternity house on University Terrace. Police said that the parked automobile was knocked 90 feet across the street. York was treated for a concussion at Washoe Medical Center.

David Nolan, 17, was booked after his sports car slid into a street sign while turning on Moana Lane into El Rancho Drive. Officers said skid marks indicated Nolan was trying to warp his car through a 15 mph turn at 35 mph, and all this in a 25 mph zone.

FOR THE SPACE AGE

Systems in the Air

The march of electronics into the Space Age is being quickened as a result of Hughes work in airborne electronics systems.

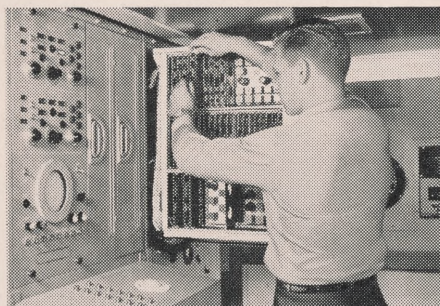

One such development is the Hughes Electronic Armament System, which pilots high-speed jet interceptors to enemy targets, launching Hughes air-to-air guided missiles, and flies the plane home. Even more sophisticated Electronic Armament Systems completely outstrip those presently released for publication.

Working on space satellites, Hughes engineers are active in the preliminary design of guidance and control systems, communication and telemetry systems, sensing devices using infrared, optical and radar techniques.

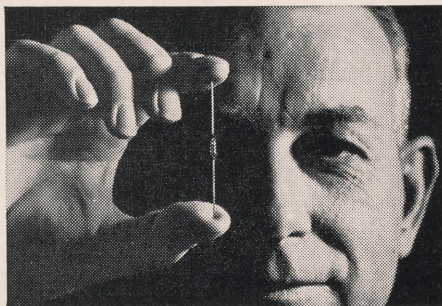

Information resulting from Hughes study in the fields of air-to-air and ballistic guided missiles is presently paying dividends into the fund of space knowledge.

Hughes engineers have developed space hardware using high-reliability wire wrapping to replace soldered connections and miniaturized "cordwood" circuit modules to allow high component density.

The advanced nature of Hughes electronic systems—in the air, on the ground, and for industry—provides an ideal growth environment for the graduating or experienced engineer interested in building rewarding, long-range professional stature.

Data Processors, which monitor hundreds of aircraft and store the information for high-speed assignment of defense weapons, comprise one part of an advanced Hughes ground defense system.

Capacitors which provide for electrical, rather than mechanical tuning of circuits, are being produced by Hughes Products, the commercial activity of Hughes.

Members of our staff will conduct

Topographic Maps Now Available

Topographic maps of the Robinson Mountain quadrangle in the southwestern portion of Elko County have been produced through a cooperative agreement between the Nevada Bureau of Mines and the U. S. Geological Survey.

This announcement was made yesterday by Dr. Vernon E. Scheid, director of the Nevada Bureau of Mines, University of Nevada, Reno.

These maps and others of the state are now on sale for 30 cents each at the U. S. Geological Survey office at the Federal Center, Denver, Colo. The maps also may be purchased through the following agents within Nevada; Lake Mead Natural History Association, Boulder City; Sarret Office Equipment, Las Vegas; A. Carlisle and Co., Reno, and Brundige's, Reno.

The Robinson Mountain quadrangle is about 30 miles southeast of the city of Elko and about five miles west of Jiggs. The area is in rough country and includes several peaks of more than 8,000 feet elevation.

23 Students Named For College Who's Who

Twenty-three University of Nevada seniors have been named to Who's Who in American Colleges and Universities. Each year students are selected on the basis of scholarship, extra-curricular activities, citizenship, service to school, and promise of future usefulness.

The purpose of the yearly publication is to give recognition to college seniors and to aid employers in finding these persons.

Eligible students were notified through their deans, living groups and newspapers. Sam Basta, dean of student affairs, said that final selections were made by the Student Relations committee. Carol Gardenschwartz, AWS president and Richard Bryan, ASUN president, are members of this committee.

A certificate of recognition is awarded to each of the students selected at graduation.

Nevada students named are:

Leroy Enos Arrascada of Sparks, who is majoring in business administration, was a member of such campus organizations as the Assembly committee, Aggie club and Blue Key. He was both Aggie Day Queen Contest chairman and Mackay Day trophy chairman during his sophomore year. Arrascada is a member of Lambda Chi Alpha fraternity and was rushing chairman during his junior year. He served on the ASUN executive committee, Nominating committee, Finance Control board, Publication board. He was student lobbyist at the state legislature, Student Senator, a member of the Young Democrats, and Student Senator-At-Large.

Dewey M. Berscheid is a Reno resident and is majoring in journalism. Berscheid was a member of the junior varsity basketball squad, the University of Nevada Press club, Coffin and Key, and Kappa Tau Alpha. He served on the Sagebrush staff, first as reporter, then sports editor and finally editor. He is still editor having been selected for the second time last spring. He attended Leadership Conference during his junior and senior year. In addition to being editor of the Sagebrush, he was editor of the student directory and the Jot Travis News. He is president of Sigma Delta Chi, and has served as treasurer of Phi Alpha Theta. He has held three journalism scholarships.

William Harry Bowser is a business administration major from Las Vegas. His athletic record is outstanding having been a member of the University track squad for three years, the football team for two. During this time he was successful in setting many records. His fraternal affiliations include Lambda Chi Alpha, Sigma Delta Psi and Beta Alpha Nu. Bowser is also an outstanding military student having been recently appointed as Brigade Commander of the University Cadet Corps. He is a member of the Cadet Officers club and Block N.

Richard H. Bryan of Las Vegas is a pre-legal major concentrating in history. He was chairman of the Assembly committee, and the Homecoming committee and served with such organizations as the Student Union board, Artemesia staff, ASUN Senate, Publications board, Student Relations committee and the Finance Control board. He was a member of the Sagers, the University Cadet Officers club, Blue Key, and Coffin and Key. He is affiliated with Alpha Tau Omega, Phi Alpha Theta. He was Freshman senator and now ASUN president.

Wuanita Faye Combs is from Henderson and is majoring in Education. She is a member of Gamma Phi Beta sorority. She was recording secretary for her pledge class, Gamma Phi Beta Conference delegate, Assistant house chairman, Mother's Club Fashion show chairman, and president. She participated in the Mackay Day Comic Rodeo, Panhellenic Workshop and

council, and Leadership conference. She served on the ASUN Election board, was Military Ball Queen campaign manager, Mackay Day Queen campaign manager, senior committee, chairman of the Executive council, Cap and Scroll, Sagens, Junior class secretary, Women's Upperclass secretary and Winter Carnival Queens' chairman.

Richard Glenn Deleissegues is from Alturas, California, and majoring in Geology. He is president of Lambda Chi Alpha fraternity and Secretary-Treasurer of the Interfraternity council. He is active in Senate, Publications board, Finance Control board, Senior class committee, election board and student union board. His chairmanship includes that of the Military Ball Queen Committee and Interfraternity Council Beanfeud. He is a member of the Cadet Officers club, Blue Key, Sheep Herders and was a member of Men's upperclass committee, rally committee, crucible club, Sagers and Newman club.

Christina Peschel Friberg, a Biology major from Sacramento, California, is treasurer of the Biology club and Secretary of the United Nations Observance committee and is a member of the Sagens and senior class committee. She was active in intramural sports, University singers, ASUN nominating committee, Saddle and Spurs and has taken part in the Aggie Rodeo, Wolves Frolics, Independent Song Teams, WUS Carnival and the Artemesia-Manzanita open house decorations. She is the winner of the Jewet W. Adams and the Rose Seigler Mathews scholarships.

Leslie Mack Fry is a pre-legal major from Reno. He is vice president of Phi Kappa Phi, pledge trainer of Alpha Tau Omega, and is a member of Blue Key, Phi Alpha Theta, and Delta Sigma Rho. He was Junior class president, Alpha Tau Omega social chairman, and was active in the Sagers, debate team, Homecoming and junior varsity basketball.

Carol B. Gardenschwartz, Sparks, is majoring in English. She is AWS president, a member of Sagens, Cap and Scroll, finance control board, publications board, senate, and student union board. She has been affiliated with the Delta Delta Delta sorority. Her past activities included Hello On The Hill chairman, Wolves Frolic skit chairman, cheerleader, secretary of the assembly committee, Homecoming committee, and Winter Carnival ticket chairman. Other activities included Fall Roundup committee, Women's, Upperclass committee Campus Players, leadership conference, and Artemesia business staff.

Robert B. Hemphill is an English major from Carson City. He was president of Phi Sigma Kappa fraternity, Young Republicans, and student union, has held offices in the Election board, Blue Key, and on the Artemesia staff. He was active in the National Education association, Young Republican State Convention, Leadership conference, WUS Carnival, Sagers, Rally committee, Model United Nations, and French club. He is the winner of the 4-year Veterans of Foreign Wars Scholarship.

Sally J. Holmes, of Compton, California, is majoring in Physical education. She has served on the Women's Upperclass committee, Winter Carnival committee, Student council, and Pan Hellenic council. She was president of Delta Delta Delta sorority, and was active in the Women's Recreation association, Ski club, Sagens, Pems and was Freshman Class president at Compton College. She transferred to the University of Nevada at the end of her third semester at Compton.

James A. Joyce is a journalism major from Las Vegas. He is president of Alpha Tau Omega fraternity, Secretary-treasurer of the Interfraternity council, and active in

Sigma Delta Chi, Blue Key and University of Nevada Cadet Officers club. He served one semester as editor of the Sagebrush and was active in the University Press club.

Kathleen E. Karstens is a resident of Reno and is majoring in Physical education. She served on the Women's Upperclass committee, ASUN election board and Interfaith council, was president of the YWCA, treasurer of the Women's Recreation association, and vice president of Saddle and Spurs. She was also active in the Canterbury Club, University Singers, Young Republicans, Sagens, and Ski club. She is affiliated with Delta Delta Delta sorority.

William L. Keith is from Compton, California, and is majoring in Electrical engineering. He is a member of the Sundowners, Young Democrats, Shepherders, Lambda Chi Alpha, Senior class committee, and is treasurer of Coffin and Keys. He appeared in last year's presentation of Kismet.

Karen S. Knudson, Kappa Alpha Theta, is from Las Vegas and is majoring in journalism. She was chaplain of her sorority, AWS vice president, president of Sagens. She is active in the Press club, Publications board, Finance Control board, Senate, Women's Upperclass committee and Cap and Scroll. She was president of the Press club, and participated in the Wolves Frolic and song team. Other activities include Young Republicans, Assembly committee, and Ski club.

Robert B. Morrill, Reno, is majoring in Mining engineering and is President of the Student Union board of directors. He is president of Blue Key, vice-president of Sigma Tau, engineering fraternity, and recorder of Sigma Nu fraternity. His present memberships include Ski club, Crucible club, Young Republicans, Coffin and Keys, and University Cadet Officers club. He received the Distinguished Junior Cadet award.

Deanne E. Munk, of Lovelock, is majoring in Physical Education. She was president of Pi Beta Phi, vice-president of the Sagens, and is registration chairman of the Winter Carnival. Her memberships include Women's Recreation association, Pan Hellenic council, Pem's and Cap and Scroll. She was active in Homecoming, Women's Upperclass committee, A. W. S. Council, Wolves Frolic, Saddle and Spurs, and Ski club.

Nedra L. Norton, Reno, majoring in journalism was president of Delta Delta Delta sorority, vice-president of Cap and Scroll, and secretary-treasurer of the Sagens. She is active in the University of Nevada Press club, Pan Hellenic council, Campus Players, Women's Recreation association, and Women's Upperclass committee. Other activities included Wolves Frolic, Junior class committee, Rally committee, AWS council, Mackay Day and Ski club.

Glenda M. Price, of Fallon, is majoring in Elementary education. She is active in Campus Democrats, American Childhood association, Kappa Alpha Theta sorority, Senior class committee, Sagens, and AWS Judicial board. Her past activities were secretary of the student body, secretary of the Campus Democrats, University Singers, and Wolves Frolic. She is a transfer student from Colorado Women's college.

Jocelyn Kaye Reid, of Las Vegas, is majoring in Art education. She was president of Kappa Alpha Theta sorority, president of Cap and Scroll, secretary of the Assembly committee, secretary of the Beaux Arts' club, and secretary-treasurer of the Interfaith council. She holds memberships in University Symphony, Lambda Delta Sigma, Young Republicans, Pan Hellenic council, Sagens, and Women's Upperclass committee. Past activities include Mackay Day chairman, University Band, and University singers.

James David Santini, Reno, a Political Science major, is Senior class president. He is a member of ASUN senate, Student Union board, and ASUN executive committee. Other activities include Alpha Tau Omega fraternity, Campus Players, Blue Key, Scabbard and Blade, and Young Republicans. He was on the Winter Carnival committee, Men's Upperclass committee, Election board, Debate team, Assembly committee and Hel-lo-on-the Hill committee.

Angeline Tippy Smith, of Las Vegas, is majoring in Sociology and Psychology. She is secretary of Cap and Scroll, and holds membership in Phi Kappa Phi, Student Union, Sagens, Newman club, and Women's Upperclass committee. She was president of the Artemesia-Manzanita association, vice president of the Independents association and Military Ball Queen candidate.

Catherine G. Zimmerman, Reno, is majoring in journalism. She was president of the Pan Hellenic association, and is chairman of the Powder Puff Derby during Winter Carnival. She is a member of the Ski club, Sagens, Press club, Kappa Alpha Theta sorority, and Debate team. Her past activities include Junior Class committee, Captain of the Women's Ski team, Rally committee, Cheerleader, Songleader, and secretary of the Freshman Class committee. She was Lambda Chi Alpha Sweetheart during her junior year.

ATO's Take Tops In Volleyball Test

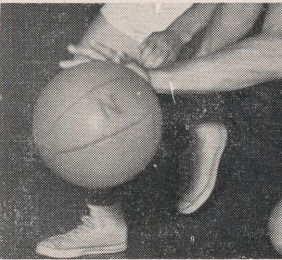

The ATO's emerged victorious in the Intramural Volleyball tournament with a record of five wins and no losses. They received 60 points towards the Kinnear Trophy.

Second place in the series of games went to Sigma Nu with a record of four wins and one loss. They received 40 points.

The Independents, SAE, Theta Chi, and Lambda Chi finished in that order.

Group	Won	Lost	Pts.
ATO	5	0	60
Sigma Nu	4	1	40
Independents	3	2	20
SAE	2	3	10

SPORTS

Frosh Basketball Squad Schedules First Athletic Rivalry With Southern U

University of Nevada's frosh basketball squad will play a 12-game schedule during the 1958-59 season, Coach Robert Laughter has announced.

The schedule will include a two-game series against the Nevada Southern Rebels coached by Chub Drakulich. The series marks the first athletic rivalry between the two campuses of the University of Nevada. It will be played in Las Vegas Feb. 20-21.

Laughter's squad consists of 15 players. All but one are former Nevada high school basketball veterans.

Date—Opponent
Dec. 10—Compton Junior High.
Dec. 12—Threackles' Cubs
Dec. 13—Winnemucca Iron Men.
Dec. 16—Reno High School
Jan. 9—Lassen Junior College.
Jan. 23—Sparks High School.
Jan. 24—City League All-Stars, (Reno).
Feb. 4—Reno High School.
Feb. 6—Lassen Junior College.
Feb. 17—Sparks High School.
Feb. 20—Nevada Southern.
Feb. 21—Nevada Southern

All games will be played in the Nevada Gym except those with Lassen and Nevada Southern.

Skiers Stepping Up Training Schedule

With the first snowfall in the high Sierra, University of Nevada's Wolf Pack Skiers have stepped up their pre-season training schedule.

The Nevada team has been in training for over a month with regular roadwork and calisthenics sessions. Coach Chelton Leonard says that one more substantial storm should blanket Sierra slopes enough for first-time workouts in the snow.

Leonard expects to compete arrangements by early December for the Wolf Pack's winter meet schedule. Highlight of the season will be the traditional University of Nevada Winter Carnival Feb. 13-15. This year, the Carnival's cross-country race has been designated one of five national competition trials for the 1960 Winter Olympics. The United States cross-country squad will be selected from winners in the trials.

Some 15 of the nation's top ski schools are expected to participate in the Winter Carnival. Because of the Olympic affiliation in the cross-country event, such eastern ski powers as Dartmouth College and Michigan State will probably be on hand.

Experienced skiers returning to the Nevada squad this year are Harry Ericson, a cross-country specialist with an outstanding competitive record; Don Cronin, an all-around skier who will compete in the four events, downhill, cross-country, jumping, and slalom; Tom Trabert, a Nordic event jumper and cross-country racer; Dale Prevost, downhill and Slalom veteran; and Tom Nicora, competitor in downhill, slalom, and jumping events.

Among the newcomers seeking a position on the Nevada ski team are Jon Madsen and Clint Wells. Both skiers represented Reno high school and are experienced racers.

Injuries Incapacitate Top Prospect for Season's Wolf Pack Basketball Squad

The 1958-59 Wolf Pack basketball team was weakened last week when sophomore forward Leonard K. Mardian broke his finger and injured his knee.

Both injuries occurred at the same time last week when the varsity and freshmen basketball teams scrimmaged. Mardigan was on defense when he slipped in the fast action. He wrenched his weak left knee and fell on his left hand, breaking the center joint in the fourth finger.

It will take four weeks before Dr. Robert N. Lombardi will re-

move the splint from his finger, but his knee is an on again off again situation.

Mardian was injured in a pick-up game two years ago. The ligaments, muscles and tendons have been weak since then. Dr. Robert N. Lombardi is applying heat and massaging the knee now.

"I sure would like to have that boy," says Coach Lawlor. "He is our best passer, strong on defense, and just plain quick of hand and foot."

A month should tell if Coach Lawlor is going to have him back in action this season.

SPORTS

Intramural Basketball

In basketball games played Wednesday night Sigma Alpha Epsilon defeated Alpha Tau Omega 39 to 31, Theta Chi won a forfeit game from Phi Sigma Kappa, and the Independents beat Lambda Chi.

SAE's victory over ATO put them in a tie with Sigma Nu for first place. Both teams have won four games and have yet to lose.

Sports Spotlight

By RICHARD I. TRACY
Sagebrush Sports Editor

The Wolf Pack football team for 1958 deserves a lot of credit. Not only have they shown the students and alumni that a team does not have to be "hired" to be good, but they have instilled a new sort of feeling toward the sport among the members of the student body.

A 3-win, 3-loss record is not so terrific, but it is the best record Nevada has had for many years, and is a sign of good things to come. Although several members of the team played their last game against Humboldt State, the nucleus of a fine team remains with which Coaches McEachron and Dankworth can work. Hopes are high that next year's schedule will include more games, and that the University of Nevada will offer employment to football players.

Although I hope it is not necessary, I want to tell the uninformed members of the student body that this plan is not devised to "support a bunch of jocks."

Having interviewed several members of the team personally, I found all of them to be serious students, as intent upon graduating as the rest of the student body, and quite well-rounded men. Plans are now proposed to give these men legitimate jobs that they can work into their tight schedules of practice, studying, and classes. The more Nevada has to offer to high school graduates, the greater will be the attraction to potential players.

A rather vivid example of how such a program would work in attracting players was seen in 1955, when a frosh lineup drew many athletes from large high schools in Nevada and California. According to the men I interviewed, they were offered the same things the plan now proposed does, but when they arrived, the plan was withdrawn.

If they have remained, according to the team members, no team currently in the Far Western Conference would have been a match for Nevada.

A great fullback, Mike Lommori, played his last game for the Nevada eleven with ferocity and determination that was awe-inspiring.

His steam-roller drives deep into the Humboldt defense were undoubtedly one of the game's high points. His season average of 4.7 yards per ball carry will undoubtedly be a high mark for his predecessors to shoot for. His smashing attacks through the center of the line often found members of the Humboldt defense as useless as the proposed student court. They couldn't do a thing but pile him under with sometimes as many as 5 tacklers.

The captain of the team, Lommori has been named "Athlete of the Month" for October by the Sierra Nevada Sportswriters and Broadcasters Association, and cited as "the finest fullback in the Far Western Conference" by head football coach, Gordon McEachron.

Mike is not through with Wolf Pack yet, though. He will be one of the big threats on the track team in the weight division.

Coming up soon is a sport in which Nevada has consistently excelled: Basketball. Coach Jake Lawlor is in charge of typically fine team, consisting of many veterans (including Stan Summers, 6 foot 8-inch center who holds Nevada's record for points in one game (48), who may share the position of center with towering Chuck Walker (6 foot 4 inches). Both men are very strong on backboard plays, and extremely capable at the center position.

Bob Ferrari, Ken Longero, Val York and Bob Lyon are also returning veterans of good standing.

Nevada, in the last three years, has tied for first place in the Far Western Conference twice and won first place once.

Besides the race for the FWC title, Nevada will tilt against several other tough opponents, including Fresno State, Regis College of Denver, and the University of Portland.

Even though the Wolf Pack will have a powerful and experienced team this basketball season, they will meet some equally powerful teams, with about the same potential. This season should prove to be very exciting, providing some real thrills for spectators. Anyone who wants to see some real action from a hot Nevada team should do their best to attend the upcoming games. The first meet is against the Presidio of San Francisco, Dec. 5.

NEVADA'S 1958-59 BASKETBALL SCHEDULE

Lawlor Makes Final Cut in Casaba Squad; First Game Comes on Dec. 5

Nevada's head basketball Coach Jake Lawlor, has made a final cut to his try-out roster and selected the varsity basketball squad that will represent the University during the 1958-1959 season.

"They are showing up a little weak in defensive play," stated Lawlor, "but we have until Dec. 5, our first game, to work on that problem."

Nevada's basketball team tied for first place honors in the Far Western Conference last year. Lawlor feels that competition in the conference is going to be the "tightest in years," but also believes that his team has an excellent chance to be a conference leader.

One work unit which has been looking good to Coach Lawlor during practice sessions and may well become the first string of the varsity is manned by 6' 7" Stan Summers at center, Bob Ferrari and Ken Longero as guards, and Val York and Bob Lyon at forward positions.

Summers, a senior from Lake Tahoe, has two years varsity ball experience. Bob Ferrari, also a senior, has three years on the court for Nevada, and six-footer Bob Lyon of Sacramento, Calif., has one year of varsity basketball behind him. Ken Longero of Carson City played one year of basketball here before military service interrupted his education. Val York, a six-foot sophomore from Fallon, played varsity ball last year as a freshman.

Far West Athletic Group To Gather

The annual winter meeting of the Far Western Intercollegiate Athletic Conference will be held here at the University of Nevada on December 5 and 6.

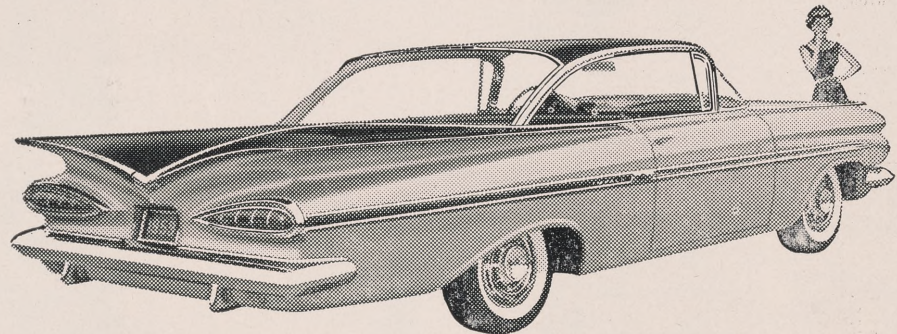

Dr. Art. Broten, chairman of health, physical education, and athletics at Nevada, will act as host to faculty athletic representatives, coaches, business managers, and athletic directors of the colleges and universities in the Far Western Conference.

The conference is made up of the University of California at Davis, Chico State College, Humboldt State College, Sacramento State College, San Francisco State College, and host University of Nevada.

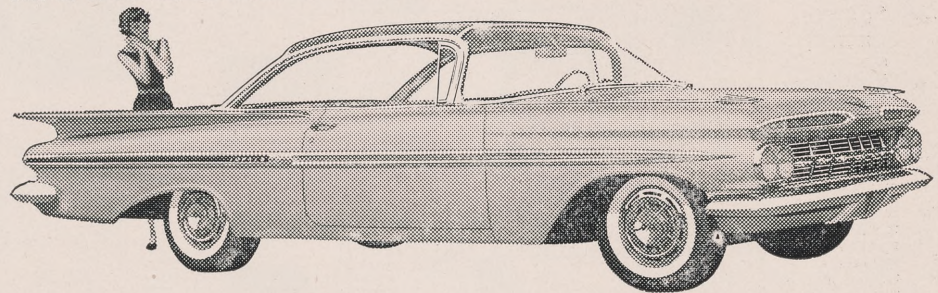

Discussions will also be conducted on athletic eligibility rules of the conference.

ABOVE are the members of the 1958 Wolf Pack football squad. The team turned in one of the best records in ten years this season. Pictured (left to right) are: Top row, Coach Gordon McEachron, Chuck Walker, Dale Latvaho, Jim Whitaker, Bill Rankin, Bill Provin, Frank Kendrick, Bobby Peck, Bob Riolo, Clint Burkett, Raleigh Atkinson, Steve Parker and Coach Dick Dankworth. Center row: Al Raiche, Chris Nenzel, Tom Sheehan, John Genasci, Mike Thompson, Bob Hunter, Jerry Drum, John Locke, John Prida, Jerry Tobin, Clarence Nevin, and Sid Root, trainer. Front row: Tom Whitaker, Phinnie Marsh, Gene Germain, Rod Cook, Tom Friberg, Richard Ripley, Dan Baldini, Martin Murphy, Arden Gerbig, Joe Nichelini, and Mike Lommori. Team members not pictured are Bill Tyson, Wally Rusk, Chuck Musser, Bob Tribble and Bob Lemon.

TOP TV—The Dinah Shore Chevy Show—Sunday—NBC-TV and the Pat Boone Chevy Showroom—weekly on ABC-TV.

Like all '59 Chevs, this Impala Sport Coupe is new right down to the tougher Tyrez cord tires it rolls on.

Walk around the car that's all-round new . . . then be our guest for a pleasure test—

DRIVE A '59 CHEVY TODAY!

One look at this '59 Chevy tells you here's a car with a whole new slant on driving. You see the transformation in its low-set headlights, the overhead curve of its windshield, the sheen of its Magic-Mirror finish—a new acrylic lacquer that does away with waxing and polishing for up to three years.

But to discover all that's fresh and fine you must relax in Chevrolet's roomier Body by Fisher (up

to 4.2 inches more room in front, 3.3 inches in back), feel the lounge-like comfort of Chevy's new interior, experience the hushed tranquillity of its ride (choice of improved Full Coil or gentler-than-ever Level Air suspension*). Once you're on the road you'll discover such basic benefits as bigger, better cooled brakes that give over 50% longer life, new easy-ratio steering and a Hi-Thrift 6 that gets up to

10 per cent more miles per gallon. And, of course, you find Safety Plate Glass all around in every Chevrolet. Stop by your dealer's and pleasure test the car that's shaped to the new American taste!

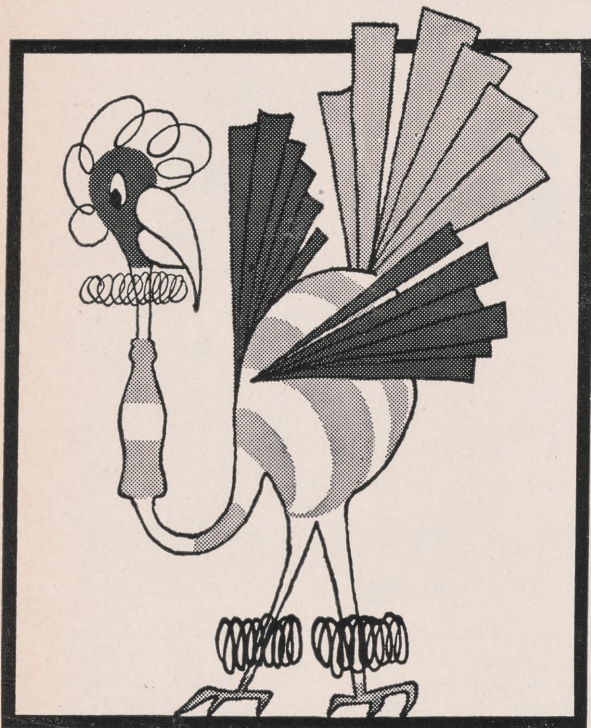

*Optional at extra cost.

what America wants, America gets in a Chevy!

see your local authorized Chevrolet dealer for quick appraisal—early delivery!

A four-page issue of the SAGEBRUSH will be printed and distributed Wednesday of next week. Efforts will be made to have copies on campus by noon. For those persons planning to leave earlier in the day, the SAGEBRUSH staff extends best wishes for the Thanksgiving holidays.

Modern Greeks Turn Ancient

Successful highlight of the campus social activities in the past two weeks was the "Grecian Holiday" held by members of Phi Sigma Kappa at the Wee Ski lodge on Mount Rose. Pictured at right are two pairs of Greeks dressed in the traditional costumes. At top right are Edith Rittenhouse and Frank Way who were awarded a prize for being the best dressed couple. The unidentified girl in front of them is stoned. Bottom right are Dennis O'Conner and date Barbara Hampton taking a slightly more modern break than was afforded ancient Greeks.
