

'ROSALINDA' OPENS TONIGHT

Today Is Friday,
THE THIRTEENTH.
Caution Advised

UNIVERSITY OF NEVADA Sagebrush

Established by the ASUN — Founded October 19, 1893

Ski Conditions

Reported good at all Sierra resorts. All facilities operating. Fair weather predicted for the weekend.

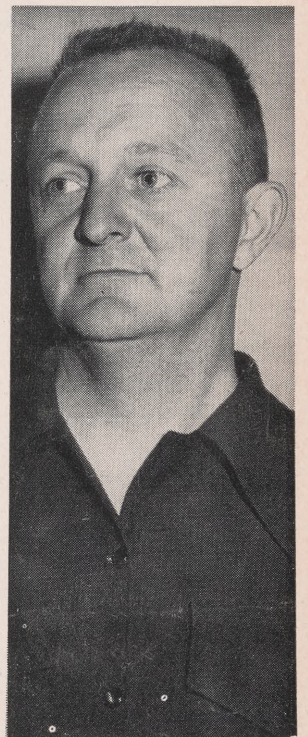

VOL. XXXIV, No. 20

RENO, NEVADA

Friday, March 13, 1959

ASHER WILSON
PLAY DIRECTOR

KEITH MACY
MUSIC DIRECTOR

HOLD STILL THERE, MR. JIM DEPRIEST and let Asher and Chris straighten that collar. And how about that brown derby? Mr. DePriest, a senior actor-singer, has the male lead in the third annual spring musical under the direction of Professor Asher Wilson. Chris Cufflin, the bearded gentleman on the right, is in charge of lighting for the weekend presentation, opening tonight at the State building.

Top Cast, Direction Assures Pleasing Spring Musical

The cast is ready, the scenery complete, dress rehearsal is over, and "Rosalinda" is ready to be presented to the public this weekend. Curtain time is 8:15 tonight and tomorrow night at the State building in downtown Reno.

Pictured above are members of the cast as they performed the dress rehearsals last night. They are, left to right, Buck Winter as Froesch; Allan Van Vorst as Orlovsky, the party lover; Carol Gardenswartz as Poldi; Dr. Loring Williams as Frank; and Art Vaughan, a member of the chorus.

Also in the cast are Vickie Roberts, Jim DePriest, Bud Maddalena, Julia Robertson, Mickey McBride, Jack Dameron, Gerry Lusk and Carol Stever.

Other chorus members include Janet Balmain, Shirley Vietti, Lora Leonard, Lynn Walsh, Leanna Noble, Joe Ellison, Jerry Merrill, Paul Brown and Jim Christensen. Dancers are Jeanne Dell Clay, Billy Morris, Pete Looney, Charlotte Sheldon, Les Hight and McBride.

Directing the program are Asher Wilson, in charge of acting and staging, and Keith Macy in charge of music.

Behind stage, Russ Byloff handles the scenery, Chris Cufflin the lights, and Trudy B. Caddel is assistant director. Orville Fleming assists Macy with the musical direction.

APPARENTLY A THINKING MAN—Playing the viola with the orchestra providing music for tonight and tomorrow's presentation of "Rosalinda," is Mr. Charles Merrill. Mr. Merrill, when not playing the viola, is Chief Justice of the Nevada Supreme Court. He did not say what cigarette he prefers, or that he even smokes cigarettes. He does play viola quite well.

Editorial

Tonight marks the opening presentation of the University of Nevada's third spring musical production, "Rosalinda." The students and faculty members taking part in the production have worked many months to make it one of the few professional-appearing programs the University offers. Those who saw the last two spring productions, "Kiss Me Kate" in 1957, and "Kismet" in 1958, need no urging to attend tonight's program. To those of you who have not attended a program of this type, it is something you won't want to miss.

It's an amazing thing to watch your fellow classmates perform on the stage. You see them every day on campus, not realizing the various talents they have. And only once a year are they given this opportunity to perform.

When you see the play tonight, there will be many who have taken part who will not be on stage. The prop men have constructed simple, but effective backdrops. Proper lighting has been arranged, microphones installed. In all, it is a complex, but well-organized, production.

This organization is due primarily to the work of ambitious Asher Wilson, who seems to devote twenty-four hours a day to these spring productions.

It is extremely unfortunate that this is Professor Wilson's last year here at Nevada. He has resigned, and will move to Oregon for instruction duties there next year. He will be greatly missed in the future spring musicals.

Students owe it to the University to support its activities, but students missing tonight or tomorrow night's musical presentation will find they have done more than neglect what should be termed their responsibility. They will also find they have deprived themselves of a tremendous musical program.

Public Forum

EDITOR, The Sagebrush

Dear Sir:

The letter of ASUN president Richard Hudson Bryan (Sagebrush, February 27, 1959) needs to be very carefully considered. He has made some previously mistaken statements of which, I am sure, your readers will want to be made aware.

In the fourth paragraph of his letter, Bryan states: "The faculty has suggested and outlined some technical changes, but they have not altered the structure of the Court in any way. As no structural change is involved, Senate is working to comply with the recommendations of the faculty."

If Bryan has read the letters from the members of the faculty who objected to the constitution of the student court, he knows that their complaints concern the basic objections that have been apparent from the beginning; that the powers of the Office of Student Affairs are undefined, that the powers of the court are undefined, and that the court constitution itself is unconstitutional. If these are only "technical" matters, then, I suppose, he is correct in saying that he owes the student body no moral obligation.

I can assure the readers who have not seen the faculty objections, however, that by ignoring the main issues Bryan has either perjured himself before the student body, or been duped into a most unfortunate error.

Sincerely,
 BERNARD MERGEN

Gale E. Maston

Funeral services for Gale E. Maston, who died last week, were held Tuesday in the Sierra chapel of the Walton funeral home.

Mr. Maston was a journalism student at the University of Nevada. He was 35 years old.

His wife, Blanche, who survives, is a clerk-stenographer in the education building at the university.

The Rev. Robert L. Stevenson officiated at the funeral.

Casket bearers were Rodney V. Connor, Williard F. Day, George M. Herman, Kieste Janulis, university faculty members, Thomas M. ones, university student, and Robert M. Kelly, a former employer of the deceased.

Burial was at Mountain View cemetery, Reno.

Those Who Survived Swamp Now Face Parking Lot Dust Storms

In the tradition of spring, students will now go forth to their classes happy: for the fear of being sucked into some black and muddy

hole as they step from their cars no longer plagues them. Their main worry now is being overcome by great billowing clouds of dust, stirred up by cars being driven into the parking lot as if they were competing in a dirt track road race.

Dues Hike for Accounting Club

Inflation?
 A club in the College of Business Administration has jacked up its dues by 10,000 percent since the beginning of the semester.

The recently formed Accounting and Finance Society, demonstrating shrewd business tactics, set up a one-cent dues fee for the first 50 members for the first year. Now that it has its first 50 members, it has raised the yearly fee to \$1.

Officers for the new group are: Donald McGhie, president; Raymond Wolford, vice president; William R. Ernst, treasurer; Richard Bryan, secretary, and William "Ty" Tyson, publicity.

Martin Greene, associate professor of business administration, and coordinator of the club, stated that "the main purpose of the club is to give its members a clearer understanding of local and national accounting and finance problems." He also said that membership is still open and that anyone interested should contact him in room 111D, Ross hall.

The student who wants a ringside view of the phenomenon of seasonal change has a box seat waiting for him at the north end of the campus. There, in an area loosely called "the parking lot," the student can observe the overnight change of a marshland to a desert; a natural training area for frogmen become a training ground for Rommel's desert legions; and a potential rice paddy turn into a dry and lumpy field.

Gone are the practical values of a campus lagoon where mud and snow tires could be tested at the state's expense. Instead, campus jeep enthusiasts now may test the durability of their vehicles by pounding over the crevices and pits left from the muddy season.

No longer do students struggle through the muddy mush like Napoleon's troops on their march to Moscow. Instead, they wearily trudge through the dust and grime as if with Montgomery in a North African campaign. Unlike the army, however, the University of Nevada has not seen fit to issue dust masks to students along with the official parking lot decal.

Noted California Editor To Address Meeting of University Journalists

One of America's leading newspapermen will address the members of Sigma Delta Chi in western Nevada at a dinner meeting on Sunday, March 15.

Raymond Spangler, editor and publisher of the Redwood City Tribune in California, will talk

about the problems of newspaper management.

He will speak from a lifetime of experience in editing and managing small daily newspapers of nationally recognized standards in California.

The dinner will be held at the Santa Fe hotel beginning at 7:30 and will be preceded by a social hour starting at 6:30.

Spangler's newspaper has been named by the National Editorial Association as one of the best small dailies in the United States.

He is one of the directors of the Associated Press, the national and international cooperative news distributing and gathering agency, which serves thousands of newspapers, news magazines, and radio and television stations throughout the world.

Following the dinner the annual spring election of new members will be held by the University of Nevada chapter of the national professional journalistic fraternity.

Thirty Colleges Invited to Compete In Forensic Meet

Thirty major colleges in 11 western states have been invited to compete in the Nevada Great Western Championship Debate Tournament and Congress.

The tournament will be held on the University of Nevada campus on April 9, 10 and 11.

Entrants will be divided into two categories, those having chapters of Delta Sigma Rho or Tau Kappa Alpha, the two national honorary forensic fraternities, and those colleges which do not.

The colleges in the first category will be: the University of Washington, Washington State college, the University of Idaho, the University of Oregon, Oregon State college, the University of Utah, the University of Arizona, Arizona State college, the University of New Mexico, the University of Colorado, Colorado State college, Occidental college, the University of Southern California, the University of Wyoming, the University of Montana, Brigham Young university, Leland Stanford Junior college, the University of California at Berkeley, the University of Denver and the University of Nevada.

The schools represented in the second category will be: Humboldt State college, Sacramento State college, Fresno State college, San Francisco State college, the College of the Pacific, and Santa Clara college.

In addition, an invitation has been sent to the United States Military Academy.

The University of Hawaii will not be able to send an entry this year, but has asked to be included in next year's tournament.

Dr. Robert S. Griffin, professor of speech and drama and chairman of the department, announced that the program provides a model student congress in the mornings and debate competition in the afternoons.

Dr. Griffin is the vice president of Delta Sigma Rho for the 11 western states and a member of the committee for the national tournament of Delta Sigma Rho.

The winner of the Nevada event will be designated as the western representative to the national tournament which will be held in Cleveland, Ohio, in May.

Members of Delta Sigma Rho are selected for their outstanding records and must have represented their college in intercollegiate debating in major competition. They must be at least juniors and be recommended by the director of forensics in their college.

New Assistant For Business Bureau

Charles Thomas Moore has been appointed the new assistant director of the Business Bureau by Dean Robert C. Weems, director of the bureau.

Mr. Moore officially began his job with the Bureau of Business and Economic Research on February 25. He is currently in direct charge of survey which is measuring the impact of highways on three Nevada communities.

He earned his B.S. in Business and Economics, and his M.B.A. in Business Administration at Indiana University, and is presently working on his Doctoral.

Mr. Moore has taught business courses at Mississippi State University. He is the co-author of "Transportation in Indiana," which was published in 1956. He has also written several articles and pamphlets in the field of transportation and markets.

Moore stated that "the weather is beautiful and I like the Nevada campus very much." Asked about children, Mr. Moore replied that "my wife and I are expecting in May."

Impala Sport Coupe—like every Chevy—has Safety Plate Glass all around.

Chevy stops quickest ... goes farthest on a gallon!

Chevy showed the best brakes of the leading low-priced three in a test of repeated stops at highway speeds conducted and certified by NASCAR*. Chevy also won over the other two in a NASCAR economy run—with the highest gas mileage for 6's and V8's at cruising speeds of just over 55 miles an hour.

Here's a car that knows how to get the most out of a gallon. And it's the only car in its field to bring you hydraulic valve lifters in all popular engines—6 and V8. This means smoother, quieter performance for you.

There are many other advances just as fundamental as the efficiency of Chevrolet's engines and the depend-

ability of its new brakes (with more lining area than any other low-priced car). But why not stop by your dealer's and let Chevy do its own sweet talking!

DEAN WEEMS ATTENDING CONFERENCE

Dean Robert C. Weems is in Florida this week to participate in a three-day meeting on aid to small business through research.

The conference is being held on the campus of the University of Florida at Gainesville. About forty

directors of the Associated University Bureaus of Business and Economic Research will participate.

Mr. Weems is director of the Bureau of Business at the University of Nevada as well as Dean of the College of Business Administration.

Research Grant Made to Nevada

Work on developing an ultra-high vacuum gauge, possibly a million times more sensitive than any such gauge in the world today, will start at the University of Nevada sometime this spring. Dr. George Barnes, associate professor of physics, will be in charge of its development.

The National Science Foundation has granted \$21,300 to the University of Nevada for research in the field of ultra-high vacuum gauges. The grant will run for about two years.

An initial allotment of \$13,500 will be received within a week or so, he said, and will be used to set up equipment and establish salaries for assistants.

Best Known

Vacuum equipment as good as any known in the world will be brought to Nevada for the work.

Dr. Barnes feels confident that the work will produce a type of gauge that will be "at least one thousand to ten thousand times more effective than any present gauge."

"There is a possibility that we may be able to produce a gauge that will be a million times more sensitive than anything we now have," he said.

Dr. Barnes said the present vacuum gauge commonly used was developed by the team of Bayard and Alpert in 1951. Pressures in outer space, he said, are known to be much lower than the present vacuum gauge is able to measure accurately.

The N. S. F. was originally asked for a grant of \$29,900 for the work. Dr. Barnes said that other sources of support are being looked for.

The new gauge will use a screen similar to a television screen to view light emitted by ions remaining in a near vacuum. Photo-tubes will possibly be used to multiply the light given off by the ions.

Dr. Barnes worked with high vacuums at Linfield college, McMinnville, Oregon, from 1948 to 1955.

Engineering Societies Agree on Plans for UN Engineering Council

Presidents of the various engineering societies have agreed upon a proposed constitution for the newly formed Engineers Council.

Meeting last week with Professor Howard Blodgett, Dean of the College of Engineering, members of the council agreed to submit the constitution to the engineering

chapters on campus for approval.

The constitution if adopted will establish the Engineers Council, to be composed of presidents from the engineering chapters and the student senator from the College of Engineering. The council will handle activities which are beyond the interest of any one engineering chapter.

The organization will replace the Associated Engineers, which has been inactive for some time. The new organization should be workable, where the AE failed, Dean Blodgett says, because it does not demand that engineering students belong to both it and their own engineering chapter.

Preliminary plans for Engineers Day, April 25, were also discussed at the meeting. It was decided by the council that advertising and judging of exhibits would be their responsibility.

Members of the council are: Clay Carlson, Sigma Tau; Bill Heil, American Society of Mechanical Engineers; John West, American Society of Civil Engineers; Tom Woodhal, American Institute of Electrical Engineers; and Paul Gomez, senator from the College of Engineering. Joe Ortiz was chosen as secretary for the council, but he will not be a regular member.

Cap and Gown Orders Taken

Orders for caps and gowns are being taken every weekday morning by Ruth Talcott, YWCA director. Faculty members, graduating seniors, and those receiving M.A. degrees can place their orders in room 114 of the Student Union building.

Any senior who is not sure of graduating should place his order anyway, said Mrs. Talcott, because it can be cancelled later.

A five-dollar deposit will be collected when the caps and gowns are delivered in May. A two-dollar refund will be made upon their return.

Further information can be obtained by phoning Mrs. Talcott at FA 3-6470.

Do You Think for Yourself? (TAKE THIS TEST AND FIND OUT!*)

1. Does it bother you to admit that you haven't read a very popular book? YES NO

2. Do you think there are degrees of cheating in a game or examination? YES NO

3. Are there certain foods you feel sure you'd dislike without having ever tried them? YES NO

4. Would you be seriously concerned to read in your horoscope that catastrophe would befall you tomorrow? YES NO

5. Do you often fall short of cash several days before your pay or allowance is scheduled to come through? YES NO

6. When you're driving, do you like to be first getting away from a stop light about to change? YES NO

7. Would you be reluctant to learn a new sport in the presence of friends who were experts? YES NO

8. Have you found it to be personally true that "a man's best friend is his dog"? YES NO

9. Do you believe your choice of a filter cigarette should be based on hearsay? YES NO

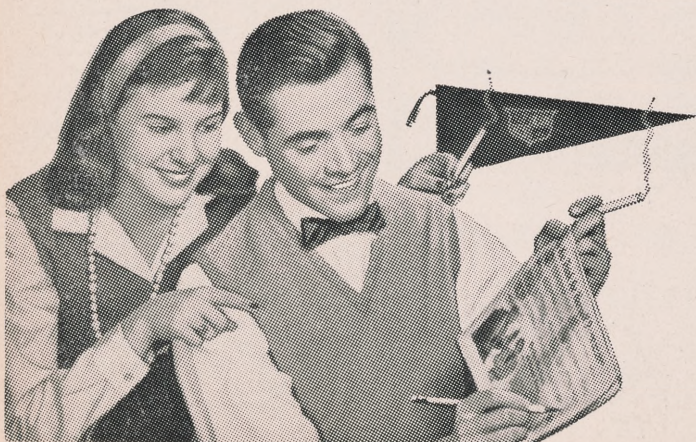

If you're the kind of person who thinks for yourself, then choosing a cigarette will be based on a careful study of the facts—not on quick decisions.

Men and women who think for themselves usually smoke VICEROY. Their good judgment tells them there's only one cigarette with a thinking man's filter and a smoking man's taste. And that cigarette is VICEROY.

*If you've answered "NO" to eight out of the nine questions above, you really think for yourself!

Familiar pack or crush-proof box.

The Man Who Thinks for Himself Knows — ONLY VICEROY HAS A THINKING MAN'S FILTER... A SMOKING MAN'S TASTE!

**WUS Carnival Nets
\$250 for Student Aid**
The World University Service Carnival held last Saturday took in \$250 dollars for aid to foreign students. An annual affair, the carnival had an average turnout, and did not do as well as had been hoped, Lynn Peterson, chairman of the carnival, said. The general public was invited but the attendance was made up mostly of students. Awards were given to Lambda Chi Alpha for collecting the most money with its car wash and to Sigma Nu for the best decorated booth, a grass shack with bongo boards and hula hoops. Groups represented at the YWCA sponsored carnival were: Aggie Club, Faculty Women, Blue Key, Delta Delta Delta, Gamma Phi Beta, Kappa Alpha Theta, Phi Beta Phi, Alpha Tau Omega, Lambda Chi Alpha, Phi Sigma Kappa, Sigma Nu and Sigma Phi Epsilon.

**Many Social Events Crowding
University Spring Calendar**

The forty social events to take place during the remaining week-ends of the spring semester will probably take on a more gala and festive atmosphere as spring begins to warm up the campus.

The spring semester social calendar was released this week by Miss Elaine Mobley, dean of women. It runs as follows:

- March 13—Spring Musical.
- March 14—Spring Musical.
- March 20—Frosh-Soph Class Day, Phi Sigma Kappa.
- March 21—Sigma Alpha Epsilon, Alpha Tau Omega.
- March 27—Easter vacation.
- March 28—Easter Vacation.
- April 4—Frosh Sponsored Dance.
- April 11—Junior Prom.
- April 17—Lambda Delta Sigma, Sundowners, Phi Sigma Kappa.
- April 18—Artemisia-Manzanita Association, Alpha Tau Omega, Sigma Nu.
- April 25—Lambda Chi Alpha, Theta Chi, Pi Beta Phi, Gamma Phi Beta.
- May 1—Aggie Dance.
- May 2—Mackay Day Dance.
- May 8—Senior Class Day, Phi Sigma Kappa.
- May 9—Delta Delta Delta, Kappa Alpha Theta, Sigma Alpha Epsilon.
- May 15—Cadet Officers Ball, Beaux Arts Ball.
- May 16—Alpha Tau Omega, Sigma Nu.
- May 28—Senior Ball.

**National Officer
Post to UN Nurse**

Bartis Nordloh, student in the Orvis School of Nursing, has been elected to national office in the National Student Nurses association.

Miss Nordloh, president of the Nevada State Nurses Association, was elected to the nominating committee of the national group. She will attend a convention in Philadelphia in May.

**Job Interviews
On Tap Next Week**

Students who want jobs after graduation from the University of Nevada may look into opportunities next week when interviewers from two civil service organizations, two Los Angeles city bureaus, and three national corporations will visit the campus.

The job interviews will be held Tuesday, March 17, through Friday, March 20, in the Jot Travis Student Union and Ross hall.

A representative from the U. S. Army Engineers corps will discuss opportunities in the San Francisco, Los Angeles and Sacramento areas. He is interested in students majoring in civil, mechanical, and electrical engineering. The interviews will be held in the Jot Travis Student Union on Tuesday, March 17.

Students in civil aeronautics, civil, electronics, electrical, aeronautical and mechanical engineering will be interviewed by a representative of the U. S. Department of Commerce. He will be in Room 120 of the Jot Travis Student Union, on Tuesday, March 17.

Also on Tuesday a representative from the Arthur Andersen company will interview students majoring in accounting in Room 110 of Ross hall.

On Wednesday, March 18, a representative of the City of Los Angeles Water and Power division will interview students majoring in civil, electrical, and mechanical engineering in Room 120 of the Jot Travis Student Union. Positions to be filled are: civil engineering assistant, electrical engineering assistant, mechanical engineering assistant, and sanitary engineering assistant. He will also conduct interviews on Thursday.

A representative from the City of Los Angeles Bureau of Engineering will speak with students in civil engineering on Thursday, March 19, in Room 121 of the Jot Travis Student Union.

Also on Thursday, a representative from Proctor and Gamble will talk with students majoring in civil, mechanical and electrical engineering in Room 112 of the Jot Travis Student Union.

On Friday, March 20, students in liberal arts and business administration interested in sales careers will be interviewed by a representative from Hallmark Cards in Room 103 of Ross hall.

**Dr. Gorrell Takes
Leave of Absence**

Dr. Robert M. Gorrell, chairman of the department of English here, is on leave of absence from his teaching duties this semester. He will be serving as the chief counselor in English in a study of the curriculum of Portland, Oregon, high schools.

He will continue with his duties as chairman of the English department until April. Dr. Gorrell's leave of absence will end at the start of June.

**Why did
14,436
sophomores
enter advanced
Army R.O.T.C.
during 1958?**

Many more applied. Not all were accepted. In more than 200 U. S. colleges, 14,436 college sophomores met the high standards set. These students were selected to continue officer training in the advanced R.O.T.C. course. Why did each of these young men decide that he would benefit by fulfilling his military obligation as an Army officer? Here are two important reasons. Perhaps they'll help you make your decision.

1...TRADITIONAL RESPONSIBILITIES

As an Army officer, you're in command of men. More men than the number supervised by many civilian executives years older than yourself. To meet your command responsibilities, you employ a great many of the LEADERSHIP principles acquired in advanced R.O.T.C. training. And your executive potential develops while

you gather LEADERSHIP experience. The executive ability you gain as an Army officer will be an important advantage in any civilian career. That's why employment directors often prefer men who have served as commissioned officers. These men have already proven their capacity to handle executive responsibility.

2...TRADITIONAL REWARDS

In every organization, greater responsibilities mean greater rewards. The traditional prestige of an Army officer is matched by material advantages. A second lieutenant earns a minimum of \$355.88 per month—plus substantial fringe benefits. Think you might want to marry soon after graduation? An officer's salary can

make things a great deal easier for a married couple just starting out. What's more, an Army officer is entitled to take his dependents with him, wherever possible. Imagine sharing the fun of travel with your wife—in the United States or foreign countries like France, Germany or Japan.

TRADITIONAL Responsibilities
Rewards

U.S. ARMY R.O.T.C.

SOPHOMORES: Are you considering whether to apply for advanced Army R.O.T.C.? Why not discuss your decision with the Professor of Military Science and Tactics at your college? He'll be glad to talk it over with you.

TV TEACHING DISCUSSED AT CONFERENCE

The possibilities of television as an educational tool were investigated at the twelfth annual Radio-Television Conference, attended by four representatives from the University of Nevada.

Lloyd Drury, director of off-campus programs and audio-visual

aids, Dr. Willard Day, assistant professor of psychology, Arnold Dalke, senior in psychology, and Frank Patch Way, announcer on the "University Hour" programs, attended the conference at Arizona State college, Tempe, Arizona.

Seniors May Not Have To Take Finals If Grade Average Is High

Should seniors with a 3.0 grade average be exempt from final examinations during their last semester at the University of Nevada?

This may be possible if a proposal made recently to Dr. William Wood, academic vice president, by the senior class committee, is accepted.

"Dean Wood was favorably impressed with the proposal," stated Jim Santini, senior class committee chairman.

The academic deans have copies of the proposal and will meet with

Dean Wood to discuss it later this month, Santini said.

"A long range thought," Santini stated, "is that the last semester finals might someday be replaced with a paper written by the senior on his college major. The paper would be a thorough resume of the student's knowledge of his field of study," he added.

It is planned for individual instructors to have final approval of whether a senior should be exempt from final examinations, according to Santini.

Aviation Group Is Incorporated

The campus flying club, "University Flyers," was incorporated at a meeting Monday evening.

The major item of business was the signing of by-laws, which establish the University of Nevada flying club as a corporation. A member of the Federal Aviation agency gave a talk.

The group joined to form the club last year. It is open to men and women students and faculty members of the university.

The club bought a 1946 model Taylorcraft. It is a high-wing, single-engine light plane.

The club will be governed by a board of directors, with Bob Rose, president; Tom Cordova, vice president; Dr. Donald Marble, secretary, and Charles Evans, treasurer. Other members are Curtis Barber, Jack Cardinali, Roger Christensen, Bud Hanson, Bob Moran and Jerry Robinson.

Rose introduced the guest speaker from the aviation agency, Mr. Dan Moran.

Moran told the group about problems they might encounter in operating a flying club. He also explained how a person obtains a pilot's license, and described flying hazards in the Reno area.

Sierra Magazine Offers Opportunity

Campus organizations interested in making money for themselves and/or their individual members will be offered a money-making opportunity during March and April by Sierra magazine.

Persons taking part in the project will offer Sierra magazine to local residents on a subscription basis. Sierra reports the entire surrounding area with pictures and feature material.

It is possible to profit a dollar per subscription and to win as much as \$250 for a bonus.

Students and groups interested in the part time project should contact the Office of Student Affairs immediately, said Samuel M. Batta, dean of student affairs.

Best Technical Paper Contest

Deadline for entries to determine the best student technical paper on mineral industries or related fields has been set for April 24. The contest is open to undergraduate students enrolled in the Mackay School of Mines.

The annual contest is sponsored by the Nevada Section of the American Institute of Mining, Metallurgical and Petroleum Engineers.

The paper will be judged on subject matter, presentation, originality, and neatness. They should not exceed three thousand words on a personal experience or personal research.

Papers will be judged by a panel of judges appointed from the Nevada Section of the AIME.

Entries can be given to Professors John Butler, Claude Hammond, Lon McGirk, Harve Nelson, David Slemmons, John Winston, or Dean Vernon Scheid, who will give them to the chairman of the contest committee.

President Armstrong To Address Phi Sigs

President Charles Armstrong will speak at the Phi Sigma Kappa Founder's Day banquet Sunday evening at the Villa Roma.

More than fifty members of the fraternity and their dates will attend the banquet, according to Dave Hansen, president. It is scheduled for 7:30 p.m.

L&M is **Low** in tar with **More** taste to it

Don't settle for one without the other!

© 1959 Liggett & Myers Tobacco Company

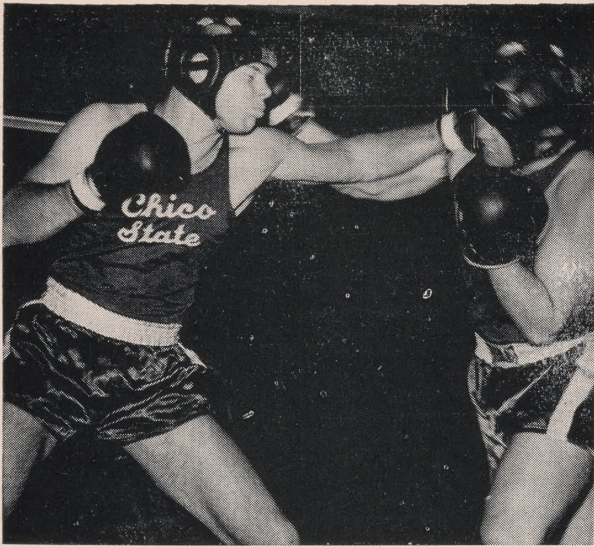

"L&M is kindest to your taste because L&M combines the two essentials of modern smoking," says TV's Jack Lescoulie.

LOW TAR: L&M's patented filtering process adds extra filter fibers electrostatically, crosswise to the stream of smoke... makes L&M truly low in tar.

MORE TASTE: L&M's rich mixture of slow burning tobaccos brings you more exciting taste than any other cigarette.

LIVE MODERN... CHANGE TO MODERN L&M

TAKING A HARD JAB to the head is Nevada's Carl Looney. Throwing the left is Chico's Daryl Talkin, a man to watch during the NCAA tourney here April 2, 3 and 4. Talkin took a unanimous decision over Looney, Pacific Coast champ last year. Chico won the fight card last weekend 5-3.

NEVADA RINGMEN LOSE MATCH; SHORT REMAINS UNBEATEN MAN

Men of the Wolf Pack boxing squad are having an up and down season.

Last Monday night at Chico, Nevada ringmen lost a dual decision, 5-3.

Nevada's Chub Quilici fought NCAA tourney runner-up Marv Watley to a standstill. The men had previously fought to a draw in Reno.

Joe Bliss, down four pounds and fighting in the 132-pound class, battled Chico's Don Stapp. Stapp fought gamely, but Bliss kept coming in with heavy blows. Stapp, bloodied near the end, lost gallantly and unanimously to Bliss.

Regular fighter Don Kitts did not make the trip due to heavy scholastic loads.

Wild-swinging Pete Conlan of the Blue and Silver clashed with Vince Capello and the match ended in a draw. Two judges called it a

draw and one favored Conlan. The decision was accepted as being "pretty good."

Nevada's Dick Short persistently kept after tall man George Aranda, and outboxed him through and through. Aranda's nose was bloodied and Short had a unanimous decision.

Short is the only unbeaten man on the Nevada squad. He has won five and taken three others by forfeit.

Nevada senior Carl Looney was outpointed by Chico's weaving Dayrl Talken. Looney was on the canvas in the first round. By the time he got going it was the third round and too late.

Earlier this year, Talken took a decision in a nearly identical scrap. Some are beginning to think that Looney, hopeful of a high position in the NCAA matches, is overrated.

Bill Short took a beating from Chico's George Daniels. Short couldn't seem to start uncorking punches and every time he went in he was met squarely by a fist. Daniels took a unanimous decision.

Nevada's Dean Schank lost a close decision to Dave Borjon. Schank pushed the pace and at the end of the fight, Borjon was "tired." However, Schank was caught by authoritative blows in the first round and although he finished strong, he was unable to show much except good physical condition.

John Genasci lost a decision to Bob Jellison, one of Chico's toughest men. Nevada's Genasci went for the head, but Jellison kept connecting hooks with Genasci's body.

SPORTS

Independents To Make Strong Bid In Track Meet

The annual intramural track meet will be staged Saturday morning at Mackay field in conjunction with an intra-squad meet held by the varsity. Times and records made by lettermen will not count for points or places in the intramural meet.

Entrants will compete for Sigma Alpha Epsilon, Alpha Tau Omega, Sigma Nu, Theta Chi, Phi Sigma Kappa, Lambda Chi Alpha, Sigma Epsilon and Independents.

The Independents, dominated by freshmen and non-lettermen from the varsity track squad, loom as one of the strongest teams in the meet.

They will be led by Bob Challenger, Dick Strunk and Chris Nenzel.

In last week's first intra-squad meet, Strunk, a former Hawthorne high school track ace, was a triple-winner as he copped first spot in the 100, 220 and 440.

Challender is a threat in both hurdles and is a good relay runner. Menzel, from Elko, is strong in four events.

Each team is limited to three entrants per event, but no limit is set on the number of events an individual may enter.

Student Prices Set for NCAA Matches

NCAA boxing tournament tickets may be acquired by University of Nevada students at a reduced rate, it was announced this week by Dr. G. A. "Art" Broten, director of athletics.

The "nationals" are scheduled to be held for the first time in Nevada on April 2, 3 and 4.

A fifty-cent reduction will be given students on ringside, lower balcony and bleacher tickets. Regular prices on the ringside seats have been set at \$3.00 on Thursday and Friday, and \$3.50

on Saturday. Bleacher and lower balcony pasteboards will go for \$2.50 on the first two days and \$3.00 on Saturday.

General admission ducats will go on a first-come, first-served basis. No student reduction will be given on these seats which will sell at \$1.25 on Thursday and Friday, and \$1.50 for the finals.

Tickets may be acquired at the athletic office only; student body cards are required.

Stan Summers On All-Conference

Stan Summers, a 6-7 senior at the University of Nevada, has been listed on the first string of the all-Western Conference basketball team.

Three other Wolf Pack men received honorable mention.

Summers is tall man on the starting five. Teammates include Chuck Mobley, Sac State, who made the team for the fourth straight year; guards Bill Aires, a verbally active player familiar to most Nevada rooters, and Jim Caranica, both of San Francisco State, and Joe Johnson of Humboldt State.

The team is selected each year by coaches in the conference.

Summers made the team in '57 but did not play ball the following year.

Chuck Walker, Val York and Bob Ferrari, all Blue and Silver performers, were listed for honorable mention.

Gedney Wins First Place in Texas Shoot

Larry Gedney won a first place medal at the Southwest Invitational Rifle Match in El Paso, Texas, last week. His high score of 292 out of a possible 300, was fired from the kneeling position. It placed him first over entrants from

39 other colleges and universities.

The University of Nevada rifle team placed ninth in the match with a total score of 5554 out of 6000.

Kansas State college was the winner

Independent Team Takes Four in Row

The undefeated Independents with four straight wins continue to lead the standings in the Women's Recreation association basketball league at the halfway point.

In this week's action, Kappa Alpha Theta moved into second place with a 30-20 victory over Gamma Phi Beta. The Independents defeated Delta Delta Delta 37-18 in the other game.

Next Tuesday the Tri Deltas meet Pi Beta Phi, and the Independents will play the Thetas.

If a part-time job with transportation furnished sounds interesting to you, contact Mr. J. J. Fike, at Reno Motors, 515 South Virginia. We're looking for several young men to train as new and used-car salesmen. If you're sincerely interested in gaining valuable experience and background in the selling end of the automotive industry, please contact us.

Reynolds Named President

Patricia Anne Reynolds won the Wednesday election for AWS president by a large majority. Miss Reynolds' opponent in the race for the office was Nancy Rose Petrini.

Three hundred women voted in the final election. Miss Reynolds received more than two-thirds of the votes cast. She will take office May 15.

Carol Gardenswartz, current president of the Associated Women Students, outlined the duties of the office. The president is usually in her office about ten hours a week. She attends numerous meetings including the publications and finance boards, of the ASUN. She represents the women of the university in the Student Senate.

"The president is an unofficial hostess for the university. That's one way to describe the position," said Miss Gardenswartz.

The position of AWS president carries with it a salary of \$60 per month. Miss Gardenswartz said that it worked out to about a dollar an hour.

The AWS president is advised by a council made up of representatives from the women's living groups and clubs. Elaine Mobley, dean of women, is faculty advisor for the council.

Summer Job Offers Are Being Made

Male students between the ages of 18 and 35 who want summer jobs will be interviewed by representatives of Standard Stations on March 19 and 20.

The oil corporation will have 12 jobs open in the Reno, Sparks, Truckee, Carson City, Lovelock and Lake Tahoe areas. The jobs will pay \$330 a month and laundry expenses.

Students interested will have to be available during the Easter vacation for training. A pay-scale of \$1.15 per hour is scheduled for the training program.

Applications and interview scheduling can be arranged for in the office of Sam Basta, dean of student affairs.

Dean Holstine Makes Trip South

Dr. Gerald D. Holstine, dean of the College of Education, is planning a trip to Las Vegas next week where he will attend the dean's meeting at Nevada Southern.

Dr. Holstine will also speak at the P.-T.A. meetings at Henderson on Wednesday, March 18, and at Rancho high school on Thursday, March 19.

University Physicists Put Nuclear Reactor Into Operation at Nevada

The nuclear reactor at the University of Nevada went into operation Tuesday afternoon.

Dr. T. V. Frazer, associate professor of physics, set up the machine Monday afternoon with Paul Bessert, representative of the Nuclear Chicago corporation and students studying physics. It is in the Mackay science building.

Dr. Frazer said the machine was less radioactive than a normal tooth or chest X-ray.

Operation of the reactor will be continuous so that the students can study reactor properties, perform experiments, and give general training in operating the device.

The Atomic Energy Commission recently loaned the university \$40,000 to purchase the sub-critical reactor, and loaned 5,500 pounds of natural uranium and 80 grams of plutonium to use in experiments.

The reactor is a large, open tub-like container mounted on a steel platform, with aluminum rods set vertically in the middle of the container.

All of the rods contain uranium, except the central one, which is filled with plutonium-beryllium. The container is filled with water to act as a moderator and a shield. It is the reaction between the plutonium-beryllium and the uranium that makes the reaction.

Officials Picked For NCAA Fights

Dr. G. A. Broten, chairman of the departments of health, physical education and athletics at the university of Nevada has announced names of officials for the NCAA Boxing Championships which the university will host on April 2, 3 and 4.

Referees for the three-day tournament, which will draw the top collegiate boxing talent in the nation to Reno, are John Walsh of the University of Wisconsin and Jack Tighe of Pennsylvania State college. Tighe, although an alumnus of Penn State's ring, is a resident of Reno.

Judges are Roy Simmons of Syracuse University, Ray Chisholm of the University of Minnesota, and Frank Carter of San Francisco State.

Selection of officials was made on a geographical representation basis by the NCAA Boxing Rules Committee of which Dr. Broten is a member.
