Mackay Day Program Organizers

CHAIRMEN HAVE BEEN NAMED to begin planning for the coming Mackay Day celebration—top Spring "social" event at the University of Nevada. Left to right are Kathy Bailey, Ted Nickolich, Jean Best and Jud Samon. Miss Bailey, a sophomore Theta, is the social chairman. Nickolich is in charge of publicity, Miss Best of Pi Beta Phi was named trophy chairman, and the job of coordinating and organizing the program goes to Samon. The program is set for May 2.

ASUN President Filing Time Set

The deadline for filing of candidates for student body president has been set by the ASUN senate at 5 p.m., Tuesday, Mar. 31.

Any matriculated student who will be a senior next year and has an over-all 2.0 average can be a candidate for the office.

The nominations assembly, where candidates will speak before the student body, will be Tuesday, April 7. The primary election has been set for Wednesday, April 8, and the general election will be Wednesday, April 15.

Other officers to be voted on are: junior senator-at-large for men; junior senator-at-large for women, and sophomore, junior and senior class presidents.

Qualifications for the senator-at-large offices are upperclass standing and 2.0 grade average.

UN Professor Is Given Study Grant

A Fulbright grant has been approved for Dr. George McMurray, assistant professor of foreign languages. The grant will be used to attend the summer seminar for American teachers of French at the University of Paris and provincial centers.

The Board of Foreign Scholarships, appointed by the president of the United States, issued four hundred grants for summer seminars for the year 1959-60, one of which went to Dr. McMurray.

Summer Session Registration and Program Plans Being Completed

Preparation for the 1959 summer session of the University of Nevada is completed. University of Nevada is holding its first session following the unrestricted accreditation granted by the Northwest Regional Association in December, 1958. It has been accredited by the Northwest Association of Sec-

Queen Candidates Are Selected

Prom queen candidates were announced this week. The elections will be held on campus April 10. The junior prom will be held in the Sky Room of the Mapes Hotel Saturday, April 11, at 9:00 p.m.

The candidates for queen are: Jo Ann Todd, Pi Beta Phi; Diann Coate, Delta Delta Delta; Lynn Brown, Gamma Phi Beta; Gay Brennan, Kappa Alpha Theta; Kathleen Tilman, Artemisia-Manzanita.

The candidates and their managers will lunch at the fraternity houses and Lincoln hall the week of the elections.

The managers and alternate managers for the candidates are: Joan Ruark and Letitia Sawle, Pi Beta Phi; Stephanie Maas and Grace Antonelli, Delta Delta Delta; Joyce Casazza and Jackie Curti, Gamma Phi Beta; Alice Urrutia, Kappa Alpha Theta; Pat Turner and Jean Rivkin, Artemisia-Manzanita.

ondary and Higher Schools continuously since 1938.

Undergraduate students may gain a maximum of six or seven credits in the main term of the 1959 summer session. Students are limited to a total of eleven credits for the entire summer sessions of June 8-August 14.

A graduate student may earn six credits in the main summer session. All credits are subject to full transfer to other accredited institutions of higher learning.

No formal admission or matriculation is required for Summer School students. Registration for the summer school does not imply admission to or matriculation with the University.

The course schedule for the 1959 summer school session is available at Dean Holstine's office in the Education building.

Dr. Smith Returns

Dr. Oliver F. Smith, a research agronomist, recently returned to his post at the University of Nevada after a six month stay in New Zealand.

Dr. Smith works with the agricultural experiment station at the University. He traveled to New Zealand with his wife and and two children on a Fulbright research grant.

At New Zealand, and now at Nevada, Dr. Smith is working to develop new strains of alfalfa which are highly resistant to insects and disease.

Senate Discusses Student Court Controversy Again

By WARREN LERUDE

What's in a name, anyway?

Student senators tried to answer this question Wednesday when controversy arose over the title, "Student Court."

A new tag, "Student Discipline Committee," was given to the court during constitutional revision sessions of a committee

Beard Contest for Mackay Day Set

It's getting to be that time of year again. The men on campus resemble porcupines and it makes necking a mighty scratchy business.

It's the forerunner of the annual Mackay Day beard judging contest. The rules say that a two-week growth will constitute a beard, but men shooting for the longest beard prize will have a good head start.

A large trophy will be given to the living group on campus which has the largest percentage of beards. Other organizations interested in participating in this portion of the contest may do so by contacting Clay Darrow, beard contest chairman.

Senior History Deadline Date

Artemisia Editor Judy Kautz has set the deadline for returning senior histories. None will be accepted after Friday, March 27, she said.

The histories may be given to Georgie Weaver at the Tri-Delt house, or to Kay Kelly at the Pi Phi house. Seniors who haven't filled out histories are urged to pick up blanks at the Graduate Manager's office in the new Student Union before March 25.

SHARON WILKERSON has been named secretary of the Mackay Day planning committee. A sophomore member of Pi Beta Phi, she will be assigned the long hours of bookwork that go into the annual program.

headed by Dr. Thomas Tucker, chairman of the faculty discipline committee, and Barbara Heward, senator.

"Since the court will not be operated according to the judicial procedures of the downtown courts," Miss Heward said, "we thought the name should be changed to student discipline committee."

Discussing the court's newest problem, the senators voted against Miss Heward and agreed that the title "student court" should be retained.

Idea Changed?

"If we switch the name from student court to student discipline committee," newly-elected AWS president Pat Reynolds said, "many students will think the whole idea of the court has been changed."

The constitutional provisions have been completed, Miss Heward told the senate. They were called for when President Charles Armstrong, Dr. Tucker and the faculty discipline committee found six major points unclear in the constitution.

The revised constitution will be submitted to President Armstrong and distributed to faculty members for their approval this weekend.

The senate flared into lively debate when Dick Bryan, ASUN president, was asked what would happen to the student court constitution if it was approved by the faculty.

Senator-at-large Leroy Arrascada made a motion that the senate again study the constitution after the faculty had approved it and then submit it to the campus living groups for their information.

Senator Don O'Donnell, Phi Sigma Kappa, sought a modification of the motion, asking that the living groups be able to approve or disapprove the revised constitution.

Miss Reynolds retorted that the living groups did not represent the entire voting student body and that their approval or disapproval would not be a justification for again reworking the constitution.

Senate Will Decide

It was then agreed that the ASUN Senate was the representative of the entire student body and it should, therefore, be able to accept the constitution.

If we take every issue that comes before us to the student body," Arrascada said, "we will become a defunct organization."

It was finally agreed that if the faculty accepts the constitution, the senate will re-study it and then submit it to the living groups for their information.

Editorial

'Tis the time of spring, and the signs are apparent on the University campus—the grass and the lakes are turning green, and soon the trees will spread their leaves.

And along with Spring at the University comes the first signs of political undertones as would-be office seekers begin to figure their chances for the April elections.

Unlike city, state and national elections, the candidates for office are kept secret until the last possible moment. ASUN President Richard Bryan told the Senate Wednesday night he has had "three or four" filings for candidacy, but said he didn't think it right to release the names at the time.

Election time on the campus is a colorful affair, and those in their freshman year will be surprised at the robust political activity they will see in the coming weeks.

The most interesting political race, of course, is that for student body president. It will be interesting to see who will be lined up for the office in the primaries and what platforms they will present. Of especial interest will be the candidates' stand on the floundering Student Court—if they take a stand at all.

European Offers Of Employment

Want to work this summer in the forests of Germany, on construction in Portugal, on farms in Germany, Sweden and Denmark, in a kibbutzim in Israel, on road construction in Norway.

These jobs are available as well as jobs in Ireland, Switzerland, England, France, Italy, Spain and Holland are open by the consent of the governments of these countries to American university students coming to Europe the summer of 1959.

The purpose of this program is to afford the student an opportunity to get into real living contact with the people and customs of Europe. In this way, a concrete effort can be made to learn something of the culture of Europe. In return for his or her work, the student will receive his or her room and board, plus a wage. However, students should keep in mind that they will be working on the European economy and wages will naturally be scaled accordingly. The working conditions (hours, safety regulations, legal protection, work permits) will be strictly controlled by the labor ministries of the countries involved.

For further information on the placement services and travel arrangements, write American-European Student Foundation, P. O. Box 34 712, Vaduz, Lichtenstein, Switzerland.

Because of the Easter vacation beginning next week, there will be no issue of THE SAGEBRUSH published March 27. An "irregular" issue will be published on April 1, and regular weekly publication will follow on April 3.

Sally Holmes Wins National Contest

Sally Holmes, a University of Nevada senior majoring in physical education, was named "Co-Ed of the Month," in the February issue of Coach and Athlete, a national physical education trade magazine.

Miss Holmes is president of Delta Delta Delta and the Women's Recreational Association. She was selected for this year's Who's Who Among American Universities. She is also a member of the Women's Upperclassmen committee and the Sagens.

Before transferring to the University of Nevada, Miss Holmes attended Compton College where she was president of the Associated Women Students and Delta Kappa Phi sorority.

After graduation in June, Miss Holmes plans to do graduate work and teach physical education at the college level.

Burge Chosen for Scholastic Honor

Boyce W. Burge has been chosen the outstanding sophomore student in beginning engineering physics at the University of Nevada.

Burge is a graduate of Sparks high school. He was awarded a "Handbook of Chemistry and Physics" by the Chemical Rubber Publishing Company of Cleveland, O. He is a physics major in his sophomore year at the University. According to his professor, Dr. T. V. Frazier, Burge is interested in mathematical or theoretical physics and last year, obtained a better than 99 percentile on his final examination.

The award, which is an annual presentation, was won last year by Paul Freedman of Las Vegas.

Westinghouse Man Talks to Engineers

William N. Hornberger, an engineer at Westinghouse, was the guest speaker at the last meeting of the Nevada Chapter of the American Society of Mechanical Engineers.

Mr. Hornberger spoke on the influence of nuclear reactors and computers upon steam turbine power equipment. He also presented slides and movies on the design of turbine engines.

William H. "Bill" Heil, chairman of A.S.M.E., presided over the meeting.

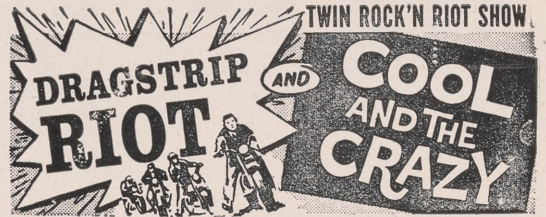

Five Ag Professors Attend Conference

Five members of the staff at the Max C. Fleischmann College of Agriculture, University of Nevada, are taking part in a range weed research meeting this week in Salt Lake City. They will report on studies being made in Nevada.

Those in the Utah city are: Dick Eckert, Ray Evans and Paul Tueler of the department of range management; Dr. Howard Cords, chairman of the department of agronomy, and M. H. Kilpatrick, extension range management specialist.

MAJORITY OF GREEK LETTER HOUSES FAVOR PASSING CARNIVAL IN 1960

A majority of fraternities and sororities on campus favor abandoning the 1960 University of Nevada Winter Carnival because of the 1960 Winter Olympic activities at Squaw Valley.

But almost as many want to keep the social aspects of the annual "fun in the snow" event, which brings students to the campus from a dozen other universities and colleges.

High School Tour Made in Nevada

Three students and two professors from the University of Nevada spoke to about twenty high school students last Saturday in Winnemucca. They spoke on the opportunities in teaching.

They were Student National Educational association members Nancy Petrini, Beverly Roberson, and Cathy Tuminaro; Dr. Burton C. Newbry, associate professor of education; and Dr. Donald G. Potter, assistant professor of education. Accompanying them were Mrs. William Elder, state chairman of Future Teachers of America, and Rita Conner, FTA president at Sparks high school.

The occasion was a meeting of classroom teachers from Humboldt county.

This is the result of a survey of the Greek-letter living groups carried on this weekend by John Heward, chairman of an ASUN senate subcommittee investigating student opinion on next year's events.

Spokesmen for six houses not in favor of next year's ski festivities at the University claimed that the Winter Carnival would conflict with the Olympic games.

The five houses favoring a Winter Carnival want it modified to have no ski competition, but only the social aspects of house decorations and open houses.

Non-Greek groups at Lincoln, Hartman, Manzanita and Artemisia halls were not consulted in the survey.

When asked by Heward if they were in favor of a parade similar to the Homecoming parade through the city of Reno, seven of the houses voted yes and three voted no. Those against the parade proposal claimed the expense of building floats as well as having house decorations would be too great.

All of the fraternities and sororities favored having open houses for Olympic competitors.

Heward said he is preparing a more detailed questionnaire to be sent to the campus living groups, including the Independents as well as the Greek-letter houses.

National Business Fraternity Here

Nevada will lose Beta Alpha Nu, the local professional business fraternity, on April 11. On that day it will be replaced with a chapter of Delta Sigma Pi, an international organization with some 90 chapters.

At noon today some 35 members of Beta Alpha Nu were pledged into DSP. Dean Robert C. Weems of the College of Business Administration was in charge of the pledging. Dean Weems is a member of DSP himself.

"We started Beta Alpha Nu with the idea that some day we would be able to affiliate with Delta Sigma Pi," said Ray Foster, BAN historian.

Earlier this month permission was given by Delta Sigma Pi to set up a local chapter here.

Officers of Beta Alpha Nu are John Rhodes, president; Richard Yates, vice president; Ted Moore, senior vice president; Paul Rand, secretary; William Proven, social chairman; Keith Latham, chancellor; and Ray Foster, historian.

Five UN Women Attend Meeting

Five University of Nevada women students will attend the Intercollegiate Associated Women Students conference at Tempe, Arizona. The conference will last from March 31 through April 3.

Representatives from every college in the nation which has an A.W.S. organization will meet at Arizona State college to discuss the woman's role in college and in student government.

Bernice McNaught, women's vocational counselor, will accompany the women on the trip. Students attending the conference are: Patricia Reynolds, Nancy Petrini, Barbara Heward, Sue Pinneo and Lorelee Smith.

Drive carefully; observe Easter drive ground.

GERALD A. PARSONS received his B.A. in 1950 and his M.B.A. one year later, both from Cornell University. He joined General Electric in 1954 and is presently Specialist-Marketing Administration in the company's Large Steam Turbine-Generator Department.

"The biggest challenge a man has to face is himself"

"Men and businesses are alike in one respect," says Gerald A. Parsons, 30-year-old marketing and personnel development specialist. "Their success depends to a great extent on how well they respond to challenge. And I've found that the biggest challenge a man has to face on his job is not the competition of others — but the far more important one of developing himself to his fullest capabilities.

"During my four years with General Electric, I've had plenty of opportunity for self-development. Challenging training assignments at five different locations within the company have given me a broader understanding of my career area. In my present job I have the benefit of working with experts, both in establishing long-range goals and in helping to achieve them. I've found that working toward future potential is vital in the development of successful businesses — and successful men."

Young men such as Gerry Parsons are important to the future of companies like General Electric and to the growth of America's dynamic, competitive-enterprise economy. Our nation's progress will depend more and more upon those forward-looking individuals who continue to develop to their fullest capabilities during their lifetime.

That is why General Electric provides a climate for individual progress — with opportunity for increasing knowledge and skills — for all of its employees, including 30,000 college graduates. For it is only as individuals meet the challenge of self-development that there continues to be progress for a business, an industry, or a nation.

Progress Is Our Most Important Product

GENERAL  ELECTRIC

Employment For University Grads

Student employment interviews for the week of March 23 and thru April 6 include U. S. Naval Ordnance, Westinghouse Electric Corporation, and Johnson and Johnson Personal Products Corporation.

U. S. Naval Ordnance China Lake will hold interviews for engineers and physical science majors in room 120 of the Jot Travis Student Union building. The interviews will be held Monday, March 23, and Tuesday, March 24.

Westinghouse Electric Corporation will interview electrical and metallurgical engineers, and metallurgy and physics majors. These will be held Monday, April 6, in room 120 of the Jot Travis Student Union building.

In room 110 of Ross hall, Johnson and Johnson Personal Products Corporation will interview business administration and liberal arts majors for their management training program. These will be held Monday, April 6.

Central Switchboard Is Planned for University

One central switchboard will handle all outgoing and incoming telephone calls for the University, beginning June 8, 1959. The PBX, "private branch exchange," has been under study since 1950, but the actual work on it was started only 30 days ago.

There are many reasons for the change over to PBX, James D. Rogers, university engineer, explained. With PBX a larger number of telephones can be handled for less cost. Under the present system there are too many lines into the university and the saturation point has been reached. Approximately one hundred more lines can be handled with PBX.

Misdirected calls in to the University can be corrected by the operator on the switchboard, which will save time for the university staff. Rogers said many persons calling in are not sure which department they want, or where to find the person they seek.

Every telephone on campus will have an exchange number which can be dialed within the system. An outside line will be connected by dialing 9 and then the number desired.

Equipment for the PBX is now being installed in the Home Economics building. The operators and the switchboard will also be located there.

Bernard Mergen Recipient of Wilson Fellowship; High Honor for Student

Bernard Matthew Mergen, a senior, is one of three Nevada residents named to receive Woodrow

Wilson fellowships for future college teachers.

Mergen is the only University of Nevada student to receive the award.

Majoring in English, he plans to do his graduate work at the University of Pennsylvania in American studies. He is the son of Mrs. Katharine N. Mergen of Reno and Bernard M. Mergen of Phoenix, Ariz.

A native of Reno, he attended St. Thomas Aquinas school and Reno high school. At the University he served as editor of "Brushfire" for two years and in 1957 was stage manager for the annual Wolves frolic.

The Woodrow Wilson National Fellowship Foundation named 1,200 American and Canadian students as Woodrow Wilson Fellows this year. The Fellows were chosen from seven thousand candidates from over 700 undergraduate colleges.

Elected Wilson Fellows begin graduate work next Fall at eighty universities. Each Fellow receives a living allowance of \$1500 plus the full cost of tuition and fees.

This year's winners include 875 men and 525 women. Of these, 38 percent are planning to take courses in the humanities; 34 percent in the social sciences and 28 percent in the natural sciences and mathematics.

SAE Dance At Flindt's Ranch

Flindt's ranch will be the scene of a "Beatnik and Bohemian" gathering Saturday night as Sig-Apha Epsilon fraternity will present the "Something-Else" costume affair starting at 7:30.

To provide the proper atmosphere, a period of meditation and reading of appropriate "beatnik" poetry will be held before the dance at Flindt's ranch, accord-SAE publicist Ed Allison. "Bohemian" music and paintings will also add to the setting.

Prizes will be awarded to the couple with the most original Beatnik costume.

Guests will include Prof. and Mrs. James S. Roberts and several SAE alumni.

Art Cox's band will play for dancing.

Tom McCann, SAE president, and Roger Christensen, went to San Francisco last week and explored North Beach, the Bohemian territory, for ideas for the dance.

DID YOU KNOW?

Odds of 10,000 to one were leveled against "Firebrand" winning the Upsan Downs steeplechase in 1938. "Firebrand" was a gartersnake.

Spelunkers Plan Mountain Trip

A trip to explore caverns in the Humboldt mountains some 20 miles north of Lovelock, Nevada, is planned by the Biology club for Thursday, March 26.

The caves are in the Castle Rock limestone ridge at an elevation of 9,000 feet. Noel Parkhurst, Biology club president, said that he believes the caves have never been scientifically investigated. The club members will be looking for fossils and for evidence of plant and animal life.

Approximately ten persons are expected to make the trip. The group may stay overnight and return on Friday.

Stalemate

By RICHARD MORRIS

The candidates tournament, to determine a challenger for the world's chess championship, has been scheduled to take place in Yugoslavia from September 6 to October 31. Every one of the eight qualifiers will play each of the others four times. Four Russians are competing in this tournament with a Yugoslav and an Icelander while the United States is represented by Pal Benko and Bobby Rischer, both of whom were awarded the title of grandmaster last year.

Wasted Effort: Lynn Burns and Phil McGee struggled through a tournament game for 5 hours, 35 minutes. They started playing in the snack bar at 2:10 p.m. on a Monday afternoon. When they finished it was 7:45. The game was a draw.

The Nevada State Chess Tournament is to be held in Reno this year. Play starts on the evening of Wednesday, April 8, and continues until Saturday, April 11. This happens to be the week after Easter vacation.

Many people call Paul Morphy, an American chess player who lived 100 years ago, the first world chess champion, although there was no official title at that time. Morphy's chess playing career lasted two years. At the age of 21 he was acknowledged the greatest player in the world. In the following game Morphy plays without his queen's rook and on his 6th move (NxBP) plays the famous "Fried Liver" attack. I think this game will intrigue you. (? means a bad move; ! a good one.)

New Orleans 1858

White		Black	
Morphy	Amateur		
1 P-K4	P-K4	10 Q-B7	B-K3
2 N-KB3	N-QB3	11 BxB	NxB

4 N-N5	P-Q4	13 P-B4ch!	KxN
5 PxP	NxP	14 QxN	Q-Q5?
6 NxBP	KxN	15 Q-N4ch	K-Q6
7 Q-B3ch	K-K3	16 Q-K2ch	K-B7
8 N-B3	N-Q5?	17 P-Q3ch!	KxB
9 BxNeh	K-Q3	18 O-O mate!	

After Morphy retired from active play he set up a law practice. Ironically, he was a failure as a lawyer because of his great success at chess. People remembered him as Morphy, the great chess player, and not as Morphy, the lawyer.

TV Expert to Give Talk on Education

An expert on television will speak before a University committee this afternoon to explain the practical problems of educational television. The speaker, Mr. Thomas Voss, has helped with an educational television program at Arizona State college at Tempe.

Dr. Willard F. Day is chairman of the committee set up to study educational television and to prepare a proposal for an educational television research on the campus.

... JUST WHITTLIN'...

By JUDY V.

O.K., O.K., so I goofed. So I didn't quite make the grade—well, I didn't really try very hard; the old scandal sheet just wouldn't fit in the time schedule, between the Conservation and Juvenile Delinquency tests. This week you're going to get a conglomeration which will undoubtedly consist of some pieces of old, stale gossip—but that's the way the ball bounces, no? (Ed. Note: No!)

In the good old, always interesting, romance department, Tri Delt Sandy Thompson announced her engagement to Bill Bowser. Theta Joanna Quinn has been sporting a frat pin. Seems it belongs to our old Sigma Nu friend, Clay Darrow. Another Sigma Nu lost the lease on his pin, Lester finally let Diz win the battle.

Saturday was a big night at the Shadows, which was the setting for the "Rosalinda" cast party. Guess the party must have been a real gasser; ended at the Sparks Nugget about 5:00 a.m. A few of the people participating in this affair were: Trudy Brock, Tri Delt; Carol Gardenswartz, Tri Delt; Jim DePriest, Snake; Gary Brock, Lambda Chi; Mickey McBride, Snake; Leanna Noble, Delta; Billie Mae Morris, Pi Phi; Gamma Phi Shirley Vietti; Les Hight; Edith Rittenhouse; Russ Byloff, and Barbara McCann. All the guests were in agreement about one thing—Asher plays a mean game of signals.

Social events for this weekend:

Friday—Soph-Frosh Field Day and a Phi Sigma Kappa Dance

Saturday—SAE Dance and ATO Dance.

(Saturday afternoon the Sig Ep's are having the first of what they hope will be a string of traditional Car Wash-O-Ramas) Have a pleasant Easter, and may the bunny bring you bountiful baskets and all that.

—W. B.

Ed. Note: Friends and readers, if there are still any left, let's have a little fun and analyze Miss Judy's column this week. She begins by saying she goofed. We fail to find the word in our small, but adequate dictionary. Possibly she means she has made an error. No, by reading further, we see it was the grade she didn't make. Nor by reading only this far we don't know if she means ABC's or Geiger. And it all turns out she just didn't try.

The scandal sheet—most likely referring to the SAGEBRUSH, one of America's finest weekly newspapers—didn't fit the schedule, she says. It came out on schedule. Meanwhile, Miss Judy was being tested for Juvenile Delinquency.

There is no ready information to show that the direction a ball bounces has anything to do with old, stale gossip. And is the romance department always interesting? Next we see a (Kappa Alpha) Theta is sporting a frat pin—she is probably wearing one. We've commented enough on Mr. Darrow. And Lester (last name unknown) more than likely was quite willing to give his pin to Diz (whatever his or her last name might be).

"A real gasser." Hmmm. Then it becomes an affair. Hmmm again.

—D. B.

Summer Job Openings Being Offered

Opportunities for students majoring in science and engineering with the U. S. Army Ordnance Corps were made known this week by the University of Nevada department of military science and tactics.

The Diamond Ordnance Fuze Laboratories of Washington, D. C., has established the summer student program.

According to an army personnel news letter, the science and engineering training program is a long range project to help develop science and engineering students to professional stature. It is not intended to provide merely summer employment, but to provide laboratory training and experience in engineering and science for a select group of students who possess the qualities necessary for future successful performance in these professions.

Seventy participants took part in the first summer program in 1954. It has been expanded each year

until now over one hundred students are employed annually.

Salary range is from \$3,255 to \$3,755 a year, depending on the qualifications and results of a civil service examination. These examinations can be taken in both Reno and Las Vegas.

Because of these examinations and required employment security investigation, Captain Walter J. Ward of the military department has asked students to submit applications promptly.

Gamma Phi Song Team Practice Has Opened

Lyn Brown, chairman of the Gamma Phi Beta song team, recently announced that practice is under way.

Members who will participate in the Mackay Day contest are Lyn Brown, Joyce Casazza, Jacki Curti, Joan Laidlaw, Lora Leonard, Melinda Mackie, Jane Nevin and Nancy Sanders.

Campus Craze Hits... But Good!

A cross-country campus craze has hit the University of Nevada hard.

Bridge is the new fad and if the "bid-deal-bid" activities of the Jot Travis Student Union pool hall-coffee shop set are any indication, the game will be around for a while.

It replaces such previous social-group games as climbing the flagpole with a six-pack of beer, hurling "not-like-us" students into the murky waters of Manzanita Lake and racing jeeps over the pits and bumps of the University dirt track parking lot.

Chic phrases like "Physics, hell, Ike, we have a foursome," and "Hey, Zad, two more and we have a square for a game," have become a living part of the student's vocabulary.

Daily, groups of white bucks and flat-footware are huddled about the tables in the pool hall-coffee shop in a mad frenzy of shuffling. One card-playing student said, "This bridge is the greatest. I never study, seldom go to class, don't eat regularly, and never get to sleep before midnight."

One thing discouraging for the bridge-players is that not only does the book store have a few books but it doesn't sell cards.

Father's Night Big Tri-Delt Social Event

Groups of poker games topped off the evening at the Delta Delta Delta father's night last Wednesday evening.

At the suggestion of cards, the approximately 30 fathers attending began several poker games and graciously gave all their winnings to the sorority house.

Decorations and refreshments for the St. Patrick-themed event were taken care of by Patsy Lewis. Decorations consisted of leprechauns, shamrocks, and hats filled with flowers. Apple pie topped with a sweet buttered sauce and coffee were served.

A skit was put on by several of the young women. The lead part—Claudia Clod—was played by Nedra Norton. Janet Riddle read a welcome poem and Charlotte Sheldon entertained with a Scottish polka.

Group singing could be heard on sorority row as the evening came to an end.

Ever meet a pessimist?

He sees the world through dark glasses. He just knows that he'll wind up in a job he doesn't like, that he'll be underpaid, that he'll get lost in the crowd. But realistic men know these things depend largely on their own decision in choosing a career.

Realistic men look for companies that provide sound training, advancement opportunities, challenging work, stimulating associates and good pay. These are the fundamentals that insure success and progress in a career.

The Bell Telephone Companies offer these fundamentals to hard-working, ambitious realists majoring in the arts, the sciences, business or engineering. Get the whole story regarding telephone careers. Talk with the Bell interviewer when he visits your campus. Ask him about training, advancement opportunities, salary, job security. We think you'll like what you learn.

You can also get information about telephone careers by reading the Bell Telephone booklet on file in your Placement Office.

Phi Sigma Kappa Pledge Dance

Phi Sigma Kappa fraternity will hold its annual pledge dance at Lawton's tonight from 9 p.m. until midnight.

The Bob Stange Trio will play. The dance will be semi-formal.

Professor John Gottardi, an alumnus of Phi Sigma Kappa, will be a guest of the group.

Dr. Charles J. Armstrong Official Inauguration Ceremony in April

Dr. Charles J. Armstrong will be officially inaugurated as President of the University of Nevada April 18 and 19.

The ceremony will be climaxed Sunday with the administration of the presidential oath by Dr. Louis Lombardi, vice-chairman of the Board of Regents.

Inauguration of the tenth president of the University will be marked by traditional academic pageantry. An academic procession made up of visiting officials and the Nevada faculty will precede the inauguration.

Attending the ceremony will be 500 representatives of other universities and colleges. Other dignitaries expected to be on hand will include federal and state government officials, delegates from various societies, and prominent citizens.

A reception and a luncheon are also planned for the weekend. Dr. Armstrong assumed the duties of president last September. He was president of Pacific University of Forest Grove, Oregon before coming to Nevada.

His teaching and administrative career includes posts at Rollins College of Florida, Dartmouth, Brown University, and Whitman College, where he was vice president and dean of the faculty.

Dr. Alex Dandini, Marshal of the University, is planning the event.

Members of the University inaugural committee are John A. Bonnell, Ann Brewington, Dr. Robert Gorrell, Marie N. Haddad, Perry Hayden, Dr. Marilyn Horn, Dr. W. Keith Macy, Dr. Burton C. Newbry, Dr. Charles H. Seufferle, Dr. David B. Slemmons, Carl Horn and Alumni President Gene McKenna.

Biology Major Gets Scholarship

A graduate fellowship worth at least \$1800 has been awarded to Earnest Carl, a senior biology major. The value of the award may run into several thousand dollars.

Carl will begin graduate study at the University of California at Los Angeles in September on the fellowship given by the National Science Foundation. The foundation will give him \$1800 for his first year of study. If he meets the requirements of the foundation, he can renew the fellowship for as many years as he wishes. He will receive \$2000 each year that he renews it.

He will receive \$2200 in the final year that he makes use of the fellowship, according to Dr. Ira LaRivers, head of the department of biology.

Carl was given the award primarily on the basis of examinations given to those persons who applied for it. Ted Kerstetter, also a senior biology major, received honorable mention from the National Science Foundation.

The foundation will award approximately one thousand fellowships in science in the United States this year.

Graphic Arts Show At Jot Travis

Several prints representing types of graphic art are on display in the Student Union building. They are part of the Fourth National Exhibition of Graphics, presented by the Bay Printmakers Society of the Oakland, San Francisco Bay area.

The exhibition, now on a national tour, will be on the University of Nevada campus until March 25.

The main display is in art gallery No. 8, in the temporary buildings on the east side of the campus. It includes woodcuts, stonecuts, etchings and lithographs.

These graphic prints are usually made in a limited number of ten or twenty. This greatly reduces the cost of an original, making it available to more people.

"Art exhibits are rare in the state of Nevada, and this display presents an unusual opportunity to see what the contemporary artists are doing," said Professor J. C. Sheppard, chairman of the art department.

The pictures on display are for sale. Interested persons should contact Professor Sheppard.

New Officers Are Seated by Sorority

Installation of new officers was held recently by the Alpha Gamma chapter of Gamma Phi Beta.

Emmy Hanf was installed as the new president, Lora Lee Smith took over the positions of first vice president and pledge trainer, Joyce Gearing is handling the money situation as treasurer, Barbara Galeppi is the new recording secretary, Joan Drisdale will do the letter writing as corresponding secretary, Lynn Brown is the new standards representative, Nancy Damon is the house president, and Jane Nevin will be faced with the tedious job of rushing next fall as the new rush chairman.

Taus Win Track Meet Saturday

Alpha Tau Omega won Saturday's intramural track meet. Collecting 66 points in the 14 events, they easily outdistanced the second place Independents, who had 36 points.

Sigma Nu had 27 points to win third place. Far behind the rest of the pack, Lambda Chi, SAE, and Phi Sig finished fourth, fifth, and sixth respectively.

Chris Nenzel, independent sophomore, was responsible for half of his team's 36 points. Nenzel won three first places—the high jump, pole vault and discus. He also placed second in the shot put to give him a personal point total of 18.

Dick Strunk, freshman, led the ATO team with 15. Like Nenzel, Strunk won in three events—the 100-yard dash, 220, and the 440.

By winning, ATO received 100 points in the race for the Kinner trophy. Sigma Nu was given 40 points for their third place efforts. The point difference was more than enough to break the tie for first place that existed between the two before Saturday's track meet.

Pack Linksmen Gain Experience

Nevada's golf squad has competed in two matches and will participate in the Northern California Golf Association meet next week. The match will be held at Pasatiempo golf course at Santa Cruz.

Six men and Coach Gordy McEachron will make the trip for Nevada. The matches will be held March 26-28, Easter recess.

Last Friday, Nevada competed in a Far West Conference match at Davis, California. The Cal Aggies hosted the event and San Francisco State and Humboldt State college competed. Nevada defeated the Aggies 12½-2½ but lost to San Francisco State 8-7 and Humboldt 12½-2½.

Last Wednesday, Cal Aggies hosted another match. Chico and Sacramento State tied and defeated Nevada, in turn defeated the Aggies.

With a majority of underclassmen now competing, Nevada should have a top winning team in a year or two, said Coach Gordy.

Murray Gifford, Keith Latham, Dudley Nichols, Ron Johnson, Don Stoker and Paul Frietag make up the Wolf Pack squad.

THEY'RE OFF (PHYSICALLY) as the referee fires the gun to begin the events of the annual intramural track meet, won this year by Alpha Tau Omega fraternity. ATO gathered 66 points in the various events, far ahead of the Independents, who placed second with 36 points. The win also gave ATO 100 points toward the Kinner trophy. —Morris photo

Nevada Boxing Team Takes On San Jose in Last Matches Before NCAA

In its last match before the NCAA boxing tournament early in April, the Wolf Pack fistmen will meet San Jose State college on

the University of Nevada campus Monday night.

Last year, San Jose was the National AAU champion.

Bouts Monday night will probably prove to be the best yet this year, according to Jimmy Olivias, Nevada boxing coach.

Just prior to the Monday night matches, a new boxing ring will be dedicated. The ring, costing nearly \$3,000, was donated to the University by Raymond A. Smith.

The dedication will begin promptly at 8 p.m. Smith will be presented with a life membership in the Block N Society at the University. Don Kitts, president of the athletic group and a Nevada boxer, will make the presentation.

House lights will dim immediately after the dedication and the matches will start.

Nevada's Dick Short will meet San Jose's Ron Nichols in the 125-pound class.

An extremely close match should be observed between Don Kitts, a Nevada ace, and National AAU champ Nick Akana. Akana is a little more experienced but the fight could go either way.

Wolf Packer Joe Bliss will face PCL champ Dave Nelson in the 139-pound class. Bliss suffered a defeat last week at Pullman, Washington.

Bill Short will meet San Jose's 147-pounder Jack Avey on the mat.

Chub Quilici, up and coming Nevada favorite, will trade punches with Bill Maddux in the 156-pound class.

Tough Nevada Clark Reber will be out to win against Al Wee. Both men hit the scales very close to 165.

John Genasci will face one of two San Jose men. Either Jack Duignan or Garvin Kelly will fight for the California team.

Heavyweight Carl Looney will meet Archie Milton. Both men are experienced and the blows should be thick and fast.

"Didn't I tell you to watch when the soup boiled over?"
"I did. It was exactly 9:34."

Wolf Pack Goes To Chico Meet

University of Nevada speedsters will travel to Chico State college tomorrow to compete in the first Far Western Conference track meet of the season. The Wolf Pack will face Humboldt State college and Chico State college.

Twenty-two men will make the journey, according to coach Dick Dankworth.

Much improvement has been evidenced in the past several weeks. There have been many outstanding performances in practice sessions and in the recent intramural track meet.

Bob Ritchie, a key basketball man, broad jumped 23 feet. It's been a long time since Nevada has seen a jump like that. Ritchie also cruises the 220-yard dash in very respectable time.

Dick Strunk, frosh from Hawthorne, does consistently well in the 100, 220 and 440.

Veteran pole vaulter Dave Harris has vaulted over 13 feet in practice. Harris is also a strong threat in the high hurdles.

Letterman Dave Sharp is constantly paring down his time on the mile and two-mile runs. Aiming to crack several records this season, chances are good that he will.

Chris Nenzel has cleared 6 feet in the high jump, but that was when he was "resting."

Mike Lommori, a discus man, is heaving the saucer over 135 feet.

Other outstanding men traveling to Chico are Dick Toleno, Dick Dow, Marshall Coverston, Karl Tenk, Allen Nyquist, Morgan Jellett, Roger Hainline, Joe Eberle, Bob Schmeekle, Paul Hernandez, Bob Challenger, Bob Burns, Rod Cook, Tom Sheehan, Bill Lickley and Tom Cook.

Pack Horsehidiers Open '59 Season Here Tomorrow

The University of Nevada's baseball team is scheduled to play its first game of the 1959 season, a non-conference double-header with Chico State college here Saturday, March 21.

Chico, with six games behind them this season, split a double-header last Saturday with San Francisco State. Coach Jake Lawlor is expecting a tough go for his untested Wolf Pack squad.

Although Lawlor has not made his final cut he announced the tentative starting line-up as follows:

Catcher will be Bob Peck of Henderson, Nevada, or Jim Gardner of Reno, with either Tom Towle of Bakersfield, California, or Rusty D'Anna pitching. Other infield positions will be manned by Roy Kidder of Hawthorne at first base, Bob Shoemaker of Yuba City, California, at second base, Jim Whitaker of Ukiah will be at shortstop, and Val York of Fallon at third base.

Mike Thompson of Reno will play right field, Bob Snyder, also of Reno, will play in center field, and either Peck or Gardner in left field.

A final cut to 18 men will be made some time next week. Lawlor plans to uniform 15 of his best prospects for Saturday's clash.

He feels that he will field a stronger pitching staff than he had last year and that the batting averages will be higher. Last year Nevada tied for third place in the Far Western Conference.

SPORTS

NCAA DUCATS ARE MISSING FROM DR. ART BROTEN'S OFFICE

A section of bleacher tickets to the NCAA boxing tourney has been stolen, according to Dr. Art Broten, tournament director.

The tickets were taken from his office in the New Gym at the University of Nevada.

The tickets were for Section G in the bleachers.

Persons should beware of individuals selling Section G tickets. If anyone has already purchased these tickets, they should call Dr. Art Broten at FAirview 3-6323. The entire section will be re-marked and exchanges will be made.

Leprechauns Invade University on St. Patrick's Day; Even Lake Is Green!

There may still be those who fail to believe the existence of the "little people," but events at the University campus have changed the minds of more than one student the past week.

Leprechauns made their visit to the campus and apparently made their presence known to many.

Hatch Building Is Torn Down

The old Hatch building is gone. It was demolished Tuesday, reduced to a pile of rubble. The new two-million dollar Fine Arts Building will be built on the north side of New Gym where the Hatch building stood until this week.

It had been moved in 1925 from where the library is now. Carl M. Horn, superintendent of buildings and grounds, said one horse and three men moved the building with a windlass in three months.

"All he ever said to the horse was whoa and gid up, and the horse knew what he was doing. The man in charge was drunk all day but they moved it."

The Hatch experiment station was one of the first three buildings on the Reno campus. Originally the building contained class rooms, offices, and the school of mines as well as the agriculture experiment station.

The Nevada Agricultural Experiment Station was founded by Act of Congress of March 2, 1887. Federal funds have operated this station for the benefit of the citizens of Nevada.

Frosh-Soph Class Day Planned At Flindt's Ranch

At 4 p.m. this afternoon, the combined freshman and sophomore classes gathered at Flindt's barn, for class day activities. The barn is located southeast of Reno.

The two classes are providing activities, dancing, a spaghetti dinner and refreshments.

According to Margaret Eddleman, sophomore class president, the "activities" will continue for as long as there are persons present. Tickets cost \$1 and may be purchased at the door. Upperclassmen can participate and they are hoping for a large turnout by both underclassmen and juniors and seniors.

Class day was introduced this year. Classes are given a day on the social calendar when they may get together for some type of social event.

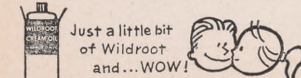

Joyce: "What do you call a man who tries to pick you up in a car?"
Jane: "How big is the car?"

Get WILDROOT CREAM-OIL Charlie!

J. PAUL SHEEDY,* hair expert, says: "Wildroot tames those cowlicks!"

*of 151 So. Harris Hill Rd., Williamsville, N.Y.

Most apparent of the actions of the elves was their painting of our own Lake Manzanita, which showed a brilliant fluorescent green on Tuesday morning, the day of the Patron Saint of all Ireland, and 'twas said the effect of the little people will be seen in the lake for many weeks.

The elves also invaded the Student Union snack bar and turned the ice cubes green. Students hope the little people did not use the same magic wand for both the lake and the ice cubes.

The leprechauns did not forget the dining hall, as they left a good supply of pistachio ice cream for its diners.

Evidence that gremlins really exist could also be seen by looking at any of the four sororities' front doors last Tuesday.

The little elves painted a green shamrock on each door sometime during the early hours of St. Patrick's Day. The consensus among the Greek gals was that they would have been more happy with their gifts from the little creatures if they would have been a little neater, and if they hadn't used enamel paint.

One of the women complained that "it wasn't even Kelly-green."

Five UN Professors To National Meeting

Five members of the University of Nevada's department of English will participate in a national conference on the teaching of English in colleges, to be held April 2, 3 and 4 at San Francisco's Sheraton-Palace hotel.

Those attending will be Dr. Robert Gorrell, Dr. Charlton G. Laird, Dr. Theodore Grieder, Dr. Hernando J. Woods, and Miss Dolores Baracano. Dr. Gorrell will speak on the use and limitations of entrance and achievement examinations in English before a group of the conferees. Dr. Laird is chairman of the panel discussion on advanced linguistics.

Some four thousand instructors of college English are expected to attend the three-day conclave, reported Dr. Gorrell. This meeting, the Conference on College Composition and Communication, is being sponsored by the National Council of Teachers of English.

Stephen Spender, an English poet, will talk at a conference luncheon on the topic, "Can You Teach Poetry?"
