

# ROTC Bombs Nevada Campus Today

Senior Men's senator Jon Madsen is scheduled to continue a long record of service to Nevada student government today—when he bombs the campus.

At a scheduled time of 11:45, a low-flying aircraft manned at the bombsite by Madsen and at the controls by a qualified pilot, will begin the first of three or four passes over campus.

Madsen will be releasing leaflets advertising the 33rd annual Military Ball, sponsored by the University of Nevada Cadet Officers club. The leaflets call the ball "spectacular," against a mushroom-cloud background.

Today's air raid is the first of a series of strategic bombing missions. Following the preliminary "softening-up" process, Madsen will make another trip next week, dropping free tickets to the ball.

Madsen, who has never had any experience in the bombardier business, will fly without a parachute,

disregarding any possibility of trouble.

"It gives me a unique feeling," he said.

Six Nevada coeds will vie for the title of "Military Ball Queen" at the annual Military Ball, scheduled for Nov. 18 at Mathisens.

The ball, sponsored by the University of Nevada Cadet Officers Club (UNCOC), is annually one of the top social events on the University calendar. It is 33 years old this year.

The girls were nominated by their sororities and dormitories. Cadet Major Jeff Cecchi is co-ordinating the election for UNCOC.

Candidates are Ellen Roseman, 18, of Sparks and Delta Delta Delta; Patsy Rodgers, 19, of Reno and Kappa Alpha Theta; Jean Tachaires, 19, of Lovelock and Pi Beta Phi; Jackie Chiatovich, 18, of Gabbs and Gamma Phi Beta; Robin Killinger, 19, of Las Vegas and the New Residence Hall; Pam Kitt, 19, of Orinda,

Calif., and Manzanita Hall.

Students in the basic and advance ROTC courses will elect the queen. Last year she was Judy Stratton of Reno and Delta Delta Delta.

High-ranking military, governmental and educational dignitaries are scheduled to attend the ball.

Col. Howard F. Haberman, sector commander, XV Corps; Col. M. C. Barnard, commander, Stead Air Force Base; Captain Robert Bayless, Professor of Military Science, Reno high school; Lt. Commander Everett Wigington, Reno Naval Reserve.

Maj. General Gilmore, commander, XV Corps; General La Grange, state Adjutant-General; Governor Grant Sawyer; Mayor Bud Baker of Reno; Dr. Charles J. Armstrong, president, University of Nevada; and Col. Ralph C. Lashley, deputy chief of staff, are all expected to attend.

The University cadre, headed by Lt. Col. Robert Gundlach, Professor of Military Science, will attend.

## Sacramento Bicyclists Beat Nevada Welcome

Six men from Sacramento State—two of them on bicycles—managed to find their way to Reno Friday, but a University of Nevada welcoming committee didn't know this area well enough to find the group when they were only a few miles out of town.

Despite the confusion, the Sac Staters were finally located after their long journey, made from California's capital to the Nevada campus to invite students to attend their Homecoming game last weekend.

The men arrived around 11 a.m. and reported a "good rtip with no weather problems."

Four of the men went slowly ahead of the two bicycles. They drove a black Impala Chevrolet. One of the bicycles broke down just before the men arrived on campus.

The Nevada student crew sent out to welcome the bicyclists came back to the campus after the visitors' arrival. The welcoming committee took them around to several of the living groups after a tour of the campus and coffee in the student union.

## Shaw Lecture Precedes Play

A preliminary lecture to introduce the first University Theatre production will be given Thursday, Nov. 9 by R. Terry Ellmore when he speaks on "Shaw and the Theater."

Ellmore's address at 8 p. m. in the fine arts theatre is an introduction to the George Bernard Shaw production, "The Apple Cart," scheduled for Nov. 16-18. Ellmore is directing the play which Shaw calls a "political extravaganza."

Ellmore's lecture is open to the public and free of charge.

Appearing in "The Apple Cart" will be Don Hackstaff, Brent Booser, Delmar Dolbier, Ronald Gold, Mary McChord, Gene Evans, Charles Preston, Michael N. Steinberg, Ray Embry, Robert Levine, Julie S. Johnson, Molly Tyree, Barbara Champlin, Sarah Pedersen, and Fred Stein.

## Coeds Hear Reno Fireman Following Match Alarms

After two coeds set off a fire alarm in the New Residence hall Sept. 30, plans were made to have an "educational session" on dormitory alarm systems.

Fireman Ronnie Hart will speak to residents of both women's dorms on fire prevention this week.

The two women, whose matches brought nearly the entire fire department to campus on an otherwise quiet Saturday afternoon, reportedly did not understand the alarm set-up.

Fireman Hart is speaking to the residents of Manzanita hall tonight, and Thursday night he will discuss fire prevention with New Dorm women.

He will demonstrate the use of fire extinguishers, the halls' fire alarm systems, and tell the women how to evacuate the dorms.

## Russ Bomb Blast Jolts Seismograph

The Russian-fired 50 megaton bomb had some impact on the University of Nevada—on the seismograph, at least. Erratic waves on the seismograph on October 30 correspond with the time of the explosion. The shock was felt in Reno for approximately twenty minutes.

James I. Gimlett, assistant professor of geology and geography, pointed out the difference on the seismograph's chart between the bomb and an earthquake.

## Brodhead Speaks On Lie Detector

Are you interested in the nature and operation of the lie detector?

All interested students and faculty members are invited to hear William Broadhead, assistant chief of the Reno Police department, speak on the "Nature and Psychological Aspects of the Polygraph" tomorrow night.

Chief Broadhead will give his lecture at 8 p.m. in the aducation auditorium tomorrow.

## Peace Corps Rep Here Next Week

In line with the University of Nevada being considered as a Peace Corps training center, a representative of the Corps will be on campus Thursday, Nov. 16.

Field representative Annie Gutierrez will be in the student union conference room from 9 a. m. to 4 p. m. and will answer questions concerning the Peace Corps. She is also to interview students interested in joining the Corps.

THREE OF THE SIX MEN who traveled to Reno Friday, two of them via bicycles, warm up in the student union while they visit with part of the Nevada "welcoming committee," Karen Parsons and Tim Sughrue (face half hidden). The Sacramento students arrived on campus at 11 a.m. to invite University students to attend their Homecoming game Saturday with the Wolf Pack at Sacramento. A small group of Nevada students accepted the invitation and saw the Hornets defeated by the Pack, 14-8. —Sagebrush photo.

A slight earthquake in California recently recorded on the seismograph for three hours. This time difference is the main point of differentiation between a natural occurrence and a bomb. The seismographic waves of the two were almost equal in proportion despite the great difference in distance.

The seismograph is maintained by Professor Gimlett. Now located in the Mackay Science hall, it will be moved to the new engineering building when it is completed.

Part of the equipment has been at the University since 1954 or longer. This "short-period" equipment is furnished by the University of California. "Long-period" equipment was received about a month ago. This is sponsored by the Lamont Geological Observatory, a part of Columbia University. Nevada researchers maintain the instruments and send back recorded data to Lamont.

The Lamont Observatory also provides for a graduate assistant to work with the seismograph.

Professor Gimlett commented that the seismograph is not necessarily sensitive. The Russian explosion could be easily picked up by a good barometer, since it was exploded in the atmosphere.

## John Birch Society?

The John Birch Society may be discussed tomorrow afternoon in the student union during an "Open Forum."

Dave Short, student union president, was not able to confirm either the forum or its subject, but said that if arrangements can be completed, the forum will be held on the anti-communist organization.

# The Hell of Nevada Sagebrush

Issued twice weekly on Tuesdays and Fridays during the school year by the Associated Students of the University of Nevada except holidays, and examination periods. Office: ASUN Bldg., 844 North Center. Phone: FA 9-3051.

## Editorial Comment A Cheerless Situation

“YELL, YOU GUYS?”  
“WHY?”

WITH FOUR WORDS, the campus feud between cheerleaders, song leaders, and yell-loving students on one side, vs. apathetic students on the other, can be crammed into a well-fitting nutshell. The plea is not new. It's heard at every football game, from leaders who haven't shown much in the line of leadership. It's heard in a whining tone calculated to alienate the thoughts of potential school spiriters. THE CHEERLEADERS TRY; likewise the song leaders, but they don't get much done. That's nothing new. Preparation for the year saw sparsely-attended practice sessions among the pep crews, and the school year has seen damn few. The big trouble is that the pep squads are not filled with good leaders. Lack of practice causes low proficiency, and a freezing crowd is not likely to respond to a haphazard leader. The leaders lack initiative. Any alumnus of the western Nevada high school system will find that many of the current pep-attempts are warmed over from the old days. THE STUDENTS AREN'T INFORMED. The yell-leaders lead yells that the crowd hears about seconds before. The song leaders lead songs, but no one knows the words, save them. On most occasions, the Nevada section looks sick alongside the opposing section. An improvement was evident in Sacramento, but there the leaders comprised a sizeable segment of the Nevada section. The problem is befuddled, and time isn't healing the wounds. Like a tired dog, the mess ought to be put to sleep. The ASUN should scrap the situation, outline a potent pep plan, and institute it.

REGARDING THE CURRENT MESS, an old journalistic maxim applies nicely: “When in doubt, leave it out.”

—DB

## Book Notes Changing Times

A widely used textbook by college economics students is “Economics, An Introductory Analysis”.

The author is Professor Paul A. Samuelson of the Massachusetts Institute of Technology.

Here are some extracts from successive editions.

First and second editions, 1948 and 1951: “If the price increases could be held down to, say, less than five percent per year, such a mild steady inflation need not cause too great concern”.

The third edition in 1955 says, “If price increases could be held down to, say, less than three percent per year, such a mild steady inflation need not cause too great concern”.

Fourth edition, 1958: “If price increases could be held down to, say, two percent per year, such a mild steady inflation would not cause too great concern”.

The last edition in 1961 says, “Price increases that could be held down below two percent per year are one thing, But . . .”

On the TV program, Meet the Press, in March 1961, the professor said, “If we could hold things down so that the official index of prices goes up by no more than one and a half or two percent, I shall be very content.”

## Pianists Present Recital Today

An informal recital by ten piano students will be presented this afternoon at 4 p. m. in the fine arts auditorium.

Both music majors and students taking piano courses as an elective through the music department will participate.

Included in the recital are June Seyfarth, Doris Howard, Robert Pond, Emily Fliger, Rena Evers, Roger Sorenson, Andree Walker, Betty Gibson, Patricia Jack, and Myrna Thomas.

There is no charge for the recital and all students are invited to attend.

## Paidea Club To Hold First Meeting Tomorrow

The new constitution of the Paidea club will be discussed by members of the executive council, on Wednesday, Nov. 8, at 7 p. m., in the Fine Arts building. Forthcoming lectures and concerts will be considered, according to president Jim Sawdon.

Paidea is a club interested in promoting culture through lectures, concerts, debates, and forums. It was founded last year.

The organization's constitution was approved by Senate Nov. 1, and Paidea club is now officially recognized by the ASUN.

## Sigma Nu Alums Plan Active Club

Sigma Nu alumni are discussing plans for an alumni committee called the Sigma Nu club.

Approximately one hundred alumni decided that the active chap-

ter needed more alumni support on campus. The purpose of the club will be to further aims of the active chapter. It will also serve to introduce past fraternity men to the public and the University.

The club will organize a social group for the alumni and plan annual dances and luncheon meetings during the year. This group will be completely separate from the alumni housing corporation.

Officers are Bill Buchanan, President; Doug Vancanovich, vice president; John Madariaga, secretary-treasurer, board of advisors include Carl Sham and Buddie Garfinkle.

“I hope that by presenting the same plan to alumni of sororities and fraternities they can build alumni clubs with the aim of giving greater support to active chapters on campus,” says Chris Lawton, alumni organizer.

## Save Scraps For Pages' Xmas Drive

A week-long drive for scraps of material is being kicked off today by Pages, sophomore women's service organization.

Boxes for collecting the scraps will be placed in the student union, women's dormitories, and in the sorority houses.

The scraps collected at the end of the week will be used to make stuffed animals for distribution to the children wards of hospitals at Christmas time.

Thirteen members of Pages will be in Redlands Nov. 10, 11, and 12 for a regional convention of Spurs, the national organization equivalent to Pages.

The local group of sophomore women is petitioning Spurs to become affiliated with the organization.

A national representative of Spurs will visit Pages on campus the last part of this month. She will rate the group on enthusiasm, willingness to serve, projects, and parliamentary procedure.

## Dr. Russell To Attend National PE Confab

Dr. Ruth Russell, professor of the women's PE department, will attend a national board meeting of the AAHPER. She will represent the southwest district at this meeting in Bloomington, Ill., Nov. 6-9.

Dr. Russell will report the activities of the southwest division.

## Bright futures in data transmission at W. E.

New engineers with initiative who can meet Western Electric's high standards are offered many exciting career opportunities with our company in data processing development work as it relates to communications.

For example, Western's engineers—working closely with Bell Telephone Laboratories—have solved development and manufacturing problems connected with the Bell System's new DATA-PHONE Data set (made by Western Electric). DATA-PHONE service lets business machines, such as computers, “speak” to each other in a language of numbers and symbols over existing telephone communication networks. This represents a tremendous boon to business; and consequently, it is estimated that some day there may be more machine talk than people talk using telephone lines.

Of course, data communications is only one of many rewarding career areas that await you at Western Electric. Here are just a few of the others: electronic switching . . . solid state electronic devices . . . microwave radio relay . . . computer-programmed production lines . . . solar cells . . . optical masers . . . futuristic telephones.

We need high-caliber, forward-thinking engineers now to help us transform these plans into realities or to work with us in scores of other key communications areas. Your future, the future of Western Electric, and the future of America's communications—could well depend on your first career connection.

Challenging opportunities exist now at Western Electric for electrical, mechanical, industrial, and chemical engineers, as well as physical science, liberal arts, and business majors. All qualified applicants will receive careful consideration for employment without regard to race, creed, color or national origin. For more information about Western Electric, write College Relations, Western Electric Company, Room 6106, 222 Broadway, New York 38, New York. And be sure to arrange for a Western Electric interview when our college representatives visit your campus.

Principal manufacturing locations at Chicago, Ill.; Kearny, N. J.; Baltimore, Md.; Indianapolis, Ind.; Allentown and Laureldale, Pa.; Winston-Salem, N. C.; Buffalo, N. Y.; North Andover, Mass.; Omaha, Neb.; Kansas City, Mo.; Columbus, Ohio; Oklahoma City, Okla.; Engineering Research Center, Princeton, N. J. Teletype Corporation, Skokie, Ill., and Little Rock, Ark. Also Western Electric distribution centers in 33 cities and installation headquarters in 16 cities. General headquarters: 195 Broadway, New York 7, N. Y.

## Letters to the Editor

### Trewhitt Again . . .

EDITOR, THE SAGEBRUSH:  
An open letter to Nannette Staples:

It seems you have missed the idea I was trying to put forth. So this time I will be a little more explicit and if you try real hard maybe you will see what I mean. In the first place I wasn't criticizing the cheerleaders as individuals for I imagine that they are doing the job to the best of their ability. But no matter how hard they may try, a girl will never get a predominantly male rooting section to accept her as a leader and therefore follow her in a yell. Call it what you may, the psychology of the American male, if you front him with a female boss he is going to rebel.

"All right," you say, "how do you get your dynamic males out to cheerleader tryouts?" You don't! You let the Associated Students elect them in a general election the same way you elect your ASUN President. By being an elected position, cheerleading would assume an elevation that it has never had before. It works, why not try it here?

You say I am "trying to destroy those few who attempt to promote school spirit." I say school spirit exists, but until you get someone who can organize it you will never see it in a mass at any game on this campus.

WAYNE TREWHITT

### Day on Homecoming

EDITOR: THE SAGEBRUSH:  
In last Friday's (Oct. 27) Sagebrush there was an article in the sports section entitled "Homecoming Mark Just So-So" which was about past homecoming football games.

I was distressed to note that the score of an overwhelming Nevada Homecoming Day victory not only had been omitted, but that according to the researcher had never even occurred on the Homecoming day of that year. Investigating further I found that several other mistakes had been made in the article and that a somewhat less than accurate impression was being given the unsuspecting reader.

The article says "In 1939, Nevada once again took the conference title but lost to Brigham Young, 7-0, in the homecoming game. The following year Nevada thrilled to the running of Wes Goodner, but the Wolves were still beaten in the homecoming contest."

Yes, the Wolf Pack did lose to Brigham Young, 7-0 in 1939, but Nevada most certainly DID NOT lose its Homecoming game in 1940! In fact the Silver and Blue scored the most overwhelming victory of any Homecoming game, for it defeated Arkansas A & M, 78-0!! The following Friday in the Sagebrush one of the sports writers had this to say about the one-sided affair. "What happens when a football team which plays for fun tangles with a team that plays to win was answered on Mackay Field Saturday when the University of Nevada gridders rolled over Arkansas A & M, 78-0."

The article says "Some will remember the second Homecoming game and the spectacular running of "Rabbit" Bradshaw, who climaxed his college career with a thrilling field-length run to lead Nevada to a 28-7 win over the University of Utah. Bradshaw went on . . . Nevada then developed a slump which lasted until 1930."

A slump starting in 1922? — not quite right. The Pack won their first FIVE Homecoming games, starting in 1920. In 1922 Nevada defeated Whitman 35-7, in 1923 the Wolf Pack played a spectacular game and managed to tie Santa Clara, 7-7, and in 1924 the Silver and Blue turned back Arizona, 23-14. How can three Home-

coming wins in a row be called a slump? Nevada did lose the next two homecoming contests in a row, but then in 1927 we tied Santa Clara again, 7-7.

According to reports at the time, the score of this game was undoubtedly one of the most unbelievable achievements made by any Nevada grid squad up to that time. The Nevadans simply out-fought and outplayed the Missionaries. The Sagebrush said, "Nevada made no substitutions at any time, thus disproving the theory advanced by the majority of sports-writers that the Wolves were 'not in condition.' The whole team worked as a unit and fierce tackling by the Nevadans wrecked the morale of the Santa Clara team." Jake Lawlor, playing at tackle, was one of the outstanding 'iron men' that day.

The following year Nevada lost to St. Mary's 22-0, but as was said at the time "the score was not an indication of the closeness of the struggle." Early in the fourth quarter the Gaels led by just 2-0, but then star Nevada center "Buck" Farnsworth broke his collar bone. With one of the bulwarks of the Pack line gone, St. Mary's found it easier to crack the line and scored three times before the final gun sounded. This Homecoming game was hardly indicative of a slump.

In 1929 the Silver and Blue went down to defeat before the Cal Aggies, 19-0 to end the so-called "slump."

The Homecoming researcher goes on to say "Nevada broke the jinx in 1930 (true enough) and again

in 1932." Wait a minute. What about 1931? The Pack won that year, too. The score was Nevada, 31, Fresno State, 13.

Speaking of the 1933 homecoming game, the "football historian" says "... Nevada downed the College of the Pacific, 7-0. But the next year started another string of losses." A string of losses? Not really, for Nevada won the 1936 homecoming game from the University of Idaho, 7-6. The Wolf Pack rallied in the last quarter to nip the Vandals. "The scoring play (according to the Sagebrush) was a pass from QB Johnny Ohrt to end Sam Basta, who lateralled to halfback Bill Gibbs, who took the ball on the Idaho thirty-yard line and went the rest of the way to score."

The Oct. 27 article says that Nevada was downed by Fresno State in 1941 and 1942. It just isn't so. We did lose to the Bulldogs, 6-3 in '41, but the Homecoming game in 1942 was played with the University of New Mexico and ended in a scoreless tie. Captain that year was Hugh Smithwick (now Head Coach at Portland State). It was also the last season the great negro halfback Marion Motley wore a Silver and Blue uniform.

The "football historian" seemed to have the rest of his facts straight but there was one typographical error that I'm sure wasn't his fault.

So I don't think our Homecoming football record is "just so-so," as that big headline said last week.

HARRY DAY

## Fight On Lands, Sea, and Air Too; Marines Are Recruiting Officers

Varied opportunities for officer commissions in the United States Marine corps will be outlined here today and tomorrow. Interested students may inquire from 9 a. m. to 3 p. m. in the Jot Travis Union.

Both aviation and line officer programs will be explained. Interviews will be conducted by Captain Jack Parchen, USMC.

Training for qualified freshmen, sophomores and juniors is conducted under the Platoon Leaders Class.

This leads to a commission and advanced training when the bachelor's degree has been earned. Commissions either as an aviation or a field officer may be earned.

No military classes or drills are required by the PLC or the PLC (AVN) program during the school year.

Training is conducted during the summer at two six-week instruc-

tion periods. Graduation from college is required before the candidate may be commissioned.

Also offered by the Marine Corps is the Officer Candidate course and the Aviation Officer Candidate course for senior students. College graduates may also apply for a commission under either the OCC or the AOCC programs.

Instruction is given at Quantico, Virginia. The flight training in its beginning stages is conducted at Pensacola, Florida.

## LV Starts Work On New Library

Construction has begun on the new library building at the Nevada Southern campus. The library was made possible by a legislative appropriation of \$682,500.

It is the sixth new building to be constructed on the Las Vegas campus. Completion date for the structure has been set for next summer.

Groundbreaking ceremonies were held recently. Attending were state officials, members of the Board of Regents, faculty, architects, and contractors.

The library is designed to seat four hundred students and house some one hundred thousand volumes.

Apology is only egotism wrong side out—Emerson.

## Cornell Has Advanced Bus. Admin. Courses

The graduate school of Business and Public Administration at Cornell university is offering a doctoral program in Business and Public Administration for 1962 and 1963.

For catalogs, admission forms, fellowship and assistant applications, write directly to the Director of the Doctoral Program, Graduate School of Business and Public Administration Cornell University, Ithaca, New York.

**It's what's up front that counts**

**FILTER-BLEND** is yours in Winston and only Winston.

Up front you get rich golden tobaccos specially selected and specially processed for filter smoking. Smoke Winston.

**WINSTON TASTES GOOD like a cigarette should!**

# Everything Is 90%

By RICHARD MORRIS

A rather disturbing number of inquisitive people have been asking about my cats. I really don't want to talk about these two creatures, and since I don't particularly give a damn what the reader wants to see, I will shortly pass on to other subjects, after mentioning that my pets have become a threat to my supply of brew since the one that I call Quasimodo learned to open beer cans.

This time, I would like to present a short glossary of political terms. Since, as a result of this, the John Birch society, the FBI, and the DAR will surely inquire into my beliefs, I will make life easy for them by stating that I am an anarchist. This is a natural consequence of the fact that I am against everything but sex, and of my contention that everything is 90 per cent crud.

Now for the glossary:

**Capitalist**—Persons falling into this classification are usually anti-communist. By an odd coincidence, capitalists would lose money under a communist system.

**China**—According to Chiang Kai Shek, China consists of one or two rather insignificant islands.

**Communism**—A beautiful system under which the state will eventually wither away. Withering means placing more and more restrictions upon the life of the individual.

**Communist**—One of the bad guys.

**Communitic**—Un-American.

**Cuba**—A nation which we do not tolerate. Unfortunately, it is still there.

**Democracy**—A type of government which has never existed.

**Fallout**—There are essentially two types. American fallout never did anything more than raise radiation levels by an insignificant amount. Russian fallout, on the other hand, causes bone cancer, mutatinos, and measles.

**Fallout shelter**—The latest design in coffins.

**H-Bomb**—The most effective device yet invented for liberating people from the evils of the opposing system.

**House Un-American Activities Committee**—A body which protects our liberties by infringing upon those of the persons whom it subpoenas.

**Intellectual nut**—One who is against communism because it tends to be totalitarian. One should be against communism because it is communism.

**Liberal**—One who believes that the welfare of the people is directly proportional to the amount of their money that is squandered, and to the degree of government interference in their lives.

**Liberty**—No one knows what it is, but everyone is for it.

**Pacifist**—One who, when threatened by a rattlesnake, protects himself by unloading his gun.

**Patriot**—One who opposes anything that is un-American.

**Propaganda**—What they say.

**Republic**—A government which offers great opportunities for financial gain through corruption. This is a distinct advantage because everyone is too busy making money to place too many restrictions upon the behavior, beliefs, and thoughts of the people. It is not to be confused with Plato's Republic, which would be a police state governed by those who had proved themselves fools.

**Truth**—What we say.

**Un-American**—Anything that you don't like.

## CAMPUS CALENDAR

Call FA 9-3051 for items in calendar.

### Tuesday, Nov. 7:

- Stereo concert, dining commons, 3 p.m.
- Piano recital, fine arts auditorium, 4 p.m.
- Chess club, dining commons, 7:30 p.m.
- Marine Corps program, student union, 9 a. m. to 3 p. m.

### Wednesday, Nov. 8:

- Stereo concert, dining commons, 3 p.m.
- Marine Corps program, student union, 9 a. m. to 3 p. m.
- Paidea club, fine arts, 7 p.m.
- Newman club, Newman hall, 829 N. Virginia, 7:30 p.m.
- Chief Wm. Broadhead, "Psychology and the Polygraph," education auditorium, 8 p.m.
- Ski club meeting, room 215, Mackay science hall, 8 p.m.
- Elections and movie.

### Thursday, Nov. 9:

- English club meeting, room 204, humanities building, 11 a.m.
- Christian Science, Sierra room of student union, 3:30 p.m.
- Finance control board, student union conference room, 4 p.m.
- "Shaw and the Theater," R. Terry Ellmore, fine arts theatre, 8 p. m.
- "Advanced Topics," Dr. R. H. Bing, room 126, aggie building, 4:15 p. m.
- "Geometry," Dr. R. H. Bing, room 215, Mackay science hall, 7:30 p. m.

### Friday, Nov. 10:

- Lecture, "Marriage," Keg Room, The Stein, 8:30 p.m.

### Saturday, Nov. 11:

- Wolf Pack meets Humboldt State there, 8 p.m.

### Sunday, Nov. 12:

- TUB movie, "Butterfield 8," education auditotrium, 7 p.m.
- KOLO-TV, University of Nevada marching band from Los Angeles Coliseum, half-time performance of the Los Angeles Rams-San Francisco 49ers game, 1:30 p.m.

## University Strings Perform Tonight

The University Strings will present a program this evening, Nov. 7, at 8:15 in the fine arts theater. The program will be directed by Professor Harold Goddard.

The group is made up of the string section of the University-Community Symphony Orchestra.

The program will open with the "Suite for String Orchestra" by Purcell. The University Youth Symphony strings section will play three numbers for string orchestra. This group is under the direction of Nathan Workmon, assistant director of the string project.

Next, the "Concerto for Four Violins and Piano" by Vivaldi will be performed by Jack Beck, Kathy Tombs, James Hildinger, Jean Wells, and Betty Gibson. The program will close with the "Holberg Suite, Opus 40" by Grieg.

This concert is open to the public without charge.

Many can argue; not many converse—Alcott.

## Math Students To Hear Guest Professor-Lecturer

Dr. P. H. Bing, professor of mathematics at the University of Wisconsin, will lecture on campus Thursday and Friday.

Arrangements are being made by the department of mathematics and Pi Mu Epsilon, honorary mathematics fraternity.

The lecture schedule is as follows: Thursday, Nov. 9, 4:15 p. m., room 126 Agriculture building, "Advanced Topics;" Thursday, Nov. 9, 7:30 p. m., room 215 Mackey Science Hall, "Geometry."

Friday, Nov. 10, 11 a. m., room 126, Agriculture building, "Advanced Topics;" and Friday, Nov. 10, 4:15 p. m., room 126, Agriculture building, "The Inventive Side of Mathematics." The lectures are open to all interested persons.

Dr. Bing is on a lecture tour for the Mathematical Association of America.

His lectures will be of interest to secondary teachers as well as

mathematicians. Dr. Bing has had experience teaching in secondary schools and holds an M. Ed as well as a Ph. D.

## Massive New Safe Moved Into Union

Bookstore director Cris Cufflin faced a weighty problem Thursday afternoon.

The bookstore's new Mosler safe arrived at the front door of the Student Union. The problem was how best to move the two-thousand-pound safe into the union and leave the floor intact.

Cufflin, with the aid of the deliverymen, succeeded in getting the safe into the bookstore by rolling the safe on pipes across heavy metal plates.

Now in position, the safe will be used for safekeeping of bookstore papers and funds.

# Wolf Pack Spoils Hornet Homecoming

## Coed Watches 'Popcorn Pack' Puffer Past Hornets

By THE 'COED'

Saturday the Sacramento State Hornets discovered what it is like to be hit by a Nevada flyswatter when we defeated them, 14-8.

The game was full of thrills and chills for over 6,500 spectators at Hughes Stadium as every minute that the football team was not in action the Nevada cheerleaders and songleaders entered the gap and led the Nevada rooters in appropriate and stimulating cheers geared to enthruse our men in blue.

The Hornets started the game with a loud buzz after the Wolf Pack gave up a safety in the first minute of play, and four plays after the opening kickoff the green and gold had two points.

In the second quarter the big men in blue really got into high gear and Gary Busch picked up an SSC fumble on their 13-yard line. Bob Herron, a halfback, carried the pigskin down to the two-yard line, and Renwick skipped over the line, made the kick over the poles and stacked up the points to make the score 7-2 in our favor.

Shortly thereafter we clipped our opponents and suffered the penalty, which put us on our 43-yard line, but Whitaker got the ball and went for twenty yards. Unfortun-

ately we got penalized again for an offside which put us on our 49.

Then Renwick got a screen pass through to Calvin Campbell, who ran like the wind was a blood relative of his and tore down the field, a picture of poetry in motion when he was stopped on the 11-yard line. Jock Echave fought his way over the line in the face of the massive muscle of the Hornets, and Renwick added one more poine to make the score 14-2.

Halftime activities ran for about forty minutes and were not particularly stimulating except for the parade of floats, one of which pictured a victorious Hornet standing over a defeated Nevedan. The symbol used for Nevada was a broken bottle of bourbon.

At the conclusion of the planned activities the teams ran back out on the field and our men really looked good, rested and refreshed and full of pep, credit for which undoubtedly goes to Trachok's Locker Room pep talk. The opposition, on the other hand, ran out and did warm up exercises to flex their muscles and I think to impress the alums and give their team a pschological advantage over us.

Maybe their psychology worked, for the Hornets picked up six points, before we rallied and played

a fine defensive game for the rest of the time left on the clock. The Hornets failed to score again and so did we, and the game ended with a score of 14-8.

The game was a very exciting one, the more so because a fight almost broke out among the players. Nevada players really did a very fine job and our coach led them to an outstanding victory, especially in view of the fact that SSC was favored to win. Incidentally, they had rushing 103 yards, passing 123 yards, and we had passing 77, and rushing 68 yards.

## Herron, Renwick Lead Pack Stats

Bobby Herron, Jack Renwick and Jim Whitaker continue to hold the leads in individual football statistics for the University of Nevada after seven games.

Herron, a sophomore halfback, is the Wolf Pack's leading ground gainer. Herron has rushed for 316 yards in 71 carries for a 4.8 per carry average.

Sophomore quarterback Renwick has completed thirty passes in 77 attempts for 464 yards and four touchdowns to pace the Nevada passing corps. Bob Alfred has 13 competitions in 27 tosses for 129 yards.

Whitaker, a senior end from Ukiah, Calif., leads the Nevada pass receivers with 14 receptions for 200 yards and one touchdown. Halfback Gary Sullivan, out for the season with a shoulder injury, has caught six passes for 120 yards and two teedees.

Calvin Campbell and fullback Jock Echave follow Herron in rushing statistics. Campbell has gained 180 yards in 49 carries and Echave has packed 52 times for 143 yards.

## Dump First-Place Sacramento, 14-8

The University of Nevada football team is looking forward to its final Far Western Conference game of the season against Humboldt State this Friday following a 14-8 victory over Sacramento State Saturday.

The Wolf Pack wind up FWC obligations against the league-leading Lumberjacks (3-1) Saturday at Arcata, Calif.

The victory over the Hornets boosted the Nevada record to 4-3 for the season and evened the Wolf Pack's conference mark at 2-2.

The loss dropped home-standing Sacramento State out of first place in the conference and put a damper on the Hornet Homecoming festivities.

Nevada turned two second quarter Sacramento State fumbles into touchdowns.

Defensive end Gary Busch recovered a fumble on the Hornet 13 to set up the first touchdown. Quarterback Jack Renwick carried the ball over from the three for the score after halfback Bobby Herron picked up the first down.

Fullback Jock Echave bowled over for the second Nevada touchdown after a Renwick to Calvin Campbell screen pass for 38 yards put the Wolf Pack in deep scoring position. Campbell recovered a fumble on the Sacramento 48 to give the Silver and Blue possession.

The Hornets tok an early lead in the first quarter when Bob Alfred's put was blocked and rolled back into the end zone for a safety to give Sacramento a 2-0 lead.

Sacramento State picked up a touchdown early in the fourth quarter to make it 14-8 to end the scoring.

Wolf Pack coach Dick Trachok lauded a host of players for top performances including, Max Culp, Dick Pinion, Bill Daniel, Jim Whitaker, Campbell, Larry Moss, Stu Schraeder, Eugene Duck, Tony Klenakis, Jim Bronson, Frank Nenzel, Renwick and Echave.

## Ski Club Meets For Vote, Film

The Ski club will hold its first meeting of the year tomorrow, announces Glen Bates, club president.

It will be held at 8 p. m. in room 215, Mackay science hall. New officers will be elected and a ski film is to be shown.

Bates says he hopes that this year more people will be active in the club, which usually has close to 100 members. Anyone interested in skiing may join. Dues are two dollars for new members and one dollar for old members. Three of four meetings are held yearly.

Two or three parties are held each year and the club sponsors a couple of days of fun-races, according to Bates. It is hoped that a trip to Mammoth Mountain (about 150 miles south of Reno between Bishop and Bridgeport, Calif.) can be made during the semester break.

Glen points out that the club is responsible for the special rates University students receive at Sky Tavern. Special rates for lessons are also usually arranged for club members.

In addition to Bates, other club officers are Don Dalton, vice-president and Marilyn Peterson, secretary-treasurer.

The best way out of a difficulty is through it.

## Women PE Teachers Attend Conclave

Four University physical education teachers will attend the Western Society for Physical Education of College Women's conference.

Dr. Jan Felshin, Miss Edrie Ferdun, Miss Wilma Moore, and Dr. Ruth Russell will attend the meeting. It will be held November 9 to 11 at Asilmar, Calif., where Nevada instructors will meet with representatives from nine western states and western Canada.

Dr. Felshin will be a member of the executive committee and chairman of the proceedings committee.

Although Miss Iona Mowrer is unable to attend the conference, she has arranged the program for special interest groups. Miss Mowrer is also a PE instructor at the University.

## PICTURES AT AN EXHIBITION

### MUSSORGSKY — RAVEL

"Pictures at an Exhibition" was conceived in the mind of Modeste Moussorgsky when he attended a memorial exhibition of the works of Victor Hartman, Russian intellectual, painter, and architect, who died late in 1873.

He thought that a piano suite would be a fitting memorial to the painter. After "Pictures at an Exhibition" had left the formative stage and ideas were feverishly being transferred to paper Moussorgsky excitedly wrote his writer-friend Vladimir Stassov, "Hartman is boiling . . . the sounds and the ideas hung in the air, and now I am gulping . . . I can hardly manage to scribble it down on paper . . . how well it works out!"

The music, although completed a year later, was not published until 1886, five years after Moussorgsky's death. After the first few performances of "Pictures at an Exhibition" the critics consensus was that the tenor of the music demanded orchestration. Many transcriptions were made, but the one written by Maurice Ravel in 1923 has been the arrangement most predominately used.

The "Promenade" theme links together the ten sections or "pictures" of Moussorgsky's composition. "Here is the order of the sections, along with brief descriptions of the Hartmann paintings that inspired them:

**Promenade**—Confident and assertive.

**Gnomus**—A grotesque dwarf shaped like a nutcracker drags himself along on his twisted legs and utters weird shrieks. Promenade—Meditative now, leading to . . .)

**The Old Castle**—A minstrel serenades his fair lady in front of an old castle. (Promenade—Bold at first, then subsiding to. . .)

**Tuileries**—Children playing and quarreling in an alley in the famous French gardens.

**Bydlo**—A Polish oxcart lumbers past on its huge wheels. (Promenade—Meditative again, leading to. . .)

**Ballet of Unhatched Chicks**—Canary chicks enclosed in eggshells as in suits of armor (a Hartmann design for a ballet.)

**Two Polish Jews, One Rich, the Other Poor** — Two contrasting types brilliantly characterized.

**Limoges**—The market-place at Limoges, with women chattering and haggling.

**The Catacombs**—The ancient burial vaults, their mystery and their dark associations with death. At the end of the Promenade theme returns shrouded in melancholy but it resolves in the major.

**The Hut on Fowl's Legs**—A design for a clock, in the form of the hut of Baba Yaga, the witch of Russian folklore; Moussorgsky has added Baba Yaga herself, flying along in a pestle, propelling herself by a mortar.

**The Great Gate at Kiev**—A design for a massive set of gates for the city of Kiev, with a cupola shaped like a Slavic helmet. At the end of the piece, the Promenade theme rings out grandly in triumphant fashion."

"The Spanish Guitars of Laurindo Almeida" will be the second selection on Concert in Stereo. Here with the technique of triple and double taping — Almeida plays all parts—we hear a new approach to classical guitar.

In eleven selections Almeida proves his artistic versatility by playing everything from one of Chopin's Mazurkas to Debussy's Clair de lune. Also included is one of Almeida's compositions.

## Nevada And Cal Work On Fossils

More evidence has been found to prove Nevada was once humid. Fossils have been found in the Chalk Hill area near Virginia City containing new plants species. The University of California has sent fossils to the biology department for comparison.

The fossils collected at Chalk Hill contain plants which have not been previously described. Comparison is being made with specimens found near Verdi and central Nevada at Eastgate and Middlegate.

The fossils contain mostly flowering plants. Other plant fossils found contain evidence of oaks, elm, maple, birch, and willow. These eastern plants are now extinct in Nevada. A rough estimate by the biology department places these plants to be 10 million years old.

These fossils have more proof that Nevada, Utah, and most of the west was once humid and forested. It is thought that this was previous to the last uplifting of the Sierras. After the mountains reached their present height, moist air gradually stopped flowing into this area.

## Prof's Wife Heads Educational Setup

Plans formulated by Mrs. Robert Clute, wife of an assistant professor of political science, are being carried out in the design of a curriculum library for the College of Education.

While studying for her master's degree, Mrs. Clute investigated the curriculum needs for the education college. Her findings are being used in a section of the Getchell library for materials needed for education majors. Materials include storybooks, reference books, pamphlets, and nation-wide publications, and there will be a seminar room for discussing these materials critically.

The area set aside is at the east end of the second floor of the new library. It will be under the general supervision of Marlene Butorac, children's literature teacher.

Many of the children's books donated by Kenneth L. Ball will be in that section.

## Board Of Regents Outline Foreign Students' Program

Plans to broaden the scope of an international student exchange program at the University of Nevada has been adopted by the board of regents.

Recommendations for expansion of the program were presented by Dr. Fred Anderson, regent and chairman of the International Student Committee. As approved by the board, professional advice in developing the program will be sought by the University through membership in the National Association of Foreign Student Advisors and by consultation with major universities that have long-established programs.

The plans, developed by a committee of regents, faculty, and students, seek to broaden and enrich the understanding of Nevada students for the traditions and culture of the world's peoples and, "to fulfill the University's obligation of assistance to the nation in its efforts towards world peace."

With the underlying thought that one of the most powerful forces for peace and understanding in our time has been the mutual exchange of students between nations, plans call for a concentrated effort to develop an effective program.

Affiliation of the University with federal agencies trained in the screening of applicants will be sought to ease the problem of admission requirements. Admission proposals also contain such requirements as above-average scholastic ability, fluency in English, and financial responsibility.

The regents also approved the establishment of a part-time Inter-

national Student Advisor next year to administer the program. Housing for international students, financial aid through scholarships, fellowships, loan funds, tuition waivers, and graduate assistantships, and the possibility of the University joining exchange programs under the Fulbright-Hays Act, will be explored. Other recommendations made by the committee and adopted by the board include special classes for improving English ability of international students, registration assistance, and social activities on and off campus.

There are currently 28 students from 13 countries attending the University of Nevada at Reno.

## Seven Senior Men Win Scholarships

Knights Templar educational foundation, Nevada division, has approved seven scholarships to be given this year to deserving University of Nevada senior men, according to Harold Gorman, division chairman.

The scholarships, which are given to help senior male students finish their education, are based on scholastic ability and need.

Five of the students will receive scholarships of \$500 and two will get \$300. Those receiving the \$500 grants are Larry Coffman, Timothy Cramer, Frank Fahrenkopf, David Quinn, all of Reno, and Wallace Gardner of Las Vegas. Larry Smith of Medford, Ore., and William Stratton of Alturas, Calif., will be given the \$300 awards.

## Nevada Profs Are In National Conference

Two Nevada professors from the College of Education will participate in a national conference this month. Dr. R. DeVerl Willey, and Dr. E. H. Richardson will attend. The Conference on the Education of Exceptional Children will be held in Seattle, Nov. 13-16.

Dr. Willey will act as director of a panel on "The Curriculum for Exceptional Children," and Dr. Richardson will speak on "The Integration of the Exceptional Child into the Regular Classroom."
