NEVADA'S ANSWER TO KHRUSHCHEV

Heat On, Fight Off In Snow Warfare

Police had to be called out to stop a snowball fight that involved some three hundred University of Nevada men Monday night, Nov. 20.

According to Bill Adams, assistant director of student services, the approximate damage will be \$180.

Adams stated that six Lincoln Hall windows were broken, and the front door was sprung.

Artemisia hall reported two broken windows and a broken floodlight. Sigma Alpha Epsilon fraternity also reported damage from the same fight.

The snow throwing apparently started when the Sigma Nus took on Sigma Alpha Epsilon at the latter's house.

Reports indicate the two fraternities then decided to challenge the men of Lincoln and Artemisia halls. The Greek army was defeated because of lack of numbers.

The Independents had about 75 men to the Greek's 25, eyewitnesses reported.

At 7:15 that evening, it was reported, about two hundred fraternity men gathered on the campus.

The Greeks then marched to the different halls and started their own snow storm.

Mrs. Ida G. Davies, house director of Artemisia hall, said the Independents were afraid to leave the building because they were so badly outnumbered. It was at this time the windows were broken.

The Greeks tried to get their shots inside the rooms, and in the process broke eight windows.

Adams stated that about thirty men stormed the Lincoln hall front door at one point in the fray. The janitor said that so much mud was tracked in that he needed extra help to clean it up.

Sigma Nu John Davies said that when the Independents would not come out, they were challenged to a snowball fight at Mackay field.

When no Independents showed up at the field, the Greeks went back to their house for their weekly meetings.

Groups of Independents then started bombing the SAE house with snowballs. They broke one window in the process.

Alpha Tau Omega fraternity men then came to the SAE's rescue and

(Continued on Page 5)

Men Pose Problem In Women's Dorms

Two men were caught running up and down the halls of one of the women's dorms recently.

Their presence was not authorized.

Such action is against dormitory and University rules.

The two men were put on disciplinary probation, following a recommendation by the Student Judicial Council.

"But from here on out," said Dean of Student Affairs Sam Basta, "such action will be cause for suspension."

"It should be emphasized that male students are not allowed in the corridors of women's residence halls," he said.

For a legitimate reason, a male may go into the corridors with permission from the housemother.

'St. Nicolas' Joins Annual 'Messiah'

Something new has been added to this year's presentation of Handel's "Messiah." The "Messiah" has been shortened so that the program may include a lighter oratorio by Benjamin Britten, titled "St. Nicolas."

The program will be held on Sunday, Dec. 10, at 8:15 p. m. in the University gymnasium. The featured soloists will be Mary Clarke, soprano; Shelby Squier, alto; Albert Fallows, tenor, and William Carr, baritone.

They will be backed by about one hundred voices of the University choir and the University-Community Symphonic orchestra.

The entire program will be directed by Dr. Keith Macy, head of the Music department, with the assistance of Harold Goddard, assistant professor of music.

The "Messiah" is an oratorio written by George Frederick Handel in 1741. "St. Nicolas," also an oratorio, was written in 1948 by Benjamin Britten.

But the difference is not only in age. The "Messiah" is a heavy work in a classical mood. "St. Nicolas" is a light, contemporary piece based on the less serious aspects of Christmas.

Big Book Switch Set During Break

Moving library facilities into the new Noble H. Getchell library has been definitely scheduled for the Christmas holidays.

David W. Heron, director of libraries, said library service will be discontinued for a two-week period to make the move possible.

After consideration of last year's circulation and attendance

records, the holiday period was picked.

Originally the possibility of making the move at the end of the present semester had also been considered. But library records showed that use of the library was greater during this period than during the holiday.

To lessen the inconvenience caused by closing the library, material may be checked out by students for the two-week period. This will include some items which are not normally loaned by the library.

Some bound journals will be available for loan Dec. 15, the day before the library closes.

Books and journals loaned to students will have to be returned Jan. 4 when the new library will open. Later returns made by students will draw the regular fine schedule used by the library.

Members of the library staff and the buildings and grounds personnel will begin the moving process Dec. 16.

The Office of Student Employment and Financial Aids will hire the necessary student help.

Heron said he and his staff were aware of the inconvenience to students and faculty involved in moving into the new library.

Other University needs must be considered in getting moved into the new library, Heron said.

After the Clark library has been vacated, it will be possible for work to begin on remodeling the building for office space, he added.

Poli Sci Profs May Reach TV

University of Nevada professors may appear on television next year to argue world affairs.

Statewide Services and the Agriculture Extension Service are planning the discussions which will center around topics chosen from the Great Decisions program if the series reaches the air.

History and political science professors may talk on Red China, Nigeria, Berlin, and the United States' foreign policy.

Dr. Russell R. Elliott, chairman of the history and political science department says his department will be happy to participate.

Dr. Elliott is waiting for arrangements to be made with University President Charles J. Armstrong and KOLO-TV.

Local television station spokesmen say they are willing to put on such a series of programs as soon as space is found for them.

The programs would consist of a half hour of film on the Great Decisions program and a half hour of discussion.

A time space is not likely to be open until the first of January due to a heavy load of network sports, according to KOLO-TV.

Dr. C. O. Robinson of Statewide Services cautioned that the programs are only in the planning stage. He added that the "big push" is likely to begin in January.

The programs will not be debates, but discussions. Dr. Robinson says they would be interesting because professors do not usually agree with each other on world affairs.

A series of 15 - minute radio broadcasts is also being discussed with KOLO radio.

Dr. Robinson says these would probably be one professor a week discussing his particular academic subject.

Paychecks Dec. 29

University paychecks will not be ready before vacation, the business office announced today.

This has been the policy before, but there has been a change in the payroll procedure.

The checks will be ready on Dec. 29.

Quinn Leaves For Boston

David Quinn, president of the Inter-Fraternity Council, will soon be off to Boston for the annual national IFC convention. He will be accompanied by Dean Jerry E. Wulk, advisor to the IFC.

In its 53-year history, Quinn is the second Nevada delegate to attend the National Inter-Fraternity Council convention.

For the first time Nevada will submit an IFC report for competition. This report shows the progress of the fraternity system on the Nevada campus.

Fraternity systems from all over the United States will be represented. They will discuss the problems of the fraternity system and evaluate its good points.

Quinn and Wulk will leave Nov. 29 and expect to return Dec. 3.

BEWARE OF GREEKS BEARING GIFTS, of snow, in this case. Above is the second phase of Monday's Greek-Independent snowball fight which was fought in various locations in the University area. The war set battle tactics back 10 years, and

ended in broken windows for the men's dormitories and the SAE house. Two detachments of Reno police were required to end the battle.

Editorial Comment

EDITOR'S THOUGHTS yesterday reflect what happened on campus this weekend . . .

NUTHIN!

Campus Work Creates Jobs

Many men have been employed as a result of the tremendous growth of the University of Nevada.

During the past decade, the population of the state of Nevada has increased 78 per cent while the University's enrollment has increased 131.5 per cent.

Because of the need for more student housing and additional classrooms, the University has more than doubled its physical plant facilities during the period from 1950-1960.

It is expected to more than double these facilities again during the next ten years.

Since 1957, \$11 million has been spent for the construction of new buildings.

On the average, 47 men have been employed on a daily basis during this period. Between 67 and 122 men have been employed daily last year and so far this year.

The University's expansion has been a great boost to the economy of Reno during the past decade.

The University is now the third largest physical plant facility in the state, superseded only by Basic Management, Inc., at Henderson, and Kennecott Copper in the Ely area.

Invite Plant Experts

Three plant science specialists at the University of Nevada have been invited to present research papers at the fourth annual meeting of the Weed Society of America, Dec. 11-14, in St. Louis, according to Dr. Ray E. Ely, associate director, Agricultural Experiment Station.

Dr. H. P. Cords, agronomist, will present a paper on "Chemical Control of Saltcedar." The research was conducted on plots near Lovelock. Silvex was the most effective chemical applied at three different stages of growth. The application made at the full leaf stage appeared to give the best kill.

Dr. Richard E. Eckert, and Dr. Raymond A. Evans, agronomists, with the Agricultural Research Service, U.S.D.A., and stationed at the University, are co-authors of a research paper to be presented by Evans. The title of the paper is "Response of Downy Brome and Crested Wheatgrass to Nitrogen and Phosphorus in Nutrient Solution."

The paper is based on research to determine means of establishing and maintaining stands of desirable plants on Nevada ranges.

WAC Recruiter On Campus Now

The Army invades the Dean of Women's office today.

Any women interested in officers commissions in the Woman's Army Corps can see Major Katherine L. Sutherland today at her headquarters in Dean Mobley's office, room 104, Ross Hall.

Major Sutherland is representing the Sixth U. S. Army headquarters in Presidio.

To receive a commission as a second or first lieutenant, a woman must have a college degree, be between 20 and 32, and meet the Army's mental, physical and moral standards.

Then two years of active duty await them on commissioning.

Eligible college juniors can learn more about the WACs by attending a summer orientation course at Fort McClellan, Ala.

Staffers Plot To Evict Artemisians

The free press fomenters tonight in the dreary confines of the old Student Union.

Editor Toddene "Ironhand" Watkins has called a special staff meeting. Avowed purpose is to push the press to a supreme position on campus.

Up for discussion is a proposal to infiltrate the Artemisia, a colored picture-book produced spasmodically over the years. Apparently, Brush staff members plan on evicting yearbook staffers from their quarters in the Old Student Union.

A talk is planned on the "Evils of Drinking" following the business meeting. A social hour is then planned at a Virginia street rehabilitation center to conclude the evening.

Artemisia Refunds

Married students will no longer be stuck with two copies of the Artemisia. This problem will be solved by a resolution passed by the finance control board Nov. 9.

The resolution provides that any married couple may receive two Artemisias, or one Artemisia and a refund of one of their publications fees, if both are full-time matriculated students and have attended both school semesters.

The refund will be made when the Artemisias are distributed and will be handled by the graduate managers office.

Letters To The Editor

EDITOR, THE SAGEBRUSH:

You and your columnists keep talking about "motel parties" and such as being detrimental and poor social practice in the face of organized "Dean's office" functions.

Well, I think you're all wrong. If a student is smart and likes to have a good time, fraternities and sororities are nowhere. I've been to a couple of their gatherings since I've been in college, and if you ask me they look just like a bunch of high schoolers. Their behavior reeks with immaturity. All the girls come together and they bring their house-mothers; people are running around worrying about their brothers and sisters getting too intoxicated, they talk about their trophies and song teams, etc. I wonder where they get the idea that this is fun?

To have a really good time and be yourself is impossible under these conditions.

Last weekend was the Military Ball, but we didn't go to that drag. A bunch of us got together in somebody's apartment called the dorm and got some honeys, picked up a couple of fifths, and had a party. There weren't any chaperones or social chairmen or anything that represents social or group pressure. So, everybody was able to be themselves and act as they felt. Nobody cared how the other guy acted or anything.

Deans can't tell you how to have this kind of a party. You don't even have to have it approved! Why don't you all stop hollering about all this jazz and just have parties if you like the social life so much?

BILL L. CANTUS

Pems Raise \$240 For Scholarships

Approximately \$240 was raised this year by the PEMS, Physical Education Majors and Minors, by selling programs at football games. Wendy Rupp and Marge Hartman were in charge of the program.

The money collected will be used for three scholarships given to a freshman, sophomore, and junior woman PE major.

Departments Aid Fallon Atom Tests

Two University of Nevada science departments will participate in a proposed nuclear explosion 28 miles south of Fallon, Nev.

The Desert Research Institute and School of Mines will take part in the nuclear test. Contract negotiations are underway with the University to complete the surface reconnaissance, geological mapping, hydrological study program, geophysical and exploratory drilling.

U of N Athlete Is Army Lieut.

Lieutenant Val D. York, who lettered in basketball and baseball at the University of Nevada, has been assigned to the Second Transportation company at Fort Ord, Calif.

Lieutenant York recently completed the transportation officers' orientation course, Fort Eustis, Va.

He is a graduate of the University of Nevada with a bachelor of science degree in physical education and was a member of Alpha Tau Omega fraternity.

The lieutenant received his reserve commission from the University of Nevada on June 5, 1961.

Lieutenant York, son of Mr. and Mrs. John V. York of Fallon, resides with his wife, Carolyn, and their sons, Thomas and Michael, at Fort Ord.

Newman Club Has Early Celebration

An early turkey dinner was served to members of the Newman Club and their guests Sunday, Nov. 19.

The Thanksgiving social was held in the social hall of Saint Albert's Catholic church, where the club plans to hold many future activities.

Dr. Thomas R. Martin, professor of marketing in the college of Business Administration, and his family were guests at the dinner. Dr. Martin is the college advisor for the group.

A dance followed the dinner. Judy Black, social chairman, made arrangements for the affair.

The next regular meeting of the Newman club will be on Nov. 29.

Dr. Stanley E. Jerome, assistant directory of Nevada Bureau of Mines, will be in immediate charge of the field activities.

This job will include studying the land from a geological point of view.

The project will be conducted to help identify underground nuclear tests, and differentiate between them and earthquakes.

Dr. Charles J. Armstrong, president of the University, said a verbal agreement has been reached on work to be done by the Desert Research Institute and Nevada Bureau of Mines. He said he hopes that work can be started next month.

Officials said that only one explosion is planned for the area, if the project is authorized.

The detonation, planned for 1,500 feet underground, will be highly localized to an area two to three miles surrounding the actual test site. It will be a five-kiloton bomb, the equivalent to 5,000 tons of TNT.

Spokesmen for the project announced that there would be no danger from radioactive fallout, nor would underground water sources be affected.

Pi Beta Phi Hosts Official Visitor

Nevada Alpha chapter of Pi Beta Phi was visited last week by one of its province officers.

Mrs. Wilmot Gordon, province president, of Berkeley, Calif., arrived Nov. 15. The active chapter honored her with a tea at the Pi Phi house that afternoon.

Mrs. Gordon visits this chapter every year, as well as the other chapters in Pi province, including Arizona and California.

Compliments Flood Band After L. A.

Congratulatory messages continue to praise the University of Nevada marching band for its performance during the Los Angeles Rams-San Francisco 49er game, played in the Los Angeles Coliseum Nov. 12.

John L. Carrico, director, and Fred Green, assistant director of the Nevada marching unit, have compiled a condensed copy of some of the comments which came in after the University band performed during half-time.

John Boudreau, director of the

Rams Professional band, Nov. 14: "I have had many wonderful comments in regards to your half-time at the Rams vs. '49er game last Sunday. It is my personal feeling that your band is a very outstanding and different type of band. I wish you would convey to your members of this wonderful organization our deep appreciation for presenting such a fine and well-polished half-time show . . . (I) extend an invitation at this time for you to return next year."

John McTigue, director of the

'49er Professional band, Nov. 12: "We want to give your Nevada band first choice on our home dates in 1962 for the San Francisco 49ers."

M. Dale Hallack, director of vocal music and orchestra, Klamath Falls schools, Nov. 14: "I saw and heard the University of Nevada Band on television at the Rams-49ers football game last Sunday and wish to highly congratulate you on their excellent showing. I realize the tremendous job you have had since coming to Reno

in building up the band and think that it is already a high credit to the University and your ability."

Steve Heyer, columnist, Sagebrush, Nov. 17: "CONGRATULATIONS: After watching the 49er game on TV last Sunday I am practically at a loss of words to describe the impression the band made on me and must have made on everyone else. Our band was simply great and everyone concerned with the performance and bringing about this performance should be warmly thanked by every member of the University."

Associated Students of the University of Nevada: "The ASUN wish to congratulate you on your very fine performance during half-time at the LA Rams-SF 49ers football game. Those of us who viewed your performance were proud to have you representing us and the University of Nevada. We look forward to seeing more."

Kenneth Robbins, Alumni relations and publications: "Again congratulations on your work with the band. The appearance in Los Angeles was well done, and all the members are to be highly complimented. Splendid University representation by a splendid organization."

Gordon Soltau, announcer on CBS-TV: "The University of Nevada concludes their show with a tremendous number, 'God Bless America' . . . The first portion of our half-time was by the University of Nevada Marching Band which came down from Reno to entertain here in the Los Angeles Coliseum in a tremendous job."

THE GREEKS TAKE A BREATH in Mackay stadium, and wait for Independents who never showed up. Dormitory men declined an invitation to do battle in the stadium, last Monday following an earlier skirmish. The event was later joined at the SAE house, with the independents driven back to the dorms. —Sagebrush photo.

\$15,000 Grant to Chem Research

A two-year, \$15,000 grant from the National Science Foundation has been awarded to the University of Nevada to support the research of Dr. Cyrus O. Guss, principal investigator and chairman of the department of chemistry.

University President Charles J. Armstrong made the announcement last week.

The grant will be used to support a study entitled, "Familiarization of Unfavorable Displacement Reactions."

The work involves a study of the reaction obtained when a part, or group of atoms, of a molecule is removed and a different atom or group takes the place of the leaving part.

The ease with which the leaving group departs and the incoming group enters depends, among other things, on the nature of the respective groups. Sometimes the reaction proceeds easily, but with some groups the change occurs very slowly or not at all.

Dr. Guss said the study of the latter groups is somewhat like trying to make water run uphill, for the energy relationships are usually not favorable.

However, just as there are conditions whereby water can be made to rise from a low level to a higher level, for example in a siphon, there are also situations whereby a reluctant leaving group of atoms can depart from a molecule and a new group enter, if the energy relationships are favorable.

Dr. Guss has previously found such a situation and the development of this favorable energy relationship is the purpose of the research.

The grant, payable in two payments of \$8,000 in January, 1962, and \$7,000 in January, 1963, will be administered by the Desert Research Institute.

Dr. Guss, who joined the University of Nevada faculty this past fall as chairman of the department of chemistry, served last year as visiting lecturer in the organic chemistry division of the University of Illinois while on sabbatical leave from Colorado State University.

Coeds Learn Rules At Clinic

A basketball clinic has been set up for all women students wishing to learn basketball rules preparatory to officiating.

This semester the clinic will be held every Tuesday from 3 to 4 p. m. Spring semester the clinic will be held for all those wishing to review.

In this clinic the students will learn about the duties of officials, signals, fouls and penalties, violations and terminology, scoring and timing.

The clinic is held primarily for the purpose of helping women students make a National basketball officials rating. National ratings are presently held by Nancy Saunders and Marge Hartman.

Dr. Janet Felshin and Dr. Ruth Russell of the physical education department also hold this rating.

Chase To Present Paper At Institute

Dr. Harry M. Chase will attend the 39th World Affairs institute sponsored by the University of California, next month. It will be held December 2-6, in Los Angeles.

The overall topic of this meeting will be "Underdeveloped Areas of the World."

Dr. Chase will present a paper, "American Policy Toward Neutral Nations," at the meeting.

The Nevada instructor is an assistant professor of history and political science.

It's what's up front that counts

Up front is **FILTER-BLEND** and only Winston has it! Rich, golden tobaccos specially selected and specially processed for full flavor in filter smoking.

CAMPUS CALENDAR

Call FA 9-3051 for items in calendar.

Tuesday, Nov. 28:

- Yell, Songleader tryouts, new gym, 12 noon.
- Stereo concert, dining commons, 3 p.m.
- Basketball clinic, new gym, 3-4 p.m.
- Inter-Varsity Fellowship, student union conference room, 7 p.m.
- Sagebrush staff meeting, Old Student Union, 7:30 p.m.
- Chess club, dining commons, 7:30 p.m.

Wednesday, Nov. 29:

- Yell, Songleader tryouts, new gym, 12 noon.
- Stereo concert, dining commons, 3 p.m.
- Senate, Aggie conference room, 8 p.m.
- Newman club, Newman center on North Virginia street, 7:30 p.m.

Friday, Dec. 1:

- Wolf Pack meets Gonzaga University, there.
- Kappa Alpha Theta Christmas dance, Hidden Valley country club, 9 p.m.
- Pi Beta Phi Christmas dance, Lancer, 9 p.m.
- Manzanita-New Dorm Christmas dance, Mapes Skyroom, 9 p.m.

Saturday, Dec. 2:

- Sigma Nu Christmas dance, Mapes Skyroom, 9 p.m.
- Alpha Tau Omega Christmas dance, 9 p.m.
- Lincoln hall Christmas dance, Lancer, 9 p.m.
- Wolf Pack meets Washington State, there.

Sunday, Dec. 3:

- TUB movie, "The Best of Everything," education auditorium, 7 p.m.
- Nurses' capping ceremonies, education auditorium.

Monday, Dec. 4:

- University Theatre film classic, "The Forgotten Village," 7 and 9 p.m.
- Wolf Pack meets Long Beach State, new gym.

Shepperson Writes Third Nevada Study In History, Political Science

Dr. Wilbur S. Shepperson, associate professor of history and political science, is the author of the third in a series of Nevada studies in history and political science.

The publication of "Six Who Returned—America Viewed by British Repatriates" was announced last week by the University of Nevada press.

The booklet presents a study of six Englishmen who immigrated to the United States during the last century, only to return to their homeland.

Dr. Shepperson points out that, "For many decades a controversy raged as to whether immigrants provided 'the blood that made this nation great' or 'endangered the quality of American citizenship.' Both factions seemed to overlook the fact that many newcomers became dissatisfied and eventually returned to Europe. Surprisingly few studies have inquired into the success or failure of the American immigrant."

Tens of thousands of Europeans are said to have made their way back to their mother countries, some after very brief sojourns in the new world.

While those from southern and eastern Europe arrived in America within the brief period of about 50 years, British emigration was a fairly steady flow from the seventeenth century down to the present time.

"The issues surrounding the return of Britons were quite removed from the sociological forces which lead later generations of Italians, Greeks and Yugoslavs to recross

the Atlantic," the author points out.

The books, letters, notes, and journals examined in "Six Who Returned" are from the pens of both well-known and obscure men. Although the comments of six writers do not necessarily typify the feelings of thousands, they do suggest at least some of the reason for the rather extensive British return movement.

Dr. Shepperson has been with the history and political science department at the University for 11 years.

The book, published in association with the University of Nevada press, may be obtained by contact in the department of history and political science.

Nightingales Get Capped

Six sophomore students of the Orvis School of Nursing will be capped at formal ceremonies on Dec. 3.

The women being officially accepted into the nursing profession are Madeline Ferretto Cherry, Reno; Murree Drummond, Big Pine, Calif.; Jo Anne Elkin, Virginia City; and Ann Prida, Reno.

The capping ceremonies will be held in the College of Education auditorium, and will be open to the public.

"Capping" stems from an old tradition of completing the student nurse' uniform by giving her a cap. It signifies completion of fundamentals of nursing and the responsibility involved in direct contact with patients.

Each school of nursing has its own cap. The Nevada nurse's cap has a unique western flare styled after the Stetson. The cap was designed by Dr. Marilyn Horn, associate director of home economics.

At the capping the student nurses will also recite the Florence Nightingale pledge.

A reception immediately following the capping ceremonies will be held in the Jot Travis Student Union. The Women's Auxiliary to the Nevada State Medical association will act as hostesses.

Femmes Do Flips In Gym Saturday

An exhibition of women's gymnastics will be displayed at the new gym Saturday, Dec. 2, at 1:30 p.m.

Competitive performers will demonstrate various gymnastics under the direction of Mr. Ami Leso. Mr. Leso is a coach of women's gymnastics from Morgan Hill, Calif.

Vaulting, the balance beam, uneven and parallel bars and "free ex" will be demonstrated.

The performance will be sponsored by W.R.A. and is open to all students.

THE BLACK-HATTED ROBIN HOODS

GIVE
XMAS
AID
TO
KIDS

SUNDOWNERS dug deep into their treasury last week when they presented the Rev. Clyde Matthews with a \$100 check for his children of Colony Christian Center. Dave Nyquist, recently named president of the good fellowship group, hands the Rev. Matthews the check as black hat brothers Herb Stathes, Ed Smith and Tom Case look on. Part of the money donated to this year's Sundowner charity project was raised when the men held their Charity Ball Friday, November 17, at the Grange hall. Sundowner Massoud M. (Mac) Moezzi was the highest bidder in the Turkey Trot auction, held that same day, and he donated the bird to the children at the Center for their Thanksgiving dinner. The \$100 will be used by the Rev. Matthews for the children at Christmas. The Sundowner charity project is replacing their "Toys For Tots" drive held last year in the Reno area.

Check your opinions against L&M's Campus Opinion Poll #13

1 Your best friend's beautiful date asks you to meet her for a late date.

Would you ...

- meet her in secret?
- meet her and tell your friend?
- tell and not meet her?

2 For your major course which would you choose ...

- a good teacher
- or an outstanding man in his field but a poor teacher?

3 Has advertising ever influenced your choice of cigarette?

- Yes
- No

Expect more, get more, from L&M

There's actually more rich-flavor leaf in L&M than even in some un-filtered cigarettes. You get more body in the blend, more flavor in the smoke, more taste through the filter. So expect more, get Lots More from L&M. And remember—with L&M's modern filter, only pure white touches your lips.

HERE'S HOW 1029 STUDENTS AT 100 COLLEGES VOTED!

Have an L&M in pack or box	No.	Yes.
.....	60%	40%
1 meet her and tell	49%	35%
2 tell and not meet her	16%	
3 good teacher	83%	
2 outstanding man	17%	

L&M's the filter cigarette for people who really like to smoke.

Pack Opens 23-Game Sked With Gonzaga; Long Beach Here Monday

Nevada's Wolf Pack heads into an ambitious 23-game schedule Friday when it tangles with Gonzaga University. The Pack follows that with a Saturday game at Eastern Washington.

Nevada's first homecoming appearance is slated next Monday when the Pack cagers host Long Beach state's 49ers in the New Gym.

A 10-game slate of Far Western Conference appearance is scheduled between Nevada and San Francisco state, Humboldt state, Sacramento state, Chico state, and the Cal Aggies.

A new school, Alameda state, appears on the Pack's schedule along with some big-time basketball powers.

Nevada will make another mid-western swing again in mid-December, and face Drake, Purdue, and Iowa. Last season, the Pack dropped consecutive contests to Bradley, Indiana, and Wisconsin.

And for the first time, the Reno campus faces its Las Vegas counterpart in a varsity contest. Nevada meets Nevada Southern in a two-day stand Jan. 22-23. The first two-day set will be Dec. 8-9, when San Jose state invades Nevada.

- Fri., Dec. 1—Gonzaga
- Sat., Dec. 2—At Eastern Washington
- Mon., Dec. 4—Long Beach State
- Friday., Dec. 8—San Jose State
- Sat., Dec. 9—San Jose State
- Sat., Dec. 16—At Drake
- Tue., Dec. 19—At Purdue
- Thur., Dec. 21—At Iowa
- Fri., Dec. 29—At San Diego tournament
- Sat., Dec. 30—at San Diego tournament
- Fri., Jan. 5—Alameda State
- Sat., Jan. 6—*San Francisco State
- Fri., Jan. 12—*At Humboldt State
- Sat., Jan. 13—*At Chico State
- Mon., Jan. 22—Nevada Southern
- Tue., Jan. 23—Nevada Southern
- Sat., Jan. 27—Creighton
- Fri., Feb. 2—*Sacramento State
- Sat., Feb. 3—*Cal Aggies
- Fri., Feb. 9—At Alameda State
- Sat., Feb. 10—*At San Francisco State
- Fri., Feb. 16—*Chico State
- Sat., Feb. 17—*Humboldt State
- Fri., Feb. 23—*At Sacramento State
- Sat., Feb. 24—*At Cal Aggies

Renwick Tops Pack Statistics Three Ways

The final nine-game statistics total for the Nevada football squad show that junior quarterback Jack Renwick led the Wolf Pack in three departments—scoring, passing and total offense.

Renwick scored 53 points on six touchdowns, 14 extra points and one field goal. He passed for 274 yards and seven touchdowns, and added 110 yards rushing, for a total offense figure of 834.

Sophomore halfback Bobby Heron had a total of 444 yards net rushing on 96 carries to finish as the top Nevada ground gainer.

Senior end Jim Whitaker, ending a four-year college football career with his best season, was the top pass receiver. Whitaker hauled in 21 aerials for 294 yards and one touchdown.

Bob Alfred finished the season with a punting average of 39.9. He kicked 48 times for a total yardage of 1,913.

As a team, Nevada averaged 228.3 yards per game, 131.8 rushing and 96.5 passing. They scored 153 points for an average per game of 17.0.

Their opponents rang up 285.1 yards per game; 137.0 on the ground and 148.1 through the air; a total of 179 points for a 19.9 scoring average per game.

Overseas Study In 6-Week Programs

There are several programs for study abroad under the auspices of the Richelieu Institute and the Sorbonne American Institute.

Most of the programs are for a month or six weeks and the price usually includes board and tuition plus a few days in Rome, Paris, or Madrid.

The schools involved are the University of Madrid, University Aix-Marseilles (Cannes), University of Paris, Sorbonne, Fashion Arts, Domestic Arts, and the University of Florence.

British and Scottish schools include Oxford, London, Birmingham and others.

I fear three newspapers more than one hundred thousand bayonets—Napoleon.

... Sports Scribblings

By ROYCE FEOUR

Football is out and basketball is in at the University of Nevada as the Wolf Pack tipped off the 1961-62 basketball season with a pair of games in the Pacific Northwest Friday and Saturday.

Nevada's cagers face Gonzaga, minus Frank Burgess, in Spokane Friday and meet Eastern Washington Saturday in Cheney.

Coach Jack Spencer, starting his third year with the Wolf Pack, has lined up an ambitious 23-game schedule plus the San Diego tournament in late December.

Spencer and company beat the bushes in search for tall talent and came up with 12 players from out of state. Only four Nevada players are listed on the 16-man varsity.

Spencer's recruiting landed five freshmen. Should the Wolf Pack again take the Far Western Conference championship, one-third of the team would be missing since frosh are ineligible for the NCAA small-college regional playoffs.

Nevada should rate at least as a top contender if not a favorite to repeat as conference kingpins.

The squad includes two starters and eight veterans off last year's fine team. Key losses include Val York, Ron Hedin, and Eugene Simpson who did not return.

Jumping-Jack Craig Hall, Nevada's leading scorer last year, and forward Brad Baraks will give the Wolf Pack two experienced starters.

Spencer is counting heavily on big 6-6 freshman Bill Robinson from Kansas City, Mo. Robinson is fast, an outstanding rebounder, a good shot with a fine pair of quick hands. The "Dipper's" only problem may be a lack of experience on the college level.

Spencer reports this year's team is faster and has better rebounding strength than last year's squad. The first string may be hurt with the loss of three starters but the all-around depth is much improved.

The Wolf Pack have eight men at 6-4 or better with Bruce Fitzer, who missed most of last season after a holiday auto accident injury, the tallest at 6-8.

Columnist Bob Alfred, who lauded the efforts of Nevada's footballers all season, played a little football on Saturday afternoons himself.

The veteran quarterback was the Wolf Pack's number one punter with kicks totalling nearly 2,000 yards and a 40-yard average, a good boot in any college league. The modest writer also neglected to mention his 13-pass completions in 27 attempts for an average of almost fifty per cent.

Portland State, coached by ex-Nevada aide Hugh Smithwich, celebrated its "most successful football season in history" this year. The Vikings' record for this great and record-setting campaign was six losses in nine games.

Nevada Coeds Competing At National 4-H Club Confab

Two University of Nevada students, Carole Sharp and Judy Matley, are attending the 40th National 4-H Club Congress in Chicago, Nov. 26-30.

They are competing against 1,400 other 4-H men and women, all of whom are spending the Thanksgiving weekend in Chicago for the five day congress in the Conrad Hilton hotel.

Carole Sharp of Tonopah is a 17-year old freshman and is a five-

year member of the 4-H club. She is this year's winner in the home economics class. Carole was the state dairy foods winner in 1960 and home grounds beautiful winner in 1959. She was also the district president of her 4-H club and a four-year representative to the state 4-H camp council.

Judy Matley, 18-year old freshman, is this year's state winner in achievement. Last year she was both state and national winner in gardening, and was a delegate to the national 4-H conference held in Washington D. C. in April. She has completed 36 4-H projects.

The congress will present some 230 scholarships valued at \$115,000 to the national award winners, top ranking students who have successfully completed an assortment of projects.

The two Nevada women making the expense trip with 21 other 4-H members throughout the state and are accompanied by Raymond C. Cox, the University's State 4-H Club Leader.

... Snow Warfare

(Continued from page 1)

the Independents were driven back to the dorms.

"There must have been three hundred of them," said Karin Bryant, who was watching the fight from her room in Manzanita hall.

She went on to say that the whole group was moving up North Virginia street when two police cars pulled up and brought the fight to a stop.

Dean of Student Affairs Sam P. Basta said that no action will be taken in the matter.

Pat Weaver, National College Queen

What does this lovely College Queen want in her diamond ring?

Miss Pat Weaver, America's National College Queen, revealed her feminine taste as well as her practical sense when asked about diamond rings. She selected as her favorite the lovely Artcarved Evening Star—one of Artcarved's award-winning designs. Why did she choose it? Because of its breathtaking beauty and guaranteed quality. You see, every Artcarved ring is guaranteed in writing for all the years to come by America's most respected ring maker. You buy it with confidence—wear it with pride.

Visit your local Artcarved Jeweler and see why Artcarved diamond rings have been the choice of millions for more than a century. Perhaps you can start hinting for yours now!

Everything Is 90%

By RICHARD MORRIS

The editor has asked me to write something rather long this week to fill up some empty space. As an added inducement, she has promised not to censor anything, whatever I might write.

This, of course, made me very happy. There remained only one question—on what subject should I write?

One of the first things to suggest itself was mathematics, a science with a long and noble history beginning with Pythagoras who said that "all things are number."

Mathematicians are able to make many sublime statements about numbers and things. One of the most profound of these is "Fermat's Last Theorem." Everyone is sure that this proposition is true, but no one has been able to prove it in the three-hundred years that have elapsed since it was proposed. Fermat wrote the theorem in a margin of a book, and added, "I have assuredly found an admirable proof of this, but the margin is too narrow to contain it." This was a rather sneaky way of avoiding the issue.

Everyone is convinced that Fermat did have a proof, although it seems much more likely that he was drunk when he wrote that note.

It occurred to me that I might discuss the mathematical field of topology, but upon reading that this was a study of "properties which remain invariant under homeomorphisms," I decided to turn to other subjects.

At first, it seemed that "The Purpose of a University Education" might be an interesting subject. But, after stating that universities exist so that people may develop themselves socially, what remains to be said?

One might discuss philosophy, starting by talking about Plato and his Theory of Ideas. Plato tried to blame Socrates for this notion by writing dialogues, one of which might go as follows:

Socrates: What are you thinking of, Parmenides?
 Parmenides: A manure pile, O Socrates.
 Soc: Are you thinking of any particular pile?
 Par: No, Socrates.

In a dialogue of this sort, Socrates will get Parmenides to admit that, since he has the idea of a manure pile, there must exist an ideal manure pile in heaven, of which all real ones are only imperfect copies. This proves the theory.

As Philosophy developed, philosophers contributed to human achievements by creating many sublime arguments refuting each other. Their profound thoughts would provide material for many essays, and I realized that I could really not do justice to the subject of philosophy in the limited space allotted to me. Hence, I looked for some other subject to discuss.

Realizing that I could not add very much to the things which have already been said on questions of such great importance as: "Is the cheerleading at games good enough?" I decided simply to take an excerpt from an epic poem of mine:

Sayeth the damsel,
 "How dare you so smugly stand
 Holding your bottle, while a
 Goddam dragon ravishes our land!"

"I am brave; I am strong.
 I will slay the dragon,"
 Retorteth the knight
 "But first, I'll drain a flagon."

The dragon appeareth, breathing fire
 From head number two.
 The knight looketh . . . and sayeth,
 "I'll have some more brew."

The monster drew nigh.
 There was no time to lose.
 The knight mounted his charger
 While drinking some booze.

Sir Gallant drew his sword;
 The dragon came near,
 Breathing fire and flame.
 But the knight knew no fear.

All they found of our hero
 Was the tiniest chunk.
 For, while fighting the dragon,
 Sir Gallant was dead drunk.

2.75 Or Bust For Scholarship Holders

For the first time University of Nevada scholarship holders will be subject to academic review at the end of the semester.

Dr. Robert McQueen, chairman of scholarships, explained that the IBM machines have made it possible to review quickly a student's academic standing. This will be done in the seven days between grade reports and second semester registration.

Students whose grade point has fallen below the 2.75 required to receive the award, may not have their scholarship renewed for the second semester.

Scholarship winners were all informed about this program last June. It will only affect those stu-

dents holding University of Nevada scholarships.

Dr. McQueen said he believes scholarship donors feel about the same as employers—they expect the best possible performance for the money they pay.

Songs, Food at Yuletide Feast

A traditional Christmas will be reproduced at the Madrigal dinner Dec. 12, at 7:30 p. m. in the dining commons. The yuletide feast is being sponsored by the ASUN, the student union, and the music department.

A traditional menu including "holly-red mead, beef dissh-metes, ofen-ybaken and rote" is planned. A musical program, also in the traditional mood, will be presented by various groups from the music department.

After an outdoor fanfare, the guests will be serenaded by the University brass ensemble. The University Madrigal singers, a group of 12 handpicked vocalists, will sing conventional and well-known songs such as "Deck the Halls," and "Adeste Fideles."

Next on the program will be the recorder choir under the direction of Felton Hickman, assistant professor of music. The recorder is a flute-like instrument commonly used in England in the eighteenth century and recently revived in music circles.

Members of the recorder choir are Ann Herman, soprano; Jill Black, tenor; Felton Hickman, bass; and Prella Ede, Catherine Chase, and Jane Jacobs, altoes.

Throughout the program, a group called the Strolling Minstrels will perform, singing carols, and serenading among the diners.

The 12 Madrigal singers are Pat Norman, Judy Dew, Carol Butler, Sheridan Cathles, Carol Strang, Jill Black, Bonnie Barnard, Dick Pollman, George Lundgren, Kenneth Marvel, Mike Griffin, and Pat Clary.

Tickets and reservations may be obtained by calling the music department, or the dining commons. The price is \$2.75 for the general public, and \$1.25 for commons students.

Committee Starts Work On Dance

Preparations for the 1962 Junior Prom got underway last week at the first meeting of the junior class committee.

Andy MacKenzie, third-year class president, named committee members to head up preparations in various fields.

Working in designated areas are Sue Forden, orchestra; Diane McManus, program; Tim Grant, finances; Doug Buchanan, publicity; Karin Bryant, queen voting; Don Arkell, queens, and Linda Knobbs and Janet Craven on raffle tickets.

Rich Gywn and Bill Lohse will assist MacKenzie.

No date has been set for the prom.

Regents Accept Gifts, Grants and Awards at Recent Campus Meet

Among the many gifts, grants, and awards accepted by the University of Nevada board of regents at their meeting on campus last Friday were a \$100 award for an outstanding dramatics student and a \$500 award for graduate study.

The Edwin Booth award, contributed by an anonymous donor, will be presented at the last University theatrical performance of the school year. The award will be made for service to the theater.

Scholastic achievement, leadership and character are the basis for the \$500 award for graduate study established by the legal firm of Springer, McKissick and Hug. The award will be made annually to a graduating senior, starting June 1962.

Regents accepted a \$7,554 grant from the US Department of Health, Education and Welfare for a research project, "Studies on Alfalfa Saponins," under the direction of Dr. Robert J. Morris, associate professor of chemistry.

A \$13,600 grant from the National Science Foundation was accepted for research on "Heterochromatic Inference in Dispersion Measurements," to be directed by Dr. R. Edwin Worley, professor of physics.

Miscellaneous gifts accepted by the regents include:

Mrs. Verne F. Wedekind, Reno—Framed picture of the Normal School graduating class of 1900.

Bollingen Foundation, New York—Volume 4, Collected Works of C. G. Jung **Freud and Psychoanalysis**, Bollingen Series XX and "The Living Symbol" by Gerhard Adler. Bollingen Series LXIII, for the Library.

Edith L. St. Cyr, Fallon—National Education Association publications and World War II newspapers, for the Library.

Dr. Fred Anderson, Reno—\$10.00 for purchase of a book for the Nuclear Engineering Department in memory of Judge A. J. Maestretti, for the Library.

Harolds Club, Reno—copy of "I Want to Quit Winners" for the Library.

Edwin J. Beinecke, New York—copy of Volume V of the Catalogue of the Stevenson Collection, compiled by George L. McKay, for the Library.

Maureen Dane, Las Vegas—35 volumes of modern fiction for the

Southern Regional Division Library.

Dr. James R. Dickinson, Las Vegas—English books and manuals valued at \$65.00 for the Southern Regional Division library.

Paul C. Harris, North Las Vegas—5 volumes in speech and drama, for the Southern Regional Division library.

Mr. and Mrs. Charles Labbe, Las Vegas—15 volumes of law books for the Southern Regional Division library.

Mrs. Zelda Smith, Boulder City—a copy of "Life's Pictorial Atlas of the World," for the Southern Regional Division library.

The Ed and Mary Von Tobel Foundation, Inc., Las Vegas—\$500 to purchase reference materials in the fields of mathematics and physics, for the Southern Regional Division library.

Woman's Auxiliary to the Clark County Medical Society, Las Vegas—\$1,125 to be used for the purchase of periodicals in the biological sciences, for the Southern Regional Division science department.

Mrs. William Bourne Wood, Reno—her husband's technical library valued at approximately \$150, for the Mackay School of Mines library.

Mrs. Emory M. Marshall, Genoa—a collection of 45 technical books, and field and drafting equipment valued at approximately \$135, for the Mackay School of Mines library.

Darrell B. Lemaire, Tuba City, Arizona—a mercury detector to be used by faculty and students in School of Mines.

laboratory work, for the Mackay Idaho Mining corporation, Reno—\$150 for the Mackay School of Mines.

There is no such thing as a moral or an immoral book. Books are well written or badly written. That is all—Wilde.
