

Pack Captures Rugged Easter Relays

By ROYCE FEOUR

University of Nevada's amazing track team shook the West Coast at the Santa Barbara Easter Relays Saturday by compiling the highest team score in the meet.

The powerful Wolf Pack amassed 47 points in competing in both the college and open divisions of the meet to outpoint the Los Angeles Striders who had 38½ in the open division only.

Nevada captured four events in the college division class and shattered one school record enroute to setting one of the greatest performances in track history for the Reno campus.

Coach Dick Dankworth's Wolf Pack took first places in 440 relay, the mile relay, the two-mile relay, and the distance medley relay in the college division.

Former Marine John Uelses stole the show individually, however, as he became the first person to ever surpass 16 feet in the pole vault outdoors with an unprecedented vault of 16¾ feet.

Uelses, who had twice vaulted more than 16 feet indoors, was given the outstanding individual competitor award for his record-breaking performance.

The track Nevada mile relay quarter raced to a sizzling 3:17.9 to shatter the former record by more than one second. Gary Sullivan, Fred Williams, Mike Andrews, and Bob Rusk combined to establish the new school mile zenith.

Sullivan, Jon Key, Al McDaniels and John Manke sped to a 43.2 time in the 440 relay for the Wolf Pack triumph in the college division.

Freshman Ron Lee of Fallon ran the anchor lap with a sharp 4:17.9 mile in the distance medley relay behind Paul Speer, John Barney and Leland Sheppard for the college division Nevada first place finish.

Jim Beatty, the only human to break the four-minute mile indoors, turned in a 4:02.6 mile to pace the Los Angeles Track Club to first spot in the open division of the distance medley relay at 9:55.6.

Nevada was an overall fifth in the two-mile relay but first in the college division in the two-mile relay with the foursome of Rusk, Speer, Andrews, and Sheppard (7:41.6) behind four entries in the open division.

Independent Bob Ritchie, of the University of Nevada, was a winner in the broad jump with a leap of 24-1 in an unattached status and Wolf Pack team entrant McDaniels jumped 22-10½ for fourth.

The Wolf Pack finished second in the college division 880 relay (1:28.7) slightly behind winning Redlands with Key, Williams, Manke, and McDaniels going for Nevada.

Steve Holloway, freshman from Fairfield, Calif., strode the 120 high hurdles in 15 seconds flat for fifth place, and Rich Williams jumped 13-6 in the pole vault but finished out of the running.

Larry Smith threw the javelin 214-8, and Bod Pederson tossed the discus 157 and the shot put 50-11 but neither qualified for the finals.

OUTSTANDING GREEK WOMAN . . .

. . . AND MALE COUNTERPART

ALICEANN MONAGHAN, top, and Dave Quinn, bottom, receive plaques from Theta Chi President Dave Roberts after they were named "Outstanding Greeks" at a dinner at the OX house Thursday night. Miss Monaghan, Gamma Phi Beta, and Quinn, Alpha Tau Omega, are outgoing presidents of Panhellenic Council and IFC, respectively. Members of the administration and the officers of the Greek houses attended the dinner.

NASA To Display Spacemobile Here Tomorrow at 10, 2

University students will have an opportunity to learn more about the space age when the National Aeronautics and Space Administration brings a demonstration team to campus tomorrow.

The NASA demonstration team will exhibit its Spacemobile and will discuss "Aerospace Science Highlights" at 10 a. m. and 2 p. m. in the education auditorium.

Seating is available for four hundred students at both of these exhibits.

The campus presentation is part of a state-wide demonstration sponsored by NASA in cooperation with the University, Washoe and Ormsby county schools, the State Department of Education, the Civil Air Patrol, Nevada Air National Guard, Stead Air Force Base, and Reno Council of the Navy League of the US.

These agencies have joined together to sponsor the first annual Reno area aerospace education clinic, designed for secondary school, University students, teachers, administrators and other citizens.

The clinic is designed to help children, youth, and adults to gain a better understanding of America's accomplishment and future role in space exploration.

Dr. George E. Sutton of the mechanical engineering department is chairman of tomorrow's 10 o'clock program, while Dr. Donald Potter, assistant professor of education, is head of the 2 p. m. session.

At noon tomorrow, John E. Sims of NASA will speak to the faculty on "Socio-economic and Political Aspects of Space" during a luncheon in the dining commons. Dr. Wendell Mordy, director of the Desert Research Institute, is chairman.

Gerow, Mackedon Tangle Tomorrow

Tomorrow's general elections will be held from 8 a.m. to 6 p.m. in designated precincts marking the biggest election of the year.

The spring election brings with it an entire change of ASUN officials to run student affairs when they take office either April 15 or May 15, depending on the passage or defeat of the tenure-of-office amendment.

Precinct Voting

"A "get-out-and-vote" policy is being pushed by the election board this year as they introduce a system of precinct voting. This new system will keep the voting lines short in the hopes on enticing more students to vote.

Precinct voting will be held from 8 a.m. to 6 p.m. Students registered in the College of Agriculture and the Orvis School of Nursing will vote on the second floor of the Agriculture building in the area directly inside the west entrance to the building.

Engineering and mining majors will vote on the main floor of the new Engineering building, at the north end of the main hall.

Students enrolled in the Colleges of Arts and Science, Business Administration, and Education, will cast ballots in the Student Union building. Juniors and seniors will vote on the main floor, while sophomores and freshmen will vote on the ground floor.

Student senators will not meet tomorrow.

ASUN President Paul Bible has announced cancellation of this week's meeting in anticipation of no quorum.

ASUN elections are scheduled for Wednesday, and it is the custom of the fraternity whose candidate wins the presidency to host students at a post-election social hour.

"I plan to be celebrating myself Wednesday night," said Bible as he announced Senate cancellation.

In the big race for ASUN president, Lynn Gerow and Mike Mackedon seek the office.

Others seeking ASUN offices are as follows: Tom Cook and Tom Seeliger, first vice president; Sherry Harwood and Mimi Patrick, second vice president; Wayne Ferguson and Larry Struve, junior men's senator-at-large; Linda Phillips and Ellen Roseman, junior women's senator-at-large.

Dale Donathan and Bill Mortensen, senior class president; Jim Bernardi and Robert Hale, junior class president; Charles Burr and Bud Olsen, sophomore class president.

Warren Laird and JoAnne Pritchard, College of Agriculture senator; Judy Black, Virginius Dabney, John Duty, Patricia Heward, Larry Hutchings, and Joan Westfield, College of Arts and Science senators.

Charles Batchelder and Lewis Sornetta, College of Engineering senator; Janet Herb and Jill Walker, School of Nursing senator; Jacqueline Chiatovich, Doris Fenilli and Sally Nielson, College of Education senator.

The College of Arts and Science has four senate seats, Business Administration and Education each have two senate seats, and the Schools of Nursing and Mines and Colleges of Agriculture and Engineering all have one seat.

Each college has to be represented by at least one Independent. If only one senator is pro-

(Continued on Page 6)

New Nurse Dean Assumes Duties; Former Foundation Research Aide

The new dean of the Orvis School of Nursing has been on campus one day.

Miss Marjorie J. Elmore, recently appointed to head the Nursing school, assumed her new post yesterday, April 2.

She succeeds Mrs. Helen Gilkey who resigned the position June 30 of last year, and is the third dean of the Nursing school.

Miss Elmore comes to Nevada from a position as research associate with the American Nurses Foundation in New York City. She is a native of Missouri, where she received the AB degree in biological science in 1937 from Park College and her BS in nursing in 1943.

She also received her MA degree in education from the University of Missouri in 1945.

Miss Elmore served as executive secretary for the Oregon State Nurses association and served in the same capacity for the state of Missouri. She accepted the position with the American Nurses' Foundation in March, 1960.

Miss Elmore has also served as assistant director, department of diploma and associate degree programs, with the National League of Nursing. She is a member of the American Nurses association and the National League of Nursing, both professional associations. She is also a member of Kappa Delta Pi, honorary society of education.

A faculty luncheon, hosted by Executive Vice President and Mrs. Kenneth E. Young, was held in Miss Elmore's honor yesterday. That afternoon the Student Nurses association held a tea in her honor.

Holstine To Head Reno Executives

Dr. Garold D. Holstine, dean of the college of education, is the newly elected president of the Reno Executives club.

At the official meeting of directors Wednesday, March 28, Dr. Holstine, who has held the vice-presidency and served as one of the directors of the board, moved up to the top office for the 1962-63 term.

To keep its members well informed on national and international matters of importance, the Executive club sponsors conferences and lectures with nationally and internationally-prominent people.

The May meeting will have Charles Taft, brother of the late Senator Robert Taft as speaker.

DRI Scientist Talks Climate

Can man make long-term major changes in climate? Dr. Lewis Kaplan will discuss this possibility tomorrow night at 8 p. m. in a lecture entitled "Climate Control."

He will not deal with weather modification as it is popularly thought of in terms of cloud seeding or other efforts to influence individual clouds or transitory weather systems.

Dr. Kaplan's subject contemplates drastic means such as filling in the Straits of Gibraltar, damming the Bering Straits, and making passages in mountain ranges to allow damp sea air to pass.

This is the third in a series sponsored by the Public Occasions committee and the Desert Research Institute called "Weather, Water and the Desert."

Dr. Kaplan is a specialist in this field, as well as in heat transfer in the atmosphere; atmospheres of other planets; infrared spectra of carbon dioxide, ozone and water vapor; and temperature and pressure in atmospheric transmission.

He has had research experience at the Princeton Institute of Advanced Study, Massachusetts Institute of Technology, and the US Weather Bureau in addition to teaching assignments at New Mexico and Chicago.

Dr. Kaplan has served as advisor in the earth satellite program in meteorology and as consultant to the Rand Corp.

He is now serving with the Jet Propulsion Laboratories, California Institute of Technology, and part time with the Desert Research Institute.

The lectures in this series have been so well-attended that it has been necessary to move to a larger room, the faculty dining room.

Manchester Wins Guessing Contest

Winning contests is old stuff to Charles Manchester, and if he keeps it up, he could become a thorn in the side of enterprising contest promoters.

Last week, Manchester was announced winner of the Micropoint Guessing contest, an affair sponsored by the ASUN bookstore and the Micropoint Pen company.

The object was to guess how many pen caps there were in a jar placed in the book store. There were 2433.

Manchester, who won the Sigma Alpha Epsilon Mexican trip raffle earlier this year, guessed 2450 and won. His prize is a Motorola stereo set.

Kathy Reece finished second, guessing 2382, and walked off with a transistor radio by Bulova.

Third, fourth, fifth and sixth-place winners received Bulova wrist watches. They were Shambhu Khamna, third; Reba Surine, fourth; Fred da Costa, fifth; and Larry Wiseman, sixth.

Prizes seven-through-ten were chrome micropoint pen sets, and Terry Markwlel won two, taking seventh and ninth places. Al Maher was eighth, and Bob Spears was tenth.

Neutrality, as a lasting principle, is an evidence of weakness.—Kosuth.

The Heavier Touch

By DICK DORWORTH

IN DEFENSE OF THE CONSEQUENCES

At this writing I do not know if Benny (Kid) Paret will live or die or only exist as a semi-vegetable. Any of these could be the case. Paret is a great boxer who suffered the consequences of his sport at the hands of Emile Griffith in a fight for the world welterweight title. Whenever a tragedy of this sort occurs there are those who cry for the abolishment of boxing; others attempt to pinpoint the blame on someone, since they believe that blame must be attached to something tangible; and others rave about the prevention of tragedy and claim that by following their particular set of rules such things could never happen. Governor Rockefeller ordered a full investigation of the fight. The New York Boxing Commission cleared everyone of blame for Paret's beating, which, of course, is the only sensible thing to do.

But the boxing world will be in a turmoil for awhile — until the fight and Paret are forgotten in the tide of events, only to be remembered when the boys gather round to talk about who ran the fastest, could jump the highest, and was the toughest.

Paret's severe beating is a harsh example of the consequences of a harsh and demanding sport. Von Tripps and Bill Vukovich and Ascari suffered the consequences of car racing. Manolete died in the bullring. A girl named Jill Kinmont has been paralyzed for seven years because of a ski racing accident. Jack Regas lost his memory and much of his muscle control when his hydroplane flipped. There are other examples but the point is this: though each of these is a tragedy and, thus, sad, each was incurred by a contestant in mankind's struggle within himself to draw forth the ultimate from himself. Anyone who boxes, drives, fights bulls or does anything else is aware of the consequences of his actions. A man (or woman) who expresses himself in a manner dangerous to his being acknowledges his acceptance of the responsibility for the consequences of his actions by his own perseverance.

So do not waste tears on Paret or others like him. They are not to be pitied, but, instead, admired and studied in the hope of learning something about how a man should live. If Paret had stayed in the Cuban sugar cane fields sweating for two dollars a day, and with only the hope of another day like the last one to sustain him, then he would demand pity. He was a world champion who lost his title nobly while fighting to retain his dignity as a man. Very few men fight for their dignity. Those who do are to be honored, not pitied.

This may sound unsympathetic, but it is not. I have much feeling and great sympathy for Paret and for his family. But the sob sisters allow their sympathy to turn to pity and rob Paret of his strength as a person and dignity as a man in their eyes; and that is not right. He should be thought of as a talented boxer who was tough, strong, and noble, and who accepted and incurred the consequences of his profession.

Did you know that twenty-five years ago Sam Basta was president of the Sundowners? Now I have heard the honorable Dean say that in his day the Sundowners were an entirely different kind of group than the present one. He claims that in his day the Sundowners were clean, courteous, kind, helpful, obedient, etc., and never took a drink within ten miles of town and never, never gave drinks to the co-eds. ("A man's club for men.")

On the other hand I have heard others say that if there is any difference between the Sundowners of then and now, or any other time, it is that they are a little quieter now.

But, then, think how little you can remember of twenty five years ago.

My apologies for not getting a column written last week. It really wasn't my fault. The blame lies on Doug Salter. He promised me that I would be able to type at his house; and when we got there I couldn't type a thing. Salter lied.

Bill Adams At Purdue Meet

Bill Adams, assistant director of Student Services, is in LaFayette, Indiana on the campus of Purdue University attending the 39th annual Association of College Unions international conference. Adams left Sunday and will return after the conference ends April 4.

Adams will serve as chairman of a session on central purchasing at a meeting in the Purdue Memorial Union today.

As he returns from the convention, Adams will stop at Arizona State College for a look at student facilities at Tempe, Arizona.

During the Purdue conference, the five hundred delegates will discuss the balance that the college union administrator must maintain between educational objectives and progressive business management.

Nearly five hundred colleges in the United States, Canada, England, Australia, Japan, Mexico, Puerto Rico, South America, and the Philippines are members of the Association of College Unions.

Business Seminar To Study Profits; Begins Study On Campus Tomorrow

"How to increase net profit through practical management for small business owners and managers," is the theme behind the Business Management Seminar scheduled for the University of Nevada beginning tomorrow, April 4.

These conferences will be held Wednesday evenings, from 7 to 9 p. m., in room 204, Ross hall. Reservations are being accepted from owners and managers of small businesses for the limited registration of 35 persons.

A fee of \$50 will be charged. This includes all instructional materials, aids, notebooks, instruction, publications, and a graduation dinner. Certificates will be awarded to those who attend all sessions.

Subjects for the meetings are: Organizing the Owner-Manager's Job; Human Relations In Small Business; Are You Kidding Yourself About Profit?; Financial Statements and Taxes in the Small Business; Working Capital, Getting it, Using It, Maintaining It; Successful Merchandising, Sales and Advertising Policies; the Small Businessman and the Law; and Planning for the Future.

Conducting the sessions will be Jere N. Helfat, president of Jere Helfat Associates, Inc., management consultants of Cleveland and San Francisco, and Dr. Robert Goodell, chairman of the management department at the University of Nevada.

Other instructors include Robert Sprowl, executive vice president of William B. Logan and Associates of San Francisco, and James M. Hoyt, chairman of the department

School To Host Russ Mines Man

The Mackay School of Mines will host a Russian geochemist April 6. The Russian scientist, Krashkoy, will give a series of lectures and visit nearby mining districts.

The Soviet Union Academy of Sciences is working in co-operation with the United States National Academy of Sciences. The United States is sending a scientist to Russia in exchange.

Krashkoy will speak on his specialty, granitic igneous rocks, which means rocks which were once molten. The Mackay School of Mines will then escort him to mining districts in this area to view representative mining operations.

The specific locations of his visits have not yet been announced. The owners of various mining properties have to give permission for the visiting Russian's tour.

A spokesman for the mining school said it will be Krashkoy's first visit to the United States.

Gamma Phis Hold Parents' Weekend

A luncheon and fashion show at Hidden Valley country club was the opening social activity for a parents' weekend held by members of Gamma Phi Beta Saturday and Sunday.

The sorority women hosted their mothers to the fashion show Saturday at 12:30. Models included ten members of the active chapter and four mothers.

That evening a buffet dinner was served to Gamma Phis and their fathers at the sorority house on North Sierra street.

The weekend's activities were topped off with a Sunday morning brunch for both parents and a tour of the University campus.

Mining Prof Aids Alliance For Progress

Dr. Anthony L. Payne, associate professor of mining, will go to South America next month to visit mining schools. The visit is directly connected with President Kennedy's Alliance for Progress.

Dr. Payne will visit the University of San Marcos in Lima, Peru, the University of Chile in Santiago, and the University of Chile in Lima.

The visits are planned to emphasize educational rather than economic aid for Latin America. Dr. Payne will attempt to work out agreements with the universities to send several students to the University of Nevada. Dr. Payne said, "We expect the first group of students next fall."

As a representative of the Mac-

kay School of Mines and the United States National Academy of Science, Dr. Payne will also talk with South American mining experts on improved ways of mining exploration and refining.

The University of Nevada was chosen to send one of the first representatives in the mining program because it parallels Chile and Peru closely in regard to social, economic, and cultural ties.

Get Lucky

the taste to start with...the taste to stay with

What makes Lucky Strike the favorite regular cigarette of college smokers? Fine-tobacco taste. It's a great taste to start with, and it spoils you for other cigarettes. That's why Lucky smokers stay Lucky smokers. So, get with the taste you'll want to stay with. Get Lucky today.

ONE, TWO, THREE

Wolf Pack Whiffs; 3 Straight To OSC

The Nevada baseball team fell below the .500 mark for the season after dropping three games to Oregon State over the weekend.

The Wolf Pack's record dropped to 4-6 for the season following the series sweep by the Beavers from Corvallis. Oregon State took the first game, 9-1, at Moana Stadium Friday night and swept both games of a double-header Saturday at Fallon, 16-3 and 5-3.

Bob Reid went the nine-inning distance for Nevada Friday at Moana and did not walk a man but fell victim of eight costly errors behind him and suffered his third loss of the season.

Oregon State rallied for three runs in the second inning and four more in the fourth in the opener off Wolf Pack starter Pete Leavitt to sew it up as the Nevadans committed six errors to go with 16 Beaver hits for the one-sided Oregon State victory.

Rusty D'Anna relieved Leavitt in the seventh as the freshman right-hander from Fallon took his first loss of the season after two straight triumphs.

Nevada's scoring came on a double by Gordy Lemich in the fifth followed by a single by Max Culp, and a double by Scott Nielson and a walk to Marv Van Curen in the sixth and the pair came home on a single by Lemich and a sacrifice fly by Hank Ebbert.

The Beavers picked up three runs in the first inning of the nightcap and held on to make it a clean sweep of the three-game festivities over the Wolf Pack.

Right-hander Don Banta, sophomore from Las Vegas, went all the way for Nevada to take the loss.

Nielson and centerfielder Jack Renwick batted in runs for the Wolf Pack as the Silver and Blue tallied twice in the third and once in the sixth.

If a man write a better book, preach a better sermon, or make a better mousetrap than his neighbor, though he build his house in the woods, the world will make a beaten path to his door.—Emerson.

SPORTS

Pack Preps For Ring Tournament

The scheduled dual boxing meet between the University of Nevada and the combined Stanford-Santa Clara teams there Saturday was cancelled as both teams lacked entries in several weight divisions.

The bout was the final one on the Wolf Pack schedule in its initial year in the amateur-minded California Collegiate Boxing Conference.

The CCBC championship tournament is set for Friday and Saturday in San Luis Obispo, Calif., capping a long season for the Nevada boxers and coach Jimmie Olivas.

Olivas is entering five Wolf Pack pugilists in the CCBC title tournament. The undefeated "Big Three" of Steve Parker, 132, Skip Houk, 147, and Lonnie Tolano, 165, lead the field for the Silver and Blue.

Dave Stix, 156, although a loser in six out of seven bouts this season, has been improving rapidly and could be a threat in the season wrapup.

Junior Ken Munley, former all-around Manogue athlete, has had only one fight, and lost, but will go in the heavyweight division for Olivas.

Montana Wins Nevada Match

Montana state college riflemen captured the seventh annual Nevada Invitational Small-bore rifle shoot held at Nevada Friday and Saturday.

Five Montanans fired a combined score of 3831x4000 to top nine other squads from western universities. Teams participated from Montana state college, California at Berkeley, Davis, and Los Angeles; Stanford, Montana state university, Utah state, Nevada, San Jose state, and Texas Western of El Paso.

California's Golden Bears, defending champions, came in second in the shooting with a 3826x4000 rating.

The University of Nevada finished seventh. Team members included Paul Gerth, Ted Knowles, Don Arkell, Larry Bennett, Carl Koicum and Rob Robertson.

Nevada coaches were Capt. Joseph E. Moore and M/Sgt. Roy T. Lindquist.

Scholarship Forms Due Next Week

The deadline for turning in applications for scholarships is April 10. The applications may be picked up in room 203 of the education building.

A student must have an over-all grade point average of 2.75 to be eligible to apply.

The applications have been very slow coming in, according to Dr. Robert McQueen, chairman of the scholarship committee.

Pages Get Ready To Turn National; Recruit Freshman Women in 3 Weeks

Pages, a sophomore honorary service organization, will soon select new members.

All girls who will be sophomores next year and have a 2.5 grade-point average are eligible to apply. Application forms may be picked up in the Student Union building beginning today, April 3, and must be returned to one of the Pages by April 27.

A tea will be held for applicants May 1, and twenty girls will be chosen from among that group. Members will be selected on a basis of scholarship, activities, and desire to become a Page.

This is the third year that Pages have been on this campus. Their activities include helping with registration, ushering at luncheons and fashion shows, assisting in fund drives, giving a party for under-privileged children, sponsoring the Ugly Man dance, and generally serving the University.

The name, Pages, will probably be changed next year to Spurs, after the group becomes affiliated with the national service organization.

met first, but a national officer is scheduled to visit the Pages in April or May.

Seniors Keep Dates

"It is mandatory that seniors who have signed for interviews with job recruiters keep their appointments," says W. E. Rasmussen, director of graduate placement.

If it is impossible to keep the appointment, seniors should notify the graduate placement office, room 104, Ross hall, prior to

Interviews for the next two weeks are: Prudential Insurance company for business administration, economics, math, and liberal arts majors, Tuesday, April 3; Southern Pacific company for anyone interested in railroad management, Friday, April 6; Lawrence Radiation Laboratory for electrical engineering students, Tuesday, April 10; Personal Products corporation for business administration and liberal arts majors, Friday, April 13.

Clarinetist Here Tuesday, April 10

"I do not play the clarinet. I play music on it. I use it to express my personal feelings in sound."

These words, spoken by clarinet soloist Reginald Kell, express the attitude of music to be heard Tuesday, April 10, at 8 p. m. in the dining commons.

The concert, jointly sponsored by the Modern Music center, University Bands, and the dining commons, will feature Kell and will include "Six Studies in English Folk Song" by Vaughn Williams.

Born in York, England, Reginald Kell began playing the clarinet professionally at 16, and at 25 was the youngest professor on record at the Royal Academy of Music. When he was 33 he was elected a Fellow of the Academy, an honor given for services to music and usually reserved for persons more advanced in years.

Kell has been principal clarinetist with the Royal Philharmonic, London Philharmonic, London Symphony, Royal Orchestra Covent Garden, and other leading orchestras including the Toscanini International Orchestra at Lucerne.

He was appointed adjudicator of the International Festival in Vienna 1938, and he conducted the NBC Orchestra wind section at the time of Toscanini in recordings of Mozart Serenades. He became a clarinet soloist in 1944 and has lived in the United States since 1948.

Kell has appeared in every state but Hawaii, and all provinces of Canada. During his last tour of Alaska and the Yukon, he gave 42 lecture-recitals.

Business Law Professor Undergoes Surgery

Dr. Kathryn H. Duffy, assistant professor of business law, real estate and insurance, underwent surgery Monday at St. Mary's Hospital.

Her recovery is reported to be satisfactory.

Dr. Duffy is not expected to return to teaching until next semester.

Campus Swarms With Debate Men In Nevada Tourney

Words and witticisms of representatives from more than a dozen colleges will engulf the University of Nevada campus this week as two speech tournaments unfold.

The Pacific Forensic League tournament started yesterday and will finish Wednesday. The league, the oldest intercollegiate forensic and restricted to colleges with outstanding speech programs.

The meet is competitive with one debate team and one entrant for individual events from each college. Members of the debate team are sophomores Larry Struve and Pat Clary.

Dr. Robert Griffin, director of forensics at Nevada, is conducting the tournament. He is now serving an unprecedented second consecutive term as president of the league.

At last year's tournament, held at Washington State university, Nevada's Stan Smart took second place in both oratory and the after-dinner speaking.

Competitors represent the institutions of Stanford, Whitman, Oregon, Arizona, Idaho, Washington, Nevada, Oregon State, Occidental, Humboldt State, and Gonzaga.

USAF \$84,000 For Metal Study

A research grant of \$84,930 was made to the physics department by the United States Air Force Office of Scientific Research of the Office of Aerospace Research, President Charles J. Armstrong recently announced.

Under the direction of physics professor Dr. Philip C. Bettler, the three-year grant will be used for the support of research entitled "Field Emission Studies of Surface Migration of Refractory Metals."

Dr. Bettler said the research work will be directed toward the experimental study of the mechanisms of surface migration of a metal on its own crystal lattice by field emission methods.

"The demand for new and better materials to satisfy the needs of modern technology has evoked a renewed interest in the study of the fundamental properties of refractory metals and other materials of high tensile strength at high temperatures," Dr. Bettler commented.

Dr. Bettler received his BA from the University of Oklahoma in 1940 and his MS in 1942 from the same institution. He earned his Ph. D from Oregon State College in 1956.

Courses Prepare For CPA Exams

Certified public accountant candidates for the November 1962 examination will be able to obtain a review course from the University of Nevada this summer. Accounting 491 and 492 are being offered by the evening division.

The courses will begin May 22, and end Oct. 27. Classes will be suspended from July 1 to July 21. Meeting times will be Tuesday and Thursday evenings from 7 to 9:15 p. m.

Benjamin L. Smith, who is engaged by the Nevada Tax Commission as a consultant, will be the instructor. Smith received his B. S. degree in business administration from Marietta College in Ohio, and his M. B. A. degree, with a major in accounting, from the University of Maryland. He also has C. P. A. certificates from Maryland and Ohio.

Profs Air Views During Program

"Viewpoint" — featuring the ideas and opinions of University of Nevada administration and faculty members — is a radio program to begin shortly in the Reno area.

Developed jointly by the University audio-visual communications center and statewide services program, the 15-minute weekly program will be heard over station KOLO in Reno. Tapes of the talks will be available to stations throughout the state.

The first of the talks will be by President Charles J. Armstrong, on "The State of the University." Other upcoming speakers will be Wendell A. Mordy, director of the Desert Research Institute; A. L. Higginbotham, chairman of the journalism department; Capt. Noel Craun of the military department.

Although the speakers will all be from the University, they will not necessarily speak on academic subjects.

Director and announcer for the program will be R. Terry Ellmore of the speech and drama department.

C.E. Prof Ailing

Dr. Keith A. Yarborough, assistant professor of civil engineering, is reported to be ill. Professor John A. Bonell, chairman of the civil engineering department, says he has the measles.

"We hope he will be back soon," said Bonell's secretary.

Dr. Day Tells Battle Of Sexes

The flat statement that women should not try to compete with men, but should instead concentrate on fulfilling the role of wife and mother provoked a lively discussion at the YWCA-sponsored Faculty Fireside last week.

"The Changing Roles of Men and Women", topic of this first of four firesides, was led by Dr. Willard Day of the psychology department.

The student group explored some of the factors which have altered the attitudes of men and women toward themselves and each other in our increasingly complex society.

"We had a ball!" said Dr. Day, at whose home the fireside was held.

Judith Armstrong was YWCA chairman for the meeting.

... Gerow, Mackedon

vided, that senator must be an Independent.

Students wishing to vote must present their ID card and observe the precinct voting procedure.

Absentee ballots are available for those unable to be on campus tomorrow.

Candidates for Business Administration senator are Marsha Frankovich, Harvey LoSasso, Lyle Rivera and Robert Rusk. The ASUN executive council nominated three candidates from Mackay School of Mines but none of the students had the required 2.2 grade point average needed to run for office.

StereoStuff

By SANDY HALL

Sounds of the Kingston Trio will be heard this week at Concert in Stereo with their newest album, "College Concert." This album was recorded in the grand ballroom of the new Student Union building, on the campus of the University of California at Los Angeles.

It offers a program of songs never before recorded by the Trio, plus brand-new performances of some of their greatest hits. This on-the-spot recording of unsurpassing quality includes "Little Light," "Coplas Revisited," and "M. T. A."

The Trio's latest hit, "Where Have All the Flowers Gone," is also a part of the program.

Concert in Stereo is also featuring Bud and Travis this week. Bud Dashiell and Travis Edmonson, the stars of the album will attack any area of song from Beethoven to bop, blues, pop, rock-and-roll, Spanish, French, or American folk songs. They are also highly talented composers of original material.

In this particular album, Bud and Travis join talents to offer versions of their favorite collection of songs: "Malaguena," and "Florecita" are ever-popular Spanish songs. "Delia's Gone" and "They Call the Wind Maria" are favorite folk ballads. Also included are "Truly Do" and "South Wind."

Concert in Stereo is held in the dining commons every week from 3 - 4:30 on Tuesday and Wednesday afternoon.
