

REAPING THE BENEFITS of his newly-acquired title—"Playboy of the Year"—Gordon Corn gets a kiss from Audrey Chambers, U of N majorette and reigning "Miss Nevada." Corn, crowned top ladies' man Friday night, represented Lambda Chi Alpha.—Artemisia photo.

Gordon Corn Wins Coed OK As '63 'Playboy of the Year'

Gordon "Kissin" Corn, 21-year-old aspirant from Lambda Chi Alpha, was named 1963 "Playboy of the Year" Friday night in an annual dance sponsored by the Student Union.

Corn, a 5-foot-11-inch pre-dental major with brown hair and hazel eyes, succeeds fraternity brother Dennis "Action" Golden as man-about-campus. He received a one-year subscription to Playboy magazine, a trophy, and a rabbit emblem.

It was the fourth time a campus playboy has been named. Golden, Tim Griffin, and Ed Allison are Corn's predecessors.

The award climaxed an active three years of collegiate social life for Corn, who is now a junior. In taking office, he immediately announced himself in favor of a progressive program that would include, among other things, the "abolition of womens' hours."

"I'd be happy to push for . . . better fraternity - sorority relations, via parties," said Corn.

Corn also came out in favor of brief cases for all students. "They make such fine portable bars for campus interclass activities," he noted.

It's been a rough road to the

title, however, and Corn is the first to admit it. Campaigning for "Playboy" "sort of nullifies any studying," he noted.

His next move—now that he is on top of the campus social whirl? "Hit the books," said Gordon.

Andy MacKenzie, Alpha Tau Omega; Otis Marston, Lincoln hall; Joel Glover, Sigma Alpha Epsilon; Don Dalton, Sigma Nu, and Sky Steadman, Sigma Phi Epsilon.

Student Meeting Not 'Inquisition' Says Governor

By BRUCE POZZI

SCOTTSDALE, Ariz. — Gov. Grant Sawyer late Sunday night commented from his hotel suite at a Scottsdale resort about the three man Nevada Southern delegation with whom he met Thursday afternoon.

The Nevada Southern delegation—Wendell Johnson, editor of the Rebel Yell, Pat Cavanaugh and Ron Hamilton, staff members—met Thursday afternoon with Governor Sawyer to discuss problems confronting the southern branch.

Johnson said, "We wanted explanations on why there is so much trouble in getting bills passed. We wanted to learn the cold facts on where we stand."

The delegation also met with the Governor to convey their apologies for recent demonstrations. Johnson said that the demonstrations "showed loyalty."

Governor Sawyer told the Sagebrush: "If they want to demonstrate that is fine, I commend them for it. But they did not come to challenge me. If they did they were mistaken."

The Governor further said that he had agreed to appear at Nevada Southern before the student body on May 17 to state his position on the southern regional division.

The governor also said that reports in the two local Reno newspapers were misleading and left a feeling that the meeting was an inquisition. "It was not," he stated.

Sawyer also commented on one other statement made by Johnson.

Johnson had said, "Perhaps this was a political move by the Governor. We want to find out if he has helped Nevada Southern as much as he said he has."

"You don't have to conjecture, they can take a look at the record and decide for themselves," said the Governor. "One does not have to wonder."

"I am not talking about anything but the record; he can take a look at it," he said.

Cadets Lose in ROTC 'War'

Plodding through intermittent snow flurries and partial blizzards, 30 advanced ROTC juniors participated in the second annual ROTC maneuvers Friday and Saturday.

The overnight field problem, part of the juniors pre-summer camp training featured exercises in tactical marching, night patrolling, platoon attack, reconnaissance, and the care and cleaning of equipment.

The juniors, organized as an infantry rifle platoon, marched into a bivouac area north of Sparks in the Pyramid Lake hill country. As they moved up a road, they were taken under fire by two snipers, who then fell back, allow-

ing the juniors to run into the regular "aggressor" force.

When night fell, the juniors were divided into four squads and sent out to obtain information about different aggressor posts. The aggressors, huddled in the snow for three hours waiting for the juniors.

Briefing began for the main attack about 4 a. m. in the morning. The main attack, however, on an aggressor defensive position in hilly terrain, was not made until about 8 a. m.

Most of the juniors were killed, as they failed to deploy into an assault formation. Instead, they approached their objective in a

U. S. Leads Russia In Space Race Says Willey Ley

By DOUG BRUCKNER

The United States is winning the space race on three fronts according to Willy Ley, a pioneering space and rocket writer, who addressed a University of Nevada audience Sunday night.

According to Ley, America leads the Russians in number of earth-orbiting satellites by a 3-to-1 margin. The USSR

Men Outnumber Coeds at Nevada

The boys still have an advantage (or disadvantage) over the girls on the University of Nevada, Reno campus. According to a spring enrollment breakdown issued by the Office of the Registrar last week, there are only 915 girls for the 1,772 men in attendance.

Altogether, there are 1,687 matriculated students on the Reno campus. Of these, 2,077 are residents of Nevada; 430 are from California; 143 are from states other than Nevada or California; and 37 students are from foreign countries. China and Korea each have six representatives. India has five students on campus.

In an enrollment breakdown by colleges, the College of Arts and Science leads with a total of 1,073 matriculated day students. Education has 594; Business Administration, 426; Engineering, 269; Agriculture, 186; Mackay Mines, 87; and Nursing, 52.

In the breakdown into classes, Freshmen lead with 553 men and 371 women. The sophomores have 370 men and 203 women. In the junior class there are 344 men and

Block 'N' Picnic Is Kept Secret

Plans are being made for the annual Block "N" picnic, but Mike Henderson, president, has declined to reveal the when or the where of the affair for fear of feeding athletes who have not paid their share.

Members wishing to attend should pay \$1.50 to Henderson, Tom Cook or Kaye Won by Friday, he said. Henderson indicated that the time is "just around the corner," but would not comment further on the shadowy affair.

rocketeers are also behind in the number of scientific discoveries. Ley attributed this Russian lag to "a program which seems exclusively concerned with putting man in space." The third U. S. advantage on Ley's celestial scoreboard is the "quality of scientific discoveries."

The former German scientist, who fled Hitler's Nazism in 1935, predicted large returns from what he calls "working satellites." Ley said that the U. S. is working on or is now orbiting, satellites that aid in communication, help predict weather, and aid in navigation.

He pointed out that these projects would be much more economically rewarding than a trip to the moon.

After he had comforted his dining commons audience with the pleasant side of the US-USSR rocket contest, he underlined the Russian's superiority in carrying the heaviest payloads. However, Ley does believe, "we could catch up in payload if we wanted to . . . the Russians have achieved superiority in the payload weights because they have simply built larger rockets."

Viewing the breathless push by the two world powers for a manned landing on the moon, Ley emphasized the importance of continued efforts at pushing further into space after the moon has been reached.

"I am afraid the space scientists will quit working after the moon has been reached. The last step in space travel is only the beginning of the next one," he said.

A few years ago, when starring in a "Disneyland" television production on space travel, Ley showed viewers his conception of what a United States space station might look like.

Today the station, which was only hazy prospect when the television program was produced, is within close reach.

"We could have a manned space station in four years," Ley pre-

A House Divided

During the session of the current Nevada legislature, one of the favorite topics of conversation among students, faculty members and administrators of the University of Nevada has been the University budget. Long and loud outcries against cuts in the budget have been raised by all factions.

Now that the legislature is near adjournment, however, and the fight finished for another two years, University supporters might look seriously toward another danger to the future of the University. That danger lies in the noisy determination of southern Nevadans to raise the University's Las Vegas division to a position equal with the main campus in Reno.

Evident of this determination is the moniker they have tacked on the southern regional division—"Nevada Southern University"—although "NSU" is only considered on a par with any of the University's seven colleges.

The latest move toward equality took the form of a 50-50 split on book appropriations. The Reno campus got \$125,000 and old "NSU" took in a like amount. If this action is any indication of things to come, then the main campus will be placed on a two-way appropriation dole with its southern fledgling in the future.

This means two things: (1) Nevada Southern, even with a 50-50 split, will not be equal to the Reno campus in the foreseeable future, and (2) the University of Nevada will fall behind in its effort to raise itself to a competitive position with other universities.

The University of Nevada is on the move in academic circles. It has Ph.D programs, a library that is on the way up, improved faculty and academic standards, and some branches. It should be remembered that Nevada Southern is a branch—a southern regional division—and nothing more.

If Las Vegans continue their pressure for equality, they will succeed only in weakening the University as a whole. The most sensible action on their part would be to finance expansion themselves. The main campus, serving an entire state in all levels of post-secondary education, must not be weakened by the pressure of sectional interests.

Robbing Peter to pay Paul in this instance can result only in leaving both too weak to meet the educational demands of the nation's fastest growing state.

Other Editors . . .

Too Lazy to Dupe

From the Chico State Wildcat: For some strange reason there are people around who believe that college students, state college students in particular, are ripe material for "liberal agitators." These people appear to be afraid that students are being indoctrinated with "liberal" ideas and this will eventually lead to the overthrow of the government or something.

The amusing part of the whole thing is that the people who make these assertions have never been to a college like Chico State. If they had they would realize that the students around here are far from being communist dupes. It isn't that CSC students are any smarter than other college students, or have received a better education in Americanism — it's just that CSC students are too lazy to be dupes — communist, liberal or otherwise. This doesn't hold true for all Chico Staters it is true. But the vast majority of students around here are about as politically minded as a Palaeolithic stone mason.

People sometimes wonder what would happen if a real live communist was allowed to speak on campus. What would happen is simple — the students would yawn and the twonspeople would scream.

The idea that perhaps in the state college system there is an "imbalance to the left" is ridiculous. If the charge had been made that there was an imbalance backward — like reclining — on the part of most students, we would have had something. But before you can lean to the left or the right you have to get up off your back — and that takes effort.

Tickets Selling For Spaghetti Feed

Tickets are now available for the annual WRA Spaghetti Feed, scheduled for Monday, April 29, in the dining commons. Awards for athletic activities will be presented at the affair, which begins at 7 p. m.

Greek women may obtain their tickets at the sororities. Dormitory women can get tickets from Jean DeLong (White Pine hall), or Ginger Warner (Manzanita hall). Off-campus women should see Barbara Edgington or Vickie Larcher.

Cadets Promoted In ROTC Brigade

The promotion of 52 basic course ROTC students in the University of Nevada brigade has been announced by Dr. Charles J. Armstrong, University president, and Col. Robert L. Gundlach, professor of military science.

In addition, three reassignments and four reductions were announced.

Promotions included:

—First sergeant: Robert Echeverria and William Pollard.

—Platoon sergeant: Michael Griffin, Samuel Martini, Ronald Watson, Jack Cooney, David Gardner, John Gascue, Gordon Nelson, Schuyler Steadman, John Gaynor, Frank Egenhoff, Laun Buoy, Larry Andreotti, Joel Glover, Carl Grauvogel, Mark Holcombe, Robert Bergam, Harry Massoth, Jon Culbert and David Montgomery.

—Sergeant: Roger Cooney, Michael DiSanza, Paul Neff, Dennis Walker, Jon Benson, Philip Loofbourrow, Edward Borla, Chester Humes, George Anastassatos, Bruce Cauble, Phillip Hanifan, William Bauer, Charles Drake, Natale Fiore,

Brent Fox, Herbert Nichols, Charles Parker, Jon Phillips, John Ball, Charles Bogue, William Co-wee, Allan Craigmiles, Paul Guisti, Michael Lane, Gerald York, Ronald Lueth, William McNeil, James Smith, Robert Adams, William Isaef and Allan McGill.

Reassignments included: Plat. Sgt. William Palmer from the color guard to Company B; and Sgt. Thomas Toleno from the Sierra Guard to Company D.

Sagers Meet

Freshmen men are invited to tonight's meeting of Sagers, underclassmen's service organization.

Freshman men interested in joining Sagers, underclassmen's service organization, are welcome at Tuesday's meeting of the group, announced Ted Zoehringer, vice president, Wednesday.

The meeting is scheduled for 7:30 p. m. in Ross hall. The groups will make plans for Mackay Day service activities at that time.

Letters to the Editor

Peter Nero Show Fortunate for TUB

Editor, the Sagebrush:

As part of the Student Union's expanded program of Special Events, pianist Peter Nero appeared on campus last Thursday night. His trio's performance was one of the best shows the Union has been fortunate enough to present, a fact attested to by the tremendous applause which followed practically every number.

But the show's success was also the result of the excellent lighting and, for the first time, effective sound equipment used for the performance. In behalf of the Student Union I would like to acknowledge the great debt of gratitude we owe to the three men responsible for the effective staging: Jim Mercer of Audio Visual for securing the sound equipment; Jim Bernardi, for his handling of the lighting effects; and in particular Bill Adams, for over-seeing these preparations.

Sincerely,
CLARK SANTINI
President
Travis Student Union

WORK in EUROPE

More Travel Grants

Apr. 19, 1963—The American Student Information Service, the only authorized placement service for American students seeking summer jobs in Europe, has increased from 1500 to 2000 the number of travel grants it will award students applying for positions in Europe.

Job openings now available in Europe include positions at factories, resorts, hospitals, farms, summer camps and in offices. Applications are received until May 31.

Interested students may write (naming your school) to Dept. H, ASIS, 22 Ave. de la Liberte, Luxembourg City, Grand Duchy of Luxembourg, for a 20-page prospectus, a complete job selection and application. Send \$1 for the prospectus, handling and an airmail reply.

The first 5000 inquiries receive a \$1 premium for the new student travel book, Earn, Learn and Travel in Europe.

The one lotion that's cool, exciting — brisk as an ocean breeze!

The one-and-only Old Spice exhilarates... gives you that great-to-be-alive feeling... refreshes after every shave... adds to your assurance... and wins feminine approval every time. Old Spice After Shave Lotion, 1.25 and 2.00 plus tax.

Old Spice — the shave lotion men recommend to other men!

Free TUB Coffee Highlights Fridays

TGIF means free coffee!

Coffee for students is being offered for an undesignated and ever-changing one-half-hour period between 9 a. m. and noon every Friday morning in the dining commons.

The free coffee period is being

headed by Susie Royer, chairman of the Student Union hospitality committee.

Oscar Brown's "Hymn to Friday" will signal the beginning of the period and "The Colonel Boogie March" will end the period, she said.

SIG EPS CROWN 'QUEEN OF HEARTS'

CROWNED Sigma Phi Epsilon's "Queen of Hearts" for 1963-64 Saturday night was Andrea deSantis, a sophomore enrolled in the College of Engineering. The fraternity's annual "Queen of Hearts Ball" was the occasion for the crowning.—Kerr photo.

New Dean Named In Engineering-- J. T. Anderson

A new dean for the College of Engineering has been named by the University of Nevada Board of Regents. He is Dr. James T. Anderson, who will succeed Dr. Howard B. Blodgett. Dr. Blodgett is retiring after six years as head of the College of Engineering. The appointment will become effective July 1.

Dr. Anderson will come from a post as chairman of mechanical engineering department at West Virginia University. He holds a bachelor's and a master's degree in mechanical engineering, both earned at Michigan State University. Dr. Anderson received his doctorate degree from the University of London.

Prior to being named head of the mechanical engineering department at West Virginia, he served for 14 years on the engineering staff at Michigan State.

The new dean is a member of several national engineering societies and has twice been awarded the distinguished teaching certificate from Michigan State University in 1955 and 1958.

Almost 40 persons applied for the Nevada post.

The annual producing capacity of commercial forest and woodland administered by the Bureau of Land Management in Alaska was 2.3 billion board feet of timber in 1960.

Student-Faculty Relations Committee Approves Sundowners, Independents

The Student-Faculty Relations sub-committee has approved constitutions for two widely known campus groups, the "Sundowners" and the newly formed Independents' organization.

The "Sundowners", an unrecognized campus club for 21 years, is completing the final steps for recognition, said Marsha Frankovich, ASUN second vice-president.

A "Sundowners" constitution was unanimously approved by Senate, and was discussed by the sub-committee for several weeks before its final approval.

All clubs, organizations, and living groups must have their constitutions approved by this committee before recognition is accepted by the ASUN.

The club lost its recognition in 1942, and did not re-apply for admission until this year. The purpose of the newly recognized club will be "good fellowship" and promotion of student leadership.

The proposed constitution of the unaffiliated Independent students was accepted after a delay of three months, caused by the usage of the term "GDP" in the Sagebrush.

Seminar Offered

A series of seminars for the owners and managers of small businesses is being offered by the University of Nevada through the Management Department and Statewide Services division.

The committee felt that the term was derogatory. The Independent constitution calls the organization the "Organized Association of Independent Students."

The members of the committee are Mary Rossolo; AWS President; Marsha Frankovich, ASUN second vice-president; Jim Acheson, ASUN President; Elaine Mobley, dean of women; Dr. John Rogan, and Dr. Kathryn Duffy, chairman; and Doug Buchanan, Sagebrush editor.

Two Tournaments Set For Debaters

University of Nevada debaters will compete in two collegiate speech tournaments during the next two weeks.

An invitational debate tournament at Montana State College in Missoula is scheduled for April 25-28, while the Pacific Forensic Tournament is slated April 29-May 1 at Seattle.

Rita Holland, Bruce Wilkinson, Cleve Canepa and Doug Lohse will represent Nevada in Missoula debate competition. Barbara Hardin is scheduled to compete in interpretive reading and extemporaneous speaking contests at Montana.

The Pacific tourney, an all-male event, will include Nevadans Ken Mullen and Bill Isaef in debate competition.

Student Loans Available Now

Students who intend to finance either summer session or 1963-64 calendar year studies with a loan from the government should apply to W. E. Rasmussen, director of financial aid.

\$125,000 is available for student use next year from the National Defense Student Loan foundation. Application forms are available in Rasmussen's office, room 104, Clark administration.

Forms for summer studies must be completed and returned by May 1, 1963, to secure commitment of funds by June 1. Applications for the 1963-1964 school year must be completed and returned by Aug. 15, 1963.

Full-time student status during the summer session is required, and applicants for summer loans must have held a National De-

fense Student Loan during the preceding fall or spring semester.

Last year, \$112,000 in loans were made to University students.

The loans are based on a simple three percent interest rate.

SHERATON HOTELS

SPECIAL STUDENT-FACULTY DISCOUNT

Now, vacationing students and faculty members can enjoy summer accommodations at Sheraton Hotels and Motor Inns, at special low rates! Thanks to Sheraton's Student I.D. or Faculty Guest Cards, you'll have a better vacation this summer for less money! Sheraton Hotels get straight A's in every department: Comfort, convenience, and cuisine. And if you're traveling by car, there's Free Parking at most Sheraton Hotels and at all Sheraton Motor Inns. Get these discounts at any of Sheraton's 80 hotels in the U.S.A., Hawaii and Canada by presenting your Card. To get a Sheraton I.D. Card or Faculty Guest Card with credit privileges, write us. Please state where you are a full time faculty member or student.

Mr. Patrick Green
College Relations Dept.
Sheraton Corporation
470 Atlantic Avenue
Boston 10, Mass.

Two New Cars are Born

*Avanti-inspired...
Bonneville-tested!*

**R2 SUPER LARK
R2 SUPER HAWK**

We designed two new cars—and built a lot of our record-setting Avanti into them: supercharged R2 engines... heavy duty springs and shock absorbers, plus anti-sway bars, front and rear... trac rods, rear... racing type disc brakes, the safest known and ours alone.

We named them R2 Super Lark and R2 Super Hawk and had Andy Granatelli

take them out to the infamous Bonneville Salt Flats for the final performance and endurance tests.

We could scarcely believe the results, but the official U.S. Auto Club timers confirmed them: R2 Super Lark—132 mph! R2 Super Hawk—140 mph! Two-way averages—under the most punishing weather and surface conditions. That kind of performance, combined

with their 'round-town manners, told us these cars were ready. R2 Super Lark and R2 Super Hawk are now available on special order at your Studebaker dealer's.

Flash: front seat safety belts now come factory-installed on every car—another advance from Studebaker.

CAMPUS CALENDAR

Call FA 9-3051 for items in calendar.

- Tuesday, April 23:**
 —Rifle club, Rifle range, 7 p. m.
 —Newman club, Newman center, 7:30 p. m.
 —Sagers, Ross hall, 7:30 p. m.
- Wednesday, April 24:**
 —"City Under Ice," ASCE film; room 213, Palmer engineering, noon.
- Thursday, April 25:**
 —Christian Science College Organization, room 215, Getchell library, 7 p. m.
 —CCUN folk dancing, new gym, 7:30 p. m.
 —Paiedea lecture with Dr. Erling Scorpen, "The Whole Man," faculty dining commons, 8 p. m.
- Friday, April 26:**
 —Pi Beta Phi dance, Hidden Valley country club, 7 p. m.
 —Kappa Alpha Theta dance, Lancer, 7:30 p. m.
 —White Pine-Manzanita hall dance, VFW dance, 9 p. m.
- Saturday, April 27:**
 —Baseball, Nevada v. Chico State, 1:30 p. m.
 —Track, Nevada v. Chico State, Mackay stadium, 1:30 p. m.
 —Sigma Alpha Epsilon overnight dance, Strawberry Lodge, 4 p. m.
 —Theta Chi dance, Lancer, 7:30 p. m.
 —Golf, Nevada v. Sacramento State, Hidden Valley country club.
- Sunday, April 28:**
 —Canterbury club, St. Stephen's Episcopal church, 7 p. m.
 —"Colossus of Rhodes", TUB movie, education auditorium, 7 and 9 p. m.
- Monday, April 29:**
 —English club poetry readings, Fine Arts lounge, 4 p. m.
 —WRA Spaghetti feed, dining commons, 7 p. m.

Sagens Add Thirty Coeds to Rolls Of Womens' Service Organization

The white blazer and blue tennis shoes of Sagens are now regular Thursday wear for 30 University coeds. They were named this month to membership in the upperclass womens' service organization.

Tapping ceremonies were held in Nevada sororities and dormitories on Monday, April 1, and concluded with a banquet at Monaco's April 18. The new Sagens include:

Delta Delta Delta: Elizabeth Williams, Rosemarie Haenel, Ruth Friedhoff and Judy Schmidt.

Gamma Phi Beta: Karen Carlson, Prella Ede, Dolores Dunning and Danny Ferrier.

Kappa Alpha Theta: Pat Howard, Linda Phillips, Joan Westfield, Marsha Frankovich and Barbara Beesley.

Pi Beta Phi: Muriel Ellis, Kay Sorenson, Judy Quanchi, Pat Plenn and Donna Sbragia.

Independents: Dawn Starr, Rose Ann Minister, Mimi Skillicorn (Manzanita hall); Molly Bundy and Judy Zagortz (White Pine

hall); Carole Hueftle and Jean Pagni (off-campus).
 Members-at-large: Gail Chadwell, Dorothy Gallagher, Rosemarie Lituania, Judy Morrison and Jean Tachaires.

Faculty Members At P-TA Confab

Three University faculty members participated in the annual Nevada Congress of Parents and Teachers in Winnemucca last week, April 17-20.

Dr. Garold D. Holstine, Dean of College of Education, was in charge of the Friday afternoon session for the Congress this year. He is vice-president of the State Congress and a member of its executive committee and on its board of managers.

Dr. Calvin H. Reed, professor of education, gave a report on "The Adventures in Space Science." The Dean of Statewide Services, Dr. J. Patrick Kelly, will assisted with the Friday afternoon panel discussion.

Campus Textile Lab Aids Consumers

By MIMI SKILLICORN

Tired of collars fraying, skirts tearing, sweaters pilling, and levis fading? Despite the new, so-called wonder fabrics, clothing does deteriorate even under ordinary use.

One department in the University is attempting to remedy this situation by conducting tests that will provide the consumer with information to guide buying.

A textile lab, located in the home economics building, allows home ec students, with the aid of complex machines, to test reactions of fabrics to conditions encountered in ordinary use.

If your slacks tend to tear, and your shirts seem to stretch, a "tensile strength tester" can save further clothing worries. "TT" measures the breaking strength of fibers and records the stretch and the amount of pressure it takes to tear a sample of cloth.

A common problem among college women is the constant balling of fuzz on sweaters and knit wear. A "pilling machine" is used to determine how susceptible a fabric is to fraying.

A "launder-o-meter" can determine in 45 minutes the results of a number of washings in a commercial laundry.

To test the resistance of fabrics such as the collars and cuffs, to fraying of man's shirts, an "accelerator" lined with abrasive can duplicate ordinary wear and tear. A propeller like attachment rotates 3,000 revolutions per minute.

Besides determining the positive and negative aspects of textiles, the lab is also equipped with facilities to measure the amount of moisture in a fabric. A special room with double doors, to insure a constant temperature, can detect the standard conditions of moisture in a fabric. The room is always kept at 75 degrees fahrenheit and at 65 percent relative humidity.

Fabrics that are to undergo this test are first put in a drying oven so that excess moisture will be removed before testing.

Facilities for determining the exact size and weight of yarn, and an instrument to measure how well dreperies, and fabrics hang are also features of the textiles lab.

In addition, the lab is equipped with a machine that measures the resistance of dyes to sunlight and the effect of sunlight on color and strength. This "fade-meter" can

speed up the effects of exposure more than one third.

A cleaning tumbler duplicates the effects on fabrics cleaned in a commercial dry cleaners.

Besides being a valuable aid to

home ec students, these machines can guide future housewives in determining what fabrics are the most durable and economical, said Dr. Marilyn Horn, professor of home economics.

Manzanita Women Host Recital

Manzanita hall held its third and final musical recital of the year Monday in the Fine Arts theater.

The program featured students from both Manzanita and White Pine hall. Performers included Joyce Cobb, saxophone solo; Priscilla Tang, vocal solo; Kathy Shoemaker, flute solo and Ann Field, piano solo.

Highlights of the evening were the performances of guests soloists from the faculty and students of the music department. They were Dr. Herman Chaloff, who played his own piano compositions; Barry Kagan, played a clarinet solo. He was accompanied by Dr. Willard Day. John Huak, played a cello solo and was accompanied by Dr. Chaloff.

HOW TO SEE EUROPE FOR ONLY \$300 A DAY: NO. 1

Summer vacation is just around the corner, and naturally all of you are going to Europe. Perhaps I can offer a handy tip or two. (I must confess that I myself have never been to Europe, but I do have a French poodle and a German shepherd, so I am not entirely unqualified.)

First let me say that no trip to Europe is complete without a visit to England, Scotland, Wales, Ireland, France, Germany, Spain, Portugal, Italy, Lichtenstein, Holland, Belgium, Luxembourg, Switzerland, Denmark, Sweden, Norway, Finland, Poland, Czechoslovakia, Latvia, Lithuania, Estonia, Russia, Greece, Yugoslavia, Albania, Crete, Sardinia, Sicily, Hungary, Rumania, Bulgaria, Lapland, and Andorra.

Let us take up these countries in order. First, England.

The old ones are thrown away

The capital of England is London—or Liverpool, as it is sometimes called. There are many interesting things to see in London—chiefly the changing of the guards. The guards are changed daily. The old ones are thrown away.

Another "must" while in London is a visit to the palace of the Duke of Marlborough. *Marlborough* is spelled *Marlborough*, but pronounced *Marlboro*. English spelling is very quaint, but terribly disorganized. The late George Bernard Shaw, author of *Little Women*, fought all his life to simplify English spelling. They tell a story about Shaw once asking a friend, "What does g-h-o-t-i spell?"

The friend pondered a bit and replied, "Goatee." Shaw sniggered. "Pshaw," said Shaw. "G-h-o-t-i does not spell goatee. It spells fish."

"How is that?" said the friend. Shaw answered, "Gh as in enough, o as in women, ti as in motion. Put them all together, you get fish."

This was very clever of Shaw when you consider that he was a vegetarian. And a good thing he was. As Disraeli once remarked to Guy Fawkes, "If Shaw were not a vegetarian, no lamb chop in London would be safe."

But I digress. We were speaking of the palace of the Duke of Marlborough—or Marlboro, as it is called in the United States. It is called Marlboro by every smoker who enjoys a fine, rich breed of tobaccos, who appreciates a pure white filter, who likes a soft pack that is really soft, a Flip-Top box that really flips. Be sure you are well supplied with Marlboros when you make your trip abroad. After a long, tiring day of sightseeing there is nothing so welcome as a good flavorful Marlboro and a foot-bath with hot Epsom salts.

Epsom salts can be obtained in England at Epsom Downs. Kensington salts can be obtained at Kensington Gardens, Albert salts can be obtained at Albert Hall, Hyde salts can be obtained at Hyde Park, and the crown jewels can be obtained at the Tower of London.

The guards at the Tower of London are called Beefeaters because they are always beefing about what they get to eat. This is also known as "cricket" or "petrol."

Well, I guess that about covers England. In next week's column we will visit the Land of the Midnight Sun—France.

Thinclads Smash Cal Poly, 108-52

By TOM DYE

Nevada's powerhouse track team fought its way through wind, snow, and cold and downed the Cal Poly Track team 108 to 25 in dual meet action Saturday at Mackay Stadium.

The Wolf Pack cindersmen turned in many outstanding performances in spite of the blizzard-like conditions. Larry Smith hurled the javelin 189 feet for a victory in this event.

Skip Houk churned to a 9:45 in the two mile despite the slippery track and poor visibility. Bud Forman, who set a Mackay Stadium record in the 880 the previous week, won the mile in 4:39.7. Freshman Tam Beardsley of Nevada, the appar-

ent winner in the mile, slipped ten yards from the finish line and fell to the track, but managed to get up and take second.

Big reight man Alex Darnes won the discus with a throw of 136 feet. Trouble developed in the event because of difficulty in finding the discuses in the snow.

Steve Holloway of the Wolf Pack came through with a double victory in the 330 intermediate hurdles, and the 120 high hurdles. Teammate John Manke blazed the 100 in 10 flat and the 220 in 22 flat. Manke managed to win the 100 despite false start that the starter failed to call back.

Other Nevada winners were: Larry Moore with a 5' 11" high ump, Stu Schraeder who broad jumped 20' 8" broad jump. Bob Rusk sprinted the 440 in 51.1, Sam Rutland won the 880 with a 2:06 and Jerry Bacigalupl won the pole vault with a 12 foot effort. These marks are far off their all time best, due to the blizard.

Cal Poly's only first place was a 40' 9" victory by Mike Curran in the hop-step-and-jump. Cal Poly did not enter a team in the mile relay.

Nevada has two more preliminary meets before the Far West Conference championship meets. The Silver and Blue meet Chico State at Mackay Stadium this week and a strong Sacramento State team the following week in Sacramento.

Pack Win Skein Lengthens With 7-6 Moana Triumph

By GARY HOLGATE

The Wolf Pack baseball team stretched its winning streak to three games Thursday when it defeated St. Mary's 7-6 at Moana ballpark. The game was called at the end of eight innings because of a pre-arranged curfew.

The Nevadans capitalized on a nine bases on balls that the St. Mary's hurlers yielded during the contest.

Right-fielder Barry McKinnon made the Wolf Pack's only extra base hit when he belted his third home run of the season over the left center field fence in the fourth inning.

The Gaels, who have been strong on hitting this season but weak on pitching and fielding, scored two runs in the top of the first inning with two singles and a double.

Nevada made the score 2-1 in the bottom of the first when Mike Silva walked and stole second. Shortstop Minnie Minster also walked and stole second. Silva then scored on an error by the shortstop.

There was no more scoring until the fourth inning when McKinnon's homer tied the score at 2-2.

In the fifth, the Wolf Pack exploded for five runs although they did not get a hit. Gael starter Ferrara lost his control and walked Jim Evans and McKinnon to force in two runs. Three more tallies scored on errors.

The Gaels scored a run in the top of the sixth as Wolf Pack hurler Don Collar started to tire. He walked center fielder Pruitt who then scored on singles by Lailolo and Burke.

St. Mary's made it 7-5 in the seventh as Mike Tamony walked and scored on Pruitt's double. Pruitt scored his third run of the game on a double by Lailolo.

The Wolves did not score in the bottom of the seventh and St. Mary's made their final bid in the top of the eighth when Pilara singled and was forced at second by Fellez.

Pilara went to third on a single by Morosi. Morosi tried to steal second, but Nevada catcher Joel Glover fired a perfect throw to Minster which erased the runner. Pinch-hitter Goza scored Pilara when he hit the ball down the third base line which Lou Dodson couldn't handle.

At this point, coach Bill Ireland called in left-hander Fred Dallimore from the bull-pen who retired the side with no more damage done.

The game was called at the end of the eighth frame because of a 5:30 p. m. curfew that was arranged before the game.

Snow caused the cancellation of Nevada's Far Western Conference opener with Humboldt State. It was the third time that the Wolf Pack has tried to open the conference race this season but the weather has forced all three games to be cancelled. The game will be made up later this month at Redding, California.

Things and Stuff: The Wolf Pack now has a 10 and 3 record on the season . . . The only teams that have beaten them are Shasta J. C., San Jose State and Chico . . . Barry McKinnon is now the leading home run hitter on the team with three, Minnie Minster has two . . . St. Mary's outhit the Pack 10-4, but the Gael hurlers walked nine men compared to Nevada's one . . . St. Mary's is now 5-10 on the season . . . Dennis Scott (4-0) and Don Banta (2-0) are slated for the mound chores as the Wolf Pack tries again to open the FWC race next Saturday in a doubleheader at Chico.

Governor's Day Scheduled May 9

May 9 has been announced as the date for 1963 Governor's Day, an annual ROTC ceremony, by Dr. Charles J. Armstrong, president of the University. Many civilian and military figures, including Gov. Grant Sawyer, are scheduled to be present.

Highlighting the two-hour event will be a review and parade of the ROTC brigade.

Other participating units will be the Sierra Guards, University of Nevada drill team; the Presidians, Sixth U. S. Army honor guard drill team; and the Sixth United States Army band.

The ceremonies will be open to the public.

Intramurals in Final Stages

There are only three more events for points in the race for the Kinnear trophy. They are golf, tennis, and track. Swimming and diving, fencing and archery are also on the program but no points will be awarded to the winners of these events.

Golf and tennis competition will begin Monday. The track meet will be held in early May and entries for the meet must be in by April 25.

The fencing championships will be held April 30, and the swimming and diving meet will take place April 27. The deadline for filing entries for these events is also April 25.

Entries can be filed either at the intramural office, room 107B in the new gym, anytime, or at the regular weekly intramural sports meeting, Thursday afternoons at 3 o'clock, room 101, new gym.

makeshift column-line formation, and half were killed before they reached the base of the hill.

They are alive and kicking today, however.

The aggressors, who served as the enemy on the problems, consisted of members of the Sierra Guard drill team and the senior class. Other ROTC seniors served as advisors.

"The juniors were in a better physical condition, and they had the distinction of being in the coldest April 19-20 in the last fifty years," said Col. Robert L. Gundlach, professor of military science.

"I think they (the juniors) learned by their mistakes, and having learned the difficult problems of leadership in the field, they should be well-prepared for summer camp," he noted.

... Space Race

(Continued from Page 1)

dicted Sunday night. He stressed however, that the establishment of a station is a "question of decision rather than necessity."

Ley delivered a brief lesson in rocketry to his University audience. He began by tracing scientific space plans to books published near the turn of the century. Ley told of the first liquid fuel rockets construction in the late 1920's. He himself worked on one of the first liquid fuel rockets in Germany.

In 1935, Ley related, rockets reached heights ranging from 6,000 feet (in Germany) to six miles (in Russia). In 1939, the Russian rocket-maker was told by his government to "quit the foolishness," an American rocketeer ran out of money, and the Germans were subsidized by the army. The result was the German V-2, which Ley called "the first of the large rockets."

When the Allies captured the V-2 factories and scientists, the Russians gobbled up most of the German rocket-makers, but the United States managed to get its share of valuable men.

Ley said the Russians had most of the scientists and equipment in an area they claimed. But before granting the Reds jurisdiction in the area, the United States captured its share of men and machinery.

One of the most interesting points in the history half of the Ley lecture, was his story of how a high school student in 1930 came to him seeking admission to the German "Society for Space Travel." Two years later the brilliant scientist was snatched by the German army. His name was Werner von Brahn.

Ten Senior Coeds Win Recognition

Ten senior women have been selected as the most outstanding in their class by the AWS council. The annual awards were made at ASUN installation ceremonies two weeks ago by Elaine Mobley, dean of women.

The women, selected on the basis of leadership and service to the University are: Mimi Patrick, Pi Beta Phi; Cecelia Molini, Independent; Marilyn Kotter Perozzi, Delta Delta Delta; Jeanne Sadler, Pi Beta Phi; Joan Gansberg, Delta Delta Delta; Linda Young, Kappa Alpha Theta; Pat White, Pi Beta Phi; Doris Fenili, Independent; Alice Ann Monaghan, Gamma Phi Beta, and Ellen Murphy, Pi Beta Phi.

Seven Coeds Seek Mackay Day Title

Candidates for 1963 Mackay Day queen have been nominated by Nevada's four sororities, two dormitories, and the off-campus Independents.

They include: Joan Gansberg, Delta Delta Delta; Kay Killfoil, White Pine hall; Penny Krueger, Manzanita hall; Ailceann Monaghan, Gamma Phi Beta; Ellen Murphy, Pi Beta Phi; Marilyn Peterson, Kappa Alpha Theta; and Joanne Pritchard, off-campus Independents.

Independents Meet

A meeting of the Independent Council has been scheduled for Thursday April 25 at 6:30 p. m. in the Aggie conference room. The purpose of the meeting, according to Doug Bruckner, council president is to discuss the ASUN spring elections and plan an activity for May.

Sac State Hosts U of N Coeds

Sacramento State College hosted coeds from the University of Nevada and colleges from Northern California in an Individual Sports Day Saturday.

The sports day sponsored by the Women's Recreation Association included participation in tennis, badminton, archery and bowling. Representing the U of N was Rosemary Lituania, bowling and Darrell Shone, archery.

Miss Iona Mowrer, Asst. Professor of the Physical Education department accompanied them.

A highlight of the event was a meeting of the Extra-Mural League. It discussed whether or not the league as such should be split in half, with one league for junior colleges and a separate league for four-year colleges.

Music Department Reveals Plans For '63 Lake Tahoe Music Camp

The Seventh Annual Lake Tahoe Music Camp for 1963 will consist of the regular full session, the Casavant workshop, and the Stan Kenton Clinic, it has been announced by the music department.

The full session will be held Aug. 5-17 at Lake Tahoe. The camp will offer instruction in band, chorus, and symphony orchestra.

The staff will be made up of 25 instructors from colleges, universities, and high schools in the West. Three University of Nevada music professors will be on the staff: Dr. John Carrico, director; Dr. Keith Macy; and Dr. Harold Goddard.

Students will be from junior high school through college age. Director workshops are also available in band, choir, and strings.

A three-day workshop for precision drill techniques will be held on August 5, 6, and 7. The workshop is under the direction of A. R. Casavant, nationally known authority on precision marching. This session will be Casavant's third year at the camp.

A Drum Major Workshop, also under the direction of Casavant, will be held August 8-10.

The Stan Kenton Stage Band Clinic will be held August 25-31 with a staff of 25 and about 200 students from twenty-five states.

Both the Casavant workshop and the Kenton clinic will be held on campus this year because of the lack of space at the Tahoe Camp.

When the camp started in 1957 there were 33 students. This year about 600 students are expected. The staff grew from three to 54 in the seven years of operation.

... Enrollment

(Continued from Page 1)

147 women. The smallest class, the seniors, has only 238 men and 114 women. One hundred forty-seven of the Reno campus students are unclassified. Eight hundred seventy-eight students attend evening and Saturday classes.

The figures in the report, which covers the 3,385 students who enrolled before March 28, 1963, includes the Las Vegas campus population as well as the Reno figures.

Copies are available in the Office of the Registrar in the Administration building.

Committee Named

Members of the freshman class committee were announced last week by Carl Fuetsch, class president. They include: Lynn Armbruster, Pi Beta Phi; Mary Ann Bacher, Delta Delta Delta; Tala Crutchett, Gamma Phi Beta; Carl Bossieux, Independent; Molly Jacobs, Kappa Alpha Theta; Joanne Freeman, Independent; Mike Ingersoll, Alpha Tau Omega; and Joel Tew, Sigma Phi Epsilon.
