SPRINGTIME CLASSES ON THE QUAD

AS SPRING finally reached the Reno campus, nearly two months behind its official March 21 appearance, profs and students moved outside for classes. Here, a group of attention students fastens its attention on the prof while its members catch a few days of sunlight. This particular class was held in front of the journalism building.—Sagebrush photo.

NCAA Regionals Toughest Of Year

By TOM DYE

"Formidable" is the word coach Dick Dankworth uses to describe the competition the Nevada track team will face at the NCAA small college regionals Saturday. Powerful teams from nine western states will meet at Davis at 1 P. M. to decide the NCAA regionals championship small college championship.

Dankworth will take 16 of his top track stars in an attempt to win his second straight championship.

Last year Nevada squeaked by Long Beach State 47 1/4 to 45 1/2 with Fresno State and Los Angeles State also very close.

Nevada won its fourth straight FWC title last Saturday by a big margin.

"This will be our toughest meet of the year," Dankworth says. "We will do well to be in the top four in the meet." Dankworth goes on to say that Long Beach State and Fresno State have improved and should be the favorites in the meet.

Among the top competitors Nevada will face in this meet is Long Beach's star miler, Ralph Lee who won the CCAA championship with a 4:11.5 mile effort.

Ron Lee of Nevada has an all time best of 4:12.3 and is especially tough against good competition.

The Fresno State Bulldogs have an outstanding athlete in 14' 10" pole vaulter Bill Allen. Fresno State is coached by a former great Olympic pole vaulter, Dutch Warmerdam. "Doc" Williams of Nevada has cleared 14' 6".

Undeafated half miler, Bud For-

man will face his stiffest test this season, in the regionals. The lanky Nevada ace will compete against three half-milers who have broken 1:53. Forman has a 1:53.9 half mile best this season but has not been pushed. Sam Rutland clocked a 1:56 in the FWC meet and will also run for the Wolf Pack.

Sprinter Sam Workmen of the Bulldogs has a 9.5 hundred to his credit and is also outstanding in the 220. John Manke of the Silver and Blue took a double win the

(Continued on Page 9)

Doyle, Mandell Named 'Gamma Phi Men'

John Doyle and Dave Mandell were named "Gamma Phi Men" at the sorority's spring formal at Hidden Valley country club Friday night.

Both received a musical decanter. They were selected by the sorority women as the men who had done the most for the house during the past year.

Ten Women Initiated Into Cap and Scroll

Joan Westfield, member of the judicial council, Sagens, and president of German club, has been elected president of Cap and Scroll, senior women's honorary organization.

Miss Westfield was one of ten women initiated into the group in ceremonies held Sunday at the home of the advisor, Dr. Janet Felshin, of the women's physical education dept.

To be eligible for Cap and Scroll, women must have a 2.7 average and be president of a campus organization. The other nine women initiated were Muriel Ellis, Carole Hueftle, Mary Rossolo, Marsha Frankovich, Doris Howard, Rosemarie Haenel, Sherry Millard, Linda Phillips, and Jeannette Snyder.

Rosemarie Haenel was elected vice-president and Carole Hueftle was voted secretary - treasurer. Miss Westfield replaces Mimi Patrick as president.

Cap and Scroll is the equivalent of the national organization Mortar Board. It was underwritten in its early years by Dr. J. E. Church to whom the Fine Arts building was dedicated. Initiation ceremonies included an oath honoring the patron goddess Athena, symbol of the best of womanhood, followed by one of Dr. Church's favorite poems read by Ellen Murphy.

The meeting was followed by lunch in the dining commons.

Nevada Alumnus, William E. Ogle, Is Main Speaker

A noted scientist-speaker, a reception and tea, and other colorful events will highlight 1963 commencement activities at the University of Nevada June 2-3.

Baccalaureate ceremonies, the religious portion of commencement, are slated for Sunday, June 2, at 3:15 p. m. in the new gym. With the Morrill hall bell ringing traditional graduation notes, a procession of graduates, faculty and administration and regents will wend its way northward to the new gym from the Morrill hall vicinity. Participants will be garbed in the traditional academic robes.

Actual baccalaureate ceremonies will begin at 4 p. m., with the service conducted by the Rev. F. Alvin Cheever, pastor of St. Phillips of the Desert in Hawthorne.

Baccalaureate Tea

Following the recessional of the baccalaureate, an informal tea and reception will be hosted by the U of N Alumni Association in the dining commons.

Commencement activities on the following, June 3, will start with the line of march at 9:15 a. m. The commencement exercises will begin at 10 a. m.

The recessional from the gymnasium will follow the same line as the processional.

Each group of graduates will be led by a faculty member from its respective colleges. The marchers will march four abreast.

Family and friends are invited to all activities for the two-day events. No tickets will be required.

Graduating students may pick up their caps and gowns in the bookstore, all day, May 31. Graduation attire is to be returned to the bookstore immediately following commencement activities, at which time diplomas can be picked up in the student union lounge.

The general public will be seated in the balcony of the New Gym, while all participating students, family and friends will be seated on the main floor.

Nevada Grad Speaks

William E. Ogle, a 1949 graduate of the University of Nevada, now the director of the Los Alamos Scientific Laboratory of the Atomic Energy Commission, will be this year's commencement speaker.

Invocation will be delivered by The Rev. Thomas Connolly of St. Albert's in Reno.

Total number of graduates for this year is nearly 500, and of this number, some 300 students are expected to participate in the graduation ceremonies.

This year's graduating class will bring the total number of graduates from the University since 1886 to nearly 8500.

1963 Artemisia Out on Monday

Copies of the 1963 "Artemisia," University of Nevada yearbook, will be delivered to students beginning Monday, said Herb Nichols, business manager, Wednesday.

The 1963 yearbook, a 336-page publication, contains eight pages of color pictures of campus scenes and personalities, as well as complete coverage of campus events.

Monday is the tentative date for arrival. Books will be given out in the student union that day, and then from 8 a. m.-5 p. m. on each of the following days.

Board Orders Summer Study For 'Forum'

The "Student Forum," a proposed publication designed as a journal of campus opinion, was served to committee by Publications board for further study Wednesday. The board appointed a committee to work on problems, finances, and staff for the "Forum." Results will be submitted at the first fall semester meeting.

Also sent to committee study was revision of Brushfire policy which will also be submitted at the first fall meeting.

Other actions taken by the board were:

—Approval of two new salaries for the Sagebrush staff, one for \$2.50 per issue and the other a \$2.50 discretionary salary.

—Approval of local advertising rate increase from \$1 to \$1.25 per column inch.

—Approval of a budget of \$665 for Sagebrush office improvements.

—Approval of Artemisia office improvements budget of \$300.

—Election of Dr. John Morrison as Publications board advisor.

Greeks Convene At Lake Tahoe

Plans for the annual Greek retreat have been completed according to Tom Marshall, of SAE, who is chairman of the post-semester event. The retreat will be held to discuss common problems confronting Nevada's sororities and fraternities.

Four representatives from each fraternity and six from each sorority will attend the conference, scheduled for Zephyr Point Presbyterian Conference Grounds on May 28.

Members of the retreat committee are Marshall, Dennis Haney, Lyle Rivera, Judy Norcott, Kay Sorenson, and Jim Baratte.

Student Justices Sworn In Today

Swearing in of new student court justices will be held in James Hathhorn's office Friday at 4 p. m. The dean of men and Chief Justice Pat White will administer the oath of office.

Taking the oath will be Bob Alward, Sue Rhoades, and Joan Westfield, recently appointed to the office by the ASN senate. Outgoing justices are Miss White and Jeanne Sadler.

The justices will choose between Jill Black and Jim Sinasek to be Chief Justice next year.

Sagebrush Editorials . . . The End of the Line

Relax. This is the last Sagebrush editorial of the year, and the last one that students, faculty, administrators and other readers will have to read that is written by the current editor. In this one, we won't make anyone mad—probably.

It's been a hectic year, full of action and complete with arguments, crusades, debates and bitter feelings. We've said a lot of things in the heat of battle that have had some explosive results, and our critics have done the same. But we'd do it all again.

Many things have happened during the year, including events that have riled the opinions of nearly everyone on campus. Whatever has happened, however has resulted in a manifestation of what college is all about in the first place. People have started to think.

We have fought some bitter fights during the year, but at the same time have come to respect those who have fought them because they have had the courage to stand behind their convictions. There have been a few who have been notorious for anonymous accusations and similar activities, but these have been the exception, not the rule.

The rule, unfortunately, is that all too often the majority of students haven't taken the time to take an active part on one side or the other—but the number of those interested has been on the increase.

We hadn't gone too far into the year before we started finding out who was going to stand for Sagebrush editorial policies and who wasn't. We were rapidly informed.

Some of our foremost critics were on the faculty, especially in the philosophy, English, and history and political science departments. Other dissenters, however, were scattered through all parts of the University.

A number of students never failed to sound off if they didn't like something in the Sagebrush—and they stood behind what they said with their signatures.

During the year, there were many times that the Sagebrush has filled page after page with letters saying one thing—that the editor was off his rocker and why he was off it. We may not agree with what they said, but we can't help but admire the gumption they had to write down what they thought and bring it in for publication.

Strange as it may seem to our readers, we are not blind to the changing world and to the progress of events, but if there is one thing that makes us see red, it is the statement that:

"It would be nice if things were this way, but they are changing and there is nothing you can do about it—so you might as well go along with it." That is a bunch of what is politely termed "B.S."

We recognize, for instance that civil rights advocates will win over property rights advocates, and that internationalism will win over nationalism—although both are detrimental to the nation. It is a matter of time. But since we do not agree with them, and see in them inherent troubles, then we would fight until the final bastion has been breached and the last fight fought. Then it will be time to stop fighting and close ranks—even though it may have been a losing battle all along.

On the other hand, if the people advocating these things did not have the gumption to fight for them, we would hold them in little less than contempt.

Looking back, we'd say that college teaches people two things—how to think, and how stupid they really are. These lessons should have been learned by all concerned.

And if we had it to do over, we'd do it exactly the same way.

Top-Notch Yearbook

Having had a sneak preview of the 1963 yearbook—the Artemisia—we can safely say that it is no surprise. Any group of people that have put in as many long, unrewarding hours as this year's staff has, has got to turn out something outstanding.

JoAnne Nelson, editor of the yearbook, has produced a volume short on prose and long on pictures; short on fixtures and long on people. She certainly knew what she was doing, and it is doubtful anyone could have done better.

The Hell of NO Sagebrush

"If all printers were determined not to print anything till they were sure it would offend nobody, there would be very little printed."

Nevadans Leave For College Bowl

With its final make-up determined, the University of Nevada's five-man (including one woman) "College Bowl" team departs today for New York City and a nationwide television appearance on the General Electric-sponsored college quiz show.

Final team members will be Dave Cooper, Dale Donathan, Judy Garwood and Steve Miller. Alternate will be Lynn Gerow. Team coach is Dr. Harold Kirkpatrick, asst. dean of the College of Arts and Science.

The team left at 9:50 a. m. today, with cheerleaders, songleaders and the University band to see it off. A special dinner last night in the dining commons honored the team members.

The Nevada squad will face tough Yeshiva University, a New York City-based school that last Sunday knocked out four-time winning Louisville University, and denied it a chance for a five-straight record on the program. Five shows is the limit for any team, and only a very few have made it that far.

The Nevada-Yeshiva Brain Clash will be seen locally on KOLO-TV at 5:30 p. m. Sunday.

Suites in the Waldorf-Astoria hotel, a night on the town, a sight-seeing tour, and free tickets to the theater await the U of N Brain Pack on arrival in New York—home of the Yeshiva team.

The Nevadans will return Sunday at 9:45 p. m.

Letters to the Editor

'Forum' Would Explore All Sides

or

Launie's Last Letter (Say it Ain't So, Joe)

Editor, the Sagebrush:
I noted with some pleasure that your last editorial stated that next year's editor would be a liberal. My momentary joy was somewhat dampened when I realized that you would probably consider F. A. Hayek a liberal, but we can hope for the best.

Whatever the editorial policy next year, I do think that there is a place on this campus for another publication. The letters to the editor column simply does not provide enough of an outlet for the type of healthy controversy that should be raging through out an academic community. There should be some medium where both sides of controversial issues can be explored. I believe it was the purpose of the "Forum" to present essays on all sides of the issues discussed, not merely the liberal side. If this is so, the conservatives will have their "platform" for their ideas as well as the liberals.

I realize that faculty control is something to be greatly feared. It does seem however, that every organization on campus has a faculty advisor of one kind or another. I expect to see your next issue advocate the boycotting of classes because they are faculty dominated.

Sincerely,
JOE LAUNIE

Tim Griffin Thanks Mackay Day Committee

Editor, the Sagebrush:
I would like to take this opportunity to thank the members of my committee and others who helped to make this Mackay Day the success that it was. Special thanks to Deans Basta, Hathhorn, and Mobley, vice-president Young and the Student Union. The following is a list of the committee.

'Dead Week'

Acheson Comes Back From PSBA With 'Intellectual Week' Proposal

An Intellectual Challenge Week," was the most concrete idea ASUN President Jim Acheson came back with from the Pacific Student Body President's Association convention. Last week, Acheson, Larry Struve, ASUN first vice president, and Mike Mackedon ex-ASUN president, attended a conference embracing western colleges and universities.

The trio sojourned to Sun Valley, Ida. for the three-day confab to get new ideas and discuss problems common to student government.

Acheson got the idea from one of the speakers, who told convention delegates that student government should do more than just promote social activities.

Acheson said he did not feel that government on the campus was fulfilling its purpose by "organiz-

ing fun". Students can and do find their own fun, he commented.

An "Intellectual Challenge Week" would evolve around the idea of securing several speakers to lecture on campus, intra-and inter - departmental discussion groups, and general discussion groups.

Acheson said he would present the idea at Leadership Conference next fall for more ideas and discussion on the possibility of such a week.

Library Open

The Getchell library will be open tonight until 10 p. m. for students studying for final examinations, it was announced last week. The library will also be open the night of Friday, May 24, during the exam period, until 10 p. m.

European Duty For Maj. Lawler

Major Edward W. Lawler, asst. prof. of military science, has been transferred to Germany. He will leave Reno Aug. 1.

Major Lawler came to the University in September, 1960, from Paris.

In Germany Lawler will be a post engineer.

Maj. Lawler requested an extension of duty at Nevada, but his request was denied due to the shortage of engineers in Europe. He completed a tour in France prior to coming to Nevada.

During his stay at the Reno

campus, he has served as supply officer, asst. professor of military science, public information officer, and advisor to the Cadet Officers

TILL WE MEET AGAIN

With today's installment I complete my ninth year of writing columns in your college newspaper for the makers of Marlboro Cigarettes. In view of the occasion, I hope I may be forgiven if I get a little misty.

These nine years have passed like nine minutes. In fact, I would not believe that so much time has gone by except that I have my wife nearby as a handy reference. When I started columning for Marlboros, she was a slip of a girl—supple as a reed and fair as the sunrise. Today she is gnarled, lumpy, and given to biting the postman. Still, I count myself lucky. Most of my friends who were married at the same time have wives who chase cars all day. I myself have never had this trouble and I attribute my good fortune to the fact that I have never struck my wife with my hand. I have always used a folded

It's a rare and lucky columnist

newspaper—even throughout the prolonged newspaper strike in New York. During this period I had the airmail edition of the Manchester Guardian flown in daily from England. I must confess, however, that it was not entirely satisfactory. The airmail edition of the Guardian is printed on paper so light and flimsy that it makes little or no impression when one slaps one's wife. Mine, in fact, thought it was some kind of game, and tore several pairs of my trousers.

But I digress. I was saying what a pleasure it has been to write this column for the last nine years for the makers of Marlboro Cigarettes—a fine group of men, as anyone who has sampled their wares would suspect. They are as mellow as the aged tobaccos they blend. They are as pure as the white cellulose filter they have devised. They are loyal, true, companionable, and constant, and I have never for an instant wavered in my belief that some day they will pay me for these last nine years.

But working for the makers of Marlboro has not been the greatest of my pleasures over the last nine years. The chief satisfaction has been writing for you—the college population of America. It is a rare and lucky columnist who can find an audience so full of intelligence and verve. I would like very much to show my appreciation by asking you all over to my house for tea and oatmeal cookies, but there is no telling how many of you my wife would bite.

For many of you this is the last year of college. This is especially true for seniors. To those I extend my heartfelt wishes that you will find the world outside a happy valley. To juniors I extend my heartfelt wishes that you will become seniors. To sophomores I extend my heartfelt wishes that you will become juniors. To freshmen I extend my heartfelt wishes that you will become sophomores. To those of you going on into graduate school I extend my heartfelt wishes that you will marry money.

To all of you let me say one thing: during the year I have been frivolous and funny during the past year—possibly less often than I have imagined—but the time has now come for some serious talk. Whatever your status, whatever your plans, I hope that success will attend your ventures.

Stay happy. Stay loose.

©1963 Max Shulman

* * *

We, the makers of Marlboro Cigarettes, confess to more than a few nervous moments during the nine years we have sponsored this uninhibited and uncensored column. But in the main, we have had fun and so, we hope, have you. Let us add our good wishes to Old Max's: stay happy; stay loose.

Four University Buildings Get Fallout Shelter Designations

By CAROL GALASKI

Four campus fallout shelters have been stocked by the Civil Defense department with medical supplies, sanitary equipment, food, and equipment for testing the amount of radioactivity in the air.

The shelters are located in the Mackay Science sub-basement, the Dining Commons, the mechanical equipment room of the Getchell Library, and Manzanita hall.

A fifth proposed shelter in the mining wing of the new Engineering-Mines building has not been stocked, but will be as soon as the University Regents accepts the building.

The program, sponsored by the Federal government, is the first phase of community shelters. The government is now surveying available facilities in the Reno-Sparks area. There are 46 facilities capable of accommodating 3600 people.

A campus commission was formed by Dr. Charles Armsrong, University president, in November of 1961 to select shelter sites on campus.

The federal government required that each shelter provide facilities for at least fifty persons.

"Five hundred square feet per person is required if the shelter has no ventilation system to purify the air," said Mr. Brian Whalen, assistant University engineer and member of the campus shelter committee.

The amount of space may be greatly reduced, to as little as 50 square feet per person if ventilation is provided, he added.

The Reno office of Civil Defense

says the Mackay Science shelter can accommodate 320 persons; the Dining Commons, 130; Manzanita Hall, 50; and the Getchell library, 50. The proposed shelter in the

mining wing will hold 145 people. The government also requires that the person inside the shelter will be exposed to 40 times less the amount of radiation outside.

To give the minimum fallout protection the shelter must be shielded with ten inches of concrete or three feet of dirt, Mr. Whalen said.

The food stored in the shelters is mostly made up of biscuits which contain vitamins and minerals. They are packed to stay edible for five years.

Sergeant Lawson Retires After 20 Years in Army

By LEE WINNE

A familiar face will be missing from the military department next semester. M/Sgt. Forest C. Lawson, more commonly known as "Spook", is retiring from the Army next month after more than 20 years of service.

Lawson, who has the most seniority among the cadre here, has taught Military Science I, II, III, and IV students, served as advisor to the Sierra Guardsmen, and coached the freshman rifle team during his stay of six years and three months.

A veteran of World War II and Korea, Lawson has held almost every job in the military department except supply sergeant and professor of military science. During his stay here, he has served under three PMS's.

A highly decorated non-commissioned officer, Lawson has received 17 different decorations.

They include: Silver Star, Bronze Star, Combat Infantry Badge, Army Commendation Medal, Good Conduct Medal, American Theater, Asiatic-Pacific Theater (with 3 battle stars and arrowhead), World War II Victory Medal, Occupation Medal, National Defense Medal, Philippine Liberation Medal (with 2 battle stars), United Nations Ribbon, Korean Service Ribbon, United States Presidential Unit Citation, Philippine Presidential Unit Citation, Korean Presidential Unit Citation, and Senior Parachutist Wings.

After graduating from high school in Sioux Falls, Iowa, he received his basic training with the Chemical Corps at Camp Siebert, Ala. He attended the Uni-

versity of Buffalo later for training in the Army Air Cadet program and shortly thereafter entered the airborne school at Ft. Benning, Ga., for parachute training.

Lawson served in combat with the 11th Airborne Division and later with the Army of Occupation in Japan. He was chosen by General MacArthur to make personal appearances throughout the southwestern United States after the war.

Lawson has also served in the Pentagon for the Army Security Agency and Military Intelligence.

When the Korean conflict broke

out, he spent some time in the war zone there before being transferred to Ft. Lewis, Wash.

He received the distinction of Master Parachutist, making 42 jumps, two in combat. "Spook" got his nickname by always managing to return from hazardous patrols—many times becoming the only survivor of his patrol.

After his retirement, Lawson along with his wife Shirley and five children, plans to go to Denver, Colo. Further plans are still undecided, but he hates to leave Reno. "I've made a lot of friends in the Reno Area", said Lawson.

Student Union Expenses Total \$26,317; Big Balance Reported

By MIMI SKILLICORN

Students who wonder what happens to their five dollar student union fees each semester can stop wondering.

In a report released by the Student Union Board this week, expenditures for the period of July 1, 1962 to March 31, 1963 were announced.

The balance as of July 1, 1962 stood at \$29,975.07. Income for the period July 1, 1962 to March 31, 1963 was \$34,479.14. Expenses for that time stood at \$26,317.54. Thus a balance of \$38,136.67 is now in the Student Union treasury.

Itemization of expenses are as follows: Art, \$1,116.59; dances, \$346.00; hospitality, \$1,718.34; lectures, \$4,160.14; movies, \$2,412.70; publicity, \$54.45; special events, \$4,665.81; building supplies,

\$409.99; office supplies, \$259.48; utilities, \$653.10; repairs, \$613.60; staff benefits, \$59.16; building equipment, \$268.72; office equipment, \$237.76; overtime salaries for full time employees, \$221.56; student salaries, \$4,213.79; miscellaneous, \$419.76.

In addition to these expenditures \$2,045.82 was spent on music. Of this sum \$1,750.00 was for payment of Peter Nero. Travel totaled \$2,444.70, \$1,282.75 which went for buses for the Trek Nic. This same amount however was credited to the income.

All figures shown may be verified at the University accounting office. Further details of specific expenses can be obtained at the student union office.

CASH PAID FOR BOOKS

Used textbooks fall into three groups. The following categories determine the price at which the bookstore may purchase a used book:

1. Current copyright books that have been selected for the next semester and there is an inadequate supply in the bookstore. These books are worth 50 per cent of the current new price.

2. Current copyright books that are no longer in use at the University of Nevada, or have not been definitely selected by the instructor. These books can be

sold to a wholesale book jobber. The ASUN Bookstore acts as an agent and can pay cash to the student for these books at the jobber's catalog price. These books are shipped from the campus for use on other college campuses. The price paid cannot be too high as the jobber has considerable expense involved in shipping, warehousing, and selling of these books. Too, the wholesaler faces a risk of not selling them at all.

3. The third group includes old editions, out of print and similar titles which are no longer in demand, and have little or no value.

Enters Atom Age . . .

Nevada Installs Nuclear Reactor

With the installation of a nuclear reactor, the University of Nevada has truly entered the atomic age.

Under the direction of Dr. David Dickinson, chairman of the nuclear engineering department, a new reactor is being installed in specially built quarters inside the temporary buildings.

Only 20 to 30 other schools in the United States have facilities that will equal the new installation, and several unique innovations were developed for Nevada's unit.

The reactor, seven feet high with an eight foot diameter, was constructed by **Atomics International**, a division of **North American Aviation**.

The cost of the equipment was financed by a bequest and corporate and private donations. Dr. Dickinson's estimate of \$70,000 does not include the costs of installation and development handled by the Buildings and Grounds department of the University.

Upon completion the reactor will be used to teach nuclear engineers the characteristics of fissionable materials.

It will also be used in a training program to develop reactor operators. Radio isotopes will be produced on request for use in classes in physics, chemistry, biology, agriculture, mining and wherever else needed.

The newly constructed quarters will feature several precautionary devices for the workers' safety. All air in the reactor room will be filtered through conditioning machines that will remove dust. If the dust carries radiation it will be measured by a geiger counter mounted in the conditioner.

"Thus we are aware of any radiation around us and whether or not it is reaching a dangerous point. Air temperature will be held between 65 and 80 degrees, more for the reactor's comfort than our own," said Dr. Dickinson.

The reactor contains seven exposure tubes for insertion of test material toward the core. Five pass directly through the core while two reach its edge.

A control panel will allow for constant readings of developments and will record and measure power increase or decrease. One trillionth of an ampere may be indicated by the control panel instruments. Several needle gauges allow the operator to set a limit on the function's maximum range. If it is

Phi Alpha Theta Hears Paul Laxalt

Although the legislative process may be slow, it is a good system, said Lt. Gov. Paul Laxalt at the annual spring banquet of Phi Alpha Theta, honorary history society.

Laxalt spoke on the recently-completed session of the state legislature, touching on the civil rights issue, the University budget cut, the sales tax proposal, and humorous features of the meetings.

New officers, elected at the meeting, include Bruce Beardsley, president; Don Dallas, vice-president; Judy Franklin, secretary; and Bill Brodhead, treasurer. They replace Dave Christensen, outgoing president; and Dale Donathan, Judith Armstrong and John Crawford, other outgoing officers.

New members were initiated into Phi Alpha Theta at the meeting.

exceeded the reactor automatically shuts down.

Approximately 1250 grams of Uranium 235 will be used in the experiments in the heart of the stainless steel core.

Dr. Dickinson's staff includes Professor Wayne Miller, who will handle all physical operations of the reactor, Dr. Dean Fletcher, health physicist, Dr. Vernon Frazier, experimental physicist, and Professor Eugene Kosso, who is responsible for electronic equipment.

By TOM HARVEY

The Engineer's Bench, located in front of the old Electrical Engineering building, is one of the oldest and most obvious of the traditional campus landmarks. But what is its story? Where did it come from? Why isn't it still in use?

The bench itself was a gift of the Mining and Engineering students of the class of 1925. At that time, and up until 1952, mining and engineering were combined into one college.

Originally the students from each class carved their names on the back of the bench, right into the wood.

Since this system did not prove to be permanent enough, bronze plaques were made to replace the

carvings. Molds for the class numerals were made in the engineering shop and then sent to a foundry to be cast.

Names of the graduates were then engraved below. J. T. Ryan, instructor of mechanical engineering, has made these plates since 1930, when they were first started.

Occasional pictures in past yearbooks show graduates of the several departments in the School of Engineering grouped around the bench, but apparently this practice was never followed long enough to become a tradition.

Walking by the bench today, one sees that the last engraved plaque is for the class of 1956. According to Mr. Ryan, the plaques are somewhere in the Electrical Engineer-

ing building, but neither he, nor anyone else, has found the time to see that they are completed and set in their proper places on the back of the bench.

On the same subject, Dean Howard B. Blodgett of the College of Engineering had this to say. "I didn't realize they were that far behind, but if that is the case, I guess we'll have to bring them up to date."

Dean Blodgett hopes the bench will be moved to a new location in the area of the new engineering complex. If it is not he feels there is a good chance it will be lost in the debris when the old Electrical engineering building is torn down to make way for something new.

"I hope this never happens," he said.

Dig your toes in the cool, wet sand

Who can resist it? That exuberant urge to peel off your shoes and go joyfully down to meet the sea. You don't want anything, ever, to spoil that lovely beach . . . neither do we.

So today, with advanced drilling techniques, we seek oil beneath beaches without marring their beauty with equipment and derricks.

Instead, the oil is brought up by "slant drilling" from a well located far away, often out in the sea. On the beach, you don't even know it's happening.

So dig your toes in the cool, wet sand. Enjoy your lovely seaside playgrounds. We cherish their beauty, as you do.

Planning ahead to serve you better

SPRING PRIMER

(A Poem — Who Sez We're Not Intellectual?)

BALLOON

A balloon is sompin' you put air in.
A balloon is sompin' for a party.
A balloon is sompin' that is associated with fun.
A balloon is not for puttin' water in . . . and throwin'!

GIRL

A girl is for taking for a walk through the park.
A girl is for to wear tight, short skirts and pick flowers.
A girl is for warming blankets at a beach party
You can tell girls from boys because they smell nice and dance backwards.

GRASS

Grass is to run through with bare feet.
Grass is to chew on.
Grass is to stain your knees and elbows
Grass is sometimes good and sometimes bad.
It is good for a while and bad when your housemother sees the stains.
Bring levi's.

RIOT

A riot is sompin' students do in the spring.
A riot is a good release of tension and passion.
A riot is not at this University.
We have no tensions and passions.
After all . . . it's not nice.

DRINK

A drink is what lotsa students take instead of going to class.
A drink is what does the job on many Fair Maidens.
A drink is what tastes better than Prune Juice and Whistleberry Shakes.
A drink becomes popular rapidly in the Spring.
Take one.

DROP

Drop is what students do in the Spring.
They drop classes.
They drop to the sand on the beach.
They drop out of school.
They drop everything that sounds like work.
students drop a lot.

Top J-Students To Get Awards At Annual Fete

The annual department of journalism awards breakfast, recognizing achievement by journalism students, will be held Sunday, May 19, in the dining commons at 9 a. m.

Checks and certificates will go to students who have produced the best news photograph, news story, sports story, feature story, advertisement, radio news story, and editorial during class work.

The Robert E. Petrini award presentation will also be made. The award is made to memorialize a Nevada newspaper man who died several years ago.

Richard Hughes of the Zellerbach Paper Company will award the Crown Zellerbach \$500 scholarship in journalism.

The national chapter of Sigma Delta Chi will make a special award to the top scholar in this year's graduating class.

Climaxing the breakfast will be the initiation of one student and three Nevada newsmen into Kappa Tau Alpha, a national society honoring scholarship in journalism.

Pat White, president of the University press club and Charles Thomas, president of the University chapter of Sigma Delta Chi, will preside at the breakfast.

The breakfast is financed by the Kennecott Copper Corporation discretionary fund for journalism.

Placement Office Has Many Jobs For Students

How are you at roofing houses? Or would you rather serve as a music consultant for your summer job? These jobs, along with others, can be found posted on the bulletin board outside the student employment office in the Clark administration building.

John Bartley, in charge of job listings for William Rasmussen, director of student employment, has filled quite a few positions for summer work already, but asks students not to come in until they are ready to go to work.

"Summer job offerings look pretty good," says Mrs. Bartley, "and our office will be open all summer to serve the students."

Applications can be filled out in room 104, Clark administration building.

Top Ranking Coed Toniette Alford Sweeps California Tennis Tourney

Freshman Toni Alford, in a brilliant performance, defeated all competition and won first place in the women's singles division at the 13th Annual Northern California Women's Junior and College Tennis Tournament.

The event was held last Friday and Saturday at Modesto Junior College, Modesto, Calif.

In the finals, Toni swept both sets, 6-3, 6-0. Her opponent was Edith Wong from Foothill, Calif. Edith was ranked the second top women's tennis player in Peru.

Toni also met opponents from College of the Sierras, University of California at Davis, and San Jose State.

She is currently ranked tenth among women players, 18 and under, in Northern California. She has won several tennis matches in this area, including the women's singles at the Reno City Tennis Tournament.

On May 4 she traveled to Palo Alto, California, where she competed in the Stanford Collegiate Tennis Tournament. She was eliminated in the quarter finals.

Representing the University in the doubles division at the Modesto tournament were Versa Charley and Anne Foley. They lost to Modesto Junior College in the semi-finals of the Consolation Tournament, 4-6, 4-6.

The other pair from the University, Darrell Shone and Sally Newport, were defeated in a close match by University of the Pacific,

which won by the scores of 2-6, 6-4, 6-4.

The perpetual team trophy, awarded to the team with the most points at the end of the tournament, was won by Stanford University.

The girls attended a "get-acquainted" barbecue Friday night, which was hosted by the Modesto Junior College Aggie Club.

Dr. Jan Felshin, asst. prof. of physical education, accompanied the team.

There were 1,629,344 acres of Douglas fir on the Oregon and California grant lands administered by the Bureau of Land Management in 1960.

Any student scheduled for three final examinations on the same day, may arrange to take one of the examinations on the conflict day.

If an instructor wishes to deviate from the examination schedule, he should request permission from his Dean. If permission is granted, the Office of the Executive Vice President should be notified.

Sociology Prof to Leave Nevada; Will Teach New York Grad Students

Dr. Lionel Lewis, asst. prof. of sociology and anthropology, is winding up his two-year stay at Nevada. He will teach at the State University of New York at Buffalo, a graduate school, next fall.

Dr. Lewis is looking forward to his new assignment, where he will teach social stratification and demography, a population study. He also plans to do research in magic in the American society.

The University of Nevada was Dr. Lewis's first teaching assignment after he received his doctorate at Yale. He received his masters at Cornell, and his A. B. from Washington University in St. Louis, Mo.

He is married to the former Ann

Herman, daughter of George M. Herman, English instructor at the University.

Two new social psychologists will appear on the sociology department staff next fall. They are Dr. Ernest Palola, from the medical school at the University of Washington, and Mr. Finfield W. Salisbury, from the State University of Iowa.

CCUN Picnic

On "International Picnic" for members of CCUN, foreign students, and other Nevada students, is scheduled for Sunday, May 26. Picnickers should meet at 2 p. m. in front of Morrill hall. It will be the last CCUN event of the year.

Give Team Credit, Says Coach

"Give the credit to the boys. That's where it belongs," said track coach Dick Dankworth when queried about the University of Nevada's phenomenal success in track.

For the last three seasons, Nevada has been the FWC track power and is recognized as one of the top small college track teams in the nation.

"I, personally, would attribute all our success to the boys," he said. "Some come to us with talent, but they all have worked real hard to improve."

"Naturally, a coach has to be familiar with the 16 track and field events. And there is a constant changing and improvement of techniques we have to keep abreast with in order to help the boys. We try to suggest ways to improve and point out flaws in style and technique also, but our main job is merely to encourage the boys to work to improve their own ability."

Philosophy Important

"Our philosophy and team spirit is another important point that has helped us," he continued. "Although track stresses individual competition, each contributes to the over-all success of the team. We try to get as many boys out for track as possible each competing against each other. This results in better individual performance as well as team depth."

Dankworth makes it a point to know each boy personally and get involved with them emotionally. He begins this during the recruit-

ing stage and process which has been highly successful at Nevada. Ninety percent of Nevada's good track men come to the University of Nevada, according to Dankworth.

He visits as many of the high schools and attends as many of the track meets as possible. He keeps in close contact with the high school coaches and visits and writes the boys that show an interest in attending the University of Nevada.

"First we try to sell them on the educational opportunities at Nevada. Second, we try to sell them on the track program and success they might enjoy."

Altitude a Factor

"The altitude and weather is another factor in our favor," said Dankworth. "The cold weather practically forces us to concentrate on conditioning during the early part of the season. In warmer weather there is a tendency to work on speed and have fast workouts before the boys are ready for it. Often this will result in unnecessary injuries or peaking too soon in the season."

Dankworth compared this year's squad to last year's indicating that this year's squad had a little more depth and is stronger in the running events. This year's squad has had greater individual performances but last season the boys were more consistent. There was more depth in the field events in last year's team that won the regional meet last season at Davis.

Nevada is in for its biggest test

at Davis tomorrow in the regional meet, according to Dankworth. He picks Fresno and Long Beach to be the favorites of the meet because of the quality and quantity of their top performers.

Dankworth a modest, middle-sized man with a quick smile, gives the credit to his boys but his contribution can possibly be better understood by the way he encouraged one of his men who casually dropped into his office. At the close of the conversation, Dankworth said, almost as an after thought, "Hey, John, how would you like to get in a red hot hundred down in California next week?"

"I'm game," said John Manke, "how hot?"

"9.2" said Dankworth.

"I might be able to improve my time if I can grab onto the front-runner's trunks and he pulls me," Manke said.

With a chuckle and a reassuring vote of confidence, Dankworth answered back, "You can do it John. You can kill 'em."

The Bureau of Land Management has reforested more than 110,000 acres of land in Western Oregon since 1950.

Alpha Tau Omega Tops Intramurals; Gets Kinnear

Alpha Tau Omega fraternity proved its athletic prowess this other teams in intramural sports competition and winning the Kinnear Trophy going away.

By early this week, the men of ATO had racked up 495 points, almost 200 more than its nearest rival, Sigma Nu. These scores do not include the points awarded for tennis and golf, where competition was still under way at presstime.

The Kinnear Trophy is given each year to the intramural team which scores the most points in competition. The Taus also won the Bradshaw trophy, emblematic of the top fraternity, for the third straight year.

Final Standings

Pack Ends Year; Splits Twin Bill

The Wolf Pack baseballers closed out their season Tuesday when they split a doubleheader with the Cal Aggies at Moana Stadium. The Pack won the opener 7-6 but lost the nightcap, 12-3.

The Pack's overall fiishing record is 11-10 and in the conference they won two and lost six. In the last of the season, the diamond-men won only one out of their last eight contests.

Freshman Fred Dallimore came in in relief, and the Pack exploded for five runs in the fifth to win the opener of the doubleheader 7-6. Dallimore finished out the season with a 2-2 record, with victories over Chico State and the Aggies.

In the nightcap, the Pack's leading pitcher Dennis Scott dropped his third straight decision as the Aggies took the game 12-3. Scott, who was voted the "Baseball Player of the Year" by the Sagebrush sports staff, ended the season with five wins and three losses.

The Bureau of Land Management administered 84,323 acres of commercial forest land in the Eastern States in 1960.

Dick Pinion Named "Athlete of Year"

Gridder Is Pick Of Sagebrush Staff

Dick Pinion, an all-FWC linebacker on the Wolf Pack football squad, was named the "Sagebrush Athlete of the Year" this week by the Sagebrush sports staff.

This is the first time in the history of the campus newspaper that an award of this sort has been made.

Pinion gained the nomination in a close race over Bud Foreman, the Sagebrush Track Athlete of the Year. Other nominations were, Dennis Scott, Baseball Player of the Year, Dave Stix, Boxer of the Year, and Stewart Johnson, Basketball Player of the Year.

The 22-year-old Pinion was an outstanding performer throughout the 1962 season on the Wolf Pack gridiron. The husky senior stands 5-7 and weighs 190 pounds.

Before coming to Nevada last year, Pinion attended Contra Costa Junior College in San Pablo, California. He was a linebacker and a guard on the Contra Costa football squad both years he was enrolled there. In 1959, when he was a freshman, the team won the league championship and was one of the teams considered to play in the "Little Rose Bowl".

He was also an outstanding high school football star, playing three years for Ensinal High School in Alameda, California. He gained a berth on both the all-conference and all-city teams in his junior and senior years as a linebacker.

He was born in Rome, Georgia but moved to Alameda while still in high school. He now considers McDermitt, Nevada his home town. Pinion is majoring in agricultural economics. He still has one year of school to complete at Nevada, but his eligibility in football has run out.

He was recently elected to head the newly formed "Pep Club", a group of 19 students dedicated to encourage school spirit at athletic events. He is also a member of Block "N", the Sundowners, and the upper-class committee.

BUD FORMAN

Bud Forman, a junior, was named the Sagebrush Trackman of the Year. Forman is the only member of the undefeated Wolf Pack cinder team, running both the 880 and the mile. He set a new FWC mark in the half mile last weekend in Chico when he ran the two lap event in 1:53.9, the fastest time in his career. He also holds the Mackay Stadium record in the 880 which he set earlier in the season. Forman attended San Bernardino Junior College in 1961-62. He was on both the cross-country and track teams both years he attended. He holds the school record in

both the mile (4:24.4), and the 880 at 1:54.3.

The 6-6 physical education major also earned a letter on the Wolf Pack cross-country team last fall.

DENNIS SCOTT

Dennis Scott was unanimously chosen by the Sagebrush Sports staff as the Wolf Pack "Baseball Player of the Year".

The 5-9 sophomore hurler has been the mainstay for the Pack throughout the season. Scott has a 5-0 record before the Wolf Pack batters hit a slump at midseason. His record for the season is now 5-3 after a loss in the season closer against the Cal Aggies Tuesday at Moana Stadium.

Scott is a native of Monterey, California. He was Monterey High School's leading pitcher in 1961 when he had a 10 and 3 and an earned run average of 1.95.

Last year he attended Monterey Junior College and earned a spot on the all-conference baseball team.

Scott's most impressive victory of the season was against nationally ranked Santa Clara. The right-hander came in in relief and shut-out the "Broncos" for four innings while taking the 7-5 decision.

DAVE STIX

Dave Stix was another solid choice by the Sagebrush sports staff as the Boxer of the Year. The undefeated slugger was chosen as the Athlete of the Month for March by the Sierra Nevada Sportswriters and Broadcasters. He also received the DeWitt Portal Trophy at the conference championship meet in Chico.

Stix is a native of Pyramid Lake. He attended Sparks High School and earned two letters in football for the "Railroaders".

This season was his second on Jimmy Olivas' boxing squad. He earned a letter last year which was his first crack at boxing.

He won the conference championship this season in the 156 pound class, showing great improvement over his 1963 performance.

He is majoring in agriculture and is a member of the Aggie Club. He has also captained the rodeo team for two years.

Stew Johnson edged out teammate Joe DeArrieta by one vote in the contest for Basketball Player of the Year.

STEWART JOHNSON

Johnson, a senior, has been playing on the Wolf Pack varsity for four seasons and has lettered four times. He took up the scoring slack when Bill Robinson and Harlan Heward left the team.

Johnson was an outstanding athlete at Mineral County high School in Hawthorne where he played basketball and baseball, earning berths on both the all-state baseball and basketball teams his junior and senior years.

Johnson is married and has a two year old daughter. He is majoring in physical education but plans to work for United Air Lines after graduation.

DICK DANKWORTH

Dick Dankworth was unanimously picked by the Sagebrush

sports staff as the Coach of the Year. Dankworth piloted the track squad to its fourth straight Far Western Conference Championship last weekend in Chico.

The Nevada mentor has been coaching at the University for seven years and has built the track team into one of the small college powers in the West. His teams have not been defeated in a duel meet since 1959. Last year, the Dankworth coached squad won the NCAA West Coast Regional Championship and also the highly competitive Easter Relays.

Next year, the Sagebrush sports staff will pick the Athlete of the Year in each sport as the season for that sport ends. In the last issue of the second semester, the staff will decide who is the overall Athlete of the Year.

There were 625,444 individual Christmas trees sold on public domain lands in 1960.

... Track Meet

(Continued from Page 1) conference meet and could place high in the Regionals.

Dee Andrews of Long Beach has run some outstanding times in the 120 Highs and the 330 intermediate hurdles. Nevada will have a trio of top hurdlers at the meet in Steve Holloway, Brent Johnson and Al McDaniels.

Bob Rusk and Fred Williams will be Nevada's top threats in the quarter. Both have run around 48.5 in meets this season. Bill Knock of Fresno and Jeff Clements of Long Beach have both run 48.2 in the one lapper.

Two miler Doug Ketron, won his third FWC race last weekend. Ketron toured the three mile in 14:09. He will face his old rival Craig Spillman of San Francisco State who defeated him earlier this season. Skip Houk will also run this grueling race for the Wolf Pack.

Muscular Alex Darnes, Nevada's star discus thrower will also see action in this meet. Darnes has hurled the platter 167 feet and was among the top ten discus throwers in the nation. 200-foot plus javelin thrower Larry Smith will also compete for Nevada.

Nevada will also have two of its stars in the jumping events. 6' 4" high jumper Jay Edwards will try his luck for Nevada as will, 23 foot broad jumper Joe Winchell.

Nevadans Brent Johnson and Al McDaniels will enter the hop-step-and-jump. Both have marks close to 45 feet or better.

"She Loves Me for Myself"

"Not for my Tapers. Yesterday I wore an ordinary pair of slacks and she didn't say a word. What loyalty! Course, I'm back to my Tapers slacks again. No sense in taking chances."

'Take Five'

By JOHN FIRPO

Roll out the celebration banners, strike up the band, the final day is at hand! Today's a beginning as well as an end. For the next week or so, midnight oil, no-doz, black coffee, sleepless nights, packs of cigarettes, sweating and cramming, are all IN. OUT is ROTC, tiring weekly eight o'clocks, Wolf Pack games, meetings, and term papers.

This is it for us Seniors. It's the ninth inning, the eighteenth hole, the fourth quarter, the final series, the last stanza, the remaining seconds, the climatic time.

Seniors Alice Ann Monaghan (Gamma Phi Beta) and John Doyle (Sundowner Prexy) have announced their engagement. Seniors in the Theta house were guests of honor at a picnic in the sorority house basement, then treated to a dip in Manzanita, Likewise happened in all houses.

Tri-Delt President Ellen Roseman swore she'd not touch down in the bleak waters of old Manzanita with her new Cashmere sweater on. By golly she didn't either. She shed both garments and was tossed in, save one sheer pink slip. Vice-president Patty Lewis also joined Miss Roseman.

There were a number of Queens named over the weekend. Most outstanding of all was Judy Norcott who was named "MOONLIGHT GIRL" of Phi Sigma Kappa (play on words there). Joining her in the royalty circles were Tri-Delt pledge Judy Falkenstein who was named "Crescent GIRL" of Lambda Chi Alpha. Miss Dolores Dunning (Gamma Phi) was chosen Queen of ATO. Tri-Delt Jane Bennett named runner-up in the Intercollegiate Rodeo Queen contest.

Engagements included Gamma Phi Weeze Reynolds and Ted Brayer; Mary Lynn Barnard and Jerry Machabee; Lambda Chi Art Mize and "Indie" Dixie Goshl.

Pinned were Sig Ep Playboy candidate Sky Steadman and Miss Judy Jensen of Cal at Davis; Gamma Phi Bev Thieleg to SAE Todd Brenlen; ATO Don Banta and Pi Phi Judy Wilson.

Don't forget 'bout the Senior Ball . . . \$1,000 of champagne . . . Hors 'D' Ouevres . . . and dancing at Hidden Valley June 1. Tickets won't be sold at the door so get yours from any Senior class member now!

This is the final "Take Five" and you'd think one would be wise to change it to "Take Gas". Just to put the record straight and confirm the suspicions of many Nevada coeds and victims: yes, we did hide under the bushes around the Gamma Phi house; yes, we spent many a night outside the third floor of the Pi Phi house on the fire escape; yes, we were on the scene at every scandalizing moment; yes we rode around in the rear of your date's trunk with notebook in hand; yes, we disguised ourself as a coed and listened intently while we roamed the steam-filled girls locker rooms in the new gym; yes, we do work for Mobley and Basta, Hathhorn and Armstrong; yes, we do have a free credit card from every nightclub and casino in the area. Seriously, though, I don't envy Duncan Kowles, who'll probably have a similar scandal sheet next semester.

FOR SENIORS ONLY

(More by Firpo)

Remember the high school yell we sang and yelled at every school assembly and function: "We are the seniors, the mighty, mighty, seniors"? Now once again we are the seniors, somewhat changed from the days of hopped-up cars and grease-ball haircuts. We are the seniors at Nevada U. that have sweated, strained, worried, prayed, and struggled through eight semesters of 128 credit hours per week and more. Just to have survived eight or more registration days seems to be a relieving thought, if nothing else.

We are the "Class of 63". A class that can remember there was an old dining hall where the new Juniper Hall now stands; where we stood in line all the way back to Artemisia hall. We can remember when the infirmary was a small shack between Lincoln hall and the old gym. Many of us lived in fraternity and sorority houses, others lived in the dorms (then including Hartman hall).

There was no Fine Arts building, no new engineering building, no Juniper or White Pine hall, no Getchell library, no new dining commons and post office complex, no engineering-mining building, no life-science wing.

Yes, there's lots of new buildings since we paraded around the "Hill" with our blue beanies, blue and white ribbons, and copy of "Wolf Tips" in our back pocket and purses. In 10 days we'll be Alums.

Yes, we'll really miss old John Mackay and the good times we had on the "Hill". We might sum it all up in a famous quote of one John Burroughs (1837-1921): "In sorrow he learned this truth — One may return to the place of his birth, He cannot go back to his youth".
