## NUCLEAR REACTOR

## Nuclear Reactor To Get Charged

The University of Nevada's L-77 nuclear reactor, installed on campus last spring and dedicated during the summer, will be fueled and in operation sometime this month.

Dr. David Dickenson, chairman of nuclear engineering said the fueling date is pending on the receipt of an official operational license from the United States Atomic Energy Commission.

When the license is received, the fuel — 1,351 grams of uranium dissolved in water—can be placed in the reactor by technicians from Atomic International. Also on hand for the fueling will be representatives from AEC and the University.

The fuel, which is contained in three small cylindrical "bird catcher" mechanisms, is enough to keep the reactor charged for at least one century.

The L-77, purchased from Atomic International for a cost of \$70,000, will be used for study programs in nuclear engineering and technology, radiation chemistry and reactor physics.

The reactor will also be used to produce radioactive isotopes for the college of agriculture, the college of engineering, departments of zoology and chemistry, as well as the Desert Research Institute. The reactor is seven feet high and eight feet in diameter. It is completely shielded, and has a built in safety device, which automatically stops operation if the power goes above set limits.

Money for purchase of the reactor came entirely from private gifts and bequests made to the University. Additional gifts came from citizens and groups throughout the state.

Some of the groups donating gifts for the purchase of the reactor are: First National Bank of Nevada, Security National Bank, Nevada Bank of Commerce, Bank of Nevada, Las Vegas, Nevada Title Guarantee, Nevada Power Co., Cord Foundation, Sierra Pacific Power, Bell Telephone of Nevada, and several others.

## Night Prowler Rumored Here

Rumors of a prowler around Juniper hall were reported Saturday night by a nightwatchman and Sagebrush staff member.

Carole Hueftle, business manager, while working late in the Sagebrush office, was warned by a nightwatchman that a prowler had been seen around Juniper hall.

Leaving the Sagebrush office, Miss Hueftle discovered that her cleaning had been taken from her car which was parked in the journalism parking lot.

The nightwatchman found her clothes on the south side of the Home Economics building in a doorway. "He was apparently going to take the clothes with him when he left," said Miss Hueftle.

No official reports have been filed of a prowler in the area. Saturday night, but the watchman concluded that the would-be break-it was discouraged by students around Manzanita Lake at that time of night.

The cleaning was taken between 8:30 and 12:30 a. m., estimated Miss Hueftle.

## Sixty-six Added To Nevada Faculty This Semester

The University of Nevada faculty has been increased by 66 new members for the 1963-64 school year.

New appointments, most effective July 1, are:

**College of Agriculture:** Dean: Dale W. Bohmont; Dr. Richard E. Eckert, Mrs. Mabel I. Edmundson, Mrs. Dorothy Jones, Mr. Ivan B. Jones, Mr. Arthur L. Kress, Mr. Melvin P. Miller, Dr. Marvin L. Ogilvie, department of agricultural chemistry; Dr. Donal B. Olsen, Mr. Glynn L. Warren, Dr. Ralph A. Young, department of soil science. School of Home Economics: Mrs. Cathrine Loughlin.

**College of Arts and Sciences:** Mr. William E. Bradford, Mr. William V. Howard, art; Dr. R. C. Fuson, Dr. David J. MacDonald, Dr. Brahmata Sharma, chemistry; Dr. Stanley K. Frieberg, Mr. Joseph P. Glendenning, Mr. Richard S. Guerin, Mrs. Anne E. Howard, Mr. Maurice D. Schmaier, English; Mr. Enrico U. Bertalot, Mr. Paul Macura, Dr. Julius Purczynsky Jr., Mr. Otto J. Sadovsky, Foreign languages; Mr. Harry E. Kane, Mr. Myron L. Newell, physical education; Mr. Kinley Brauer, Dr. Hyrum Plaas, Mr. Joe A. Thompson, Dr. Elmo R. Russo, political science; Mr. LaRue W. Gilleland, journalism; Dr. Trevor J. McMinn, Mr. Edwin M. R. Smith, mathematics; Mr. Jerald M. Reynolds, music; Dr. Philip L. Altick, Mr. David P. Marsh, physics; Mr. Gerald P. Ginsburg, Mr. Richard C. McClintic, Dr. Robert A. Gardner, psychology; Dr. Ernst G. Palola, Dr. Winfield W. Salisbury II, sociology and anthropology; Mr. Kenneth E. Mosier, Miss Agnes Harcar, speech and drama.

**College of Business Administration:** (Continued on Page 6)

## Only Seven In Running

A freshman election rally, featuring only seven candidates, will be held tonight at 6:30 in the new gym. Primary polls will open tomorrow for one office — AWS freshman representative.

Seeking cheers and votes at the assembly tonight will be Joe Beloso, Sigma Nu, and Dennis George, Alpha Tau Omega for freshman class president; Sue Moss, off-campus non-affiliated representative; and Alice Cate, Kappa Alpha Theta; Sally Lombardi, Pi Beta Phi, and Toni Polini, Delta Delta Delta, for AWS freshman representative.

Two AWS freshman representative candidates will be decided on tomorrow at the primary elections. Polls will be open in the snack bar area of the Student Union

from 8 a. m. to 6 p. m. All freshmen women are eligible to vote in the primary.

General elections are scheduled for Wednesday, October 9, for the final vote on all three offices.

Because of the lack of candidates filing for offices, deadlines were extended one day last week. Only one student took advantage of the extra time to file.

Candidate's speaking time will be limited to three minutes tonight at the rally.

## Greek Pledges Elect Officers

Pledge class officers were elected in three sorority houses Monday night last week. Gamma Phi Beta elected officers yesterday, but were not available at time of publication.

Delta Delta Delta elected: President, Molly McKinley; Vice President, Marcia Heinbaugh; Secretary, Toni Poloni.

Kappa Alpha Theta: President, Mavis Cooper; Vice President, Sherry Locke; Secretary, Sue Sonderegger; Projects Chairman, Peggy Crumley; Song Leader, Alice Cate.

Pi Beta Phi: President, Martha Klinefelter; Vice President, Marjorie Uhalde; Secretary, Martha Rose; Treasurer, Carolyn Spitzer; Scholastic Chairman, Virginia Gilbert; Activities Chairman, Marylynne Fry; Social Chairman, Pat Pricessi; Censor, Kathy Barker; Historian, JoAnn Thompson.

## Nevada Technician Now At SF Examiner

A former technician in the University's Audio-Visual department is now one of the top news photographers on the San Francisco Examiner.

Fran Ortiz joined the Examiner staff last summer and immediately began to make page one with his bylined photographs.

While on campus, Ortiz also assisted in the journalism department's news photography course.

## Weekend Set For Dances

Fraternity social life will get into full swing Saturday night when Lambda Chi Alpha and Alpha Tau Omega honor their new members at traditional pledge dances.

The Lambda Chis and their dates will be dancing to the music of Tom Lee, a Nevada student, and his band. The affair will be held at the Rosemont Lodge. New pledges being honored are: Harold Albright, Bill Carpenter, Ronald Dale, Roy Dunn, Robert Gardner, Steve Gibson, Leon Hensley, Jim Humphrey, Claude Hunter, Martin Larraneta, Tom McFall, Charles Pettycrew, Keith St. Clair, Roy Schramm, Richard Starkweather, Eric Vogliotti, and Gregg Zive.

ATO will honor their new men with their annual Bowery Dance at the VFW Hall. Steve Robinson will provide the music for the "Roaring 20's" style affair. New pledges are: Terry Barcellos, Robert Basta, Gary Carter, Robert Diullo, Richard Funk, Dennis George, Steve Hansen, Bill Hessel, Craig Howard, Dennis Jensen, Steve Kosach, Richard Cranjack, John McCorduck, Dave Matley, Mervyn Murphy, Bruce Nickerson, Harry Parsons, James Quirk, John Raycraft, Danny Rechenmacher, Terry Ronan, Louis Rossi, Tony Scheuller, Les Smith, Norm Snyder, Keith Stauffer, Ken Swanson, Thomas Trippiano, James Ullom, Jim Wenner, Don Weyant, Stephen Williams, and Charles Yeager.

## Nevad-Anns Will Meet To Make Future Plans

The Nevad-Anns, organizational meeting will be held Wednesday at 4:15 p. m. to plan this year's activities for the all-girl drill and dance team.

Interested University women will meet in room 102, Fine Arts, with Mary Parmenter, Nevad-Anns' drill instructor.

Sacramento and Las Vegas trips are planned for the group. Last year's trips included Los Angeles and San Francisco.

## Infamous End Met By Campus Horse

by STELLA RIESBECK

Campus Joe, the illustrious paper mache horse staring down at traffic from the second story of the Agriculture building, has joined other horses of history in Horse Heaven. His earthly remains went ingloriously to the city dump.

In the Ag building, for as long as most faculty members and students can remember, the stately brown and white horse maintained a great deal of sentimental value. Many faculty children will remember "riding" him as they visited papa's office.

During the depression, the State legislature did not appropriate funds to operate the University farm so it was rented out during those years. Students in animal husbandry needed a guinea pig so Campus Joe filled in.

From time to time the horse was the object of pranks by fraternity men, agriculture majors, and the engineers. During his lifetime, he paid many visits to sorority front porches, could be seen being led down campus during wee hours, and standing contentedly in Manzanita lake. Joe was also mascot of the Nevada Aggies and Shepherders for many years.

## Editorials

### PARKING PROBLEM

The parking problem around and on the campus is something like the weather — everyone talks about it, but no one seems to do anything about it. But the City of Reno did something about it last spring — it got busy with paint can in hand and colored everything concrete red — something students are often accused of doing to the town.

Instead of making the traffic problem and the parking problem better it became worse. Students who have late morning classes just don't find a close place to park. And Virginia Street by the campus has become a simulated Indianapolis speedway. In front of the campus, by the main entrance, parking zones are two-hour and 24-minutes. Hardly enough time for the average Nevada student to attend classes.

There are parking areas on the campus, but they are so far out on its fringes that it's probably as close to park near the Greek complex on Sierra Street. And students being as lazy as faculty and administrators, who park in choice areas, want to park as close as is convenient.

Some very enterprising business man would do well to buy one of the lots across the street from campus and put up a multi-story parking lot and charge semester rates. Anyone who has had to scramble for parking spaces around campus would probably be willing to pay a nominal cost for a ready made, close-in reservation.

The red ought to be removed from the Virginia speedway, allotting some 60 to 70 more parking areas. If the City wants to do something really constructive to increase traffic flow, the street ought to be widened. Or another solution would be fee parking in key areas, with upperclassmen having priority.

### Volunteer Program Outlined At College YWCA Meeting

Several areas for volunteer work were outlined at the campus YWCA's last meeting. Already in operation is a volunteer program at the Nevada State Hospital. A four-evening training program, which began Thursday, September 26, is designed to inform trainees on hospital administration as well as on techniques of mental health nursing.

Mrs. Tosca Means, director of the Community Young Women's Christian Association of Reno, emphasized the need for leaders for Y-Teen groups, especially for those on the junior high school level. Any university woman interested in serving as a leader is asked to get in touch with Sharon Barrett, who is YWCA cabinet member in charge of the Y-Teens program. A training session for new leaders is scheduled for early October.

President Ruth Friedhoff said that the Easter Seal program

needs workers to help with paralytic and spastic children. The principal duties of these workers would be to give parties for the children and supervise therapeutic activities for them.

Miss Friedhoff announced that the first in a series of fireside chats will be held Wednesday, October 2 at 6:30 p. m. in the home of Judy Hunt, 915 Grand Canyon Boulevard. They will be held on the first and third Wednesdays each month.

The topic for this Wednesday's discussion will be "The Role of Women at the University." Students needing a ride should meet on the porch of Manzanita Hall at 6:15.

Students having questions about the group may inquire at the YWCA office located in the Student Union office on the main floor. A representative is in the office Monday through Friday from 10 a. m. to 12 p. m.

## Band Problem Gets Red Hot

**Editors Note:** This is the first in a series of stories on the University of Nevada marching band. The Sagebrush hopes to present the many sides of the now existing controversy over the band and the problems which have arisen concerning it.

The University of Nevada marching band will not march this Homecoming nor for any other football game this season. The finance control board of the ASUN cut \$550 from a budget request by Dr. John Carrico, director of the band.

In Carrico's request, he asked for \$1600 for travel, cleaning, and instrument expenses. The finance control board appropriated \$1,050 for the band.

The reason for the cut revolved around difference of opinion between Carrico and the board. Carrico was planning a trip to the Sacramento State-Nevada football game. The band was to march during half-time at that game. Carrico wanted extra money expended to stay over-night at Sacramento, then travel to San Francisco to appear on nation-wide television at the San Francisco 49ers football game. The game would not be televised in the Reno area since there is a 350 mile blackout for most athletic events.

Finance control board felt that ASUN money should not be appropriated to the band for professional and television appearances. It was the feeling of the board that student money should be spent for appearances at conference games. They felt that the band did not march at enough conference games to warrant such elaborate budgeting.

Carrico's answer to the board's action—no marching band. Instead the musicians will sit in the stands and play during the games, but marching music will not be used.

For the Homecoming game, when alumni, students, and interested towns-people attend the 1964 Homecoming game and ceremonies during half-time, the University of Nevada band will not march. Fans will see and hear the Chico State marching band. This arrangement was made possible through Jake Lawlor, athletic director.

Carrico felt that students may decide for themselves whether they like a marching unit or one which sits in the stands and plays.

Two years ago, the finance control board cut the band budget requested by Carrico \$700.

### New Journalism Prof Hails From Missouri

New to the journalism department staff this year is Prof. La Rue Gilleland from Eldon, Missouri.

He attended Central Missouri State College and Florida Southern, and holds B. A. and M. A. degrees from the University of Missouri.

Prof. Gilleland worked on the Honolulu Advertiser, the Los Angeles Times, and the Commercial Appeal in Memphis, Tennessee. He has also done radio and TV work in Missouri and Oklahoma.

Last year he taught literature and philosophy at Arkansas State University.

## LETTERS

### Who's Miller Sore At?

Editor, the Sagebrush

Ten questions for Mr. Steve Miller to answer, please.

1. If a plant has no choice, and an animal has no choice, which has more choice?
2. The dog quit eating and pined away after its master went away. Had it chosen good or evil?
3. When Professor St. Sative jumped off the bell tower and made a mess of things, had he lost sight of his end in life?
4. Is it better to have a Pleasing Personality or an Evil Intelligence?
5. My late lamented cousin Euphemia stopped to think over the problem, while I dived for the sagebrush. Am I inhuman?
6. Logic said you can get away with it; my religion, (mother, daddy, sister, brother) said one doesn't do it anyway. Shouldn't logic ever defer to conformity?
7. If I think enough about food, can I get the vital concept-expansion?
8. Alice found her husband in chemistry, married him in June, and was still very happy in Late Middle Age. Was her failure in primacy of reason?
9. Joe regurgitated into a blue-book; Moe threw up college and joined the Army. Which showed better aim in life?
10. Who you sore at?

GEORGE HERMAN

### Nevada Southern Should Have An Equal Chance

Editor, the Sagebrush,

In reference to your editorial entitled "Stress Quality, Not Quantity," I am very pleased with your awareness of the existence of Nevada Southern, but I am appalled at your selfish narrow-minded attitude toward its existence.

You write that Nevada Southern should have been made a "two year or junior college" so that the inferior students could prove themselves at that level before being allowed to attend the University. To whom do you propose to delegate the duties and powers of culling the applications for admissions, so that the inferior students can be sent to Nevada Southern, thus raising the illustrious scholastic standing of "The University"? Why should Nevada Southern suffer or be considered any less than a University just because the Reno campus has acquired the reputation of being an "easy" school or a "party" school? The Administration, faculty, and students of Nevada Southern were not the cause of such a reputation.

If what you say about the Reno campus being forgotten is true, then my only hope is that Nevada Southern will be forgotten tomorrow. Maybe then the students of Nevada Southern would have an

### Livestock Judging

Students interested in the inter-collegiate livestock judging team are urged to see Nyle Matthews, advisor, in room 217B Agriculture building as soon as possible.

The team will attend several Livestock shows throughout the West during the year.

opportunity to enjoy the luxuries and facilities that are taken for granted and go unappreciated on the Reno campus. The headlines of the September 13, 1963, U. of N. Sagebrush read, "Progress at Nevada: Five Buildings Open, Academic Standards Hike In Full Swing." Have you ever seen the Nevada Southern campus? There are only six buildings. The construction of these six small buildings was not accomplished in just one year, but extended over a five year period.

It took many years for the U. of N. to attain its present reputation and it will take many years to erase that reputation. Do you really believe that restraining Nevada Southern, or completely forgetting about it, will speed up the evolutionary processes of raising standards and obviating derogatory reputations?

If you are truly concerned about having a superior institution instead of two ordinary ones, give Nevada Southern the start it needs. Let it grow as a superior institution. While Nevada Southern is establishing a good reputation, the Reno campus can rebuild its own reputation. The end product of such action could very well be two superior institutions.

Help Nevada Southern — Don't hold it back.

NORMAN JOHNSON

### Collegiate GOP Organization Meet

The next meeting of the University Young Republicans will be held Wednesday at 7 p. m. in the dining commons.

Jac Shaw, state chairman of the party will speak and officers for the year will be elected.

Organizational meetings were held last Tuesday and Wednesday.

"Over 25 persons have already expressed interest in the club and we anticipate that at least 30 will attend Wednesday night's meeting," said Gary Backus, spokesman for the club.

Those students joining the club include: Dan Alfonso, Barbara Alm, Gary Backus, Katie Bergin, Judy Black, Linda Chambers, Jaci Chiatovich, Richard Clark, Dave Cooper, Jinx Dabney, Larry Eck, Carl Fuetsch, Rich Gynn, John Habecker, Dan Hansen, Phil Hendrikson, Larry Hill, Don Jones, Ed Jucevic, John Kimpton, John Larue, John McSimsey, Vern Manke, Rondi Mattson, Steve Miller, Rosemarie Mitchell, Gordon Nelson, Bruce Pozzi, Bill Whitfield.

## Married Housing Complex Is Type Of Fraternity

by JIM MAINE

A "fraternal organization" has been operating for some time on the campus, but is little publicized and often forgotten. The "house" is located where Evans Avenue comes to a dead end and where many men have met the same fate.

Like all "fraternities" it professes brotherhood and living together in peace. However, like all institutions of man, these goals are sometimes forgotten and personalities clash. For those who are still happy and carefree and have not guessed the name of the "fraternity", it is called "Enda Allthe Funa", or as the sign out front says, "Married Student Housing".

A student's life is very different in the "cow pasture", with babies crying, friendly fights among the tenants, and the wonderful cow-produced aromas which float through the windows as the sun sinks over Peavine Mountain.

Despite strange sights—The big football hero out hanging up the weeks' wash or the Homecoming Queen of two years ago running to the garbage can with curlers in her hair—

The married student housing unit is a serious integral part of the university which is often forgotten and ignored. It is larger than most living groups on campus, but has never been invited to participate in regular student activities such as Wolves Frolic or Mackay Day skits.

"We have forty apartments and all are now occupied," says Mrs. Alfred T. Jones, wife of the manager.

The housing complex has its own laundry and a fully equipped playground for children. A barbecue is held every spring to say goodbye to those leaving and to get acquainted with the new neighbors.

"The rent is cheap which leaves us money for necessities such as booze and movies," says Andrew Jackson, a typical tenant.

"It would be wonderful except the walls are so thin I can hear my neighbor brush his teeth every morning," said Robert Spears. Other comments at random: "I wish they'd clean the washing machine out after washing those di-

apers," "Why doesn't that guy move his stinkin' cows downwind?" "Man, I've got an Elvis Presley fan on one side and an opera lug on the other."

In spite of minor complaints, however, everyone seemed to feel that the married student housing at the University of Nevada is far better than at many other colleges.

## 3 Discussion Topics Chosen By Helix

"Is the rational man a theist, an agnostic, or an atheist?"

This is the topic for discussion at this Thursday's meeting of helix, according to spokesman Steve Miller. Both students and faculty are welcome. The discussion begins at 7 p. m. in room 108, Clark Administration building.

Working definitions of the three terms, Miller said, would be:

—Theism—belief in the existence of God;

—Agnosticism—belief that neither the existence or non-existence of a God can be known;

—Atheism—belief that no God exists.

## GET PICTURES TAKEN

Pictures for the 1964 Artemisia are still being taken for two sororities at Gene Christensen studio. Andy Gotelli, Artemisia editor said women are not having pictures taken as assigned. He said if pictures are not taken during this time the sorority women will not appear in the 1964 yearbook.

Picture times are:

—Kappa Alpha Theta: October 1, 2, 3, 7, and 8.

—Pi Beta Phi: October 9, 10, 11, 14, 15, and 16.

October 17 and 18 have been set aside for women who did not have pictures taken at the scheduled time.

## Ballet 'Red Shoes' Here Soon

"The Red Shoes" will be the offering of the Film Classics Series on October 8. This is a ballet presentation of Hans Christian Andersen's story of a little girl who buys a pair of red shoes, only to become possessed by them. This is without doubt the finest and most popular ballet film ever made, said Mr. Robert Strane, director of the series.

In this film Moira Shearer plays the part of the little girl. The rest of the dancers are from the Sadler-Wells Company now the Royal Ballet in London. Sir Thomas Beecham conducts the London

Symphony Orchestra in this color masterpiece.

There will be no increase in prices for this outstanding presentation.

## French Burlesque Is Tonite's Film Classic

"Bizarre Bizarre" plays tonight in the Fine Arts Theatre. This is a zany French burlesque on a fanatical reader of crime-fiction, who becomes obsessed with the idea of committing the perfect crime.

There will be two showings, at 7 and 9 p. m. Students will be admitted free. General admission is 75 cents.

## WORDS: THEIR CAUSE AND CURE

Today let us take up the subject of etymology (or entomology, as it is sometimes called) which is the study of word origins (or insects, as they are sometimes called).

Where are word origins (insects) to be found? Well sir, sometimes words are proper names which have passed into the language. Take, for instance, the words used in electricity: *ampere* was named after its discoverer, the Frenchman Andre Marie Ampere (1775-1836); similarly, *ohm* was named after the German G.S. Ohm (1781-1854), *watt* after the Scot James Watt (1736-1819), and *bulb* after the American Fred C. Bulb (1843-1912).

There is, incidentally, quite a poignant little story about Mr. Bulb. Until Bulb's invention, all illumination was provided by gas, which was named after its inventor Milton T. Gas

*many fine citizens were severely injured*

who, strange to tell, had been Bulb's roommate at Cal Tech! In fact, strange to tell, the third man sharing the room with Bulb and Gas was also one whose name burns bright in the annals of illumination—Walter Candle!

The three roommates were inseparable companions in college. After graduation all three did research in the problems of artificial light, which at this time did not exist. All America used to go to bed with the chickens, and many fine citizens were, alas, severely injured falling off the roost.

Well sir, the three comrades—Bulb, Gas, and Candle—promised to be friends forever when they left school, but success, alas, spoiled all that. First Candle invented the candle, got rich, and forgot his old friends. Then Gas invented gas, got rich, bankrupted Candle, and forgot his old friends. Then Bulb invented the bulb, got rich, bankrupted Gas, and forgot his old friends.

Candle and Gas, bitter and impoverished at the ages respectively of 75 and 71, went to sea as respectively the world's oldest and second oldest cabin boy. Bulb, rich and grand, also went to sea, but he went in style—as a first-class passenger on luxury liners.

Well sir, strange to tell, all three were aboard the ill-fated *Lusitania* when she was sunk in the North Atlantic. And strange to tell, when they were swimming for their lives after the shipwreck, all three clambered aboard the same dinghy!

Well sir, chastened and made wiser by their brush with peril, they fell into each other's arms and wept and exchanged forgiveness and became fast friends all over again.

For three years they drifted in the dinghy, shaking hands and singing the Cal Tech rouser all the while. Then, at long last, they spied a passing liner and were taken aboard.

They remained fast friends for the rest of their days, which, I regret to report, were not many, because the liner which picked them up was the *Titanic*.

What a pity that Marlboros were not invented during the lifetimes of Bulb, Gas, and Candle. Had there been Marlboros, these three friends never would have grown apart because they would have realized how much, despite their differences, they still had in common. I mean to say that Marlboros can be lit by candle, by gas, and by electricity, and no matter how you light them, you always get a lot to like—a filter, a flavor, a pack or box that makes anyone—including Bulb, Gas, and Candle—settle back and forswear pettiness and smile the sweet smile of friendship on all who pass!

## CAMPUS CALENDAR

### Tuesday, October 1:

- Artemisia pictures, Theta, 1-4 p. m., Christensen studio.
- Film classic, "Bizarre, Bizarre" 7 and 9 p. m. Fine Arts theater.
- Election assembly, 7 p. m., New Gym.

### Wednesday, October 2:

- Campus Christians, 208 Getchell library.
- ASUN, AWS primary elections, 8 a. m.-6 p. m., TUB snack bar.
- Young Republicans, 7 p. m., dining commons.
- Newman club, 7 p. m., St. Alberts social hall.

### Thursday, October 3:

- Ski club, 7 p. m., 215 Mackay Science.

### Friday, October 4:

- Football rally, 12 noon, Mackay stadium.
- Theta pledge dance.
- Tri-Delta pledge dance.

### Saturday, October 5:

- ATO pledge dance.
- Lambda Chi pledge dance.
- Nevada vs. Montana State, 2 p. m., Mackay stadium.
- College Day in Home Economics.

### Sunday, October 6:

- Chamber music concert; 4 p. m., Fine Arts.
- "The Fountainhead", 7 p. m., Fine Arts theater.

### Tuesday, October 8:

- AWS "Last Lecture".
- "The Red Shoes", film classic, 7 and 9 p. m., Fine Arts theater.
- Sagers, 7:30 p. m., Ross hall.

### Wednesday, October 9:

- Senate, aggie conference room, 7 p. m.
- Christian Science Organization, 3 p. m., 208 Getchell library.
- ASUN, AWS general elections, 8 a. m.-6 p. m., TUB snack bar.

### Thursday, October 10:

- AWS Council.
- Eudice Shapiro, violinist.

### Friday, October 11:

- Gamma Phi Beta dance, 9-12 p. m., El Cortez.
- Pi Beta Phi dance, 9-12 p. m. Rosemont lodge.

## PJ Rally Ends In Old Gym

Not-so-ready-for-bed students donned their finest sleep apparel last Friday night to cheer Nevada's team to their first victory Saturday afternoon.

After the bonfire rally in Mackay Stadium, the spirited students made their way to the old gym for the Sundowner Dance. Nightcapped and barefooted, they south-bayed and stomped to the tune of "Ring of Fire."

Although the snake dance did not go downtown this year, Reno residents and visitors could spot pajamas in various establishments in the area.

At the bonfire rally cheers were led by the "Pep Pack" while the football team and coaches were introduced. "Those Guys" from SAE led the stadium group in singing.

## Two Nevada Profs To Attend Convention

Two University of Nevada professors in the college of business administration, Dr. Ben M. Wofford and Dr. Leonard Laudadio, will participate in the Associated Universities Bureau of Business and Economic Research Convention to be held in Reno, October 6-19.

The convention will feature prominent speakers in the fields of business and economic research. Featured speaker will be Edgar S. Dunn Jr., Deputy Assistant Secretary for Economic Affairs, U. S. Department of Commerce, who will talk on "Information Gaps in the Social Sciences."

Dr. Wofford, head of the economics department, is local chairman of the bureau.

**WEIGHT:** 170  
**EXPERIENCE AND HONORS:** 1 yr. Nevada, two years Pueblo College  
**MAJOR:** Biology  
**AMBITION:** Biologist

By TOM DYE

Sagebrush Sports Staff

After a miserable first half, the Nevada Wolf Pack exploded for three touchdowns in the fourth quarter and soundly defeated the visiting Willamette Bearcats 29 to 6 at Mackay Stadium Saturday.

Nevada backs Dan Acuna, Tony Manguso, Tony Wheeler and Allan Crawford all scored second half touchdowns as Nevada chalked up its first victory of the season.

Sloppy ballhandling halted Nevada drives in the first half and early in the third quarter. Nevada ballcarriers lost four fumbles inside the visitor's twenty yard line and also had a pass intercepted deep in Willamettes' territory.

Nevada's defensive line effectively stopped the visitors ground game.

Clyde Robards, Dennis Mandel, Dale Landon, Tony Manguso and other Nevada defensive stalwarts kept the Bearcats bottled up in their own territory.

Nevada finally broke the scoreless tie in the third quarter with a 60-yard-drive climaxed by halfback Dan Acuna's two yard touchdown plunge. Sophomore quarterback Allan Crawford set up the T. D. with a twenty-five yard pass to end Rick Miles. On the next play Chuck Widel sprinted to the six yard line. Two plays later Acuna scored. Tony Trevino booted the extra point and Nevada led 7 to 0.

The visiting Bearcats roared back to score their only touchdown of the game.

Quarterback, Jim Dombroski hit Jiggs Burnette with a long pass and Willamette had first and goal from the six. Nevada's defense made it tough but ace halfback Walter Maze sprinted over on fourth down for the touchdown.

Willamette's two point conversion try was no good and Nevada led 7 to 6 with fourteen minutes remaining in the fourth quarter.

Nevada came right back to score again. Miles returned the kickoff to the Wolf Pack's 35. Halfbacks Acuna, Widel and reserve fullback Tony Manguso bulled their way to the visitors 30 yard line. From there Acuna carried to the six on a double reverse and Manguso scored the six pointer Trevino kicked the extra point to give Nevada a 14 to 6 lead.

Nevada forced Willamette to punt on the next series of downs. Al McDaniel's twenty yard return and a penalty gave the Wolf Pack possession of the ball at midfield. Nevada drove for a first down on the 20 yard line. Quarterback Allan Crawford dropped back to pass and finding no one open ran for a 20 yard touchdown with the help of sensational blocking. Crawford then hit end Larry Fellesina for a two point conversion and Nevada led 22 to 6 with two minutes remaining in the game.

The Wolf Pack scored their third touchdown of the quarter when the Bearcats fumbled deep in their territory. The Nevada reserves scored as fullback Tony

Wheeler took it in for the final touchdown.

Nevada's offensive and defensive line was outstanding all day. Wheeler, Ebbert and Landon were the Pack's linebackers and played gutty heads up ball. Sisul, Kaspar and the rest of the big Nevada line opened up gaping holes for Nevada ballcarriers.

Nevada ground out 372 total

yards 321 yards on the ground and 51 via the aerial route. Widel ran for a spectacular total of 132 yards carryin 17 carries for a 7.8 yards per carry. Danny Acuna followed with 87 yards in 11 carries for a 7.9 average. Crawford completed 4 of 10 passes. Co-captain Jock Echave was outstanding as a blocker and gained valuable short yardage.

### Intramural Sports Kinnear Trophies All Disappeared In Past Ten Years

By SIG ROGICH

Many new students on the University of Nevada campus are unfamiliar with the Kinnear Trophy, a lost copper mug-like object meant to be awarded annually to the group which has piled up the largest number of points in various intramural sports.

Points are awarded for each win in different events. To be eligible for the trophy, however, each fraternity or independent group must compete in every sport available in intramural activity. The names of the winning groups are shown on small plates attached to the actual trophy.

In 1933 Mr. Jack Kinnear, then the General Manager of Kennecott Copper Corporation in McGill Nevada, decided to try to foster sportsmanship, fair play and team work on the Nevada campus. He saw an opportunity to bring about competitive spirit between fraternities and independents, and a means to determine which campus group really excelled in sporting events each year.

Competition for the trophy and the prestige behind it, went on from 1933 to 1953. At that time it mysteriously "disappeared" and was never recovered.

Some thought it was taken by an independent group. Others said a fraternity. Still others think it is on the bottom of Manzanita Lake. In any event, in 1953 the

University of Nevada petitioned Mr. Jack Kinnear, the son of the donor of the original Trophy, to contribute a substitute trophy. Kinnear agreed and donated an exact duplicate of the first one.

Competition for the second Kinnear Trophy went on from 1953 to 1962. At this time the second trophy vanished too.

Dr. Sam Basta, Dean of Student Affairs, says the school may petition Mr. Kinnear for a third copy of the trophy, but it may be very embarrassing, especially if he is rebuked.

### Nevadan Ireland Is Assistant Coach

Former Wolf Pack baseball and football star Bill Ireland will again be an assistant football coach for the Silver and Blue.

Ireland is a native of Ely, Nevada and a graduate of White Pine High School.

After graduation from Nevada in 1952, Ireland coached at Fernley High School where his teams won nine conference and four state championships. From Fernley, Ireland moved to South Tahoe where he was head football coach for two years before coming to Nevada.

Ireland is head baseball coach in the spring and announces the Reno Silver Sox baseball games for KBET radio.

### INTRAMURAL SCHEDULE

The intramural softball season got underway last week with Alpha Tau Omega, White Pine Hall and Lambda Chi Alpha all remaining undefeated and tied for first place with two wins apiece.

Standings to date after the first week of play are as follows:

#### STANDINGS

	Won	Lost	Tied
1. ALPHA TAU OMEGA	2	0	0
2. WHITE PINE HALL	2	0	0
3. LAMBDA CHI ALPHA	2	0	0
4. SIGMA NU	1	1	0
5. PHI SIGMA KAPPA	1	1	0
6. SIGMA ALPHA EPSILON	0	2	0
a. 7. LINCOLN HALL	0	2	0
8. THETA CHI	0	2	0

a. Forfeit to Phi Sigma Kappa

#### MONDAYS RESULTS

ALPHA TAU OMEGA 17 SIGMA NU 4

## LAPSUS LINGUAE

By BOB ALWARD

### "A NIGHT IN DISNEYLAND"

Tired of studying? Well, jump into your old surf wagon and head toward the library some night. Once there, you will experience a new treat in life. Be sure that you park in the lot behind the library because that is where your evening will undoubtedly begin.

If you have a parking permit on your wheels, you automatically stand a better than average chance of getting a parking ticket. If you are really willing to make a night of it, perhaps the cop will even tow your car away for you. Man, that's really living!

Collect yourself and stumble down the driveway along side of the library. Be careful! Make sure you don't stumble into the airconditioner when walking down this brilliantly lighted walk. Just make sure that it isn't raining or snowing the night you visit our beautiful and somewhat empty library. If it should happen to be a wet night, that runway of Italian marble tile leading to the entrance can be as slippery as hell. You may very well find yourself in the hospital with a sprained or broken ankle.

Congratulations! You've made it to the entrance. Gently push open the feather weight doors and enter through the supermarket turnstiles. Take a seat anywhere in the house and wait for the show to begin. The show that I had in mind is the one featuring all of those starry-eyed lovers who go to the library to con their mate.

Take notes on the "ear-nibblers" who populate the main floor. Upon entering the library, they organize themselves and leaf through a few pages of Plato or whatever and proceed to become deeply engrossed in their work for about five minutes. Now he turns to her and whispers a question about the text into her cute pink ear. It is now her turn to reply to his question and thus whispers the answer back to him. Before long, both parties have become so fascinated with whispering into one another's ear that their ear lobes glow a deep pink because of the hot breaths that have been exchanged by these lovers.

On the ground floor, one can find the hand holders. Marching in hand in hand, they spread their night's work before them making sure that they never let go of their partner's hand. Sitting all night like two octopi with their tentacles interlocked, these blossoming lovers are oblivious to the world outside of their passionate clasp.

The "stack runners" are dominate on the third floor. This mated pair delight in having secret meetings in the stacks. When approaching footsteps are heard, these individuals may be seen scampering down the aisle only to disappear into the political science section. Once here, they are safe until footsteps again send them scurrying away. What energy is expended on saving face

Position yourself near the turnstiles and watch the parade of the unattached males who come stomping into the building. Clad in their blue tennis shoes, sunglasses, and cut-offs, they have arrived to "snow" the dollies. Cruising each floor like hungry vultures, they never seem to miss a cute coed. These guys must still think that they are on their surf boards for any "grimmie" to their way of thinking is fair game, even if she is in the library.

Before I forget, those turnstiles at the entrance of the library only cost three to four hundred dollars apiece. Don't panic, you forgot how well our library is stocked with books, didn't you? After all, it can well afford them I am told. I think that it would be nice if the library sank some money into upholstering the chairs for those curtained rooms used by all of the lovers. How about putting carpet in all of the ladies rooms and gold plated towel racks in the men's room? Something surely should be done with the pond on the bottom floor. I further suggest that it be stocked with gold fish and turtles. These creatures would go along nicely with some of the other creatures who are already inhabiting the library.

Add a few banana trees to the indoor landscape, Dorothy Lamour, a chimpanzee, and presto—the library will be transformed into a movie set for Tarzan. This might not be such a bad idea. At least the University would be collecting some extra money which could be used for carpeting the front steps of the library. Perhaps some of this extra revenue could go into some more furniture for the home of our President, but please, don't buy books.

The outdoor pond could also be pressed into use. All we would need is a white cat and Anita Ekberg to wallow around in the pond and before you know it, we have La Dolce Vita re-enacted. Wouldn't that be better than having everyone sitting around on the edge of the pond dangling their feet in that clean water? At least Anita would add some class to the landscape.

To further aid the cause of raising funds for more books, we could stock the water fall in the reading garden with trout and charge so much per fish that is caught. For a few pennies each, we could let the grade school children use those concrete pillars in the reading garden for jungle-gyms and they could even go swimming in the pond. Say, there does seem to be quite a few ponds around the library. Maybe that is just the Board of Regent's way of saying that we are all wet.

Now that the night's show is over, get checked out at the front door, slide yourself back down the Italian marble, pick up the ticket from your car's windshield, and head for home. Just remember, be glad that you are going to Nevada for your higher education. And in case someone should ask your opinion of how you would improve the University, tell them anything, but be sure and mention that whatever they do DON'T BUY BOOKS! Who needs them? After all, we do have our waterfalls and ponds!

## Debating Team To Be Decided

The fall schedule for the University of Nevada debating teams will be decided this weekend at the convention of the Northern California Forensics Association at the University of Santa Clara. Dr. Robert S. Griffin, chairman of the speech and drama department, will attend.

The inter-collegiate debate squad will be organized into 14 or 15 two-man teams. Some of and some are not.

"The signs point to a successful the participants are experienced debating season", Dr. Griffin said.

## Drinking Cattle Are Unhealthy

Steers consuming large quantities of ethyl alcohol failed to grow or gain weight in tests conducted by the University college of agriculture.

The tests involved eight steers with four receiving three pounds of alcohol per day. Dr. Verle R. Bohman and A. L. Esperance, animal nutritionists, attributed lack of growth to reduced consumption of feed and water.

Steers receiving alcohol lost more than 96 per cent of the liver vitamin A during the test period. Animals not receiving alcohol lost only 50 per cent of liver vitamin A.

The 50 per cent loss in the control group was expected. Animals were moved off the grassland into the feed pasture.

In previous tests, the steers received up to 16 ounces of alcohol every day and showed no response. The alcohol was given with drinking water.

Interest developed in alcohol as

feed for cattle in a search by University scientists for more economical source of energy feed. Animal fats have been used in previous tests.

Costs of cereal grains, commonly used as energy fats, are pushed up by high transportation costs since much of the grain must be transported from the Great Plains States.

Bohman, dean of the college, said tests are underway to determine extent and rate of recovery stunted steers will make after alcohol has been removed from the ration.

Man passes away; his name perishes from record and recollection; his history is a tale that is told, and his very monument becomes a ruin.—Washington Irving.

We all make mistakes...

## ERASE WITHOUT A TRACE ON EATON'S CORRASABLE BOND

Touch-type, hunt-and-peck, type with one hand tied behind your back—it's easy to turn out perfect papers on Corrāsable. Because you can erase without a trace. Typing errors disappear like magic with just the flick of an ordinary pencil eraser. There's never a telltale erasure mark on Corrāsable's special surface.

Corrāsable is available in light, medium, heavy weights and Onion Skin. In convenient 100-sheet packets and 500-sheet ream boxes. Only Eaton makes Corrāsable.

A Berkshire Typewriter Paper

EATON PAPER CORPORATION  PITTSFIELD, MASS.

## Hell of a Yell Contest

### HOW TO ENTER:

It's simple. Just write a yell on a piece of paper and sign your name. Enter as often as you like. But be original.

### WERE TO ENTER:

That's simple too. Boxes will be placed upstairs in the Student Union, in the dormitories, sorority and fraternity houses.

### WHAT YOU WIN:

Composer of the best yell will win reservations for two at Harrah's Lake Tahoe for the dinner show. And he or she can use the reservations at her or his convenience.

### AND HURRY!

The contest ends **October 4**. So put your thinking caps on. All clean yells will be accepted.

### WINNER ANNOUNCED:

The winner will be announced at the Montana State game, October 5.
