University Regents Meet; Accept 4.4 Million Bond Bids

By Sig Rogich
Assistant Editor

The University of Nevada Board of Regents met Saturday and accepted new revenue bond bids worth 4.4 million for a new dormitory on the Reno campus and a radiological laboratory at the Nevada Southern University, as well as appropriating a 10,000 loan for the Jot Travis Student Union. Regents available for comment to the Sagebrush expressed delight in the accepted bond measure.

Regent Molly Magee of Austin, Nevada, said the whole board was very happy with the outcome.

Another Regent, Procter Hug Jr. of Reno termed the rate given as being excellent.

AAA RATING

Also present at the meeting was University President, Charles Armstrong, who said the bonds were rated by Standard and Poor Association of New York as being "triple-A." He added that this rating is the highest ever given to any bond issue in the state of Nevada.

The \$10,000 Student Union loan, made from the Jot Travis Capital Improvement Fund, was passed with a recommendation the Union Board operate in the future only on existing funds.

This was in reference to anticipated gate receipts which were said to be the reason for the financial deficit the student board is facing.

NO ANTICIPATION

Mrs. Magee said she, "hopes the board will operate on the funds available, and not on anticipated receipts."

President Armstrong also said, "If the board does this, it will protect them in the future, because they will not have to gamble on good gate receipts."

In regard to a proposed 50 cent allotment for the University band, the board decided to leave the matter up to the students and a committee headed by Dr. Carrico of the music department.

Mrs. Magee said, "We are all in favor of a University band, but we shouldn't be the ones to decide how to organize it. The students should decide what they want."

ERRONEOUS REPORTS

She added, that the downtown papers were erroneous in reporting an approved 50 cent per student allotment for the band.

"We haven't taken any action yet, and we won't until the next meeting," said Mrs. Magee.

Regent Procter Hug Jr., also said the reported 50 cent allocation was wrong, and the Regent expressed a desire to have a University band, but added "a committee of students and Dr. Carrico will investigate the matter first."

Also on the agenda was a proposal to extend the University of Nevada Associate Degree program. The present set-up offers a two-year degree to students preparing for a technical program, but not wishing to participate in the regular four-year University program.

COURSES AVAILABLE

Available courses include studies in drafting technology, engineering technology, electronic technology and nursing.

President Armstrong said the

CARRY-OVER

Mrs. Magee said the high rate of probations is "merely a carry-over."

She added, "The academic pro-

Legislature May Restore University Budget Cuts

By Tom Dye
Managing Editor

The University of Nevada's budget — which has been the subject of controversy for several weeks — may be the same as Governor Grant Sawyer asked for.

Originally, the University asked for \$21.8 million. However, Sawyer recommended that Nevada's budget be cut to 19 million.

The State Senate finance committee slashed even more from the budget, cutting about 2 million.

CUTS RESTORED

However, the Assembly Ways and Means Committee also considered the bill. Assemblyman James C. Bailey told the Sagebrush that the committees have gotten together and restored many of the budget cuts.

The proposed budget will now be put in an appropriations bill and the Assembly and Senate will vote on it.

Bailey says the fate of the bill will probably be decided within the next two or three days.

MAJOR CUT

One major cut still has not been restored — an appropriation for a physical science building on the Reno campus.

One regent is not too happy

with the budget. Dr. Louis Lombardi believes the legislature is shortchanging the men and women in the state by slashing the budget.

Dr. Lombardi says the University will be in a bind when it comes to the physical sciences.

"WE NEED IT"

"We need the physical science building," says Lombardi. "Now it won't be built for four or six years."

He also feels that the whole University will be hurt over a period of time. He says that much needed facilities may not be built because of the cuts.

Dr. Lombardi says the University could use more classrooms, laboratories, equipment and staff members — which it may not be able to afford.

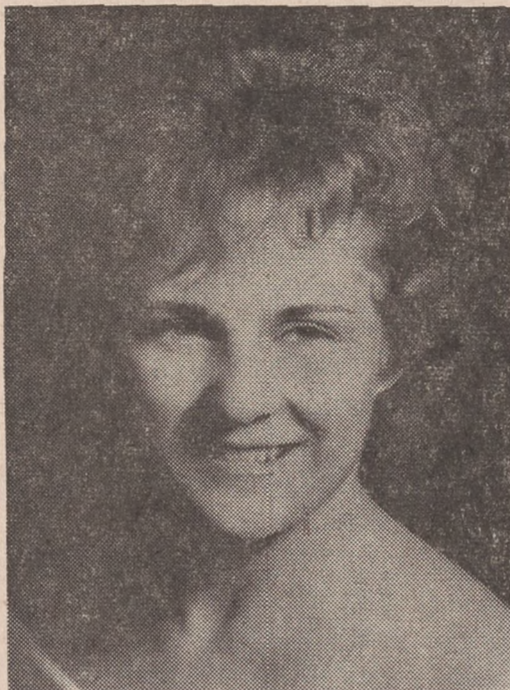

MODERATE VIEW

Assemblyman Bailey takes a much more moderate view. "I feel that the University came out real well," says Bailey, "It should be able to function smoothly."

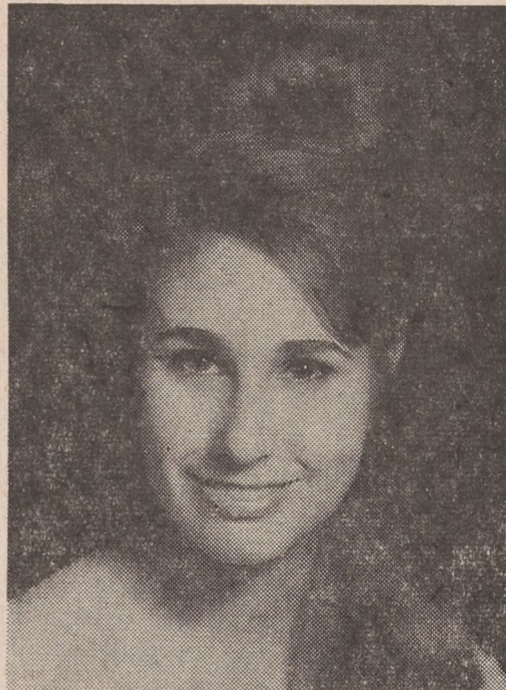

ASUN president Keith Lee said he was hopeful the University would get more money but he is very pleased with the budget as it now stands.

Earlier in the month, Lee campaigned to get the budget cuts restored by talking to Senate and Assembly members.

Campus Women Compete For 1965 Junior Prom Queen

Eight campus beauties are vying for the title of Junior Prom Queen. Junior class president, Mike Ingersoll, will crown one of the hopefuls April 3, at dance intermission ceremonies.

An all school dance, the prom is scheduled to be held at Hidden Valley at 9 p.m. Music will be provided by the Paragons. Queen voting was held Monday in the Student Union and at the six fraternity houses.

The line-up includes:

Sally Small, a 20-year-old junior from Reno, represents Kappa Alpha Theta in the race for queen. Sally lists her activities as Little Sisters of Minerva and Theta. She is interested in sports in general, and is active in WRA.

Diane Harwood, a charming 20-year-old from Reno, represents Delta Delta Delta. Her activities include AWS fashion show, AWS council, ASUN Senate, Tri-Delt vice-president, ski club, and SN-EA. She lists her interests as dancing, skiing and painting.

Pi Beta Phi has chosen **Michele Sala** to compete in the race for Junior Prom Queen. Michele, who enjoys skiing, sewing, and sports, was born and reared in Reno. The 21-year-old coed has been a committee member for Mackay Day and Junior Class. She helped in the coordination of the John F. Kennedy Book Fund Drive, and

has been active in Senate.

Chris Garos is 21, a brunette, and has hazel eyes. She lives in Reno with relatives, and is representing the off-campus Independents in the race. Originally from Greece, Chris lived in Washington D. C. before coming to Reno. Chris said she is interested in American politics, and in the American way of life. She likes to travel and read good books.

Hazel Silber, from Keseda, California, is Artemisia Hall's candidate for Junior Prom Queen. The 20-year-old junior is active in modern dance productions, and is a staff member of the Brushfire. In her spare time Hazel en-

(Continued on Page 2)

Future Farmers

High school students will again converge on the campus when the Nevada Future Farmers hold their annual convention April 12-15.

Approximately 200 boys from 14 high schools around the state will attend. The College of Agriculture will serve as the host for the students.

The future farmers will compete in such categories as dairy, livestock, farm mechanics, parliamentary procedure, public speaking, and farm management.

Sagebrush Weather Forecasts Spring Comes To Nevada

Spring hath sprung and Easter vacation is only 16 days away. The University is getting a whole week to recuperate after a harried half-semester, instead of the traditional four days to go home and have Easter Day dinner with the family.

Mid-terms will be over and Mackay Day will be around the corner. It's time to fling the "winter garment of repentance" and take a new lease on the rest of the school year.

ASUN officers will step down from their battered positions on the 15th of April. They will have a restful, much-needed vacation.

New campus officials will have all vacation to revel in the glory of their new positions. Then they can come back to face reality and cope with their inherited problems of student government and maybe create a few of their own.

Sagebrush Spring forecast includes decreased velocity of the Coffin and Keys ill wind, blowing from an undetermined direction. A ticklish whirlwind is predicted for the secret society's special initiation production sometime this semester.

Showers are expected for the TUB board when they ask for an increase in Student Union fees next month. Students will not want to dig any deeper into their pockets to right the wrongs of past Union activity or pay back the recent Regent loan which temporarily covers the deficit.

High cloudiness is due for the Brushfire publication date. Magazine readership will reach an unprecedented intensity as self-appointed critics analyze this year's material. Jinx Dabney will not send a copy home to mother.

Temperature and tradition will combine to bring an exclusive Nevada "look" onto the spring scene. Bare legs and bushy faces will make their annual debut on campus as men don their bermudas and cultivate beards for the sunny, celebrative season ahead.

... Nevada Regents Meet

(Continued from page 1)
 gram raise has not been in effect for two years because we wanted to give the students a chance to upgrade themselves. Many didn't, however, and the result today is an accumulation of two years of bad work."

Regent Procer Hug Jr., called the high probation rate "no different than it has been in the last five years."

He said the increase came about because the University has raised its standards.

"At one time a student could go below an overall 2.0 grade point average, and not have to face probation, but this has changed today," said Hug.

program is good, "because presently there is a very great and important demand for those who have qualified themselves as technical aids."

He added, the program proposals would probably provide for

from two to four new programs.

Regent Magee called the program "an excellent thing for the students and the University."

SPECIAL STUDENTS

"Many students come to Nevada as special students and can only take a few hours. The two-year program would give the student more incentive, and he wouldn't have the feeling that he was different from other students because he was carrying so few hours."

The Associate Degree Program will allow the student to change from the two-year program and continue as a four-year student. Many of the classes taken may be transferred to the four-year program, as credit toward a Baccalaureate Degree.

The new additions are scheduled for next fall.

The high rate of University of Nevada students on probation was also discussed at the meeting.

Leaflets Again Hit Campus

"Are you still wondering about Coffin and Keys? Ask some more questions; find out who is in this 'honorary upperclassmen's organization.' You may be surprised?"

This is the opening statement appearing in a second group of unsigned leaflets, which Dean of Students Sam Basta labeled, "a violation of University regulations."

The first set of anti-Coffin and Keys papers was distributed on campus last Monday and a second set appeared Wednesday. Concerning the secretive publications, Dean Basta commented, "Anyone who would do this lacks convictions."

According to University policy, literature passed out on campus must have University approval. "It must be checked to see if it's in good taste," said Basta. "This is not suppression. As a matter of fact, there was nothing objectionable about these leaflets," Basta said.

NO COURAGE

It was the idea that no one had the courage to put their name to the publications that bothered Dean Basta.

The papers made such statements and questions as: "You might ask what right this secret society has to meddle in University and student affairs and why it must be done secretly."

"This group will be in action tonight, but you won't see them. If successful, they will have made a decision for you without your consent. Is this right? Does a secret society engaged in activity that directly affects this University have the right to do so? The answer is no- Don't let Coffin and Keys think for you. Some members of the society may be hard-pressed to think for themselves."

UNKNOWN JUDGES

The group of individuals making these judgements against the organization is yet unknown, but sources close to the debate controversy say it was prepared by students sympathetic to the debate team's cause.

Further, debater Ken Muller was reported to have said that he and his friends were fixing material together to blast secret organizations off the campus. The following day the first set of leaflets was distributed.

Founded in 1916, Coffin and Keys is an honorary organization for University upperclassmen who are campus leaders.

... Junior Prom

(Continued from Page 1)
 joys tennis, modern dance, sewing, and cooking.

Representing Juniper Hall in the race is Sherrie Johnson. The 21-year-old brunette is from Las Vegas. Active in sports, Sherrie enjoys skiing, music, tennis, and swimming.

Manzanita Hall has chosen Carol Egbert to represent them in the contest. The 20-year-old junior from Ely, Nevada is active in WRA and Pems. An all-round coed, she enjoys swimming, ice skating, and dancing.

Ruth Fenstermaker, 20-year-old junior from Sparks, represents Gamma Phi Beta. Ruth has been active on campus and in her sorority. In her sorority she has been corresponding secretary. She is an officer of the Aggie Club, and an active member of the Rodeo Club and WRA. In her spare time, Ruth participates in all outdoor sports, especially riding, swimming, skiing, and bowling.

UNIVERSITY NURSERYMAN Herbert Pruess (left) waters the newly-planted shrubbery adorning the Journalism building.

Spring Sees Improvement On University Of Nevada Grounds

With the advent of spring and warm weather, the Buildings and Grounds Department has undertaken several grounds improvement projects.

Bids have been let to provide for the landscaping of the grounds around the Engineering and Mines Building and the east side of White Pine Hall.

Plans are in the hopper for construction of a silt trap dam in Manzanita Lake. It would have a cement bottom and would allow scooping out silt without disturbing the fish or fauna of the lake.

The island in Manzanita Lake was constructed to serve a dual purpose. First, it would provide an area where ducks could rest and build nests without being disturbed by children and dogs. Sec-

ondly, the area the island now covers could not be scooped out because of inaccessibility.

One phase of construction has just been completed at the stadium area. It consisted of earthwork and underground work. A second phase has been put underway which will provide rebuilding of the seating areas.

A nearby parking lot has just been completed and will provide parking for about 1,000 cars. It is to be paved and furnished with walkways in the near future.

This parking lot will furnish parking area for the new Social Science Building that is to be started next fall, as well as to provide parking for University functions at the stadium.

Letters To The Editor

Senate Views

Editor, the Sagebrush;

Although Senate has been criticized in the past, we would like to give our impressions of our first experience at the last session.

Determined, the president opened the debate issue with an autobiography on, "How I made the team" or statements on "debaters should exercise athletic futility."

After 20 minutes of oratory, our "leader" with gavel in hand, received a motion from the floor to limit further discussion on the debate issue to 20 minutes. This "democratic action naturally provided debaters with 10 minutes in which to present their case, while the opposition had 30 minutes to exercise confusion. (A later motion from the floor extended discussion.) Debaters proceeded to explain the necessity for a "set" allotment, facilitating the debate program.

In wild abandon (of Parliamentary procedure) Senate was called to "accept the President's veto?" The resultant vote was 18 to 11, thereby upholding the President's stand — his second one.

Debaters, fighting against time and Senate fatigue offered a compromise proposal which should have leminated the opposition's fears of loss of student control and amount of financial allocation.

Original opponents of debate, now flustered, frantically searching for counter arguments faced the ordeal of roll call. Amid gasps as a few strayed from the status quo fold, the terror of the dissension multiplied among the ranks. Cheers resounded when the chair stated the motion carried 18 to 11 in favor of debate. In the midst of this applause, one senator rose and queried, "Mr. Chairman, just what has been

voted on?" This question appeared to upset proceedings considerably, for Lee, stunned, asked for a five minute recess to determine what had transpired.

Enlightened that a three-quarter vote was necessary for the passage of an amendment to the by-laws, Lee reversed the chair's decision. Weary senators and disappointed debaters filed out of Senate Chambers, hoping for a more profitable next time when "We can start all over again."

The student body may be assured that Lee and his affiliates have found the key to happiness and will rest in peace, now that the status quo has been preserved.

Respectfully submitted,
 Karen Bone
 Molly Bundy

Gomes Is Right

Editor, the Sagebrush;

Ex-Forum Editor Steve Gomes had every legal right to publish Judith Garwoods literary material.

According to common law, any literary work unpublished remains the property of the writer. When publication is made however, common law copyright is lost and the particular literary expression becomes public property.

Did Miss Garwood have her poem, "Listen" copyrighted?

Bruce Pozzi

SNCC Thanks

Editor, the Sagebrush;

We would like to publicly express our appreciation to the ASUN Senate for their unanimous vote in favor of recognition for the Friends of SNCC in spite of campus opposition.

Our special thanks go to Judy Morrison and Bill Isaef for their sympathetic handling of the situation. Again thanks.

Nelle Maxey, chairman
 Phil Earl, vice-chairman
 Barbara Miller, secretary-treas.

Nevada's Governor Grant Sawyer told University students about his experiences in executive public office last week. His main point was that an official must realize public attacks are not necessarily personal and a politician must have the courage of his convictions.

Western Debate Tourney At Nevada This Weekend

Debaters from all over the nation will be meeting at the University of Nevada this weekend for the Great Western Championship Tournament.

Thirty schools have already accepted invitations and more are expected.

The tournament, which starts Thursday and ends Saturday, will feature debate, extemporaneous speaking, oratory and after dinner speaking. The after dinner speaking will be done at the tournament banquet to be held at the Elks Country Club.

Also at the banquet new members will be initiated into Delta Sigma Rho-Tau Kappa Alpha by the regional governor, Dr. Robert Griffin, chairman of Nevada's speech department.

Judges at the tournament will be faculty representatives from the schools attending, faculty from the University of Nevada, and other Reno residents.

Schools attending from California are: California State at Long Beach; Pomona College of Claremont; San Francisco State; U. of C., Santa Barbara; U.S.C.; Stanford; Humboldt State; Sacramento State; Fresno State; University of the Pacific; University of Redlands; California State College of Los Angeles; University of Santa Clara; U.C.L.A., and U. of C., Berkeley.

Other schools at the meet will be: Southwest Missouri State College; University of Arizona; Pacific Lutheran University of Tacoma, Washington; Lewis and Clark College of Portland, Oregon; Idaho State College; United States Military Academy at Westpoint; University of Idaho; University of Oregon; Oregon State University; Pacific University of Forest Grove, Oregon; Utah State; University of Washington; Washington State; Con-

Nev. Alumni Display Art

Works of art by 17 former University of Nevada students are being exhibited in the Church Fine Arts Gallery. The collection includes paintings, sculpture, drawing and prints which reflect many of the current trends in art.

All the works have been done fairly recently and represent artists who were graduated or left school within the past five or six years.

The show is not intended to be a complete representation of style of accomplishment of all former students, but a sampling of what those who have continued their creative work in the local area have been doing since leaving school.

The show includes compositions such as "Giraffe", an animal figure of small squares welded together, by Joan Wait. Another piece of sculpture is called "Star Ladder" by Don Spaulding. Marie Simirenko's "Yellow Interior" with its geometric shapes of yellow and browns, and "Ye-Ye's" and "Discotheque" by Deldee Potts, who uses bright splashes of color. Also being shown are two collages by Joanne de Longchamps.

Other artists represented in the show are Barbara Barengo, Bob Bryant, Cherk Chang, Linda Hale, Kelsie Harder, Paul Jeffries, Tony Ko, Walt McNamara, Ron Moroni, Ron Predika, Louis Simon and Terry Ward.

Nevada Military Science Promotions

Seventeen University of Nevada ROTC cadets were given promotions last week announced by University President Charles Armstrong and Col. Gundlach, professor of military science at the University.

Promoted to the rank of captain, commanding C Company is Jack R. Cooney, Robert C. Crouse has been promoted to the rank of second lieutenant, platoon leader in E Company.

Promoted to Sergeant Major were Jon D. Benson, Brigade Sgt. Major; Anthony L. Vickers, 1st

Battalion Sgt. Major; Douglas R. Loberg, 2nd Battalion Sgt. Major; and Gwenith E. Brown, 3rd Battalion Sgt. Major.

Promoted to the rank of First Sgt. were James D. Randles, John P. Ashworth, and Wayne K. Cobb.

New platoon sergeants are Stephen G. Hansen, David C. Pantell, Michael J. Parman, Terrance A. Ronan, Norman D. Schaff, Lornie B. Wagner, and Hampton M. Young.

Denne J. Mancuso was promoted to corporal, and brigade messenger.

IS EUROPE?

College life is such a busy one, what with learning the Maxixe, attending public executions, and walking our cheetahs, that perforce we find ourselves sometimes neglecting our studies. Therefore this column, normally a vehicle for innocent tomfoolery, will occasionally forego levity to offer a quick survey course in one of the learned disciplines. Today, for an opener, we will discuss Modern European History.

Strictly defined, Modern European History covers the history of Europe from January 1, 1964, to the present. However, in order to provide employment for more teachers, the course has been moved back to the Age of Pericles, or the Renaissance, as it is better known as.

The single most important fact to remember about Modern European History is the emergence of Prussia. As we all know, Prussia was originally called Russia. The "P" was purchased from Persia in 1874 for \$24 and Manhattan Island. This later became known as Guy Fawkes Day.

Persia without a "P" was of course called Ersia. This so embarrassed the natives that they changed the name of the country to Iran. This led to a rash of name changing. Mesopotamia became Iraq, Schleswig-Holstein became Saxe-Coburg, Bosnia-Herzegovina became Cleveland. There was even talk about changing the name of stable old England, but it was forgotten when the little princes escaped from the Tower and invented James Watt. This later became known as the Missouri Compromise.

Only last week he invented the German short-haired pointer.

Meanwhile Johann Gutenberg was quietly inventing the printing press, for which we may all be grateful, believe you me. Why grateful? I'll tell you why: Because without Gutenberg's invention you would not have this newspaper to read and you might never learn that Personna Stainless Steel Razor Blades are now available in two varieties—the regular double-edge blade we have all come to know and love, and the new Personna Injector Blade. Users of injector razors have grown morose in recent years, even sullen, and who can blame them? How would you feel if you were denied the speed and comfort and durability and truth and beauty of Personna Stainless Steel shaving? Not very jolly, I'll wager! But injector shavers may now rejoice—indeed all shavers may—for whether you remove your whiskers regularly or injectably, there is a Personna blade for you—a Personna Stainless Steel Blade which will give you more luxury shaves than Beep-Beep or any other brand you might name. If by chance you don't agree, the makers of Personna will gladly buy you a pack of any brand you think is better.

Yes, friends, we may all be grateful to Johann Gutenberg for inventing the means to spread this great news about Personna. The next time you're in Frankfurt-am-Main, why don't you drop in and say thanks to Mr. Gutenberg? He is elderly—408 years last birthday—but still quite active in his laboratory. Only last week he invented the German short-haired pointer.

But I digress. Returning to Modern European History, let us now examine that ever-popular favorite, France.

France, as we all know, is divided into several Departments. There is the Police Department, the Fire Department, the Gas and Water Department, and the Bureau of Weights and Measures. There is also Madame Pompadour, but that is a dirty story and is taught only to graduate students.

Finally we take up Italy—the newest European nation. Italy did not become a unified state until 1848 when Garibaldi, Cavour, and Victor Emmanuel threw three coins in the Trevi Fountain. This lovely gesture so enchanted all of Europe that Metternich traded Parma to Talleyrand for Mad Ludwig of Bavaria. Then everybody waltzed till dawn and then, tired but happy, they started the Thirty Years War. This later became known as Pitt the Younger.

Space does not permit me to tell you any more about Modern European History. Aren't you glad?

© 1965, Max Schulman

UNIVERSITY BARBER SHOP

60 E. Ninth Street

Don't Blow Your Dough... See Joe!

JOE M. HATHAWAY, Owner

DR. GEORGE SUTTON, chairman of the Mechanical Engineering department, examines testing apparatus to be used in mechanical vibrations demonstration for Saturday's Engineers' Day.

University Engineers Day Will Feature Saturday Open House

The annual open house of the College of Engineering and the Mackay School of Mines will be the feature of the University of Nevada Engineer's Day to be held Saturday, April 3. Various departments within the two schools are planning exhibits, with a general information center being set up in the Centennial Arch in front of the Scrugham Engineering Mines building.

Dean James T. Anderson will welcome visitors to the College of Engineering on two-way closed circuit television in room 101 of the SEM building at 9, 10 and 11 a.m.

Among the exhibits in the College of Engineering will be a simulated dam failure and a quicksand model erected by the soils laboratory; a demonstration of the non-metals laboratory testing machine which will crush concrete cylinders, and demonstration of lamniar and turbulent fluid flow by the fluid mechanics lab.

The computer center will feature a demonstration of the IBM 1620 digital computer in which visitors will be able to play a game of matching wits with the computer.

The cryogenic lab will be open for display. It is here that temperatures are produced down to -455 degrees, 5 degrees above absolute zero.

The visitor will have a chance to observe coherent light generation in the gas laser display. A balloon will be burst by the use of the laser ray.

The Mackay School of Mines will feature exhibits in the fields of geology, mining engineering, hydrology, and chemical and metallurgical engineering. Among these will be a tour of the new ventilation laboratory and a display of radioactive materials. Seismology records of earthquakes felt in Nevada in recent years will also be shown.

The nuclear reactor will be of primary interest in the nuclear engineering department. Its purpose will be explained and there is a possibility of experiments being utilized in the explanation.

Nevada Citizen's Committee Head To Speak Here

Bob Robertson, executive director of the Nevada Citizens Committee, will appear on campus this Thursday to speak about Nevada's controversial right-to-work law.

Robertson will speak in the Education Auditorium at 8 p.m. Thursday. There is no admission and the public is invited to attend.

The Nevada Citizen's Committee was recently reorganized to fight a movement to repeal the right-to-work law, section 14(b) of the Taft-Hartley Act in Congress. This section of the national act reaffirms the right of states to pass laws against compulsory unionism.

The issue has since become a hot topic of dissension among Nevada labor groups.

Robertson has stated that the right-to-work issue is important to the public because, "it helps control union — leader monopoly power by requiring a union organization, like other private groups, to sell itself on merit rather than force."

"It is important for the individual because it protects his freedom of choice—to join a union if he wishes or to drop membership if he feels the union is not doing its job—or if he disagrees with its aims or leadership."

Robertson, formerly with the Federal Bureau of Investigation, has a background in public relations and the trade associations field.

In the mechanical engineering department, the wind tunnel will be demonstrated and its uses in research will be explained.

The Engineers' Day program will be centered in the Scrugham Engineering Mines building, Mackay School of Mines building, Palmer Engineering building, and the No. 10 temporary building. Exhibits will be open to visitors from 9 a.m. to 3 p.m.

Campus Editors; Business Managers Chosen April 7

The ASUN Publications Board will meet April 7th to pick the business managers and editors of the *Artemisia*, *Forum*, *Brushfire* and *Sagebrush* for 1965-66.

According to ASUN President Keith Lee just how many of these positions will be filled is unknown at this time. It is not yet known who or how many students will be running for these offices.

The old Publications Board will vote. The current members are: ASUN President Keith Lee, Sagebrush Editor Linda Chambers, Sagebrush business manager, Kent Folgate, *Artemisia* Editor Joyce Freeman, *Artemisia* business manager Elfrena Sewell, Junior men's senator-at-large Bill Chaffin, Junior women's senator-at-large Michele Maupin, Senior men's senator-at-large Chuck Murphy, Senior women's senator-at-large Ann Louise Cantlon. The chairman of the board is ASUN 1st Vice-President Jinks Dabney and as such does not possess a vote.

Brushfire Will Be Distributed Soon

Brushfire editor, Judith Garwood, says the campus literary magazine will be available at the end of April.

Brushfire material has been selected, and about 17 poems, four short stories, and a one-act play will appear in the 40-page magazine.

Chuck Murphy, senior men's senator at large has okayed the material to be printed, added Miss Garwood, and Anne Louise Cantlon, senior women's senator is in the process of reviewing the material.

The *Brushfire* staff consists of a ten-person editorial staff, including Miss Garwood; a two person advertising staff, and a staff of two to handle business.

The *Brushfire* will be distributed free to University of Nevada students and faculty.

Printing bids will be submitted Thursday, April 1.

'Adventures In Science' Is Theme Of Scheduled Program

"What it is like to be a working scientist in botany, physics, astronomy and meteorology" is the subject of a new lecture program called "Adventures in Science" to be held on campus.

Attending the program will be science-minded ninth graders from Washoe County schools. A series of six seminar type lectures in the fields of botany, geology, anthropology, astronomy, meteorology and physics will be presented each Saturday by experts at the University.

The audience for the lecture series will be 50 selected ninth graders who have been nominated by their teachers because of a demonstrated aptitude in science. The series is designed to give the interested students a chance to explore the basic fields of science and to give them contact with scientists in working conditions.

The first lecture was presented Saturday by Dr. Fritz Went, professor of botany at the Desert Research Institute. Dr. Went came to Nevada from the University of Washington where he was a professor of botany.

He holds the Ph.D. degree from the University of Utrecht, Holland, an honorary Ph.D. degree

from the University of Paris, and a Sc.D. from McGill University. Dr. Went had served as president of the Botanical Society of America and as president of the American Society of Plant Physiologists. He is the author of more than 150 technical papers.

Other speakers include Dr. T. V. Frazier, who will discuss physics, April 3, O. R. Norton, who will talk on astronomy on April 10, followed by Dr. Warren L. d' Azevedo of the anthropology department on April 17. On April 24, Dr. George B. Maxey will lecture on geology. The program will be concluded on May 1, when Professor Wendell A. Mordy speaks on meteorology.

The lecture program is being conducted by the Washoe County public school system and the University's Desert Research Institute.

Lectures will be held in the Fleischmann Atmospherium-Planetarium.

WRA Table Tennis

Final sign-ups for WRA table tennis are this afternoon in the University gym. Kristen Cooper, WRA publicity chairman, says women students may register for table tennis until 4 p.m.

State PE Meet To Be Held This Weekend

The Nevada Association for Health, Physical Education, and Recreation will hold its annual state conference this weekend, April 3 and 4, on the University of Nevada campus.

Dr. Jan Felshin, President of NAHPER, will be in charge of

SPORTS
JOHN UTT, Editor
CAL REED, Assistant

the conference, which will start with a registration and coffee hour in the gymnasium at 8 Saturday morning.

The conference is for all instructors of health and physical education on every school level in Nevada. Physical education majors of the Nevada campus are also invited.

Following the coffee hour, a track clinic will be given on the track field. Dick Dankworth, varsity track coach, will head the clinic.

In the afternoon a general session will be held in Jot Travis Student Union starting at 2:15. Byron F. Stetler, Superintendent of Public Instruction, will be the main speaker.

At 3:30 that afternoon Iona Mowrer, Nevada physical education instructor, will conduct a folk and square dance workshop in the gymnasium. A social hour will follow at 5:30 at 318 W. 11th Street.

A closing general session will start Sunday's activities at 9 a.m. The session, to be held in Jot Travis Student Union, will feature lectures by Dr. John Cooper, Southwest District Representative to the American Association of Health Physical Education and Recreation, John Gamble, chairman of health, physical education, and recreation at Nevada, on the topic of "Trends and Issues" in physical education.

An association meeting will end the conference at noon.

Nevada Coed PE Confab

The University of Nevada was recently represented by seven women at the Pacific Southwest Regional Athletic and Recreation Federation of College Women's Annual Conference. The meeting held in Asilomar, California on March 19th and 20th was attended by 170 women delegates.

Nevada was represented by Elfrena Sewell, campus Women's Recreational Association president; Kristen Cooper, WRA vice-president; Sharon R. Smith, WRA secretary; Carla Rost, WRA treasurer; Kathy Leonard, WRA sports manager; and Kitty Foote, WRA bowling manager. The students were being accompanied by Dr. Ruth I. Russell, Head of the Women's Section of health, physical education, and recreation at the University.

Nevada Loses Close Pair

After being rained out Friday afternoon at St. Marys, the Wolf Pack baseball team was defeated twice by the San Jose State Spartans in San Jose.

The Spartans edged Nevada 2-1 and 3-2.

Late inning rallies by San Jose State in both games enabled the Spartans to sweep both games of the non-conference doubleheader.

Nevada now stands 5-8 for the season thus far and is 1-1 in conference action.

CHICO NEXT

The Wolf Pack will travel to Chico on Saturday for a conference doubleheader with the Wildcats.

In the first game the Spartans broke a 1-1 tie in the seventh inning to score the winning run. San Jose's left fielder, Dave Mettler, singled and scored with two out on Spartan short-stop Dave Salinero rifled a double down the left field line.

Taking the loss for Nevada was Carl Bossieux. Bossieux limited the Spartans to four hits and struck out seven in the losing effort.

Nevada's lone tally in the top of the seventh inning. Shortstop Bob Gillum hit a single and scored when first baseman Barry McKinnon also rapped a one-bagger.

FIVE HITS

Nevada only scored five hits, all singles.

In the second game, scheduled for seven innings, it took San Jose State 11 innings to wrap up their second victory of the afternoon.

The winning run was scored when Spartan second baseman Pat Duggan reached first on a fielder choice, stole second base and came home on pitcher Ron Smith's single down the right field line.

Both hurlers got into trouble in the extra innings.

San Jose State loaded the bases with no one out in the ninth and 10th frames, but Nevada pitcher Jim Nelson, who went all the way, got two Spartan batsmen to ground into double plays.

BASES FULL

The Wolf Pack likewise filled the bases in the 10th inning, but was unable to push anyone across.

The Spartans grabbed an early 2-0 lead in the first frame, but the Wolf Pack rebounded to score. The runs were scored on a Bob Gillham double and a Barry McKinnon single.

Nelson received the loss in going the distance. Nelson struck out two and walked four.

In the hitting department, center fielder Stan Owens led the Wolf Pack with a single and a double in four trips to the plate. McKinnon and left fielder Earl Nursement also doubled.

Taus Victorious In Intramural Ski Competition

Alpha Tau Omega's No. 1 team took team honors in the intramural ski meet held two weekends ago on Slide Mountain. ATO's No. 1 team of Roger Batty, Calvin Reed and Marvin Murphy negotiated the downhill run in a total time of 6:43.9. Sigma Nu's No. 1 team of Turner, Feutsch, and Menanti finished in second place six seconds behind the winners.

Craig Holliday of the Independent No. 1 team turned in the fastest individual combined time of the day. His time for the two runs was two minutes flat. Murphy of the winning ATO team was second in 2:09.9, and Carl Feutsch of Sigma Nu No. 1 was third in 2:12.5.

ATO accumulated 53 points in the meet. Sigma Nu had 33, and the Independent No. 1 team had 23.

Skiers Take 7th In NCAA Action

The University of Nevada ski team finished seventh in the overall standings at the NCAA ski championships last weekend at Mt. Crystal, Washington.

The Wolf Pack skiers amassed 294.7 points in their seventh place finish.

The NCAA meet concluded this year's competition for the Wolf Pack.

Placing for Nevada in the meet were Chris Mazzola, 14th in the downhill, Lane Monroe, 18th in the downhill and Ron Groskopf, 24th in the downhill. Arne Nossun placed eighth in jumping.

Folk Dance Meet Held Tomorrow

Folk dancing enthusiasts are invited to attend the Folk and Square Dance Club meeting which will be held tomorrow evening at White Pine Hall. The meeting begins at 7:30 and will end at 9:00.

Ugly Man Dance

The "Ugly Man Dance" has been rescheduled from Friday, April 2 to Friday, April 23, according to Sherri Locke. Miss Locke is the new Junior Women's Senator-at-large elect and a member of Spurs, who sponsors the "Ugly Man Event."

TWO MEMBERS of Nevada's outstanding 440 Relay Squad display a smooth handoff in a recent meet.

Nevada To Host PE Clinic

About 150 coaches from throughout Nevada participated in a coaching clinic sponsored by the University of Nevada Athletic Department here last week.

The clinic was the fifth annual one-day football coaching clinic. It was held in the National Guard armory at the county fairgrounds and featured as speakers the 1964 winning grid coaches of Nevada's three football conferences, as well as guest lecturers.

Special guest speakers for the affair included Eddie LeBaron, former professional quarterback

with the Washington Redskins and Dallas Cowboys, and Marv Bowles, "Coach of the Year" from the Metropolitan League of Sacramento.

Representing the Nevada high school football coaches were Mike Lommori, mentor of the 'A' division champion Yerington Lions; Ed Jesse, who guided the Carson City Senators to the 'AA' division crown; and Larry Fromhart, head coach of the Western high school 'AAA' division champions from Las Vegas.

Three Nevada Teachers Attend National Recreation Confab

Three University faculty members attended the annual National Conference for the American Association of Health, Physical Education and Recreation last week.

Dr. George A. Broten, chairman of the Health, Physical Education department, Dr. Jan Felshin, associate professor, and Edrie Ferdun, assistant professor, just returned from the confab which lasted from March 19 to March 23.

The meeting covered every phase of physical education in the United States and also the programs of many other countries.

The association is broken down into six sections in America. Nevada belongs to the Southwest division. Dr. Broten, as past president of the Southwest section, which also includes California, Arizona, New Mexico, Utah and Hawaii, was asked by an earlier convention to chair a committee whose purpose it was to draw-up qualifications and a budget for a regional traveling consultant for health, physical education, and recreation.

The committee's suggestions

were accepted in whole by this year's convention, and now the same board has the job of screening applicants for the position, which will become active in September 1966.

The post has been created to increase the efficiency of the earlier program, which had been centrally located in Washington D. C., Dr. Broten said. Travel expenses in the past year had been high for consultants, whose main duties were to conduct workshops and make speeches across the nation.

The regional consultant will represent and work mainly in the Northwest and Southwest sections. Dr. Broten said that Reno stands "a very good chance" of becoming the home base for this section's consultant. Phoenix, Arizona and Eugene, Oregon are also being considered, but Reno seems to be a more logical place to Dr. Broten.

While at the convention, Dr. Broten also addressed a session on international relations. He spoke on the programs of physical education in the Scandinavian countries of Norway, Sweden, and Denmark.

New 40 Acre Ag Field Lab To Be Set In Reese River Valley

A new 40-acre agricultural experimental field laboratory will be located in the Reese River Valley 15 miles west of Austin. The announcement was made by Dr. Dale W. Bohmont, dean and director of the Max C. Fleischmann College of Agriculture following the approval of the location by the citizens advisory committee to the dean.

The facility will be devoted to research on irrigated field crops, according to Dr. Ray E. Ely, associate director of the Agricultural Experiment Station. Present plans call for research on adapted crops and varieties and management practices to begin sometime this spring.

The laboratory will be operated as part of the University of Nevada Agricultural Experiment Station complex. Other field laboratories are located at Logandale, Fallon and Contact, Nevada.

The location was chosen because the site is the most suitable for research work the committee could find, stated Dr. Bohmont. Its soil types, altitude and climatic conditions are as nearly typical of central Nevada as any site offered.

Officers Schedule Dance In Hotel

The University of Nevada Cadet Officer's Club will hold a formal dinner dance April 2 in the Esquire Room of the El Cortez Hotel. More than 150 people are expected to attend the formal affair.

The dance mixes festivity with an instructional period. Many types of military protocol will be covered by Colonel Robert L. Gundlach.

There will be a reception line, where both regular army officers and cadets may become better acquainted with each other. Cadet Major Art Kess is master of ceremonies.

The dance begins at 7 p.m.

Baring Seeks School Aid

University of Nevada cold-war veterans may get educational assistance if Nevada Congressman Walter S. Baring has his way.

Congressman Baring introduced legislation that would compensate cold-war veterans much in the same way that veterans have been compensated in both World Wars and in Korea.

Baring's bill would provide money for veterans so they can continue with their schooling after getting out of the service.

The Nevada congressman says it must be realized that servicemen sacrifice from two to four years in the service at the most crucial age of peak development.

Baring says that last year's unemployment compensation for veterans increased from \$2 million to over \$96 million—money which could have reaped benefits if used for the training of veterans.

Weather Cancels Sporting Events

The competition between the track, tennis and golf teams of the Wolf Pack and Chico State last weekend was cancelled because of bad weather conditions in Chico.

The matches will be made up today in Chico.

Campus Post Office Receives 324 New Boxes

There is a new look in the campus post office, University Station. Its walls are sporting 324 new boxes of various sizes. Because of the new supply of boxes the post office will now be able to accommodate all the students wanting boxes.

This will result in the discounting of the caller's service at the General Delivery window where students previously could pick up their mail if they did not own a post office box.

Supervisor of the University Station, Russ Elwell, says there will still be some problem in getting mail for those who do not have boxes. Mail addressed to the station or to one of the residence halls will have no place to go since the halls do not have boxes of their own.

Elwell said that in the past mail addressed to a student in one of the dorms has been handled by the Student Service. If the Student Service is not able to find the student the mail was returned to the sender.

WUS Holds Dinner Tomorrow In TUB

The second annual World University Service banquet will be held tomorrow at 7 p.m. in the Travis Lounge of the Student Union building.

Featured speaker will be Jim Lathrop, WUS representative from the West Coast. He will lecture on the purposes of WUS and its effect on students and faculties abroad.

According to Susy Prior, approximately 50 student and faculty representatives will attend the dinner. The dinner is free but donations will be requested to further WUS causes.

WUS is an international channel between faculty and students here and overseas. The organization raises funds and builds universities and medical centers overseas.

According to Miss Prior, WUS will raise more funds through its annual WUS Carnival, which will be held on April 23 this year.

Cheerleader Set Practice Sessions

Practice sessions for students trying out for songleader are being held every Monday, Tuesday, Wednesday, Thursday, and Friday at noon, and every Tuesday and Thursday at 4 p.m. in the football stadium.

Practice sessions for cheerleader aspirants are being held Monday, Tuesday, Wednesday, and Thursday at noon, and Monday, Tuesday, and Wednesday at 4 p.m. at the same location.

In case of bad weather, practices for both will be held in a more suitable place. Those practicing will meet in the lobby of the new gym to decide on the location.

Interested students who missed the meeting on March 23, should go to the practice sessions. Instructors have the necessary information.

University Professor Will Investigate Sagebrush Plant

Dr. John B. Rogan, associate professor of chemistry, is going to investigate sagebrush. Professor Rogan's Desert Research Institute physical science project is the identification of steam volatile compounds of *Artemisia tridentata*, known in Nevada as sagebrush.

Dr. Rogan, who obtained his B.S. from the University of Wyoming and his Ph.D. from the University of California at Berkeley, worked for DuPont Corporation for three years before deciding he preferred teaching and doing his own research.

"My main interest in this project is that it represents a challenge to find a natural product," said Dr. Rogan. "The problem to the organic chemist is how nature

puts these molecules together."

To the chemistry student, the record of the investigation itself would fit into the scheme of nature. Dr. Rogan hopes for publication of his findings in a journal. He picked sagebrush for his project because of the intrinsic interest to the area and because it is an unexplored field.

According to Dr. Rogan, there is virtually no foreseeable commercial value to sagebrush components.

SNCC Becomes ASUN Group

The Friends of SNCC have received recognition by the ASUN despite some student opposition. This opposition stemmed from a rumor that the organization was listed on the House Un-American Activities Committee and FBI subversive list.

However, the charge proved false upon a check by Nellie Maxey, chairman of the group.

The club has drawn up a list of projects to be undertaken during the rest of the semester and this summer. As of now there is no project that has been definitely decided upon as the organization's next undertaking.

On the list of ideas are book fund drives to buy books in the south, a Joan Baez concert here sometime in May and a local survey of housing discrimination.

Investigation Continues For Arsonist

Investigation is still underway in an attempt to locate the person responsible for the recent fire at the Administration Building in Dean Ralph D. Irwin's office.

The investigation is being supervised by the fire prevention bureau of the Reno Fire Department. Repairs are now underway in the damaged office. Insurance will cover the cost of renovation.

In an attempt to locate likely suspects, James D. Rogers, University engineer, sent a memo to all staff and faculty members on campus asking them to name anyone wearing or who had worn a moustache and beard. This was done since the person who set the fire was described as a college-age male with a moustache and beard.

Working at a resort high in the Alps is exciting, healthful and profitable.

WORK IN EUROPE

Grand Duchy of Luxembourg—You can still get a summer job in Europe and a travel grant through the American Student Information Service. ASIS is also giving every applicant a travel grant of at least \$250. Wages are as high as \$450 a month. Such jobs as resort hotel, office, sales, factory, farm, camp and shipboard work are available. Job and travel grant applications and full details are available in a 36-page booklet which students may obtain by sending \$2 (for the booklet and airmail postage) to Dept. R, ASIS, 22 Ave. de la Liberte, Luxembourg City, Grand Duchy of Luxembourg.

Psychology Lecture

Dr. Cletus J. Burke will lecture on "S-R Social Psychology," Friday, April 2, at 3:30 p.m., in the Nevada East West Room of the Jot Travis Student Union.

Dr. Burke is visiting from California State College at Hayward.
