PLAYERS FOR 1965

(See Page Five)

## Chess Master Set To Play 30 Games Simultaneously!

To amateur chess players the opportunity to challenge a chess master probably comes rarely. But the opportunity will present itself this Thursday night when George Koltanowski, an international chess master from San Francisco, will play 30 simultaneous games in the Dining Commons.

Koltanowski will play interested faculty and student members at the same time and will lecture on the history and strategy of chessmanship. The program, presented by the Student Union Board, will start at 8 p.m.

Koltanowski writes a chess column for the San Francisco Chronicle, is a tournament organizer for the West Coast area, and has authored several books on chess strategy.

Koltanowski has played chess since he was 14. At 17 he was national champion of Belgium.

He became world blindfold champion in 1937 and has retain-

## Christmas Music On KUNR Radio

Continuous Christmas music from 8 a.m. to 11 p.m. will be featured on KUNR-FM from December 16 through Christmas Day. Several special programs will be featured during this time.

On Christmas Day, at 5 p.m., Dickens' Christmas Carol as performed by Bing Crosby will be heard, and at 8 p.m. Handel's "Messiah" in its entirety will be performed. The "Messiah" will be performed by the Mormon Tabernacle Choir and the Philadelphia Orchestra.

The music will also be available on standard radios in the dormitories if the translator now under construction can be finished and tested in time.

## Faculty To Donate For Blood Drive On Reno Campus

Faculty as well as students are signing up for the ASUN Blood Drive, announced Ed Parsons of the ASUN public relations office.

The Blood Drive will be held December 14-17 in the Student Union.

All students, faculty, and university staff are encouraged to give a pint of their blood for use in South Viet Nam. They may sign up before they actually donate. Students under 21 must first obtain parental permission.

Sign-up sheets may be picked up at and returned to the ASUN Office in the Student Union or the ASUN Public Relations Office in the basement of the Journalism Building.

ed his mastery of blindfolded chess skill since that time. He has written his Chronicle Chess column since 1947.

Any student or faculty members interested in playing Koltanowski should register in the Student Union Office before Thursday.

There is no charge to faculty or students.

## Information On Fee Raise Now Available

Information sheets concerning the student union fee raise proposal are now available in the Student Union Office, according to Tony Oxborrow, Student Union Board president.

The proposed raise will be put to a student body vote on Wednesday, December 15.

The possible raise is based upon figures indicating the Union Board will be unable to support the present entertainment program without it. Without the raise the Board will be unable to expand to a more extensive entertainment program within the next few years either.

Oxborrow requests that students find out as much as possible about the proposal in order to vote fairly.

Any Student Union Board member or ASUN officer has information on the fee raise proposal.

## All Singers Invited To Messiah Tryout

All singers are invited to tryouts for the 1965 presentation of "The Messiah."

The University's Symphonic Choir presents the program each Christmas season with the assistance of student and community singers.

Rehearsals are held Tuesdays at 7:30 p.m. in room 102 of the Church Fine Arts Building.

The "Messiah" performance will be given December 19 at 8 p.m. in the University gymnasium.

## Student Directory Available Today

Students will be able to pick up their student directories today in the ASUN secretary's office in the Student Union.

Tim Ennor, directory editor, said the distribution will change to the bookstore tomorrow.

The directories are free to University students and faculty.

Publishing of the annual directory is handled by the Journalism department in coordination with Sigma Delta Chi, professional journalism society.

## Walton Chosen By NFL Eagles In College Draft

Welford "Bugs" Walton, 235-pound defensive tackle for the University of Nevada Wolf Pack, was drafted by the Philadelphia Eagles Saturday when the Na-

Welford "Bugs" Walton

tional Football League held its annual college draft.

The 6 foot 4 in. lineman was chosen on the eleventh round of drafting and was notified early Sunday morning of the results. Said Walton, "I was surprised to be picked so high on the lists, but I knew the scouts had been watching me throughout the season."

Earlier in the season, the San Diego Chargers of the American Football League had contacted Walton and asked him to fill out a draft questionnaire. Walton said, "The questionnaire was simply a form asking me what my future plans were." At the time Walton had no "concrete" future plans pertaining to professional football.

Walton is now planning to sign with the Philadelphia Eagles of the N.F.L. "I talked it over with the coaches and I think I'll go with the Eagles. One of the Eagles' coaches, Dick Evans, is a former University of Nevada football coach and was here when Dick Trachok was playing football for Nevada."

Walton received another phone call Sunday evening from Philadelphia at which time he accepted the professional football bid. Walton will sign his contract tomorrow or Thursday. Walton is a transfer student from Sacramento City Junior College and has been a member of the Wolf Pack for two years.

Early this season Walton was transferred to the defensive tackle position after being a defensive end for 3 previous seasons. "He had the size and strength for the tackle position, so we gave him a try at it," said line coach Bill Daniel. "He liked it, and did a great job the rest of the year." Walton was also selected to the Associated Press All-Coast football team last week.

## University Enrollment Grows; Men Outnumber The Women

There are 5,959 regular students enrolled at the University of Nevada for the 1965 fall semester at both the Reno and Las Vegas campuses. The Reno campus has 4,170 regular students registered, and the Las Vegas campus has a regular enrollment of 1,789 students.

In addition to the 5,959 regular students enrolled at both campuses of the University of Nevada, there are 1,943 special students, 33 auditors, and 1,071 correspondence students, for a total of 9,006 students.

The overall regular student enrollment at both campuses has increased 20.8 per cent since last year. The Reno campus regular student enrollment was increased by 610 students which represents a 17.1 per cent increase. The Las Vegas regular student enrollment rose by 417 students representing a 30.4 per cent increase.

### More Men

As in previous years more men are enrolled at the two campuses than women. According to figures released by the university registrar's office, men number 2,650 on the Reno campus as compared to 1,520 women. The Las Vegas campus registered 1,044 men and 745 women.

Of the 41 states represented, California once again sent more students to the university's Reno and Las Vegas campuses than any other state except Nevada. There are 524 California students enrolled on the Reno campus and 20 at Las Vegas. Pennsylvania is the next highest state with 17 students enrolled in the university. Other states having 10 or more students at the university are Idaho, 10; Illinois, 10; New York, 16; Oregon, 15; Texas, 10; and Washington, 15.

Many states are represented by one or more students at the uni-

versity. Some of these include Alaska, Colorado, Connecticut, the District of Columbia, Florida, Georgia, Hawaii, Indiana, Kentucky, Louisiana, Maine, Maryland, New Jersey, New Mexico, North Dakota, Ohio, Rhode Island, South Carolina, Tennessee, Virginia, Wisconsin, and Wyoming.

### Foreign Students

Although scholars from almost every state in the union and 23 foreign countries are enrolled, the majority of the University of Nevada's student body still comes from Washoe County.

Washoe County sent 2,253 students to Reno's campus. There are three at the Las Vegas campus. Clark County followed in the figures with 293 students on the Reno campus and 1,693 at Las Vegas. Esmeralda County registered the least number of students, with none on the Reno campus and one at Las Vegas.

Leader in foreign countries was China, with 13 students on the Reno campus and none at Las Vegas. India ran second with 12 students registered on the Reno campus. Canada, Greece, Hong Kong, Indonesia, Iran, Iraq, Japan, Mexico, Nigeria, Norway, Nyasaland, Pakistan, Peru, Syria, Thailand, and Turkey are represented on the university campuses with one or more students.

### A&S Largest

On the Reno campus, the College of Arts and Science has the largest number with 1,725 students. The College of Education is second with 797 students. The Mackay School of Mines had the least number of students with 119.

A substantial number of Reno full-time students are married. There are 236 married men and 279 married women attending classes for a total of 515.

## Viet Nam Drive Underway

An A.S.U.N. sponsored drive in conjunction with CARE, for the purpose of sending clothing and general necessities to the people of war-torn South Viet Nam is now under way. The project is being coordinated through the Newman Club and the A.S.U.N. Public Relations Office.

On Dec. 15, students with meal contract cards will be asked to sign up to voluntarily give up their evening meal. The money saved by the Dining Commons will be turned over to the Vietnamese Civic Program.

All funds derived from the program will be given to CARE who will facilitate the shipment of the items to the Third Marine Amphibious Force. The Marines will in turn distribute the food and clothing to people when and where they need it.

Anyone wishing to make contributions to the program in the form of donations may do so by sending it to the U. of N., Post Office Box 8336. Checks are to

be made payable to the Viet Nam Civic Fund.

Fraternities and sororities will be asked to take part in the drive.

## 1966 Artemisia, 'Biggest and Best'

"This year's Artemisia will be the biggest and best ever," stated Joyce Freeman, yearbook editor. "Much credit goes to my hard-working and conscientious staff," Freeman continued.

According to staff members Molly Jacobs and Sheila Locke, "progress is excellent." Organizations and their advisors, however, are asked to cooperate in fulfilling their contracts for yearbook space. Deadlines for pictures must be met.

In addition, organizations are reminded that the yearbooks will not be distributed to the members of any organization that has not paid in full for contracted space.

## Editorial

### Eagles Recent Drafting Of Bugs Walton Sign Of Change In Nevada Athletics

The recent drafting of Bugs Walton by the Philadelphia Eagles of the National Football League is a pat on the back for the University of Nevada.

The Eagles selected Walton as their eleventh choice from among hundreds of eligible players.

Walton, 230 defensive specialist, will have his work cut out for him in the NFL. Perhaps the Eagle stars such as Pete Retzlaff and Norman Snead will give him a hand, but make it or not, the University of Nevada will feel the results.

Publicity is essential for a winning football team. The highly rated talent that attend the universities and colleges each year want to play for a winner.

Talent plus is lured because the school is well known. And once a team develops winning ways, the struggle becomes somewhat easier.

Rumor has it the Wolf Pack will hand out scholarships next year, and might also possibly drop the Far Western Conference. If such is the case, the school can and will be tough in the future.

And the Bugs Waltons will continue to come from the Nevada eleven. The crowds will be there. The fever has its start. Something must be here for the scouts. Ask the Eagles' management.

### Independents' Pictures Are Scheduled

Men's halls and all other independents are urged to have their pictures taken during the scheduled time, said Joyce Freeman, Artemisia editor.

Senior pictures will be taken starting January 5 and ending the 20th.

No pictures will be taken between 10 and January 5 said Miss Freeman.

"THE SCREENING COMMITTEE DID A LOUSY JOB SELECTING A TEXT - WHY THERE ARE PARTS OF THIS BOOK WRITTEN SO CLEARLY THAT EVEN I UNDERSTOOD IT WITH TH' FIRST READING."

## Combined Boards End Frolic

Members of men's Internfraternity Council and sorority Panhellenic met last Tuesday in the Hardy Room of the Student Union.

Five main topics were acted upon by the combined boards.

Pledge projects, it was decided, would not be allowed on Monday night because they interfere with Greek meetings. The move to discontinue the cake sales and slave raffles came about with the hope of having more constructive projects in the future.

The recent Delta Delta Delta spaghetti feed which was offered to the entire student body was mentioned as a good example of projects for the future.

Sororities pointed out the social events for the year do not leave enough time to devote to studies. A move to limit social events was defeated. The proposal, if passed, would allow fraternities only one social with each sorority during semester.

IFC members defeated the move. However, members of Panhellenic may still act on it as a separate unit.

Wolves Frolic will be discontinued next year because of the time and pressure that is involved with different houses on campus.

The Frolic was criticized because of the quality of the skits this year and also because many felt the "big name entertain-

ment" suffered in attendance as many did not attend both events on successive nights.

Another proposal was to cut the costs of floats. The \$450 maximum for float building was considered too much for the actual worth of the floats.

Many thought the floats took too much time and the large cost of each structure was somewhat wasted because the floats weren't saved after being displayed.

Homecoming Committee chairman Dave Russell will submit the financial figures for floats this

year with a recommendation from his float chairman to cut finances in the future.

Another proposal to control mid-term examinations during the Homecoming weekend was not passed by the board.

Members of Interfraternity Council consist of the different fraternity presidents. Sorority heads make up Panhellenic Council.

Advisors to the board are James Hathhorn, dean of men and Elaine Mobley, dean of women. Meetings are held every two weeks.

## Sigma Xi Annual Convention Scheduled Soon For Berkeley

The 66th annual convention of the Sigma Xi will be held December 29 in conjunction with the AAAS meetings in Berkeley, California.

The Geological Society from the University of Nevada will send three delegates to the convention, scheduled for the Claremont Hotel at 9 a.m.

Future speakers on the University of Nevada campus will include:

December 14, J. A. Warburton, atmospheric radio chemist.

January 8, R. N. Thompson, mathematics.

February 8, F. Went, botanist and desert ecologist.

March 8, C. J. Leis, director of research, Chemical Division, Colorado School of Mines Research Foundation.

April 12, H. Klieforth, atmospheric physicist.

May 10, Open.

On Tuesday, November 9, Dr. Richard Gifford, associate professor and soil research physicist of the Mackay School of Mines, discussed, "What Makes Soil Crusts Hard? Silica as a Possible Cementing Agent."

## Chemistry Seminar Scheduled Friday

A chemistry seminar discussing, "The Use of Neighboring Group Reactions in the Synthesis of Potential Drugs," will be given this Friday in room 215 of Mackay Science Hall.

Featured speaker for the event will be Dr. Harold E. Zaugg, a visiting scientist from Abbott Laboratories in Chicago.

Dr. Zaugg received his Ph.D. in organic chemistry from the University of Minnesota in 1941. Since that time he has worked as a research chemist with synthetic vitamins, antimaterials, anti-thyroid compounds, muscular relaxants, and antiviral agents.

## Radio Test Slated For Friday

The KUNR radio test, which was to be conducted tomorrow may not go off as planned, according to Roger Ashworth, director of radio and television for the University.

Ashworth plans to "pipe in" the radio station so that dorm residents can receive the station on the AM radio bands. But the translator which Ashworth is building is not finished.

Ashworth said he may have it finished by Friday, when he may test the system. Regular transmission through the system may be on the air by Dec. 10, he said.

KUNR is licensed to operate only at 88.1 Mc. on the FM radio

band. In order to listen to the campus station, students were obliged to purchase an FM set.

Under the new system any standard radio will be able to pick up KUNR at 570 kc in the dormitories on any AM radio. The new system will make the station available to all Nevada students. Normal FM transmission will continue.

The translator system in simple terms is a small radio transmitter, which will be coupled into the power lines leading to the dorms. The radio signals, riding along the power lines, will not interfere with the normal power.

Normal radio reception on the standard dial will not be affected.

## ★ Letters To The Editor ★

### Editorials Criticised

Editor The Sagebrush Dear Mr. Rogich:

I have been following your editorials with great interest. I find they are classics. You use the classic methods of all nonobjective, opinionated writers: innuendo, half-truths and guilt by association.

What are you trying to do? Get a job with some John Birch Society publication?

Don Lee

### Nemman Club

Editor Sagebrush: In regard to your article on page one November 16.

I would like to make it clear that the University of Nevada Newman Club did not sponsor the Thanksgiving Fast as the project came from our national organization.

I was asked if the Newman Club would handle the program and we agreed to coordinate the program for the campus.

On discovering the aims and platforms concerning the National Student Association which was sponsoring the Thanksgiving Freedom Fast, we dropped it—fast.

We are not, were not and will not be associated with NSA.

JOHN OSSE, President, Newman Club

### Fast Military

Editor, Sagebrush,

The fast is a military altruistic function which can arouse from indifference an apathetic public. You cannot disqualify it or the sponsoring organization because it demands of citizens that they awaken to inhumane acts, to Condor Legion interference in independent nations, and to deprivation of suffrage.

Sir, the editorial support of fast-breaging because of supposed left-wing-infiltration is a product of the McCarthyism of the Fifties and the "patriotism" of the Sixties.

I DO NOT SUPPORT DOUBTFUL FEASTS.

RON PREDIKA

### Debaters Travel East For Tour

Four University forensics teams flew East last week for a week-long Eastern coast debate tour.

The trip includes tournaments at Georgetown University of Washington in Washington, D.C.; Bates College in Maine; and New York University in New York City.

According to Debate Team Coach Larry Hines the teams are preparing for the National Delta Sigma Rho and Tau Kappa Alpha tournament. Entrants in this tournament will include universities of the quality the four teams are meeting this week.

## Madrigal Dinner Features Flutes

The annual Madrigal dinner will be presented Wednesday, December 15 at 7 p.m. in the Dining Commons. It will feature a choir of English flutes which will play Christmas music for students and the public.

The choir will perform with the University's Madrigal singer and brass ensemble.

The Madrigal singers are University students under the direction of Dr. W. Keith Macy, chairman of the music department.

The singers are: Toni DeSalvo, Pat Norman, Karen Sprock, sopranos; Cynthia Strang, Sheryl Russell, Tammi Campbell, altos; Joseph Battaglia, William Combs, tenors; and Rick Friedman, Robert Trimble, Fred Olson, baritone.

The dinner is open to the public. Students with dining commons tickets will get discount prices. Reservations can be made through the music department.

## Males Worried Over Military Might Consider Coast Guard

As graduation time nears for some this January many potential male grads may be worried about fulfilling their military service obligation.

The U.S. Coast Guard is seeking college graduates for its February 1966 class at the Officer Candidate School, Coast Guard Reserve Training Center in Yorktown, Va.

To qualify, Nevada men must be between 21 and 26 years of age and must be college graduates or seniors who will graduate before February 13, 1966.

Successful candidates will be commissioned as Ensigns in the Coast Guard Reserve upon graduation. They will be required to complete three years on active duty after receiving their commissions.

The officer candidates will receive 17 weeks of intensive, highly specialized training in navigation, seamanship, gunnery, damage control, anti-submarine warfare and other subjects.

In addition graduates will be eligible for flight training.

The newly commissioned en-

## International Club Sells Xmas Cards

UNICEF Christmas cards and 1966 calendars are being sold in the Student Union Coffee Shop by the International Club. They will remain on sale from 11 a.m. to 2 p.m. every day until December 17.

UNICEF is the United Nations International Children's Educational Fund. The money brought in by the sale of the cards and calendars will be turned over to the organization for use in its work.

## New Uses For Plastics May Benefit Nevada Agriculture

Agricultural methods in Nevada could be improved by taking advantage of at least three new uses of plastics.

This is the opinion expressed by Dr. Robert H. Ruf Jr. who recently represented Nevada at the Sixth National Agricultural Plastics Conference.

Three methods presented at the Phoenix, Arizona meeting were of special interest. One is the use of plastics to store rainfall in desert regions.

Specially built plastic sheets could be used to catch rain water and allow it to drain into plastic storage tanks. From these specially designed tanks the water could be put in troughs for wildlife use. The water saved could also be used in keeping roadside rest vegetation. Dr. Ruf notes that the method was designed for areas such as Reno, where only six inches of water falls during a typical season.

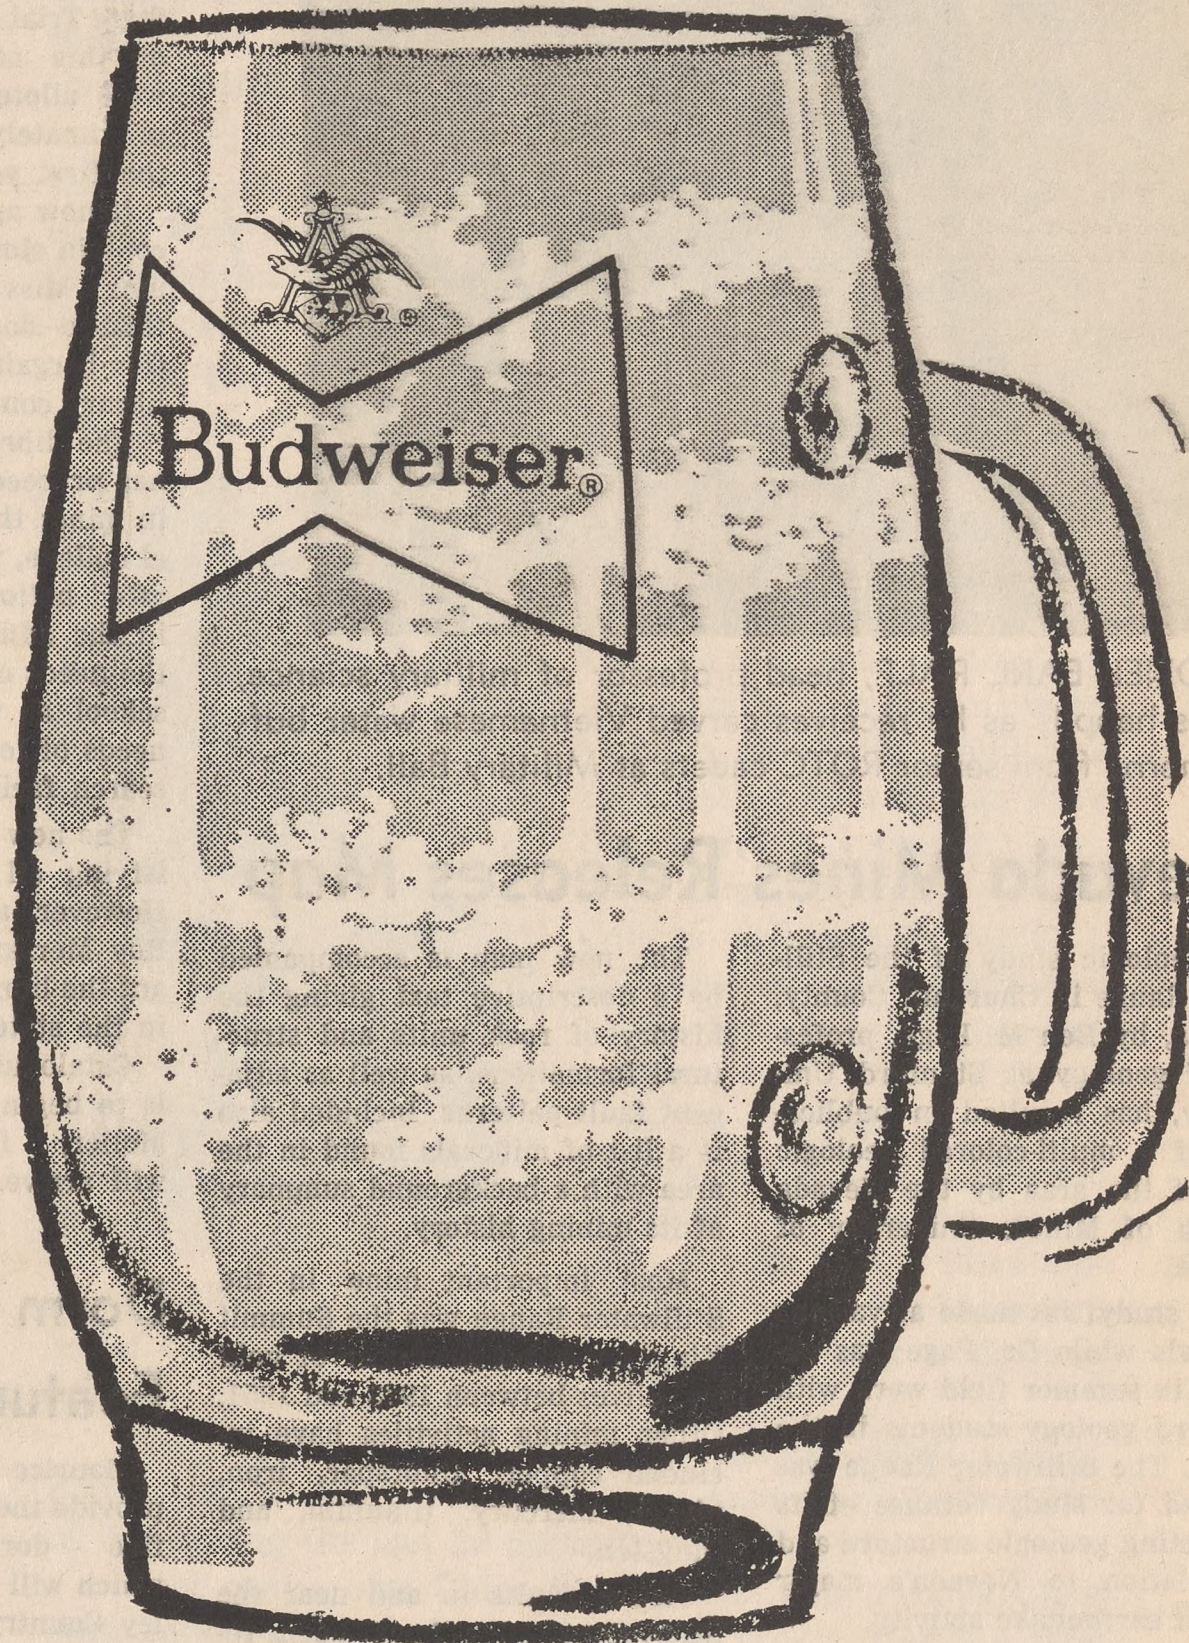

Another item discussed was the use of plastic greenhouses for

growing tomatoes. Dr. Ruf feels this will become a more prevalent practice in Nevada as plastic greenhouses are more economical than glass ones. Las Vegas already has an area with ten acres of tomatoes in plastic greenhouses.

Flower production is also being changed through plastic. An "instant flower box" was one of the items introduced at the conference. The flower box consists of a plastic tube which contains artificially developed soil. The soil has been made of peat and ver-

miculite clay. It has no diseases to carry to the flowers.

Flowers grown in the flower box would only require watering once a week or less. Because of the plastic covering, there would be no evaporation of water from the soil surface.

how did  
**this**  
happen?

Look closely.

Whoever polished off that glass of beer was a real beer drinker. Someone who uses the swallow approach. Not a sipper. Sipping, you see, is for wine. It's the best way to appreciate the delicate taste of a fine vintage. But not beer.

Especially not Budweiser®. Budweiser is a hearty drink brewed with lots of character, and the best way to enjoy it is to *drink* it. (Not chug-a-lug, either... just good healthy beer-drinker's swallows.)

Try this. Take a clean glass... say a twelve or fourteen-ounce size. Rinse it out with cold water. Open a can or bottle of the King of Beers and pour it right down the middle so that you get a good head of foam.

Now... take a *big* drink. No sips.

Good? You bet. This is how beer *should* taste. Budweiser gives you a taste, smoothness and drinkability you'll find in no other beer at any price. Our exclusive Beechwood Ageing with natural carbonation has a lot to do with it. This is the slow, finicky way to brew beer. Expensive, too... but the results are worth it.

So please, after we go to all this trouble, pour your Budweiser with a flourish. *Drink* it with a flourish.

And maybe a pretzel.

*it's worth it...it's Bud.*

ANHEUSER-BUSCH, INC. • ST. LOUIS • NEWARK • LOS ANGELES • TAMPA • and soon HOUSTON, TEXAS

signs will join the 3,000 Coast Guard officers who serve worldwide in a variety of duties. These duties include oceanography, search and rescue, law enforcement, and merchant marine safety.

For complete information write Commandant (PTP-2), U. S. Coast Guard, Washington, D. C., 20226.

## KUNR Presents Continental Show

KUNR will go continental one evening this month as it presents a one hour program of German Christmas carols and poetry on Tuesday, December 21 at 7:30 p.m.

Sponsored by the German Club, the program will be conducted entirely in German. It will consist of recorded Christmas carols and poetry readings by German students.

German Club members plan to present their Christmas program on other local radio stations, but are still seeking the support of local merchants.

German Club members and other students of the language department will also produce a radio play to be broadcast on station KUNR. It will be presented in the first week of January.

KUNR is the campus FM radio station which will soon be able to be picked up on AM radios by students living in close proximity to campus.

### Cadets Honor Colonel

COLONEL EARL RALF, head professor of military science, beams happily as he receives carved Vietnamese water buffalo horns from senior ROTC cadets at Military Ball.

### Nevada Mines Releases Map

A geologic study of the Stillwater Range in Churchill County, Nevada, by Ben M. Page, professor of geology at Stanford University, has resulted in publication of a multi-colored geologic map of the area by the Nevada Bureau of Mines, University of Nevada.

The study was made at various intervals while Dr. Page was engaged in summer field work with Stanford geology students in the Range. The Stillwater Range was selected for study because of its interesting geologic structure and its relation to Nevada's major zone of earthquake activity.

The new map is accompanied by a descriptive text giving the history of rock units and structural formations, as well as adjacent fault patterns. Included also is a list of minerals found in the area with a background summary of its mining history.

Most important mine in the Stillwater Range was the Summit King, an active producer of gold and silves between 1948 and 1951. Other mining activities have included copper, fluorospar, iron, nickel, mercury, titanium, and tungsten.

Active faults in and near the Stillwater Range have been responsible for many of Nevada's major earthquakes. Among these have been the 1915 quake in Pleasant Valley which lies northeast of the Range; the 1954 Dixie Valley-Fairview Peak quakes; and the Fallon-Stillwater quakes of 1956.

The map is available for \$2 from the Nevada Bureau of Mines, University of Nevada, Reno.

### Military Prizes To Be Claimed Today

Winning numbers have been selected from the Military Ball tickets. Students who have winning numbers may pick up their gifts from the supply room at the north end of Hartman Hall. Students have until November 30 to pick up the prizes.

The winning numbers that still have not been turned in are: 14, 20, 45, 75, 82, 83, 101, 126, 127, 137, 139, 145, 146, 160, 161, 162, 170, 191, 214, 222, 244, 255, 295, 301, 303, 310, 311, 320, 321, 330, 331, 337, 340, 341, 342, 353, 402, 403, 408, 414, 442, 444, 451, 472, 473, 474, 487, 489, 497.

### 'Arthritis Surgery' Topic Of Recent AED Film

"Arthritis Surgery" was the topic of the film at the Alpha Epsilon Delta Meeting last week.

Alpha Epsilon Delta is the campus pre-medical and pre-dental club. Pictures of the members were also taken for the yearbook at the meeting.

### Law Library Of New College Growing Rapidly

The law library of the new law college, which was established on campus earlier this year is growing quite rapidly, according to Miss Christel Blittkowsky, administrative assistant of the college.

When the National College of State Trial Judges was established on this campus, enough funds were allotted for a library of approximately 20 thousand volumes the first year.

It now appears the library will contain closer to 35 thousand volumes. Miss Blittkowsky attributed this to donations of books and fine bargaining on the part of the library consultant.

The library building program has proceeded with several goals in mind: the needs of the national college, which is to have a top-rated national library specialized in the administration of justice; the needs of a possible future law school at this campus; and the needs of local attorneys for a research facility.

The new library is far from satisfying all three of the goals. However, according to Professor Roy Mersky, the library consultant the library is one of the finest in the state.

Cataloguing of the new library is to begin tomorrow when John Moller, a full-time law librarian, will arrive.

### Dorm Xmas Dance Features Mark IV

Maurice and the Mark IV's will provide the entertainment for the five - dorm Christmas Formal, which will be held at Hidden Valley Country Club. It will be held on Dec. 3, and will last from nine p.m. to midnight.

There is no admission charge.

### Art Professor Displays Work Along With Former Student

Dr. J. Craig Sheppard, professor of art, is exhibiting some of his work in the Fine Arts gallery. His second since his return from France in 1963, the exhibit is a collection of "transparent" water-colors done "in a fluid contemporary style."

The subject matter varies. The paintings contain both abstract and literal subject matter. In some of these the literal matter is not immediately apparent but seems to emerge as the viewer stares at the painting.

Dr. Sheppard explained this technique as making "the abstract qualities dominate the literal."

Paintings similar to those on

exhibit are in the permanent collections of the Museum of Modern Art in Paris, the Brooklyn Museum, the Gilcrease Museum, and the El Paso Museum.

Recently Dr. Sheppard had a one-man show at the Feingarten Galleries in Los Angeles.

Also on display in the Fine Arts building is an exhibit by Tony Ko in the Fine Arts lounge. Tony Ko is a former art student at the University. He is now working on his Master's degree at the University of California at Davis.

His exhibit contains various lithographs. Those are done by a printing process in which the image is created on limestone and then printed on paper.

His work is formal and non-objective. He uses black and dark color for emphasis. The prints contain different images put together in an unusual fashion. They are "common situations against the absurd."

### Four Aggie Clubs Set For Annual Christmas Party

Wassailers will gather again. The four clubs in the College of Agriculture will meet for the annual Christmas wassail party on December 2 at 7 p.m. in the Sarah Hamilton Fleischmann room.

A wassail is an occasion when people gather to wish each other good wishes for the season.

Formerly, in England, wassail was a hot spiced beverage served at Christmas.

This season the members of the clubs will decorate Christmas trees in the agriculture and home economics buildings.

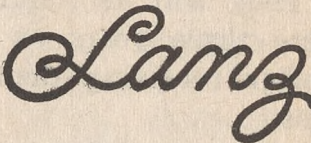

Afterward the members will gather around the fireplace in the Sarah Hamilton Fleischmann room to sing carols.

The wassailers this year will be members of Eta Epsilon, Alpha Beta, the Agriculture club and the Natural Renewable Resources club.

Mary Solaro, president of Eta Epsilon, said that wassail and homemade taffy will be served.

# Pack Cagers To Tackle Idaho

By Mike Smithwick  
Sports Editor

The University of Nevada basketball team will open the 1965-66 season Wednesday night when the 12-man squad travels to Pocatello, Idaho to meet Idaho State University.

The experienced Wolf Pack basketball squad, which had an even 12-12 mark last year, will have 4 of last year's starters on the court. Nevada's starting 5 will be all-conference Nap Montgomery and all-conference Larry Moore at forward positions, Bill Nicholson at center, Frank Bruno and new-comer Bob Gilliam at the guard posts.

Idaho State won 7 of 26 games last year and has 2 returning starters on its first string. However, several junior college transfer basketball players will strengthen the balance of the team.

Basketball coach Jack Spencer said his team will wind up its training today and tomorrow with work in special areas such as free throwing, jump ball, fast breaks, and defensive patterns.

The Wolf Pack cagers have been practicing a "running offense" during the six weeks of pre-season training. Said Coach Spencer, "We will run more than last year. We've been running more in practice than we ever have before."

The Wolf Pack will play a 25 game schedule this season including the Rock Island Tournament during the Christmas recess. The Wolf Pack's first home game will be Thursday December 9, when Idaho State flies to the Reno Campus. Two nights later on Saturday evening, the Wolf Pack will

host Miami of Florida at the University Gymnasium.

The Wolf Pack Basketball roster is as follows:

Player	pos.	ht.	wt.
Nap Montgomery	F	6-2	170
Larry Moore	F	6-3	180
Tom Smith	F	6-3	170
Bill Nicholson	C	6-5	212
Jerry Hart	C	6-4	230
Frank Forvilly	C	6-2	185
Bob Gilliam	G	6-0	175
Frank Bruno	G	5-10	165
Tom Andreasen	G	6-2	175
George Corder	G	5-10	155

George Shoenberger G 5-11 170  
Dave Decker G 5-10 165

age	yr.	ex.	Hometown
22	Sr.	2	Chicago, Ill.
21	Sr.	2	Richmond, Calif.
20	Jr.	1	Winnemucca
22	Sr.	2	Great Bend, Kans.
20	Sr.	1	JC Carson City
20	Sr.	1	Lovelock
21	Jr.	2	JC Elgin, Ill.
21	Sr.	1	Pittsburg, Calif.
21	Sr.	2	Virginia City
21	Jr.	2	JC Weed, Calif.
20	Jr.	1	Sacramento, Calif.
21	Jr.	1	Truckee, Calif.

## Joe Sobeck, Douglas Cardee Chosen Players Of The Year

Joe Sobeck, 215 pound junior fullback and Doug Carder, 221-pound junior linebacker have been picked 1965 Wolf Pack foot-

"From a coaches standpoint, Doug Carder has the best defensive moves in the league and he hits like a pile driver. He is the best linebacker Nevada has had in many years," Daniel concluded.

Doug Carder is a transfer student from Foothill Junior College in Los Altos California and was all-conference linebacker before

ball players of the year by the Sagebrush sports department.

The pile-driving Sobeck was the primary force in the Wolf Pack ground gaining power throughout the year. His surprising strength and agility were displayed during the first football game of the season when he carried the football 30 times against Long Beach State University. His strong running continued throughout the season.

But Sobeck's real value was displayed near the end of the year. His consistent running for long yardage in the early season games forced Nevada's opposing defensive units to key their strategy on stopping Sobeck, thus giving Nevada a definite edge in the passing game. Linebacker and defensive ends were forced to give up their passing defense so that they could stop Sobeck.

Sobeck still made yardage, and by the end of the season, Joe Sobeck had a year-long ground gaining average of over 3 yards per carry.

### Defense

Middle linebacker Doug Carder was the strong point of Nevada's rugged defense. Backing up the middle of the defensive line throughout the season, Carder made more tackles than any other player on the football team. Line Coach Bill Daniel said,

transferring to the University of Nevada.

Both Joe Sobeck and Doug Carder will be returning for another year of football with the Wolf Pack.

## Intramurals Sees Snakes On Top

Tammy Conklin defeated Dave Firestone, 6-1, and Jack Gardner beat Todd Russell, 6-3, as Sigma Nu No. 1 won the 1965 intramural tennis championship by defeating SAE No 1, last week.

In the preliminary game, played earlier, Sigma Nu No. 1 defeated ATO No. 1 in the best two of three sets. Conklin of Sigma Nu beat Jack Gilbert of ATO, 6-1, in the first set. In the second set, Craig Howard of ATO defeated Gardner of Sigma Nu, 6-2. In the doubles match, Conklin and Gardner defeated Gilbert and Howard, 6-2.

Sigma Nu earned 56 points for its first place finish, and leads the race for the Kinnear and Bradshaw trophies with 218 points. ATO remains in second.

## From the End of the Bench

By MIKE SMITHWICK

### FOOTBALL

The head bashing and pile driving of football season is now over, and the outstanding ball players across the nation are receiving their well deserved recognition. The University of Nevada is not being forgotten either. Joe Sobeck, Nevada's 215-pound fullback, has been named as an Associated Press All-Coast Honorable-Mention fullback, and Welford "Bugs" Walton, 6' 4" 235-pound defensive tackle, has been named to the Associated Press All-Coast Honorable-Mention defensive squad. Ron Moore, a 230-pound defensive tackle, was given a second string berth on the A. P. All-Coast football team to round-off the early Nevada honors.

United Press International will release its All-Coast team this week, and there are hints that one more member of the Wolf Pack will be mentioned as an outstanding West Coast football player. Who?—it could be Jim Lutges, Nevada's two-year first string defensive end.

But the most consistent and hardest working football players are often overlooked, especially if they are linemen.

Glory is hard to find at the bottom of a human pile of grunting football players, but this is where football games are won and lost—on the line.

Nevada's linemen were tough this year, and the toughest of them all was Tony Betita. He is a transfer student from Hancock Junior College and was formerly a defensive specialist. This year he was Nevada's offensive left tackle.

Betita, when in street clothes, gives the impression of being the "teddy bear" type, the kind that likes animals and things. But he's not. In fact he probably hates animals. He's more like the guy who would kick a sleeping bear.

Tony Betita likes to knock down his one-eighth ton opponent—he says it's fun. And I can assure you he had lots of fun during the last 10 Saturdays.

Once during the Chico State game, quarterback Chris Ault called a fullback slant over left tackle. But the Wild Cats were ready for it as they went into a wide tackle six (2 men over each tackle). This meant Betita had to work two people out of the hole.

When the ball was snapped, Bentita threw a cross body block that flattened both Chico State defenders opening a hole wide enough to send a truck through. Joe Sobeck came sprinting by for another 15-yard gain, and I'm sure Betita pulled his head out of the turf long enough to see the smile on the fullback's face. After all, with men like Tony Betita on the line, fullbacks can have fun too.

## Cagers Prepare For Season

The University of Nevada basketball team is preparing for a 25 game 1965-66 season.

South Dakota are the other two teams involved in the tournament.

Nevada opens the season on the road Dec. 1 against Idaho State University at Pocatello, Idaho, followed by a clash with College of Idaho Dec. 3 at Caldwell. The two road games precede home clashes with Idaho State Dec. 9 and University of Miami (Fla.) on Dec. 11.

Nevada's starting five are Nap Montgomery, 6-2 forward; Larry Moore, 6-2 forward; Bill Nicholson, 6-5 center; Frank Bruno, 5-11 guard; and Bob Gilliam, 6-0 guard.

The Wolf Pack will then meet San Jose State's Spartans Dec. 13 at San Jose. After this they compete against the Mid-West's Parson College in Fairfield, Iowa Dec. 16, and Southern Illinois University in Carbondale, Illinois on Dec. 17. On Dec. 21 the Pack meets Texas Western College in the Rock Island Invitational Tournament. Creighton College and

## Fashion Show Will Feature Art Work

A fashion show presenting various paintings from the University Student-Faculty Art Auction, will be presented tomorrow at the Golden Hotel.

Backdrops for the fashion show will be made up of paintings from the auction.

The preview of art presentations is one of many to be featured in the near future. Other paintings will be displayed at Gray Reid's, while a preview of the entire art works will be shown this Thursday and Friday in the Student Union.

## Fletcher To Speak At Sigma Xi Meet

"The Biochemistry Program at the University of Nevada" will be the topic at Thursday's Sigma Xi luncheon. Dr. Dean Fletcher of the Desert Research Institute will be the speaker.

Everyone is invited to attend at noon in the Travis Union.

## Computer Ready

A newly installed IBM card transmission terminal capable of reading 200 words a minute is now available for student and faculty use.

Full use of a high speed electronic computer is available through the University Data Processing Center. Data and programs as transmitted to UCLA by telephone. After information is recorded and processed, the results are sent back immediately.

Problems too large for present equipment, class instruction and class problems can also take advantage of the service.

FREELANCE PHOTOGRAPHER OCCASIONALLY REQUIRES SEMI - NUDE MODELS FOR MAGAZINE ILLUSTRATIONS. \$7.50 per Hour. PHONE 882-1279.

TYPING—Frances Erickson 358-6885.

YOU WON'T have any animals in your gas tank when you fill up at GASAMAT—you serve yourself and save money—not cat fur—GASAMAT in Reno at E. 2nd and Kietzke.

## Owls Still Needed By Biology Dept.

Owls are still needed by the University's biology department for predatory research.

The department hopes to learn more about the routes and habits of predatory birds from experimentation with owls. They will be banded and released at the end of the year.

Information concerning roosting sites or nests of any species of owl within 100 miles of the Reno area is wanted. Already trapped specimens will also be gratefully accepted.

Information should be reported to Dr. Fred Ryser, associate professor of biology; Dr. Raymond Evans, research range conservationist; or Mr. Pete Brussard.

## Graduate Students Can Polish Foreign Tongue

Graduate students have an opportunity to brush up on their foreign language techniques for their graduate language examination. Non - credit courses in French and German will be offered to grad students next semester.

Dr. Enreid U. Bertalot and Miss Hanna E. Schroeder will instruct the evening classes. German will be held for two hours every Tuesday and French will be taught for two hours on Thursday evenings.

Definite times and rooms numbers will be announced later.

## Metal Properties Subject Of Study By Dr. P. Bettler

Surface properties of refractory metals such as tungsten, iridium, and platinum are being studied by Dr. Philip C. Bettler of the physics department. He has received a grant for the work from the Air Force Office of Scientific Research.

These metals withstand high temperatures and are used extensively in the space program.

Dr. Bettler uses field electron emission methods to study activation energies for surface migration and surface tensions of the metals. A needle of the metal is placed opposite a phosphorous screen. Electrons flow from the metal to the screen when subjected to high voltage. The emission pattern observed on the screen is characteristic of the metal surface.

Studies of electron emission intensity and behavior yield knowledge about the metal's properties. This information is vital in design and manufacturing in space industries.

Dr. Bettler has been studying these metals for three years and plans to study for two more.

## Highest ROTC Cadet Honors Go To Bennie Ferrari

Bennie Ferrari, a senior business major, has been named Cadet Colonel of the ROTC Brigade. Ferrari captured the highest ROTC cadet position in a field of five candidates.

Ferrari, an ATO and Senior Class President, is from Kings Beach, California. The 21-year-old Colonel is also president of the Cadet Officers Club.

As Cadet Colonel his main job will be to oversee the entire brigade and to plan all drills for the remaining school year.

The four other candidates who ran for the position were Cadet Major Jack B. Edgar, Cadet Major Larry D. Farrow, Cadet Major Allan C. McGill and Cadet Major Jimmy Rich.

Ferrari was named Cadet Colonel at the annual Military Ball.

## Sundowner Pictures Scheduled Tonight

Sundowner members wishing to have their pictures in the Artemisia should meet at the Little Wal tonight at 7:30.

The deadline for pictures will be tonight.

## CAMPUS CALENDAR

## Tuesday, November 30:

- Spurs, 6 p.m.
- Marine Corps, Main Lounge of the Student Union, 8 a.m.-5 p.m.
- Chess Club, Card Lounge, 7:30 p.m.
- Film Classic, "Hiroshima, Mon Amor" (1959), 7 and 9 p.m.

## Wednesday, December 1:

- Academic Standards Committee, Hardy Room, 3 p.m.
- ASCE, Travis Lounge, 7 p.m.
- Senate, Dining Commons, 7 p.m.
- Blue Key, noon.
- Basketball, Idaho State, away.
- Marine Corps, Main Lounge, all day.
- Final Day for Filing Applications for GRADUATE DEGREE.

## Thursday, December 2:

- Sigma Xi, Nevada East-West Room, 12-1:30 p.m.
- Far West Inter-Collegiate Athletic Directors Conference, Hardy Room, 1-10 p.m.
- NEA (Council for Exceptional Children), Nevada East-West Room, 4-6 p.m.
- Sagens, 7 p.m.
- Folk and Square Dance Club, Dance Studio, Gym.
- THE UNION BOARD PRESENTS: George Koltanowski, Chess Master, Dining Commons, 8 p.m.
- Phi Epsilon Kappa, Nevada East-West Room, 7:30-10 p.m.
- Psychology Lecture, Travis Lounge, 7:30-10 p.m.
- Marine Corps, Main Lounge, all day.
- AWS, Tahoe Room, noon.

## Friday, December 3:

- Faculty Representatives (Athletic Delegates), Hardy Room, 9 a.m.—6 p.m.
- Athletic Coaches—Baseball, Truckee Room, 9-12 p.m.
- Football, Tahoe Room, 9-12 p.m.
- Athletic Delegates, Card Lounge, 2-5:30 p.m.
- Research and Government on Politics, Travis Lounge, 2 p.m.
- Psychology Meeting, Nevada East-West Room, 3-5 p.m.
- Model United Nations Meeting, Tahoe Room, 3-4 p.m.
- Basketball, College of Idaho, away.
- ATO Christmas Formal.
- Five-Dorm Christmas Formal.

## Public Lecture Held Thursday

"Ways in which children develop concepts about the world and people in it," will be the subject of a public lecture to be held in the Travis Lounge Thursday night. Dr. O. J. Harvey, professor in the Department of Psychology

at the University of Colorado, will be the speaker.

Dr. Harvey is on a year's leave of absence from Colorado to study at Stanford University in Palo Alto, California. He is studying at Stanford's Advanced Center for the Study of the Behavioral Sciences, commonly known as the "Think Tank."

Dr. Harvey has written two books relative to the topic of his lecture. They are, "Conceptual Systems in Personality Organization" and "Motivation and Social Interaction."

In addition to the lecture on Thursday, Dr. Harvey will present a colloquium at 3 p.m. in the Nevada East-West Room of the Jot Travis Student Union.

## German Club Sets Vocal Tour Wed.

Students attending the German Club meeting tomorrow night in the Travis Lounge will be treated to a vocal tour of Austria, Switzerland and Germany.

Miss Britta Halverson, who recently stayed in Austria, will relate and illustrate with slides her experiences in Europe.

Other films on Germany and Switzerland will be shown after Miss Halverson's talk.

Punch, German - baked cakes and cookies will be served after the discussion which will be free to students and faculty.

A German Club exhibit will be presented in the Travis Lounge showcase from Dec. 3-31.

## Powder Puff Hopefuls Training Strenuously

Powder Puff hopefuls have been industriously huffing and puffing through their training exercises in trying out for the women's ski team. Approximately 20 women will tryout for the 12 open positions.

Femmes have been conditioning Monday and Wednesday afternoons at 4 p.m. Conditioning includes running a mile, push-ups, sit-ups, and other activities foreign to most women.

The coach of the Powder Puffs is Miss Gail Sherman. Skiing tryouts will be held in two weeks.
