### ASUN Financial Operations Support Three Major Events

The ASUN sponsors three major events each year, Homecoming, the Winter Carnival, and Mackay Day. Financial support of

these events by the ASUN is necessary so that they may continue to be a part of campus tradition.

The chairman of each event submits a proposed budget to the Finance Control Board which he bases on the reports of previous chairmen. When approved, the funds that are allotted are then divided by the event chairman for the various needs of his committee.

These divisions include publicity—although much of it is obtained free—programs, queens, and special events such as the Homecoming Parade. Each committee member is in charge of one of the divisions and is responsible for the spending of funds allotted to his division.

The ASUN also provides other free services to the student through the allotment of the ASUN Fee. These include the student directory, the Sagebrush, the Artemisia, and the Forum.

This article concludes the series on the allotment of the ASUN student fee.

### Debate Team Wins Trophies

University of Nevada debate team competed in two national tournaments in January. The team of Ken Muller and Stanley Smart from Nevada entered the finals to bring home trophies.

The first tournament was at Stanford on January 7 and 8. This was the first national tournament to be held at Stanford. Forty teams from the U.S. participated.

Over semester break the team traveled to the University of Southern California in Los Angeles to compete with about 70 teams from 35 universities. In the junior division Compton and Clark from Nevada missed the finals by one speaker rating point out of 250 possible.

In the senior division Muller and Smart competed in the finals and won a trophy.

Nevada's debate team of Muller and Smart will compete in a tournament at Cal Tech in Pasadena Feb. 10-13. There will be entries from 20 universities.

Other tournaments which Nevada will enter during the spring will be at the University of the Pacific, University of Arizona and Linfield College, Oregon.

### Burrell Goes 7'-0 To Whip Rambo

LOS ANGELES — Otis Burrell won the high jump in the Los Angeles Times Indoor Games Saturday night with a leap of 7-0. Burrell defeated arch-rival John Rambo, who also went 7-0 but lost on fewer misses.

In a track meet in Los Angeles earlier in the year, Rambo had defeated the Nevada high jumper with a jump of 7-2. Rambo is the only American to have defeated Burrell this year.

### Sr. Announcements

Senior Class President, Bennie Ferrari announced that graduation announcements will be on sale daily beginning Wednesday, February 16, 1966, from 12 noon to 1 p.m. in the Travis Union Building.

Full payment must be made at the time of ordering and all orders must be completed by March 1, 1966.

### Cadets Hold Off Utah Surge; Defending Nevada Grabs Third

The United States Air Force Academy grabbed first place honors in the Nevada hosted 26th annual Winter Carnival skiing competition over the weekend. The Academy finished fourth in the Sunday jumping competition at Sky Tavern but had enough points from earlier wins to withstand a

eighteenth in slalom in addition to his third in jumping.

Nevada's Lane Monroe, last year's "skimeister," placed fourth with 330.3 points. Monroe won the giant slalom, was tenth in cross-country and ninth in jumping. A 27th-place finish in the slalom, due to losing a ski in the initial run, squelched his chances for this year's "skimeister" title.

Teaming with Bekken to give Sierra the jumping victory were Kaute Olber, another Norwegian exchange student, who placed seventh with 125.20 points and Fleming in the nineteenth spot.

Utah State's second place jumping placement was paced by Sam Medford, a native of Truckee, California, who leapt 108 and 107 feet for a 126.6 total. Paul Venner placed sixth and his brother Mike placed eighth.

Monroe placed ninth and Scott Seher grabbed 21st to team with Nossum's second for Nevada's third place in the jumping.

The "Powder Puff Derby" competition saw Patti Kelly, an 18-year-old Sierra College coed, placed first. Miss Kelly was one of the top-ranked junior skiers last season. She had a combined time of 1:21.1 for two runs at Sky Tavern.

Linda Marshall of Mills College

in Oakland, Calif. placed second with 1:25.7, followed by Judy Frasinetti of San Jose State, 1:25.8.

Cookies Calkins of Nevada placed 16th in the women's competition with 1:49.2.

Here are the standings for the Sunday competition:

#### SKIMEISTER RESULTS

1, Jerry Allen, Air Force Academy, 357.2 points; 2, Paul Venner, Utah State 340.1; 3, Sam Medford, Utah State, 339.8; 4, Lane Monroe, Nevada, 330.3; 5, Knute Olberg, Sierra, 325.5; 6, Mike Venner, 303.7; 7, Scott Seher, Nevada, 279.2; 8, Kip Kemple, Oregon, 277.9; 9, Wayne Ellis, College of the Siskiyous, 252.7.

#### TEAM STANDINGS

1, United States Air Force Academy, 360.2 points; 2, Utah State University, 353.6; 3, University of Nevada, 351.5; 4, Sierra College, 335.3; 5, University of Oregon, 308.9; 6, Chico State College, 301.6; 7, College of the Siskiyous, 274.1; 8, Southern Oregon College, 221.7; 9, University of California, 197.4; 10, Brigham Young University, 160.8; 11, Oregon State University, 158.2; 12, Stanford University, 153.5; 13, San Jose State College, 111.4; 14, San Francisco State College, 71.8.

NEVADA'S LANE MONROE

last-event surge by Utah State.

The Colorado Springs cadets gathered 306.2 points in four events. They took a first in cross-country, third in giant slalom and slalom and fourth in jumping.

Utah State netted 353.6 points to finish narrowly ahead of the defending champion, University of Nevada with a 351.5 score.

The pre-meet favorite, Sierra College, finished fourth with 353.3 points. This was first time Sierra hadn't won a Winter Carnival this season. It has won three winter carnival outings this season.

The jumping competition produced an expected jumping duel between two Norwegian students. Eino Bekken, a 19-year-old Sierra student from Kongsberg, took the jumping honors from Nevada's Arne Nossum, who is from Trondheim.

Bekken recorded twin leaps of 128 feet on the 40-meter hill at Sky Tavern to amass 155 points. Nossum had the longest jump of the day—130 feet—on his second effort. But his first try was only 120 feet to give him a total of 152.5 points.

A third place finish in jumping by the Air Force Academy's Jerry Allen gained him the coveted "skimeister" award. Allen is captain of the Falcon team.

The 21-year-old senior from Brattleboro, Vt., tallied 357.2 points to far outdistance his nearest rival, Paul Venner of Utah State. Venner totaled 340.1 points.

Allen claimed a second in cross-country, 13th in giant slalom and

#### English Papers

### Letter From Dickens In Paper Display

A letter from Charles Dickens to the editor of the "London Times" in 1849 is contained in one of the reproductions of old English newspapers displayed in the hall of the Journalism building. The letter describes a hanging in England and demands the end of capital punishment. It is one example of Charles Dickens' work as a reporter. The letter appeared after Dickens had achieved fame as a novelist, reporter, and editor.

The newspapers represented in the display range from 1650 to 1914. Each paper contains some significant story or article. The illness of Queen Victoria, the crowning of the Russian Czar, one of the first stories sent by wire, and a report of the beginning battles of World War One, are among the stories.

Several of the newspapers are still operating today, such as the "London Times" and the "Daily Mail."

Other newspapers on display are the "Mercurius Politicus" and the "Daily Courant."

### Barbara Olsen Chosen 1966 Queen; Snakes-Pi Phi's Win

Campus males chose pretty, petite Miss Barbara Olsen to reign over "Sierra Scene '66" as this

day night at the intermission of the "Jack Bedient and the Chessmen" show. Winter Carnival Chairman Craig Howard placed the royal crown on her head.

She was awarded the royal title after being chosen out of a field of eight freshmen women by University men last week.

The pretty miss hopes to teach. Sigma Nu and Pi Beta Phi were announced as the winner of the "Sierra Scene '66" decorations contest at this year's "Sno-Ball."

Alpha Tau Omega and Kappa Alpha Theta placed second in the annual judging, and Sigma Alpha Epsilon and Delta Delta Delta placed third.

Every year the various living groups decorate for the Winter Carnival, and the awards are announced at the "Sno-Ball."

This year's "Sno-Ball" was the most successful in years, according to dance chairman Bob Corkern. Over 200 couples attended the annual function.

## Editorial

### Editors' And Business Managers' Voting Rights In Hands Of Senators

Senate will decide tomorrow if editors and business managers will remain as voting members of the publications board.

The people most qualified to represent the interest of the students of the University of Nevada are fighting for their voting rights.

If the students had some guarantee the elected members of the board would take an active interest in the affairs of the major student publications, then, and only then, would the new voting move be practical.

Such things as makeup, printers' costs, and selection of qualified persons to work for the campus' needs, must be left up to the elected representatives of the Sagebrush and the Artemisia.

Many argue the Publications Board must act in exactly the same way in which a publisher does for a newspaper. What they neglect to mention is that a publisher has to be acquainted with the facts and the everyday happenings of a publication he is a part of. It is his sole business, and to neglect its interests would be disastrous.

What guarantee do the students have the same will be the case for the major campus publications. And further, why can't these elected persons be trusted to vote intelligently on their specific matters if they have been entrusted to produce quality products as editors and business managers respectively.

Publications Board supported the move and sent a recommendation to senate to uphold the decision of the nine voting members, four of which are representatives of the student publications. The board also asked to allow Judicial Council to decide on matters concerning incompetence of an editor.

Support the editors and the business managers that you have entrusted to serve you as representatives. Senate already is bogged down with more important business. Why must it cater to Publications Board because of the whims of a select few?

And further, why must the voting procedure be changed when the Senate is given the power to decide the final decision in all matters concerning the board?

Let's not bog down an already busy senate. Let's give some power and confidence to those who already support us and represent us. The compromises have been made. Senators, it is up to you to do the rest. . . .

### Film Classics To Be Shown Tonight

Two film classics, "Vampyr" and "Submerged Glory," will be shown tonight in the Church Fine Arts theater. Two showings will begin at 7 and 9 p.m. Students with ASUN cards will be admitted free.

"Vampyr," directed by Carl Dreyer, is acclaimed as "an artistic achievement" in horror films. He uses the principle that horror films are more effective if a minimum of dialog is used. Dreyer uses camera, music and sound to produce the situations and ideas.

The audience is left to create horror in its own imagination.

Another Dreyer production, "Day of Wrath," was presented by the theater in the 1961-62 series and used the same principles.

"Submerged Glory" is a United Nations film exploring Egyptian temples. Special attention is given to a pair of temples, Abu Simbel, built 3,200 years ago. These temples are now threatened with inundation by the waters of the Aswan Dam.

# Campus Briefs

## Manzanita Awards

Awards for high scholarship were given in Manzanita Hall recently. The top five women in each class were commended for their high grade point averages.

Seniors Molly Bundy and Sylvia Maslach had 4.0 averages. Junior Jeanine Earl topped her class with a 3.76. Maxine Forbush, a sophomore, led her class with a 3.47, and Jody Dube beat the other freshmen with a 3.44.

The women received charm bracelet charms.

Diana Poehlman got a 3.58; Joyce Crook, a 3.67; and Mary Swallow completed the list of seniors with a 3.89.

Juniors who got high grades were Barbara Mote, with a 3.42; Lauren Curutchet, 3.07; Janice Miller, 3.06, and Barbara Knisley, 3.0.

Ann Willis had a 3.12. Close behind her were Kathy Sanders, 3.00; Pat Miltenberger, 2.94; and Georgia Smith, 2.94.

Freshmen women receiving honorable mention were Judy Thomson and Janice Stokely, both of whom made 3.38 averages; Judy Mathis, with a 3.35; and Louanne Cote, who had a 3.06 average.

## Psyc. Discussion

"A Learning Approach to Personality Persuasibility Relationships", will be discussed on campus by Mr. William J. McGuire, Columbia University. The talk will be held in the Nevada East-West Room of the Jot Travis Student Union Building Friday, Feb. 18, at 3:30 p.m.

Dr. McGuire is currently on leave to the Center for Advanced Study in Behavioral Sciences.

## IFC Meet

Michael E. Woodhead formally took over the office of Interfraternity Council president at this week's meeting. Woodhead succeeds Thomas R. ("Tammy") Conklin who has held the office for the past year. Woodhead is a member of Sigma Nu and served as secretary for the council before being elected its president. A new IFC president is elected each November but there is a two month training period before he takes office formally.

## Stage Band

The University of Nevada Stage Band concluded its three-state six-day tour on January 28. The tour, with stops in California, Oregon, and Washington, was conducted by Dr. John Carrico and student director Charles Bickhart.

The band played concerts and conducted clinics throughout the tour. Section leaders conducted clinics in their special fields. The section leaders include Charles Bickhart, saxophones; Bob Montgomery, Terry Burns, and Harry Massoth, brass; and Ron Falter, Jim Milne, and Rich Havens, percussion.

"The purpose of the tour," said Bickhart, "was to present our stage band, program and music department to a wide area. A trip like this reflects greatly upon the University of Nevada. The outstanding job done by the musicians and the tremendous reception given to them along the way shows that the U. of N. is becoming known for more than the engineering and mining college."

## New Floor Plan

Students will need to familiarize themselves with a new library floor plan which is being drawn up this week, says Mr. Harold G. Morehouse, assistant director of the University of Nevada library.

Mr. Morehouse has been working with the audio-visual department in producing the new floor plan. Miss Linda Loeffler, production specialist with the audio-visual department, is in charge of the reproductions of the plan which will be posted throughout the library.

The plans that will be posted will help students locate Library of Congress catalogued material, as well as the books still under the Dewey Decimal System classification.

Audio-visual facilities, which have been newly relocated, and the National College of State Trial Judges' facilities will also be included in the posted plan.

Eventually, the entire library will convert from the Dewey Decimal system to the Library of Congress system.

## International Club

The International Club will conduct a business meeting and educational program in the Travis Lounge at 7 p.m. Thursday night.

Sam Ajuri, a Nevada student from Nigeria, will present the educational segment of the club meeting.

## Survival Lecture

Chief Master Sergeant Henry Erben will give a lecture on survival to the members of the University of Nevada Cadet Officers Club and Counter-guerrilla Group on February 16, at 7:30 p.m. in The Scrugham Engineering and Mines building, room 101.

Sergeant Erben, after spending a tour of duty with the Air Force in the West Indies, became interested in the problems of survival in tropical regions.

In 1948 Sergeant Erben taught Para-Rescue personnel techniques of survival in wilderness situations. Following this position in the Air Force, he became the Non-commissioned officer in charge of a Para-Rescue team in Panama.

Sergeant Erben's tour in Panama provided him with sufficient time with the native tribes to grow familiar with their methods of protection from animals, the elements, means of plant medication, and the procuring of food.

## Dorm Discussion

"The College Male" will be the subject of a Campus "Y" dorm discussion to be held in the Juniper Hall recreation room tomorrow night at 6:30 p.m.

Dr. Whittemore, Dr. Kirkpatrick and Rev. Dodson of the Campus Christian Association will participate on a panel discussion.

All women students are invited.

## Wolf Pack Boxers Wipe Out Invading Indians With 8-4 Win

Showing overall power in every division, the Wolf Pack boxing team defeated invading Stanford, 8-4, in the Reno gym.

Nevada won five decisions, took three forfeits in the lighter weights, lost two knockouts and two decisions.

Leading the Pack fighters was Bill Georgeson, 1965 California Collegiate Boxing champion, in the 147-pound class, who defeated Bill Thomas. The bearded Nevada warrior has yet to be beaten in college competition, with only two draws from last year to mar his record. He used an aggressive two-fisted attack to win easily.

Dave Widmer, Mike Schellin, Riley Beckett, and Ben Blinn also scored Pack wins.

Widmer won in the 139-pound class over Dave Hibbits. Widmer used solid right-hand shots to notch the victory.

Mike Schellin outslugged the Indians' George Bellows in the 156-pound class. Using a solid right hand all the way, Schellin held off a third round rally to gain the decision.

Riley Beckett, developing into a solid contender for the 1966 CCBC championship, edged Tom Jenks in the 172-pound class. Beckett used inside punching to gather in the close decision.

## Chico Edges Pack In Gymnastic Meet

The Chico State gymnastic squad edged Nevada, 142.3 to 140.9, in a meet held Saturday at the Reno YMCA gym. Chico captured four of seven events and tied one other to capture the nod. Nevada's depth could not salvage a Wolf Pack victory.

Al Lansdon won the long horse vault and the trampoline to lead Nevada. Joe Rooney shared first place in the side horse. Rooney also placed in three other events. He finished second in the high bar, second in the parallel bars and fifth in floor exercises.

Also taking second places for Nevada were John Plane in floor exercise and John Howell on the still rings.

Ben Blinn, fighting for the first time since his novice bout more than a year ago, decisioned huge Eric deGooyer, a 240-pound heavyweight. Blinn used a bobbing and weaving attack to outscore his Stanford rival.

In the final bout of the evening, Nevada heavyweight Gary Silverman came off the canvas in the second round to give Stanford's Dave Oswald a hard fight before losing a decision.

Letterman Tony Schuller was upset by Indian 165-pounder John Price in a close fight. Price stayed away from the aggressive Schuller to grab the decision.

Nevadan Jim Wright ran into a bomb for a K.O. loss in the first round. Wright appeared on the road to another victory as he unleashed a furious attack in the first minute against Jim Marlar, Stanford 156-pounder.

Nevada's John Deacon ran into a hard right hand to lose by a K.O. to Dan Cabrera in the second round. Deacon was on the attack all the way.

## Wolf Pack To Seek Ninth Straight Win In Sac State Clash

The Wolf Pack basketball team will be seeking its ninth straight Far Western Conference win and its 13th straight win overall when it tangles with unpredictable Sacramento State tonight in the Nevada gym.

In an earlier game in Sacramento, the Pack downed the Hornets, 79-71. However, the same Sac State squad upended San Francisco State, 114-107, in an overtime game. San Francisco State holds down second place in the FWC.

Leading the Sac State invaders is guard Lynn Livie, the highest scoring player in the FWC with a 28.8 per game average. This does not include last weekend's games. Livie scored 51 points against San Francisco State earlier this year.

Game time will be 8 p.m.

## Undefeated In League

# Nevada Nips Aggies 60-57

DAVIS—Overcoming an eight-point lead with three minutes to play, the Nevada Wolf Pack raced to its 12th straight win by downing the hosting Cal Aggies of Davis, 60-57, in a Far Western Conference basketball game. The win gives Nevada a perfect 8-0 record

in conference play and a 16-5 mark overall.

A full-court press in the last three minutes averted what looked like a Pack loss. The Cal Aggies were forced into ball handling errors, and saw their lead slip to nothing when Frank Bruno's layin tied the score 54-54.

Larry Moore and Bob Gilliam scored last minute free-throws to insure the win.

After leading 31-30 at the half, the cold-shooting Pack fell behind and trailed most of the second half. The Aggies, number one defensive team in the conference, began to slow the ball down considerably as the clock started to run out. Stalling the ball and taking only good shots, the Davis cagers appeared to have a commanding lead.

It was then that the press began to pay off for Nevada. The battle-tested Pack rattled the Aggies and caused them to make game-losing mistakes.

Bob Gilliam and Frank Bruno led the scoring with 16 markers apiece, with Larry Moore and Nap Montgomery each scoring 11

## Pack Topples Chico 90-70

CHICO—A tough zone defense in the second half enabled the visiting Nevada Wolf Pack to capture its 11th straight basketball game, a 90-70 decision over Chico State. In an earlier game in Reno, the Pack had to hold off a second-half rally to down the Wildcats, 85-76.

Leading by only five points at the half, Nevada began finding the mark in the latter stages of the game. After losing the lead momentarily early in the second half, Nevada pulled to a 10-point lead with 15 minutes to play.

The Pack controlled the boards throughout the game, with Nap Montgomery, Larry Moore and Bill Nicholson keeping Chico from getting second shots. Montgomery grabbed 20 rebounds, Nicholson 16, and Moore 12.

Montgomery and Moore both scored 24 points. Frank Bruno tossed in 20 and Nicholson added 11. Bob Gilliam was held to eight.

In the preliminary, the Chico Frosh downed Nevada's freshmen, 85-71.

## Study in Guadalajara, Mexico

The Guadalajara Summer School, a fully accredited University of Arizona program, conducted in cooperation with professors from Stanford University, University of California, and Guadalajara, will offer June 27 to August 8, art, folklore, geography, history, language and literature courses. ## From the End of the Bench Sport Circus Set For Feb. 8

by Mike Parman

**BOY WONDERS DO IT AGAIN**—How many people got ulcers listening to the Cal Aggie game the other night? Nevada won its eighth straight conference game—its sixth on the road. This is the first time Coach Jack Spencer has had a Nevada team that finished the season undefeated in conference road games.

**WHILE NEVADA WAS WINNING** . . . Santa Clara and St. Mary's fans had an egg fight in the middle of the game. Santa Clara won the game. I don't know how the egg fight came out . . . Sacramento St. lost to the Cal Aggies Friday night, and were chicken about it. Someone in the crowd released a pack of white leghorn chickens in the middle of the game. The chickens took over the court. Final score: Cal Aggies 81—Leghorns 71.

**GAME OF THE WEEK**—Upper Iowa 90 Wartburg 85.

**CLOD OF THE WEEK**—Horst Frabeg—Third string center for Guppie State who missed 19 free-throws in the last minute of play as the Guppies lost to Minnehaha State Teachers 101-100 in three overtimes.—No, there is no Guppie State, or Horst Frabeg.

### STUDENT RATES

3 Lines for \$1.00

### STARLITE BOWL

Monday through Friday, 2 to 5 p.m., With This Ad

An evening of free entertainment may be had by all students who attend the annual Intramural Circus in the gymnasium Feb. 18, at 7:30 p.m.

Last year approximately 125 persons participated in the different events. A slightly larger turnout is expected this year.

Of the four events, fencing, gymnastics, basketball free throw, and wrestling, women may participate in all but wrestling. The points received for entering competition will go towards winning the women's W.R.A. trophy.

Basketball free throw and fencing entry blanks must be in the intramural office no later than 5 p.m. Feb. 15. The members on the fencing teams are asked to have some type of team identification on their fencing jackets.

Gymnastics entry blanks must be handed in on Feb. 16. The women will have a special novice and open division.

Wrestling entry blanks will be due Feb. 14. A weigh-in is scheduled for that same day at 5 p.m. in the boxing room. Each team will be made up of four men. Eliminations will be held during the week of the 14th and will last until the 17th.

## Nevada High School Athletes Highlight Freshman Ball Team

The University of Nevada freshman basketball team for the first time in many years is comprised largely of Nevada high school athletes.

Coach Bob Schebler's freshman basketball squad this year has a large number of former Nevada prep cage stars. Thirteen of the fifteen members of this year's frosh squad come from Nevada high schools. Only two men, Bill Nelson and Russ Winters, come from outside the state. Both are from California.

Nevada B schools (small schools) have three men on the squad, while the large AAA schools have six on the team. The AA schools have six men on the squad. All of the Nevada athletes come from the Northern part of the state.

The freshman team plays games with other freshman teams from other FWC schools as well as local high schools and town teams. To date the Pack Cubs have compiled a season record of 7 - 3, not including last weekend's game, with at least five games remaining to be played.

Four of these games will be played at home as the preliminary to the varsity games. Coach Bob Schebler says he would like

"more students to see more than the last few minutes of the freshman ball games."

Schebler, who played for Nevada cage teams from '61 to '65, is pleased with this year's team.

Leading the Cubs scoring this year has been Hugh Gallagher, former Virginia City star, with a 18-point average.

Members of the 1965-66 Nevada freshmen team are: Kevin Weatherford, Sparks; Keith Bailey, Fallon; Terry Gilmartin, Gerlach; Ed Gladding, Virginia City; Jeff Dwyer, Elko; Jerry Maldonado, Sparks; Mike Newmaker, Reno; Bill Quilici, Lovelock; Bill Nelson, San Rafael, Calif.; Russ Winters, San Mateo, Calif.; Damon Drachulich, Manogue; Dave Buhlig, Fallon; Craig Congdon, Wooster; and Dave Slagle, Reno.

## ATO Hoop Leader

As the basketball tournament nears its end ATO No. 3 and Lincoln Hall No. 1 are in first place for the American League.

In the National League Independents No. 3 are on top.

The International League finds ATO No. 1 in first place.

Games scheduled for Wednesday, Feb. 16, are Lincoln Hall vs. White Pine No. 1 at 4:15 and ATO No. 2 vs. Phi Sigma Kappa at 5:05 p.m.

## Engineers and Scientists:

Let's talk about a career at Boeing...  
50-year leader in aerospace technology

Campus Interviews, Thursday and Friday, March 3 and 4

The most effective way to evaluate a company in terms of its potential for dynamic career growth is to examine its past record, its current status, and its prospects and planning for the future, together with the professional climate it offers for the development of your individual capabilities.

Boeing, which in 1966 completes 50 years of unmatched aircraft innovation and production, offers you career opportunities as diverse as its extensive and varied backlog. Whether your interests lie in the field of commercial jet airliners of the future or in space-flight technology, you can find at Boeing an opening which combines professional challenge and long-range stability.

The men of Boeing are today pioneering evolutionary advances in both civilian and military aircraft, as well as in space programs of such historic importance as America's first moon landing. Missiles, space vehicles, gas turbine engines, transport helicopters, marine vehicles and basic research are other areas of Boeing activity.

There's a spot where your talents can mature and grow at Boeing, in research, design, test, manufacturing or administration. The company's position as world leader in jet transportation provides a measure of the calibre of people with whom you would work. In addition, Boeing people work in small groups, where initiative and ability get maximum exposure. Boeing encourages participation in the company-paid Graduate Study Program at leading colleges and universities near company installations.

We're looking forward to meeting engineering, mathematics and science seniors and graduate students during our visit to your campus. Make an appointment now at your placement office. Boeing is an equal opportunity employer.

## Campus Restaurant To Open

"From these ruins will rise the Finest Campus Restaurant in America. Please BEAR WITH US."

This inscription is placed in the newly - opened restaurant, "The Huddle," at 9th and Virginia.

Formerly "Roberto's", the restaurant is now owned by Howard O. Tanner, national sales manager for Sea & Ski Corporation. "The Huddle" is being managed by Robert I. Knight, who formerly owned the restaurant under the name of the "Wolves Den."

Tanner has remodeled the restaurant, repainting it and rearranging the seating. He also plans to have pictures of campus scenes on the walls.

"There is nothing for the kids under 21 to do. I would like for

this to be a campus restaurant," said Tanner.

Plans are being made for the downstairs room, said Tanner, but they are not definite yet. The use of the room will correspond with the idea that the restaurant is for University of Nevada students.

"The Huddle" will be open from 7 a.m. to 11 p.m. daily except Mondays.

## 14 Seminars Set

The National College of State Trial Judges at the University of Nevada has arranged for 14 state judicial seminars for 1966. Included in the seminars is one in which Nevada and Utah participate.

Nevada is one of fourteen states included in this year's program, which is partially financed by a Max C. Fleischmann grant. Seminars are given financial aid and are furnished with help in selecting speakers under the program.

Recommendations for judges qualified to speak and for judges available to lead discussions for the seminars have been made by the national college.

## Atmospherium Utilized For Classes Now

The Desert Research Institute of the University of Nevada invites students and teachers to utilize the Fleischmann Atmospherium-Planetarium for organized class activities.

The internationally known facility is a unique and important teaching resource in the fields of meteorology and astronomy, O. Richard Norton, curator, says. "The institution can form an integral part of annual teaching plans, having been endorsed by teachers and administrators throughout the region."

The Atmospherium has organized an extensive program oriented toward meeting the curriculum needs of all public and private schools from fourth grade through college levels in Nevada and portions of California east of the Sierra.

These programs can be of tremendous value for all students regardless of their interests, Norton says, and the Atmospherium staff believes that visits to the facility should be considered an extension of the classroom.

With the cooperation of curriculum administrators, the Atmospherium now offers a wide selection of program subjects coordinated with instructors' own books and instructional programs.

These special programs deal with such subjects as the solar system, the sun, the moon, galaxies, stories of the stars, causes of weather, and cloud formation.

Each program will last about sixty minutes. Programs are offered Tuesday through Friday mornings at 9:30 and 11:00. Verbal or written reservations should be requested at least two weeks in advance

## University String Orchestra Will Present Chamber Music

The University of Nevada String Orchestra, conducted by Professor Harold Goddard, will present a chamber music concert Sunday, Feb. 13 at 4 p.m. in the Church Fine Arts Theatre. The orchestra, which consists of string players from the symphony orchestra, played "Sonata in E Major" by J. S. Bach and "Serenade for Strings Orchestra" by Tschai-kowsky.

A part of the program featured the Youth String Orchestra, which is made up of the more advanced members of the University String Project.

The University String Project, which started in 1960, is designed to give children in the Reno area training in the performance of orchestral string instruments.

"This type of program is absolutely essential to the development of a good symphony orchestra in the future," says Goddard.

Before this year there were no string or orchestra training programs in Nevada public schools. Mr. John Tellaisha is now conducting pilot programs in one junior high school and five elementary schools in Reno. More than 200 children are currently enrolled.

There was no admission charge for the university concert.

## Science Workshop Open In Summer

The University of Nevada is sponsoring a summer aero-space science workshop, June 15 to July 3. This is the third session of the workshop, which concerns recent aero-space developments.

Field trips will be conducted and members will be given firsthand information by personnel of NASA, CAP, USAF, and various air lines.

Throughout the session, emphasis will be given to practical methods in which new aero-space information can be used effectively in the classroom.

Over sixty people completed this course last summer. Interested teachers should apply immediately to Dr. Calvin Reed, College of Education, on the Reno campus.

## Nursing Exciting In Stewart Hall

Many people think of the profession of nursing as exciting with never a dull moment. This is true in Stewart Hall where future nurses are trained. The nurses have been bothered by fungus, termites, plaster falling off the roof, and a leaking roof when it rains.

But last week some new excitement was caused by a small mouse found peaking from behind a chair. According to the faculty he was a tame, apparently friendly mouse.

But at last report it was believed he had been killed.

The big question now is was he alone or with friends?

## Board of Regents Hold Meeting To Hear Reports

The board of regents of the University of Nevada met on the Reno campus Saturday, Feb. 12, at 1 p.m. in the Jot Travis Student Union building. Regents chairman, Dr. Fred Anderson presided over the session.

Items on the agenda included reports from the development committee; the plant and property committee; the administrative and personnel committee; the educational policies committee; personnel appointments and/or recommendations; acceptance of gifts; transfer of funds; and approval of candidates for degrees.

Friday, the regents took part in the installation ceremony for Chancellor N. Edd Miller.

Prior to the afternoon meeting on Saturday, the regents attended committee sessions.

Regents who attended the meeting are: Dr. Anderson, Reno; Grant Davis, Fallon; Archie C. Grant, Las Vegas; Harold Jacobson, Carson City; Dr. Louis Lombardi, Reno; Molly Magee, Austin; Richard Ronzone, Las Vegas; Dr. Juanita White, Boulder City; and Procter Hug, Jr., Reno.

Make your trip to Europe pay for itself.

## PAYING JOBS IN EUROPE

Luxembourg - 25000 jobs (office, resort, farm, factory, etc.) are available in Europe with wages to \$400. Travel grants are given to each applicant. Send \$2 (handling and airmail) to Dept. T, American Student Information Service, 22 Ave. de la Liberté, Grand Duchy of Luxembourg for a 36-page illustrated booklet giving all jobs and application forms.

# Ag. Research Now Multi-Million Business

From its beginning as a small experimental station in 1887, agriculture research in Nevada has grown to be a multi-million dollar business, investigating everything from food production to detergents.

Dr. Dale W. Bohmont, dean of the Max C. Fleischmann College

of Agriculture, covered this wide range of agriculture research subjects Thursday at a Sigma Xi luncheon at the Joe Travis Student Union building. Sigma Xi is an honorary engineering society.

Describing the growth of agriculture research, Dr. Bohmont attempted to relate investigative

results in terms of monetary value to his listeners.

"Agriculture is a \$70,000,000 a year business in Nevada," Dean Bohmont stated in illustrating the nature of return for investment of the research dollar. But in terms of peripheral values, "how can you place a monetary value on a glass of water?"

Much of the research carried on by the college is in this area, where the return is something that is normally taken for granted, such as watershed, game management and recreation, he indicated.

When the research facilities were originated, he said, the primary interest of the researcher was the applied aspect of agriculture. "They were interested in the 'what' application of their programs. We now are investigating the 'why'."

He illustrated by showing where at first the investigators would select a food plant or animal and try to determine just how it affected man's eating habits or his economics. Now the researcher is interested in the chemical organization of the plants as well as their table value, or how much income they will produce for the farmer.

Showing how the college programs break down into sections, Dr. Bohmont noted the "counterpoint research" system employed at the Fleischmann school. Each individual who teaches a subject must also carry on research projects relating to the subject.

In studying the agricultural problems of Nevada the college employs 12 researchers from the U. S. Agriculture Service and operates four field labs in various sections of the state, in addition to the staff and facilities at the University.

## Singers And Choir Will Take Tour

The University Singers and the Brass Choir will tour to Al Tahoe and Sacramento early in March.

The performances will be at the Al Tahoe High School and the Sacramento High School. While in Sacramento the choirs will attend two operas, "Madame Butterfly" and Bizet's "Carmen."

The University Singers are under the direction of Dr. W. Keith Macy and the Brass Choir is under the direction of Roscoe Booth.

Can a gentle, refined, cultured "college man" find happiness as a rugged, steely-eyed United Air Lines pilot?

Yes.

Thanks to United's unique program for private pilots you can now apply for the job of pilot prior to obtaining the required commercial pilot license. We'll even help you in financing this license.

To qualify, you need a private pilot license, 2 years college (half the credits required for graduation), age 20-29, height 5'6" to 6'4", U.S. or Canadian citizen, eyesight 20/70 correctable to 20/20 with glasses, and excellent physical condition.
