Aggie Club To Hold Mackay Feed, Rodeo

The Nevada State Junior Livestock show and a Mackay Day barbecue will be sponsored by the Aggie Club. Plans for the events were made by members at their regular meeting on March 2.

Dudley Bacon and Dave Matley were named chairmen of the Junior Livestock show plans. They will organize committees to help judge, sort, and care for the animals brought to the three-day competition in May.

Aggie Club members will work on the show with their sponsor, Dr. Daniel Cassard, professor of animal science.

Mike Compston was appointed chairman of both the Mackay Day rodeo and next fall's Comic Rodeo. Committee chairmen named to serve on the barbecue were Tom Moure, Clifford Schoolroy, and Pete Fenilli.

The barbecue is being coordinated through the Mackay Day committee. It is to be held at Clark Field after the annual obstacle races.

Social chairman Harvey Barnes announced that Aggie Club was helping to sponsor a dance for the Reno High School Rodeo Club on March 26. The club will then sponsor an all-school dance for the University on April 1.

Riley Beckett, who is running for junior men's senator-at-large, spoke to the club. He noted that if he was elected he would be working with Aggie Club on the Comic Rodeo through his position on the Finance Control Board.

Ronald Shane asked for the members' support in his bid for the College of Agriculture's senatorial seat. Shane is a sophomore majoring in general agriculture. He has served on the University election board and, before coming to college, was student body president of Churchill County High School.

Vests for club members are being ordered. Segayle Waldren was appointed to head the committee for the project.

President Larry Wood received the club's approval on the leasing of a pasture from the College of Agriculture.

Play 'Candida' Begins Friday

The University Theater will present George Bernard Shaw's three-act play, "Candida," March 11, 12, 17, 18 and 19. Curtain time is 8 p.m.

Reservations may be made at the theater box office between 1 and 5 p.m. Monday through Saturday on the weeks of performance.

The box office will be open at 7 p.m. on performance nights. Students with ASUN cards will be admitted free.

According to theater director,

ALL-AMERICAN LONNIE HUGHEY (44) and Nevada's Bill Nicholson battle it out under the boards as Hughey scores on hook. —Sagebrush photo

Fresno Stops Pack Streak; Bulldog Attack Nets 127

FRESNO—The 16 game winning streak of the University of Nevada Wolf Pack was abruptly halted by Fresno State, 127-78, in the first round of the NCAA West Coast Regionals, at Fresno, Friday night.

Fresno hit 63 per cent from the floor, and roared to a 65-42 half-time lead. Six Bulldogs scored in double figures.

Nevada could not cope with Small-College All-American Lonnie Hughey, who scored 32 points. The Pack was hampered by the loss of center Bill Nicholson late in the second quarter on fouls.

After leading 9-5 in the early

moments of the game, Fresno scored 13 of the next 14 points to take a 22-6 lead.

Nevada stayed within 18-20 points midway through the second half, but then the Fresno attack really got moving and the Bulldogs routed the Wolves.

After the loss of Nicholson, the Pack was hampered by lack of height. Nevada was forced to shoot from the inside against the taller Bulldogs.

Larry Moore scored 24 points for the Pack, with Nap Montgomery netting 18.

The loss gave Nevada a 20-6 mark.

ASUN Candidates Invited To Speak

Candidates for A.S.U.N. offices will be invited to speak to the 340 women of Manzanita and Juniper Halls.

The joint meeting, to be held Thursday, March 10 at 10 p.m. in Juniper's lounge, will give the candidates a chance to present their platforms.

Candidates may make arrangements with Candy McGimsey at Juniper Hall, or Maxine Forbush in Manzanita, by Wednesday, March 8.

AWS-Sponsored Heart Fund Drive Proceeds Exceed Previous Amounts

The A.W.S.-sponsored Heart Fund Drive has been completed. Ronda Wilson-Reid, service project chairman, said \$157.44 was collected. This exceeds previous amounts collected by University groups.

Five women from each living group canvassed different areas of Reno for donations to the Heart Fund. The five women that collected the most money will receive a prize. The winning group will be announced at the A.W.S. Awards Dessert, April 4.

Roses will be given to freshmen women who have received a grade point average of 3.0 or

above at the A.W.S. Election Breakfast.

Candidates for A.W.S. offices will speak at the breakfast, which will be Sunday, March 13, at 10 o'clock.

A.W.S. council received a report on the recent A.W.S. convention in Davis, California. Ann Havrilla said her committee meetings emphasized that the social aspects of college life should be brought before the college women by A.W.S.

Such emphasis on social life was advocated by some delegates in the meetings attended by Marvis Cooper. Marvis said that other delegates thought the main purpose of A.W.S. should be attending to women's regulations and hours.

Ginny Gilbert found that representatives in her group thought service should be the main purpose of A.W.S.

A trip through the Congo in Africa illustrated the theme of a talk given to all delegates at the Davis convention. Robbin Schoff, A.W.S. president, said that the speaker used her trip through Africa to show that she "dared to be different."

Nancy Baker is the new off-campus independent representative to A.W.S.

Dean of Women Elaine Mobley commended the A.W.S. on its accomplishments and activities. She added that the coming conference in Arizona will present a challenge to the A.W.S. delegates who will attend. The theme of the conference is "Chained, or Changed?"

Minor editing changes were made to update the present A.W.S. constitution.

Chancellor Miller Heads Symposium

University of Nevada Chancellor, Dr. N. Edd Miller, will conduct a symposium for students, faculty, administration, and persons connected with the University of Nevada, to discuss various concepts and problems here at the University.

Discussion will be conducted under seven topics on March 21, from 9 a.m. to 5 p.m. These will include student-faculty relations, student-administrative problems, responsibility for the intellectual reputation of the University, the University of Nevada in the State, student functions, and fact versus concept in education.

The symposium will provide an opportunity for participants to comment on any aspect of campus life within the limits of the topics mentioned.

Many students and faculty members from each college will be invited to talk, but anyone wishing to air any particular idea will be granted the privilege through Lance Sparks or Shari Williams prior to March 11.

The place for the symposium is to be announced.

Art For Heart Contest Open To U of N

An "Art for Heart" contest, sponsored by the Nevada Heart Association, will be open to Nevada artists and students from the University of Nevada, announced Mrs. Hoyt B. Miles and Mrs. William A. Edwards, co-chairmen.

Modern art, traditional scenes, paintings with a heart motif, all are acceptable. "We will leave it to the artists' inspiration," said Mrs. Miles. Contest entries may be oil or water based media with a minimum size of 15" by 18". All work must be the original creation of the artist. Each artist may submit as many as three entries.

Winning entries will serve as the frontispiece for 1966 Christmas cards of the Nevada Heart Association.

First prize award will be \$150 in bonds and a second prize of \$50 will also be made. Awards for the contest have been donated by the Security National Bank, Nevada Bank of Commerce, and the First National Bank.

Judges will be Professor Craig Sheppard of the University Art Department, Mrs. Edward Shedd of the Nevada Art Gallery, and Thomas C. Wilson of the Thomas C. Wilson advertising agency.

Opening date for submission of entries was March 1. The contest will extend for six weeks with closing date on April 8.

Registration blanks may be obtained from the University Art Department, Solari Paint, Fenwick's, Brundidges, Magic Lamp Gift and Hobby Center, and the Nevada Heart Association Office, Washoe Medical Center.

Blood Type Cards Should Be Picked Up

About 150 blood type cards have not been claimed by students who participated in the University of Nevada Blood Drive.

The cards may be obtained in the A.S.U.N. Public Relations office in the basement of the Journalism building.

Underclass Presidents Should Be a Part of the University Student Senate

At last Wednesday's Senate meeting, an amendment to the Constitution, to make the presidents of the Freshman and Sophomore classes members of Senate, was brought up and defeated.

Although the bill itself is dead, some of the facts and situations which prompted its proposal should be known.

According to the Office of the Registrar there are 1,389 freshmen presently enrolled at the University of Nevada. These comprise over 41 percent of the student body, and yet they have no voice in the elections which determined the make-up of our Senate.

Stated in other terms, the Senate, by way of the Finance Control Board, controls the expenditure of ASUN funds. Over 40 percent of the money it handles comes from students who will not vote in a Senate election until this month. The only election in which the freshman class has been able to vote, was the election of their class president, who, if he were a member of Senate, would thus provide a representative for this large number of students.

Sophomore Senate representation is not much better. Over 70 percent of the sophomores in Senate are either appointed or elected by their various living groups and, as such, are responsible only to their respective living groups, not to the majority of underclass students.

One of the few serious objections to the amendment was that these class presidents, especially the freshman class, "would not be capable of doing a good job in Senate because of lack of experience." This would appear to be the case in electing any student senator.

Only through actual work can the experience be gained.

The Senate seat would provide this valuable experience and insight for our future student leaders at the University of Nevada.

These people are also better known to the underclassmen than are the senators-at-large, and as such, might provide stronger and better representation for their respective classes.

As the situation now stands the Freshman and Sophomore class presidents are nothing but mere figureheads, who do nothing but plan the Frosh-Soph Field Day.

By making these people members of Senate, their jobs would become a more meaningful part of student government. They would further give a very large part of our student body the representation it deserves.

Home EC Increases Enrollment 20 Per Cent

Dr. Marilyn J. Horn, assistant dean of Home Economics, reports a 20 per cent increase in enrollment of students majoring in home economics in the past nine years.

She explained at a recent meeting of the Home Economics Advisory Committee that the percentage growth at the University of Nevada has far exceeded growth of home economics programs across the nation.

Mrs. B. J. Chesser, supervisor of the Child Development Laboratory, summarized the advances in this area during the year. She also demonstrated the use of closed circuit television in the expanding services of the laboratory.

The new administration coordinator, Dr. Patricia A. Tripple, explained the reorganization of the Home Economics Extension

University Traditions Lacking

By Ed Pearce

The late student rushed across the quad hurrying from a class in Ross Hall to one in Mackay Science Building. A faculty member on his way to a coffee break in the cafeteria strolled leisurely across the lawn. And an elderly lady stepped primly across the grass, cutting the quad diagonally.

These persons, whether aware of it or not, were all breaking one of the oldest-standing traditions of the University of Nevada. Just how old the tradition of not walking on the quad is, no one knows. It may have been instituted shortly after the first buildings were built around the quadrangle.

The tradition may have fallen into disuse, but according to Dean of Student Affairs Sam Basta many people are concerned about it. "We've received a great many complaints from faculty members and students, especially upperclassmen about the situation," Dean Basta said recently.

Dean Basta, who was graduated from the University in 1938 and later returned as a faculty member, said he was concerned that the walking on the quad grass might eventually criss-cross the

lawn with pathways, destroying the beauty of the quadrangle.

"Our campus is recognized as one of the most beautiful around," he noted.

The campus, built originally around the nucleus of the quad and thus fashioned after the University of Virginia, has provided backdrops for many movies.

Dean Basta said the solution to the problem might be found by looking to the campus of Nevada Southern. The Las Vegas branch of the University has been struggling to reclaim a campus from the desert.

"I recently returned from Las Vegas and the NSU campus is quite beautiful now with lawn and trees being planted, Dean Basta said. "And to protect their campus they have adopted a punishment fine of \$2.50 for anyone walking on the grass. If they can do it in Las Vegas, I know we can do it here."

Dean Basta added he thought the loss of many campus traditions was due to the University's growth, as well as Reno's, and the abandonment of the "Joe College" image of undergraduates.

"Many traditions that have been lost," he said, "are better forgotten." He mentioned the

once traditional election day beer busts as being in this category.

"I would, however, like to see the revival of traditions like the Homecoming bonfire rally," Dean Basta added.

One abandoned campus tradition that might find favor and support among today's students is a 1920's custom regarding the tramway by Manzanita Lake.

According to tradition, walking a girl across the tramway for the first time entitled her escort to a kiss.

School Officials Conference Held On Reno Campus

The Sixth Annual Conference for Superintendents, Principals and Counselors will be held on the Reno Campus, Friday, March 18 in the Church Fine Arts Building.

Appearing on the program will be Dr. N. Edd Miller, chancellor; Dr. Robert M. Gorrell, chairman, English Department; Dean Edmund J. Cain, College of Education; Dr. George E. Sutton, chairman, Mechanical Engineering; Dr. Charles H. Seufferle, associate dean, College of Agriculture; and William E. Rasmussen, director, Financial Aids.

At noon, the University will host a luncheon in the Jot Travis Union Building for the secondary school representatives with the academic and administrative deans invited to attend.

During the morning and afternoon sessions, coffee breaks are scheduled to give the visiting school officials an opportunity to discuss topics of mutual interest with the various University department chairmen.

All Nevada schools officials and representatives from the State Department of Education have been invited to attend the conference.

Rare Orvis Orchid Collection To Be Seen Here In July

Orvis School of Nursing VIP room will find a bouquet of large orchids. In July, when Dr. Arthur E. Orvis passed away, his wife gave his collection of rare orchids to the university on the stipulation that an arrangement of these always be kept in the VIP room of the new building.

One hundred twenty-five plants of fifty varieties were shipped from Hawaii. After the building is completed some of these will be in the VIP room at all times. Since the plants are of various types and will be in bloom at different times, ranging from weeks to months, they will be shifted periodically.

Dr. Orvis also left the Orvis School of Nursing other items for the new building including many french objet d'art, his cap and gown, the flag his regiment gave him, and selected items of furniture from their Hawaii home shipped here by Mrs. Orvis. A new library of valuable classic literary works will be established within the school from funds donated in his memory.

An industrialist and financier of international reputation, Dr. Orvis was a native of South Orange, New Jersey. He was a graduate of Cornell University and held honorary doctoral degrees from the University of Nevada and the University of Hawaii. During World War I he served as captain in the Army Air Corps and was a captain in the US Coast Guard auxiliary.

'Exotic Material' Is Sigma Xi Subject

"Production of Exotic Materials for Color TV Screens" is the subject of a speech to be given tonight at 7:30 in room 207 of the Mackay School of Mines building.

Sponsored by Sigma Xi, the lecture will be presented by Mr. Clifford J. Lewis, manager of research, Chemical Division, Colorado School of Mines Research Foundation.

Mr. Lewis and his group have developed several processes, published papers and hold many patents on the uses of liquid ion exchange to concentrate and purify metals, including the rare earth Europium.

He devoted his time and much of his fortune to the development of the University of Nevada. In 1963 he donated \$100,000 to be used in the completion of the Orvis School of Nursing. He and his wife had previously given \$200,000 toward the project. Dr. Orvis provided the first collegiate building operated with private funds at the University of Hawaii, the Mae Zenke Orvis Music Auditorium built in 1962.

The building was named in honor of his wife. Dr. and Mrs. Orvis lived part of each year in Honolulu and part in Reno.

Wolf Pack Suffers 7-4 Loss To Phillie Rookies Saturday

ONE OF THE BRIGHT SPOTS in the Fresno State game was Nap Montgomery, seen scoring, who played another brilliant game. —Sagebrush photo

By Gary Daniels

The University of Nevada baseball team suffered its second loss of the young season when it dropped a 7-4 game to the Phillie Rookies in Reno Saturday.

The lead changed hands several times with the Pack taking an early 2-0 lead. Carl Bossieux looked good in the early going, striking out seven and allowing only two walks and one hit in the four innings he pitched.

Big bats for the Pack on the day were Owen Toy, Earl Nursement, and Bob Gillham who had two for four. Gillham served up the biggest blow for the Nevadans with a solo homerun in the sixth inning.

The Rookies' bats proved too much for Nevada's pitchers in the latter innings with the final and deciding blow coming off the stick of Rick Underwood in the eighth inning. Although Nevada had as many hits as the Phillie farmhands, the "pros" were able to group their hits together to pick up the victory.

A freak accident stunned the Nevada team shortly before game time. During batting practice reserve infielder Steve Cryer was struck in the head by a loose bat. Cryer was taken to Washoe Medical Center and received several stitches in a large cut over his right eye.

Nevada's next game will be with the Chico Wildcats in Chico tomorrow afternoon. Saturday, the Wolf Pack will be in Stockton for a game with the UOP Tigers. Next home game for the

Wolf Pack will be March 18 with San Jose State College. The game will be played at Moana stadium at 12.

Sagebrush Selects Bill Georgeson 'Jock of Week'

Boxer Bill Georgeson was named "Athlete of the Week" by the Sagebrush staff for the week ending March 6.

Georgeson was awarded the pick of the week for his fine performance against the University of California's Tim Rodgers in the boxing meet held in the Nevada gym Friday night.

Although he had trouble in the first round, Georgeson came back to score a TKO in the second.

Georgeson is the defending California Collegiate Boxing Champion in the 147-pound division.

Also considered for the award was Pack boxer Riley Beckett, who handed Cal's Dave Archibald his first collegiate loss.

Nevada Rallies To Gain Third Place With San Diego Win

FRESNO—Coming back from a Friday night drubbing by Fresno State, the Nevada Wolf Pack regained winning form to down the University of San Diego, 74-71, in the consolation round of the NCAA West Coast Regional Saturday night.

With just four seconds left in the game, the Wolf Pack was trailing, 71-70. But Larry Moore scored two free-throws to put the Silver and Blue ahead, 72-71. Guard Bob Gilliam was fouled on the San Diego inbounds play and scored two more charity tosses to give Nevada the 74-71 win.

The win gave Nevada third place in the regionals, and ended the Pack season with a record of 21-6. It was the first time the Pack won more than 20 victories since 1946.

Although Nevada took an early 10-point lead, the Toreros rallied to cut the lead to 37-35, Nevada, at the half.

San Diego moved into the lead shortly after the second half of play began, and except for one brief period, led the rest of the way until the winning rally by Nevada.

Bill Nicholson was in foul trouble most of the game, but still took second-high scoring honors for Nevada, netting 20 points. Guard Bob Gilliam scored 21,

Nap Montgomery 15, Frank Bruno 10, and Larry Moore 8.

Unlike the Fresno St. game, the Wolf Pack did not have as much trouble finding the bucket, and shot 47 per cent from the floor. The Toreros, who lost by four points to Seattle Pacific in Friday night's game, could muster only a cold 37 per cent from the floor.

In the championship game between Fresno St. and Seattle Pacific, Fresno won the right to represent the West Coast colleges in the NCAA nationals at Evansville, Ind., next week, by posting a 64-58 win.

From the End of the Bench Nevada Boxers Top Cal Bears

by Mike Parman

What Happened To Nevada at the regionals has been asked quite a lot. It is interesting to note that Fresno St. beat Seattle Pacific, 64-58, in the championship game. Seattle Pacific beat the University of San Diego by four points, while the Pack beat San Diego by three points, 74-71. All this may mean nothing, but how could the Pack lose by 49 points to Fresno St., based on these other-game performances?

Although Nevada Lost in the regionals, several former opponents of the Pack did very well over the weekend. Southern Illinois remained on the top of the small-college heap by downing Indiana State and Evansville, both of whom are in the Top 10. Meanwhile, Texas Western, number two big school in the nation, is preparing for the NCAA tournament. The Miners suffered their first loss of the season, to Seattle, over the weekend, but must be rated strong contenders for the large school crown.

Owen Toy is starting off another good season for the Wolf Pack baseball team. Toy, one of the leading collegiate hitters in the nation last year, has been finding the ball pretty well in his first three games.

Sacramento State's Henry Lawson did not enter the triple-jump event in the Davis Relays. It is reported Lawson has a bad ankle. If he is able to jump this year, watch out. Lawson had one of the best jumps in the nation last year. For a while, his leap was third-ranked, nationally.

Look For Nevada to come through well in the conference boxing championships to be held in Reno soon. By defeating the Cal squad last weekend, the Pack erased its only defeat of the season. Anyone on the team could come through with a championship win.

Eight-Member Tennis Team Prepares For First Match

Among the little known spring sports at the University of Nevada is tennis. The tennis team, which boasts eight members, is now preparing for its first match. The squad will have a total of nine matches, plus the conference meet at the end of the season.

The netters first match will be in San Francisco on March 12. Nevada will have four home matches to be held on the new tennis courts on the campus.

Home matches will be on March 19 against Sonoma State; March 26 with Chico, April 16 with Sacramento and April 30 against Davis. All matches will start at 1 p.m.

Coach Bob Laughter stated that this year's squad is much improved over last year's team that finished sixth in a seven-team league.

This year's team has several of the top men from last year's squad. Last year's top man, Al

Pierce, is joined by the top man of two years ago, Ken Robinson. Robinson has received his draft notice, however, and may be lost to the team after March 16.

Other members of this year's team include Dave Chism, soph, Reno; Jack Raycraft, junior, Reno; Jim Roulias, soph, Reno; Ken Howard, soph, Reno; George Wisham, Bakersfield; and John Young Jr., Reno.

Coach Laughter pointed out that one of his main problems is the same that is held by other spring sport coaches. The weather is not good enough to allow for proper practice sessions and it is hard to make any improvement without practice.

The Wolf Pack boxers won a dual match over the University of California Bears Friday night, 5½ to 3½. The Pack boxing team avenged a Bear win last week, 5-4, at Berkeley.

The most exciting fight of the evening was 172-pound Riley Beckett's win over the Bear's previously undefeated Dave Archibald. Archibald's aggressive attack in the first round failed to slow down Beckett. Beckett's last round rally eliminated any chance of Archibald's winning by a decision. Archibald had won his last four fights by KO's.

Nevada's 147-pound Bill Georgeson fought perhaps the stand-out match of the evening. The undefeated conference champ was never in any trouble. Early in the second round Georgeson pinned his opponent in the corner and began a punishing attack with both hands when ref-

eree Sammy Macias stopped the bout.

Bob Engle of Nevada narrowly decided the Bear's conference champ, Paul Bell, at 132-pounds. Engle appeared as though he might have some trouble in the early rounds but bobbed his way to victory as the fight came to a close.

Tony Schueller of Nevada came on strong in the third round to win a decision from Jim Moore of California in the 165-pound match. Schueller's short, straight-handed punches proved too much for the Californian.

A last minute rally by Nevada's rangy Jim Wright won a close decision over Berkeley's John Harder in the 156-pound division.

Nevada's undefeated Mike Schellin, at 156-pounds, won a narrow victory over Cal's Greg Monahan. Schellin took command of the opening rounds and had

the edge over Monahan's late rally.

Nevada's husky 180-pound Mike Smithwick and Cal's Ray Kropp fought to a draw. The first two rounds turned out to be a display of boxing talent. The third round found both men trading punches with the Californian taking the worst of it. Kropp had decided Smithwick last week.

At 125-pounds, Cal's Dale Chamblin outscored Nevada's Dave Halstead.

California picked up forfeits over Nevada's 139-pound Dave Widmer and heavyweight Ben Blinn, both out with the flu.

Heavyweight Gary Silverman of Nevada was decided by Walt Cunningham of California. The more experienced Cunningham took early command of the fight.

Trackmen Display Early Form

DAVIS—Showing early season power, the Nevada track team won five events in the Davis Relays at the University of California at Davis campus. No scoring is kept at the invitational meet.

The meet was highlighted by a 15 foot ¾ inch pole vault by Nevada's Jim Taylor, which bettered the old Nevada record of 14-7¼ set by Ryan Melton.

George Puce, Nevada's husky shot putter, tossed the iron ball 55 feet 8¾ inches to win that event.

Nevada's Otis Burrell did not compete in the meet, due to an injury suffered in competition at San Francisco last week.

Ken Krank of Nevada won the 120-yard high hurdles with a time of 15 seconds flat. Bill Perry also

won for the Pack, winning the 330-yard intermediate hurdles with a clocking of 39.3.

Another Davis Relays mark was broken when Nevada's two-mile relay team ran the distance in 7:58.6.

Sacramento St., picked by many as the team to beat for the Far Western Conference track championships this year, also captured five events. Four of the Hornet wins came in relay events.

The Wolf Pack team was not up to strength, due to the flu epidemic that has hit the West Coast especially hard.

Can a gentle, refined,
cultured "college man"
find happiness as
a rugged, steely-eyed
United Air Lines pilot?

Yes.

Thanks to United's unique program for private pilots you can now apply for the job of pilot prior to obtaining the required commercial pilot license. We'll even help you in financing this license.

To qualify, you need a private pilot license, 2 years college (half the credits required for graduation), age 20-29, height 5'6" to 6'4", U.S. or Canadian citizen, eyesight 20/70 correctable to 20/20 with glasses, and excellent physical condition.

Press, Bar Will Debate Fair Trial

"Fair Trials and a Free Press" will be discussed at a March 10 dinner meeting of Nevada journalists and lawyers. The meeting begins at 6:30 p.m. in the Riverside Hotel's Press Club quarters.

The University of Nevada's chapter of Sigma Delta Chi, the Nevada Professional Chapter, and the Washoe County Bar Association will sponsor the meeting.

Professor A. L. Higginbotham, chairman of the department of journalism, will be the moderator.

The price of the dinner is \$3.50 to all journalism students.

Sagers Elect Shriver

New officers have been chosen for the Sagers, men's underclass service group, for 1966.

Bob Shriver captured the presidency of the organization. Other officers are: Phi Landis, secretary; Todd Russell, treasurer and Rusty Moye is the new sergeant-at-arms.

The campus service club will hold a meeting tonight at 7:30 upstairs in the Ross Business Hall.

Freshmen and sophomore males interested in joining the Sagers are invited to attend.

Journalism Department Gives Paper, Yearbook Awards

Twenty-five Nevada high school yearbooks and newspapers have been given awards by the University's department of journalism.

The contest held annually and open to all high schools in Nevada is directed by Theodore E. Conover, associate professor of journalism.

The highest honors for printed newspapers was awarded to Earl Wooster High School, Reno, and the second prize went to Tonopah High School. The highest honors for offset newspapers was awarded to Las Vegas High School. Second prize went to White Pine High School in Ely. Honorable mention went to Western High School in Las Vegas and Bishop Gorman High School, Las Vegas.

The highest honors for mimeographed newspapers went to Churchill County High School in Fallon. Second place went to Mineral County high school, Hawthorne. Honorable mentions went to Boulder City high school and Lund High School.

The highest honors for a yearbook in schools over 500 students went to Las Vegas High School. Second place went to Western High School. Honorable mentions went to Bishop Gorman High School, Las Vegas; White Pine High School, Ely; Earl Wooster High School, Reno; and Basic High School, Henderson.

Bishop Manogue High School, Reno, won the highest honors for a yearbook in a school with between 200 and 500 students. Second place went to Boulder City High School. Douglas County High School, Gardnerville, and Humboldt County High School, Winnemucca, received honorable mentions.

For schools with enrollment under 200 students, the highest honors for a yearbook went to Virgin Valley High School in Mesquite. Second place went to Owyhee High School in Owyhee. McDermitt High School and Eureka High School won honorable mention.

Aggie College To Get Publications

The Max C. Fleischmann College of Agriculture will participate in a new regional publications group planned by five Western colleges.

William K. Sonnemann, chairman of the new groups and information specialist for the college, outlined University plans for entry into the Rocky Mountain Regional Publications group last week at a conference in Portland Oregon.

"By consolidating publishing efforts in articles of common interest, the participating schools may show a savings of up to 50 per cent," Sonnemann said in an interview.

The Universities of Wyoming, Colorado, Utah and Montana will join Nevada in the joint project.

Ideas of the group were discussed at a meeting of the Pacific Northwest group, made up of the Universities of Oregon, Washington and Idaho, which have been working under such an arrangement for several years.

Sonnemann said that by avoiding duplication of publications on common projects and subjects, such as 4-H activities, the individual schools would show an increase in staff efficiency.

"The cost of these publications would be split five ways, instead of each college having to print its own at a separate cost," Sonnemann stated.

Last year the College of Agriculture printed and distributed nearly 60 publications, Sonnemann noted.

Geologist To Present Two Lectures Thursday

Dr. Joseph T. Gregory, educator, paleontologist and present chairman of the department of paleontology at the University of California at Berkeley, will present two lectures Thursday in room 200 of the Mackay School of Mines.

He will lecture at 4 p.m. and 8 p.m.

He will lecture as a visiting geological scientist representing the America Geological Institute.

The AGI Visiting Scientist Program has had several distinguished American and foreign lecturers to the Nevada campus.

'College Night' Slated Wed.

A satirical skit called "Overtones" will be presented at the annual "College Night" for senior women, sponsored by the Reno branch of the American Association of University Women on Wednesday, March 9th, at 8 p.m. in the Jot Travis Lounge.

"Overtones," by Alice Gerstenberg, tells of two college friends who meet after some years and reminisce on their experiences. Their alter egos hover in the background, injecting comments on the true feelings of the two women.

"College Night" is held each year both to entertain the graduating seniors and to inform them about AAUW's programs and study groups.

Mrs. Kenneth Jessup will give a talk on the association and the activities of the Reno branch following the play.

Refreshments will be served.

Etchings Display In Univ. Library

Etchings printed on a special press are now on display in the University of Nevada library. The intaglio processed etchings were made by Assistant Professor James McCormick of the art department.

Intaglio printing is done from a design depressed below the design hollowed out.

The etchings were done on the press bought last year under a grant from the University's Committee for Research and Planning in the Humanities.

Included in the display are photographs of the process and examples of etchings in each stage of the printing process.

25 000 JOBS IN EUROPE

Luxembourg—Each student applicant receives a \$250 travel grant and a paying job in Europe such as office, factory, sales, resort, farm work, etc. Send \$2 (for handling and airmail) to Dept. O, American Student Information Service, 22 Ave. de la Liberte, Grand Duchy of Luxembourg for a 36-page booklet giving all jobs, details and travel grant application forms.

Stead Needed For Treatment Of Mentally Retarded

By Lee Harlan

Conditions exist in the state of Nevada that make it mandatory that proper educational facilities for training specialists in the area of the mentally retarded be made available at the University of Nevada.

This statement is made in the "Nevada Plan for a Nevada Problem" issued by the State Health and Welfare Department.

In the state there are now 12,000 mentally retarded children and young adults. The problem of offering adequate service to the retarded is an important one in the state, the welfare department plan says.

To meet this responsibility, the University in its application to the U.S. Department of Health, Education and Welfare for use of Stead Air Force Base as an educational facility, includes a section outlining a proposed laboratory center for preparation of teaching of mentally retarded children.

Under the direction of Dr. E. J. Cain, dean of the College of Education, the University is now developing a program of teacher training that will prepare teaching and aid specialists in this field.

The program is still in its infancy, and now offers only a limited curriculum. To provide for a more complete program, and to accommodate a larger number of students and extensive research, the education school needs more space, said Dr. Cain.

Center Projection

Dean Cain's projection of the center includes . . . the generation of 20 to 24 specialists in this field each year, as well as 150 to 200 students in the College of Education taking one or more courses in this area, and the capacity to give instruction to 300 teachers now working in some way with retarded children.

Begun this year under the auspices of a \$15,000 program development grant from the U.S. Office of Education, the department is now training ten students in specialized areas of teaching retarded children.

Eight of these are full-time teachers, studying on a half-time schedule, to improve their knowledge of work with the mentally handicapped. One under-graduate student and one teacher are enrolled in the course on a full-time basis.

Responsible for developing the course is Dr. Walter Higbee, a specialist in the field of retarded children, who has been added to the education staff primarily for this project.

Dr. Higbee, commenting on objectives of the new program, outlined three areas of immediate importance:

"Recruiting is a vital factor to our immediate development plans. We are primarily interested in arousing the interest of as many undergraduate students as possible: those on the freshman and sophomore level who could devote their attention to specialization in this field. And too, we want to introduce as many teachers as possible to the program.

"Beginning our research as soon as possible is important to the program. We want to initiate studies into the learning and personality characteristics. We will also investigate the problems created by social attitudes, and ways of correcting some of the erroneous attitudes that exist.

"Extending the University offerings to the outer most parts of the state is also a part of our work. We believe it is one of our functions to reach those area that have not been reached before."

Dr. Higbee is now teaching one class in Elko.

Seven Offers

The College of Education is offering seven senior undergraduate grants of \$1,600 each, for the 1966-67 school year, to qualified students who are interested in specialization. The funds, made available under a \$25,000 grant from the U. S. Office of Education are . . . to be awarded for the preparation of professional personnel in the field of education of the mentally retarded."

Students participating in the program next year may be the first to use the Stead center, which could be ready on a limited basis by September.

"The center at Stead would focus on the teacher education function, said Dr. Cain. "It would feature a pre-school program for mentally retarded children, but it would not be a caretaker type of activity."

Dr. Cain explained that ". . . by providing space for the pre-school, university students will be able to observe and participate in actual learning situations. Diagnosing and treatment will gain special emphasis.

"Student teaching facilities, and research facilities for both students and staff, will be available.

"The curriculum will expand and be developed to include all areas of learning difficulties."

Considerable research is planned to find better methods of building educational programs for the mentally retarded child, and research into other areas of development would be included, Dean Cain said.

The children in the pre-school program would range in age from two-and-one-half to six years. There would be from 20 to 30 children included in the program at the beginning, and the number would increase to 120 by the end of three years.

Children accepted for the center will be chosen by application to find the ones that would be best helped by the program, and who would provide the best laboratory situation for the teacher trainees, said Dr. Cain.

There would be diagnostic facilities associated with the center to provide continuing study of the individual cases. This information would be compiled and studied along with that already established by previous diagnostic examinations of the child.

The children would be organized into units of from five to fifteen, classified by their handicaps, to provide teacher training and research programs in the teaching methods used with mentally retarded children.

Four Phases

The training will include four phases of development: a child guidance center, speech and hearing clinic, rehabilitation, and a pre-school section.

Funds to support the pre-school program would be available from three different sources, according to Dr. Cain. The first, he said, would be a possible tuition fee based on the children accepted into the school. Private and special grants would become available as the department was able to add personnel and expand, and government support could be expected.

According to Dr. Cain, available housing at the air base would be adequate for the program. Cottage type housing would be designated for the children and parents coming from out of town. Dormitory space is available for students in their laboratory training. The professional supervisor for the program could also be housed there, he said.
