'Downers Want Off Social Probation; Plan To Re-petition Judicial Council

By Hampton Young
Assistant Editor

The Sundowners are going to petition the Student Judicial Council to take the good fellowship organization completely off social probation for the remainder of the semester.

The Judicial Council Wednesday

JUDICIAL COUNCIL DECISION

The Student Judicial Council has deliberated at great length on the petition submitted by the A.S.U.N. organization known as the Sundowners and it is the decision of this Council that the Sundowners' request to be removed from probation in order to hold a dance for the Ingersoll Memorial Foundation be denied.

The Council was unanimous in its opinion that it cannot sacrifice principle regardless of the cause. As it would be a compromise of principle and not consistent with previous action of the Council, it cannot, in good conscience, approve this request.

The Council is, however, not without sympathy for the efforts of the Sundowners to sponsor a constructive function but the Sundowners must realize that they have been placed on probation for a specific length of time and that sentence must still stand.

Keith Stephens

day had refused to take the club off probation for one night to hold a dance the club had planned for this weekend.

Testimonial Luncheon Planned To Honor Conference Champs

The University of Nevada's Far Western Conference champion basketball squad will be saluted Monday, March 14 in a testimonial luncheon at the Elks Club. The program is sponsored by the

Test Planned For Draft Deferment

Draft deferment tests will be given on the Reno Campus this spring. These will be similar to those given during the Korean war and will be used by the student's draft board with his class standing or alone to determine eligibility for student deferments.

Science Research Associates of Chicago have been awarded the contract to give the tests. They will be three hours long and cover four fields.

The tests are said to be designed so no special major will be given an advantage in the scoring. Verbal relations, reading comprehension, arithmetic reasoning, and data interpretation are the four divisions of the exams.

University officials urge all draft eligible students to register and take the exams. The time and place for registration will be announced early in April.

The dance would have been held to raise funds for the Mike Ingersoll Memorial Lectures Foundation. "A worthy cause," according to Chief Justice Keith Stephens, "but letting the club off probation would have put us in the position of compromising our principles."

The Sundowners had been put on probation by the Justice Council for the specific punishment of a specific act, according to Stephens. Stephens said the Council simply could not back down. "The club must pay the price for probation," he said.

However, the Sundowners, at a meeting Wednesday night, decided to petition the Council to drop the probationary punishment completely.

"It has been done before," said Sundowner President Mike Casper. The Interfraternity Council has, in the past, taken fraternities entirely off social probation for good conduct, Casper said.

The Sundowner decision was a tough one, according to Stephens. He is chairman of the Steering Committee on the Ingersoll Foundation, and would like to see as much money as possible brought in.

The Sundowners say their dances have made as much as \$1000 in the past.

However, letting the 'Downers off probation for one night would have been cheating the students, Stephens said.

Reno Press Club in cooperation with the University of Nevada Alumni Association and the Wolf Pack Boosters' Club.

Tickets are \$2.75, and will be on sale to the public at the door.

Pete Newell, athletic director of the University of California at Berkeley, will be guest speaker at the luncheon. Newell, an advocate of the short player in college basketball, led California to the NCAA national championship in 1959.

Nevada ended its best season since 1952 by splitting two games in the NCAA District Eight playoffs at Fresno, California, March 4-5.

California Collegiate Athletic Conference titlist Fresno State, humbled the Wolf Pack in first round action, 127-78. The Silver and Blue rebounded in consolation play to dump the University of San Diego, 74-71. Fresno State edged Seattle Pacific, 62-56, in the championship round to advance into the national tournament at Evansville, Indiana, March 12-13.

Nevada finished the season with an overall 21-6 record, including a 12-0 slate in conference games and a 16-game winning streak.

Primaries March 16

Dave Russell, Bob Basta File For ASUN President's Post

Election time with all its fanfare—speeches and posters—has arrived again at the University of Nevada.

Campaigning for the university's highest student office, A.S.U.N. President, will be Bob Basta and Dave Russell.

Basta, 20, is a pre-medical student. He is a member of Alpha Tau Omega fraternity. This year Basta has been serving as the junior men's senator-at-large. He is on the Finance Control Board and the Publications Board and is a member of Blue Key.

Russell, a member of Sigma Alpha Epsilon, is majoring in management. The 21-year-old Russell served as chairman of this year's Homecoming, is a member

of Blue Key and also served on Winter Carnival and Mackay Day Committee.

Neither candidate has announced his campaign plans.

At the filing deadline Monday afternoon Daryl Drake was unopposed for the office of 1st Vice President. The A.S.U.N. 2nd vice-presidency will be decided between Anne Marie Lesperance and Sheila Dwyer.

Coeds of the University will elect either Marvis Cooper or Ginny Gilbert as A.W.S. President. Anne Marie Havrilla is unopposed for the A.W.S. Vice-Presidency.

The election assembly will be held Monday evening at the Gymnasium at 7 p.m. The primary

election will be next Wednesday and the voters will make their final choices the following Wednesday.

In the race for Men's Senator-at-Large are: Riley Beckett, Dave Diedrichsen, Jim Emerson and Ernie Maupin.

Pat Tullis and Jan Strosnider are vying for the Women's Senator-at-Large post.

Danny Anderson is opposing Ron Bath for Senior Class President.

Jeff Reeves is unopposed for the Junior Class Presidency.

Candidates for the sophomores' top post will be Al Levesque, Mike Newmarker, Jim Reynolds and Doug Damon.

Running for positions on the Student Union Board are Keith Lockhard, Susan Marie Hansen, Diane Nelson, Annette Knous, Joe Armel, Steve Howe, Mike Koizumi, Bob Corkern and John Horgan.

Vying for the seven Arts and Sciences senator seats are: Gary Silverman, Karen Hungerford, Marie Samon, Ardyth Felesina, Jackie Ziegler, Rich Oliver, Jim Crane, Dave Firestone, Sara Anderson, Bill Maupin, Marshall Lewis, Gary Cornwall, Randy Plymell, Ed Horgan, Lew Carnahan and Kent Robinson.

As of the Monday deadline the only candidate in the race for the three business college senate seats was Mac Potter.

The College of Education has three senate posts to fill also. Running for them are Robert Trimble, Mardelle Rowe, Art Racker, Pam Lee, Nancy Bacon and Claire Wagner.

Dick Harris is unopposed for the Mackay School of Mines single senate position as is Cathy Cobeaga for the Nursing senate post.

Betty Murphy and Ron Shane are campaigning for Agriculture's only senate seat.

Tom Lambert and Tom Stephens are running for Engineer's two senatorships.

What To Expect Tomorrow Night

UNIVERSITY OF NEVADA'S Riley Beckett displays prize form. —(Sagebrush photo)

Frosh Aid Drive By Raffle Contest

A Mike Ingersoll Memorial Lecture Foundation fund drive has been initiated by the freshman class.

The class is selling raffle tickets in hopes of raising between \$500 to a thousand dollars for the Ingersoll Foundation, according to Tom Meyers, frosh class president.

Tickets are being sold by Kay Barrett, Dolores Barcellos, Jean Urrutia, Chris Hansen, Reed Mosley, Ed Rugg and Joe Bell.

The Sagens, a men's underclass service organization is also selling tickets.

Baseball Rained Out At Chico

Rain was the order of the day in Chico, California, where the Nevada baseball team was rained out after three and one half innings of play Wednesday.

Chico was leading the ball game 4-1 when the game was called. The Pack was threatening at the time with the bases loaded and one out.

The game had been played in a light drizzle from almost the first pitch before the rain got too hard. After a fifteen minute wait it was decided to call the game. An attempt will be made to make up the games later in the season.

The next game for the baseball

team is Saturday in Stockton against the Tigers of U.O.P. The Pack will be home next week-end to play San Jose State on Friday March 18.

Sigma Xi Meeting

The next Sigma Xi Luncheon-Lecture will feature Dr. Hyrum Plaas, director of the Bureau of Governmental Research at the University, as speaker next Thursday, March 17 in the Card Lounge of the Student Union.

Dr. Plaas will discuss "Research in Government and Politics in Nevada" at the noon lecture.

Everyone is invited.

Fresno Perfect Display Killed Pack

The 1966 University of Nevada Wolf Pack Basketball team has recently returned from NCAA regional play in Fresno.

The score of the Fresno State - Nevada game might indicate the Nevada five was an inferior team, representing an inferior league.

However, the quintet played against a team that displayed its best effort of the season, and shot at an amazing accurate rate of 62 percent.

Nevada fans that traveled to California gym in Fresno weren't treated to a normal game. "What goes up must come down" but in Fresno, what went up came through the hoop.

Lonnie Huey was amazing. The Fresno team was a good one. But the Nevada five was much better than the score indicated. This might be illustrated by the Wolf Pack's victory the following night over a San Diego team that had earlier beaten Fresno State and had lost but by three points in a rematch at Fresno.

Fresno fans love their team, and many Nevadans were a little upset with the razzing we took. However, this might serve as an example of Nevada behavior when a team plays in Reno.

Hometown fans everywhere are terrible, crude, and ill-mannered. And we are no exception.

It's hard to please the opposition, and further, it isn't necessary. Sport fans are a unique breed. They're hard-headed but most of all they are loyal; much like we have been to our fine 1966 Nevada basketball team.

LITTLE MAN ON CAMPUS

Symposium Scheduled For Next Monday

Students will be given a chance to air their opinions concerning the University next Monday, at the Symposium.

Running continuously from 9 a.m. to 5 p.m., the Symposium will have student and faculty boards to provide factual information on various topics. Each topic will then be open to discussion.

All suggestions and complaints will be compiled in a record, which will be given to Chancellor N. Edd Miller.

Student-faculty Relations will be one topic included in the Symposium. Others are: Student-Administrative Problems, Responsibility for Intellectual Reputation of the University of Nevada, Student Functions, Facility Problems, Fact vs. Concept in Education, and the University of Nevada in the State.

Discussion groups will be held in the Card Lounge of the Travis Lounge, and the Jot Travis Union Building.

Circle K Initiates Paperback Drive

Ever wonder what it's like sitting in a Vietnamese rice paddy with nothing to read?

"Operation Leatherneck," a project to supply American servicemen in Viet Nam with paperback novels, has been initiated on campus by the Circle K Club.

The club says there is a scarcity of reading material in the Southeast Asian country.

The organization, a campus service club, has placed boxes around the University to collect paperbacks.

Students wishing to donate to the servicemen will find collection boxes in the library, the Student Union building, Ross Business Hall, the Scrugham Engineering building and the Frandson Humanities building.

The deadline for the project is March 19.

Spring Fever Hits University Library

Spring fever seems to be descending on the University of Nevada library as the noise is greater this time of year, says Mr. David Heron, librarian.

"Noise in the library is worse in the spring, statistically speaking. Evenings, when the library is fullest, have been especially bad," says Mr. Heron.

The bottom floor is the noisiest area Mr. Heron notes. He attributes the noise to the large seating area on the bottom floor.

This year the student body does seem to be more intent on study than in years past, Mr. Heron added. But he is requesting that a little more self-control be made by the students.

Library staff does have the authority to control noisy users, but student control is preferred, he said.

Delta Delta Delta 'Shipwreck' Tonight

Members of Delta Delta Delta and their dates will dance in nautical surroundings on the evening of Friday, March 11. The "shipwreck" dance will be held at the Villa Roma restaurant from 8 p.m. to midnight.

"The Strangers" will play for dancing.

University Regents Meet Tomorrow

The board of regents of the University of Nevada will meet on the Reno campus Saturday, March 12, at 9 a.m. in the Jot Travis Student Union building. Dr. Fred Anderson, regents chairman, will preside over the meeting.

Items on the agenda include: reports from the plant and property committee; the administrative and personnel committee; the educational policies committee; the honorary degrees committee; personnel appointments

and/or recommendations; acceptance of gifts; approval of check registers; and Class A action concerning tenure for administrators.

Regents scheduled to attend the session are: Dr. Anderson, Reno; Grant Davis, Fallon; Archie C. Grant, Las Vegas; Harold Jacobsen, Carson City; Dr. Louis Lombardi, Reno; Molly Magee, Austin; Richard Ronzone, Las Vegas; Dr. Juanita White, Boulder City; and Procter Hug Jr., Reno.

ROTC Officers Plan Trip

The juniors and seniors enrolled in the Advanced Corps of the R.O.T.C. will journey to Fort Ord, California, on the weekend of March 18-20. The cadets will leave at 8 a.m. Friday morning, and return on Sunday about 5 p.m.

Learning the principles of the M-14 rifle, and then the firing of the rifle are the purposes of the trip. The cadets will also visit the Officers Club, and the swimming pool.

The 50 cadets, and the eight officers making the trip will then be shown some of the new weapons which are currently being used in the Viet Nam war. They will also be shown the functionings of some of the newer weapons which have not yet been distributed for use. Some of the weapons are the M-79 grenade launcher, and the 90mm recoilless rifle.

Three types of target fire are to be conducted. They are the 25 meter stationary target, the field target, ranging in distance from 75 meters to 350 meters, and the record target. The qualifying scores will be taken from the record target. These targets, in the silhouette of a man, will pop up in various positions, and will count as a hit if knocked over.

The two types of fire to be used are field firing and train fire. In

field firing, the cadets take their positions in foxholes while firing. Train fire is conducted by the cadets firing at targets which pop up as they walk across a simulated battlefield, according to Major John Halvorson.

CAA Sponsors

'At Random' Show

Norman and Sandra Dietz "At Random" will be presented Friday, March 25 in the Travis Lounge of the Student Union building.

Sponsored by the Campus Christian Association, the Dietz's will present plays and pieces. The two entertainers are "concerned with life and the joyful celebration of the mystery thereof," according to Todd Faulstich, chairman of the C.C.A.

Tickets are available at the Campus Christian Center, 1029 N. Virginia. Adults will be charged 75 cents, students, 50 cents.

Faulstich said the C.C.A. is presenting the Dietz's as part of a program to serve the campus. There will be a reception following the performance at the C.C.A. House.

Pam Frantz is chairman of the presentation.

Women's Dorms Select Jr. Prom Queen Hopefuls

Plans for the Junior Prom queen contest are being made by women's dorms.

Juniper Hall women nominated Harriet Hyatt as their candidate for Junior Prom Queen.

Harriet is a New Yorker who says her favorite things are Nevada, sunrise, friendship, and fun. Besides her regular hobbies of horseback riding, painting, and studying international affairs, Harriet pursues some unusual activities.

She was in an Elvis Presley movie, "Hawaiian Paradise," last summer. Although Harriet emphasizes she was an extra in the movie, she is thinking about returning to Hollywood this summer to "make some money."

The blonde, blue-eyed social psychology major would like to live with an Indian tribe, or do foreign aid field work.

Debbie Graham is Artemisia Hall's candidate. The 19-year-old art major says drawing is one of her hobbies. She added that swimming, driving, knitting, skiing, and walking occupy much of her time.

Although art is her first love, Debbie also likes music—especially Spanish guitar.

She would like to become a scientific illustrator. This takes special training, and Debbie wants to take a special course in San Diego sometime in the future.

Immediate plans include working this summer, although she ay go to summer school.

A California girl, Debbie has long brown hair, and blue eyes.

Manzanita Hall's Junior Prom Queen candidate is Jeanine Earl.

Jeanine is a foreign language major, and has a speaking knowledge of German, French, and Russian. She hopes to put this to use by going into foreign diplomatic service.

Jeanine would rather not mention her dislikes, but says she enjoys painting, music (piano), and snow and water skiing.

The 20-year old junior is from McGill, Nevada, and has long brown hair and blue eyes.

She says she is considering going to summer school at the University this summer.

Psychology Prof Oxford Bound

Dr. Willard F. Day, associate professor of psychology, will leave on sabbatical for Oxford University in England on June First for a fifteen month stay.

While at Oxford Dr. Day plans to write a book entitled "Radical Behaviorism," which will explain the implications of work done by B. F. Skinner of Harvard.

Skinner is the dominant figure in behavioristic psychology today, and his views are among the most influential in contemporary psychology.

Dr. Day's choice of Oxford for his study is so that he can be "brought up to date on contemporary philosophical problems."

Special Linguistic Program To Be Given

A special English Institute, designed to give teachers background in linguistics, rhetoric, and composition, will be held at the University of Nevada again this summer.

Over 50 high school and grammar school teachers from all over the United States will take part in the three-part session, which will run from June 20 to August 5.

The program of the summer institute will consist of courses, workshops, special lectures and films. Participants will be able to gain six hours of graduate credit, but these credits can not be applied towards an advanced degree in English at the University of Nevada.

Dr. Charlton Laird, professor of English at Nevada, will head the linguistics phase of the summer program. Dr. Laird has written several books on the subject of language and language usage. He is the author of "The Miracle of Language." Dr. Laird was an instructor in last year's institute

and has participated in a number of national and local programs dealing with language study.

The literature phase of the program will be headed by Walter Van Tilburg Clark, writer in residence at the University of Nevada. Mr. Clark is the author of several novels on the American West: "The Ox-Bow Incident," "The Track of the Cat," "City of Trembling Leaves," and "Watchful Gods," a collection of short stories. He will teach the principles of literary analysis. Mr. Clark taught in last summer's institute and will repeat his course this summer.

Dr. Ronald Freeman, from the University of Southern California, will conduct the composition phase of the institute again this summer. He will teach the course in the principles of expository writing. Dr. Freeman is director of English composition at USC and has written books on both nineteenth century literature and composition.

The six week program is being offered in cooperation with the university's English department, National Defense Education Act, and the U.S. Office of Education.

The courses will be conducted in classrooms and workshops held Monday through Friday.

Director of the institute is Dr. David W. Hettich, assistant professor of English. Other members of the English department teaching staff will take part in the program.

The following deadlines must be observed: Completed applications to the institute are to be postmarked no later than March 21; accepted applicants and alternates will be notified between April 7 and 14; and letters of acceptance from the notified participants and alternates are to be postmarked no later than April 23.

Address all inquiries and correspondence to Dr. Hettich, NDEA Institute in English, University of Nevada, Reno, Nevada.

On Campus with Max Shulman

(By the author of "Rally Round the Flag, Boys!", "Dobie Gillis," etc.)

WAKE ME WHEN IT'S OVER

The trouble with early morning classes is that you're too sleepy. At late morning classes you're too hungry. At early afternoon classes you're too logy. At late afternoon classes you're too hungry again. The fact is—and we might as well face it—there is no good time of day to take a class.

What shall we do then? Abandon our colleges to the ivy? I say no! I say America did not become the hope of mankind and the world's largest producer of butterfats and tallow by running away from a fight!

If you're always too hungry or too sleepy for class, then let's hold classes when you're not too hungry or sleepy: namely, while you're eating or sleeping.

Classes while eating are a simple matter. Just have a lecturer lecture while the eaters eat. But watch out for noisy foods. I mean who can hear a lecturer lecture when everybody is crunching celery or matzo or like that? Serve quiet stuff—like anchovy paste on a doughnut, or steaming bowls of lamb fat.

Now let us turn to the problem of learning while sleeping. First, can it be done?

Yes, it can. Psychologists have proved that the brain is definitely able to assimilate information during sleep. Take, for instance, a recent experiment conducted by a leading Eastern university (Stanford). A small tape recorder was placed under the pillow of the subject, a freshman named Wrobert Wright. When Wrobert was fast asleep, the recorder was turned on. Softly, all through the night, it repeated three statements in Wrobert's slumbering ear:

1. Herbert Spencer lived to the age of 109 and is called "The Founder of English Eclectic Philosophy."
2. The banana plant is not a tree but a large perennial herb.
3. The Archduke Ferdinand was assassinated in 1914 at Sarajevo by a young nationalist named Mjilas Cvetnic, who has been called "The Trigger of World War I."

When Wrobert awoke in the morning, the psychologists said to him, "Herbert Spencer lived to the age of 109. What is he called?"

Wrobert promptly answered, "Perennial Herb." Next they asked him, "What has Mjilas Cvetnic been called?"

Wrobert replied, "Perennial Serb." Finally they said, "Is the banana plant a tree?" "To be honest," said Wrobert, "I don't know too much about bananas. But if you gents want any information about razor blades, I'm your man."

"Well," said the psychologists, "can you tell us a blade that shaves closely and cleanly without nicking, pricking, scratching, scraping, scoring, gouging, grinding, flaying or flensing?"

"Yes, I can," said Wrobert. "Personna® Stainless Steel Blades. Not only does Personna give you a true luxury shave, but it gives you heaps and gobs and bushels and barrels of true luxury shaves—each one nearly as truly luxurious as the first."

"Land's sake!" said the psychologists. "Moreover," said Wrobert, "Personna is available not only in the Double Edge style blade, but also in the Injector style blade."

"Great balls of fire!" said the psychologists. "So why don't you rush to your dealer and get some Personnas at once?" said Wrobert.

"We will," said the psychologists, twinkling, "but there is something we have to do first."

Whereupon they awarded Wrobert an honorary L.L.B. (Lover of Luxury Blades) degree, and then, linking arms, they sang and danced and bobbed for apples till the campfire had turned to embers.

* * * © 1966, Max Shulman

If you're looking for an honorary degree yourself, we recommend B.S. (Burma Shave®)—from the makers of Personna. It soaks rings around any other lather; it comes in regular or menthol.

Boxing Coach Jimmy Olivas

BOXING COACH JIMMY OLIVAS, last year's selection as 'Coach of the Year,' is again leading the Wolf Pack through a fine season. He formerly attended the University of Nevada and has coached here since 1951. Try to attend the final boxing matches tomorrow night in the Reno gymnasium. Support your Wolf Pack. (See story on uage 5.)

Band Festival Hosts 5 States

Outstanding stage bands in five Western states will gather on the University of Nevada campus on March 18-19 for the largest stage band event on the West Coast.

Fifty junior high, senior high and college bands will participate in this year's festival, according to Dr. John Carrico founder of the festival. The festival has grown so rapidly that it is now the second largest in the nation. The Brownwood, Texas, Festival, now in its 15th season is the only similar festival larger than the Nevada event.

According to Dr. Carrico, three

factors have been instrumental in the phenomenal growth of the festival: the outstanding artists who have appeared at the festival, Reno-Tahoe as a mecca for top professional musicians and the cooperation of local musicians, and the outstanding stage band program in the music department at the University.

Heading the guest artist roster this year is Jack Sheldon, Hollywood trumpeter-actor-singer. Sheldon has been widely known as a top jazz trumpet artist. In recent years he has devoted his talents to singing and acting

roles. CBS-TV has just announced that Sheldon will be the star of the new fall series "Run, Buddy, Run" which will be a satire on the chase shows, such as "The Fugitive."

Appearing with Sheldon will be Raoul Romero, ex-Woody Herman saxophonist-arranger now of Las Vegas. Romero has written an original composition which is dedicated to the festival, featuring Jack Sheldon in the solo trumpet part. Romero will give an educational approach to his activities during the course of the festival for the more than 1,200 students expected.

Guest artists have included Buddy DeFranco, Carl Fontana, "Doc" Severinsen, and Louis Bellson.

Mainstay for the festival will be the widely acclaimed University of Nevada Stage Band under the direction of Gene Isaef, prominent local musician who is a lecturer in brass at the university. The 22 member Nevada band made a 2,000 mile tour of the Northwest in January. The University musicians will accompany Jack Sheldon in his solo appearance with the original composition by Raoul Romero and special arrangements by the Las Vegas arranger.

High School musicians will compete for honors at the 1966 festival, being judged by a panel made up by Al Bell, Orville Fleming, and Dr. Roscoe Booth.

Two trophies are being provided by the University of Nevada Alumni Association through the courtesy of the Executive Committee, which is headed by William C. Thornton, alumni president. Selmer, Inc., will give the "Benny Goodman" stage band award.

Dean Barnes Elected Treasurer

Miss Roberta J. Barnes, assistant dean of women, was recently elected treasurer of the Northern Section of the California Deans Association. Miss Barnes and Dean Elaine Mobley attended the Northern Region Conference of the California Deans Association in Palo Alto last weekend.

During the conference, titled "Changing Values" Dean Mobley was cited, with five other deans, for twenty-five years of "deaning" and presented with an orchid corsage.

Miss Barnes, as treasurer, will serve on the executive board for two years. She taught physical education and was Dean of Girls at Willets Union High School in California before coming to the university seven years ago. She was a Women's Counselor for two years then becoming Assistant Dean of Women. Her duties include being advisor to AWS Judicial Board, SPURS, and watching over the womens residence halls.

Dean Mobley is celebrating her twentieth year at the university.

Prior to accepting a position at the university she taught physical education and was Dean of Women at Placer High School and Placer Junior College in Auburn, California. She came to the university to teach Health Education, and Guidance Counseling, while acting as Dean of Women.

Dean Mobley is advisor to the Panhellenic Council, the sororities, AWS, and various womens organizations. She is a member of Phi Kappa Phi, the Student Affairs Board, and the Defense Advisory Committee on Women in the Service. Both women agree that their main duty is to help women at the university with any problems they may encounter. These problems include personal, academic, or any other type that may arise.

One of the deans can be found any evening, including the weekends, around dinner time out by Manzanita lake feeding the ducks. Miss Barnes explains that special arrangements have been made so that even if both of them are gone the ducks always get fed.

Education Majors Continually Screened

From the moment an Education major steps on campus, until the day he leaves, he is involved in a program to eliminate all students not qualified to be teachers, said Edmund J. Cain Dean of Education.

In order to even be on campus in the first place, he has to meet University requirements. Then, at the end of his sophomore year, he has to have a 2.2 grade point average to continue taking professional courses on campus, although he can still take general education courses such as Nevada school law.

During the last semester of his junior year, he is screened again, said Dean Cain. His grade average is checked to make sure he has a 2.3 in his major field, and a 2.0 in his minor field. He must re-

ceive recommendations from his advisor and the department chairman.

In his senior year, he goes into the public schools to teach and this in itself is a screening process, for he is closely checked by the principal of the public school and the University supervisor.

Recommendations from the

staff on the campus, which may come in any time during the four years that the student is here, is also a factor in guiding prospective teachers, and also in deciding which students are to be dropped from the program.

This program, said Dean Cain, is to make the "teacher of tomorrow a better than average University student."

Paintings Displayed In Card Lounge

Famous oils and water colors from the 18th, 19th, and 20th centuries are being shown in the Student Union card lounge by the Fine Arts Gallery in San Francisco.

Widely-known artists from England, France, Italy, and America have works among the collection being shown. R. W. Amick, Oscar Berninghaus, E. W. Potthast, L. P. Latimer and Sully are included in the list of artists.

"Portrait of Fanny Kemble" is

one of the examples of outstanding work, said Lowe, sales representative of the Fine Arts Gallery. The portrait is valued at 7500, and is representative of many of the portraits Sully painted. Other portraits were those of Thomas Jefferson, George Washington, Edgar Allen Poe, and La Fayette.

The paintings range in price from \$175 to \$8,500 and will remain on display until Sunday afternoon.

New Patology Center Constructed As Part Of DRI

A new center of advanced medical research has been constructed in Reno as a division of the Desert Research Institute.

The division of Environmental Pathology - Physiology is especially concerned with heart and lung

disease, and with the problems of adaptation to atmosphere, altitude and desert conditions.

Begun in the spring of 1965, the new division is housed in the remodeled quonset huts on the grounds of Washoe Medical Center on Mill Street.

The Laboratory of Pathology-Physiology has three aims: research, postgraduate medical education, and improved diagnostic facilities.

Some of the equipment in use by this department is designed to give investigators a more detailed look into the human body. Teams studying the heart can view the injection of dyes directly into a coronary artery on a specially made television set. The entire team can view the complete examination simultaneously, an impossibility until recently. An image intensifier takes the image and by means of an intricate optical system, brightens it many thousand times. This image is then projected onto the television monitor.

The image can be simultaneously recorded on a sensitive movie film which then provides a permanent record of the examination for future study.

In conjunction with this equipment, the team uses a rapid film changer. This device holds up to 30 x-ray films, 14" x 14" in size, and automatically positions films for exposures, as rapidly as six per second. This unit is one of the first of its kind in the United States.

This research is made possible by the Max C. Fleischmann Foundation, the Desert Research Institute, Washoe Medical Center, and the Nevada Heart Association.

Mines-School Sets March 15 Deadline For Applications

A March 15 deadline has been set for scholarship applications for the 1966-67 school year in the Mackay School of Mines.

Scholarships available are the Viola Vestal-Coulter Foundation scholarship, available to junior and senior students, the Royal D. Hartung scholarship, the Kennecott Mining Engineering scholarship, the Warren V. Richardson scholarship, and the J. R. Simplot scholarship.

Applications must be in before March 15th. Further information may be obtained by writing Professor Anthony L. Payne, Chairman, Scholarship Committee, Mackay School of Mines, University of Nevada. Completed applications may also be sent to Professor Payne.

'The Robe' Show This Sunday Night

The Robe, one of a number of movies sponsored by the Jot Travis Union Board, will be shown this Sunday in the Thompson Education Auditorium.

Starring Richard Burton, Jean Simmons and Victor Mature, the movie concerns the life of the Roman soldier, Marcellus, who was in charge of the crucifixion of Christ. When Christ's clothes were divided among the soldiers, Marcellus received His robe.

The Robe is based upon the novel "The Robe," a best seller written by Lloyd Douglas.

All "Sunday Movies" will be shown at 6:30 and 9:00 p.m. Admission is free.

Final Home Boxing Matches Sees Wolf Pack Against Chico Wildcats

The final home boxing matches of the season before the conference tournament are tomorrow night against the Chico State Wildcats.

There will be ten or twelve bouts included in the dual meet. Two weeks ago the Nevada fighters defeated Chico in the Wildcat's own ring. Coach Jimmie Olivas is expecting them to come to Reno with a well-balanced squad.

One of the big fights of the night will be the heavyweight clash between Nevada's Ben Blinn and Chico's Wayne Cook. Blinn has been labeled by Olivas as one of the most exciting Nevada heavyweights in many years.

Cook was the Far Western Conference heavyweight wrestling champ and the 240-pounder is aiming for the boxing championship. He battled the Wolf Pack's Dale Landon to a draw earlier this season in Landon's only fight of the year.

Two undefeated fights will brawl in the middleweight class. Tyrone Farley of Chico will meet Mike Schellin of Nevada in what should be a real battle.

The Wolf Pack squad should be at full strength this week after Blinn, David Halstead, David Widmar, and others suffered through the flu last week.

Olivas praised Riley Beckett for putting on his best showing of the season last week in beating Dave

Archibold, the University of California ace.

Following tomorrow night's fights the boxers will be looking forward to the 1966 championship tournament of the California Collegiate Boxing Conference. They will be held in Reno and will include Nevada, California, Stanford, and Chico.

Future Curriculum Discussed At Meet

"University curricula in the next 25 years" was discussed at a meeting of the American Association of Physics Teachers last week.

Drs. George Barnes, Thomas Frazier and David Marsh of the University of Nevada physics department attended the symposium at the University of the Pacific.

Dr. Barnes says the need for varied curricula was discussed. One example he quoted involved psychology majors.

Psychology majors need a certain amount of physics and chemistry in their field but the amount and kind is different than that needed for a physics major, he said.

Dr. Barnes says the problem is how to give a student enough of the right kind of physics and still enough psychology to be a major in that field.

Dr. Barnes was instrumental in founding the Northern California chapter of the AAPT some years ago.

Snakes Lead Table Tennis

Table tennis results up to and including Friday, March 4 find Sigma Nu No. 1 leading League A, ATO No. 3 leading League B, and a three-way tie for first place between ATO No. 1, Lambda Chi, and SAE No. 3 in League C.

LEAGUE A	Won	Lost
Sigma Nu No. 1	4	0
White Pine Hall No. 1	3	0
ATO No. 2	2	1
SAE No. 2	1	2
Lincoln Hall	0	2

YWCA SUPPER

Elizabeth Jackson, national student Y.W.C.A. representative, will speak at a supper given by the Y.W.C.A. Advisory Board on Sunday, March 13, at 5:30 in the Faculty Dining Room, Jot Travis Union.

Miss Jackson led a U.S.S.R.-U.S.A. summer exchange program several years ago. She is now on the region's executive staff from San Francisco.

Yvette Hash will also give a talk at the supper. She will speak on her experiences doing welfare work in the slums of New York last summer.

From the End of the Bench

By GREG ZIVE

LARRY MOORE AND NAP MONTGOMERY were chosen for the Far Western Conference first team. Bill Nicholson and Frank Bruno were selected for the second squad and Bob Gilliam was placed in the honorable mention selections. It is quite a credit for the University of Nevada to have all five players chosen for all-conference honors.

COACH JACK SPENCER said that it seemed impossible that the Wolf Pack was defeated by 49 points in last Friday's game against Fresno State. However when a team shoots 63 per cent as Fresno did all the other team can do is run for shelter. Nevada only shot 32 per cent which is far below their season average of 43 per cent. Everything went right for the Bulldogs that night. Reserve Jack Kennedy had been averaging under five points a game but he hit 11 for 12 against the Pack and his jump hook shot is the most unbelievable shot most people have ever seen. It is a slop shot but Friday night he could not miss. Bob Gilliam said Fresno could have kicked the ball through the net they were so hot.

THE FINAL FWC STATISTICS show that Larry Moore led the conference in rebounds with a 13.8 average. The Pack had three players in the top ten scorers in the conference. Moore was third with a 21.3 average, Montgomery held down the seventh slot with a 19.2 average, and with a 18.1 average Bruno was number nine. Bruno was second in the FWC with a .528 field goal percentage and Moore was seventh with a .475 percentage. Bruno was also ranked fourth in the free throw average at .845. Montgomery grabbed 12.7 rebounds a game to finish fourth in the conference and right behind him was Nicholson with an 11.1 average.

As a team the Wolf Pack had the season high for most points in a half with 62 against Humboldt State.

The Silver and Blue was third in both team field goal percentage and free throw percentage. The Pack hit 398 field goals with a .447 percentage and 266 free throws with a .729 percentage. The 266 charties led the conference.

SPRING SPORTS should be as rewarding for Nevada as was basketball. Nevada will be a powerhouse in track and is the defending 1965 Pacific Coast College Division Champions in baseball. Otis Burrell is back and he was the number one collegiate high jumper last year and was the AAU champion. Track coach Dick Dankworth has picked up a shotputter and discus man to fill a weak spot in the field events. Nevada will be led in the running events by Ron Lee, Terry Forbyn, Rich Brown, Don McCarthy, Dick McCoy, and others from last year's top team. The pole vault and hurdles will also be strong points of this year's squad.

Most of last year's championship baseball team is back and coach Bill Ireland has several new pitchers to replace those who graduated. His infield will be manned by Bruce Nickerson, Bob Gillham, Roy Mathison, Lornie Wagner, Mike Sala, and Nub Stauffer. The outfielders are Owen Toy, Steve Small, Earl Nursement, Nik Walters, and George Perry. Behind the plate will be Steve Kosach and Gary Woods. The main pitchers will be Fred Dalimore, Carl Bossieux, Mike Zuppan, Rich Stevenson, and reliever Ron Bath.

Psychology Research Offered

Summer work in Psychology research will be offered by Kansas State University.

The National Science Foundation will provide six stipends of \$480 each for the eight weeks

from June 13 to August 5. Any promising student is eligible although preference will be given to applicants with experience in Experimental Psychology and Statistics.

The purpose of the program is to give undergraduates an opportunity to gain first hand experience in research. Students will be introduced into research programs that are already going on and will be able to stay with them until completion.

The research program will be supplemented by a series of seminars especially designed for the students.

If they desire, students may receive up to three hours of credit for participation.

The new Alpha Tau Omega

president is 21-year-old Marvin Murphy. Murphy is from Reno and is majoring in pre-dentistry. He hopes to go to dental school at either Minnesota or Oregon. Murphy was previously scholarship chairman for ATO and is currently a Student Union Board Director. He participates in intramural sports and enjoys water and snow skiing as hobbies.

Roy Pike is the new Sigma Nu president. He is a 20 year old economics major from Reno. Pike holds a Block "N" that he earned for gymnastics. He has held the office of alumni contact officer in addition to being float and initiation chairman for SN. Sports of all kinds interest him, especially water and snow skiing.

Theta Chi President is Arnold (Arne) Hansmann. He graduated from Reno High School but calls Las Vegas home now. He is an accounting major and 21. He was previously treasurer and secretary of TC. His hobby is motor-cycling.

General Electric is an easy place to work.

All you need is brains, imagination, drive and a fairly rugged constitution.

Oh, yes. Something else that will help you at G.E. is an understanding of the kind of world we live in, and the kind of world we will live in.

There's a lot happening: The population is continuing to explode. The strain on resources is becoming alarming. At a time when men are being lured by the mysteries of

space, we're faced with the task of making life on earth more livable.

There's a lot happening at G.E., too, as our people work in a hundred different areas to help solve the problems of a growing world: Supplying more (and cheaper) electricity with nuclear reactors. Controlling smog in our cities and

pollution in our streams. Providing better street lighting and faster transportation.

This is the most important work in the world today: Helping to shape the world of tomorrow. Do you want to help? Come to General Electric, where the young men are important men.

Progress Is Our Most Important Product

Leading the Pi Phi's for the coming year will be Carolyn Spitzer, a 20-year-old speech therapy major.

Other newly-elected officers are: Jackie Ziegler, vice president; Jacqueline Elliot, corresponding secretary; Dianne De-reemer, recording secretary; Carole Wagner, treasurer; and Leslie Ankers, senator.

Ad Hoc Seminar Slated Thursday

"A Third Way in Asia," "Prospects for Non-Alignment" and "What Are Chinese Goals in Asia?" will be the subjects of two Ad Hoc Committees on Viet Nam seminars scheduled for next Thursday, March 17.

The first discussion will be held in room 101 of the Scrugham Engineering-Mines building at 2 p.m. while the second topic will be covered in the Travis Lounge of the Student Union building at 8 p.m.

Speakers in the seminar will be: Mr. Russell Johnson of the American Friends Service Committee; Dr. Spencer Hall, associate professor of political science; and Miss Valerie Shinaver, instructor in political science.

Mr. Johnson has recently returned from spending four years in Southeast Asia. He was the director of the International Conferences and Seminars Program in Southeast Asia from 1961 to 1965 for the American Friends Service Committee.

The purpose of the Ad Hoc Committee is to provide a central group on campus to stimulate and organize the widest possible discussion of the current situation in Viet Nam.

Dr. Jack D. Forbes, associate professor in the History Department, will moderate the discussion.

Everyone is invited.

Friday Forum

"Lessons in Christianity: the Life and Times of An Ambulance Chaser" is the subject for today's noon "Friday Forum" lecture at the LDS Institute of Religion at 95 West Eleventh St.

Dr. Hyrum Plaas, director of the Bureau of Government Research at the University, will present the noon lecture.

The "Friday Forum" is presented for the religious and intellectual stimulation of the University community.

Everyone is invited. Lunches may be brought to the lecture.

Also chosen were: Kathy Baker as vice president; Candy Haller as social chairman; Sue McGov-

DO YOU HAVE WHAT IT TAKES TO BE A LEADER?*

***If you do, don't settle for less.**

If you will complete your first two years of college this spring and have not had ROTC training, you now have a special opportunity to earn an Army officer's commission in the next two years. You can qualify to fulfill your military obligation as an officer while you study for a college degree in a field of your choice.

Through a new two-year Army ROTC program you will receive leadership training and experience that will be valuable assets for the rest of your life, in either a military or a civilian career. You will receive an allowance of \$40 each month during your Junior and Senior years. If you desire, you

may request postponement of your military service while you complete your studies for a graduate degree.

Most large business and industrial firms prefer the college graduate who has been trained and commissioned as an officer—who has the ability to organize, motivate and lead others—and who has had experience in accepting responsibilities beyond his years.

You owe it to yourself to investigate this important opportunity.

For complete information on the new two-year Army ROTC program see the Professor of Military Science on campus.

Continuing Education Could Double with Facilities

By Lee Harlan

The Continuing Education program at the University of Nevada brought more than 12,000 persons to the Reno campus in 1964-65 to participate in various extension activities.

"The 1966-67 year will show an increase of 25 per cent over that figure," said Dr. Wayne S. Martin, director of the University department. "With the proper facilities, we could more than double that figure."

Continuing Education nationwide served over 25,000,000 individuals who sought to extend their areas of personal knowledge and occupational efficiency.

These figures support Dr. Martin's contention that the continuing education department of the University is its largest single program developer.

Operating in conjunction with all University departments and colleges, Dr. Martin and his staff are responsible for seeing that arrangements are made for all educational activities on the campus, outside of the regular department courses.

PROGRAM PROVIDES

The University continuing education program is designed to provide educational programs and services for the individual on the conclusion of his formal schooling.

This is done through conferences, institutes, workshops and non-credit courses.

To expand the offerings made by the university in this area of adult education, the continuing education department has presented an outline of its space needs to the Stead Air Force Base study committee, which is seeking portions of the base for educational use.

"With the continuing rise in enrollment, and the demand made on available class room, lecture and housing space for the regular academic needs of the various departments, we may have to curtail many of our special programs now planned.

"It is possible that in the future we may be able to handle only about 7,000 to 9,000 persons a year," Dr. Martin stated.

The importance of the continuing education program has been cited by three U. S. Presidents.

President Lyndon B. Johnson stated: "I foresee the day when an urban extension service, operated by universities across the country, will do for urban America what the Agricultural Extension Service has done for rural America."

Former Presidents John F. Kennedy and Herbert Hoover also stressed the importance of continuing education for the individual in order that they might have a more comprehensive understanding of the problems of government and society.

Shortage of class room and lecture facilities is not the only problem faced by the department.

Adequate housing has to be provided to those coming from outside the community, many of whom stay for several days or more, Dr. Martin explained.

HOUSING NOT HERE

At the present time the University is not able to provide on-campus housing for all its undergraduate students.

Special classes and short courses, lectures, discussions and forums, conferences, institutes and workshops are just some of the activities offered by the university in its extension program.

"These programs provide educational opportunities for many different types of people," Dr. Martin said.

"The person who discontinued his education at an early stage may attend courses to carry out personal plans or to continue in some areas where he left off.

"Those in the professions or management attend to keep abreast of all the new developments, and to develop their effectiveness in their respective fields.

"To others it is a matter of personal development and satisfaction, and to some a way to fill in their leisure time," Dr. Martin explained.

Many of these courses are for non-credit instruction, but some in the evening division or summer school cross the "credit and non-credit line," he said.

In breaking down the programs by colleges and the types of programs they offer, Dr. Martin noted that the College of Agriculture was host to about 25 different groups, and Arts and Sciences met with 37.

Some of the conferences and professional meetings these schools held were:

The Annual Conference of Colleges of Agriculture, with 116 persons on the campus; the State 4-H Horse Show, 575; and the State 4-H Club Camp, 179.

The Annual Stake Band Festival, 1,000; The Great Basin Anthropological Conference, 300; and the Western College Men's Physical Education Society, 280.

The department is now presenting two short courses on the campus, "Real Estate Practices," and "Minerals and Rocks."

There will be three work shops in Elko and one in Ely.

Dr. Martin, indicating the small number of these short courses available at present, stated that they are presented on a basis of request and need. At least 12 persons have to be registered to begin a class.

The problem of getting more classes, he said, is the shortage of space and facilities.

"These programs take a great deal of research to get started, but without the space to hold them, we can't even begin the research."

In all cases, he emphasized, the academic departments have priority for their regularly scheduled courses. This often leaves little room for the extension programs.

"Right now we can't schedule anything more than four to six months in advance because we have to coordinate with the department class schedules.

"If the University were to get the facilities at Stead, we know that we could always handle at least 500 persons without any trouble," Dr. Martin concluded.

Shaw's 'Candida' Presented Tonight In University Theater

Candida, a play by George Bernard Shaw will be presented tonight by the University of Nevada in the Church Fine Arts building at 8 p.m.

The play concerns the conflicting emotions of Candida toward her husband and a young man living with them.

Andrea Steffanic plays Candida in the three-act comedy. Maurice Beesley plays her husband, a "christian socialist clergyman of the Church of England." Michael Thompson, Trudy McMahon, Mark Duty, and Doug Copey have supporting roles in the play.

Phone 323-8159 or contact the Box Office in the Church Fine Arts Building on North Virginia street for reservations. The Box Office will be open from 1:00 p.m. to 5 p.m. the weeks of performances, as well as 7:00 p.m. to 9:00 p.m. on production dates.

The admission prices for the performances are \$1.00 for high school students with cards and \$1.50 for adults. University students with A.S.U.N. cards will be admitted free.

Performances will be March 11, 12, 17, 18, and 19. Each performance will start at 8:00 p.m.

Breakfast Hosts AWS Hopefuls

Marvis Cooper and Ginny Gilbert, A.W.S. presidential hopefuls, will speak at the A.W.S. Election Breakfast, 10 a.m. Sunday, March 13.

Vice-presidential candidate Anne Havrilla will also speak at the breakfast, to be held in the Dining Commons.

Scholarship awards will be presented to living groups by Dean of Women Elaine Mobley. The awards are based on greatest academic improvement shown by a living group, highest overall scholarship, and highest pledge class average.

Roses are also being presented for scholarship. Freshmen women who get a 3.0 grade point average or higher will be given a rose.

A.W.S. President Robbin Schoff and Vice-president Sheila Davis will give talks on their terms in office.

Entertainment will be provided by SAE's "Those Guys," a campus living group, said Margie Uhalde, who is in charge of the breakfast.

Tickets to the breakfast can be picked up in the A.W.S. office. They are 35 cents for students living in dorms, and \$1 for off-campus students.

Orvis Color Under Selection

Selection of color schemes and furniture is now being made for the new Orvis School of Nursing building to be completed in July. The building will contain several classrooms with many that may be divided for seminar and group discussion. It will also contain a Dean's suite, lounge, clerical offices, faculty offices, and a room on the ground floor for teaching assistants.

The upper floor contains storage area and lockers plus a large lecture-demonstration room that will seat 125. A reading-study room and multi-purpose room with an observation room attached for students to study or observe teaching techniques is also included. The multi-purpose room is equipped for sound and the use of television. A smaller section can be set up as a simulated hospital unit for teaching.

Professor To Speak

Dr. Milton Rosenberg, Professor of Psychology University of Chicago, will be speaking on "Effects of Evaluation Apprehension on Outcomes of Psychological Experiment."

The meeting will be held Monday at 7:30 p.m. in the Nevada East-West Room of the Jot Travis Student Union.

The Arthur E. Orvis library contains a collection of classical literature donated in his memory. The lounge will be furnished with furniture from the Orvis home in Hawaii. The new building is being financed by a federal subsidy, a grant from Dr. Orvis, and a state appropriation.

The \$600,000 structure is being built by L. E. Dixon, and J. A. Tiberli, Reno construction firms. Edward S. Parsons is the architect.

The Orvis School of Nursing started in 1957 with three graduates in 1961. It now has a full time enrollment of 115, with many registered nurses attending part-time to continue their educations.

PARIS? ... who'd want to spend next summer working there?

YOU CAN! Through the 1966 SUMMER EMPLOYMENT GUIDE—which lists 50,000 summer openings in the U. S. and 37 foreign countries. The GUIDE offers openings of all kinds . . . at resorts, hotels, dude ranches, marinas, camps, beaches, etc. as well as positions in most major industries and the government. These jobs are the cream; they offer top pay, travel, fun, or career training.

The 1966 SUMMER EMPLOYMENT GUIDE, the nation's largest selling, most complete guide to summer employment, is crammed with additional useful information on items such as visa regulations, openings in Federal agencies, tips on preparation of resumes, etc.

The best jobs go fast. Order your copy of the SUMMER EMPLOYMENT GUIDE, and Pick Your Job, NOW!
