Students Affirm 3 Amendments In Wed. Elections

Students overwhelmingly okayed three proposed constitutional amendments in Wednesday's elections.

The first amendment, providing for an orderly succession to the office of ASUN president should the incumbent die or become unable to serve, received only 94 dissenting votes. A total of 992 students affirmed the amendment.

Amendment number two was passed 712 to 336. It provides for removal of the editor or business manager of any campus publication with a 4/5 vote of the Student Judicial Council.

The defendants would be indicted by the Publications Board for incompetence and can appeal a Judicial Council decision to Senate.

The third amendment, requiring an Independent student to file for a seat in colleges with more than one position before he can win it, was affirmed 740 to 336.

Union Board Spots Filled

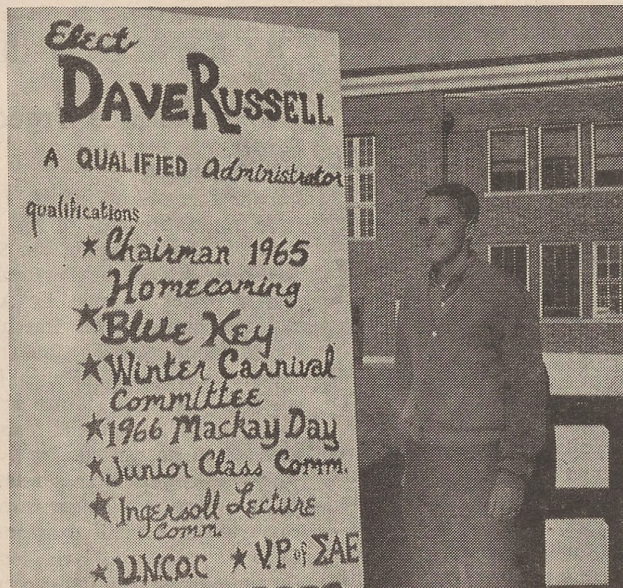

Six students were chosen out of a field of nine in Wednesday's general elections to be placed on the Student Union Board of Directors.

The new directors and the total number of votes cast for them are: Mike Koizumi, 703; John Horgan, 632; Bob Corkern, 583; Diane Nelson, 541; Sue Hansen, 497 and Ann Knous, 455.

The Student Union Board of Directors is composed of 12 students. The board runs the Jot Travis Student Union and provides activities from special events to lectures or movies to students.

The three eliminated from the board race were: Joe Armel with 436 votes; Steve Howe, 401 and Keith Lockard, 391.

The other six members of the board are elected by the board itself.

ASUN PRESIDENT, DAVE RUSSELL

ANNE MARIE LESPERANCE, SECOND VICE-PRESIDENT

Chaffin Boosts Memorial Drive

"The Mike Ingersoll Memorial Lectures Foundation is a fitting tribute to the late A.S.U.N. President," said Bill Chaffin, ASUN president and director of the Mike Ingersoll Fund drive.

About \$1,400 has been received in donations towards the established goal of \$10,000 for the lectures series, said Chuck Murphy, ASUN first vice president.

The Foundation will bring noted scholars to the University of Nevada for a period of a week to visit classes and seminars. In addition, the lecture would present four or five lectures for the benefit of the student body. These will be typed and transcribed into

a book which will be published and dedicated to Mike Ingersoll.

Mike Smithwick, fund drive coordinator, said students, faculty, and administrators are urged to make donations to establish not only a lasting tribute to Mike Ingersoll but also as a program of great value to the academic standards of the University.

Donations will be accepted in the ASUN offices in the student union, and checks are to be made payable to the Mike Ingersoll Memorial Fund.

Surf Band Hired For Junior Prom

"The Strangers," a local surf band, have been contacted to play for the April 2nd Junior Prom dance. The dance will be held at the Hidden Valley Country Club.

Queen candidates will begin going to lunch at the various campus fraternities this Monday.

Tickets for the Junior Prom will be on sale in the Student Union. The price will be \$2.50 per couple. Tickets are limited to 200 couples.

Theta's Capture Top Women's Positions; Darryl Drake Veep

Twenty-one-year-old SAE Dave Russell captured 720 votes in Wednesday's student body elections to grab the ASUN presidency from his 20-year-old opponent Bob Basta, an ATO. Basta took 601 votes.

A total of 1369 students marched to the polls to elect Russell and various political hopefuls. Three other SAE's and three KAT's also grabbed top ASUN posts.

Russell is a resident of Carson City and has been active

on campus since he transferred here from Oregon State University in the fall of 1964. His father is the former governor of Nevada, Charles Russell.

Sigma Nu Daryl Drake had 951 ballots cast to put him in the ASUN first vice president's position. He had no opponent.

Anne Marie Lesperance took

Students Capture 18 Senate Seats From 7 Colleges

A total of 18 ASUN Senate seats were given to students from the seven different campus colleges in the general elections.

Seven students have taken seats in the College of Arts and Science senatorial race. The seven were chosen from a group of 14 hopefuls.

Miss Jackie Zeigler grabbed the most votes out of the largest college on campus. She took 275 votes to win herself a senate seat.

The six other senate seats were given to: Bill Maupin with 261 votes; Ed Horgan, 245 Gary Silverman, 227; Lew Carnahan, 215; Dave Firestone, 208 and Jim Crane, 105.

Crane had the lowest number of votes out of the 14 hopefuls, but he was the only independent running. Under the ASUN constitution an independent is required in multiple-seat colleges. A new amendment passed by students still gives one seat to an independent, but the unaffiliated student must now file.

The new mining senator is Dick Harris. Harris grabbed 20 votes from mining students. He was the only miner to file for the lone seat.

Catherine Cobeaga received 37 votes for the lone nursing college seat. She was unopposed.

The new agriculture senator is Ron Shane. He defeated Betty Murphy 56 to 21.

Two senators were chosen in the College of Engineering. Tom Lambert grabbed 62 votes to capture a seat. William Guss had less votes than Tom Stephens, but Guss was awarded the position because he is an independent. Guss took 41 votes to Stephens' 44.

The three new business senators are: Mac Potter with 112 votes; Mike Pollard, 106; and Jud Clark, 100. They defeated Satch Carlson with 66 votes.

The three new education senators are: Pam Lee, 130; Mardie Rowe, 128; and Nancy Bason, 72. Miss Bacon is an independent. The three defeated are: Claire Wagner, 80; Robert Trimble, 79; and Art Radar, 56 votes.

DARRYL DRAKE
First Vice-President

the ASUN second vice president's post with a slim 556 to 522 margin over Pi Phi Sheila Dwyer. Miss Lesperance is a Kappa Alpha Theta.

In the Junior Men's senator-at-large race SAE Dave Diedrichsen narrowly triumphed over Sigma Nu Riley Beckett. Diedrichsen polled 642 votes, while Beckett took 621.

KAT Jan Strosnider pulled 648 student votes to place a heavy win over Tri-Delt Pat Tullis for Junior Women's senator-at-large. Tullis received 301 ballots.

In the Associated Women Students presidential race KAT Marvis Cooper slipped past Pi Phi Ginney Gilbert's 247 votes with 274 to capture the top women's position.

Pi Phi Ann Havrilla was the only candidate for AWS vice president. There hundred fifty-three women cast ballots for her.

In the Senior Class race for president ATO Dan Anderson grabbed a thin 10-point lead over Sigma Nu Ron Bath to capture the office. Anderson polled 134 votes to Bath's 124.

SAE Jeff Reeves trounced his opponent Lambda Chi Jeff Lewis, 221 to 88 for the Junior Class presidency.

Next year's Sophomore Class president will be SAE Mike Newmarker. Newmarker beat his opponent, ATO Doug Damon, 269 to 204.

Editorial

Congratulations must be given for the well-run ASUN election of 1966.

The election board worked better than any I have seen, and as a result confusion was at a minimum.

The board, headed by Bernie Anderson and Mary Ellen Drake, remained unbiased throughout the campus campaigning.

Election board work is such that it receives little or no thanks from students. It is merely hard work, with tremendous responsibility.

Other members of this year's board included Pat Semenza, Bill Dunfield, Candie Haller, Linda Rueckl, Bob Nielsen, Bruce Wallace, Tom Myers and Rick Baumann.

It is through their efforts such an election was possible.

English Professors Attend Confab

Dr. Robert M. Gorrell, Dr. Charlton G. Laid, and Dr. David W. Hettich are attending the 17th annual Conference on College Composition and Communication in Denver this weekend.

The conference is primarily concerned with the problems of freshman English literature, composition, and language.

Dr. Gorrell, chairman of the English Department, will be chairman of a panel on rhetoric. He was formerly president of the conference and now acts as liaison between the conference and the National Council of Teachers of English.

Dr. Hettich, director of Freshman English, will conduct a workshop on advanced composition for prospective college and university teachers. He is now on the National Board of Directors for the Conference.

Dr. Laird, director of Graduate Study, will be involved in sessions on rhetoric.

Dr. Wells To Travel To France On Leave

Dr. Charles V. Wells, chairman of the Foreign Languages Department, will leave on a year's sabbatical for France mid-summer of 1966.

While in Paris, Dr. Wells will be working in the area of French literary criticism. Mainly, he will be investigating the influence of psychoanalysis on literary criticism.

New Housing Policy Submitted To President By Dean Basta

By Gregg Zive

A new housing proposal has been made by Dean of Students Sam Basta and submitted to President Charles Armstrong and Chancellor N. Edd Miller and will be on the April agenda for the Board of Regents.

The new projected policy states: "All unmarried, undergraduate students, under 21 years of age and not living with parents, guardians or relatives, are required to live in University residence halls, fraternities, sororities, or other approved residences to the extent that such housing is available. The Dean of Students is authorized to make exceptions to those regulations in cases where, in his opinion, conditions warrant such action."

The present University policy only requires unmarried, undergraduate women under 21 to live in University residence halls.

The proposals also state that it is anticipated that applications for University housing will far exceed available space. The new policy would encourage first or second semester freshmen to live in University housing.

RESIDENCES AVAILABLE

University residences will be available first to students currently living in University residence halls, to Nevada students, to formerly enrolled students from outside the state, and finally to new out-of-state students.

Once all the space in the residence halls is filled students with parental consent may live off-campus. However the new policy also includes a recall provision in case applications do not fill all available space.

This recall policy states that students off-campus would be called back to live in unfilled space in University residence halls by classification. In other words the first called back would

be freshman, then sophomores and juniors and seniors.

Dean Basta commented on this recall policy and said that it would probably never have to be used and that, "it should not have to be used."

"It is the University's responsibility to the student to make living in a residence hall a privilege and not a penalty. There should be a sound residence hall program, comfortable living conditions, and adequate food services. Students should want to live in the halls."

FINANCES MET

This projected policy would enable the University to meet its financial obligations to the Fed-

eral Housing and Home Administration and at the same time allow sophomore, junior, and senior students greater freedom in choosing a place to live in the Dean's opinion.

The clause in the policy which gives the Dean of Students the authority to make exceptions to these regulations is flexible enough, Dean Basta believes, to let him take care of whatever problems the new policy might cause to some students.

This policy was submitted to the president and chancellor on February 22, 1966, and it is hoped it will be on the Board of Regent's agenda for April.

★ Letters To The Editor ★

Attendance Urged

Editor
The Sagebrush

Dear Sir:

I would like to urge, very strongly, the readers of **The Sagebrush** to attend the Performing-Artist Series Concert by Aksel Schiotz, baritone, on March 25, at 8:00 p.m., in the Jot Travis Union. An opportunity to hear an artist of such stature and a man of such personal nobility should not be wasted.

Aksel Schiotz, after a relatively late start as a singer, rapidly came to be recognized as one of Europe's greatest lyric tenors. During the war and the occupation of Denmark by Germany, he and his singing of traditional Danish songs served as a focus for patriotic Danish resistance against the conquerors. After the war, he was widely sought after, especially as an oratorio and **Lieder** singer, and his performances at the major post-war music festivals brought him great fame.

But as the result of a disastrous illness and operation, Aksel Schiotz suffered severe damage to his voice as partial paralysis of his face. He refused to be daunted, and trained himself to speak and to sing again. His new voice was not the lyric tenor it had been before, but a rich and moving baritone. And the artistry, the depth of musical understanding, is perhaps even greater than it was before.

I have known Aksel Schiotz for several years, and had cherished his records long before that, but I am still constantly astonished at the beauty of his singing and the brilliance of his musicianship. This is a great singer and a great man. His presence honors our university. I hope as many as possible take advantage of this occasion to hear him.

Sincerely
 Howard Starks
 English Department

er, therefore, and recite the Secret Pledge:

Manie a mon's a loser, lads,
 And only some's for winnin'.
 But ye'll take your share
 Wi' grace more fair
 If ye go your way a-grinnin'!
 We'll meet again for the 1966
 Gubernatorial race. Thankin' ye
 for your time and patience, dear
 good Rogich, I remain affectionately
 yours,

Satch Carlson

Dismayed Student

Dear Editor:

I regret to write this letter but I have been most dismayed for the past few weeks by the forest of signs that has obliterated most of the University campus. A lawn covered with dandelions would be much less of an eyesore . . .

Are these student candidates so oblivious to beauty and good taste that they have so carelessly defiled the landscape with their petty ambitions?

It is time for the more intelligent students to rebel against such a show of vulgarity and tastelessness. It is to be hoped that future campus policies will regulate the abuses of this system.

I shall withhold any comments on the appearance of Manzanita Lake until I know whether that clutch of sewer pipes will be used for decorative or utilitarian purposes.

Yours truly,
 Mary E. Philo

Home Economics Course Offered

Four courses will be offered to qualified juniors and seniors in home economics during the summer term, June 13 to August 19, at the Merrill-Palmer Institute.

A limited number of grants-in-aid will be available for the courses offered, which include: Human Development Seminar, a study of human development with concentration on interrelation of physical growth, and intellectual, emotional and social experience; Family Seminar, a study of the family using the theoretical and functional approach; Multidisciplinary Seminar, a study of children and families from infancy to adolescence through observation and direct participation.

Tuition for the four courses is \$180 and \$270 for room and board. Students may register for courses separately and pay a tuition fee of \$12 per quarter hour of credit.

Additional information may be obtained by writing the Merrill-Palmer Institute, 71 East Ferry Avenue, Detroit, Michigan 48202.

Dietz Performance Scheduled Tonight

Norman and Sandra Dietz will present "Two for The Show" tonight at 8 p.m. in the Jot Travis Lounge.

The Campus Christian Association, which is sponsoring the program, will hold a reception following the performance at 1029 N. Virginia St. across from Juniper Hall.

The Dietz's are from the Theatre of Concern in New York city. They are on a tour of major campuses and universities across the country.

There will be a charge of 50 cents for students and 75 cents for adults. Tickets will be sold at the door.

Coffee, tea and sandwiches will be served at the reception.

Forum To Feature History Professor

Today's Friday Forum will feature Dr. Erwin Merrey-kadar of the University history department at noon in the LDS Institute at 95 West Eleventh St.

Dr. Merrey-kadar will discuss "Notable Renaissance Popes."

He is a graduate of the University of Budapest and was employed by the Hungarian National Museum for six years before coming to America.

The Friday Forum is held every Friday for the religious and intellectual stimulation of students.

Everyone is invited to bring their lunches. There is no charge.

Quality Not Quantity

Editor, Sagebrush:

Might I take this opportunity to congratulate my worthy adversaries in the recent elections? 'Twas a fight well fought; and, though 'tis certainly a pity I lost, I feel that all candidates conducted a clean, forth-right campaign.

My special thanks and heartfelt condolences to my Champagne Manager, Bill Isaef; no stranger to the Losers' Club himself, he nevertheless did me a great service and I am grateful for it.

Many thanks, too, to all you brave, hearty souls who did cast a vote my way! Though there are only sixty-six of us, lads, stand tall! 'Tis not quantity, but quality that counts. Band ye togeth-

LITTLE MAN ON CAMPUS

Profit Returns High For DRI

For every dollar spent by the University of Nevada on the Desert Research Institute, the DRI programs have returned more than \$20 to the University, according to a DRI spokesman.

How much does the DRI cost the University? The state has appropriated \$199,107 from 1961 through 1965 for the operation of the Institute. This figure includes \$19,000 from the Board of Regents for the pilot project to create the Center for Western North American Studies.

The spokesman said that the DRI has secured facilities and equipment worth more than \$2 million at no cost to the state. The Fleischmann Foundation has provided an office and laboratory building (\$400,000), and the Atmospherium-Planetarium (\$490,000).

In addition to funds received from the University, the DRI has received support from federal agencies, private funds, research for state, industry, individuals, and miscellaneous, bringing the total figure to \$4,220,057.

The DRI states that it has attracted \$4 million in outside support in four years because of a small nucleus of recognized scientists.

The Desert Research Institute is a University-wide research organization, authorized by a special act of the 1959 State Legislature, to promote all the research objectives of both campuses of the University of Nevada.

The DRI is engaged in a two-fold program in an effort to increase the quantity and quality of research at the University.

According to the DRI spokesman, the Institute conducts research projects on problems for which Nevada offers advantages for research and urgently needs solutions. These projects include water resources, weather modification, plant - climate relationships, and many others.

The DRI fosters research throughout the University by attempting to stimulate and assist the faculty to do the research of their choice.

The spokesman said, "The advancement of knowledge is a fundamental duty of a university. Research competence is essential if Nevada is to attain a reputation for excellence."

He said, "If Nevada is to accommodate a growing population, many scientific problems must be solved. The DRI is providing solutions to these problems."

"Funds given to the DRI are a significant addition to the economy of Nevada," a DRI bulletin states.

"Research and development is now bigger business than the automobile industry. A strong University research program can assure that Nevada receives a growing share of national research and development funds."

The Institute believes that the research talent and facilities sup-

plied by the DRI are an important factor in attracting new industry to Nevada.

Research projects sponsored by outside agencies provide equipment which becomes the property of the University. Much of this equipment is utilized in teaching, as well as research. The bulletin states that the University thus obtains permanent assets at no cost to the state.

Research projects pay for the portion of time a faculty member spends on research, the spokesman said, thus releasing University funds for other purposes, such as the addition of staff. Students are provided the benefit of additional teaching specialties, with no burden to the state. Research scientists on the DRI staff, paid from non-University funds, are available to teach classes. The department's instructional resources are supplemented by talent and specialties they could not otherwise afford.

"Above all, a reputation for research interest and competence is a great asset to the University in recruiting excellent staff and students," the spokesman said.

Sponsored research projects administered by the DRI have increased from two (in 1960) to over 40 (Dec., 1964). In addition to these sponsored projects, over 40 additional projects are being conducted by faculty members. After demonstrating their interest and competence by successfully initiating projects, many of these faculty members hope to be able to secure outside support for their research.

At the present time, approximately 210 people are engaged in the programs of the DRI. This

figure includes DRI staff scientists, University faculty conducting sponsored research projects administered by the DRI, faculty engaged in the Institute's program to foster research throughout the University, research technicians, graduate and other students, administrators and clerical assistants.

Through research project grants, the Institute has acquired radar sets for weather modification studies, worth several hundred thousand dollars each. An instrumented aircraft used for taking measurements in the atmosphere has been obtained for use in the cloud physics and weather modification programs.

In addition, microscopes, photographic equipment, and a great deal of other general and specialized scientific apparatus have been acquired.

The legislation authorizing the establishment of the DRI granted it the flexibility to initiate salary and purchasing policies for research which enable the Institute to compete for the services of "top-flight, creative" people.

An initial grant from the Fleischmann Foundation was used to attract outstanding scientists who enjoy the confidence of Federal agencies supporting research, the spokesman said.

"Each scientist brings in enough money to support the work of several people: scientists, technicians, students, office workers, plus equipment and other benefits."

"As the research produced by these scientists brings recognition to the University of Nevada, other people of the same caliber are more willing to come here," he concluded.

Deferment Applications Ready

Application cards for the testing program to determine draft deferment eligibility are available now at the Selective Service office at 300 Booth Street in Reno.

The cards are to be filled out and postmarked no later than midnight April 23, 1966 for the applicant to be permitted to take the examinations.

Any student may register and his test scores will be sent to his local draft board to help them determine whether or not he will receive a college deferment.

The test will be given on the Reno campus May 14, 21, and on June 3. The student must choose the place he wishes to take the test when he applies to take it.

No special major will have an advantage in the testing, draft board officials said. The three-

hour test is made up of four parts and is similar to the one used during the Korean conflict.

When the student picks up an application card he will also receive a sample test. On the application card the student must include his name, draft card number, and address; as well as where he wants the card, to admit him to the test, to be sent and where he wishes to take the test. If the student wants to take the test at the Reno campus the number he will use is 2902.

University officials and local draft board officials urge students to take the tests. A draft board official has said, "Those who do not take the test will have to be judged strictly on their present grades when their draft board considers them for a deferment."

Viet Nam Seminar Scheduled

As part of a National Teach-In this week promoted by the Inter-University Committee for Debate on Foreign Policy, the Students for Political Action and the Southern Nevada Committee for Peace in Vietnam are conducting a Viet Nam Seminar at Nevada Southern University tomorrow.

Erling Skorpen of the Department of Philosophy of the University will take part in the Seminar.

He will join the California political news analyst William Winter, two professors from Southern California campuses, John Bailiff and Gerald Pfaffl of the

NSU faculty, and Al Meinhold controversial high school teacher in Las Vegas. They will speak after a showing of the Defense Department film "Why Vietnam."

Recently contact was established by Mike Clark of the Students for Political Action at NSU and William Lutz of the Ad Hoc Committee on Vietnam at the Reno Campus. They hope to be able to coordinate continuing educational efforts on the Vietnam conflict between the two campuses.

Lutz and the Ad Hoc Committee plan to show the film "Why Vietnam" soon on the Reno Campus.

UNIVERSITY OF NEVADA WOLF PACK BOXING TEAM

Nevada Baseballers To Face Rebels In Las Vegas Saturday

The friendly civil war within the state of Nevada will see another battle this weekend when the northern Nevada baseballers will meet the Rebels of NSU in Las Vegas on Saturday in a double header.

Nevada is now three and four on the season after a split with San Jose last week and will be out to increase the eight-one advantage that they have established over the Rebels since their first meeting in 1962.

Nevada currently has four hitters above the 300 mark with Earl Nursement leading the Pack with 429. Other Nevada hitters over 300 are: Lornie Wagner 375, Rod Mathisen 360, and Owen Toy 353

Coach Bill Ireland has slated Fred Dallimore as the tentative starter in one of the games. Dal-

limore, 2-0, has the best record of any of the Nevada hurlers and was selected by the Sagebrush as the Athlete of the week for his efforts last week against San Jose. Carl Bossieux, Rich Stephenson and Mike Zuppan may also see action in the twin bill this weekend.

The Nevada-NSU series had originally been scheduled for a three-game series but Cashman Field, the park that was to be used for a night game tonight and the double header tomorrow, is unavailable due to the major leagues coming in to play a series of exhibition games in the near future.

The games will be played on the champs field of Nevada Southern, with the first game starting at 11 a.m.

Nevada Hosts Intercollegiate Boxing Conference Tonight

The California Intercollegiate Boxing Conference championships will open here tonight with at least ten semi-final bouts and the finals will be held tomorrow in the Nevada gym.

Nevada, the University of California, and Chico State are expected to enter a complete nine-man team while the Stanford entries might be limited due to finals.

Nevada coach Jimmie Olivas expects this to be one of the closest tournaments in years.

The heavyweight division should produce some terrific fights, he predicted.

Stanford will enter two heavies, Eric DeGooyer and Dave Oswald. DeGooyer is 6-5 and tips the scales at 240 and Oswald is also a large man. Wayne Cook from Chico also weighs 240. Cook knocked out Nevada's Gary Silverman two weeks ago.

Walt Cunningham will be California's entry in the heavyweight classification and the hard puncher will weigh in around 200 pounds.

Nevada's contender for the heavyweight championship will be Ben Blinn from Elko, Nevada. Olivas is high on the 210-pounder who he says has looked sharp in workouts after recovering from the flu.

Tony Schueller of Nevada will probably meet Chico's Tim Fitzgerald in a re-match of the great battle they had in Reno two weeks ago.

Other probable fighters for Nevada will be Riley Beckett, Mike Schellin, Mike Smithwick, Jim

Wright, Dave Halstead, and Gary Silverman.

Champions will be crowned in the 125, 132, 139, 147, 156, 164, 172, 180, and heavyweight divisions.

Prices are \$1 for general and \$1.50 for ringside seats. University students with ID's will be admitted free. The fights will start at 8 p.m. both nights.

IN NEW STADIUM

Nevada Ready For Dual Meet

Chico State College will come to Reno tomorrow afternoon to meet Nevada in a dual meet that will be the first competition in the new Mackay Stadium.

The new stadium will not formally be dedicated until next fall though, according to athletic director, Gleen (Jake) Lawlor.

This will be the Wolf Pack's first home competition of the 1966 season after competing in the Davis Relays and a tri-way meet against California and San Jose at Berkeley.

Leading the Nevada squad will be weightman George Puce, pole vaulter Dave Taylor, and high jumper and hurdler Otis Burrell.

Both Puce and Taylor are new to the University of Nevada and both won last week at Berkeley. Puce won the shot put and discus and Taylor was victorious in the pole vault.

Burrell is the national AAU and NCAA high jumping champion and is the defending Far Western Conference high hurdling champ.

Also expected to perform well for the Silver and Blue are sprinter Houston Williamson, pole vaulter Al Lansdon, runners Mark Wynne, Terry Forbyn, Ron Lee, and Don McCarthy, and shot putter Howard Briles.

Chico will have the conference

javelin champ Rich Miller who threw the javelin 212.4 at the Davis Relays. The Wildcat 440 relay team set a stadium record last week with a time of 43.5 at a tri-way meet with San Francisco State and the University of San Francisco.

At the same meet Mike Fuertes

set a school record and won the discus with a heave of 139-5 1/2. Bob Wallace won the 100-yard dash in 10.1 and the 220 with a 22.9 time. Chico's Jack Ludu also won the shot put with a toss of 46-4 and Dade won the pole vault with a 14 foot effort.

Women Capture Second Place

The Women's Recreational Association basketball club took second place honors in college competition at American River Junior College in California. The Nevada women attended the sports day last Friday.

Nevada beat Shasta Junior College, 19-15, and American River College, 26-17 to take second place in the conference. Two games were dropped to Sacramento City College, 35-26, and American River college, 26-17.

The weekend games marked the end of the official college competition. The WRA will now play Reno area high schools.

Earlier this month, the club took second place honors at the Senior College Sports day in Sacramento

Club members attending were:

Bonnie Johnson, Joyce Hoffman, Joanne Freeman, Barbara Simons, Carole Stroud, Carla Rost, Kathy Leonard, Francis Spikes, and Patricia Miltenberger. Sandy Hay, statistician, and coach Miss Joyce Weiblen also attended.

Badminton Ready For Intramurals

Twenty-four teams forming five leagues will comprise the spring intramural badminton program. All games will be played in the gymnasium.

Games slated for Monday, Mar. 26 are:

- 4:15 p.m. White Pine No. 3 vs. Phi Sigma No. 1
- Lambda Chi No. 1 vs. ATO No. 4
- ATO No. 2 vs. Phi Sigs No. 2
- Lambda Chi No. 2 vs. SAE No. 1
- 4:45 p.m. Sigma Nu No. 1 vs. White Pine No. 2
- SAE No. 3 vs. Phi Sigs No. 3
- SAE No. 4 vs. Phi Sigs No. 4
- ATO No. 3 vs. Lambda Chi No. 4

Games slated for Thursday March 31 are:

- 4:15 p.m. Sigma Nu No. 2 vs. Theta Chi No. 1
- SAE No. 2 vs. Phi Sigs No. 1
- White Pine No. 3 vs. Lambda Chi No. 1
- Lambda Chi No. 3 vs. Phi Sigs No. 2
- 4:45 p.m. Lambda Chi No. 3 vs. Phi Sigs No. 3
- ATO No. 2 vs. Lambda Chi No. 2
- SAE No. 3 vs. Sigma Nu No. 1
- White Pine No. 1 vs. Phi Sigs No. 4
- SAE No. 4 vs. ATO No. 3
- Lambda Chi No. 5 vs. Sigma Nu No. 2

From the End of the Bench

By GREG ZIVE

NEW MACKAY STADIUM will be inaugurated tomorrow afternoon when Chico State will visit to compete with Nevada in a dual meet. The Pack squad will probably make this grand opening a spectacular one by rolling over the Wildcats. Nevada will have trouble in the javelin as Chico's Rich Miller is the 1965 FWC champion. However the Silver and Blue sprinters have better times than the Chico sprinters and George Puce and Howard Briles should win the shot put and discus which are two other events the Wildcats won last week in a tri-way meet against San Francisco State and the University of San Francisco. Otis Burrell should win the high jump and the hurdles while Houston Williamson is the favorite in the sprints and broad jump. Nevada's distance men will be tough to beat as well as Dave Taylor and Al Lansdon in the pole vault.

This is the first home meet for the Wolf Pack and if you want to see a Nevada power display be in the new Mackay Stadium tomorrow.

NEVADA WILL HOST the California Collegiate Boxing Conference championship tournament tonight and tomorrow night. This tournament is the equivalent of the NCAA championships as Chico State, the University of California, and Nevada are the only colleges that have boxing. The fights should be excellent with the Wolf Pack having a good chance of winning the tournament. Ben Blinn, Mike Schellin, and Riley Beckett are all undefeated. The Nevada squad is the favorite in this weekend's action and I believe Nevada will have another championship team.

SPEAKING OF CHAMPIONS the Nevada baseball team will meet Nevad Southern in a double-header tomorrow in the southern Nevada city. The Wolf Pack split a double-header last weekend with a tough San Jose State team. If the Pack continues to improve and plays like it has so far this season there is good chance they will repeat as the Pacific Coast Regional Division champions again this year.

THE DOUBLE-PLAY COMBINATION on this year's Wolf Pack club of second-baseman Rod Mathisen and short-stop Bob Gillham is the best ever at Nevada coach Bill Ireland believes. Not only are Mathisen and Gillham both fine fielders but both can hit. Mathisen has a .360 average and leads the team with five stolen bases. This combination has also turned in eight double plays in seven games. Ireland stated that this keystone combination is the best in the Far Western Conference.

THE 1966 WOLF PACK BASKETBALL team selected their all-opponent team this week. New NCAA champion Texas Western has Bobby Joe Hill and Nevil Shed on it. Number one ranked small college Southern Illinois' George McNeill was also chosen by the Wolf Pack squad Lonnie Hughey of Fresno State and Tim Powers of Creighton were the other two players selected.

Nevada Archives Hold Records Of Campus History

Records of the University as far back as 1885 when the campus was moved from Elko to Reno are kept in the University archives in the special collections library. No records of the University when it was established in Elko in 1874 have yet been gathered but Mr. Robert Armstrong, special collections librarian, hopes to locate some of the early records.

"Aremisia" yearbooks are the collection. Except for the years of the San Francisco earthquake, when the material was destroyed at the printers, there is a complete set.

Included in the collection is a publication of 1923-32, the "Desert Wolf" Walter Van Tilburg Clark, the University of Nevada's author in residence, was a contributor to the works.

Manuscripts of books written by Dr. Eleanor Bushnell, chairman of political science, and Professor Charlton G. Laird, director of graduate study in English, are also in the archives, as are daily journals of the late University president, Walter Earnest Clark.

Pictures of University buildings, plays, dances, and class activities are included in the archives. Several classes had class historians who included pictures of four years of events in scrapbooks with programs, and dance souvenirs.

Thesis and dissertations records back to 1910 are kept by the library.

The Las Vegas campus is now trying to build up a smaller archives so that the complete University records can be kept, Mr. Armstrong said. This is the best way to keep records from Las Vegas from being lost before they can be gathered up and especially shipped to the Reno campus, Mr. Armstrong feels.

When you can't afford to be dull, sharpen your wits with NoDoz™

Political Science Conference Here Today

The Western Political Science Association is holding its 20th annual meeting on the University of Nevada campus today and tomorrow.

Some 300 representatives from 13 western states will gather to discuss various political science topics in panel discussions and papers.

The three-day convention will

Sunday Movie

"The Night of the Iguana," co-starring Richard Burton, Ava Gardner and Sue Lyon, will be presented by the Jot Travis Union Board this Sunday.

The movie will be shown at 6:30 p.m. and 9 p.m. in the Church Fine Arts Building. Admission is free.

open Thursday with a luncheon in the Hardy Room of the Jot Travis Student Union building on the Reno campus. Registration started Thursday at 2 p.m. in the lobby of the Mapes Hotel. Dr. Charles J. Armstrong, president of the University of Nevada will welcome the guests at a dinner session Thursday evening at the university.

Friday and Saturday will be spent discussing such topics as "Tensions in the World Communist System;" "The Sino-Soviet Conflict;" "Reapportionment: Some Thoughts on Consequence;" "Politics of Natural Resource Use in the Western States—Land and Recreation;" "New Approaches to Research and Teaching in Public Law;" and "Policy and Politics on the American National Scene." Chairman of the subject areas

to be discussed are Harmon Ziegler, University of Oregon; Jan F. Triska, Stanford University; Eleanor Bushnell, University of Nevada; Conrad L. McBride, University of Colorado; Wesley Posvar, United States Air Force Academy; Glendon Schubert, Michigan State University; David A. Bingham, University of Arizona; Totton J. Anderson, University of Southern California; Donald D. Dagleish, Arizona State University; Charles M. Hardin, University of California at Davis; George A. Shipman, University of Washington; Bernard C. Borning, University of Idaho.

Dr. Donald Driggs of the University of Nevada is coordinator of local arrangements for the event. Program chairman is Norman Meller of the University of Hawaii.

Feature affair of the convention will be a banquet to be held Friday evening at the Mapes Hotel. Gabriel A. Almond, president of the American Political Science Association will be the speaker.

President of the WPSA is Maure Goldschmidt, Reed College.

Past Present

The Company's first engine, the Wasp, took to the air on May 5, 1926. Within a year the Wasp set its first world record and went on to smash existing records and set standards for both land and seaplanes for years to come, carrying airframes and pilots higher, farther, and faster than they had ever gone before.

In recent years, planes powered by Pratt & Whitney Aircraft have gone on to set new standards of performance in much the same way as the Wasp had done in the 1920's. The 727 and DC-9 are indicative of the new family of short-to-medium range jetliners which are powered by the highly successful JT8D turbofan. Examples of current military utilizations are the J58-powered Mach 3 YF-12A which recently established four world aviation records and the advanced TF30-powered F-111 variable-geometry fighter aircraft.

Your and the Future

Take a look at the above chart; then a good long look at Pratt & Whitney Aircraft—where technical careers offer exciting growth, continuing challenge, and lasting stability—where engineers and scientists are recognized as the major reason for the Company's continued success.

Engineers and scientists at Pratt & Whitney Aircraft are today exploring the ever-broadening avenues of energy conversion for every environment... all opening up new avenues of exploration in every field of aerospace, marine and industrial power application. The technical staff working on these programs, backed by Management's determination to provide the best and most advanced facilities and scientific apparatus, has already given the Company a firm foothold in the current land, sea, air and space programs so vital to our country's future. The list of achievements amassed by our technical staff is a veritable list of firsts in the development of compact power plants, dating back to the first Wasp engine which lifted the United States to a position of world leadership in aviation. These engineering and scientific achievements have enabled the Company to obtain its current position of leader-

ship in fields such as gas turbines, liquid hydrogen technology and fuel cells.

Should you join us, you'll be assigned early responsibility. You'll find the spread of Pratt & Whitney Aircraft's programs requires virtually every technical talent. You'll find opportunities for professional growth further enhanced by our Corporation-financed Graduate Education Program. Your degree can be a BS, MS or PhD in: MECHANICAL • AERONAUTICAL • ELECTRICAL • CHEMICAL ENGINEERING • PHYSICS • CHEMISTRY • METALLURGY • CERAMICS • MATHEMATICS • ENGINEERING SCIENCE OR APPLIED MECHANICS.

For further information concerning a career with Pratt & Whitney Aircraft, consult your college placement officer—or write Mr. William L. Stoner, Engineering Department, Pratt & Whitney Aircraft, East Hartford, Connecticut 06108.

SPECIALISTS IN POWER... POWER FOR PROPULSION—POWER FOR AUXILIARY SYSTEMS. CURRENT UTILIZATIONS INCLUDE AIRCRAFT, MISSILES, SPACE VEHICLES, MARINE AND INDUSTRIAL APPLICATIONS.

FOUR SOLOISTS TO PERFORM

Band Concert Slated Sunday

The Symphonic Band's Winter Concert is scheduled for Sunday, March 27, at 3:00 p.m. in the Fine Arts Theatre.

The concert will include performances by four guest soloists, Gene Isaef, Orville Fleming, Charles Bickhart.

Charles Bickhart will direct the late Philip C. Becker's transcription of Manler's 2nd Symphony "The Resurrection."

The guests will be Charles Bickhart, a transfer student from Arizona State University. Bickhart studied with Ralph Gari, A. B. Larsen, and Capt. Ernest Greer. He was a member of the Air Force bands for four years. Bickhart was stationed at Luke Air Force Base in Arizona.

In addition to clarinet performances he is a skilled performer on saxophone, flute, percussion, and piano. Bickhart is assistant director of the University of Nevada Marching Band.

Orville Fleming will also be one of the guest soloists. Fleming is woodwind instructor and director of the woodwind group. Fleming has had extensive pro-

fessional experience as a performer on clarinet, saxophone, flute, trumpet, and violin.

A native of Minnesota, he attended the University of Michigan before joining touring groups. He has been a member of the Charles Gould Satin Strings for the past five years.

Eugene Isaef, a native of San Francisco, studied with Arnold Jacobs of the Chicago Symphony.

International Club President Treks To National Conference

The president of the campus International Club, Paul Baidwan, will travel to St. Louis, Missouri next Tuesday to participate in a National conference of the Association of International Relations Clubs.

Health Professor Talks At Meeting

"The Mental Patient in the Community" was the title of a workshop conducted by Mary Louise Atkinson, assistant professor of public health nursing, in Las Vegas recently.

The program was sponsored by the Continuing Education Committee of the Nevada Public Health Association in coordination with the Continuing Education Program of the Western Branch of the American Public Health Association. Representatives of various agencies which have an interest in community mental health attended the workshop.

Miss Atkinson presented a paper entitled "The Community as an Un-therapeutic Community".

A program similar to this is planned for Reno in November.

He has played professionally, including six years as trombonist with the Minneapolis Symphony. Isaef joined the University of Nevada faculty four years ago. Mr. Isaef teaches low brass and directs the University Stage Band.

There is no charge for admission but due to limited space it is suggested that people come early to be assured of a good seat.

Baidwan, also regional president of the AIRC, says he will remain in St. Louis until April 2 to discuss AIRC resolutions of "trade and aid."

"Trade and aid" is an AIRC program which suggests ways to help America establish good relations with other countries, according to Baidwan.

The organization's discussions include economic trade with other countries and aid to further education for foreign students.

Baidwan is a 27-year-old student from India majoring in engineering. He is from Chandigarh in the Indian state of Punjab.

He has studied for five years in America. He spent his first two years at Yuba College and the remainder at the University of Nevada.

When he completes his studies he plans to get some practical engineering experience here in America.

The campus International club has 47 members, according to Baidwan. The purpose of the group is to improve understanding between foreign and American students.

Wool Sewing Demonstration Given

The latest techniques in sewing were demonstrated at a meeting entitled "Wool Sewing Made Easy" sponsored by the Washoe County Extension Service and the Nevada Wool Growers Auxiliary, held at the Jot Travis Union last week.

At the meeting, attended by 128 women, the latest techniques in alterations, under linings, stay stitching, lining, darts, collars, buttonholes, seam finishes, zippers, and high fashion finishing touches were demonstrated by various clothing instructors from throughout the state.

Uses of Facsimile Studied Under Direction of Nevada Librarian

Research on the use of telefacsimile in libraries began this week under the direction of Mr. Harold G. Morehouse, assistant librarian at the University of Nevada. Two machines are being tested in cooperation with two California colleges to find out if the machines could be used in inter-library loan.

Telefacsimile is a method of reproducing print and pictures by electronic sending and receiving devices. The material can be sent using sounds over a special twelve-cable telephone line or through ordinary telephone lines to a phone with earphone attachments.

Two machines are being tested to see if books and articles needed by individuals doing research in a library where the material is not available can be received from another library. Financial aspects and practicality of the machines in regards to the amount of use they would receive are to be considered.

Mr. Morehouse will work with

the Institute of Library Research at the University of California's Berkeley campus for a month to install the equipment, set up telephone lines, and analyze the experiment. He will be working under a National Council on Library Resources grant.

After the 30-day trial with one type of machine, Mr. Morehouse will begin work with a more complicated telefacsimile. During this experiment the University of California at Berkeley and at Davis will be working on a telefacsimile line set up with the University of Nevada.

If the machines should prove to be efficient, the University of Nevada library might buy a machine. The machines would be used in inter-library loans for research material.

The inter-library loan department last year handled 1,700 transactions. When material for research papers was needed by graduates and faculty, the department mailed requests for the books from other libraries.

High School Debate Tourney Sponsored By Speech Dept.

The University of Nevada Speech and Drama department is sponsoring its annual High School Forensic and Drama Tournament on campus this weekend.

Teams from 18 high schools throughout Nevada and California will compete in seven events during the tournament. High schools in the tournament are Las Vegas, Sparks, Reno, Western, Wooster, Valley, Rancho, Basic, Churchill County, Mineral County, Boulder City, Tahoe - Truckee, Yerington, Elko, Moapa Valley,

Virgin Valley, Loyalton and White Pine.

Events of competition are debate, oratory, extemporaneous speaking, expository speaking, oral interpretation, television announcing, and one act plays.

The high school debaters will use the national topic of collegiate debating. "It is resolved that the federal government should adopt a program of compulsory arbitration in labor-management disputes." Each debate will last about seven minutes.

Topics for extemporaneous speaking will be drawn from national and international events since September 1965. The speakers will be given one hour to prepare their arguments after selecting the topic from three choices.

In drama competition, a one-act play or scenes from several plays may be staged by a school. All plays will be in the Church Fine Arts auditorium.

First, second and third prizes will be given in each division. The school with the highest accumulative score will receive a tournament trophy. Awards will be presented at 4 p.m. Saturday in the Fine Arts auditorium.

Chancellor's Symposium Gets Praise From ASUN President

"We're quite pleased with the turnout I think Lance did a fine job of organizing." That was A.S.U.N. President Bill Chaffin's appraisal of the Chancellor's Symposium Monday afternoon.

Chaffin's sentiments were echoed by Chancellor N. Edd Miller, who called for the open discussions. Chancellor Miller said some "very important subjects have been discussed and I think some very good suggestions may come out of the talk." The Chancellor added that he would not know the Symposium's full impact until the reports from the discussion groups had been turned in to his office.

The Chairman of the Symposium, Lance Sparks, will give the Chancellor a report from each group. A reporter was assigned to each discussion to note significant facts and suggestions.

Chancellor Miller said some conclusions reached during the Symposium may be instituted in University policy and planning in the future. The Chancellor also mentioned what he called the "intangible benefit of increased communication between the administration, students and faculty."

The lack of communication was mentioned as an underlying reason for many problems at the University. Also high on the list was insufficient funding.

By early Monday afternoon the original seven topic discussion groups had been pared to four. Student Administration, Fact vs. Concept in Education, Student-Faculty Relations and The University in the State.

The topics of discussion ranged from academic theory to problems of registration and the sometimes heated debates moved quickly through many subjects.

The Symposium was described by Chancellor Miller as an "organized way of getting student reaction and by the local press as a "gripe-in."

By closing time three groups were still going strong with more than 100 students participating.

White's Walk In Space Shown

The walk in space of Astronaut Edward H. White will be highlighted in official NASA films to be shown tonight. The main film, "The Four Days of Gemini," includes pre-launch coverage and the space flight of Astronauts White and James A. McDivitt.

Also "The Universe", a movie which simulates what the universe might look like to a space traveler, will be shown.

Four other films will also be presented during the two hour program presented by Sigma Pi Sigma, National Honorary Physics Society. The movies will be presented in room 101 of the Scrogam Engineering Building.

Special ROTC Talks Scheduled

A series of discussions on "The College Man and His Military Obligation" will be held by the ROTC Department in response to a recent discussion of the draft at the Chancellor's symposium.

The lectures will be held at the ROTC Department each Wednesday and Thursday beginning March 30 and continuing for as many weeks as are needed to cover the topic fully, according to professor of military science, Colonel Earl W. Ralf.

All students, faculty, staff, parents, and others are invited.

All persons planning to attend should notify the ROTC Department (ext. 426) so that appropriate seating arrangements may be made. Those who have class schedules conflicts are requested to phone the ROTC Department so that additional sessions may be planned.

AKSEL SCHIOTZ

Vocal Artist Schiotz Featured Tonight In Jot Travis Building

The University Performing-Artists series will feature vocal artist Aksel Schiotz at 8 p.m. in the Student Union building.

Schiotz is a sensitive and perceptive artist and possesses a sympathetic and wonderful voice, according to Paul Hume of the Washington Post.

Schiotz, a teacher at the University of Colorado, was born in Denmark. He made his singing debut in 1938 at the Copenhagen Royal Opera House.

Schiotz was the "Voice of Occupied Denmark" throughout the Second World War.

He has sung at the Glyndebourne festival, Edinburgh festival, the Caasals festival in Per-

pignan, the Stratford Shakespeare festival in Ontario and the Vancouver International festival.

Tickets may be obtained from Pat Thomas in the Chancellor's office. General admission is \$2.25; University faculty and staff \$1.25 and students \$1. University students with proper identification will be admitted free.

The series is sponsored by the Public Occasions Board, the AS UN and the Student Union Board.

Schiotz is the sixth entertainer featured in the Performing-Artists series.

Cheerleader, Songleader Tryouts Soon

Interested in school spirit?

Cheerleading, song leading and rally committee positions for next year are now up for grabs, according to head cheerleader Jim Crane.

Those interested must sign up in the ASUN office in the Student Union building by 5 p.m. today.

Applications must have a 2.2 overall grade point average.

The Rally Committee will consist of six upper-class men and women and will be selected by the present committee in an interviewing session.

The ASUN Senate will approve final selections.

Practice sessions for cheerleading and song leading hopefuls will be conducted every day next week at noon and 4 p.m.
