LSD Problem On Nevada Campus? Panel Discusses Issue In Union Tack

Is LSD a problem at the University of Nevada? This was the topic of a panel discussion held Thursday night in the Jot Travis Student Union.

Participating in the discussion on "Drugs and Their Use on a College Campus" were Dr. Warren d'Azevedo, associate professor of anthropology, Dr. Robert McQueen, associate professor of psychology, Dr. Stanley Tyler, a psychiatrist at the State Mental Health Clinic, and Mr. Frank Lago, a member of Synanon House. Dr. Robert Whittemore, director of counseling and testing, was moderator.

"There is a vast lack of information on LSD," said Dr. McQueen. He added that it is believed by some that the Nevada State Mental Hospital is full of victims of the over-use of the drug LSD. "The extent, as far as the State Hospital is concerned, is nil."

Dr. McQueen explained that an over-dose of LSD would cause psychotic reactions, and that anyone who did take an over-dose would require medical help. Those who do not have the money for a private mental home would have to go to the State Hospital, in Sparks. Only one person has been admitted to the hospital who has suffered from the effects of LSD, Dr. McQueen said, and this person was not a college student and is from southern Nevada.

"It is not possible, in a wide-spread use of LSD in the Reno area, that more people would not be admitted to the hospital. The use of LSD is much like that of alcoholic beverages. There would be one or two in a party that would know the capacity they have for the drug and would require help," Dr. McQueen continued.

Dr. McQueen ended by saying, "I believe LSD is used in different parts of the country, but the instance of its use in northern Nevada is not very high."

Dr. d'Azevedo made three points about the use of LSD. He said that "much, too much, is being made of this situation on the campus — and by the general public. It is being spurred on by

rather romantic and over-dramatized situations on other campuses and by the press and others giving the impression that the practice is wide-spread."

But Dr. d'Azevedo does not think there should be no restrictions on the use of LSD. "There is too little known about the drug and some serious consequences can happen to some people who use it — people should learn more about it."

Dr. d'Azevedo believed that the public has focused too much attention on the problem of LSD when "thousands of young people are smoking and obtaining alcoholic beverages illegally and both of these are dangerous to their health. And when dangerous chemicals are being sold to the public over drug-store counters and thousands of so-called "medicines" are sold by well-known firms when medical authorities have questions about their safety. It is in this context that I worry about LSD."

The third member of the panel was Mr. Frank Lago, representing Synanon House in Reno. He thinks "LSD is used more in Reno than most people think or believe." He used as examples the people who have come to the Synanon House for help who have suffered from the effects of over-use of LSD.

Salary Raise Under Study

An increase in salaries for University of Nevada faculty members is the issue being examined by an ad hoc committee established by the Reno Chapter of the American Association of University Professors.

The members of the committee were appointed by Dr. Robert L. Armstrong, president of the chapter.

The report of the committee will be presented, along with a similar report from Nevada Southern, at the June 10 meeting of the Board of Regents.

The AAUP is requesting a \$1,000 increase in the base pay for Nevada faculty members.

ROTC Protest Conduct Good ... Dean Basta

It isn't often an administrator compliments demonstrators, but Dean of Student Affairs Sam Basta feels the anti-compulsory ROTC demonstrators are to be complimented on the 'orderly manner in which they conducted themselves," at the Governor's Day ceremonies.

Dean Basta added, however that he agreed with the A.S.U.N. Senate resolution that expressed dismay with the timing of the demonstration. The resolution also reaffirmed senate support of student's right to dissent.

Dean Basta is the chairman of the Ad Hoc Committee to Study R.O.T.C. The committee began work this fall on a study of the R.O.T.C. program. Dean Basta said the study should be complete by next spring.

Dean Basta said there were a great many facts of the program to be considered. The question of mandatory vs. voluntary R.O.T.C. is only one phase of study, but it is the most pressing one.

According to Dean Basta, the R.O.T.C. commissioned 25 officers last fall. This is the minimum required by the Army for the maintenance of a program at a university. Over the past five years the army maintaining the program has meant a saving at the University of about \$666,000 according to University business director Neil Humphrey.

If the University cannot meet the minimum of officers each year the Army will pull out and the University will have to maintain the program with its own funds.

"We have an obligation to meet as a land grant institution," Dean Basta said, "the question is whether we can do it with a voluntary program. That's what the committee intends to find out."

Sr. Ball Scheduled

This year's "All-free" Senior Ball will be held at the Hidden Valley Country Club on Saturday, June 4th, from 9 'til 9.

All Seniors, social and scholastic, are invited to attend with their dates.

The bar will be open and music will be by the "Guildsmen."

Judicial Council Filled

Beckett Selected Junior President In Final Senate Meeting Of Semester

The ASUN Senate, in its final meeting of the semester, passed numerous resolutions and filled the vacancies in the Judicial Council and Junior Class president's post last Wednesday evening in one of the longest sessions of the year.

Riley Beckett, a Sigma Nu, was elected to the Junior Class Presidency, an office left open by the death of student leader Jeff Reeves.

Bruce Wallace, a member of Sigma Alpha Epsilon, and Sigma Nu Chris Key will fill the two remaining positions on the Student Judicial Council.

The previously proposed amendment to have the first reading of any bill brought before the senate not voted on until the next regularly scheduled meeting was defeated. The pending measure to recognize only the duly elected senator from any organization or college at each meeting was passed. This will eliminate the proxy vote method that had been applicable in the past.

BRUSHFIRE

The Publications Board reported that the next edition of the "Brushfire" may not be distributed by June 3, and, if not, recommended that it be circulated in the fall semester. The Board's suggestion was accepted.

A new honorary foreign language society, Alpha Mu Gama, has been formed and has been officially established by the senate.

In addition, committee chairmen for the various major campus activities, as proposed by ASUN President Dave Russell, were accepted. Homecoming Chairman is Rick Shelby, Winter Carnival Chairman, Lane Monroe, Mackay Day Chairman Larry Wood, and Elections Board Chairman is Bob Nielson.

The most controversial issue of the evening regarded the proposed resolution affecting the policy of the Senate towards the planned demonstration for the Governor's Day ceremonies.

The resolution read as follows: "Whereas, the ASUN Senate representatives of the Students of the University of Nevada, support

the activities of Governor's Day in all its traditions, and whereas we recognize the right of the students to make their views known, but, whereas, we do not feel that disruptive activities interfering with the prestige of the University of Nevada are in keeping with best interests of the Student body; be it resolved that, the ASUN Senate does not condone nor support the proposed disruptive activities to be conducted at Governor's Day, May 19, 1966. Be it further resolved that this action by the ASUN Senate does not in any way attempt to regulate or oppose the rights of students to express their views."

RUSSELL SPEAKS

ASUN President, Dave Russell commented on the actions of the Senate and the demonstrators Thursday following the Governor's Day activities.

"I was gratified that those members of the Ad Hoc Committee for the establishment of a voluntary R.O.T.C. program conducted their demonstration in a peaceful and orderly manner."

"It may or may not be apparent that the resolution passed by the Senate did have some effect on the demonstrator's plans," Russell continued.

"The unanimous vote on the resolution has shown that the Senate is a responsible body for in my opinion the resolution did two things. First, it indicated that the senators have an awareness of their responsibilities and in such, have demonstrated to the ASUN that one of their functions is to project to the students their feelings on events that affect the entire student body."

"Second, it has indicated that the senators despite their individual view points (and there may have been those who advocate the propositions of the Ad Hoc committee) have recognized an obligation to maintain the prestige of the University of Nevada and its students."

In conclusion, Russell pointed out that the resolution supported the right of faculty and students to express their views but that it stood in opposition to the Governor's Day proceedings.

Suicide Center Much In Demand — Staff To Expand

The Suicide Prevention and Crisis Center at the University has become so much in demand that two men cannot handle the job. Due to the shortage of help on the center there will be an addition to the staff this summer. Interview dates will be announced.

Persons who wish to take part in the Center must have Ph.D. degrees and be clinical psychologists.

The Suicide Prevention and Crisis Center was established in March of 1966. The Center offers a 24-hour telephone counseling service for persons under crisis. The Crisis Counselors and their supporters have been nicknamed "the Nevada Life Ring." At the present time the Center receives ten to fifteen calls each week. These range from very serious calls to informational calls.

Because of the Nevada suicide rate the Northern Nevada Association for Mental Health believed the program was vital and took steps to establish a center.

NNAMH proposed that the University of Nevada, because of its professional capabilities, take over the complete administration, supervision, training, education, and research functions of the suicide prevention program. On March 12, 1966, the University's Board of Regents approved NNAMH's plan calling for a cooperative community effort in the field of suicide prevention.

The NNAMH contributed funds toward certain administration, telephone installation, and community awareness expenses. The University of Nevada allocated operating, research, secretarial, and graduate assistant expenses

as well as the physical location of the Center. The Nevada Department of Health and Welfare and Washoe Medical provided psychiatric consultation to the Center, and the latter agency arranged for 24-hour emergency medical treatment at its facility.

Within one year the Nevada Suicide Prevention and Crisis Call Center expects to receive a U. S. government mental health grant which will support the undertakings of the Center until the University takes over the entire cost of the program in 1969. In order to qualify for this grant the Center needs a full-time Project Director. The Northern Nevada Association for Mental Health has agreed to contribute \$1,500 of the \$11,500 necessary to finance such a position, and has, in addition, agreed to carry out a solicitation campaign to raise the remaining funds.

Editorial

'Artemisia' Editor Has Difficult Task

Editing and publishing any one of the campus publications can be a job of major proportions, as any editor can tell you. But, perhaps the most difficult edition to put out is the ARTEMISIA.

The yearbook takes an entire school year to produce. Deadlines have to be met for each section. And as ARTEMISIA editor Joyce Freeman can tell you, deadlines are not always met on time.

Oftentimes the photographer can't get a picture in on time. If a member of the ARTEMISIA staff gets sick or simply slacks off on her work, the editor must complete that portion herself.

There is a slight lack of communication with a print shop located 500 miles away from the University. Mistakes must be corrected and sent back and forth, losing time. Everything must be done through the mail, and some items can be lost.

The editor must begin the school year with an overall idea of what theme her yearbook will follow, and she must adhere to this theme. She must keep an overall picture of the hoped-for final appearance of the edition in her mind.

Congratulations are forthcoming for Miss Freeman. This year's ARTEMISIA is the most colorful and well-planned edition the University has seen.

HAMPTON YOUNG, Assistant Editor

2nd Geology Ph.D. To Be Awarded

John Sales will be the second man to earn a Ph.D in geology from the Mackay School of Mines when it is conferred upon him June 11.

Sales came to the University of Nevada in 1959 from Syracuse University in New York where he earned his B.A. degree in geology. He has received numerous awards and honors while at Nevada.

The Mackay School of Mines was given the authority to grant doctorate degrees in 1961. In 1964, Roger B. Morrison received the first Ph.D. awarded by the school.

Mackay Mines faculty members expect to confer two more doctorates within the next nine months. In September, Lawrence Herber will be eligible for the degree, and in January 1967 Gerold Behnke will have completed his work for a Ph.D.

ATO Craig Howard Receives Mike Ingersoll Scholarship

Craig Howard, of Alpha Tau Omega, was recently awarded the Mike Ingersoll Memorial scholarship. Howard said that he felt "very honored" to receive the scholarship.

The award is given on the basis of student service to the university and over-all grade point average.

Howard is a junior majoring in political science. He is a member of the political science honor society Phi Sigma Alpha. He has served on the Student Union board of directors and is now president of the Student Union Board.

Howard has served in the ASUN senate and was on Homecoming committee, and chairman of

the Winter Carnival committee this year. He is active in Blue Key and a member of the debate team. He is serving in the President's cabinet and on the junior class committee. He has also maintained a 3.2 overall g.p.a.

After graduation, Howard plans to enter the service and then attend law school at Georgetown University in Washington, D.C.

Upon receiving the \$500 award, Howard said, "This is one of the greatest honors I have ever received since it was established in the memory of Mike Ingersoll, who was outstanding in every way. I only hope that I will be a credit to the memory of Mike and the significance of this scholarship."

Young Students Attend Nevada

Children from ages 2-4 years old are attending school at the University of Nevada.

They are pupils in the Child Development laboratory, located in the Sarah Hamilton Fleischmann Home Economics Building.

The laboratory has a three-fold purpose: to train college students for teaching in nursery schools, to aid the mental, social, emotional, and physical development of the child, and to help the parent gain a greater understanding of his child.

Children are chosen on the basis of their cultural, racial, and socio-economic backgrounds. A diversity of backgrounds in the children provides the best instructional program for college students.

A variety of projects and activities are presented each day for the miniature-sized students. They participate in arts and crafts projects, storytelling, adult play (playing house), and outdoor activities.

While the children participate in the day's activities, guided by student teachers, they are studied from observation booths equipped with one-way glass.

The students observe the children, and each writes a case history on one child. The history is

of value to both student and the child's parent. Although the student is not yet considered "an expert," an objective view of a child often helps the parents in their relations with their children.

Mrs. Janet Swobe, whose three-year-old daughter Jaclyn is in a child development class, says she "finds it a big help." Jaclyn was shy at first, and cried, says Mrs. Swobe, but she now associates freely with the other children.

Emotional and social growth of the child is designed to prepare him for elementary school. Children must learn to share, and cooperate in their work and play.

Records, books, and projects pique the child's intellectual curiosity, and hopefully cause him to explore such things on his own.

Results of the nursery school are brought out in student-parent seminars. Most parents are pleased with the results of the nursery on their children.

FEEDING DUCKLINGS on Manzanita Lake was the highlight of a field trip taken by children from the child development laboratory.

5 Coeds Selected For Photographs

Five University of Nevada coeds were selected to be photographed for "Mademoiselle" magazine's representative on campus earlier this month.

Women whose pictures will appear are: Linda Audrain, Martha Rose, Shirley Wiegand, Susie Nelson and Vicky Martin.

Local arrangements for the photographing were made by Charles A. Dromiak, editorial assistant at the University Press Service, and Marvis Cooper, AWS president.

Abel To Join Sociology Dept.

Professor Theodore Abel, who has been called one of the most learned and incisive masters of sociological thought, will join the University of Nevada faculty for the first session of summer school.

According to Dr. Robin M. Williams, professor of sociology at Cornell University, Abel has made many contributions to sociology and has a distinguished record of teaching. Also according to Williams, "Abel is a first rate scholar and man of grace, wit, eru-

dition, and humanistic sensitivity."

Abel has written four books and forty-seven articles for sociological journals. These articles and books have brought Abel international fame.

Abel is now on the teaching staff at Hunter College in New York City. He has been teaching in New York since 1929 and before that taught at the University of Illinois and Cornell University. Abel received his Ph.D. from Columbia University.

★ Letters To The Editor ★

Unopposed To U.S.

Dear Sir:

I participated in a demonstration today which proposed the abolishment of **COMPULSORY R.O.T.C.** I participated in that demonstration for two reasons only: (1) I do not think that anyone should be forced to receive the military discipline of R.O.T.C. for two years, and (2) I think a public demonstration properly organized and properly publicized would motivate this University's administration to make the necessary changes in the University's policy on this issue. In the past this University's administration has promised that some action would be taken, but it has failed to fulfill this promise.

The fact that I participated in this demonstration does **not** mean that I am opposed to military training; I am opposed only to enforced military training. Nor does it mean that I am a draft-card burner or that I am opposed to the draft. It does **not** mean that I am opposed to the United States Army or the United States government. It does **not** mean that I am for immediate pulling out of Viet Nam. The fact that I participated does **not** mean that I would participate in similar demonstrations on every other issue that demonstrators throughout the nation demonstrate on; nor does it mean that I would sympathize on all other issues with

those people whom I demonstrated with today. This does **not** mean that I am a reactionary just because there may have been reactionaries among the demonstrators; and if by some chance there was a Communist in the crowd (to my knowledge there was not), this does **not** mean that I am a Communist. And lastly, it does **not** mean that I identify with, nor that I am allied with, nor that I even associate with those people who participated in the demonstration for what I consider to be wrong reasons such as seeking attention or being "cool."

The only thing that I am sorry about is that there are those closed-minded people that would believe all of these things of me and others who participated just because of the fact that we participated. I have what I consider to be good reasons for opposing compulsory R.O.T.C., and I am willing to discuss them with anyone who is interested and who will participate in a rational reciprocal conversation — one at a time.

Sincerely,
William Georgeson

B Is For Bad

I was certainly glad to see someone with a good head on his shoulders speaking out against those queer demonstrators. We certainly don't want the University of Nevada to become another University of California at Ber-

keley; most of us would flunk out! But that's because we're well rounded and have "our feet on the ground." Those demonstrators were very different from most of us "level headed students."

I'm for voluntary R.O.T.C. too, but I certainly can't see the sense in bringing some attention to the issue and getting something done about it, especially when it involves demonstrations, because everybody knows that that's what they do down at Cal., and Cal's in Berkeley, and Berkeley starts with B, and B stands for Bad.

It certainly was hard to tell a couple of those guys from the girls, wasn't it Sig? Just like in Berkeley. I've come to know that a man who wears his hair long is either a pervert or an egg-head. In any case he is a person to be booed and persecuted like that long haired guy who lived a couple thousand years ago was. The Romans sure showed him that he didn't dress and act right, didn't they?

Something troubles me though Sig, and I'd like to ask a favor of you since your rarely smart and can really swing your weight around. Would you please think of something else to bring as much attention to the need for a voluntary R.O.T.C. program as the demonstration did? I'm like most of the other "level-headed" guys in this school and don't want to have to take R.O.T.C. anymore either.

David Dee

Pacific Regional Track Crown Snared By Windblown Wolves

by MIKE PARMAN
Sports Editor

The hustling Wolf Pack track team breezed past 16 West Coast opponents to take first place in the 1966 NCAA college division Pacific Coast championships on a windblown Reno track Saturday.

Nevada piled up 80½ points to outdistance second-place Redlands who gathered 44½. The meet was highlighted by several NCAA Pacific Coast records.

Otis Burrell high jumped 7-0 to break John Rambo's old 6-8½ record, despite a headwind that threatened to shake the bar down. Bill Perry took first place in the 440 - yard intermediate hurdles with a record-breaking time of 54 seconds flat. The wind was again a delaying factor, but Perry knocked three tenths of a second off the old mark. The time, however, was far below Perry's best of 52.5.

In perhaps the most thrilling event of the day, distance runner Mark Wynne sprinted the entire last lap to edge Jim Allen of Santa Barbara in the six mile. Both Allen and Wynne surged far ahead of the rest of the field, but neither was ever more than a yard in front of the other. Wynne won by a foot after 24 guelling laps with a time of 33:21.1.

Nevada, strong in the high hurdles all year, proved superior in that event again as the Silver and Blue took first, second, and third. Burrell, fresh from the high jump pit, edged teammates Vic Simmons and Ken Krank. The winning time was a slow 15 flat, far below the Nevadans' averages. The strong headwind made the difference.

Nevada did not have a single finalist in the 100, 220 or 440-yard dashes, but team depth accounted for the overall Wolf Pack win.

Foreign Colleges Will Offer Study

"Europe for study's sake" is the invitation offered to University of Nevada students by five European universities.

The universities in France, Spain, West Germany, and Austria are offering courses to U.S. students interested in European affairs in the field of the liberal arts and engineering and math:

Paris—Honors year in literature and social science at schools of the University of Paris.

Nantes — Engineering, mathematics, of French literature at the University of Nantes.

Madrid — Liberal arts and the social sciences at the University of Madrid.

Freiburg — Liberal arts at the University of Freiburg, West Germany.

Vienna — Liberal arts and the social sciences at the University of Vienna.

Information is available at: The Institute of European Studies, Admissions office, 35 E. Wacker Dr., Chicago, Illinois, 60601.

Nevada came on very strong in a new event, the 3000 meter steeplechase. Ron Lee, a sky-diver who parachuted into Mackay Stadium the day before in the Governor's Day ceremonies, took first place in a time of 10:11.1. It was

a new Mackay Stadium mark with a 24-foot jump. Larry Moore tied for third in the high jump.

Howard Briles placed second in the shot put at 56-3. Ron Moore took third in the shot and third in the hammer. John Riel took

OTIS BURRELL is up and over the 7-0 mark in Saturday's meet.

the first time the event has ever been run in a University of Nevada meet.

Lee Johnson, Redlands, set a new Pacific Coast record when he hurled the discus 172-7½. The mark broke the old record of Alex Darnes, a 164-4 heave set last year. Johnson also won the shot put at 57-7¼. Nevada's Terry Forbyn placed second in the mile and third in the 880. Frank Lemus took third in the three-mile. Don McCarthy took fourth in the six mile event and fifth in the three mile.

Walt Laurin placed fourth in the 440 intermediate hurdles. Nap Montgomery placed fifth in the broad jump with a 22-11 effort. Pepperdine's Tyrone Jackson set

fourth places in the hammer and the discus.

Steve Valle took second in the steeplechase, while Dave Taylor took second in the pole vault with a 14-6 mark.

Nevada's relay teams both placed third in both the 440 and mile relay.

Final scoring: Nevada 80½; 2, Redlands 44½; 3, UC Santa Barbara 35, Sacramento St. 35; 5, Cal State Hayward, 16; 6, tie, Pepperdine 13, Cal Aggies Davis 13; 8, Cal State Fullerton 12; 9, Seattle Pacific 10; Portland State 9; 11, Chapman 8; 12, tie, Cal State Long Beach, 5, Cal Poly (Pomona) 5, Sonoma St. 5; 15, Chico St. 3; 16, Pomona College 2.

Baseball Team Defeats San Diego In First Round Of NCAA Regionals

ANAHEIM — The University of Nevada baseball team qualified for the Pacific Coast NCAA College Division championship game by beating San Diego University, 5-2 in Anaheim Friday night.

A four-run ninth inning nailed the victory for the Wolves.

A dual performance was put on by Pack hurler Fred Dallimore. He struck out 15 men while only allowing 5 hits in going the distance, putting the pressure on the Californians during the last two innings. He also aided his cause at bat in the last frame.

In the first, both teams tallied one run, with no more scoring until the eighth, when San Diego went ahead 2-1.

Leftfielder Owen Toy started Nevada's ninth inning rally with a double to right-centerfield. Mike Sala then singled, bringing Toy home.

Earl Nursemant singled, sending Sala to second. Bob Gillham forced Sala at third on a fielder's choice. Bruce Nickerson came up to pinch hit for Lornie Wagner, and was hit by a pitch, to load the bases.

The stage was set for Dallimore's clutch single, which scor-

ed the two runs and won the game.

Rod Mathisen flew out and Steve Small hit into a fielder's choice to close the frame.

Earlier in the eighth Dallimore had loaded the bases with no one out, but he escaped with only one run scoring.

In the bottom of the ninth, San Diego managed to get two men on base, but Dallimore tightened up and struck out the last two men.

The Nevada victory entitled the defending tournament champs to meet Chapman College Saturday night. Chapman got into the championship by beating Portland State 4-3 in Friday night's second game.

Chapman College Stops Wolf Pack In Pacific Coast Championship Tilt

ANAHEIM—The University of Nevada baseball team failed in its bid to win the NCAA Pacific Coast Baseball Championship by bowing to Chapman College 7-4 in Anaheim Saturday night.

Relief work by towering 6-5 Steve Wright proved the difference in the contest. He relieved starter Ed Ferrante in the fifth inning, and shut out the Pack the

rest of the way. Of the 15 batters he faced, he struck 9 out.

Chapman knocked starter Carl Bossieux out of the box in the third inning by scoring four runs. The big blow of the game came on first baseman Tom Preston's home run.

Earl Nursement got things going for Nevada in the fifth with a single. Bob Gillham was then hit by a pitch, after which pinch hitter Ron Pagni singled to load the bases. Ron Mathisen doubled and Owen Toy singled to score three runs. An error by the left-fielder let another run score.

In the consolation game, Portland State edged the University of San Diego, 4-3.

Psychology Prof Will Leave Nev.

Dr. Gerald P. Ginsburg, assistant professor of psychology, will be leaving at the end of the year to take a job with the World Health Organization in Switzerland. WHO is connected with the United Nations.

Dr. Ginsburg will be based in Geneva, Switzerland, but he hopes to be able to travel while he is there.

He was approached for the job through a friend who recommended him to WHO.

Dr. Ginsburg plans to return to the University at the end of two years.

Two Profs Attend Cal Slavic Confab

Dr. James W. Hulse, assistant professor of history, and Dr. Alex Simirenko, assistant professor of sociology, attended the 1966 Far Western Slavic conference recently.

Dr. Hulse was the commentator on papers on international relations in the communist world during World War II.

Dr. Simirenko presented a paper on "Slavic Trends of Sociology."

The conference was held at the University of California at Berkeley.

IFC, Women's Councils Hold Joint Confab

A joint meeting of the Inter-Fraternity and Panhellenic Councils was held in the Hardy Room of the Jot Travis Student Union Building Tuesday, May 17.

The representatives of the Greek-letter organization voted unanimously to continue the Wolves Frolic as a part of the Homecoming festivities next year. The chairman for the "Frolic", will be Doug Cosey of ATO. It was decided that there will be an overall theme to be followed by the groups.

There was also discussion of a possible "Greek Weekend" for the spring of 1966. It was suggested that the function take place on a Saturday afternoon, but no concrete conclusions were reached. The details will be worked out by the IFC and Panhellenic presidents.

IFC President Mike Woodhead of Sigma Nu presided over the meeting, which was attended by the representatives of each fraternity and sorority, as well as Dean of Men James Hathhorn and Panhellenic President Sherry Locke, of Kappa Alpha Theta.

From the End of the Bench

by Mike Parman

SEVERAL NEVADANS WILL HEAD FOR MODESTO this weekend, to compete in the California Relays. Otis Burrell and George Puce will probably be among the Nevada entries. Puce uncorked a 195-8 discus heave over the weekend, although the throw did not count because Puce was ineligible to compete in the meet.

AWARDS TO BE GIVEN . . . TO HOUSTON WILLIAMSON, one alarm clock. The Nevada sprinter slept through the qualifying trials Saturday morning and could not compete in the regional meet . . . To DAVE GRANT, one bath towel. The Seattle Pacific steeplechase runner twice fell headlong into the water hazard during the race. Add a pack of the band aids to the award. The Seattle Pacific runner also fell over three hurdles and landed on the track during the event.

OTIS BURRELL cleared the bar by several inches when he leaped 7-0 Saturday. If the wind had not been so bad, he may have really hit the headlines.

NAP MONTGOMERY was definitely off his best form in Saturday's meet. He was far below his personal best of 48-2 in the triple jump. The winning leap at the Regionals was 47-8. Montgomery has consistently jumped over 46 feet this season.

MORE TEAMS WOULD HAVE BEEN PRESENT at the relays, except several schools down South were holding their conference championships. As it was, the meet was one of the biggest ever in the state.

DON'T HAVE MANY DETAILS ON THE BASEBALL REGIONALS at Anaheim, but Greg Zive will tell us the whole truth about the championships in Friday's Sagebrush.

POLE VAULTER John Hancock clears bar in Saturday's meet.

Union Board Will Open In Summer

The Student Union Board will be in operation during summer session at the University of Nevada, it was decided at the May 12th meeting of the Student Union Board.

Activities will be similar to those in the past. There will be wine tours, baseball trips, and other summer events besides the TUB movies.

The members of the Student Union Board for the summer have not been appointed yet by TUB President Craig Howard.

'Man On Moon' Exhibit Held Here

"Man on the Moon", an exhibit presented by the Chief of Information of the U.S. Army, was presented in the Jot Travis Lounge. Along with the pictures and explanations, an eight-minute movie was shown.

The exhibit concerned survival on the moon and included phases on moon mapping, environmental studies of the moon, mobility on the moon, sub-surface living, and the moon port being built at Cape Kennedy for the National Aeronautics and Space Administration. The exhibit was shown through Governor's Day.

Less Than 100 Men Keep U of N Campus Operating

By DAVID BASSO

Who is responsible for maintaining the 30 acres of lawn at the University of Nevada and cleaning the thousands of square feet of floor area in the university's some 34 buildings?

The buildings and grounds department is responsible for these jobs and many others. Less than 100 men under the direction of John Sala keep the campus community operating. There are twelve divisions within the department. Each division is concerned with a certain aspect of the campus upkeep. Four of the most important divisions are headed by Bill Carter, grounds foreman; George Sensibaugh, motor pool; and Claude Mathews, heating plant; David Thimgan, custodial.

According to Carter, two men are kept busy mowing and trimming the 30 acres of lawn. The grounds division also plants all the flowers and shrubs. These are grown in the university greenhouses located behind Scrugham Engineering Building. Herb Preuss, greenhouse foreman, grows nearly all the plants used in landscaping at the university.

Preuss has been with the uni-

versity 30 years. He was an apprentice horticulturist in Germany before coming to the states.

"I like to work with plants, and I guess it is all I really know," Preuss said.

Preuss grows a variety of plants peculiar to the tropics. Among these are pineapple, bananas and coffee. He also has a collection of orchids which he is very proud of and displays in the student union at various times during the year.

The grounds division is also responsible for moving equipment and furniture on campus. The men prepare the gymnasium for concerts and other ASUN activities.

A new job for the division is caring for the new stadium. According to Sala, the stadium requires less work than the old one. The field is equipped with an automatic sprinkler system, and the bleachers may be hosed down for cleaning. In the old stadium many man hours were spent cleaning the bleachers.

Sala added that the asphalt track was much easier to maintain. The old dirt track had to be rebuilt each year.

About 90 vehicles comprise the university's motor pool. These in-

clude a number of work trucks used on campus. George Sensibaugh's job is to keep these vehicles running.

"Most of our work is in keeping the cars in the motor pool tuned. We spend a lot of time on brakes and clutches also," he said.

"Compared with the average of the cars on the road today, we have a pretty good record in preventing mechanical failures," Sensibaugh added.

The heating system at the university has seen many changes. Claude Mathews, who has been with the university for 18 years, said the heat used to come from a boiler in a cow shed and many buildings were heated by their individual plants. Today all the major buildings on campus are heated from the central heating plant.

The plant was completed in the winter of 1963-64. It is equipped with two 50 million BTU heat generators which "superheat"

steam to 400 degrees. The steam is used for heating the buildings and dormitories and is used in the dining commons and laboratories.

Prior to the installation of the new plant, the average mid-winter monthly cost of the heating system was \$5,000. Today it is still that figure. However, the heating load was increased by 5 million BTUs. According to Sala, economy and efficiency in design

are responsible for keeping the operating cost down.

Without the custodial division under foreman David Thimgan, the university could not function. Thirty seven men and women keep all the offices, classrooms, and laboratories clean year round. They must clean the floors, change light bulbs and empty waste paper baskets. Hundreds of pounds of paper are discarded each year.

Spurs Selling Candy Bars

Spurs members are selling chocolate and almond candy bars to raise money to help send members to the National Spurs Convention in Denver, Colorado. The candy selling project is being undertaken by both newly initiated members and the 1965-66 members.

The decision to send several representatives to the convention was made at the last Spurs meet-

ing of the year. The club will pay for a junior advisor's trip and will help pay for members trips to the June 12-15 convention.

Representatives from approximately 45 states will be at the Denver Convention.

The no-drag shaver. You might not shift to 3rd until you're 17.

Usually 17 is the time peach fuzz turns into hard bristle. Then you've got trouble, unless you have a shaver that can grow up with you. Like the new REMINGTON® 200 *Selectro* Shaver with the dial. Alias *no-drag*. We gave it an alias because you can shift all over your face and adjust to your particular beard. Any variety from fuzz to scrub brush. Turn the dial to 1st. You can take off uphill on your neck. No drag. In 2nd you can go through a couple of days' growth. No pull. In 3rd you can take on *anything* without leaving skid marks. Shift to 4th and you're in and out of corners. You drift over tender spots like your upper lip. 5th is the finishing line. Straight sideburns. In 6th you clean out the whiskers. The *Selectro* Shaver is up there in the Ferrari class, but we've managed to make it cost less than a lot of regular shavers. We're not out to take you for a ride. We also make a complete line of cordless shavers, in case you're interested.

Two Home Ec Majors Receive Michigan Expense-Paid Trip

Two University of Nevada home economics majors will take an all-expense-paid trip to Michigan this summer. They are Frances Jones and Janice Miller, winners of the Danforth Leadership Training Scholarships.

The scholarships were presented at the home economics "Get Smart" social last week.

Janice Miller, the Outstanding Junior in Home Economics, will travel to St. Louis, Missouri for two weeks, then join Frances Jones in Michigan. Miss Miller's St. Louis trip is sponsored by the Ralston-Purina Company. Miss

Jones was the Outstanding Freshman in Home Economics.

The two women will stay in Camp Miniwanca, Michigan for two weeks.

Other scholarships were presented at the social.

Scholarships and awards were presented at the home economics "Get Smart" social last week.

Sally Kees won the Nevada State Cow Belles scholarship.

The Nevada School Food Service Association scholarship was awarded to Shirleen Merrill.

Sally Kees, Nancy Bruce and Judy Frey won E. J. Questa 4-H scholarships.

Max C. Fleischmann Foundation scholarships of \$750 were awarded to the following seniors: Barbara Fleischer, Julia Lewis, and Janice Miller.

Juniors receiving the \$600 Fleischmann scholarships were: Jane Cook, Robyn Frazier, Kaemarie Greene, Monica Guild, Marsha Hendrickson Read, and Georgia Smith.

Scholarships of \$450 from the Fleischmann Foundation were presented to sophomores Helen Burr, Jeri Gadda, Cheri Jones, Frances Jones, Marilyn Mooney, Deborah Rose, Carla Stewart, and Patricia Steigler.

Julie Lewis was installed as president of Eta Epsilon, an honorary sorority for home economics majors. Other officers installed were: Dixie Spracher, vice president; Nedra Fowler, secretary; Monica Guild, treasurer; and Ronda Stodtmeister, AWS representative.

Refreshments were served by Miss Alice A. Bauer's creative foods class.

Sheila Dwyer Selected President Of Sagens For Coming School Year

Sheila Dwyer was chosen to lead next year's Sagens. Miss Dwyer was elected to the office of President at the annual Sagens dinner for new and old members at Trader Dick's last Wednesday.

After taking over the meeting, Miss Dwyer conducted the nomination and election of the following officers: Julia Lewis, vice president; Paula Brown, secretary-treasurer; Mary Spikes, Associated Women Students representative; and Carolyn Dondero, historian.

Outgoing president Suzi Natucci was presented with a charm bracelet on which was engraved a tiny gavel symbolizing her year as president of the organization. Other persons honored at the annual dinner were: Elaine Mobley and Roberta Barnes, deans of women; Trinie Erquiaga, administrative assistant to the graduate manager; Janice Howells, secretary to the deans of women; and Jean Vaughn, secretary to the dean of men.

This week Sagens will meet to

decide on uniforms for next year and on the recipient of the annual Sagens scholarship. The scholarship winner is annually elected from the ranks of the honorary organization.

Mike Parman New President Of Phi Sigma Kappa House

The members of Eta Deuteron chapter of Phi Sigma Kappa recently elected Mike Parman as Fall 1966 president.

Some of Parman's accomplishments are: 1965 California Collegiate Boxing Champion, 172 pounds; Editor, 1966-1967 Student Directory; Sports editor, Sagebrush; member of Sigma Delta Chi, professional journalism fraternity; editor of the ROTC Department's "Battleborn"; Member Advanced ROTC and UNCOC; member of IFC Rush Committee; winner of one ROTC scholarship

and several journalism scholarships; and Outstanding Greek of Phi Sigma Kappa, 1966.

MIKE PARMAN
Phi Sigma Kappa

Parman is a 21-year-old journalism major from Reno, and he replaces Dick McCoy as Phi Sigma Kappa president. He has served Phi Sigma Kappa as secretary, pledge trainer, and rush chairman, and he currently has a 3.2 grade average.

Speech Department Chairman Honored at Testimonial Dinner

A testimonial dinner for Dr. Robert S. Griffin, chairman of the speech and drama department, was held Saturday night at the Elk's Club.

Dr. Griffin is retiring after 38 years of service to the university. He headed Nevada's first debate team, which won every debate it entered.

He was dean of men for many years. He became the head of the speech and drama department 12

years ago when it was first established.

Last month, Dr. Griffin brought the national debate tournament of Delta Sigma Rho — Tau Kappa Alpha to the Reno campus.

He also originated the Nevada Great Western Debate Tournament which has been held at Nevada for 11 years.

Former students, friends and associates of Dr. Griffin attended the dinner.
