Student Enrollment Still Increasing; Males Continue to Outnumber Females

Regular enrollment at the University of Nevada is up nearly 600 over last year for a record 6,539 students on the Reno and Las Vegas campuses. The Reno campus has the most regular students, 4,459, more than twice the 2,080 enrolled at Nevada Southern University.

The total enrollment swells to nearly 10,000 with the addition of the 3,254 students who are classified as auditors, special, or in correspondence study.

There are 2,565 women registered as regular students at the University. But as usual the men outnumber the women on both campuses. Nevada Southern has 1,140 men and 940 women. The main campus at Reno has 2,834 men and 1,625 women.

Students come to the University from many foreign countries, 42 states, and all 17 counties in Nevada. Foreign students number only 63, but they represent 22 different countries. The Republic of China has the lead in foreign students with 15 and India is next with eight students.

California, with 687, has the majority of out-of-state students. This is more than the students from all other states represented at Nevada. New York and

'Knowledge' Topic For Presentation

"The Pursuit of Knowledge as a Way of Life" will be the topic of a presentation by Mrs. Molly Magee on Thursday at the Jot Travis Student Union Lounge.

Mrs. Magee will address the honors colloquium at the noon meeting.

Mrs. Magee, author of many articles in the fields of archeology and anthropology, is intensely interested in the Nevada Indian. She has discovered many important facts concerning the living and sociological habits of the native Indian.

Judicial Professor Wants Medicine-Law Study

The Associate Dean of the National College of State Trial Judges will be leaving again next month to attend a three day meeting in Washington D.C. The two deans of the judicial college are noted for their extensive travels around the U.S. and bordering countries.

Professor Justin Smith, associate dean, will be attending a meeting of the country's leading law educators, scheduled for the 28, 29 and 30 of December.

The meeting, which will host 600-700 American Law Professors, is in conjunction with the Association of American Law Professors.

Smith is in the final stages of preparing a speech that he will present at the east-coast meeting.

The eight-page presentation deals with the problems that exist between

Oregon run a weak second with slightly more than 30 students each.

Washoe County still is the most well represented on the Reno campus with 2,285 students.

Nearly 1,600 of the regular students at the University of Nevada are married. There are 545 married men enrolled at the Reno campus and 301 married women.

The College of Arts and Science has the largest enrollment on both campuses with 1,771 students. The next two colleges with large enrollment are business administration and education with 719 and 819 respectively.

Jobs Scheduled For Students During Summer

Opportunities for summer employment in the many agencies of the Federal Government are available to college students, according to William E. Rasmussen director of Financial Aid and Graduate Placement.

January 9 is the final filing date for applications. After registering for the examination, the test will be administered for the last time on February 4. This examination provides equal opportunity to compete for the jobs available. Through examination, the Federal Government can make temporary summer appointments on a merit basis.

This examination is specifically for Office and Science Assistants. The kinds of jobs available are: typists, office machine operators, stenographers, clerks, and a scope of positions in limited numbers for biological technician, survey technician, library assistant, mathematics assistant, medical technician, and meteorological technician.

the fields of law and medicine. The speech is entitled, "An 'Ideal' Course in Law and Medicine: A Counter Proposal."

Smith illustrates how the fields of law and medicine should be more closely related and how the bridge could be gapped by a well planned course in law and medicine.

He says, "a course of this type would familiarize the law student with the field of medicine and give him the opportunity to view life from a different dimension."

Smith, a former Associate Professor of Law at Western Reserve University in Cleveland, was appointed Associate Dean of the College of State Trial Judges in February.

He is the author of many articles that range in content from the investigation of fatal gun-shot wounds to the

Students Rate Professors By ASUN Trial Evaluation

The ASUN senate's committee on teacher evaluation will hold a trial evaluation at the end of this semester, reports chairman Dick Harris.

Universities and colleges across the nation have held student evaluation of

used to embarrass or get even with teachers. We hope the professors will use the evaluation to improve their teachings," says Harris.

Harris says the University of Washington spent \$3,000 and a great many hours in preparing a booklet which evaluated every teacher and his course. This is done to make course and teacher selection easier for the student. The booklet was done on a compulsory basis and Harris says some of the evaluations were "brutal."

"Students have a vested interest in their education, because they invest a great deal of time and a large amount of money in it. So it is proper for students to improve the instruction at the University," says Harris.

The program is financed by the Associated Students of the University of Nevada and will be open to teachers as an aid for their own use, says Harris.

Late next Spring, Harris hopes to have the program ready to evaluate teachers for the Fall semester. He expects 180-200 professors to take part in the evaluation program. However, he expects a few, maybe 10 teachers to make their evaluations public.

Harris says the program will remain voluntary for several years and then perhaps the administration will feel the students can evaluate professors in a mature manner and the program could become compulsory.

Dick Harris, Chairman of ASUN Senate Teacher Evaluation Committee.

teachers with varying degrees of success. In January Nevada students will be given a form for teacher evaluation by the co-operating professor. The trial evaluation will be used to determine the best questions to use and whether or not the teachers will accept the program.

"The evaluation will be run on a voluntary basis only and it will not be

Novelists Teach Frosh English

Freshman English does not need to be the bane for first year students. Stanford University has initiated a program which could turn freshman English into one of the most popular courses on campus.

A three-year experimental course is being held in which professional writers will teach a creative writing program on the freshman level. Classes with only 20 freshmen in the section will be taught by writers on a full time basis. Some of the novelists are faculty members and others have been brought to the University for the experiment, but all are published authors.

Professor John Hawkes, novelist and member of the English department at

Brown University, is director of the project at Stanford. First year instructors, in addition to Hawkes, include short story writer Sylvia Berkman, Wellesley College, and novelists Leo Litwak, San Francisco State, and Jerome Charyn and Clive Miller both of Stanford.

Author of the current New York Stage Play, "Hogan's Goat", Harvard professor William Alfred will also take part in the program along with two other eastern novelists Mitchell Goodman and Mark Mirsky, both of City College of New York.

San Francisco State's novelist Kay Boyle will serve as a consultant to the program. The United States Office of Education has awarded Stanford \$185,000 to finance the project.

Next year, novelist-critic Benjamin DeMott, head of Amherst College English Department will take part in the freshman English experiment.

Grad Record Exam Scheduled Dec. 17

Dr. Robert J. Whittemore, Director of Counseling and Testing, has announced that the Graduate Record Examination will be given at the University of Nevada on Dec. 17, 1966.

He said information and application blanks may be obtained from him, at Room 108, Clark Administration.

The test had previously been scheduled for January 1967, but was changed because of widespread interest in early completion.

All graduate students are required to take the test before entering graduate school or during the course of their studies.

Editorial . . .

Evaluation Farce

Teacher evaluation at the University of Nevada is a farce and should not be allowed to consume any ASUN money.

Teachers will be evaluated or graded on a form which the teacher can keep private or make public at his option. But the students will be paying for the program. Chairman, Dick Harris says his committee doesn't want to embarrass

or get even with teachers, only help them improve their teaching.

We feel this a fine goal, only the students should not be required to pay for it. If student funds must be used, those teachers who instruct required courses should be required to submit to evaluation. Student evaluation should not be used to decide tenure, but it should enable the student to choose the best instructor for a course he has no choice in taking.

We find it incongruous to think students can be graded and teachers cannot. Really, if students have the "vested" interest in their educa-

tion Dick Harris says they do, then why are the teachers answerable only to their peers?

One problem with the senate committee on teacher evaluation is its chairman. Dick Harris is a fine student and we do not want to challenge his character. But his father is a long time faculty member at Nevada. Harris cannot be objective about putting teachers on the line as either good or bad.

The program must be discontinued, unless the administration wishes to use their funds. After all the administration will receive any benefit there may be in a secret rating system.

Codger's Column

By LOUISE WHITE

Not necessarily feeble, a Codger is an undergraduate, 25 or more

In September, Assistant Dean of Women Roberta Barnes estimated that perhaps 10 per cent of the undergrad population was over 25-year-olds. At the time, she thought that 10 per cent might be an optimistic figure.

As it turned out, it was an accurate estimate. There are 783 students over 25 registered this semester.

Of course, these are not all Codgers. Not quite half are graduate students. But better than half are undergrads.

Next semester, the Dean of Women's office hopes to see the percentage rise—at least as far as female Codgers are concerned.

Dean of Women Elaine Mobley and her staff believe that there are women in the Reno area who would

like to return to school. Many don't return, simply because they need encouragement.

Those who have come back know that if you've been out of school—even for only a few years—it's hard to come back.

Fear is the greatest deterrent. Fear that you're too old. Fear that you can't study anymore. Fear that you can't compete with the kids. But fear tends to overcompensate, and those who do come back usually do just great. (Now, Noncodgers, you know why Codgers are average raisers.)

A second deterrent is the lack of a motivating goal. Many would probably return if they knew about the careers that are open to women in the Reno area, and the educational programs that are available to prepare them for careers.

With this in mind, the Dean of Women's office plans to offer encouragement to would-be "older" students. On Thursday, a one-day conference on the "World of Opportunities for Women Through Education" will be held in Jot Travis Student Union.

The conference will point out the many ways that women may embark on careers, the need for educated womanpower in Nevada, and the educational opportunities within easy reach.

Because money is always a problem to everyone, financial aids for education will be covered. And the question, "How will I find a job after I get my degree?" will be answered by William Rasmussen, director of Graduate Placement Services.

If this isn't enough of a motivating force for would-be students, the afternoon discussions in detail by representatives of five colleges on campus, the adult education program and the technical institute should supply any still-needed impetus.

And to lick that old bugaboo, fear, a panel of four female Codgers will tell the conferees how it feels to be students again.

If listening to these four doesn't convince the audience that they, too, can do it, nothing will.

The Thursday program is a pilot conference. If it is a successful one, the Dean of Women's office will sponsor it as an annual affair.

As one Codger to all of you Noncodgers, watch out. Before you know it the Codgers will outnumber you!

Practical Business Program Slated

A program in practical business begins this week for pledges of Delta Sigma Pi, the professional business fraternity.

A tour of a local new car agency heads the schedule, where students will get firsthand information on operational, promotional and other business procedures. Other establishments are slated for the local business tour in the near future. The purpose of the program is to let pledges see how

business theory is applied. Students will hopefully gain a broader practical background for their chosen careers.

Although the fraternity periodically takes similar tours, this is the first time pledges have organized their own program.

Those participating will be: Dave Bianchi, Bob Guernsey, Leo Humphreys, Lief Wade, Pete Eckland, Bill Harvenrider, and Bill Lynch.

Precissi Heads Coed Officers

Colonel's Coeds have elected their officers for 1966-1967. Pat Precissi was elected president of the new organization; Sherryl Wiley, vice president; Judy Ralf, secretary; Vicki Geertsema, treasurer; Susie Bruckart, publicity chairman Michele Elcano, AWS representative; and Diane McNeely, activities.

The Coeds will be meeting Wednesday at 6:30 p.m. in the Student Union. At this time Christmas projects will be discussed and yearbook pictures taken.

The Colonel's Coeds, a newly formed group of women, are sponsored by the ROTC. They helped with ticket sales and decorations for the Military Ball.

Military Ball queen candidates were chosen from the group. Future activities of the Coeds are a money raising Christmas project, selection of group dress, and generally supporting the ROTC program.

Ski Lodge Extends Rate to Students

The Mt. Rose Ski Lodge, a new development in the Reno skiing area, is extending a special season rate to University of Nevada members.

This rate is available to University students, faculty and family, and University staff.

The group rate will be \$37.50 per person. The regular season price is \$75.

Mr. Rose began operation last year, and because of its location, has potentially good snow conditions and a long season ahead. The ski area is located on the Mt. Rose highway near the summit.

All interested students must bring their ID card and sign up in the gym, to prove that they are enrolled in school. A season pass may then be purchased at the lodge.

Students may contact Miss Gail

Shierman or Mr. Magny of the Physical Education Department. All names must be in by Dec. 31.

Bay Area Showing Held Saturday

An exhibit of "Bay Area Art" was on display Saturday, November 19, at the Church Fine Arts building on the University of Nevada campus.

Paintings, drawings, and sculptures by James Melchert, Robert Hartman, and Walter Kuhlman were featured. The works were obtained from the Hansen, Dilexi, and Berkeley galleries for the exhibition.

In the afternoon, the artist presented a panel discussion of the "Bay Area Art."

Poli Sci Intern Deadline Dec. 1

The deadline for turning in applications for the political science intern program is December 1.

The program, sponsored by Senator Howard W. Cannon, will allow a student to serve in Senator Cannon's office for a period of five months, beginning February 1, 1967.

The student chosen will receive sufficient pay while in Washington and will get six credits in Congressional Internship at

the University. He will also register for a three-credit course at a university in the Washington D.C. area.

The internship is open to all qualified applicants without respect to political affiliation.

Students interested in applying for the internship, or in learning more of the details, should contact Professor Eleanore Bushnell, chairman of the Department of Political Science.

Claim Ball Prizes

The University of Nevada Military Department has announced the prize winners of this year's Military Ball.

Persons holding winning tickets are asked to pick up their gifts soon at the Department of Military Science, Supply Room, Hartman Hall.

4-H Convention

Three University of Nevada agricultural students, Linda Glaser, Jeanne Maroon and Jon Cameron, are currently in Chicago as part of the state of Nevada's 4-H Club delegation. The National 4-H Club Congress Convention concludes Dec. 1.

From the End of the Bench

By MIKE PARMAN

TONIGHT THE WOLF PACK . . . Is in action. The varsity takes on the frosh. Sports fans will get an early look at the Wolves. There will be some changes made from last year. Bigger and slower, without the well-balanced outside shooting of last season, this year's team will be forced to rely on ball control, and the good shot. We may be better defensively and on the boards.

BOB GILLIAM . . . Will be the only starter Nevada fans will be familiar with. The team will rely on him to come through with lots of clutch shooting and play-making.

IN BOXING . . . Jeff Olivas, the coach's son, is making a strong bid for the 178-pound slot. After a tour in the Marines, Jeff, a good left-hooker, is back in action. Mike Smithwick, last season's entry in that division, has gained weight and may move up to the heavyweight division. The team will be especially strong in the heavier divisions, although somewhat short of lighter men.

WRESTLING TEAM FOR 1966 . . . should be just about the best since the sport began at the UofN. Past seasons, however, have found the Pack unable to keep a good share of the tug and pullers eligible because of grades. It has not been uncommon for the team to lose more than half its starters by the time second semester rolled around.

USF APPEARS VERY INTERESTED . . . in joining FWC. I don't know why. They produce a top contender for national basketball honors every season, and have taken several national championships. In order to join the FWC, the Dons would have to drop to the small school category, and could give fat athletic scholarships no longer. They presently compete in the basketball league as UOP, Santa Barbara, Santa Clara, St. Mary's, San Jose St., Pepperdine, and Loyola of Los Angeles. They are an independent when it comes to football.

WRA Starts the Ball Rolling

Two extramural clubs, volleyball and basketball, are in progress with the Women's Recreation Association.

Volleyball club began practice two weeks ago and will finish with the Northern California Extramural League Volleyball Sportsday on Jan. 7 in Stockton, California.

Basketball began practice Monday. The Basketball Club will be divided into two groups, the freshmen and upperclassmen.

Freshmen will engage in competition with junior colleges and local high schools. Upperclassmen will attend League sportsdays and dual meets of the Northern California Extramural League.

The league is comprised of the University of Pacific, University of California at Davis, Sacramento State College, Chico State College, Humboldt State College, California State College at Hayward, and the University of Nevada. The league is the governing group for all dual meets and sportsdays involving any recrea-

tional activity of the seven schools.

The University of Nevada will host three basketball meets at a gymnastics meet.

Last FWC Game

The last Far Western Conference football game of 1966 saw Hayward State lost to non-league foe University of Redlands, 37-18, Saturday at Hayward.

The rest of the league football teams ended season play the weekend before.

Redlands quarterback John Hoak ran for one touchdown and passed for three more in leading the Bulldogs to their seventh win of the season. Their record was 7-3, while Hayward finished with a 2-8 mark.

Redlands jumped off to a 27-0 lead before the Pioneers could get on the scoreboard.

Russ Anderson of Hayward scored the longest run of the day, a 93-yarder to the end zone after Redlands' Hoak lost the ball.

Varsity-Frosh Clash Tonight

Nevada basketball fans will get a chance to look over both the 1966 varsity and frosh tonight, with the two clashing in the new gym.

It will be only the second varsity-frosh basketball game in the last eight years.

Game time will be 7:30 p.m., and will be played under regular game conditions. Officials and an official clock will be used. Admission is free.

The Wolf Pack is rapidly preparing itself for its season opener against the College of Idaho, Dec. 5. The frosh open the same night, against Reno High School.

The frosh team is coached by Frank Bruno, former backcourt star for Nevada last year.

With about a week remaining before the season opener, the varsity is shaping up well. Although slower than last season's

team, the new Wolf Pack will feature a ball control style of play.

After 14 straight days of practice, the varsity took a day off Saturday.

Tuesday night's game will feature many new faces. The team will be without the services of Nap Montgomery, Bill Nicholson, Frank Bruno, and Larry Moore, all of whom were on either the

first or second all-FWC teams last season.

They ended the season with a 21-6 record after going undefeated in conference play.

Don't read this ad unless you mean business

If you're looking for a job to tide you over until you decide what you really want to do with your life . . . forget us. We're in a hurry, we're growing fast, and we promote from within our own organization.

That means we're highly selective. This year, we'll settle for just 150 college men who appreciate the difference between contributing as an individual to a team effort, or working for an organization big enough to hide in, where their mistakes won't be noticed. If you are an individual, and want to remain one, you should be talking to us soon.

Here are a few facts that may help you determine your future:

Hyster people are different because their business life is purposeful. Every member of the Hyster top management team has earned his promotion through the Company ranks. All Hyster products are sold through dealers, and most of these are independent businessmen. They are free to choose the manufacturer and the products they want. In the U. S. these same businessmen have been Hyster dealers for an average of 16 years.

Hyster markets a complete line of fork lift trucks, earth compacters, heavy-duty trailers, and logging equipment in principal cities throughout the free world. These products are manufactured in 12 company-owned plants around the globe. From our start as a one-market company, we are today reporting sales in practically all industrial market classifications. Some 75 per cent of our sales volume is currently spread over 15 major industries. Total sales for 1965 amounted to more than \$127-million, an increase of 28 per cent over 1964. Profits rose 35 per cent over 1964, to \$9.8-million.

For all these reasons, Hyster is interested in you if you are an Engineer or a major in Business Administration, Marketing, Accounting, Liberal Arts . . . and feel you are ready for this kind of challenge. Contact your placement officer for an interview, or write directly to Jim Chapman at the address below. We'll take it from there.

Educated Women Need in Nevada

Nevada needs educated womanpower and the Office of the Dean of Women will prove it on Dec. 1.

At 9 a.m. on Thursday, a one-day conference on the "World of Opportunities for Women through Education" will open in Jot Travis Student Union.

Chancellor N. Edd Miller will welcome the conferees. Mrs. Hope Roberts, chairman, Govern-

or's Commission on the Status of Women, will make the keynote address.

"How it feels to be a student again" will be panelized by women students, moderated by Dean of Women Elaine Mobley.

After an 11 o'clock lunch, conferees will learn how and why Nevada needs educated womanpower. Representatives from First National Bank, Washoe

Medical Center, the county school system and the state employment office will present the explanations.

Areas where further education is available to women will be outlined by Alan Dondero, director of adult education, Washoe County School District, and by four University of Nevada staff members: Dr. Wayne Martin, director of continuing education and off-campus programs; Harry Wolf, director of technical education; Kenneth Jessup, deputy registrar; William Rasmussen, director of Graduate Placement and Financial Aids.

At 2 p.m., the conference will split into six discussion groups based upon individual areas of interest.

Technical and adult education will be discussed in Travis Lounge, under Alan Dondero and Harry Wolf.

Opportunities in the School of Home Economics will be presented in the Card Lounge by Hazel Hardy, lecturer in child development and family life.

In the Tahoe Room, Alene Dickenson, professor in the Orvis School of Nursing, will explain the nursing programs.

In the Truckee Room, assistant professor Alice White will talk about the College of Business Administration.

Dr. Dana Davis, assistant pro-

fessor, secondary education, will outline opportunities in the field of education to the group gathered in the Hardy Room.

In the Nevada East-West Room, Dr. Harold Kirkpatrick, assistant dean of the College of Arts and Science, will speak to women interested in this field.

Printed materials will be supplied to conference attendants through Mary Dublin Keyserling, director, Women's Bureau, U.S. Department of Labor.

Assistant Dean of Women, Roberta Barnes, hopes that the conference will entice more women to return to school. The present enrollment of women over 25 is 221, she said. The Office of the Dean of Women would like to see the enrollment swelled next semester.

"We believe that there are many women in the community who would like to return to college and prepare for careers, but they need some encouragement. We hope that this conference will give them that encouragement," Miss Barnes said.

German Club Meet

The German club will meet Tuesday, November 29, at 7 p.m. in room 102 of the Church Fine Arts building. Featured guests will be Geoffrey Rutkowski and Gary Arnold.

The program will be Braham's Sonata, Opus 99. Mr. Rutkowski will play the violin cello and Mr. Arnold will play the piano.

All club members are urged to attend.

Ag. College Get Advice From Growers

Review of current programs and what is new in the area of resident teaching, research and Extension will be part of the ground covered when representatives from throughout the state, meet in Reno, Nov. 29-30. They will be serving on the Max C. Fleischmann College of Agriculture, University of Nevada Advisory Committee.

Thirty people from various areas in the state and representing such groups as the woolgrowers, state livestockmen, dairy associations and others as well as the experimental station advisory boards sit on the College Advisory Committee. Chairman is Eyer Boise of Contact, Nev. Norman Brown, Smith Valley, is assistant chairman.

Dr. Dale W. Bohmont, dean and director of the College of Agriculture, along with division and department heads and other staff, will sit with the advisory committee to conduct the review of programs, acquaint those attending with new developments and to answer any questions presented.

The chief function of the advisory committee is to indicate to the college what the needs of the agricultural and allied industries are in the state and to suggest how the college might aid in meeting these needs. Suggestions may encompass the resident teaching program, the experimental station or research program and the Extension program.
