WOLF TRACKSTERS WILL FIGHT FOR TITLE

Senior Week and Commencement Looms Just Ahead

COMMITTEE HAS FULL WEEK FOR SENIORS DURING LAST DAYS HERE

Senior Supper Set For Thursday Night At Century Club

PICNIC AT DONNER Faculty, Senior Ball Game To Be Played Off Monday

Arrangements for the annual Senior Week, which will be from April 29, to May 10 this year, have been completed by the senior week committee.

On Thursday, April 29, President and Mrs. Clark entertained with a senior supper.

On May 1, the Juniors will be hosts to the graduating class, entertaining with the annual Senior Ball at the Century club.

Monday, May 3, a baseball game between the faculty and the senior class will take place on Mackay field.

Faculty Batteries. The faculty team is not disclosed as yet, but it is known that Prof. "Geology" Jones will be catcher.

May 4, is the date set for the Senior Ramble to Donner Lake. A basket lunch will be partaken of about midday.

May 5, Deans Adams, Leach, Hall, Sibley and Director Fulton are giving a stag dinner at the Lincoln hotel in Sparks.

May 6, the Senior Pilgrimage will take place. The senior pilgrimage will start at ten o'clock from Manzanita.

May 7, A. W. S. will entertain with a tea at Manzanita in honor of the seniors and their parents.

May 8, Commencement exercises will take place followed by an Alumni luncheon.

MEEDITATIONS OF MANZANITA AZIE:

Senior Week Program

Saturday, May 1— 7 p. m.—Band concert on Tram lawn. 8 p. m.—Glee Club concert on Tram.

RAILROAD GIVES LAND TO STATE FOR EXPERIMENT

The Agricultural Experiment station of the University has been given a lease on 10 acres of land near Las Vegas, Nevada.

Will Study Methods Of Developing Nevada Desert Tracts

The Agricultural Experiment station of the University has been given a lease on 10 acres of land near Las Vegas, Nevada.

PLAYERS ELECT HENRIKSEN HEAD

Eric Henriksen, '27, was elected president of Campus Players at a meeting held Wednesday evening at the Tri Delta house.

CAP AND SCROLL TO INITIATE SIX

Cap and Scroll, the women's honor society, will hold initiation for their new members next Monday afternoon at 4:30 o'clock in the Federated church.

Last Concerts of Year Are Tonight, Tomorrow

Serenade on Lake Will End season of many Concerts

Tomorrow night at eight o'clock the Men's Glee club will give the second annual moonlight serenade on Manzanita Lake as part of the University May Day celebration.

Women to Make Final Appearance In Ed. Auditorium

The Women's Glee club of the University of Nevada, with Miss Dorothy Crandall as director and accompanist, assisted by Miss Margaret Murphy, violinist, is presenting a musical program at 8:15 this evening.

SUMMER SCHOOL OPENS JUNE 14 FOR SIX WEEKS

The fourteenth annual summer session of the University of Nevada opens June 14, and will continue until July 23, covering a period of six weeks.

Varied Courses Given; Large Enrollment Is Expected

Professor A. Lehenbauer was scheduled to teach hygiene and nature study, but he has been excused to do research work in the agricultural extension division.

ALBERT SPEAKS TO PRE-MEDICS; OFFICERS NAMED

"Hay fever has been of considerable prominence in this state for the past few years," said Dr. Henry Albert, director of the State Hygienic Laboratory.

ACCOUNTANCY IS WIDENING FIELD

"Modern accounting deals with generalizations, the broader viewpoint of accounts rather than the detailed check as was the older system," pointed out John R. Ruckstall, member of the American Institute of accountants.

NEVADA TO HAVE WOMAN AS NEXT VICE - PRESIDENT; ITALIC N'S GIVEN

Nevada will have for its vice-president a woman for the school year beginning a year from the coming semester according to the amendment passed at the last student body meeting.

Only two Amendments Fail to Pass At A. S. U. N. Meet

Two amendments failed to pass at the annual meeting of the Associated Students of Nevada held at the University of Nevada.

FROST INSTALLED Upperclass Committee For Coming Year Is Named

The University extension department expects to send Professor V. E. Scott of the University poultry department, to the World's Poultry Congress and Exhibition which is to be held in Ottawa, Canada, from July 27 to August 4, 1927.

ALUMNI DUES OF GRADUATES PAID

Several important decisions were reached at the senior meeting held Tuesday afternoon. A resolution was passed to subtract a dollar in addition to the two and a half already subtracted from the ten dollar dues.

U. W. PUBLISHES STUDENT POEMS

UNIVERSITY OF WASHINGTON, April 30—(UPI)—The second series of poems by University of Washington students, the work of 32 undergraduates, will be released May 1.

ENGINEER'S AID ASKED FOR CONSTRUCTION WORK

A. A. Hibbard gave a talk at the meeting of the Crucible Club held Tuesday night in which he asked the help of its members in constructing a fence around Mark Twain's cabin in Idlewild Park.

VENSTROM INSTALLED AS NEW CLONIA PRESIDENT

Cruz Venstrom, '27, was installed last Wednesday night, as president of Clonia for the coming year. Other appointments were as follows: Emerson Wilson, '28, debate manager; Ida Mary Robinson, '27, secretary; and Richard Glenn, '29, treasurer.

CONFERENCE TRACKSTERS TO TANGLE AT STOCKTON

STOCKTON, Calif., April 30.—(Special to Sagebrush)—Team arrived in Stockton in good condition but tired. Met at train by committee of men and women from College of Pacific.

Wolf Pack Enters Fray As Favorites To Win Conference Title Tomorrow

A fighting Wolf Pack will make a determined bid for conference honors tomorrow when the five teams in the league tangle at Stockton.

SCOTT WILL GO TO WORLD FAIR

The University extension department expects to send Professor V. E. Scott of the University poultry department, to the World's Poultry Congress and Exhibition which is to be held in Ottawa, Canada, from July 27 to August 4, 1927.

Poultry Congress And Exhibition To Be International

This international meeting will comprise two essential features—the congress and the exhibition. The congress will devote itself to the program of proceedings, embracing addresses and papers by experts in their various spheres of activity from all parts of the world.

SEVEN INITIATED TO SIGMA SIGMA

Sigma Sigma, the new home economics honor society, held initiation for Beula Booth, '22; Bertha Aiken, '25; Eleanor Mollart, '25; Marjorie Ohmann, '25; Audrey Springmeyer, '26; Helen Wells, '26, and Frances Harrison, '26, in the home economics rooms last Wednesday night.

G. STEVICK WILL HEAD NEXT GLEE

Gerard Stevick, '27, was elected president of the University Glee club at their banquet at the Century club last Tuesday, with Cruz Venstrom, '27, to assist him as manager.

BILLINGHURST LEAVES FOR EUROPEAN TRAVEL

Ruth Billinghamurst, assistant professor of chemistry for the past year, will leave June 3 for an extended trip to Europe. She will visit England, France, Norway, Sweden, Spain, Granada, and northern Africa.

PROF. PREPARES SNAKE EXHIBITS

Prof. Charles L. Brown, instructor in biology, is preparing for exhibition purposes artificial snakes made of bee's-wax, paraffin and paper-mache. Just now he is preparing garter-snakes to be used in a tulle group which will show the snake's feeding on frogs, their characteristic food. Later in the year, Brown expects to prepare some rattlesnakes and possibly a number of other varieties. He also expects to spend a good deal of his time this summer mounting mountain goats.

Out-of-Town Orders Promptly Attended To Established in Reno 1919

Fastidious Oswald Is Sulk On 22 Birthday

Ostwald celebrated his 22 birthday the other day, but he refused to eat his birthday cake. And what is more, he has eaten only twice this semester. He is a very temperate sort, in fact, he does not eat, and neither does he drink. Last fall Ostwald came to the University of Nevada from Las Vegas, and possibly because of the sudden change in climate, he has been hibernating ever since, and only just recently has he showed a renewing interest in life as depicted in the basement of the Aggie building, which is Ostwald—the turtle's—headquarters.

WOLVES OFF TO STOCKTON MEET

(Continued from Page One)

Run close to anyone in the league. Ferguson was running under 52 seconds last Saturday and if he repeats should win. Raycraft is dependable at around 53 so the two ought to nose in on the points somewhere.

In the half mile the Varsity ought to gather some more points as Hartung and Clover have run several close races in 2:00 or better. The change in altitude is bound to make some difference so the two ought to run through to win in close to 2:04.

Good Men in Mile In the mile Clover will get more keen competition as there are several men in the running capable of close to 4:43. This time is several seconds better than the Nevada runners best time this season but the altitude ought to make enough difference to win for him.

The two mile will see Ede in another good race but as the little varsity runner has run the eight laps faster at home than any one else has on their own track, he will probably win.

Both hurdle races will find Tommy Towle of Nevada the top favorite. The big red head has run the high stakes in 15.4 which is 2.5 of a second faster than his nearest rival, Miller of Pacific, has done. In the lows he is capable of close to 25.1 as he took second last Saturday by about a yard in a 25 flat race.

Fresno, Pacific in Weights The shot and discus do not seem to be as fortunate for the Wolves as the other events. Corson of Pacific

CAMPUS BRIEFS

Winifred Champlin, instructor in physical education was in Oakland and coast cities last week-end on department business.

Morrey Eva, '26, spent last week-end in San Francisco. Jeanette Buckingham, '28, underwent an operation for appendicitis last Monday.

Eleanor Mollart, '25, arrived in Reno Tuesday evening for a short visit with friends. She will return to her home in Battle Mountain Monday.

Ira Herbert, '25, was in town last week from Virginia City where he is engaged in mining.

Roberta Clancy of San Francisco was the week-end guest of her sister, Helen Clancy, '29.

Monday evening Russel Squires, '27, was elected Mayor of Lincoln Hall Association. Other officers elected were Angus Bethune, '28, secretary, and George Whitehead, '27, treasurer.

Cedric Brockliss, '28, spent last week-end at his home in Gardnerville. Cornelius Fort, '26, and E. R. Stegen, '29, went to Fallon last week-end.

Norman Haight, '29, spent Saturday and Sunday at his home in Fallon.

Meidell Applegate, '26, was called home to Berkeley last week on account of the death of his father.

Katherine Ryan, '26, has accepted the position as secretary to Dean Adams for the coming year. She will take the position held during the past year by Ruth Billingshorst.

and Mosher of Fresno have both hurled the iron ball over 42 feet which is about 3 inches farther than Allens best heave. However the big weight man may get in a good put and take first or second. In the discus the other teams seem good enough to take a clean sweep as Waters and Olson of Fresno and Corson of Pacific are chucking the platter over 125 feet consistently.

The javelin throw looks almost as black for the Wolves as the two other weight events. Bennett of St. Marys and Crane of Fresno are both hurling the spear over 170 feet so that unless Wimer breaks his own record by a good five feet he may have to be content with a third place.

Another good event will be the pole vault with Crew of Nevada and Burr of Fresno both topping around 11 feet 8 inches. Crew seems to have his form back at last, however, so it would be no surprise to see him win the event.

Strong in High Jump In the high jump Nevada will probably have things much their own way. The only man Watson will have to work against is Easterbrook of Pacific but as he has only been going around 5 feet 8 inches both Watson and Melendy should beat him out.

In the broad jump anything is liable to happen. Ginsburg of Fresno has been leading the conference with marks around 22 feet so that he has the best chance to win. Kline and Bristol will jump for the Wolves and one or the other should place somewhere. Bristol has gone over 21 feet in practice while Kline has been out of things for almost a month on account of a torn muscle. He jumped farther in high school than Ginsburg ever has, however, and if he gets into shape enough by the meet he ought to place. The relay will be a good race with

NEVADA STATION WINS HONOR FOR NEW DISCOVERY

Old Problem Is Solved By Formulation of New Vaccine

The baffling problem of the hemorrhagic disease in cattle which has been under study for many years, has finally been successfully solved by Doctors Edward Records and L. R. Vawter, of the Nevada veterinary station headquarters.

Last year, the causal organism and reproduction of the disease in experimental was discovered, and a serum worked out, whose administration cured an unusually high percentage of field cases. This year, experiments indicate that the protective vaccine discovered will bring the disease under routine control.

The success in this field will bring credit to the University in scientific circles and will gain for Nevada added support from stockmen and dairymen, according to Dr. Records.

Frandsen Starts Work In 1914, inquiries into the acute cattle disease were made by Dr. W. E. Mack, who took as a starting point the work of Professor Peter Frandsen in 1904 when he found resemblances of the disease to anthrax, and from this point on, an effort has been made to prepare preventive vaccines and curative sera based upon micro-organisms present in the organs of animals dying from the affliction.

In 1918, Dr. Edward Records assumed the project leadership and made the first important discovery in the Wolf quartet holding the position as favorites. The varsity quarter milers tore off the distance in about 3:35 last Saturday and ought to do better than that in the meet.

The one thing that will make the athletes try hard for first honors is the fact that any marks made in this meet will stand as conference records. With this in mind the Varsity will go to Stockton with the idea of bringing as many records back as possible and from present indications there will be plenty of them. The men making the trip to Stockton are Robison, Kellogg, Ferguson, Raycraft, Clover, Hartung, Warden, Ede, Towle, Leavitt, Bristol, Allen, Wimer, Crew Watson, Melendy and Kline.

DAIRYING CLASS VISITS FACTORY

The class in dairying visited Chism's ice cream factory last Tuesday afternoon. Members of the class helped with the preparation of the makes, drawing off the cream, and putting it into the hardening room. Professor V. E. Scott says that members of the class have been benefited very much through the supplementary training they have received from visits to the local creameries and ice cream factories.

the knowledge that this disease was distinct from any known disorder of livestock.

Germ Isolated The problem then assumed the character of a search for an unknown causal micro-organisms, and after slow progress up to 1925, a different line of research was followed, in that the disease itself was reproduced repeatedly by experimental inoculations, until at last the microscopical and cultural characters of the organism were described.

It then became evident that a highly potent curative serum could be prepared from the blood of horses rendered immune to the disease by progressive inoculations, and through a new series of experiments being made by Doctors Records and Vawter, a practical and efficient vaccine that will be the final solution of the problem will be formulated.

Big Piece of Work Such an advancement is an achievement of a high order, for it represents the scientific characterization of a distinct disease in a field where such discoveries are not common, the doctors said.

It now promises to result in the control of a disease that has caused the loss of many thousands of cattle in the western regions of North and South America, much credit being due the Nevada station and experimenters.

I have in my employ Mr. J. Q. Britt, recently from Washington, D. C., and Mr. E. C. Bennett of San Francisco, both skilled in Girlies' and Children's Haircutting Satisfaction Guaranteed F. H. Hartung Phone 1089-W

OFFER OF ALASKAN JOBS GIVEN TO TWO MINERS

P. R. Preston, '26, has received a tentative offer of a position with the United States Smelting and Refining company of Alaska.

Out of the many applications received by this company, two, those of Preston and Frain, were chosen from the Mackay school of mines, which is a relatively high per cent from any school.

CAMPAIGN STARTED FOR U. S. C. SWIMMING POOL

UNIVERSITY OF CALIFORNIA, Southern Branch, April 20.—(PIP)—Petitions are being circulated today that should eventually lead to the construction of a new swimming pool on the grounds. At present tentative plans are held by the administration, although the entire affair is being conducted by the S. C. students.

HOME EC. TESTS BEING HELD FOR STATE STUDENTS

Forty Girls From Ten High Schools Here For Three Days

The State Home Economics contest conducted by the State Department of Vocational Education is being concluded at the University of Nevada today and tomorrow of this week. It began yesterday.

The girls in this contest have been chosen from local contests which were held in the high schools of the state having departments of domestic science. Forty girls are expected to enter this contest, and there will be about 80 girls and teachers in attendance. The high schools sending representatives are: Las Vegas, Wells, Battle Mountain, Winnemucca, Eureka, Yerington, Fallon, Virginia City, Gardnerville and Sparks.

To Try Cooking

In the most interesting work of the contest, the girls are turned into the cooking laboratory where they find certain food materials. From these they are to prepare and serve a luncheon for three people. This work will continue for the three days of the contest.

The demonstration lectures which will occupy the afternoons will deal with such subjects as "House and Home," "Related Art," "Health," "Child Care," "Home Nursing" and "First Aid."

Thursday evening, at 7:30 o'clock the State Home Economics association will hold a meeting. This will be for the teachers, home demonstration agents, and the homemakers who belong to the organization.

To Choose School Clothes

In the clothing contest of Friday evening the girls will show the type of clothing that they think is suitable for high school girls, speaking on the style and the material of the dress, and stating their reasons for choosing the same.

Saturday evening at 6 o'clock, the annual banquet will be held. One hundred guests are expected to attend, including the contestants and teachers, Dr. and Mrs. W. E. Clark, Governor and Mrs. J. G. Scrugham, Mr. and Mrs. J. C. Hunting. The banquet will be given at the Golden hotel and will be planned and arranged by the girls of Sparks, Gardnerville and Virginia City. The prize will be awarded at this time.

The program for the contest is as follows:

Thursday, April 29.
9:00 a. m.—Meal service work.
1:30 p. m.—Demonstration of house and home, and related arts.
7:30 p. m.—Meeting of the State Home Economics association.

Friday, April 30.
9:30 a. m.—Meal service work.
9:30 a. m.—Demonstration on health, child care, home nursing and first aid.
8:00 p. m.—Clothing contest on school outfits, and party clothes.

Saturday, May 1.
9:30 a. m.—Meal service work.
9:30 a. m.—Demonstrations on related sciences.
8:00 p. m.—Annual banquet, and awarding of prizes.

Exhibits are open from Thursday noon until Saturday noon, Rooms 108 and 108 Agriculture building.

HIRED ATHLETES SCORED BY DEAN

UNIVERSITY OF CALIFORNIA, April 30.—(P.I.P.)—In accordance with the recent action of the Pacific Athletic conference proposing more strict regulation of financial assistance for athletes, Dean Joel H. Hildebrand, retiring athletic representative of the University has drawn up an amendment to prevent solicitation of athletes. This rule, if passed, will help eliminate the practice of indirect hiring of athletes by sources other than the college authorities, usually by the alumni of the institution.

CLASS DISCOVERY MAY GIVE LIGHT TO PROBLEM

J. Claude Jones, professor of geology, reports "the origin of the basin ranges is an unsolved problem. The Geology 70 class has found a thrust-fault, a peculiar formation of rock strata, 15 miles north of Reno, which gives promise of throwing much light on this problem."

SOCIETY TO SUPPORT BONDS

UNIVERSITY OF CALIFORNIA, April 30.—(P.I.P.)—Support of the \$8,500,000 bonds issue to be voted on in November was pledged by Pi Delta Epsilon, journalistic honor society, in a letter sent to President W. W. Campbell. The bond issue is for building purposes at the university, branch, and for government buildings at Sacramento.

YE SOCIAL WHIRL

Sophomore Derby Last Saturday

Derby hats, white vests, and canes were the main decorations at the Sophomore Derby dance given Saturday evening in the Gymnasium. Small paper mache derby hats with bright colored feathers in the bands, were given as favors.

The feature of the evening was given by A. Watson and R. McIlwaine and dealt with the death of the spirit of Nevada. Another feature was a vocal selection by Rena Semenza and Ethel Lunsford.

Patrons and patronesses were: Dean Margaret E. Mack, Louise M. Sissa, Professor and Mrs. Raymond Leach, and Doctor and Mrs. J. E. Martie.

Summerfield Given Shower

Esther Summerfield was the guest of honor at a "recipe shower" given last Friday evening at the home of Mrs. J. M. McCormack on North Virginia street.

Tiny red hearts marked places for Katherine O'Sullivan, Evelyn Nelson, Florence Benoit, Gilberta Turner, Dorothy Stoddard, Elma Orr, Muriel Holland, Dorothy Ward, Thelma Pray, Blanche Wyckoff and Esther Summerfield.

Sigma Phi Sigma Formal Dance

Sigma Phi Sigma fraternity entertained with a formal dance at the Nixon home on Newlands Heights Friday evening. The lower floor of the mansion was thrown open for dancing. A colored butler, presiding at the entrance, welcomed each guest. Mint julep and southern cakes were served during the evening.

At eleven o'clock two tiny girls, clad as a red rose and a golden bee, performed the romance of the Rose and the Bee.

Singing of the fraternity song followed by the college hymn concluded the evening. Professor and Mrs. Edward Sutherland, Dean and Mrs. Fred Sibley, Professor J. C. Jones, and Mr. and Mrs. Earle Hart acted as patrons and patronesses.

Phi Sig Picnic At Glenbrook

Members and pledges of Phi Sigma Kappa fraternity and their guests motored to Glenbrook on Lake Tahoe Sunday. After a picnic lunch all participated in sports, swimming and games.

Mr. and Mrs. Ted Fairchild and Mr. and Mrs. J. Shaver were among the guests.

Turner Hostess

Gilberta Turner was hostess Saturday evening at the home of her aunt, Mrs. C. E. Miller, on University avenue. After an evening of bridge, refreshments were served to sixteen guests.

D. A. E. Banquet To Be May 7

Active and alumnae members of Delta Alpha Epsilon will hold their annual banquet in honor of their new initiates Saturday, May 7, at the Century club.

Dorothy Ward will preside as toast-mistress. Following the banquet the senior women members will prophesy the future of D. A. E.

President and Mrs. W. E. Clark, Professor and Mrs. A. E. Hill, Dr. and Mrs. H. W. Hill, Professor and Mrs. A. L. Higginbotham, and Professor Harold Miller will be included in the guests of the organization.

Double Shower Given Saturday

Mrs. Carol Heisch, a recent bride, and Alberta Jones, bride-elect, were given a double shower by Beta Delta members at the home of Maude Feltstone on Saturday afternoon.

The honored guests found gifts in a large May basket and a green and white parasol.

After a program of readings and a dance, a burlesque wedding ceremony was given, followed by the serving of refreshments.

Alpha Tau Omega announces the pledging of Fred Hagemeyer of Carson City, Nevada.

Clarks Entertain Senior Class

President and Mrs. Walter E. Clark were hosts to members of the Senior class Thursday evening with a formal dinner at their home on the campus, Virginia street.

Pyramid Lake was chosen for the picnic spot for Delta Sigma Lambda members last Sunday.

Professor and Mrs. R. H. Deach accompanied the party.

Old and new Y. W. C. A. cabinet members motored to Bowers Wednesday evening for a joint picnic supper around a bonfire.

Ex University Student Weds

Jerry Merritt, ex-'26, member of Sigma Phi Sigma fraternity was married last Saturday at the Trinity church of San Francisco to Christine Nielson of Glasgow, Scotland. The bride is a graduate of the Royal Conservatory of Music at London, England, and at present has been taking examinations from the Conservatory at Toronto, Canada.

Merritt has been attending the University of California, but has withdrawn and will make his home in Los Angeles.

This Friday evening Delta Sigma Lambda fraternity will hold a house party at the chapter house on University avenue.

Junior Class To Be Hosts

Senior class members will be the guests of the Junior class at the annual Senior Ball to be held at the Century Club this Saturday evening.

President and Mrs. W. E. Clark, Miss Margaret E. Mack, and Miss Louise M. Sissa will be chaperones of the evening.

Members and pledges of Sigma Nu fraternity drove to Galena Creek Sunday. After a picnic lunch, hiking and sports formed the principal diversion. Prof. J. C. Jones and Mr. and Mrs. William Smythe were the chaperones.

All graduating senior men will be guests of the deans of the different colleges of the University at an Italian dinner at the Lincoln Hotel at Sparks, Wednesday, May 5, at six o'clock.

THE PERILS OF PANDORA

By B. J. BARI

With tons of rock falling from above them, Pandora and Dickie closed their eyes, clasped each others' hands as they fell toward earth, and breathed what they believed to be their last. Down they fell. Bump! They bounced on a hard surface, ducked their heads, and waited complacently for the rock to cover them. But nothing came!

They had fallen into a tunnel that had been unweathered, and the rocks had lodged against the newly made hole entombing them!

With blackness all about them, Dickie sighed despondently, and nestled against Pandora's shoulder. The chase, the excitement of the past few days, their loss of sleep, the exposures, and their harrowing escapes had sapped his strength, and he was tired, too tired to go on. Let death come. He was in Pandora's arms and happy.

"Come Dickie. We can't lose him now. We must go on and keep up the fight," Pandora told him softly stroking his head.

They Meet

Once More
At the sound of Pandora's voice Dickie renewed his feeble grip on life, and allowed his sweetheart to pick him up. They strode forward. Crack! Pandora had dislodged a timber with her dainty nose. They moved more cautiously in the other direction. Slowly they proceeded this time until they discovered a faint light ahead. It was the end of a forgotten tunnel, and in a twinkling they were out in the fresh air again.

Looking up the track that was in front of the mine entrance, they saw a donkey engine bobbing up and down as it came toward them. They stood in its way until it stopped, and by using a little gentle persuasion and some elbow grease the heroine induced the crew to take them around the level to the pit once more.

They Meet

Red Again
On reaching the spot that had been the scene of their last harrowing escape, they saw no other than he with the red bristles standing on the track in front of them gazing at the pile of broken earth that was supposedly burying them.

"Hit it up there old top," Pandora yelled to the engineer, "and we'll get him this time for sure."

Squash!
The donkey hit the bootlegger full tilt with the result that the party of the second part went sailing in a graceless angle. Out he went and down until he hit with a mighty splash in the large body of copper saturated water in the bottom of the pit.

Hurriedly the two left the engine, and by sliding, slipping, jumping, and skidding they reached the waters edge. Tossing out a rope they had taken from the engine, Pandora caught the red headed one in the noose, and drug him shoreward.

The copper had done its work. His body was coated with metal, and he was unable to move until he had painfully cracked the thin film. Pandora chortled gleefully, and grasped his golden beard. To her utter amaze-

ment it came off!
"Professor!" she cried with Dickie's astonished "Professor" echoing immediately after.

Suddenly Pandora began to laugh uproariously. With a deft motion she had stripped her own head, and instead of being a beautiful maiden she was a man! The professor beamed at recognizing her, and even began laughing heartily on seeing that Dickie had removed his hat to let a mass of golden, bobbed, curls dance about his ears!

The Truth Without

It was indeed Pandora and Dickie—but they had masqueraded as each other all through the chase!
"How strange," quoth the professor looking at them. "Now all my research has gone for nothing."

"Research?" they echoed.
"Why certainly. I was just getting some first hand data for my psychology students, but you seemed to get mad and you've been chasing me all time."

"But Professor," Dickie asked bewildered, "aren't you a bootlegger?"
"Well its not for publication. I don't make a regular business of it you know."

"Oh!" The young couple gasped.
"Well, this ending would never suit A. E. Hill, so I guess we'll have to begin all over again on a new story."

With a rip they pulled the old man's copper suit off. Whereupon it was moved and seconded that they should let Tom Chambers fix them up for a good meal before beginning a new story. So they waved a graceful goodbye to the pit, and turned toward Ely once more.

(The end—thank god)
(Author's note: The next thrilling series will begin May 15 and last until August 15—Don't miss it.)

ART COLLECTION IS C. HENRY GIFT

UNIVERSITY OF WASHINGTON, Seattle, April 30.—(UPI)—Washington fell heir to a half million dollar art collection and a \$100,000 building to house the collection, when the donation of George C. Henry, a Seattle banker, was accepted by the board of regents Saturday.

Henry's collection represents the efforts of 33 years, and contains 185 paintings, etching, and water colors by famous masters of both old and modern schools. Art masterpieces of 137 painters from five nations are represented in the collection.

MINE VENTILATION TO BE SUBJECT OF THESIS

William Smyth, instructor in metallurgy, will accompany E. O. Pickard, district engineer of the United States bureau of mines, Berkeley station, on an examination of the condition of ventilation of Nevada mines during the summer.

On this trip Smyth will obtain data for a thesis on ventilation which will enable him to obtain the degree of mining engineer.

COSMOPOLITANS TO MEET

The Cosmopolitan club will hold its last meeting of the year in the Agricultural building next Wednesday evening, May 5, at which time the election of officers will be held.

Football Aspirants Are Given Grade Warning

"If any of these football men expect to play next semester they'll have to hit the books," said Doc Martie last week. To play football a man must pass two-thirds of his hours which means eleven for arts and science students and twelve for engineers. "With only one week left before vacation not much time remains to make-up back work, but men interested in playing next fall will have to satisfy the Conference rulings if they want to play."

ELECTIONS SHOW STUFFED BALLOT

BLOOMINGTON, Indiana, April 30.—(N.S.S.)—When a hired orchestra blares forth the music for the grand march a queen of the junior prom steps forward to lead the procession, by ancient custom in many colleges. Unlike queens in undemocratic countries, this sovereign leads by a mandate of the majority. At two Indiana institutions attempts have been made to defeat the will of the people by "corrupt practices" in voting.

At the University of Indiana the voters must pass a property qualification; they must hold a pawn ticket. When the recent election was held it was discovered that there were more votes cast than pawn tickets held. Dean Agnes E. Wells immediately declared the election void. Subsequently the junior class decided it was less troublesome to abide by the results of the former election than to undergo the "excitement of a recount."

In checking up the election at Butler college similar discrepancies cropped up. The poll books revealed the 128 juniors had somehow cast 133 votes. As yet there is no further information on the affair.

CHEMISTRY CLUB HEARS LECTURE ON BENTONITE

E. W. Davis, assistant chemist of the United States bureau of mines, and H. C. Vachar, who will receive a master's degree in chemistry on May 10, gave a joint talk on bentonite Thursday evening to the Chemistry club.

Vachar covered the constitution and properties of bentonite, and Davis discussed the uses of the mineral.

Gow House Diet Proves To Be Above Standard

At the request of Dean Margaret E. Mack the dietetics class of the home economics department, with the cooperation of S. C. Dinsmore and the people in charge of the University dining hall, have completed a dietary study of the food served and consumed in the dining hall covering a period of four days.

All food used during the four days was weighed, and a count of all those who are at every meal was taken. The edible waste was separated from the inedible, and was then weighed and analyzed at the state Hygienic Laboratory to get the proportions of carbohydrates, fats and proteins in it.

Miss S. L. Lewis reports that it was found that the average number of persons served per day was 115.06, and it was estimated that the average number of calories required per day per student was 2,763, while the average number of calories consumed per student per day was 3240, showing that there is an abundance of food supplied.

Dietary authorities give the minimum mineral requirement per person per day as, calcium, 67 gr., phosphorus 44 grs., and iron 0.15 grs. The amount supplied in the dining hall per day per student is calcium 2.47 grs., phosphorus 6.29 grs., and iron 2.22 grs. This shows the mineral content of meals served is exceptionally good.

The recommended number of calories of protein a day per person is from 10-15 per cent of the food consumed. In the dining hall the amount consumed per person each day is 16.1 per cent.

Milk has been shown to be one of the best forms in which to use protein and the study showed that the dining hall gives a very high percentage of milk.

NEW BRANCH AT JUNIOR COLLEGE

UNIVERSITY OF CALIFORNIA, April 30.—(UPI)—Another branch of the University may be established if the board of regents favors the proposition of the Sacramento Chamber of Commerce to locate a school there. The approval of Governor Richardson has been secured. The plan of the chamber is to enlarge the Sacramento Junior College so as to accommodate the proposed branch.

Crows

In a field in sunny Spain stands a stone mortar. Crows hover around it, picking up bits of grain and chaff—cawing.

Here Marcheta, in the fresh beauty of her youth, will come to pound maize. For years she will pound maize. The stone will stand up under the blows; not a dent has the muscle of three generations of women made upon it. But the crows will hurl their black gibes upon a woman aging early and bent with toil. *Old Marcheta*—still in her thirties.

The American woman does not pound maize. But she still beats carpet; she still pounds clothes; she still pumps water. She exhausts her strength in tasks which electricity can do better, and in half the time.

The high ideals of a community mean little where woman is still doomed to drudgery. But the miracles which electricity already has performed indicate but a fraction of the vast possibilities for better living and the tremendous opportunities which the future developments in electricity will hold for the college man and woman.

Electricity, which can release woman from her burdens, has already created a revolution in American industry. Wherever mankind labors, General Electric motors can be found carrying loads, driving machinery and saving time and labor. And there is no branch of electrical development today to which General Electric has not made important contributions.

A series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for booklet GEK-1.

GENERAL ELECTRIC COMPANY, SCHENECTADY, NEW YORK

Settling The World's Affairs

COMMEMORATE THE BIG DAY WITH A GIFT AS ENDURING AS THE LOVE THAT GOES WITH IT

For this Big Moment, only one kind of gift-eloquence will translate the parental heart. And that is the kind most readily found at the jeweler's, whose gifts, like love itself, are everlasting.

But the selection at the jeweler's need not be expensive. At modest cost, there are exquisite pendants, signet rings or toilette sets for daughter, and gold or silver pocket knives, cuff-links or scarf pins for son.

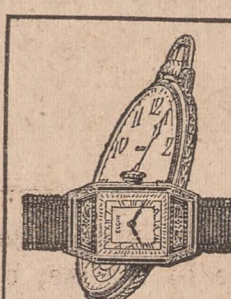

Or there's an Elgin watch for each!

For, of course, Graduation Time is Elgin Time. It is more than a coincidence that for over half a century the favored graduation gift of fond mothers and fathers has been the Elgin Watch.

THERE is only one answer to any gift-question:—Choose the gift that speaks the heart of the giver and adequately honors the occasion of the gift.

There are short-lived tokens which say: "Good work, my lad!" or "Well done, my lady!"

But no such trivial message is adequate to convey the pride and affection of father and mother to son or daughter who has conquered a four-year curriculum and qualified for a coveted sheep-skin.

There is no finer gift than an Elgin Watch. Featured in a wide style variety and sold at prices ranging from \$15 to \$1700.

OLYMPICS TAKE TRACK CONTEST AGAINST VARSITY

Five Records Broken In Sensational Meet

GOOD WEATHER Worlds Record Holder Gives Fans Treat In Javelin

Records fell like the proverbial rain in the meet held last Saturday afternoon with the Olympic Club of San Francisco. During the course of the afternoon five new records were smashed and one was tied by the savage inroads of the wolf pack. The meet in itself was without a doubt the best ever held on Mackay Field with no exceptions whatsoever. The Olympians came to Nevada expecting to have an easy time and literally trample the Pack under foot. Instead they found the keenest competition they could expect and the outcome was ever in doubt until the last few events had come and gone leaving them in the lead by a scant 18 points. Robison Sensational

The parade started with a sensational hundred yard dash that brought the spectators to their feet with a jerk. Everyone expected Robison to possibly win, but no one expected him to catch up three yards or Newhoff, one of the best sprinters on the coast, after he had had a poor start. Robison again sprung a surprise in the 220 by romping in ahead of the field with another sensational race that proved him to be one of the best furlong men in the west. In both events the Nevada ace clipped off one-tenth of a second from the former mark, making the century in 3.9 seconds and the fur-

U. W. MENTORS' SALARIES RAISED

UNIVERSITY OF WASHINGTON, Seattle, April 30—(PIP)—Salaries of six of Washington's coaches, were raised by the board of control at its last meeting, setting a new high mark for coaches' salaries in this institution. The raises will be effective September 1.

Tubby Graves, baseball coach, will receive the raise when his new two-year contract starts, while his colleagues, Enoch Bagshaw, football mentor, Rusty Callow, crew coach, Hec Edmondson, basketball and track coach, and Bart Spellman and Wayne Sutton, assistants on the football staff, will be benefited by the raise although their contracts do not expire this year.

Salaries of the University of Washington coaches have been below those of other schools in the past because of a rule which forbade a coach's salary being above that of a dean of a college. However, the faculty consented to change this to keep pace with the rapid growth of athletics.

long in 21.9.

The 440 saw one of the best races of the day when Ferguson and Raycraft ran even with the Olympic men until the last 40 yards when the two visitors forged ahead to win by a scant five yards.

In the half mile, Fuller of the clubmen nosed out Hartung of the Wolves at the very end and won in the good time of 2:4. Both men ran a good race, but the Olympian was a little stronger at the finish than was the Wolf.

Lockhart Takes Long Race

The longest races were just as close as the shorter ones, with Lockhart of the Club winning both events. In the mile, Clover ran an even race with his rival, but lost in a spirited sprint at the end. The two-mile proved to be another record breaking performance, as Ede had declared his intention of breaking the existing mark before the race. Lockhart won this race with the same sprint in the fast time of 10:34.3 but Ede was right behind him and finished in 10:36, which breaks the old-time record by 12 seconds.

Towle Upsets Dope

The Clubmen received their second shock of the day in the high hurdles when "Red" Towle of the Wolves tore over the high sticks in the fast time of 15.4, beating out their star hurdler, Dole, who incidentally won the event in the Stanford-California meet, two years ago. This time breaks the University record by two-fifths of a second and puts Towle in a class with the best on the coast. In the low hurdles Towle was beaten by Alderette of the Club by a matter of feet in 25 seconds flat.

Allen Wins Shot

In the shot the biggest upset of the afternoon occurred when "Max" Allen won in the fast time of 39.34.3 with a heave of 41 feet 9 3/4 inches. His winning put came within an inch and a half of the record so that the fans almost had the opportunity of seeing another mark go by the boards.

Arthur came back in the discus, however, and won the event with a toss of 127.7 feet. This is the best toss seen on Mackay Field this year and was far above that of any of the Wolves.

Myrra Treats Fans

The fans got another treat in the javelin when Jonni Myrra of Finland, world record holder in the event, did his stuff. While the giant Fin tossed out the spear only 196.2 feet it was nevertheless the best throw ever seen on Mackay field and let the spectators in on a few of the fine points of the event. Wimer of the Wolves, also broke his own record in this event with a heave of 167.7 feet.

Vault Record Tied

In the pole vault Crew won from Reilly of the Club by topping 11 feet 4 inches, which ties his own record in the event. The Nevada vaulter tried for a new record but failed although he cracked it severely several times. The high jump proved to be inter-

BLOCK N ELECTS RAYCRAFT HEAD FOR NEXT YEAR

Watson awarded office Of Secretary; Both Men Prominent

New officers for the coming semester were elected at a regular meeting of the Block N society last Wednesday afternoon. Tom Raycraft, '27, was chosen to lead the organization and Archie Watson, '28, to fill the position of secretary.

These two men have been very prominent athletically, specializing in basketball and track, the latter being hoop captain for 1927.

The Block N is at present working on the interscholastic track meet which is scheduled for the last Saturday of the school year. This event is for the track and field title of the state of Nevada and considerable interest is anticipated.

esting from the spectators, viewpoint when McKinley, a little fellow not over 5 feet 6 inches in height, won the event with a leap of 5 feet 11 inches. On his last leap he cleared the bar several inches so that he could have easily have made six feet.

The Olympians scored another win in the broad jump when Martin leaped 22 feet 6 inches. Kelley of the Club took second and afterward gave an exhibition of the hop, skip and jump of which he is the Pacific coast title holder.

Relay Close

The relay closed the day with one of the fastest events ever seen on the hill. The Wolves led with a small margin until the last lap when Crane won by a few feet for the Club in 3:33.3.

The complete summary of events is as follows:

100-yard dash—Robison (N) and Newhoff (O) tied for first; Kellogg (N) second. Time 9.9 seconds (new record).

220-yard dash—Robison (N) first; Crane (O) second; Kellogg (N) third. Time 21.9 seconds (new record).

440-yard dash—Crane (O) first; Fuller (O) second; Ferguson (N) third. Time 51 flat.

880-yard dash—Fuller (O) first; Hartung (N) second; Clover (N) third. Time 2:43.3.

1 mile—Lockhart (O) first; Clover (N) second; Worden (N) third. Time 4:49.

Two-mile—Lockhart (O) first; Ede (N) second; Brown (N) third. Time 10:34.3.

High hurdles—Towle (N) first; Dole (O) second; Brockbank (N) third. Time 15.4 seconds (new record).

Low hurdles—Alderette (O) first; Towle (N) second; Dole (O) third. Time 25 flat (new record).

Shot-put—Allen (N) first; Arthur (O) second; Clover (N) third. Distance 41 feet 9 3/4 inches.

Discus—Arthur (O) first; White (N) second; Allen (N) third. Distance 127.7 feet.

Javelin—Myrra (O) first; Olson (O) second; Wimer (N) third. Distance 196.2 feet.

Pole vault—Crew (N) first; Reilly (O), Hug (N) and Leavitt (N) tied for second. Height 11 feet 4 inches (tied record).

High jump—McKinley (O) first;

KAPPA LAMBDA BEAT WESTWOOD

Saturday, Kappa Lambda traveled to Westwood, California, and gave the natives a fine exhibition of baseball. There every man at bat connected at some time during the game and most of the players garnered several bingles.

The final count was 32 to 5, which showed how effective were the fraternity men. Everybody who made the trip took a turn in the box and still the Californians could do nothing.

Morrison starred for the winners, getting some long hits, which were later converted into runs.

RAINCOATS FOR FIELDS

Gigantic raincoats for baseball and football fields, tennis courts and other playing places, made of a special rubberized fabric, which will keep the ground dry and thus permit games to be played in spite of rainy weather, have now been developed, and it is expected will be features of coming seasons in athletic contests. The University of Illinois is the first big institution to arrange for the new "raincoat" for its football field. The rainy season of last year which interfered with the speed of famous backs such as "Red" Grange and spoiled many a football contest brought the need of such a covering sharply to the attention of the athletic officials of that institution.

Watson (N) second; Melendy (N), Bailey (N) and Arthur (O) tied for second. Height 5 feet 11 inches.

Broad jump—Martin (O) first; Kelley (O) second; Hug (N) third. Distance 22 feet 6 inches.

Relay—Won by Olympic Club (Fuller, Dole, Payne, Crane). Time 3:33.3.

'MAY-DAY' PLAY FESTIVAL TO BE BACKED BY WAA

Delegates Give Report Of Washington Conference

At the W. A. A. meeting on Tuesday it was decided to have W. A. A. sponsor the May-day festival as a yearly tradition, if it proves successful this year. The festival is to be tomorrow, and its purpose is to bring together faculty members and students in the interests of campus activities of the women's athletic division. The finals in baseball and archery will be held at the fete.

Initiation for new members in W. A. A., eligible on receiving 100 points for baseball, will be held tomorrow after the May-day fete on Mackay field.

200 WRESTLERS GATHER AT OAC

O. A. C., April 30—More than 200 amateur wrestlers from colleges, high schools, and athletic clubs from all parts of the United States and a few sections of Canada, are here this week for the national wrestling tournament of the National amateur athletic union. The Aggies will enter a full team in an effort to win some of the 24 medals offered.

CALIFORNIA TO REWARD CREWS WITH TRIP EAST

UNIVERSITY OF CALIFORNIA, April 30—(PIP)—California will send her varsity and freshman crews east to the Poughkeepsie regatta June 28, by a decision of the executive committee last week. Recognition of the fact that the crew chous be rewarded by more than one trip, brought about this action. The Washington race was the only trip this year, and heretofore no trips have been made.

VARSITY TENNIS TEAM TO MEET JUNIOR COLLEGE

Five Men to Make Trip To Sacramento For Tilt

With a marked improvement over former years, the varsity tennis team triumphed over the Modesto racket welders by winning five out of six matches. The visitors showed plenty of class but were unable to defeat the Wolves.

Martin won his singles against Morns of the visitors by taking two straight sets, 6-1, 6-4. His victory was featured by his terrific serving which had his opponent completely baffled. The next match of the morning proved to be a walkaway for Blum of the Wolves, who took two sets from Boney of the visitors, 6-1, 6-0. In a neat exhibition of tennis playing, Green was the next Nevada man to run rough-shod over his opponent by the set scores of 6-3, 6-1. His opponent, Baird of Modesto, could not solve his baffling placement shots and was literally snowed under in the second half. The last singles match resulted in a victory for the visitors when Mott of Modesto won from Busey, 7-5, 6-4. Mott was the visitors' best man on the courts and won only after a hard fight with the Nevada man.

Doubles Captured.
In the doubles held during the afternoon the Wolves were completely victorious. Martin and Blum took over Boney and Morns of the visitors, 6-2, 5-7, 6-4, in a hard fought match. The Nevadans had it all their own way in the first set but in the second the opposition staged a rally and took the set. In the third, however, they went down for defeat again and in so doing lost the match.

Busey, paired with Green, had his revenge in his match when the two Wolves took their match from Matt and Baird, 6-2, 6-3. The Nevadans completely outclassed their opponents and but for numerous double faults would have won by a larger score.

SIGMA NUS TOP BASEBALL CLUBS

Due to the forfeiting of their game to Alpha Tau Omega, by the Phi Sigma Kappas, the latter team was eliminated from the league series. This leaves six nines remaining in the race for the Hill baseball title.

Sigma Nu is still leading not having lost a game. Alpha Tau Omega, Kappa Lambda, Beta Kappa and S. A. E. are tied with two losses each. The Independents are in second place with one defeat charged against them. There will be games played this Saturday as there is no track meet here. The champion will be determined next week, in the final play-off to see who is to be eliminated.

BETAS CLEANED BY KAPPAS 14-0

Kappa Lambdas continued their winning streak last week, taking Beta Kappa, 14 to 0. They had the game well in hand at all times and the outcome was never in doubt.

This contest eliminated the Virginia street boys as it was their third defeat. The batteries were: Kappa Lambda—Morrison, Woods and Sears.

FOOTBALL NETS MAJOR PROPORTION OF INCOME

UNIVERSITY OF CALIFORNIA, April 30.—(PIP)—Net cash income of the Associated Students for the period June 1 to December 31, 1925 was shown to be \$112,678.59 according to the annual financial report of the Executive committee. The major portion of the net income was derived from football games which drew a total of 343,719 spectators, resulting in a net profit of \$221,901.06. Other sports during the same period show net losses totalling \$48,298.43.

BRUSH SPORTS

HALL MEN TAKE SATURDAY GAME

It was necessary for Sigma Phi Sigma and Lincoln Hall to play off their tie game Saturday before the Nevada-Olympic club track meet, as it was the only logical time. Consequently, many persons did not get a chance to witness what was a very good game.

The scrap ended 6 to 4 in favor of the Hall boys and eliminated the fraternity men from the league. The pitchers for Sigma Phi Sigma were O'Connell and Whitey Lawson, while Moyes and Tony Blum did the receiving. Bethune and Orly did most of the heavy work for Lincoln Hall.

KAPPA LAMBDA LOSE TO LEADER

Last Wednesday afternoon Kappa Lambda went down to defeat before the Sigma Nus. It may be said that they lost gloriously, their stellar pitcher striking out 14 opponents. Woods has been the class of the league, but has had any amount of hard luck.

Clinch hurled a nice game, making eight men wave the air and allowed six hits. Woods and Sears started the losers in the batting department of the contest. The catchers were Morrison and Agrusa for Kappa Lambda and Sigma Nu respectively.

A. T. O. WINS FROM HALL MEN 14-7

Lincoln Hall met their Waterloo Tuesday last and were finally eliminated from the league. Alpha Tau Omega were the victors and won handily, 14 to 7.

Hug, while pitching for his club, reverted to the sensational. He walked three men with twelve pitched balls and managed to wiggle out of that tight hole. The diminutive shortstop also had a good day with the bat, gathering a home run and a two-bagger. The batteries were: A. T. O., Whiteacre, Towle and MacCormack and Gutterton; Lincoln Hall, Bethune, Burke and Orly.

NATIONAL EGG DAY TO BE OBSERVED SATURDAY

Saturday, May 1, has been proclaimed National Egg day by the National poultry council of America. Poultry producers and the allied industries are uniting in this national program to further interest in the poultry industry.

The council is organizing state and national committees to develop and promote appropriate observances of this day, and it will be celebrated in every state.

Press notices have also been sent out, stating the value of eggs and giving recipes for various egg dishes. The purpose in celebrating this national egg day is to bring before the people the value of eating more eggs for health's sake.

TO THE STUDENTS OF NEVADA

Goodbye, good luck and a pleasant vacation. Hope to see you all again this Fall, when we will be at your service in our newly remodeled and up-to-date Music Store.

Thanking all for past patronage.

PROFESSORS TO PLAY GRADUATES IN COMING GAME

Remarkable Amount of Talent On Hand For Contest

Faculty versus the Seniors. For the last time in four, five, or even six years, as the case may be, the pros and graduates will tangle. However, instead of using books and term themes, the two opposing groups will this time use bats and balls to settle their difficulties. The game is to be played on Mackay Field Monday afternoon at four o'clock.

For the pros, Blackler, Feemster and Sutherland will take turns at chucking the ball while Pendell and McCarthy will be on the receiving end. At first base, Haseman and Martie will hold forth and some excellent work is expected at this source. McCarthy will take care of second while Shaw uses his talent at third. The infield will be complete with Lehenbauer at short. In the outfield, Trainer will handle right field while Jones will dominate the center part of the battle front. To wind up the aggregation, Blackler and Feemster will take turns at left field.

Seniors Hard Lookers.
For the seniors Spina and Kalin will constitute the battery. Tom Roach will fill first with Cahlin on second and Jones on third. Completing the infield will be "Bunny" Hug at short stop which should make an infield capable of equalling or even surpassing the faculties. In the outfield, Shaber, Robinson, and Goodale will play left, center and right fields respectively. On the reserve list Skinner and Sears will be ready to go in and help wallop the pros if the others find they cannot do the trick.

YERINGTON WINS OVER S. A. E. 5-4

Hard luck followed S. A. E. to Yerington last Sunday and after a hard-fought game lost 5 to 4. Barnum chucked one of his best contests, striking out 19 men. He allowed but two hits, the runs being scored on errors. Freidenbach, Dakin and "Chick" Gardner started with the bat each getting several hits. They finished strong, but not enough to overcome the lead. The battery for the college team was Barnum and Connolly.

INDEPENDENTS IN VARSITY TENNIS WIN OVER SAE'S STARS VANQUISH MODESTO 5 TO 1

S. A. E. was obliged to take second place to the Independents last Monday afternoon. The score was 8 to 4, but the winners had to play every minute in order to clinch the contest.

The losers had played in Yerington the preceding day and the long trip contributed seriously to their loss. This is their second defeat in the League. The Independents played consistent ball throughout.

SIG PHI SIGS IN TIE BALL GAME

Lincoln Hall and Sigma Phi Sigma played a 5 to 5 ball game last Wednesday afternoon, in an endeavor to see who would be eliminated. Both clubs have lost two contests, but due to the tie which could not be played off because of darkness, an extra game will have to be played.

Burge, Lincoln Hall hurler, sewed the contest up with a three-bagger in the last inning, scoring two men. The batteries were: Lincoln Hall, Burge and Orly; Sigma Phi Sigma, Lawson, O'Connell and Moyes.

WOLF RACKET WEILDERS SWEEP TO VICTORY OVER VISITORS

The tennis team will engage in their second inter-collegiate meet of the season tomorrow when they tangle with the Sacramento Junior College at Sacramento. This is the first year that tennis has been recognized as an important sport and if the interest in it keeps increasing at its present rate it will take its place among the

major sports on the campus. The Sacramento team is an "unknown quantity" as far as any dope on them is concerned. Last year the Varsity met them and decisively defeated them so that unless they have obtained some new players, the Wolf racket welders should not have much trouble in disposing of them. Five men will make the trip and, as a lure practically on a level with each other, ought to make things extremely interesting for the capital city collegians. The Nevada men making the trip are Green, Busey, Lombardi, Blum, and Martin.

When the straight-8 blows a shoe

BEFORE you even look for the jack or tire-tools, tuck a neat wad of Prince Albert into the muzzle of your jimmy-pipe. Light up . . . and get yourself in the frame of mind where a flat tire is "all in the day's work." Talk about a gloom-chaser!
P. A. simply knocks troubles for a row of planished-steel mudguards. Its cool, soothing smoke percolates into your system, the sun crashes through the clouds, and everything is hotsy-totsy. Yes indeed, Fellows, Prince Albert is great tobacco.
And paste this in the fly-leaf of your thesaurus: P. A. can't bite your tongue or parch your throat, no matter how hard you hit it up. The Prince Albert process flunked Bite and Parch on their first examination. Get a tidy red tin of P. A. now and see.
PRINCE ALBERT
—no other tobacco is like it!
P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

Frost's Platform for Coming Year Given

Harry Frost, '27, president of A. S. U. N., for the coming year believes that the biggest duty of the officers is to bring back the college spirit, to at least its old level. He feels that this can only be done by:

1. Giving full support to the yell leaders, and rallies, and seeing that athletic teams get more backing from the student body.
2. Livening up student-body meetings by having entertainments provided by a live wire organization.
3. Putting pep into executive meetings.
4. Securing a greater cooperation between the men and women in all

5. Helping to foster a better feeling between fraternities.
6. Fully supporting our coaches.
7. Making important committees more representative of the campus, such as increasing the number of members on the upperclass committee, so that all the different interests are represented. This, of course, will be voted upon by the student body.
8. Making and changes relating to student-body, such as putting out a new hand book for the Fresh.
9. Supporting any measures or movement which is for the benefit of the student-body.

WIER GIVEN OLD NEVADA HISTORY

Among the interesting curios presented to the Nevada Historical society was "The History of Nevada," written by Myron Angel and M. D. Fairchild. The book was found in a second-hand store in San Francisco by Miss J. E. Fier. The book contains newspaper articles written by Almarin B. Paul. In the articles Paul claims he started the first mill on the Comstock. There are also typewritten notes by Mr. Fairchild.

Other books were the "Territorial Laws of the 2nd Session of the Legislative Assembly," published in Virginia City by J. T. Goodman, and the "Laws of the First Session, and the Senate Bill No. 1 of the First State Session."

An interesting pamphlet was sent in with these books called "Reno, Nevada, The Holy City of the World." The greatest topic is that of divorce. Other interesting things are its amusements, its easy laws, and side-lights of Reno. There is also a very good history of Nevada contained in this pamphlet.

At Home with the Kodak

Little home incidents are the little things that count—in pictures. An album full is a prized possession.

And it's all so easy with a Kodak. You can see for yourself here. Kodaks \$5 up.

DORMITORY SUPERVISOR NOTES CAMPUS CHANGES DURING PAST 39 YEARS

"Yes, there surely has been a change in the campus since I came here in 1887 and worked on the bell tower of Morrill Hall," said G. O. McNeese, who is supervising the University's interests in the new dormitory, as he looked out over Manzanita Lake.

"The University was moved here in 1887 but Morrill Hall had been started two years before and stopped for lack of funds. So it was not until 1887, 39 years ago, that the bell tower on which I worked was finished." By the way, Frederick A. Bristol, who graduated here in '91, and who is the father of Frank Bristol, '26, was also on that job. His father was the foreman. The two upper floors of the hall were built that year, too."

OHIO EXCHANGES DRAMATIC CLUBS

Two Ohio schools have devised an intercollegiate contest that is different. Ohio Wesleyan and Western Reserve Universities recently exchange dramatic clubs. The Wesleyan Players performed at Reserve and the Reserve members of Sock and Buskin at Wesleyan.

"The Goose Hangs High" a popular play among the collegians this year was given by the Wesleyan group. Martin Flavin's "Children of the Moon" by the Westernfolk. The visiting actors brought no scenery with them but used the home clubs' property.

LOWEST STUDENT COST FOUND AT WASHINGTON UNIVERSITY OF WASHINGTON

Seattle, April 30.—(PIP)—The University of Washington has the lowest cost per student per year out of fifteen large state universities and colleges, according to statistics compiled by the United States bureau of education.

The average cost for each of the 6,149 students enrolled during the fall quarter was \$247. The University of Michigan with an average expenditure of \$726 per student headed the list. The average at the University of California was \$423, while Oregon Agricultural college expended \$399 for every student enrolled.

FIRST TREASURE HUNT TAKES PLACE IN RENO

In preparation for the May treasure hunt at the Golf Club, Reno's first hunt took place a week ago last Tuesday. The introductory event was a private party, but the one given tomorrow will be open to the general public.

The hostesses for this initial try-out were Dorothy Bartlett, Hester Mayotte and Dorothy Cochran.

STANFORD TRIES NEW RUSH IDEA

STANFORD UNIVERSITY, April 30.—(PIP)—Stanford fraternity rushing has opened under the new group system which divides the rushing period into three parts and the fraternities into two groups. Each house is allowed five luncheon and five dinner engagements during the first period.

The 24 fraternities are divided into two halves, and each group alternates on the days for engagements. The first period opened April 11 and extended to April 21. During this time a freshman can go to a house only once.

The second period is six days long, and allows each house an unlimited number of dates with any freshmen. The third period, three days in length, is similar to the second period except that the hours for dinner dates are somewhat different.

This group system of rushing is the third that has been tried by the fraternities since open rushing at the first of the year was permissible. The inter-fraternity council is much in favor of this system.

COPPER GUTTERS TO ADORN ROOF

Roof gutters of the new women's dormitory are being constructed of copper, according to G. O. McNeese, who is the University representative on the job. These fittings are being used in order to avoid repairing and to increase the efficiency of the draining system. The copper will last many years unless they freeze and burst at the seams.

"They are the only ones of their type on the campus," says McNeese.

MICROSCOPIST OF UTAH, R. E. HEAD, PRAISES SCHOOL

University Equipment Credit To People Of Nevada

"With buildings, campus and equipment, that would do justice to a state having four times its population, Nevada can justly be proud of her University," R. E. Head, a leading microscopist and assistant superintendent of the Salt Lake station of the bureau of mines, declared after visiting the Camps for the past week.

"On every hand," he said, "are evidences of progression, and the observer is moved by a feeling of respect and admiration for the founders of the University of Nevada, the members of its faculty, and the empire builders of the future who receive their training within its walls."

Example of Progress
"The University of Nevada is an outstanding example of the progress that is being made in the unbuilding of the west," he continued. "One cannot but marvel at this tangible evidence of Nevada's determination to maintain her place in the front ranks of the empire-building program conceived, and established in the face of what would be insurmountable difficulties."

"The University of Nevada is an outstanding example of the progress that is being made in the unbuilding of the west," he continued. "One cannot but marvel at this tangible evidence of Nevada's determination to maintain her place in the front ranks of the empire-building program conceived, and established in the face of what would be insurmountable difficulties."

NEVADA GRAD IS HEAD OF LARGE QUEBEC PLANT

Harper C. Neeld, mining engineer of the class of '15, is now superintendent of the Canadian Carborundum company in Shawshigan Falls, Quebec. This plant is the largest of its kind in the world, and has an electrical energy capacity of 19,000 horsepower. Its products are shipped all over the world.

Qualities except to those in whose veins flows the blood of the hardy pioneer.

In conclusion he stated that it is doubtful whether any greater number of people pause long enough, in this progressive age, to consider and fully enjoy the multitude of opportunities with which they are surrounded. In this respect, we of the west are particularly fortunate since we cannot fail to be impressed and imbued with the spirit of the pioneer and feel within us that pride which can result only through the overcoming of difficulties.
