TILLIE EVANSEN APPOINTED NEW BRUSH MANAGER THIS SEMESTER

FIRST WOMAN TO ASSUME
POSITION OF STAFF
LEADERSHIP

ADVANCEMENTS MADE IN
NEWS DEPARTMENT
ANNOUNCED

Tillie Evansen, senior in the College of Arts and Science, is to head the business staff of the Sagebrush during the remainder of the semester as business manager. The appointment was made Monday night by the publications board to fill the vacancy left by Earl Bannister, ex-'27, who is not registered at the university this term.

Miss Evansen is in the unique position of being the first woman to be appointed head of either staff of the U. of N. Sagebrush. The new business manager has been connected with the business staff during the past two semesters, previous to which she was a member of the news staff of the publication for three semesters. Miss Evansen officially takes over duties with this issue of the Sagebrush.

Other Changes
Changes in the news staff have also been made with the beginning of the new semester. Fred Anderson, '28, formerly night editor, has been given the position of managing editor. Amy Goodman, '27, who withdrew from the university last semester has returned to take up her former duties as women's editor. The position of night editor goes to Marvin Robinson, '29, who has returned to Nevada after a semester's absence. Eva Adams, '28, is head of the news staff; Walden Kline, '29, sports editor, and Ellen Harrington, '29, society editor, complete the organization of staff heads for the semester.

MEN'S GLEE TO SING TOMORROW NIGHT AT GAME

CONCERT TOURS BEGIN
THIS MONTH, STATE
TRIP IN MARCH

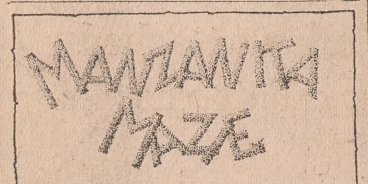

The men's glee club will make their first appearance of this semester tomorrow night when they will sing a number of college and bleacher songs between the halves of the Nevada-Oklahoma basketball game.

Concert tours will begin early in the semester. The first will probably be during the session of the next legislature when the group will give a concert in Carson City. Plans are also being made to give a concert during the year at the State Penitentiary.

The club has offered its services to the arrangements committee for the Governor's Ball, to help furnish the entertainment. Four years ago the club sang at the Inaugural Ball.

State Tour Planned
The state tour will be made some time in March. Concerts will be made in approximately the same towns as were visited last year. Guarantees are being handled by Walter Cunningham, '28, business manager of the club.

All of last semester's members with the exception of Clifford Hitchings, '29, of Ely, the accompanist, have returned. Paul Ralston and George Petyrew will be the accompanists for this semester. A few new members have been added to the club.

Just because some of these guys peddle an old line is no sayin' they are antique dealers.

Upper Classmen Are Named To Fill Vacancies On Committees

SAGEBRUSH AWARDS
GIVEN AT A. S. U. N.
MEETING

NOMINATIONS CALLED
TO FILL FINANCE
VACANCY

Lawrence Niswander, '27, Emory Branch, '27, and Rudolph Blum, '28, were appointed by Harry Frost, president of A. S. U. N. at student body meeting to fill the vacancies on the men's upperclass committee made by the withdrawals from school of Max Allen, '28, Walter Cox, '27, and Justice Lawson, '27.

The nominations of Harney Archais, '28, and Cranville Leavitt, '28 to finance control were withdrawn due to the fact that this officer must be a senior. No other nominations were made. Nominations for this office will remain open until 4 o'clock Monday, January 24.

Italic N's for last semester's work on the Sagebrush were awarded to Dixie Randall '27, Fred Anderson '28, Thor Smith '27, Tillie Evansen '28, and Ellen Harrington '28.

Vernon Cantlon '28, announced that approximately 150 Frosh Bibles are on hand. He also stated that student body cards must be presented at the gates for all basketball games.

Archie Watson '28, and Ray Henriksen '27, urged better attendance at basketball games.

Yells and songs were turned over to Bob Stewart '27, and Johnny Agrusa '27, the respective yell and song leaders.

FAMOUS AUTHOR TO LECTURE AT NEVADA IN APRIL

JOSEPH HALL TO VISIT
THROUGH FULTON
FOUNDATION

Joseph Hall, nationally known under the pen name of Upton Close, has been selected as the lecturer to come to this university under the Robert Lardin Fulton Lecture Foundation, this semester. The writer will be on the campus for three days sometime between April 1 and May 1.

Plans call for three evening lectures in the Education Building Auditorium. The topics to be discussed by Mr. Hall are "The End of the White Man's World," "An American Barbarian in China," and "Cherry Blossom and Pear Orchard." These lectures will be open and free to the campus and the general public.

Informal Talks
During two days of his visit to Nevada, Joseph Hall will give informal addresses in the afternoon. They will be to journalism students and to students of history and political science. On the afternoon of the last day a faculty reception will be given in his honor.

The visit of this noted writer is made possible through funds accruing from the Robert Lardin Fulton Lecture Foundation. The foundation was initiated in April of 1925 to bring annually to the university some leader in the field of science, art, literature or public affairs, for lecture purposes.

D. A. E. MEMBERS VISIT OLD SPAIN

Spain, with its dark-haired senoritas, was the setting last night when members of D. A. E. met at the Pi Beta house for the monthly meeting. Each member appeared in Spanish costume and related facts concerning some Spanish author.

Entertainment was furnished by Betty Sue Shaw, '28, who gave a Spanish dance, and Florence Billingshurst, '27, who gave several piano selections. Personal experiences in Spain were related by Mrs. Edwin Williams.

STUDENTS TEACH PRIMARY GRADES

With twenty-eight students of the School of Education teaching in the elementary grades of the city schools, practice teaching is again under way. The teachers took up their new work this week.

WILL HOOP 'EM TOMORROW NIGHT

The Nevada Varsity, who will play their third game of the season against the Tulsa Eagles tomorrow night. Reading top, left to right, they are: "Doc" Martie, coach; Captain "Bozo" Watson, center; "Dixie" Randall, forward; "Les" Clover, guard; Lem Robertson, center; Leon Hainer, guard. Center row: Tom Raycroft, forward; "Jimmy" Bailey, forward; "Monk" Morrison, guard; Joe Garcia, manager. Bottom row: "Jake" Lawlor, forward; "Mike" Lawlor, forward; George Wright, forward; Jack Kellogg, guard; Bruce Conely, forward.

BALZAR ACCEPTS MEMBERSHIP IN BLUE KEY FRAT

PLANS ACTIVE INTEREST
IN ALL UNIVERSITY
ACTIVITIES

Governor Balzar was voted an honorary membership to the Buck-grabber's Chapter of Blue Key at a recent meeting of that organization. A committee headed by Ian Mensinger, president, went to Carson City Tuesday afternoon and extended the invitation to the governor who accepted it and assured the committee that he planned to take an active part in the organization as well as in the university in general. It has been the policy of Blue Key to have as honorary members the prominent men in the state.

The Blue Key will manage the Campus Players' next play, "Captain Applejack," to be given at the Granada Theatre January 28.

ENROLLMENT IS NEAR PAST YEAR

Registration figures released Wednesday night showed that at the end of the ninth day of registration 770 cards had been given out and that 734 had completed enrollment. This is in comparison with figures of the same period one year ago which indicated 775 cards out and 743 complete enrollments. It is anticipated by the administration that with new students and former students returning after a semester's absence that the total registration will exceed 900 and will approximate the figure of last year.

Out of the enrollment this semester 431 students are men and 303 are women. The total new student figure is 56, of which 31 are students from out of Nevada. In the different classes the enrollment is as follows:

Freshmen, 267; Sophomores, 188; Juniors, 176; Seniors, 68. The graduate students number 13; unclassified 11, and special 11.

In the College of Engineering the enrollment is 117. This figure is less than that of last semester, which was 144. Dean Sibley states that the falling off is largely in Freshmen. The number of flunk-outs and probation students shows that there has been an increase in scholarship in the Engineering College, and though the number is less the students are better. There are at present more old students coming back to finish up engineering than ever before.

LINCOLN HALL HAS NEW RESIDENTS THIS TERM

There are twelve new men living in Lincoln Hall this semester, some of them having lived there during previous semesters, while others are transfers or new freshmen. They are: L. Moon, '29, A. L. Brown, '30, R. Coverston, '30, S. R. Dubrevac, '29, L. Hainer, '28, T. Jackson, '28, C. Whitehead, '28, J. Tompkins, '28, C. Winder, '30, E. Root, '30, G. Lotz, '28, S. Murillo, '28.

Tomorrow Night

The spirit in evidence at the Nevada-Idaho basketball games of last week-end was in no way worthy of the name—Nevada spirit. The majority of the student body made it a point to take in any other attractions that offered as against attendance at a game played by their own Varsity. Those who did attend either escorted lady friends to the balconies or sat spiritlessly in the partially filled bleachers. Might this never again be said of a Nevada student body.

Tomorrow night separate bleachers will be set aside for both men and women rooters. Every Nevada student is expected to seat himself or herself in the rooting sections and show the Wolf Pack some real Nevada spirit from the beginning of the game until the final bell.

Let nothing keep the entire student body from backing the fighting Nevada Pack tomorrow night in the rooting stands.

—Editor.

THREE ACT PLAY TO BE PRESENTED BY HILL TALENT

'CAPTAIN APPLE JACK'
SLATED TO APPEAR
JANUARY 28

"Captain Applejack," a comedy in three acts, will be presented by Campus Players at the Granada Theatre Friday, January 28. The announcement was made at the first meeting of the Hill players for the semester, held at the Gamma Phi Beta house. All advertising and ticket sales will be under the charge of Blue Key, service organization. Properties and lighting effects are being taken care of by the managerial staff of the players.

The initial tryout meeting for those wishing to make Campus Players is being held today at 4 o'clock in the Education Building. Tryouts to cast a group of one act plays will be held during the coming week. With these casts once chosen rehearsals will be pushed forward with the aim of presenting the plays sometime next month. All those trying out to be the managerial staff of Campus Players are also expected to attend the meeting today to receive instructions.

FOUR LECTURERS OF HIGH QUALITY TO APPEAR HERE

Illustrated Lectures, Play
Are On Program

Four lectures for the coming semester have been definitely scheduled by the committee on lectures, according to its chairman, Prof. S. B. Doten, and one other of outstanding merit is tentatively set.

As the first lecture attraction of the year Dr. J. E. Church of the faculty has been scheduled for January 27, his topic to be centered about his recent trip to Greenland, at which time many unique and strange happenings were experienced. The lecture will be supplemented by lantern slides illustrating the most interesting phases of the expedition.

On the night of February 10, Mrs. Emma Corrow will present a three-act play, "The Return of Peter Grimm," in the Auditorium. Nothing of this type has been presented recently before a campus audience, and it promises to be of high quality in interest and entertainment.

Australia Featured
At the assembly hour on February 25, Mrs. Oliver Brainbridge will present a featured lecture on Australia—"The Forest-Clad Continent of the South," upon which subject she is well informed, promising an interesting treatment in an unusual manner.

There is a possibility that the committee on lectures will secure Floyd Bennett as lecturer on the "Flight to the North Pole." The first-hand experiences of Floyd Bennett as a pilot with Commander Byrd in the recent polar expedition marks him valuable as a possible lecturer to be heard on this campus, and plans are in progress to assure his appearance some time this spring.

WOMEN TO HOLD UNIVERSITY DAY

On Friday, January 21, the women of the Twentieth Century Club will conduct their annual University Day entertainment. Cap and Scroll, women's honor society, will be in charge of the program for an hour. The society is writing a play representing a typical girl's four years at college that will be a part of the program, along with a special chorus of the Women's Glee Club. The entertainment will begin at 8 o'clock at the Century Club House.

FEW CHANGES IN WOMEN'S HALLS

Manzanita Hall is housing six new women, and Artemesia Hall has one new woman this semester. This, added to the many changes in rooms and room mates, has tended to produce a very disturbed condition of affairs.

WOLF PACK PRIMED TO BATTLE TULSA EAGLES TOMORROW NIGHT

OKLAHOMA PLAYERS HAVE SENSATIONAL RECORD TO
UPHOLD IN THEIR APPEARANCE HERE

Tomorrow night the Wolf Pack will find itself facing one of the strongest basketball teams in the country in the Tulsa Eagles of Tulsa, Oklahoma. The Eagles have a conquest to their credit that makes Napoleon's victories appear like a small boy's ramblings, with the undisputed championships of ten states to their credit. Against the Wolves they are out to increase the number to eleven, so a merry evening is in store for the fans who concede it to their advantage to see the game.

The Eagles are entered in their fourth season of play and, with several new men added to their already invincible quintet, have proved to be worth any man's money to see them in action. "Dick" Carter, their leader, has ripped and flashed his way through a fog and several of the best critics in the East have rated him as the fastest man ever seen on a basketball court in the past or present. He is noted as a sensational dribbler, and a deadly shot on the basket, so should cause "Les" Clover, the Pack's stellar guard, no end of trouble.

Coupled with Carter at forward and sharing the starring honors is Burnice Clemens, who moves around the court in a truly marvelous manner. Clemens played with the Cincinnati "Wildcats" when they lost out with the International Y Championship and since joining the Eagles has been a contributing factor in the team's victories.

Tough Indian
Another man whom the Wolves will have to watch is "Chief" James, a full-blooded Cherokee Indian who joined the Eagles after being sought by every good cage team in the Southwest. He is an exceptional shot and a hard man to guard.

These three men are only a few of the spectacular array of cage stars that the Eagles carry with them to smother opponents, and the entire outfit can be placed on even terms with any aggregation that has ever invaded the Nevada court.

The Wolves, on the other hand, have spent an extensive week in an endeavor to iron out the rough spots shown in the Idaho games. The loss of Captain Watson for the Wolves was a great blow and "Doc" Martie has exerted himself in an endeavor to find a man to take his place. "Les" Clover has proved a good man at the tipoff, and so far has managed to hoist himself in the air in a fairly satisfactory manner. The other members of the varsity have improved under the extensive work handed out to them and the Eagles will find a hard fighting Wolf Pack against them tomorrow night.

SIGMA NU LEADS IN PLEDGING AS RACE CONTINUES

TWENTY NEW PINS GIVEN
OUT DURING WEEK BY
SEVEN FRATS

Each of Nevada's eight fraternities, with the exception of one, have recently announced the pledging of new members and twenty men students are now sporting new pledge pins.

Sigma Nu leads the list in the number taken in, having pledged six. Sigma Alpha Ppsilon and Sigma Phi Sigma each have four new members. Kappa Lambda comes next with three; Alpha Tau Omega, Phi Sigma Kappa, and Beta Kappa have one each. Delta Sigma Lambda has taken in no new members as yet this semester.

The following is a list of new "frat" men:
Sigma Nu: Bob Merritt, '30, San Francisco; Charles Eldridge, '30, San Francisco; Jim Clark, '30, San Francisco; Don Inskip, '30, Arcata, California; Buster Parva, '30, Oakland; John Gilmartin, '29, Sparks, Nevada.

Sigma Alpha Epsilon: Harry Lippere, '30, Elko, Nevada; Dick Hillman, '29, Sparks, Nevada; Sherwood French, '30, San Francisco; Carol Cross, '30, Sparks, Nevada.

Sigma Phi Sigma: Ed Peck, '30, Los Angeles; Harry Robinson, '30, Woodland, California; Fred Stoll, '30, Martinez, California; and Fred Delongchamps, '30, Reno.

Kappa Lambda: Whayne Webb, '30, Fallon, Nevada; Melville Hancock, '30, Fallon, Nevada; and Allan Bible, '30, Fallon, Nevada.

Alpha Tau Omega: Frank Wittenberg, '30, Tonopah, Nevada.
Phi Sigma Kappa: Al Miller, '30, Colusa, California.
Beta Kappa: Thomas Johnson, '30, Walnut Creek, California.
A majority of the new fraternity men are from California, San Francisco seeming to be the most popular as a field for fraternity material.

LUNCH PLANNED FOR TOMORROW

The Reno branch of the American Association of University Women are having a luncheon Saturday noon at the Golden Hotel, this being their regular meeting. The program will consist of talks and discussions on "International Relations." Mrs. Silas Ross will act as chairman of the meeting.

CHURCH SPEAKS TO HIGH SCHOOL

Professor J. E. Church, who last summer made an extensive tour and study of Greenland with a survey party, has recently given a series of interesting and instructive talks to various groups in Reno. Last Friday noon he lectured before the Reno high school student body, his subject being "The Land at the Top of the World," and the same afternoon before the Twentieth Century Club on "The Spirit of the Northland."

Monday afternoon he talked before the Rotary Club on "Green Greenland and the White Eskimo," telling of the optimistic spirit of the Greenlanders despite their living conditions.

HOSPITAL AGAIN HAS NEW NURSE

The university hospital opens this semester with a change in staff. Miss Tarbett, a graduate nurse, coming here from Logan, Utah, has replaced Miss Lydia Fields, former matron of the hospital. Dr. Robinson will continue as the university physician.

'Artemesia Art Says:

Don't say we didn't warn you! Ennahow, the Artemesia will now have to go to press without your picture in it, if you haven't already had such picture taken. The sorority panels will be held up, however, so that new sisters can be shot on the Tuesday and Wednesday following Bid Day.

CANDIDATES FOR G. E. FELLOWSHIP MAY NOW APPLY

EACH FELLOWSHIP WORTH \$500; LLOYD SMITH WINS AWARD

Conditions under which the Charles A. Coffin Foundation fellowships, established by the General Electric Company four years ago, will be awarded for the academic year 1927-1928, have recently been announced. The Foundation provides for the award of five thousand dollars each year for fellowships to graduates of the universities, colleges and technical years of the United States who have shown, by the character of their work, that they could, with advantage, undertake or continue research work in educational institutions, either in this country or abroad. The fields in which these fellowships are awarded are electricity, physics and physical chemistry.

Financial Help These awards are given by the committee to men who without financial assistance, would be unable to devote themselves to research work. The minimum allowance is five hundred dollars, but this allowance may be increased to meet special needs of applicants to whom the committee may decide to award the fellowships.

Applications should be filed on forms provided for this purpose and should be sent first to the dean of the educational institution which the applicant attends or has attended. The dean then will file all applications received by him at the same time, together with a statement naming the two men applying who in his opinion are best qualified. Applications must be filed with the committee by March 1, 1927, and should be addressed to Mr. W. W. Trench, Secretary, Charles A. Coffin Foundation, Schenectady, New York.

Nevada Man Awarded Four graduate students and one undergraduate have been awarded fellowships for the year of 1926-1927. In addition the committee granted one renewal and appointed one alternate. Last year Lloyd P. Smith, graduate of the University of Nevada, '25, was awarded one of the Charles A. Coffin fellowships and is now studying at Cornell University, and will do research work either on the theory of thermal ionization or on the theory of the "Hall Effect." During 1925-1926 he was employed in the General Electric Company's Research Laboratory.

Approximately \$20,000 (exactly \$19,500) has been awarded in fellowships in the four years that the Foundation has been in operation. The following committees consisting of a representative of each of the following named societies will award O. M. Leland, Society for the Promotion of the Fellowships and funds acting with the advice and co-operation of the general electric company's committee: Gano Dun, National Academy of Sciences; C. C. Chesney, American Institute of Electrical Engineers; Dean of Engineering Education.

'SONG SERVICE' AGAIN CONTINUED

The Y. W. song services which were held on Sunday afternoons during the stormy weather last year, will be continued again this semester and will begin soon, according to Florence Billingshurst, '27, chairman of the committee in charge.

Outside talent will be brought in for the purpose of making these "Sunday Singers" as they are called, entertaining. Much interest is being manifested by all the girls, and it is expected that the services this year will prove better than ever.

BAND POSITIONS ARE STILL OPEN

Several positions are open in the University band this semester, according to Professor C. H. Kent, the director. So far the enrollment has been larger than previously, but there are still a number of instruments which are needed to make it complete. Among other plans that have been made for the band's participation in University affairs Professor Kent has announced that they will probably play at the basketball games a little later in the season.

STUDY MADE OF OPAL INDUSTRIES

The Nevada station of the United States Bureau of Mines, an organization affiliated with the university, is now attempting to devise a new means of curing opals. Work will also be done on improving the finished product. If any practical method can be worked out the opal industry in Nevada will gain several leaps in importance, according to Edmund S. Leaver, superintendent of the Nevada station.

Under the present process of conditioning the opals several years are required to perfect the stones for market. The Bureau of Mines will endeavor to find some speedier method of conditioning, and if at all possible or practical, will try to bring out harder and better grade stones.

To Develop Nevada With the stone better and the cost of production cut, Leaver declared, the opal industry would develop rapidly in Nevada.

A large consignment of the raw gems have been shipped to the station and the staff is starting work on new methods.

'HONOR SYSTEM' BELIEVED FUTILE

Dean Lewis E. Ford of the College of Dentistry of Southern California was recently interviewed on the question of the proposed honor system and its effectiveness at the Dental College.

Dr. Ford believes that the honor system would fail in the college of Dentistry. "The only kind of an honor system that works is a jail and a jug and a police force. I believe in a strong proctorial system," says Dr. Ford. "When we come to an examination we aren't trying to determine honor," added Dr. Ford. "We are trying to find out how the professor is getting his subject over. It isn't a matter of honor."

NINE RESIDE AT SORORITY HOUSE

Nine Gamma Phi Beta women are now settled at the sorority's new residence for this semester at 522 West street. Mrs. Christianson of Carson City is acting as temporary house mother.

Class distribution of the women lies in favor of the upperclass, there being one senior and four juniors. The other women are all sophomores.

The Gamma Phi's until last semester had their residence at 833 Ralston.

Rushing Excitement Is Again Prevalent

"Will she, or won't she?"—"Will I, or won't I?"—"Will she be a good sister?"—"Will I get a bid?"

Bustle, excitement, hurry and—perhaps heartache—for rushing season is again here!

Sunday morning at 9 o'clock was the earliest time set for the securing of dates, and Monday was the first day of "rushing." Since then there has been the usual flurry in getting dates.

For the two weeks of rushing season great excitement will prevail. Sorority groups will be busy, and rushees will feel a general thrill and wonder, with perhaps a faint hope in their hearts that they may receive a bid for this or that one of the several sororities on the Hill.

During the two weeks each group will entertain with a formal tea, and then will come the day of silence, followed by "bid day." Many feminine hearts will be filled with joy, but others, sad to relate, will feel disappointment. But such is the way of the sorority.

SAVAGE TO COED AND BACK AGAIN

From South Sea savage to sorority girl—and back again—is the stirring account of the life of Princess Tarhata Kiram of Manila, who was for a time a co-ed at the University of Illinois.

In fact, when she returned to Manila, with the influence of the university still very much in evidence, with her hair bobbed and liberal ideas about the future of women in her head, one could have easily believed that she was permanently civilized, but the emul of life back in the "old home town" in contrast to the social life at a university, with its moonlit yacht rides, numerous parties, movies and motor trips proved too great for her.

Consequently she is a living proof of the statement that "culture comes from within," for she has cast her reputation to the winds by violating the custom of allowing only four wives to one man by becoming the fifth wife of Datu Tahil.

You owe it to yourself to be at the GYM Thursday night at 7 o'clock.

SENIORS WIN IN SEMESTER WORK SHOOTING MATCH PLANNED BY Y. W.

The senior women's rifle team, composed of N. Ayers and G. Wyckoff, won the annual women's interclass rifle match by an average of 94. The juniors averaged 89 and the sophomores averaged 87, exceeding that of the freshmen by a fraction of a point.

Gertrude Wyckoff, '29, led the matches by 98 prone, followed by Isabel Loring, '28, with 96 prone. The five highest prone and sitting averages were: Wyckoff 95, Loring 93, Lothrop 91, Shaber 91, and Adams 91. A match was held this week with the University of Cincinnati and the University of Montana. Those shooting were Gertrude Wyckoff, '29, Isabel Loring, '28, Naomi Lothrop, '28, Elizabeth Shaber, '29, Eva Adams, '28, Elizabeth Weeks, '29, Elizabeth Johnson, '29, Anita Becas, '28, May Bernasconi, '28, Naomi Ayers, '27, Sheila Parker, '29, Maude Dunbar, '30, Edna Ericson, '29, Mary Donohue, '29, and Idel Anderson, '30.

At least one contest each week with other colleges will be shot through March 12 by the Nevada team.

STEADY WAITERS GOOD STUDENTS

Figures from Miss Sissa's office indicate that students working their way through college hold high averages as a general rule.

Evidence is shown by one group of workers, those employed in the University of Nevada dining hall. The average of all students employed there is 2.830. Full time waiters made an average of 2.140, while the "pledges" or substitutes made 3.020.

You owe it to yourself to be at the GYM Thursday night at 7 o'clock.

SALES TO START AT CANDY BOOTH

The Y. W. C. A. candy booth will open Monday, January 17, according to Lucille Summerfield, '28, who is in charge. Several girls have signed up for it and Miss Summerfield states that the schedule will probably be filled by Monday.

K. MALLOY WILL BE AT MAJESTIC

Miss Kathleen Malloy, '28, will be featured in vaudeville at the Majestic next Sunday, Monday and Tuesday nights. She will be accompanied by Leota Maestretti, '25, as violinist, and Lea Goldstein as pianist.

The program will consist of popular songs, including "Cherie" and "Beside a Garden Wall."

PICTURES GIVEN MACKAY SCHOOL

A large picture of Virginia City was presented to the Mackay School of Mines recently by Frank Manson of the Western Ore Purchasing Company.

The picture is one taken within the last five years and shows clearly all the mine holdings in the surrounding hills as well as the entire town.

The other pictures were given the mines school at the same time. These pictures are smaller and are views of Rochester and Cortes.

A number of topographic maps and mining books, as well as a valuable box of specimens of different kinds of gold and silver were also received.

HUGE FAN INSTALLED AT IOWA IN TUNNEL SYSTEM

A huge electric fan, eight and one-half feet in diameter, has recently been installed in the heating tunnel system at Iowa State College to ventilate the tunnels and thus facilitate inspection and repair.

The fan is so arranged that it will draw air from the college heating and power plant through the entire network of tunnels beneath the campus. It is driven by a 40-horsepower motor with automatic control.

Why be the tools of a designing power. Be at the GYM Thursday night at 7 o'clock.

EVELYN BOUDETTE, ex-'29, is teaching school near Tuscarora, Nevada.

LEONARD FOX, '30, spent the week-end at Yerington.

SILVIA GENASCI, '26, spent Saturday and Sunday with friends in Reno before returning to California to continue her post graduate studies.

Included in the party of DeMolays who visited Susanville last Friday evening to install a new chapter were GORDAN JOHNSON, '28; ANGUS BETHUNE, '28; CHARLES CARTER, '28; ROBIN TRIMBLE, '29; GEORGE PETTYCREW, '29, and CLARK AMENS, '28.

CHARLES CLIFFORD, '30, has returned to the Campus from Los Angeles, where he spent the holidays.

LUCILE SANFORD, '29, is on the campus after a week's absence, during which she underwent an operation at the St. Mary's Hospital.

BLANCHE WYCKOFF, '26, has accepted a position teaching at Ruby Valley, Nevada.

EDITH SCRIBNER, '29, CECIL NEWTON, '30, and LUCILLE MCKENNEY, '30, spent the week-end at their homes in Loyalton.

MARION ALLISON, '30, GRETCHEN CARDINAL, '30, and IRENE WILSON, '30, visited their homes in Gardnerville during the week-end.

EDMUND PETERSON, '30, spent Sunday at her home in Carson City.

J. TAVELLE, '28 and E. WILSON, '28, motored up to Truckee last Sunday to watch the winter sports that are now in progress there.

WAYNE BEURER, '28, spent the week-end at his home in Fallon.

SUSSETTE BOWMAN, '30, and FAY REINHART, '30, spent Sunday at Pyramid Lake.

RUTH STREETER, '29, returned January 10, and is resuming her duties as a student.

DONALD MCCORMICK, '29, has been visiting in Reno for the past few days. He will return soon to

Opalite, Oregon, where he is employed in the mercury mines.

ROY WHITACRE, '27, returned Jan. 8, from Tampa, Florida, where he attended the Alpha Tau Omega convention, which was held Dec. 30, 31 and Jan. 1.

MARIAN ALLISON, '30, and GRETCHEN CARDINAL, '30, spent last week-end at their homes in Minden, motoring over Friday and returning to Manzanita Sunday evening.

CECIL NEWTON, '30, and LUCILLE MCKENNEY, '30, motored to their homes in Loyalton Sunday.

BLANCHE WYCKOFF, '26, is teaching school at Ruby Valley in Elko County.

EDDIE CLARK and CHESTER BREAUW were dinner guests at the Gamma Phi Beta house Wednesday evening.

EUGENE HOWELL, '26, OLIVER KISTLER, ex-'27, and HAROLD CAFFERETTA, ex-'26 were dinner guests at the Gamma Phi Beta house Friday evening.

Mr. and Mrs. Max Allen have returned to Reno after an enjoyable vacation spent in San Francisco and Los Angeles.

AL PETERSON, '30, spent the week-end in Virginia City.

IRENE WILSON, '30, enjoyed the week-end at her home in Minden.

LOIS HESSON, ex-'27, and MAY ABBOTT, ex-'29, are registered at Stanford University this semester.

EDMUND PETERSON, '30, spent Sunday at her home in Carson.

DR. W. H. HELTS of Elko, member of the State Veterinary Control service, who is located at Elko, was a visitor to the University Monday on his return from the California State Veterinary convention at Davis.

MRS. LUCIE MAYER, matron of Manzanita, spent Sunday with Gilberta Turner, '25, teacher in the Gardnerville High School.

EDITH SCRIBNER, '29, visited at her home in Loyalton last week-end.

BASKETBALL TO COMMENCE SOON

The women's basketball season will start last week of January, according to Miss Weber of the Physical training department. Volley ball and rifle will be concluded at this time after a successful season for both.

The basketball season promises to be very lively and it is probable that about 80 women will sign up. Of the initial enrollment about 60 or 70 can be counted on to go through the entire season. Approximately this number turned out for the previous sports. For those who have had no experience in basketball special sessions will be arranged by managers Isabel Loring, '26, and Martha Huber, '29.

Unique tournaments, including color tournaments and other features will be introduced to make particular interest. Class competition will be very keen this year and the games to be played off will call for intensive practice on the part of the participants.

The season will be concluded by a banquet at the Golden Hotel at which time the mythical varsity team will be announced and other features carried out.

Congestion Relieved For Maizie's Callers

"Reno 673" came the voice. "Thank you," said central, and brr-r-r went the buzzer. "Well, what the—say, fellows, what-do-ya know, that Manzanita 'phone wasn't busy for once!"

Surprise, gleeful shouts, and relief. Manzanita Hall is to have another telephone. This is to be an outgoing pay 'phone to be installed on second floor, and it is hoped that this will relieve the evening congestion that has hitherto wrecked the tempers of Manzanita Maizie's friends. This will also be used as a long distance 'phone, thus saving much inconvenience.

SECRETARY WILL SURVEY IN RENO

E. S. Cullings, secretary of the Black River Regulating District of Watertown, New York, who is making a circuit of the West for the purpose of studying the power problems, will be in Reno over the week-end.

While here Mr. Cullings will study Nevada methods of snow-surveying, which he plans to inaugurate in his own district in New York.

MINNESOTA HAS UNUSUAL CHIMES

A set of cathedral chimes, complete in every detail and worth several hundred dollars, has been donated to the University of Minnesota bands, by Mr. McClintock, president of the O. B. McClintock Manufacturing company of Minneapolis.

The chimes are a collection of tuned steel rods, hanging from a steel frame, which when struck with a soft mallet, give off the deep reverberating sounds of cathedral bells. They are used in the larger overtures and operas like the 1812 overture, which requires such heavy stage effects.

For some time the chimes have been used by the bands through the courtesy of Mr. McClintock.

Henry Norris Russell, professor of astronomy, Princeton University, believes that without the sun, the ocean would freeze and the air become liquid.

U. C. ENGINEERING GAS FELLOWSHIP

A \$1,000 fellowship for studying Gas Engineering at the University of California during 1926-27, has been offered for competition by the Pacific Coast Gas Association. Applications for the fellowship may be made by engineering seniors in the universities of Washington, Oregon, California, Idaho, Nevada, Arizona and British Columbia.

Those wishing to compete for the award should have their entrance requests on file at the University of California by February 20, Charles B. Lipman, dean of the graduate division at Berkeley, states.

EXTRACTION OF OIL IS CHEM CLUB TOPIC

Changing coal into oil was the subject of a talk given by Harvey Shields, '28, before the Chem Club last night. Taylor Smith, '28, spoke on bacteria in the intestines. It was decided to get some films to show in future meetings to increase interest in the club.

SNOW ADDS NEW BEAUTY TO HILL

By ART TIC

Heavy snow accompanied by mild weather furnished the students of the University a good deal of excitement during the week, and for a time at least put a beautifying touch to the campus that was highly appreciated by the artistic.

Monday morning, after a strong preliminary bath of sunshine, the heavy cloud banks began to join forces until they were sufficiently organized to begin their work of wetting the country. The snow started with large heavy flakes and lasted several hours, while the students running between classes to and from the University, became as thoroughly snow-covered as the ground.

As the snow was heavy and wet it packed nicely, with the result that there were many far from graceful falls. Flying legs, thuds and grunts, gave definite proof that the falls were real ones.

Paths Slippery
By the time the snowfall had subsided the paths about the campus had become well-packed and slippery. The danger of taking an informal slip on the way to the various buildings was heightened at that time by a barrage of snowballs which broke loose at intervals.

Tree branches, wires, and the like light objects were topped with a heavy coating that seemed far out of proportion to their size, and the entire landscape took on the aspect of a study in white by a genius.

STUDENTS GIVEN CONTROL AT U.M.

With the appointment of three students of the Administrative Board of the faculty, the student body of the University of Michigan will have its first representation in disciplinary measures.

The students will act with the faculty in all cases of student dishonesty in examinations and classes. Michigan students have never before had the privilege of student representation on disciplinary committees. If the present plan proves successful, it is planned to make it permanent.

Students were allowed to sit with the board because it was felt that the students would understand the causes from the angle of the students, and the discussion of the cases by the students would lend weight to the decisions.

Why be the tools of a designing power. Be at the GYM Thursday night at 7 o'clock.

"P.A."
letters of recommendation

EXPERIENCED pipe-smokers from Cape Lisburne to Cape Sable (get out your map of North America!) recommend P. A. to you as the finest tobacco that ever lined the bowl of a pipe. You'll check-in with their recommendation.

Why, the instant you swing back the hinged lid on the tidy red tin, your olfactory nerve registers a fragrance like that of a pine-grove on a damp morning. And when you tuck a load of this wonderful tobacco into your pipe—say, Mister!

Cool as Cape Lisburne, mentioned above. Sweet as the plaudits of a first-night audience. Mild as morning in Cape Sable. (That's working-in the old geography!) Mild, yet with a full tobacco body that completely satisfies your smoke-taste. Buy some Prince Albert today and make the test!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and punch removed by the Prince Albert process.

PRINCE ALBERT
—no other tobacco is like it!

Idaho Vandals Capture Wolves Pelt in Two Games

WOLVES GO DOWN TO DEFEAT IN SECOND TILT WITH IDAHO VANDALS

MORRISON AND CLOVER STAR FOR VARSITY AND CANINE PLAYS GOOD GAME FOR VISITORS

Tasting their second defeat in as many nights, the Nevada varsity basketball team went down to defeat before the powerful attack of the Idaho Vandals last Saturday in a slow basketball game. The Idaho team started out with a rush and it looked for a time as if Nevada would be snowed under with an extremely top-heavy score, but she later tightened up and the final score was 23 to 7.

As on the previous night the Idaho team started with a rush and the Idaho center started the game with a close-in shot under the basket. Immediately after, Idaho again worked the ball in and gained two more points with another under the basket shot. The game began to slow up and in their try to obtain the ball, two Nevada men committed fouls, both of which were converted by the Idaho men. Erickson, the Vandal center, again worked under the basket and dropped in another easy shot. At this point of the game the Nevada Varsity seemed to be completely demoralized as another close shot was made by Idaho and the highly touted Nevada defense seemed to have gone completely to pieces. Another Nevada man fouled and the basket was made. At this point in the game Idaho led 2 to 0. In a mix-up under the basket, Morrison, the Nevada forward, was fouled and made the point, giving Nevada their first point of the game. Canine, the brilliant Idaho forward, made a beautiful shot from the side lines to give his team a 13 to 1 lead. A few minutes later the half ended.

Second Half
Idaho started the second half with a rush and seemed about to overwhelm the varsity with a deluge of baskets. The guarding seemed to have gone completely to pieces and Idaho made two baskets in quick order, both of these shots coming from directly underneath. Then came the only bright spot in the game from the Nevada standpoint. The varsity seemed to suddenly come together and after a series of fast passes, Hainer, Nevada forward, caged a short basket for the first field goal for the Wolves. Directly afterwards Morrison, another forward, sank another close shot for two points, making the score, Idaho, 17; Nevada, 5. After the next tip-off Morrison again made another shot, bringing up Nevada's total to 7, where it stopped.

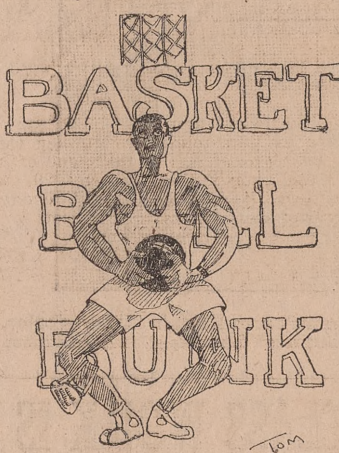

The game at this point began to liven up, as Idaho played their stalling offensive game with Nevada coming out of their five-man defense in an effort to keep their short lived rally going. On account of the speed at this point the game began to get much rougher and two Nevada men were called for fouls in succession, the Idaho team making both points. Soon after Idaho again sank a close shot and the bell ended the game.

Final score was Idaho, 23; Nevada 7. The lineups were as follows:
Nevada forward Miles
Morrison forward Nedros
Randall forward Erickson
Clover center Canine
Hainer guard Jacoby
J. Lawler guard
Nevada substitutes: Kellog, M. Lawler, Bailey, Robertson and Conneley.

WOMEN REFEREE IN HIGH SCHOOLS

Women of the Physical Education department of the University enrolled in the coaching course have been getting practical experience at refereeing in various nearby schools.

Those who have refereed at games are: Eva Adams, '28, and Mae Bernasconi, '28, Dayton and Douglas at Dayton; Isabel Loring, '28, and Vincent Alexander, '27, Douglas-Reno, at Gardnerville; and Elsie Mitchell, '27, and Isabel Loring, '28, Reno and Sparks at Reno.

By "HOOP-A-LA"

COED REFEREES TO PRACTICE ON PREP SEXTETTES

In order to give practice in refereeing to those women who are acting as the officials at the high school girls' basketball games this season, Miss Weber has asked those who have had previous experience to play basketball twice a week.

W. A. A. basketball season has not begun, but the referees need practice. This practice is obtained by refereeing games which the women, chosen by Miss Weber, play. Those who have been selected are ones who participated in W. A. A. sports last semester. The same number of women have been chosen from each class so that no class will have an advantage in inter-class matches when basketball season opens, because of their women having pre-season practice.

STATISTICS GIVE MAN'S AVERAGE

BERKELEY, Cal., Jan. 14.—Prof. Frank Kleiberger, head of the men's physical education department, University of California, has spent almost 11 years gathering data on the physical prowess of the "average" college man and the results of his findings based on a study of 6000 students are indications that modern college youths are, after all, pretty athletic, taken on an average.

If you are just "average" you should be 5 feet 9 inches in your stocking feet. And if you can do each of the following you are "average" collegiate: Run the 100-yard dash in tennis shoes in 12.5 seconds. Broad jump in tennis shoes a distance of 196 inches.

TEN FRAT HOOP TEAMS CLASH IN OPENING GAMES

FIVE GAMES STAGED IN GYM SATURDAY

Intra-mural basketball started with a rush last Saturday afternoon, when five contests were staged between the ten teams entered in the tournament. At 1 p. m. the Sigma Phi Sigma quintet met the basketeers of Kappa Lambda in an interesting game, which ended with a score of 13-3 in favor of Kappa Lambda.

Lineups of the teams were as follows: Kappa Lambda; forwards, Harper, Bunker; center, Newman; guards, Blackman, Woods; substitute, Hancock.

Sigma Phi Sigma; forwards, Kehoe, Blum; center, Burkham; guards, Long, Robinson; substitutes, Couch, Hill, Stall, Van Hoosier, Peck.

The second cage tilt ended with Delta Sigma Lambda on the long end of a 7-6 score against the Independents. The game was hotly contested and the result was in doubt until the final whistle sounded.

Lineups were: Delta Sigma Lambda; guards, Settlemeyer, Poppe; center, Stewart; forwards, Bailey and Mabson; substitutes, Ball, Archias.

Independents; guards, Moon, Sala; center, Buck; forwards, Bowen, Copren.

The third game was the S. A. E. Lincoln Hall, which was dropped to the Sigma Alphas, 17 to 6. The boys from Lincoln Hall showed up well.

An unusually large number of men have been out for practice, and have showed keen interest. More than 25 men have been in suits most of the time.

The Sigma Alpha Epsilon lineup was: guards, Hansen, Lombardi; center, Anderson; forwards, Conley, Knickerbocker; substitutes, Peterson, Castle, Higginbotham, Cantlon.

Tau-Phi Sig
An interesting game was staged by Alpha Tau Omega and Phi Sigma Kappa. Final score was 18-7 in favor of Alpha Tau. Lineup: Phi Sigma Kappa; guards, Frost, Ford; center, Taylor; forwards, Stewart, Hartung.

Alpha Tau Omega, forwards, Leavitt, Whitacre; center, Busey; guards, Allen, H. Rayercroft.

The last game of the first series was played between Sigma Nu and Beta Kappa. The game ended with Sigma Nu on the long end of a 23-7 score, after the Beta Kappas had put up a plucky battle.

Lineup: Beta Kappa; guards, Fish, Bristol; center, Sellman; forwards, Estes, Farrell; substitutes, Dierenger, Beach, Aiken.

Sigma Nu; guards, Agrusa, Broyles; center, Bream; forwards, Ketchum, Ducker.

Don't let the "powers that be" put something over on you. Be at the GYM Thursday night at 7 o'clock.

RIFLE TEAM HAS BETTER OUTLOOK WITH NEW YEAR

NEVADA TO COMPETE IN MATCHES WITH MANY GOOD SQUADS

Prospects of a busy season for the men's rifle team is indicated by their schedule, two group matches and some seventeen individual matches having been arranged to be fired between January 26 and April 25.

Due to the abundance of new material available and the interest shown, competition for positions on the team is very keen. Sergeant Barber states that at present the freshman and sophomore contestants are shooting better on the average than the more experienced junior and senior contestants—this fact gives promise of a raise in the standard of the team.

Nevada will compete in the Ninth Corps Area group match between January 26 and February 25—the Ninth Corps Area is composed of California, Nevada, Washington, Oregon, Arizona, and Idaho—all colleges in this area where military training is given under the R. O. T. C. are eligible for the match.

Hearst Trophy Match
Between February 15 and April 15 matches will be fired in the Hearst Trophy Match—this is a national contest and is open to all.

Individual matches will be fired with the University of Minnesota, Michigan State College, University of California, University of California, Southern Branch, Denison University (Ohio), Connecticut Agricultural College, University of North Dakota, University of Tennessee, University of Dayton (Ohio), University of Nebraska, and Culver Military Academy, Culver Military Academy, with which Nevada competes during the week of February 26 to March 5, has a large schedule of matches to be fired with colleges and academies over the country, and through this match Nevada will be given an indirect rating with these schools which she does not actually compete with.

The R. O. T. C. department has received ten of the very latest type gallery rifles this year which are being used by the contestants. A great deal of interest is being shown in the men's team, both for the sport of shooting and also for the credit that is allowed. Men who make the team will be excused from Monday and Wednesday 7:45 military classes and are allowed to practice Tuesday and Thursday afternoons and Saturday morning.

WATER CONTENT HIGH THIS YEAR

From the snow survey taken early this month under the direction of Dr. Church, the outlook for water next summer is exceedingly good, the water content in the snow being at least 15 per cent above what we usually have at this time of the year.

"Jimmy" Slaves, '24, a graduate of the University of Nevada, and assistant engineer of the Truckee River Power Company; Tom Welsh, '27, Gerold Elsie, '29, and Fred Herz, who has been taking active charge of field parties, were members of the last party which went to Mariette Lake.

The work is done for the state engineering department where Robert Allen has been the state engineer and who will now be replaced by "Molly" Malone. Both men are University of Nevada graduates.

William Balgoyen, keeper of the dam, and Bob Watson, Tavern guide, took measurements at Lake Tahoe, finding that it is gradually rising after having been very low through the past autumn.

'WOLF' WRITER HITS SORORITIES

Having been under the constant surveillance of a special writer for some time, the Nevada sororities are to be exposed as they actually are in the next issue of the "Desert Wolf," according to Norman Bell, editor of that publication.

When interviewed Bell was very reticent on the subject and refused to comment on or give any hints as to just what the article would contain with the exception that it will create a sensation.

The special writer is still engaged in making a study of conditions and is gathering a wealth of startling information. For purposes of personal safety as well as strategy in studying the wily co-ed the identity of the investigator must remain secret, but Bell stated that she (or he) was very competent for this type of work.

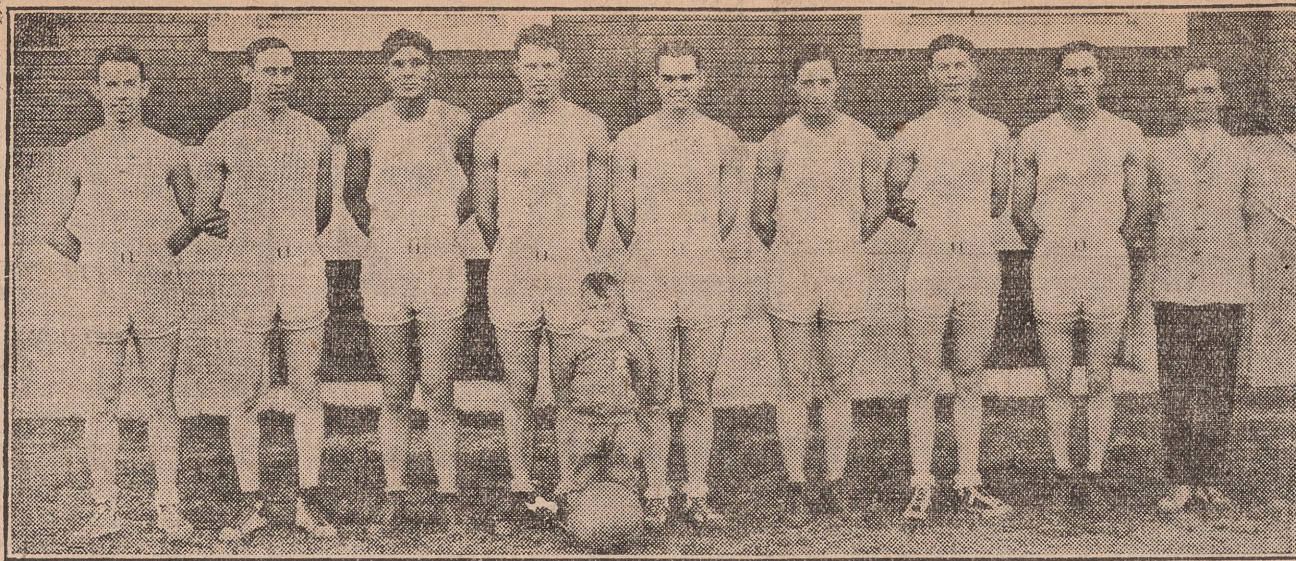

You owe it to yourself to be at the GYM Thursday night at 7 o'clock.

B. BARNES WINS SALE OF BIBLES 'BRUSH' CONTEST

Bernice Barnes, '30, has been announced by the judges as the winner of the Sage Brush "Best News Story Contest." She will receive the prize copy of Justin Smith's "Deadlines," which was donated by Professor A. L. Higginbotham to stimulate interest in news story writing.

The article on the Rhodes Scholarship award by Bernice Barnes in the December 17 issue of the Sagebrush was decided by the three judges, Norman Bell, '27, editor of Desert Wolf, Thor Smith, '27, editor of Artemisia, and Ernest Inwood, '27, Sagebrush, as the best straight news story written by a freshman member of the Sagebrush staff during the past semester.

MORE STUDENTS TO WORK IN E. E.

Through the addition of a small operating room, built-in work benches, the electrical engineering laboratory can now accommodate twice as many students as before, when it was necessary for all to work on the crowded laboratory floor.

Long cables which are led through conduits in the floor go from the laboratory to the benches of the operating room, where instruments used in the experiments can be kept.

ATTORNEYS-AT-LAW
Reno National Bank Building

CLASS WORK IS GIVEN AS AID TO DOWNTOWN MEN

Frosh "Bibles" will be on sale beginning next week, according to a ruling made by the executive committee of the A. S. U. N., which was held last Tuesday.

The committee also passed on the names of Milt Taylor, Homer Raycraft, Douglas Ford, William Copren, Jack Leavitt, Merrill Smith, Louie Lombardi, Roy McQuillan, and Ed Ducker for presentation of class numbers for their work on the Freshman basketball team of last year.

NOTICE
Miss Sissa, registrar, wishes all those students who have not given her their Reno address to please do so immediately. Several students have received mail at the registrar's office but some has not been forwarded due to lack of address.

VOCATIONAL TRAINING IS ASSISTED THROUGH UNIVERSITY

There are now five classes organized in the laboratories of the Electrical and Mechanical buildings for the purpose of giving practical vocational training for men who are working at these particular vocations.

Professor C. H. Kent is directing head of the work, which is sponsored by the public high schools and by the State Department of Vocational Training. These courses are in now way concerned with the university or its students other than that the University is giving them aid through the use of its laboratories and some

NEW ROOM FOR BATTERIES FIXED

The new battery room in the E. E. building is now complete, and is ready for use by the students this semester. All of the batteries are set on racks which are painted with acid-proof paint, and the walls and benches are acid-proofed in the same way. The room is adequately equipped with a charging panel and a large lead sink where battery work can be done without detrimental effects from the strong battery acid.

of its professors. Only men who are working at the particular trades or vocations represented by the classes are allowed to take the work, as it requires a thorough practical knowledge in order that it may be understood.

Every man who received a degree from the Boston College last year has been placed in a teaching position. (The operation of the theory of the relative scarcity and plenty seems to have favored the former.)
