## Clark Backed In Policy By Regents' Vote

### Nevada President Vindicated of Accusations Introduced by Talbot by 3 to 2 Ballot of State Board of Regents

#### WINGFIELD, WILLIAMS AND BROWN OPPOSE RESOLUTION

#### University Head Accused of Insubordination Sponsoring Propaganda and Neglect of Needed Construction Work

Vindicating President Clark of the startling accusations introduced by George F. Talbot, members of the State Board of Regents at a meeting held last Tuesday retained Clark as the University head by a vote of 3 to 2. The attack launched upon the president's head came like a thunderbolt out of the sky. The attack came in form of a lengthy resolution pointing out flaws in Clark's administration by specifically citing purported insubordination, the sponsoring of propaganda and much neglect in construction work. Regents George Wingfield, Frank Williams and George S. Brown opposed the resolution. George F. Talbot and Walter E. Pratt supported the charge. Students interested

For the last few days hill students have shown keen interest in the affair and Tuesday evening anxiously awaited word from the secretary's office. The decision clearing the president of all charges and retaining him at his present salary was met with much exultation, and the approval of the regents' action was voiced from all angles of the campus.

The resolution introduced by Talbot reads as follows: "Whereas, the conduct of our president has been disloyal to this board and unsatisfactory in different ways, including:

"His failure to answer the question in the letter of December 9th of our chairman to him requesting an early reply as to whether he would accept a reduction in his salary in accordance with the will of the majority of the regents or resign.

"His smug-seen address before a faculty meeting criticizing, misrepresenting and attempting to subordinate the constitutional and lawful control of this board and implying the practice of deception by the regents.

"His allowing without protest or effort for correction the spreading of false propaganda to the public through the misled press of the state, reflecting on the regents, giving him credit for securing donations for building and greatly increased student attendance and things for which he is not entitled to credit, resulting in the passage of resolutions favoring him by well meaning associations and committees which were not properly informed regarding the facts of needs of the university.

No improvements "His failure, when authorized and directed by the board to supervise the construction and alterations of build-

## Girl Discovers Lost Valuables

A dusty closet, a cob-web covered girl, and an armful of junk! This was the picture which greeted the eye of anyone passing around Stuart one day not long ago. But the armful of junk turned out to be anything else but. A sale will be the result of all these findings in Stuart Hall. Several Nevada belt buckles, both men's and women's leather belts, packets of Campus scenes, Y. W. C. A. pins, and a few other articles, all new, comprised that armful. All this material was purchased by the Y. W. C. A. year ago, and has not been seen for a long time.

A grand sale is now in order, and anyone wishing a keen leather belt, Nevada buckle, or anything else worth a notice at the candy booth in the near future. Now's the time for bargains, and the Y. W. C. A. are planning to give the Campus a few.

## Beauty Contest Closes Monday

Next Monday, February 6th, is the deadline for aspirants to the Beauty Contest, sponsored by the Artemisia, University annual. Entrants must turn their pictures in before this date to Fred Anderson '28. A number of pictures have already been handed in and many more are expected before Monday night. The pictures of the entrants will be sealed before a notary public and sent to Cecil B. De Mille who will judge them, picking the six most beautiful. The winners will be published in a special section in the Artemisia, while the other entrants will receive their pictures back again. No names will be divulged except those of the winners.

## FUN, 'PEP', WILL BE HIGH LIGHTS OF MARDI GRAS

### PRIZES WILL BE GIVEN FOR CLEVEREST, MOST UNIQUE, COSTUME

Viewing with the world-famous Mardi Gras at New Orleans, the annual Press Mardi Gras will take place Saturday night, with the publications board as hosts, and plans promise a grand and glorious time for everyone. Costumes, decorations in the form of balloons, serpentine, confetti and streamers will make the affair extremely colorful, and, according to the authorities of the dance it is to be the cleverest the Nevada campus has seen for many long moons. In fact it is to be so startlingly new and original that special reporters are being sent from various newspapers to cover it. The slogan of the board seems to be "New Orleans shall have nothing on us."

According to "Kelly" Lyon '28, head of the committee on entertainment, unique and interesting stunts will be put on between every dance, and it is rumored that much talent is being used in the presentation of these stunts.

Prizes will be awarded for the cleverest costumes, most unique, funniest, and probable other styles. The word has gone forth that no one will be admitted without a costume, and the more different the better. Preparations should be made for those persons with weak hearts to expect almost anything, according to one board member. Filling refreshments will be served, says Anita Becas '28.

A bus will leave the Wolf Den at 8:45 Saturday night, and take all those wishing to go to the Mardi Gras, to Moana. The return bus will leave Moana at 12 o'clock.

## MARCH 24 DATE OF FROSH GLEE

Plans for the Frosh Glee were discussed at the last regular freshman meeting held Tuesday, January 31, at 4 p. m. in room 110 of the Agricultural Building. It was decided that the Glee be held on March 24, and Hal Thompson was appointed to be in charge of arrangements.

The following committee was appointed by President Jack Walther to present several class yells for discussion at the next regular meeting: Dorothy Johns, chairman, Berry McAnally, Newton Crumley, and Walter Clark. Seventy-five cents was set as the amount of dues to be collected from each member of the class before February 14th.

## Initial Musical Will Be Sunday

The first of a series of musicals sponsored by the Reno and University Y. W. C. A.'s will be presented Sunday, February 5th, at 4 p. m., in the Manzanita Parlors. The following is the program: Piano Selections Mrs. Margaret Zerbe Cowl "Dawn" Pearl Curran "Little House of Dreams" Metcalf Mrs. Chaska West Mrs. Rudolph Herz, accompanist "Salut d'Amour" Elgar "Tambourin" Rameau (arranged by Fritz Kreisler) Ethel Leonard Mrs. Rudolph Herz, accompanist

## 'BAD MAN' WILL BE PUT ON BY HILL ACTORS FEBRUARY 10

### LOCAL TALENT MAKES SETTINGS FOR PLAY

#### SEATS CAN BE RESERVED THURSDAY AND FRIDAY

The feature production of this semester's dramatic season will be given next Friday evening when Campus Players present "The Bad Man" at the Granada theater. The play, a riotous comedy by Porter Emerson Brown, promises to be the most finished one that has been undertaken by the campus dramatic society.

Comedy Plot The plot of the comedy deals with the turbulent conditions on the Mexican border after the World War when ranches were constantly in danger of raids from Mexican bandits. The ranch house of Henry Smith and Gilbert Jones, his nephew, is captured by a desperate bandit, Pancho Lopez. The desperado finds conditions in the rancho greatly upset as the owners are about to be put out of the house by Jasper Hardy who holds a mortgage to the property. From this point on, Lopez' actions in trying to straiten out the mess is one continual laugh. He finally succeeds in restoring the rancho to its rightful owners and brings together two couples who are badly stricken with an attack of love. The clever lines and comical situations make the action of the play rapid and hilarious.

The leading role of Pancho Lopez was played by Holbrook Blinn three years ago and according to critics his characterization of the part was the most finished and highly praised of any he had yet attempted. Rancho Setting The setting, which represents a typical Mexican rancho is being designed and constructed by the art staff headed by Carol Smith '28. This is the first play in which the setting will be designed and completely constructed by students of the campus. Novel lighting effects will lend a realistic touch to the scene. According to those who have had a glimpse of the designs for the setting it promises to rival the creations of the very best professional productions.

In order to create the proper atmosphere (Continued on page 2)

## ADDITIONS MADE TO NEV. FACULTY

The names of two new instructors were added to the University of Nevada faculty last Tuesday at a meeting of the board of regents and the leave of absence of a third instructor was extended.

Chester Scanton was elected as instructor of physical education for men, the appointment to be effective August 1, 1928. This appointment came after a change in the present system at the university. Next year Coach Lawrence "Buck" Shaw will devote his entire attention to coaching football, leaving the full instruction of physical education in the charge of the one instructor.

This change will give students planning on coaching additional opportunity to take work in this field. "Chet" Scanton, a graduate of the state institution in 1924, has spent two years as coach at Sparks high school. He returned last year to take up post graduate work and has acted as football mentor in both basketball and football.

Scanton while attending the University of Nevada was a four letter man in football and a member of the Block N society.

W. E. Spencer, of the soils research laboratory of Illinois, was elected assistant-professor of soil research at the University of Nevada and will take up his post at the Agriculture Experiment Station on April 1, 1928.

Sarah Lewis, professor of home economics, who has been on a leave of absence, received an extension until August, 1928.

## J. FULTON GOES TO VIRGINIA CITY

J. A. Fulton, director of the Mackay school of mines, spent the week-end in Virginia City, going through the Con-Virginia office, formerly Mr. Mackay's headquarters, and collecting material for the museum and the school. Arrangements have been made with Zeb Kendall, of that mine, to go over the material and sort out what is worth saving. There is a great deal of historical value, as well as much that is useful for classwork in the school. There are also a number of things to add to the museum. Work on gathering and sorting this material will be definitely begun this week.

## MARIAN CHENEY

Miss Cheney appears in one of the leading roles of "The Bad Man" at the Granada Theatre next Friday.

## Goldsmith's Play Given Tonight by Honorary Group

### She Stoops to Conquer Offered to Hill By D.A.E.

"She Stoops to Conquer" will be given tonight in the Education building auditorium at 8:15.

The play is an English comedy of about the year 1775, written by Oliver Goldsmith. It was a new adventure in English drama and the producers would not receive it at first. However, it was played in Covent Garden, England, and the English people acclaimed it greatly. Since then it has been popular both as a drama and as fiction. The parts are largely character parts.

Humorous Plot It is humorous throughout and the plot is one series of comical incidents purported by Tony Lumpkin, the spoiled mother's darling. He directs two expected guests of his father to his home as an inn and the situations that arise are laughable. Sir Marlowe places himself in some embarrassing positions first as the rather gay lover of what he thought was the pretty kitchen maid and then again as the exceedingly shy lover of Miss Hardcastle.

Two beautiful heroines add a touch of feminine grace to the play and Mr. and Mrs. Hardcastle give a fine portrayal of old English country life. The play is given by D. A. E. as its annual production. Edwin Duerr, dramatic coach, is directing it and Carol Smith '28 has charge of the stage sets.

## GORST IS NEXT LECTURER FOR CAMPUS SERIES

### NOTED NATURALIST TO SPEAK HERE FEB. 9

The extraordinary success of the lecture given on Thursday, January 26th, by Richard Halliburton, following so closely upon the series given by Dr. Durant, awakened new interest in the University's mid-winter course of evening lectures.

The next evening assembly in this series will be held on Friday, February 9th at 8 o'clock in the Education Auditorium. The speaker will be Charles Crawford Gorst, a man who like Durant and Halliburton is an outstanding national figure in his field of thought and work.

His subject matter, however, is of a wholly different character. He will speak to the assembly upon the life and habits of American birds. Mr. Gorst presents a unique entertainment, for he makes rapid color sketches of the birds in the presence of the audience. He imitates their songs and tells the remarkable story of the part they play in the life of field and forest.

Like the other assemblies of the University mid-winter course this lecture will be open to the public.

## PSYCH TEST

The second semester psychological examination for freshmen will be given Saturday, February 4th at 1:15 p. m. in the large lecture room of the Agricultural building. This test is required for all mid-year freshmen and also for all students who had the rank of freshmen at the beginning of the fall semester and failed to take the test at that time.

## A.S.U.N. MEETING TAKES ACTION ON CHARGES OF REGENT TALBOT

### INVESTIGATION INVITED OF MORALS AND CONDUCT

#### UNION BUILDING PLANS ENDORSED THROUGH RESOLUTION

"Whereas: It is plainly implied, in a section of the resolution introduced by G. F. Talbot at the last meeting of the Board of Regents, that drunkenness and immoral conduct are prevalent among the students of the University, and:

"Whereas: We are convinced that such implications must be based either upon imperfect knowledge of the actual facts, or upon magnifications of solitary delinquencies, therefore be it:

Resolved: That we, the Associated Students of the University of Nevada, deeply resent such sweeping and infamous charges against the Student Body and would welcome an immediate investigation by any properly constituted authority, and be it further:

Resolved: That copies of this resolution be sent to the local press and to each member of the Board of Regents."

Such was the action taken by the A. S. U. N. today when, at the regular meeting of the body, they unanimously endorsed this resolution. "Let it be known to the Board of Regents that we do not approve of this action," said a prominent student leader, when he presented the resolution, speaking on the recent action of the regents at their meeting last Tuesday. Much discussion has been circulating the Campus and the presentation of resolution this morning was the result.

An endorsement of the proposition for a Student Union building for the Nevada campus was read by Lawrence Niswander '28, unanimously passed by the Student Body.

"By concentrating on the beginning we are sure to go through with it," said President Cantlon. Elizabeth Coleman '28, vice-president of the A. S. U. N., Isabel Loring '28, and Altha Pierson '28 also spoke in favor of the proposition from the women's point of view. The resolution read as follows: "We, the Associated Students of the University of Nevada, do hereby endorse and favor a Nevada Student Union Building."

## FORTY ELIGIBLE FOR RIFLE TEAM

The final choice of from 15 to 20 members of the Women's Rifle Team, who are to represent this University in several intercollegiate matches this year, will be made this week-end. There are forty trees eligible for this honor. The decision will be announced at the Rifle-Volley Ball spread to be held sometime next week. All women who came out for rifle at the first of the season and signed up for practice are welcome at this get-together, the definite date of which will be announced soon.

Because of high scoring in interclass matches, a very successful season is predicted for the feminine sharpshooters who will make up the rifle varsity for this year.

The first "bacon" that they expect to bring in would seem to be that belonging to the Men's Rifle team, for they have issued a formal challenge to the Rifle team of the R. O. T. C. unit and to the University Men's team for rifle matches to be shot off during the week ending February 10th. N. R. A. targets are to be used and all shooting done from prone position. The five highest scores of the members of the competing teams will be exchanged during the week. Watch for the results in the "Brush."

## INCREASE SHOWN IN REGISTRATION

Engineers, due to a change in entrance requirements and a lowering of the number of hours necessary for graduation, are again holding their own on the campus with respect to registration, according to an announcement made by Dean Sibby, head of the College of Engineering.

At this time last year there were 123 students registered in the College of Engineering as compared to 160 at the present time. Registration in the Mackay School of Mines shows an increase of approximately 40 per cent.

Students of engineering who graduate this year must have a total of 150 hours as compared to 152 previously required and with each succeeding year the number will be decreased two hours until only 144 are necessary. High school requirements have been changed to read six credits above a grade of three, as compared to ten in the past, and will be reduced to four in the future.

## Wolf Quintet To Mix With Fresno State

### Flashy Basketball Displayed By Wolf Pack When Closely Defeated in Contest by National Champions Last Week

#### NEVADA CONFERENCE RATING MAY DEPEND ON OUTCOME

#### Fresno State Aggregation Has Had Varied Season So Far; Downed Twice by St. Ignatius in Conference Tilts

The Wolf basketball squad, playing the second series of the conference season, is facing the strong Fresno State Teachers' cage team tonight and tomorrow night in what promises to be two very fast games. The Wolves are in good shape after making a splendid showing against the national champions last week and should come out ahead of the Fresno outfit by a safe margin.

The Fresno State aggregation has had a season of ups and downs, having lost to Southern California by a mere three points and holding Stanford to a tie at the end of the game, only to lose by five points in the additional period which was played. Against St. Ignatius, the Fresno five fared rather poorly, losing the first game by a score of 43 to 19 and then being beaten on the following evening 30 to 25.

## PLEDGING HELD MONDAY NIGHT BY SORORITIES

### NINE WOMEN TAKE BID TO THREE HOUSES AS RUSHING ENDS

Sorority rushing activities for the spring semester had their culmination in pledgings which took place Monday evening in three of the six sororities at the University of Nevada.

Kappa Alpha Theta led with five new pledges, Gamma Phi Beta and Delta Delta Delta each pledging two, with Pi Beta Phi, Sigma Alpha Omega, and Beta Delta taking in no new girls.

Parties Over The two weeks of rushing parties were officially brought to a close Saturday night. Strict silence was maintained until five o'clock Monday afternoon, when each rushee who received a bid had visited the Pan-Hellenic lawyer to leave the name of the sorority of her choice.

Kappa Alpha Theta pledged Verna Butler '31, Berkeley; Florence Handy '30, Berkeley; Genevieve Leonard '30, Hollywood; Martha Williams '31, Sparks, and Henrietta Youell '31, Los Angeles.

Delta Delta Delta pledged Gwendolyn Pierson '31, Reno, and Helen Smith '29, Reno.

## NEVADA ALUMNI MEETINGS HELD

The Reno local alumni met last Friday night at the city hall to discuss the present attitude of the Board of Regents in regard to President Clark's salary. John Belford '20, chairman of the meeting appointed a committee to draw up a resolution urging the Board to take no steps that might result in the resignation of the president.

Similar meetings have been held by the alumni in other Nevada cities and by the alumni along the coast. These meetings have been the result of current rumors that the president's salary might be subject to reduction which would cause his resignation.

## Engineers Have Two-Reel Movie

The U. of N. student branch of the American Society of Mechanical Engineers held its first meeting of the semester in the E. E. building Wednesday night.

Tentative plans for the semester's activities were discussed, and it was decided to order a two-reel movie "The Story of a Modern V-type Engine" to be shown at some subsequent meeting. Ervie Ferris '28, was selected to give a talk on "Sawmills and Their Operation" at the next meeting. E. R. Stiggen '29, gave a paper on Diesel engines. The business meeting was then adjourned and pie and coffee were served.

## ELECTIONS ABOLISHED

The traditional election of captains in all sports has been abolished at the Ohio State University on the theory that campus politics has interfered with proper functions of the athletic teams.

## Carpenter Goes On Mining Trip

J. A. Carpenter, professor of mining, spent the week-end examining an old tunnel of the Monarch Mine in the Seven-Troughs Mining District.

The tunnel has been caved and filled with water for years. The tunnel is 1800 feet long, and candles refuse to burn at 800 feet and even carbide lamps refuse to burn at 1000 feet due to shortage of oxygen.

Prof. Carpenter himself collected a number of samples in as far as the lights would burn, and when they burned out, felt his way out of the dark tunnel.

## U. C. LEADS COLLEGES

The University of California last year led all American institutions of higher learning in point of full-time attendance, with 47,311 students.

## Feb. 22 Set As Date for Wolf

The next issue of the Desert Wolf will be published, February 22. This edition will be a clever and entertaining Leap Year Number, containing a new and novel feature that has never before been attempted on the Nevada campus. The nature of this feature has not been disclosed, but will be kept secret until publication.

In the Wolf will be found the usual quota of campus humor, and literary efforts. There has been a decided increase of interest shown by trees in the Desert Wolf this semester, due to this there will be a great deal more original work in this issue, than has hitherto been the case. Several new members, whose names will soon be made public, have been added to the staff.

# PRIZE WILL BE PRESENTED TO BEST WRITERS AT MARDI GRAS

### GREAT INTEREST SHOWN IN WORK AS END DRAWS NEAR

### ARTEMESIA TO SPONSOR NEXT "BEST STORY CONTEST" SOON

The winners of the Desert Wolf and the Sagebrush Story Contest will be announced tomorrow night at the second annual Mardi Gras Ball at Moana Springs. The prizes will also be awarded at that time which consist of a silver loving cup for first place, a Nevada book of poems for second place, a leather book cover for third and a leather memorandum book for the fourth place. The issue of the Sagebrush is the last one and the stories of this issue will decide the winner. No one except the judges will know the winners until tomorrow night when the prizes are awarded.

The stories in the January 20th issue of the Sagebrush, which won the highest points were: "Talk Given To Hill Engineers by Glen Engle, About Mexico," by Melville Hancock, was judged first. Second, "An Embrace Or A Hug; What Will Yours be?" by Betty Lippincott '30; third, "Definite Plans Are Made For U. N. Rifle Club," by Howard Sheerin '31; fourth, "Halliburton Is Scheduled To Visit Campus," by Alan Bible '30.

#### Bible Taking First

For the January 27th issue the winners and their stories were Alan Bible '30, first with his story on "Laurel of Wanderlust Brought Before Nevada Campus." Second, Bob Blackmun '30, on "National Champs Offer Big Array of Floor Artists." Third, Melville Hancock '30, on his story concerning the treasury plans and fourth was Doris Clover '31, with the story concerning the Y. W. C. A. plans.

Each week the story that is considered best by the judges are awarded 100, 75, 50 and 25 points, according to what they merit. As the contest stands at the present time Alan Bible '30 has 350 points and is leading Melville Hancock '30, by an even hundred points. Betty Lippincott '30, is third with 225 and fourth is Barbara Horton '30 with 200. The other contestants are: Fred Lohse '30, with 100 points and Bob Blackmun '30 with 75 points.

#### Artemesia Give Contest

Following this contest of which this issue of the Sagebrush is the concluding number, the Artemesia will sponsor a second one, to the winner of which will be awarded an engraved gold cup while three gold-engraved Artemesias will be given to the next three highest contestants. In determining the winner of this contest the same point system as used in the first will be carried out.

It is expected that a great many more hunters will engage in this next contest than in the one just concluding.

## "BAD MAN" WILL

(Continued from page 1)

where a five-piece orchestra led by Alden Copeland '28 will play Mexican airs before and between acts of the play. The music will begin promptly at 8:15.

Tickets for "The Bad Man" are now being sold by members of Campus Players and may be exchanged for reserved seats at the Granada Theater box office next Thursday and Friday from 10 a. m. to 3 p. m. Reservations may also be phoned in during these hours. The price for tickets is 75c and \$1.50.

Following is the cast for "The Bad Man":  
Henry Smith..... Jack Gregory '29  
Gilbert Jones..... Emory Branch '28  
Lucia Pell..... Marian Cheney '30  
Morgan Pell..... George Vargas '31  
"Chuck" Giddings..... Edwin Semenza '30  
Jasper Hardy..... Lenard Sledge '30  
Angela Hardy..... Rene Duque '29  
Pancho Lopez..... Don Bernstein '29  
Venustiano..... Ralph Adamson '30  
Pedro..... Russell Garcia '29  
Alvarado..... Wyman Sexsmith '29  
Bradley..... Thurber Brackbank '29

### NEW ORGAN INSTALLED

ANN ARBOR, Mich.—A new \$75,000 Skinner organ is being installed at the University of Michigan, replacing the old World Fair organ, which has been at the university for the last 34 years.

Manager

RENO - - - NEVADA

### HAVE YOU SEEN HIM?

Have you seen him, men and women? He walks around the campus every day with a mustache (at least that is what it has been called.) Nothing unusual? Yes, but he's a Junior! A Junior with a mustache! Horrors! And the Upperclass Committee hasn't done a thing about it. And what is more they aren't going to. Because it is only Don Bernstein '29 getting into character for a coming dramatic production. Rumor has it that he is "The Bad Man."

## A.S.U.N. MEETING

(Continued from page 1)

Union Building; (1) create a permanent board of trustees, appointed by the A. S. U. N. president, composed of the President and Comptroller of the University, an ex-officio member, two faculty members, one representative from the Nevada Alumni Association, and two members of the A. S. U. N., who shall have power to invest and disburse all receipts and contributions; (2) that a fee of two dollars and fifty cents (\$2.50) be assessed, collectable by the comptroller from every student at each semester registration, provided that when said building shall have been completed and all indebtedness removed, this amount may be reduced by a majority vote of A. S. U. N., to an amount necessary for maintenance only.

Tradition breakers apologized for their misdemeanors, and two failed to appear. They will be tried by an upper class committee. A resolution was also passed concerning the retention of Lawrence T. "Buck" Shaw as football coach for this year. The student body gave unanimous approval to this proposal.

A committee was appointed to look into the proposition of changing the college song, and they will report their findings at the next meeting of the A. S. U. N. Hoyt Martin '29, Walter Cox '28, Betty Sue Shaw '28 and Mildred Hughes '29, compose the committee.

Next week's Sagebrush will contain a full report of the new treasury system and President Cantlon urged that every member of the student body read this with particular care. It was also announced that hereafter the women will occupy the southeast section of the gym during all games, etc. and the men will have the northeast section as their rooting section. Angus Bethune '28, appointed Lee Burge '29 and "Dixie" Richards '30 as members of the Flying Squadron, and President Cantlon named Claire "Dutch" Lamant '28 as N. S. F. A. committee member to replace one member who failed to return to school this semester.

### Nevada Dramatic Talent Honored

Edwin Duerr, instructor in dramatics, has received an invitation for Nevada actors to participate in the University Theatre Tournament to be held at Northwestern University in April. The contest is in the form of one-act plays and the prize to be carried off by the winners is the "Comstock Cup," and a cash prize of two hundred and fifty dollars.

As yet Instructor Duerr has not decided whether Nevada will enter the contest or not, but he says, "Even though we do not enter the contest the invitation is a pleasing recognition of our dramatic talent."

### HONOR SYSTEM ADOPTED

CINCINNATI, Ohio—A \$48 to 21 vote in favor of the honor system was cast recently by the student body of Muskingum college. No faculty members were present during the voting. Cheaters are tried by an honor court made up entirely of students.

## PLANS FORMED FOR GIVING OF 1928 FESTIVAL

### DANCES OF 17th AND 18th CENTURIES TO BE PESENTED

The plans for the 1928 Spring Festival, which will be given April 14th in the University gymnasium are rapidly becoming coherent according to Miss Sameth who directs it annually. Five dancing classes are to participate and practice with the regular Spring Festival music has already begun.

A book, "Dances of the Suite," was bought on the fund of an unknown donor and will be used for part of the entertainment. This book gives both the detailed descriptions of the dances with supplementary pictures, and the accompanying music. The dances all date back to the 17th and 18th centuries and were all popular at the courts of the European monarchs, especially the sumptuous court of the king of France.

Of these dances the "Sarabande" is perhaps the oldest. It is of Arabic-Moorish origin and dates back to Spain of the 12th century. The "Alman" and the "Coranto" were introduced to France in 1699; the former from Germany, the latter from Italy. The remaining two are the "Bourree" and the "Passeped" the latter one being a variety of British dances of ancient origin.

The Spring Festival has become an annual event greatly looked forward to. The first one was given not later than 1915 and one has been presented annually since then with the exception of one year. This festival celebrates the arrival of spring in the manner that the nymphs and dryads of mythological times did.

### De Voto Offers Education Plans

"To improve the colleges, begin with the professors of education," is the advice of Bernard De Voto, former English professor of Northwestern college. In other professions the incompetent settle to the bottom, where they become impotent, he says, but in pedagogy they become professors of education. He states that the present plight of colleges is due to uneducated fanatics and crazed enthusiasts in official capacities.

### BLUE KEY WILL MANAGE ALL CLONIA DEBATES

Blue Key Fraternity at the meeting last Wednesday night voted to manage the debates for Clonia this next debating season, which comes this year in March. The reason this was done was so that bigger crowds would turn out for the debates and so that debating would be put on a paying basis. Laurence Niswander '28, has been placed in charge. Although Blue Key is managing the debates, Clonia members will help sell tickets.

## Co-eds Impressed By Great "Nut"

The results of Richard Halliburton's lecture are more noticeable among the women of the campus than among the men, it has been noted this week.

Pivoting into a class-room one fair co-ed blandly announced that forthwith she, for one, intended being a nut. It seemed the accepted thing now-a-days, you know, she announced.

Another vows her determination to run away immediately and stride the paths followed by Ypolita, the Queen of the Amazons.

And more than one fair co-ed has a soulful, dreamy, and far-away look in her eyes, not altogether caused by the substance of Halliburton's speech, it is rumored.

### Offenders Will Appear at A.S.U.N.

Names of the offenders against campus traditions were brought up at a meeting of the Women's Upperclass Committee held last Friday afternoon. Florence Handy '31, Ellen Prince Hawkins '30, Kathleen Malloy '29, and Calda Waite '29 were accused and convicted for cutting campus and Berry McAnally '31 for queening.

The customary punishment of requiring the offenders to appear before an A. S. U. N. meeting to offer their apologies to the student body was inflicted today.

Our Advertisers are University backers; back them.

## "THE BAD MAN" WILL PLAY ONE NIGHT IN RENO

### HILL PLAYERS VOTE TO ACCEPT MANAGERIAL ORGANIZATION

That the tentative tour to have been undertaken by the cast of "The Bad Man," latest Campus Player production, has been called off and according to Russell Garcia, general manager, the play will only be presented one night at the Granada, February 10th, was announced at the Campus Player meeting Wednesday night at the Phi Sigma Kappa house.

Newly elected members of the organization will be initiated February 9th, and more prospective members will be voted upon at the next meeting.

#### New Managerial System

A new managerial plan was also passed at the meeting which will work in much the same manner as the present athletic managerial system. Any amount of freshmen may try out for the position from which four men will be elected to act as sophomore managers. From these, two will be chosen to act as junior managers, one as stage manager and the other the business manager who will alternate in the two semesters. From these one senior will be elected to act as general manager by the outgoing senior manager, together with a committee. The sophomore manager will be chosen by the junior manager. The junior who acts as stage manager will receive ten dollars for each performance or fifteen dollars if the play is given two nights, 20 percent of the net profits up to the limit of \$50 per production will go to the senior or general manager as compensation.

### Civil Engineers Travel to Doyle

Members of the civil engineering class in structural bridge design, accompanied by Professors Boardman and Bixby, traveled to a point near Doyle Wednesday afternoon to study the structure and design of a viaduct bridge on the Western Pacific main line.

Those who made the trip, which was taken by automobile, were Ray Brown '28, Jack Corvin '28, Carol Westfall '28, Joe Garcia '28, Lester Spinney '28, Erwin Morrison '28, Ralph Gignoux '28 and Charles Wood '28.

### New Traditions Found at Oregon

A new tradition has been found at Oregon State Agricultural College. This is the custom just established of giving grade certificates to sophomores who maintain an average of 91 during their freshman year. It is hoped that this award will stimulate the underclassmen to greater efforts, and it will thus do away with the usual weakness in freshman grades.

### Cripples Better After Injuries

Miss Edith Reubsam, instructor in the education department, who recently suffered a broken ankle as a result of a fall down the stairs of Stewart Hall, is continuing her classes after missing one day of teaching as a result of the accident.

Dorothy Mac Donald '31, also suffered a severe foot injury following a fall on the steps of Manzanita Hall, and Margaret Harris '30, is also troubled with an injured foot. Both are students of the Normal school. Cripples seem to be the order of the day in the education department, according to a member of that school, although all three convalescents are progressing rapidly.

## Some call it mellowness . . .

SOME say that Camel is the mellowest cigarette ever made. Some that it's mild and smooth. It's really all good things in one, and that is why it is supreme upon the pinnacle of modern favor. Camel's popularity today is the largest that any cigarette ever had.

And, it costs something to make this kind of a smoke. It costs the choicest tobaccos

that money can buy, and a blending that spares neither time nor expense. Each Camel cigarette is as full of value as the world of tobacco can give.

You can be sure of smoking pleasure, serene and full, in these quality cigarettes. Smoke all of them you want; they simply never tire the taste.

"Have a Camel!"

## TALK CONTEST OFFERED AGAIN BY NOTED CLUB

### CALIFORNIA FEDERATION GIVES \$5000 FOR ORATORY

The National Intercollegiate Oratorical Contest on the Constitution which has been conducted for the past three years by the Better America Federation of California, will be continued this year, according to an announcement today at contest headquarters, 1217 National Press Building, Washington.

The prizes will total \$5,000 which will be divided as follows: First place, \$1,500; second, \$1,000; third, \$750; fourth, \$500; fifth, \$450; sixth, \$400; and seventh, \$350. The national finals will be held in Los Angeles on June 21.

**Undergraduate Eligible**  
Any bona fide undergraduate student in any university or college in the United States is eligible. The orations, which must not require more than ten minutes for delivery, must be on one of the following subjects: The Constitution, Washington and the Constitution, Hamilton and the Constitution, Jefferson and the Constitution, Marshall and the Constitution, Franklin and the Constitution, Madison and the Constitution, Webster and the Constitution, and Lincoln and the Constitution.

The nation is divided into seven regions for the purpose of the contest. The colleges in each region compete among themselves, generally by states, to determine the finalist for each region. The regional finalists compete late in May to determine the one speaker from each region who is to have a place in the national finals. A place in the national finals automatically carries with it an award ranging from \$350 to \$1,500, according to the ratings given the different national finalists.

**March 15th, Closing Date**  
Colleges may be enrolled in the contest by action of either a college official or of a student. Entries close March 15th. The Spokesman, for each college must be designated by April 15. Regional semi-finals will be held April 29. Any further information desired may be obtained by addressing the contest headquarters as indicated above.

## CLARK BACKED

(Continued from page 1)  
ings and improvements.  
"His acquiescence in, and failure to discipline or suspend for drunkenness and worse student conduct in public places and his omission to notify the board in regard thereto."  
"The requirement unknown to the regents until now, under his administration of University affairs, that women students entering the University be photographed nude."  
"The facing of a deficit in the University funds if needed repairs are made was caused by following the recommendations of the president and would be larger if the board had continued his recommendations."  
"If the president is retained with his present salary and allowance, aggregating about \$16,000 a year, and approximately twice as much as is paid to able presidents by some larger universities supported by a larger number of people and by far greater taxable wealth, the income of the University, now at the constitutional maximum under the generous act of the legislators, will be insufficient to pay salaries, current expenses and for needed repairs and pensions as now provided."  
"The welfare and advancement of the University demand better discipline and higher education standards in some departments."  
"Wherefore Dr. Walter E. Clark is requested to deliver to this board of its chairman his resignation as president of the University of Nevada effective forthwith."  
President Clark's reply to the resolution in the form of a signed statement reads:  
**Films Unseen**  
"There is one paragraph of Judge Talbot's resolution, that one referring to the photographing of freshmen women, which requires comment. This paragraph as it is worded, may give a very wrong idea of that part of the work of the Department of Physical Education for women in which posture films of students are made by the women of the staff of the department."  
"These films are made and developed (never printed) by women under every possible safeguard to the individuals. They are used by the women instructors to help the individual students to correct errors in posture. The films are so made in profile and without including the face as to be unidentifiable except through the instructor's special filing system. No one but the instructors, women developers and student ever sees the films. No student sees any film but her own. All films are burned after being used in the individual instruction."  
"Forms of such posture-profiles have long been in very general use in the department of physical education for women in American colleges because they have proven a highly effective device for developing correct posture

## CO-EDS DIARY

(Extracts from the diary of a lady who prefers blondes.)  
Jan. 29.  
Dear Diary,  
I'm so low tonight I'd need a step-ladder in order to pat a caterpillar on the back! On recalling to mind the events of the past week I begin to realize what a melted ice cream cone it's all been. There's only one thing worth telling about and that's his label. He's Irish, Diary, and hegorra how I do love the Irish! Why I'd even walk to Ireland to kiss that pebble they call the Blarney Stone if I thought by doing so I could get through that patent frigidabrae of his. And anyway, the Irish always did appeal to my synthetic senses.  
Good-night Diary.  
Jan. 30.  
Diary! !!  
Holyhocks and green peas! He smiled at me today! My heart gave such a leap it knocked one lung out of place, and hypnotized both pedal extremities. But the glimmer from those rood old "smiling Irish eyes" was such a casual one! When he had gone I felt like a paper bag after it's been popped. I wonder if when I've become a scenario for a tombstone my prosperity will dig this up from the bottom of that empty cedar chest and read my trials and tribulations with this blond. Long live the blonds! I think that tonight I could reach my friend the caterpillar by merely standing on my tip toes. Don't get hysterical over this recent confidence diary, for if there's anything that makes me ill it's these people that are always getting excited over some little thing. "Be confidant" is my motto. Please don't ask Mr. Webster what that word means, for I'm not deliriously sure of where I heard it.  
Sweet Hallucinations Diary.

## Average Day Is Given By Chart

"This week has passed so quickly" and "Where has the time gone?" are exclamations which one hears so frequently that one really wonders what has become of a semester.  
The Dietetics class under the supervision of Mrs. Louise K. Springer, in order to obtain a clear estimate of the activity an average day consisted, accounted for every hour during a whole week and from their results determined the activity of an average day. The following was but one of hundreds of daily programs essentially the same but somewhat varied:  
Sleeping ..... 7 hours  
Dressing and undressing ..... 1 hour  
Eating ..... 1 hour  
Putting the room in order ..... 1/2 hour  
Studying and reading ..... 3 1/2 hours  
Walking (including to and from classes) ..... 1 1/4 hours  
Outside Work ..... 2 1/2 hours  
Laboratory ..... 3 hours  
Classes (sitting and writing) 1 1/2 hours  
Strenuous exercise ..... 3/4 hour  
Meetings, etc. .... 3/4 hour  
The food requirement in terms of calories in this particular instance, to illustrate in a homely way, is equal to the energy necessary to a shoemaker or a washerwoman.

**Whitman Adopts 'Two-Term' Plan**  
WHITMAN COLLEGE, Walla Walla (P.L.P.)—This school has reverted to the original plan of two semesters in a college year, which was abandoned during the war. At that time the government in establishing the training corps required them to adopt the three term plan. A majority of the American colleges have gone back to the two term plan. Sanford University remains one of the leading institutions among women students.  
The matter came to a vote shortly after four o'clock and the word of the decision was announced just before they adjourned at five o'clock.

## CAMPUS GROUP HEARS LECTURE BY SAM PLATT

### OBSERVE GOLDEN RULE ADVICE OF RENO ATTORNEY

With an unusual background of foreign travel, Hon. Sam Platt, Reno attorney brought a message of the Golden Rule in practice before the Commerce Club last Wednesday evening.  
"Keep business dealings on the square and level," the prominent Rotarian further emphasized "Keep personal dealings on the square and level. In short, do unto others as you would have them do unto you."  
The Rotarians are that class of quasi-idealists who can force the realization of peace and good will among all nations, the attorney added. "The Rotary Club primarily fosters friendship. It has endeavored to change the term from an abstraction to a practicable workable instrument."

**Traces Rotary Ideals**  
Showing how the idea of business has changed, the speaker traced the ideals and ideas which Rotary has carried into business. "Today everything is service." The modern gas station, the luxurious theatre have combined every convenience at a minimum cost for the comfort of the people. Business men at the present time realize the importance of ethical dealings.  
Mr. Platt carried his listeners with him on his European trip to Austria, from Belgium to Venice, and from the Italian shores to the English commonwealth. The inspiring address of the Belgian King before ten thousand Rotarians was graphically pictured.  
"There are the world over 132,000 members of International Rotary. Forty-one different countries have local chapters," the speaker concluded. "Rotary's idea of friendship, of good will toward men is being disseminated throughout the universe, and especially in business and industrial fields this tendency is most noticeable."

with the quarter system. Out of 654 institutions only 73 use the three term plan at present.

## O. U. Makes Plans For 'Dad's Day'

Dads of Oregon students are always welcome at the University, but on next Saturday, "Dad's Day," they will have the opportunity of seeing the University as it has never before been shown to them.

On that day each school and department will have "open house," laboratories will be open with students working in them, professors will be on hand to meet the fathers, instead of being busy with their regular work. The fathers will be escorted around the campus by their sons and daughters at any time Saturday afternoon that they may choose.

A special section has been reserved at the Oregon-Washington basketball game for the fathers and their sons and daughters. The banquet will be over in time for the game. Sunday, Eugene dads will take all dads wishing to see Eugene for a tour of the city. Special vesper services are being arranged for this day.

Students are advised by those in charge of the day to find out what their department or school plans are to do in the way of entertainment for that day and also to watch for announcements of the other departments.

## New Rulings On Game Dates Made

U. of I. action allowing dates at basketball games held in the gymnasium was taken by the "I" club at its initiation meeting held last week. The custom of no dates at athletic events has been traditional at Idaho, and for many years officially enforced by the "I" club, composed of men winning athletic awards. Dates are not encouraged, however, by the new rule. As it worked out, men students, unfortunately enough to sit next to girls were assumed to have a date and were taken out of the crowd and paddled. The executive board has passed favorably on this proposal.

## MIYAKE SPEAKS TO HILL SOCIETY

An insight into Japanese athletics was given to the members of the Cosmopolitan Club in a talk by Mr. Miyake, manager of the Waseda basketball team, in a meeting last Friday.

He stressed the difficulty encountered in the adaptation of the American sports in Japanese universities, due to the lack of contact with good players, and coaches who really know the game. He said that at present, there are only four institutions which have basketball teams.

Mr. Miyake is at present a student in Waseda University but has had training in the United States also.

He was very broad-minded in his views and ended with saying that he hoped the present tour would accomplish its purpose of creating better international relations between the United States and Japan.

The next meeting of the club will be held next Wednesday at 8 o'clock in the Mining Building. An illustrated lecture will be given and all who are interested are invited to attend.

## WOMEN REFEREE ATHLETIC GAMES

Second semester work in the class taking "Theory and Practice of Directing Athletics" for girls wishing to officiate at high school games, otherwise referred to as the "refereeing class" is well under way.

The work in this course deals with technique and rules in refereeing. It is given because of the lack of women officials especially for basketball in

this state.  
Last semester the girls refereed games in hockey, soccer, and volley ball. This semester they will referee basketball and baseball games. Besides refereeing the practice games here, and discussing them in class, the girls also go to the high school games to observe and make reports.

This week V. Fant '30, M. Weeks '30, P. Nash '30, and H. Mann '30 have been refereeing the games. Other girls registered in this class this semester are: O. Dunn '28, R. Duque '29, J. Eaton '30, S. Parker '29, R. Foster P.G., G. Spencer, '28, and E. Walker '29.

## WHAT WE THINK

The students of the university this week rejoice that the Board of Regents has seen fit to retain President Walter E. Clark at his present salary. We take this means of thanking those members who realized the will of Nevada's people and carried it out. For the others a new feeling has been developed through this prolonged controversy. Pity, rather than anything else, is the sentiment earned by them when they forget by whom they are elected and for what purpose. Such ridiculousness as is found in the charges contained in the proposed resolution well match the obstinacy shown by them in prolonging the salary issue.

The students cannot help but resent some of the implications made in the resolution introduced by Regent Talbot. That drunkenness, or as implied, even worse, is prevalent on Nevada's campus, is either a shining example of lack of real information or a magnification of a very few cases. Our student body, taken as a whole, is probably as temperate and moral as any group of similar size in the country. In natural laws, generalizations are not made from a few cases and the same should be true in this case.

Particularly ludicrous we find that clause of the resolution dealing with the taking of "nude" pictures. Similar pictures are taken in practically every university in the United States. If these men cannot become accustomed to the modern viewpoint themselves, they should at least not try to keep the university in the Mid-Victorian age. The statements made seem to us pure rationalization, a pitiable attempt to find facts supporting their aim. After promising for months an amount of evidence to shock the public mind, these half hearted and misleading clauses throw the formerly avowed purposes in a rather unfavorable light.

What we would term, justified indignation, has been evident on the campus since the making public of this resolution that practically amounts to libel, and libel not only of the President but of everyone connected with the university. Our only answer to it is that of the Student Body. We not only invite but we would welcome an investigation of the university and its student body by properly constituted authorities and we feel sure of the vindication of both.

## LOST BOOKS

Books have been disappearing quite frequently from the library, and no efforts on the part of the librarian or his staff seem to be able to regain any of them. A list has been posted in the library, and that list was also run in the Sagebrush, and as yet none of the books have wandered home.

Everyone should realize that these books are their own, and in a paradoxical way, students could be accused of stealing from themselves. No university could exist without books, and books are things that are only valuable as long as they are placed handily or accessible to those who have need of them. Furthermore a library grows only very slowly and every book is necessarily a part of the whole and was selected because it was thought to have some definite value.

Every librarian has to face the subject of book losses when the public has free access to the volumes. In the University library all books are accessible, even the books on reference can be easily obtained and, as the student is very much on his honor, can be easily taken away or returned properly.

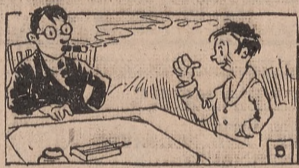

We should realize that people used these books before us, and according to all signs, will use them after us, if they can

By NOMIAL

And now, not content with prowling up and down the aisles of the lib, and shaking us rudely when we show signs of undue drowsiness, they've installed an alarm clock.

But that alarm clock was probably a good thing, because just after it woke us up we saw a bunch of the PRETTIEST co-eds having just loads of fun in one corner with a bridge-game. They had a pack of highly educated cards. Every time these cards heard anybody coming down the main drag they snuck in under some convenient note-books, to emerge presently when the danger had passed on to more productive pastures.

SO THEN WE UP AND WENT DOWN TOWN TO BUY A COUPLE OF DICE FOR USE IN THE SEMINAR ROOM.

What with the members of Miss Mack's nature study class trotting down to the pond every now and then with little lard buckets to gather water for their aquariums, this has been a very exciting week.

AND THERE WAS A GRAND AND GLORIOUS DERBY DAY! THE THETAS GOT POTTED AND THREW THEIR HARD-WON CONSERVATISM TO THE WINDS, TO BE CAPTURED BY THE PI PHIS.

Most of the girls were of the opinion that Richard Halliburton was just too sweet for words, and as a result there has been a marked increase of curly locks among the masculine members of the student body ever since. . . . But none of them can talk so fast.

We know of a couple of fellows who have been inspired, just on the strength of that lecture, to plan to make the hazardous climb up Peavine this weekend. . . . And a few others are actually talking of swimming Manzanita Lake when the weather gets a bit warmer.

We thought we'd done the instrument-throwing situation some good when we chided the members of the band last week for taking their saxophones to pieces and throwing them at the players, but just see what happened the very next night! Somebody even went so far as to throw his trombone, without bothering to dis-

Student body presidents of the University of Oregon and Oregon Agricultural College have renewed agreements made between the schools in 1919. Each student body pledged to refrain from vandalism on the other's campus.

Because he did the least work toward graduation, a graduating student at De Pauw University was awarded a derby.

find them. So everyone should in a way feel honor bound to return any University library book that he or she runs across, no matter where or how he finds it.

It would be rather strong to accuse anyone of stealing these books, but the fact remains that they are gone and some student or students is necessarily the agent that carried them away. It is no disgrace to take a book out and overlook it, but it is a disgrace to take a book out and never return it. The library would be only too glad to have these books slipped back into circulation and no questions asked.

Be vigilant, let no lost, strayed, or stolen book elude you and receive the thanks of posterity, because they also will have themes, references and term themes. —A.R.C.

## THANKS

The Sagebrush takes this means of extending its appreciation to the press of the state for the support it has given to President Clark and the University of Nevada during the past few months. Rising almost unanimously to arms, they have attempted to give to the people a correct and unprejudiced view of matters as they really exist in Nevada. It is probably largely due to their influence that the affair has reached a satisfactory termination.

Not only do we thank the journalists of the state but also the various clubs and organizations who have exerted their influence in our behalf. Never before have the alumni cooperated so efficiently or so strongly shown their desires as in the retaining of President Clark, and the various clubs have been equally prompt in their response. We thank the people of the state who have acted for what we consider our welfare and that of the University.

## Socially Speaking

### DELTA DELTA DELTA HOSTESSES AT TEA

Delta Delta Delta entertained Saturday afternoon at the home of Mrs. Harry Gosse. The decorations and entertainment carried out the butterfly motif. Favours of hand-painted scrolls were presented to the rushees. The program was as follows: Butterfly dance, Helen Gilfoyle; Vocal solo, Alden Copeland; piano solo, Ruth Bart, and music by Dick Hillman's orchestra.

### PI PHI FORMAL RUSHING TEA

Pi Phi entertained with a formal rushing tea at the home of Mrs. Prince A. Hawkins, Saturday afternoon. Ralph McIlwaine entertained with his banjo. Refreshments were served.

### S. A. E. PLEDGES ENTERTAINED

Sigma Alpha Epsilon entertained in honor of their pledges with a dance at the Masonic Temple in Sparks, Saturday evening. Patrons and patronesses of the affair were Mr. and Mrs. Tom Wilson, Professor and Mrs. Chappelle. "Deac" Adams' orchestra furnished the music for the occasion.

### KAPPA LAMBDA HOSTS AT DANCE

On Friday night, January 27, the Kappa Lambda Fraternity entertained with an informal dance at their chapter house on University Terrace. The decorations were of Chinese motif and the patrons and patronesses of the affair were Dr. and Mrs. Martie and Professor and Mrs. Blackler.

### PI BETA PHI DINNER GUESTS

Pi Beta Phi entertained at an exchange dinner Thursday evening January 27. Jess Roy '30 and Bernice Terry '29, members of Kappa Alpha Theta, were the guests of the evening.

### ORIENTAL TEA FOR RUSHEES

Kappa Alpha Theta entertained with an Oriental Tea at the home of Mrs. G. B. Thatcher, at Newland Heights, Friday, January 27, in honor of their rushees. Appropriate entertainment was furnished by Mr. Loren Pease, Billie Morgan, Hoyt Martin and several members of the group. The guests present were Misses Genevieve Leonard, Verna Butler, Florence Handy, Martha Williams and Henrietta Yowell.

### GAMMA PHI BETA ENTERTAIN DELEGATE

Gamma Phi Beta entertained at a formal tea in honor of the Province president, Miss Margaret Natchtrieb, on Tuesday afternoon. Several musi-

cal numbers entertained those present. Miss Natchtrieb is now a guest at the chapter house.

### DELTA SIG ENTERTAINS

Friday night, January 27, Delta Sigma Lambda Fraternity held an informal dancing party at their house on Lake St. Dean and Mrs. Leach and Professor and Mrs. Stanley Palmer acted as chaperons for the evening.

### KAPPA ALPHA THETA HOLDS PLEDGING

Kappa Alpha Theta announces the pledging of Genevieve Leonard of Los Angeles, Verna Butler and Florence Handy both of Berkeley, Martha Williams of Sparks, and Henrietta Yowell of Hollywood. Pledging ceremonies took place at the chapter house Monday night, January 30.

### GAMMA PHI BETA PLEDGE TWO

Gamma Phi Beta announces the pledging of Phyllis Steinheimer '31 of Reno, and Frances Gorman '31 of Oakland.

### BETA KAPPA PLEDGING

Iota of Beta Kappa announce the pledging of Jack Curtis '31.

### PHI SIG INFORMAL

Pi Sigma Kappa entertained Friday evening with a dancing party at the Masonic Temple in Sparks. The affair was in honor of the new pledges of the fraternity. Deac Adams' orchestra furnished the music.

Capt. and Mrs. Johnson and Mr. and Mrs. Howell were chaperons for the occasion.

### JESSIE LEONARD SAILS FOR EUROPE

Jessie Leonard '29 sailed January 28 for an extensive tour abroad. When she returns next semester she will have visited fifteen different foreign countries.

PRINCETON, N. J.—(I.P.)—Last year Joseph Bryan II, of the class of 1927, was voted the most original man on the Princeton campus. He is now serving some time in a Russian prison for exploiting his own originality in the land of the Bolsheviks. A classmate is busy burning the wires with pleas for someone to come to the original graduate's aid.

Under a new ruling at the University of Illinois, fraternities there must fill out and file with the dean of men, slips bearing information about each of the students whom they intend to rush.

### JUST SUPPOSE

When the campus roof is freshly scrubbed.

And almost looks like new.

When the clouds that foam like soapy flakes

Are blown across the blue.

With birds about, and air quite warm,

I'll tell you what I'll do,

I'll drop my books upon the desk;

With work I'll be all through,

I'll send a note across the aisle,

A note that's meant for you.

And then if you should chance to feel,

Well—just the same as me,

Why then we'll run quite far away,

And oh the things we'll see!

There'll be some mountains blue and gray,

And you might say,

Yes, perhaps you'd say,

"Your eyes are as blue as that today."

There'll be the gold of a sinking sun,

And you might say,

Well, just in fun,

"That's almost as good as the lights

In your hair!"

And when we two start back towards town,

You'll look at me with a puzzled frown,

Why I can even hear you say,

"Dear, you've not said a word this livelong day."

But I shall laugh and merely smile,

(You'll not know my thoughts all the while.)

"I'll tell you those some other day,

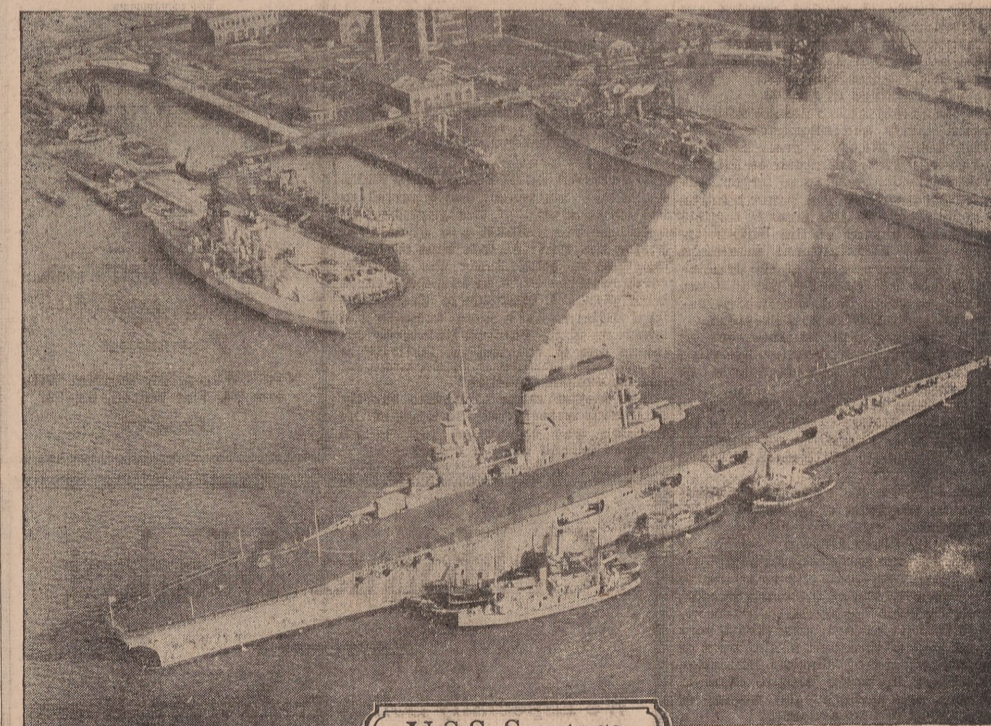

Some other time when we run away."

—Eclla.

A collegiate course in accident prevention is offered at New York University this fall. This course has been established in an effort to check industrial and public accidents. Also a course in musical criticism, intended primarily for journalists is among the courses offered at that institution this year.

The Skjellerup comet was photographed by University of Chicago astronomers.

Send the Brush Home.

U.S.S. Saratoga

## A Marvel of National Defense

From this 2½-acre deck, Uncle Sam's battle planes can now leap into action—sure of a landing place on their return, though a thousand miles from shore.

This marvel of national defense was accomplished—and duplicated—when the airplane carrier, U.S.S. Saratoga, and her sister ship, U.S.S. Lexington, were completely electrified.

In each, four General Electric turbine-generators deliver,

combined, 180,000 horsepower to the propellers—enough to drive the ship at 33 knots (39 miles an hour)—enough to furnish light and power for a city of half a million people.

The design and construction of the electric equipment for the U. S. S. Saratoga and the U.S.S. Lexington, to which college-trained men contributed in great measure, exemplify the part General Electric plays in promoting the welfare of the nation.

## NEV. HOOPSTERS ARE DEFEATED BY CHAMPIONS IN FAST GAME

### EXPERIENCE SHOWS IN HILLYARDS SMOOTH FLOOR PLAY

### MORRISON AND HAINOR STARS FOR WOLF QUINLET

Displaying the old Nevada fighting spirit and playing a first class game the Nevada Wolf Pack went down to defeat at the hands of the championship team of the Hillyard Chemical Co. of St. Joseph, Missouri, at the University gymnasium last Saturday night by a score of 39 to 25. The game was thrilling throughout and the spectators were in an uproar all during the game. The Hillyards displayed a brand of basketball that was a marvel to the fans of Reno and it was easily seen why they are the champs of the world in this line of sport.

**Champs Score First**

The first score came in the first thirty seconds of play when Hooker of the visitors connected with the basket for two points, the ball being shot from near the center of the court. Nevada missed a chance to score when two foul shots were missed by the home team. The first score for the Wolves came when Morrison, a flashy forward, dropped in the basket from directly underneath the hoop. A foul shot by Tarbuck, captain of the Hillyard group made a free basket as a result of a foul by Lawlor. Loveles made the first of his fourteen points of the contest. The next point for Nevada came from Captain Les Clover, who made a free shot in lieu of a foul by Mitchell. For the next five minutes the ball traveled up and down the court in the hands of both teams. Another point by Morrison added two more points to the Nevada score but there were soon equaled by Hooker. A few more points by both teams and then the Hillyards put on a rally for six points in record breaking time and when the whistle blew for the half, the Hillyards were leading by 24 to 12.

**Nevada Rallys**

Nevada rallied in the first four minutes of the second half and threatened to overcome the lead that the champs had attained. A basket by Morrison in the first half minute of play gave added pep to the Wolves. A free throw by Watson followed a basket by the lanky center for Nevada a total of 17. Two more points by Lawlor brought up the point on deck. At this point, the Hillyards began to put more speed into their playing to score three points. A long shot by Lawlor from near the center of the court gave two more points. At this point Hewett came in the game for Spohn and a few seconds later scored a field goal for his team. Clover connected with a basket without touching the hoop and was immediately followed by two baskets by Hewett and Hooker respectively. A foul shot by Hooker a few seconds before the end of the game gave the worlds champs a total of 39 points while the Wolves had only 25 to their credit.

**Clover Stars**

Captain Les Clover more than covered himself with glory in the game last Saturday night. He was everywhere in the game and it was through his clever guarding that many possible scores were warded off. His running mate Morrison distinguished himself as a basketball player against the blue suited team by scoring five baskets for a total of ten points.

The type of basketball played by the Hillyards is one that is rarely seen on the Nevada court. The ease with which the team played was remarkable and shots that one would think impossible were made by these players.

This Friday and Saturday night the

## Yowchow Mryaki Speech of Japs

"Yow! &... Chow! Mr. Yaki! (C... Toki 6250K)"

"Heyyurallwet, LOOKout (\$1&2 54Well ilibes) (!\*)"

No, gentle reader, this is not a scene in a Chinese laundry, it is only an example of the splendid brand of basketball played at the Waseda-Nevada basketball game last week. The college boys from Japan gave us a sample of the grammar spoken in universities there. But not to be outdone the Nevada players returned with a loud volley of "Hey! Heys!" and "Oh, Oh," which completely upset their opponents who were not used to hearing their native tongue so mutilated.

And then came the smashing bit of strategy when the routing section shouted out a "Nippon! Banzai! Banzai! Banzai!" When the band blared forth with several National anthems the Wasedans were completely snowed under and gave up in despair.

With the final gun all danger of recruiting the men's and women's glee club was passed and the players joyfully trotted off the floor.

"Say," said one little Jap to another, "Did you ever see a bunch of college students murder the English language as these bums have done tonight?"

## TROJANS TRACK OUTLOOK BRIGHT

Days of rest and ease are over for Dean E. Cromwell, coach of the University of Southern California's track team, as the Trojans once more take to the track. This year's turnout of track and field performers is recorded as the largest in the history of the school.

The Trojan's outlook in this division of sports for the season are fairly bright, with about an even chance to win the important dual meets and perhaps better prospects in contest where a large number of athletes take part. They are strong in such events as the hurdle, pole vault, and broad jump, but are rather weak in the remaining events.

The Trojans are depending upon Captain Lee Barnes, 1924 Olympic pole vault champion, and Charley Bonart, intercollegiate 100 and 220 yard dash champion to bring in fifteen points from almost any track team they may meet.

Wolf Pack will meet the Fresno State Teachers in the third and fourth games of the Far Western schedule and from the type of basketball that they have been exhibiting on the local court they bid well to take these two games.

## BRADSHAW HAS BECOME COACH FOR Y.M.I. TEAM

### FORMER U. OF N. ATHLETE BECOMES PRO STAR

James "Rabbit" Bradshaw, Nevada's stellar athlete, is now transferring his knowledge of sports to the young men of the Y. M. I. at San Francisco. At this particular season Bradshaw's basketball team is gaining the particular notice of cage fans about the west. This team has at the present season, broken through the line that determines the division between the mediocre and the championship teams and now they are fast approaching the boundary that determines the few teams that always play in the final games. All this advancement is the result of work on Bradshaw's part and his ability to inject into his players, the same fire that so characterized his work a few years ago when he was playing under Nevada's Silver and Blue.

Not only in the medal sport of basketball does Bradshaw display his ability, which is great, but if we take a glance over his record for the past few years since he carried Nevada's ball, we shall see that he is probably the most outstanding football player in the United States today. Jimmy has played professional ball since 1923 and it was not the monetary greed that called him into the professional ranks, but the love of the American sport alone. The world-famous Red Grange and Bradshaw are comparable to a degree because they are both professional players and are both outstanding figures in the football world. However, their playing of the game is not so easily compared because, in the few games in which these two leaders have played against each other, it was always Bradshaw that brought the howling crowds to their feet, and not Grange. To the critics of the game it seemed that Bradshaw had "Stolen Grange's Thunder."

The State of Nevada and especially the University of Nevada should be proud of this small man that has done more than any other individual for the advancement of Nevada athletics by his cleverness and cleanness. He has truly set a standard for the men of the future to shoot at.

## "Chet" Scranton Appointed Coach

Chester (Chet) Scranton has received an appointment to the staff of the physical education department of the University of Nevada. He will have charge of the freshman and sophomore P. E. classes, will coach tennis, and will act as assistant football and basketball coach.

According to Scranton, Coach "Buck" Shaw will remain at Nevada only during the football season next year, and the vacancy caused by his absence will be filled by Scranton.

## GINSBURG

The rangy lad posing with the ball is one of those facing the Wolf Pack tonight.

## PREP SPORTS

Reno High School by winning two games this week end set the pace for last weeks race. Friday night Reno defeated Carson in a hard fought game by the score of 26 to 16. Reno led all the way and was never in danger although Carson put up a hard fight and extended the Reno team to the limit. On Saturday night Reno overwhelmed the Fallon team by the score of 28 to 4 and showed that they again have the makings of a championship team. They showed a strong defense, one that the Fallon boys could not penetrate besides showing a strong scoring combination. Reno has been improving steadily since the start of the season and this week end played their best ball. If they continue to improve they should again be strong contenders for the state title. The Fallon boys suffered a rather bad week end losing both their Friday night and Saturday night games. Saturday night they were defeated by Reno and on the night before they journeyed to Winnemucca where they suffered a 32 to 12 defeat at the hands of the large Winnemucca team.

Winnemucca has a team that is composed mostly of veterans who went into the lead at the start of the game and were never threatened. On Saturday night Winnemucca lost to the invading Sparks team who played one of their best games of the season in winning this game by the score of 27 to 14.

## Goofs Defeated By Wilson Cubs

In preliminaries to the Varsity games Friday and Saturday nights, the Wilson Cubs twice defeated the University Goofs, by scores of 29-40 and 12-31 respectively. Both games were fast and harder fought than the score indicates. The Cubs played a steady, confident game that kept the Goofs on the defense most of the time. The Goofs did not play up to their usual standard, and only in the second half of the first game did they give the Cubs much trouble, when they held the Wilson quietest to a tie score, both teams making 16 points during the period. The first game was marred by numerous fouls, 20 points being made on free throws, ten by each team.

The second game was somewhat slower than the first, the Goofs seemingly tired from the night before, and the Cubs playing more carefully. The Cubs penetrated the Goof defense frequently for short shots under the basket, with Hayes doing most of the scoring.

J. Dakin of the Cubs was high man for the first game, with 13 points, while D. Hayes carried off the honors in the second contest with 16 markers. Joe Dereomer played a good defensive game for the Goofs on both occasions, continually breaking up plays that seemed to be almost certain baskets for the Cubs.

to 25. Sparks had a very profitable week end at the expense of the teams in the eastern end of the state. On Friday night they defeated Winnemucca and on Saturday night they traveled to Elko and won this game 24 to 17. The Friday night game was one of the toughest games of the season for Sparks when they barely nosed out the Winnemucca team by the score of 27 to 25, the score changed often in this game and the outcome was doubtful until the end. On Saturday night Sparks had an easier game against the new and inexperienced team at Elko.

In the western end of the state Virginia City still claims attention as one

## NEVADA HOOP SCHEDULE

- Nevada vs. Olympic Club—Jan. 13, 1928—Olympic Club 36, Nevada 34.
- Nevada vs. Olympic Club, Jan. 14, 1928—Olympic Club 37, Nevada 34.

- Nevada vs. St. Ignatius, Feb. 24 and 25, 1928 at Reno.

of the strong teams as they overwhelmed the Yerington High School team by the score of 19 to 7. Virginia has put out an unusually strong team, their year composed largely of veterans and all big men they will make themselves known in the tournament this year. Carson won her one game of the season when they defeated Gardnerville Saturday night in a hard battle 25 to 23. Carson led all the way and was never in danger until the last few minutes when Douglas went on a scoring spree and made four baskets in less than that many minutes. Carson however had built up such a large lead that they were able to hold it until the final whistle. In another game in the end of the state, Dayton defeated Fernley by a score of 19 to 7 in a very interesting game. Going to the southern end of the state in Goldfield playing their first high school game in several years lost to the strong Las Vegas team by the score of 11 to 7 but only after a hard fight. Tonopah won a double header over the week end by defeating the Nevada Freshmen Friday night 28 to 16 and defeating Las Vegas Saturday night 26 to 8. Most of the teams are now

# COLLEGE IS NOT INTERIM IN LIFE OF INDIVIDUALS DECLARES REIS

## MEN WHO CHOOSE WORK CAREFULLY WANTED BY CONCERNS COLLEGE MEN ADVANCE FASTER IN BIG BUSINESS

College is not an interim in the life of an individual for pleasure and cultural development but a place to prepare for one's future work, was the contention upheld by Colonel R. J. Reis, assistant vice-president of the Bell Telephone and Telegraph company, who lectured Thursday night in the auditorium of the Agriculture building.

Men who intend to remain permanently with the company they first choose to work for are the men who are wanted by larger concerns and corporations, declared Colonel Reis, who emphasized the importance of choosing the right line of work while in college in order that one can remain in the right position after graduation, and be contented and happy.

**Choose Field**  
While in college the student should make particular effort to discover wherein his interests lie and then cooperate with his professors in choosing a field of work which will best satisfy these interests.

The question, "Is a College Education Profitable?" was graphically answered by charts which showed the relative advancement of college and non-college men.

College graduates, generally taken, advance approximately three times faster than those not having the benefits of an education.

Colonel Reis also emphasized the importance of good scholarship in a business career. "Scholarship records are very distinct factors in determining how good a man is," he stated, and urged that students pay particular attention to this part of their college life.

# 80 WOMEN OUT FOR BASKETBALL

Basketball practice for the women started in earnest this week when definite schedules for practice were formulated. The schedules have been so arranged that not only experienced players have definite hours for practice but hours have also been arranged for beginners.

The schedules planned are as follows: Freshmen (from all classes) 3:15 to 3:45 Mondays, Tuesdays, Wednesdays and Thursdays; Sophomores and Seniors, 3:45 to 4:45 Tuesdays and Thursdays; Freshmen and Juniors, 4:45 to 5:45 Tuesdays and Thursdays; everyone, 1:15 to 2:15 to 3:15 Friday. These sections will be held if fourteen girls sign up for each section. So far seven Senior girls have signed up, eleven Juniors, twenty-one Sophomores, thirty-two Freshmen, and thirteen beginners. Each girl signed up must practice for three hours each week. Beginners must report for four one-half hour periods per week.

Miss Weber is directing the practice. Ellen Baldwin '29, and Precious Nash '30 are managers for this season's basketball. Many of the games will be refereed by the girls training to be referees.

## Specimens Added To Mines Museum

Two more specimens of andalusite have been added to the Mackay school of mines museum display of this mineral, through the courtesy of Dr. J. A. Jeffreys, of the Champion Porcelain Company.

One of the specimens is from Andalusia, Spain, the place that gave the mineral its name, and the other specimen is from the Champion Porcelain Company's mine near Bishop.

These two specimens will give quite a ways toward making our display of the mineral one of the most complete there is, says J. A. Fulton, director of the school.

## ACTIVITIES PLAN MADE

Over half of the 2700 men now participating in athletics at the University of Wisconsin play football, and the faculty are sponsoring a plan to bring every student into some activity.

## Switches Back to Favorite Tobacco

Peoria, Ill. Aug. 26, 1926  
Messrs. Larus & Bro. Co. Richmond, Va.  
Dear Sirs:

Just a confession and an appreciation. A number of years ago I was a user of your Edgeworth smoking tobacco. But like some others, perhaps, I was led by alluring advertisements to change.

A few days ago I went into a drug store to get some tobacco, and on the case was the familiar can of Edgeworth. I bought it and since then I have enjoyed old-time comfort.

So my confession is that I made a mistake in changing to other brands, and my appreciation is such that Edgeworth will be my Smoke Pal while life lasts, which may not be long, for I have passed my "three score years and ten."

Very truly yours,  
(signed) E. P. Fishburn

# Edgeworth Extra High Grade Smoking Tobacco

## SPECIAL SHOWING

For the first time in the history of the University a private production of a three-act play is to be presented for the sole benefit of the President of the institution. Next Wednesday evening "The Bad Man" will be presented with all "its trimmings" for President Clark who is leaving for the East.

# NEVADA WOLVES DEFEAT WASEDA

In the second Waseda game played on the gym floor last Friday night the Japanese champs put up a game fight to defeat the Wolves, but they were again outclassed by the second team of the varsity squad.

The first half of the game was unusually slow, the Nevadans running up 13 points before the Japs scored their first point. They made one more point on a foul shot after their first basket, and when the half ended the score was 17 to 3 in favor of the Wolves.

In the second half some of the short but fast visitors turned into streaks of brown and sunk the ball for seven points during the first ten minutes of the half. Gilmartin's long accurate shots were consistent in finding the center of the hoop, however, and he kept the score safely on his side all of the time. He was high point man of the game with a total of eight points.

Whitehead, Wellander, Gilmartin, Bailey and Lawson were the five that started the game and played most of it, being substituted for in the latter part of the game by Ducker, Hammond and Robertson.

**First Squad Enters**  
During the last eight minutes of the game "Doc" Martie made life still more exciting for the Japanese quintet by running in the entire first string. These include Morrison, Lawlor, Watson, Hainor and Clover. In the eight minutes that they played these five scored 16 more points for Nevada, of which Morrison made 6, Glover 4, Watson 4, and Hainor 1.

When the final gun was fired the score was 41 to 15, with the little visitors fighting hard to a man until the last second of the game, giving the victors a run for every point they scored against them.

## SAMPLES GIVEN MUSEUM

The Mackay museum obtained samples of a recently discovered deposit of magnesium mineral known as brucite, from the plant of the American Magnesium Corporation, through the courtesy of the president, S. K. Colby.

The mineral is relatively rare and has recently been discovered near Luning, Nevada. Some samples of the pure magnesium metal in crystals have also been received.

Our Advertisers are University backers; back them.

# 22 COMPLETE WORK TOWARD COMMENCEMENT

## COMING GRADUATION IS LARGEST IN SCHOOL HISTORY

The board of regents at a meeting held last Tuesday approved the diploma of 22 students who have completed their university work. This number will receive their certificates of graduation at the annual commencement next June with some 130 other students to comprise the largest graduating class in the university's history.

Three of the approved diplomas were those of students who finished their work during the summer. These graduates, who will receive the degree of bachelor of arts are: Margaret A. Goodman, Helen S. Medigovich, and Charles Renwick, Jr.

The 19 other members who finished their work at Christmas are: Bachelor of Arts—Lloyd L. Barrington, Bernard H. Hartung, Jean Jackson, Dorothy R. Kaeser, Frank Karlovsky, Jr., Grace C. McNeill, Almsley H. Mahson, Wayne G. Meroux, Earl N. Worden.

Bachelor of Science—John Carlson, Herman F. Kaiser, Frank Y. Leaver, James W. Rice.

Bachelor of Science in Electrical Engineering—Walter J. Herz.

Bachelor of Science in Mining Engineering—Wallace A. Coltrin, James Skene, Louis V. Skinner.

Bachelor of Science in Agriculture—Thomas W. Raycraft, Raiston L. Crew.

## CURIEUX IN HOSPITAL

On last Tuesday there was only one patient in the campus hospital, Catherine Curieux '28, who had a slight infection which was not very serious.

The patients who were in the hospital last week, Miss Edith Reubsam and Merle Franer '31, both improved very rapidly and have now left the hospital.

# Trojans Issue Basketball Call

U. S. C.—(P.I.P.)—"Wahoo" Sam Crawford, former member of the Detroit Tigers, issued the first call for candidates for his 1928 University of Southern California team this year. Over sixty men reported for work, this being the largest turn out in the history of the school.

The Trojans, headed by Captain Coney Galindo of San Diego, second baseman, seem to be in for a very prosperous season in the California Collegiate league. Last year they ranked second to St. Mary's hard hitting squad in this league. As a result of the splendid turnout for this season's games, the Trojans are contemplating a six weeks trip to Japan, Korea, and Hawaii, to start May 8th.

All but two of the lettermen are returning this year. Besides these men, a promising squad of freshmen from last year's teams have been working strenuously to state places and several of them may possibly do so this season.

The Southern California league will play Santa Clara, California, Stanford, St. Mary's, and U. C. L. A. this season. A series of practice games with local squads will also probably be arranged.

## CITY FIREMEN PROTEST AGAINST COLLEGE MEN

SEATTLE, Wash.—(I.P.)—Local city firemen from station houses in the vicinity of the University of Washington, are protesting that it is almost impossible for them to reach a fire because the minute a fire gong rings, the college men pile into their campus cars and block all traffic in their rush to the blaze. Measures are to be taken to keep the students from blocking the way for the firemen.

# TONOPAH HOOP SQUADS DEFEAT U. OF N. FROSH

## ELEVEN MEN MAKE LONG TRIP, LOMBARDI IS HIGH POINTER

The University of Nevada Frosh were defeated for the first time this season last Friday night by the Tonopah high school team. The final score was 28 to 16 in favor of the Muckers. The two teams are now even as far as victories are concerned, the frosh having previously defeated the Tonopah basketers on their own court, by a comparatively large score.

On Saturday night the Yearlings battled with the town team, and although they were again defeated, the team showed a remarkable improvement over their playing of the evening before. In this game, the frosh outplayed their opponents, and it was only the superior long distance shooting of the other team that defeated them.

Lombardi and Liston did the best playing for the frosh. Lombardi was high point man on both occasions, and it was his accurate shooting that saved the frosh from a worse beating.

Eleven men made the trip in cars, last Friday, and they arrived only a few minutes before the first game. This handicapped the frosh considerably, and also they were troubled by the small, low-roofed barnlike court of the Muckers.

The men who made the trip were: Morrison, Randall, Farnsworth, Boyden, Austin, Clark, Lombardi, Quinn, Londigan, Liston, Freitag, and Coach Scranton. They arrived back in Reno late Sunday night.

# Hoop Squad Has Unusual Average

Nevada's basketball squad has unusual ability in studies as well as in athletic contests, the squad making an average of 2.384 last semester. This is an exceptionally high mark for an athletic group on the Nevada campus, according to "Doc" Martie.

The average for the football squad was not compiled and "Doc" Martie says he firmly believes that this is wholly because the persons involved were afraid that the average would be made public.

ably, and also they were troubled by the small, low-roofed barnlike court of the Muckers.

The men who made the trip were: Morrison, Randall, Farnsworth, Boyden, Austin, Clark, Lombardi, Quinn, Londigan, Liston, Freitag, and Coach Scranton. They arrived back in Reno late Sunday night.

# EDUCATION, LAW LEAD

Education, law and journalism are the professions most preferred by the 17 Rhodes scholars who since 1904 have been elected from Wisconsin to study at Oxford University, England.
