

# MANY SCHOOLS TO COMPETE IN PREP TOURNEY THIS SEMESTER

## GAMES AND REFEREEING TO BE HANDLED BY BLOCK N MEN

### ENTRY BLANKS SENT TO TWENTY-SEVEN STATE INSTITUTIONS

The eighth annual Nevada State High School Basketball Tournament will get under way at 8 a. m. Wednesday, February 28, and will last through four days, the finals being played off Saturday night, March 3.

Conducted by the Block N Society, under the general management of Les Clover '28, the tournament will be run in virtually the same manner as in past years. The boys teams will be quartered at Lincoln Hall and the various fraternity houses, the girls at Artemisia and Manzanita halls, and all contestants will be fed at the University Dining hall.

#### Many Schools Expected

Entry blanks have been sent to about 27 schools throughout the state, and it is expected that about 20 of these will be represented in the contests. Feb. 20 has been set for the deadline for these entries, and drawing for the games of the first day will probably take place on the 25th.

J. E. (Doc) Martie will assist in the management of the tourney, drawing up the schedule of games and refereeing the finals, as has been his custom in past years. Refereeing of the boys games will be done by members of the Block N who have either played varsity basketball or have had previous experience. The officials of the girls games will be women P. E. students who have been studying refereeing as part of their P. E. course.

The chairmen of the various committees are as follows:

- Welcome—Granville Leavitt '28.
- Trophies—Archie Watson '28.
- Advertising—Verne Johnston '28.
- Feeding—Leon Haider '28.
- Housing—Bill Downey '28.
- Finance and Policing—All Block N men.

## Local Aeroplane Falls in Crash

Slowly the airplane sailed into the air with a graceful, sweeping movement, mounting higher each moment. Suddenly something happened, however. The driver must have lost control for the plane swerved crazily, went into a back spin, and crashed to the earth. The crowd of spectators rushed forward to view the damage of the wreck.

"Anyone hurt," shouted a bystander. "But obviously there wasn't for Wayne Buer merely wound up his miniature airplane, made by himself, in preparation for another try for a longer and higher flight."

## Women Practice Swimming Drills

According to Miss E. Sameth and Miss V. Webber, the swimming class will continue until the ten lessons are finished. As it has been hard to get transportation only the ones who have staged out so far will be kept unless new women can furnish their own transportation or are willing to taxi to Moana and back. Taxis have consented to take four women out for a dollar, single trips being fifty cents each way.

The remaining five lessons will be spent on life saving drill. Last week practice in treading water and surface diving for an object was given.

## Commerce Club Members Hear Talk By Foster

A regular meeting of Commerce Club was held Wednesday evening when it was decided that the club should have a panel in the Artemisia this year.

Those eligible to membership in Commerce Club will be voted upon at the next regular meeting.

Proceeding the meeting Mr. Foster gave an interesting talk on the J. C. Penny Chain Stores. The Golden Rule store of Reno has recently been taken over by this company.

## HALL MYSTERY IS NEARLY REVEALED

At 10 o'clock the great front door was locked. Except for the muffled tones of a new jazz record, loud shrieks of laughter from one room, the click of a hard working typewriter, and an occasional Ssh! all was still. Manzanita Mazies were busily toiling over Monday's lessons. A peaceful Sunday calm prevailed throughout the hall. But for how long?

Suddenly there was the shattering sound of broken glass, and one good window lay in pieces on the floor and fire escape. Yes, on the fire escape. Third floor residents poked their heads out of their rooms; doors all along the hall were thrown open. Not a soul was in sight! Questions were shouted from room to room. "Who was it? Who did it?" But no living proof presented itself. Only the broken glass lay as shivering evidence of some bold attempt. Nor is it known whether the guilty one was making an entrance or an exit. The House Detective Agency is busily at work investigating the matter.

## Smoke Startles Early Students

This is just a sample of one of those little incidents that make life worth living. It happened at the beginning of the 8:40 classes Wednesday morning. A group of students were walking on the sidewalk in front of Stewart Hall when they noticed a thin spiral of smoke curling out of one of the windows on the top deck of Morrill Hall. Immediately consternation gripped the students and while two of them ran to turn in the fire alarm the rest madly dashed up the long flights of stairs that make Morrill Hall so famous. When they had reached the top they found the smoke so dense it was almost impossible to see through it. Dashing into the room they expected to find the place in flames, but there was instructor Duerr madly trying to get his eccentric stove into action while his Expression class dramatically went into fits of coughing and shivering.

Upon being interviewed Mr. Duerr coughed a little grain of cough and hopefully resumed his story. "I have resolved that I will no longer be late for my first class and I will try to get here an hour earlier in order that my stove may be well started before classes start."

So far his good intentions have not gone up in smoke.

## Students Enjoy Winter Sports

A party of University students and downtown people are enjoying sports at Truckee and Hobart Mills this week end. The party left this morning for Truckee where they will board a freight and make the rest of the trip to Hobart in a caboose. They will return to Reno Monday morning.

This is the first year such a group has taken this trip.

Miss Veril Weber, instructor in the Physical Education department, Eva Adams '28, Mae Bernasconi '28, Ivel Anderson '30, and Dora Clover '31 with Miss Van Every of the Y. W. C. A. and others of Reno, have taken advantage of this opportunity.

## Sam Platt Talks To News Editors

Samuel Platt, prominent Reno attorney, spoke during the past week to the news-editing class in the journalism department on the stories of prominent libel suits in the recent history of Nevada.

This was one of a series of talks that the journalism classes will hear by practical field men, several prominent Nevada editors being scheduled to talk before the end of this semester.

## ATHLETIC FRAT REQUIREMENTS ARE ANNOUNCED

### QUALIFICATIONS NAMED COVER ALL FIELDS OF SPORT

Some interest has been created among the athletes of Nevada by the posting of the requirements for membership to Delta Sigma Pi, national athletic fraternity. Doc Martie says that several men have signified their desire to try to pass the tests, and that try-outs will probably be held later in the spring for those interested. The requirements are very stiff, and Martie is of the opinion that very few men in the school could qualify. Some of the standards are within the ability of almost anyone, but some of the tests are beyond the average man, and it takes a very good all around athlete to equal all the marks. Most universities, however, have a few members.

In order to be eligible for membership, the candidate must equal or better each of the following requirements: 100 yard dash—11 3-5 sec. 220 yard hurdles—31 sec. High jump—5 ft. Broad jump—17 ft. 16-lb. shotput—30 ft. Pole vault—8 ft. 6 in. Baseball throw—250 ft. in air. Punting football—120 ft. in air. 100 yd. swim—1 min., 15 sec. 2 mile run—12 min., 15 sec. Tumbling—Front hand spring; front dive over 4 ft.; hand stand 10 sec. Posture—erect.

## HOOP TITLE WON BY FROSH SQUAD

In the last of a three-game series Wednesday night, the Frosh basketball team defeated the Goofs by a score of 20 to 14. This was the deciding game of the series, each of the teams having one previous win to its credit. The other two games were played earlier in the season, the Frosh taking the first and the Goofs the second.

The game was marked by numerous substitutions, several teams being used by each coach during the contest. Clark of the Frosh and Farnsworth of the Goofs were tied for high-point honors with six points each.

## HERBERT JACOBS TO GO TO COLLEGE CONVENTION

Through an invitation of Albert P. Salesbury, president of the Western Association of College Comics, Herb Jacobs '29 is to attend their annual convention to be held in Seattle March 26, 27 and 28.

The convention is an annual affair at which policies and suggestions are given by and to the assembled delegates.

## Y.W.C.A. Sponsors Vesper Service

The second of the series of four vesper-musicals was held Sunday afternoon, February 12, at 4 o'clock in the Manzanita hall parlor.

A large audience filled the parlor, eager to hear the interesting program arranged by Mrs. F. B. Patrick of the Reno Y. W. C. A. and Ellen Harrington '28. The Reno Y. W. C. A. is co-operating with the University branch in giving these vesper-musicals, enabling the people interested to hear some of the more talented musicians of Reno and of the University.

Miss Margaret Ernst '28, president of the University branch of Y. W. C. A., introduced the soloists. Donald Bell played three difficult piano selections, which were well interpreted in his individual manner. They were: "Altogether," Godowski; "Nocturne in B-flat," Paderewski, and "Liebestraum No. 2," Liszt. Professor Post sang, accompanied by his wife, on the piano, "Caro Mio Ben," Giordani, "Bonjour Suzette," Delibes, and "I Heard You Singing." Contes. Dr. Spann played "Pipes of Pdn" as a trombone solo, successfully completing the program.

The third of this series of vesper-musicals will be held February 19, at Manzanita hall from 4 to 5 o'clock and shall feature other musical talent.

## Student Officers Get Private Den

A. S. U. N. officers have at last secured an office for their official business. It is room 503 of the Mining building, generously donated by John Allen Fulton, professor of mining engineering and director of Mackay school of mines.

Fixtures are already being moved for the convenience of the officers, and preparations are being made for the coming "bull sessions" that will be held.

## Jr. Farm Bureau Film Is Showing

A film, taken by the Southern Pacific company last summer, picturing the activities of the 4 H boys' and girls' club groups at the annual farm bureau camp is being shown at Farm Bureau centers all over Nevada according to Mr. Thomas Buckman of the Agricultural Extension Division.

"This film now circulating is doing much to interest farm boys and girls in the University of Nevada, more especially in the schools of Home Economics and Agriculture," said Mr. Buckman.

The camp was held at the University farm from July 26 to 29 under the auspices of the Farm Bureau and the University of Nevada.

Eleven counties were represented at the camp last year and the total attendance was 324 club members, an increase of 50 per cent over the attendance of the first camp held in 1923.

# COLLEGE HUMOR SPONSORS TOUR AROUND EUROPE

### LIMITED NUMBER WILL BE TAKEN ON GAY VOYAGE

College Humor is sponsoring a collegiate tour to Europe this summer, featuring "one hundred gay collegians, a college jazz band," to quote the bulletin issued by the tour conductor, the expense account set at \$375, the lowest rate yet offered by the student summer tours.

The trip will start at Montreal June 22, 1928, on the Canadian Pacific steamship "Montclair." Plans are being formulated to make the time on board as much like a campus as possible. Deck sports and bridge tournaments and masquerades will make the voyage a memorable "house party at sea," according to those in charge.

Land at Liverpool  
The party will land first at Liverpool, visiting all important scenic and historic points of interest in England, continuing the tour across the Channel, visiting "lovely Bruges and gay Brussels," and then to Paris, where five days will be spent.

The homeward voyage will start from Cherbourg July 14, after a day's ride through Normandy, landing at Quebec the following week.

The itinerary has been planned primarily with a view to allow a close contact with the life on European countries, as well as provide opportunity for a good time and good fellowship among students of the United States and other countries on the visiting list.

Limited Membership  
Membership in the tour will be necessarily limited, as a congenial group—and not a too big one—is the aim of those in charge. All travel arrangements are made by the Art Crafts Guild Travel Bureau, originators of the famous "Collegiate Tours," and additional information may be procured from this company at LaSalle, Illinois.

# Nevadan Gives Paper In Ogden

President Clark has received a letter from the Secretary of The Intermountain Livestock Sanitary Association in which is expressed the appreciation of a paper that was delivered by Mr. C. E. Fleming, at the meeting of the association on January 10 and 11. The subject of the paper was "Western Poisonous Plants of the Range and Pasture."

Mr. C. E. Fleming is in charge of Range Management at the University of Nevada and for this reason the paper is of interest to us. According to Mr. W. D. Wright, secretary of the organization, the paper was a great help to them in their research work. He states in the letter, that the paper was exceedingly well received and that the entire membership spoke of it in complimentary terms.

Educational in Scope  
This livestock association is educational in their scope and some of their main efforts are centered in determining the plants on the range that are detrimental to the welfare of the range animals. Each year there are several new species of poisonous plants found and the work of this organization, as well as that of several similar ones, is to kill these plants off before they get a start that will be beyond the efforts of the people.

Mr. Wright states in the letter of appreciation, that they hope to see a continuation of this work at the University, for it is of vital importance to the livestock men of the western country.

# Spring Musical Programs Made

The Glee Clubs and Orchestra are planning several interesting programs for the spring months, according to Mr. Post, their director. The Orchestra has arranged a concert to be given in the Education Auditorium, Sunday afternoon, March 4th, at 4 o'clock. This will feature two soloists, Mrs. T. H. Post, soprano, and Mrs. John Donovan, violinist. The orchestra for this event will be composed of twenty-five players.

The Women's Glee Club is giving a concert-dance at the Century Club, Saturday, April 24th. The details of which will soon be completed.

No definite date has been set for the Men's Glee Club entertainment. They are planning on touring several Nevada towns and have received favorable reports from several towns, but as yet have made no arrangements.

Some time during Commencement Week, Mr. Post is planning on having a joint concert program, given by the two Glee Clubs and the Orchestra.

# Nature Classes Refill Aquaria

The promenade of girls, each with two small tin pails swinging jauntily at their sides, which the uninvited observer might have noticed during the 9:35 period Tuesday morning making their way from the rear of the Aggie building to the tram and back, was not an initiation.

It was only the students of Miss Mack's nature study class taking in a fresh supply of water for their aquaria which they maintain in the interests of their work, and, although out of the regular routine of the campus, no initiation took place and no one was hurt.

# NEV. EXTENSION SERVICE MEETS

The eleventh annual conference of the Nevada Extension Service met in Elko, starting February 1, and ending the 4th. The Home Demonstrating committee met jointly with the extension service to revise all agricultural projects and put them on a standardized project program. This program will be complete by March 15.

Eugene Merritt, field agent of the western states, gave a formal speech on the successful extension programs. He illustrated his talk with a chart showing the way in which the extension work helped the farmer most. He also assisted the committees with their revision.

Cecil W. Creel, director of the agricultural extension, spoke on the conference and its relation to the 1928 program. Thomas Buckman and Mary S. Ruol, assistant directors of agricultural extension, talked on the Boys' and Girls' Club work for 1928. Nevada crop reports were given by Frank Andrews of the agricultural statistic bureau, U. S. department of agriculture. A. L. Higginbotham, extension editor and professor of journalism at the university, spoke on the farmer and the newspaper. Emphasis was placed on the newspaper for carrying new scientific methods to the rural population of the state.

Eda L. Carlson, chief clerk of the extension division, and Verner E. Scott, dairy and poultry specialist, served on the committees working on the revision.

# Offices Vacant at Washington

To fill vacancies in the Patent Office at Washington competitive examinations will be given and all applications for junior patent examiner must be on file with the Civil Service Commission at Washington, D. C., not later than March 10th.

The entrance salary is \$1,860 a year. A probationary period of six months is required; advancement after that depends upon individual efficiency, increased usefulness, and the conference of vacancies in higher positions.

Examinations will be given in optional subjects and competitors will be rated on physics, mechanics, and mechanical drawings; and the optional subject selected.

Full information may be obtained from the United States Civil Service Commission at Washington, D. C., or the secretary of the United States Civil Service Board of Examiners.

# Grace Uhart '30 Pilots Normals

Grace Uhart '30, was elected president of the Normal Students last week to fill the vacancy left by Lucille McKenny '30 failing to return to school. Other officers elected at the meeting were: Opal Curieux '30 vice-president, Golamae Johnson treasurer and Ethel Hines '31 secretary.

# STUDENT GETS SYNTHETIC DRUG AT LABORATORY

## FAWN LOUIE SUCCESSFUL IN GETTING CAMPHOR BY EXPERIMENT

Success has at last come to crown the efforts of long hours of experimenting in the chemistry laboratory, by Fawn Louie, student at the University of Nevada. According to Dean Adams, Fawn Louie '28 has succeeded, after many and intricate experiments, in obtaining camphor.

Although this is not a new experiment it is an unusual one, and it is the first time that it has been successfully completed at the University of Nevada.

Last semester several students, including John Higginbotham '28, George Gadda '28 and Fawn Louie attempted the manufacture of camphor, but were not successful. Fawn Louie was particularly interested in this synthetic manufacture since camphor is one of the products of his native country, China, so he continued his efforts.

A great deal of credit for his perseverance in carrying on this experiment is due to Louie, because it is an unusually difficult one, according to Dean Adams.

Fawn Louie is a senior in the department of chemistry and is also president of the Cosmopolitan Club.

# New Gardening Course Offered

A new course in landscape gardening is offered this semester under the direction of Professor P. A. Lehnenbauer. Eight students have enrolled, four men and four women.

The students will learn to plan the style of landscapes, drawing them to a scale. This includes the relations of the various trees, shrubs, and flowers to each other, and also the cost of planting them.

Several of the Campus professors are having their gardens landscaped this year by the class, thus giving them practical experience. The professors will be presented with blue prints when the various plans are completed.

The object of the course is not to make professional gardeners but to show the students that it is possible to landscape his own home and to give him the method of doing the work in an artistic way.

# Rogues Invade Men's Dormitory

"Pa, I'm being treated rough down here at college, and I'm afraid that I just won't be able to stand it the rest of the semester," wrote a new Frosh home.

The same Frosh came home one night last week, after dissipating in a picture show and an ice cream soda. He entered the hall as full of vim, vigor and happiness as a boy with his first bicycle. Skipping up to the entrance of his domicile he applied the key and turned the knob. What happened from then on was mostly noise to other occupants, and misery to the once happy Frosh.

The hinge pins on the door had been removed, which fell inward at the turn of the knob. Three chairs and a suit case were jerked from the table by the fall of the door. A string connecting them was the cause. Strings, resembling net work, were strung about the room, and all served some purpose when the door fell.

After being revived from the catastrophe he found that he could not retire because all signs of bed clothes had disappeared. After a long search they were found in a corner of the shower where they had absorbed considerable moisture.

The lone Frosh was not the only victim, however, for approximately half of the rooms in the hall received the same treatment. It has been reported that several upperclass men are viciously searching for the investigators and they hope they are underclass men.

Three students at the University of Illinois were fined three dollars each recently for playing ball in the streets.

California will send two eight-oared crews to Poughkeepsie in June.

# Freshmen Make Plans for Glee

According to Jack Walthers, freshman class president, plans for the Frosh Glee are rapidly being completed. The committee has been working for the past week on plans for some most original decorations and the entertainment is promised to be new in the line of formal entertainment. It has not yet been decided whether it will be given in the gymnasium or elsewhere.

# OVERCOAT LEFT IN CAR BY UNIVERSITY STUDENT

Dean Leach is in receipt of a letter from A. R. Larson, assistant postmaster at Berkeley, Cal., in which he states that he recently gave a young man a ride who said he was on his way to the University of Nevada. As he left his overcoat in the car Larson would like to hear from him in order that he can return it. If the young man will communicate with him at the above address he will be glad to send it to him.

Playing a feminine part in a university stage production meant a real sacrifice to Robert C. Hines, of Ohio State University. He was forced to shave off a mustache raised after several difficult months.

### It costs a lot, but Camel must have the best

It is true that Camel is the quality cigarette, but it costs to make it so. To make Camel the favorite that it is, costs the choicest crops of Turkish and Domestic tobaccos grown. It requires the expense of a blending that leaves nothing undone in the liberation of tobacco taste and fragrance.

But the fame that Camel has won is worth all the trouble. It has brought modern smokers a new realization of excellence. They are particular and fastidious and they place Camel first.

Your taste will delight itself in these choice tobaccos. Camels get better the more of them you smoke. Their subtle tastes are unfolded by experience. They are always delightfully smooth.

"Have a Camel!"

R. J. REYNOLDS TOBACCO COMPANY, WINSTON, SALEM, N. C.

# Dedication Has President Clark

President Walter E. Clark went to the dedication of the new \$100,000 grammar school building at Winnemucca Monday and Tuesday of last week. Representing the University, he offered his congratulations on their advancement in the field of education.

He went to Winnemucca at the invitation of Principal McFadden, who obtained his masters degree here in 1926.

Married students make the best grades, according to a recent study made by two University of California professors. They have found that women Phi Beta Kappas at the university from 1874 to 1910 were divided—the greater percentage being married students.
