## E.J. one in a million

I remember meeting Edgar Jones for the first time the day before his first UNR game back in November 1975.

I cruised up to his room in the College Inn where he and the other heralded freshman, Herb Billups, were staying. This first game was a highly anticipated event, since with Jones, Billups and Mike Longero all making their debut, a basketball dynasty seemed to be in the not-too-distant future.

Jones didn't have much to say that day, probably since I didn't know what to ask, being a first-year Sagebrush reporter and he basically a shy freshman from 3,000 miles away.

I do remember that first game, however. Jones was everything and more that people expected him to be. As I reported in the Dec. 12, 1975, issue, "UNR center Edgar Jones had a spectacular first half, scoring 17 points and pulling in 10 rebounds. He showed versatility on the floor, blocking shots, grabbing

rebounds, getting inside and also pouring in some long bombs."

It was an auspicious beginning, and the excitement would never cease. I never did get to know Edgar Jones as a person. But in covering the basketball team three of the four years he played, I became very familiar with his one in a million style of play.

Controversial? Yes, but he was an easy target.

Being black and six foot 10 tends to force one to stand out in a crowd at UNR. His only real identity to the university community was on the basketball court, a reputation he did nothing to dispel.

The whole team, especially before Johnny High and Mike Gray came on the scene, seemed to revolve around him. If he had an off day, so did the Pack. As a result, a UNR victory was not something that could be counted on.

Then, after all the trouble with his grades and the NCAA before his second year, his intelligence became somewhat of a joke. A guy that couldn't even pull a 2.0 in high school, people said, leading our team?

It also became a joke and a common ground of complaint by opposing coaches that Edgar was the only guy in the country to play four years and be ineligible for three of them.

But he's endured all that. He endured his grades being plastered across every publication in town. He's endured all the criticisms that result by being a flamboyant, showboaty athlete. He's even endured his only major injury.

So after observing what was once a poor basketball team turning into something to be reckoned with on the national scene, it is only fitting that the club has landed a berth in post-season play for the first time since turning Division I.

Edgar's done more to earn respect for the program here than anyone could ever have imagined. It was kind of ironic that people seemed to take Jones for granted as the years wore on. When he was hurt earlier this season, people were saying that now maybe the Pack would operate as a team.

But you saw the results. Five of their six losses came without his services. As soon as Jones returned,

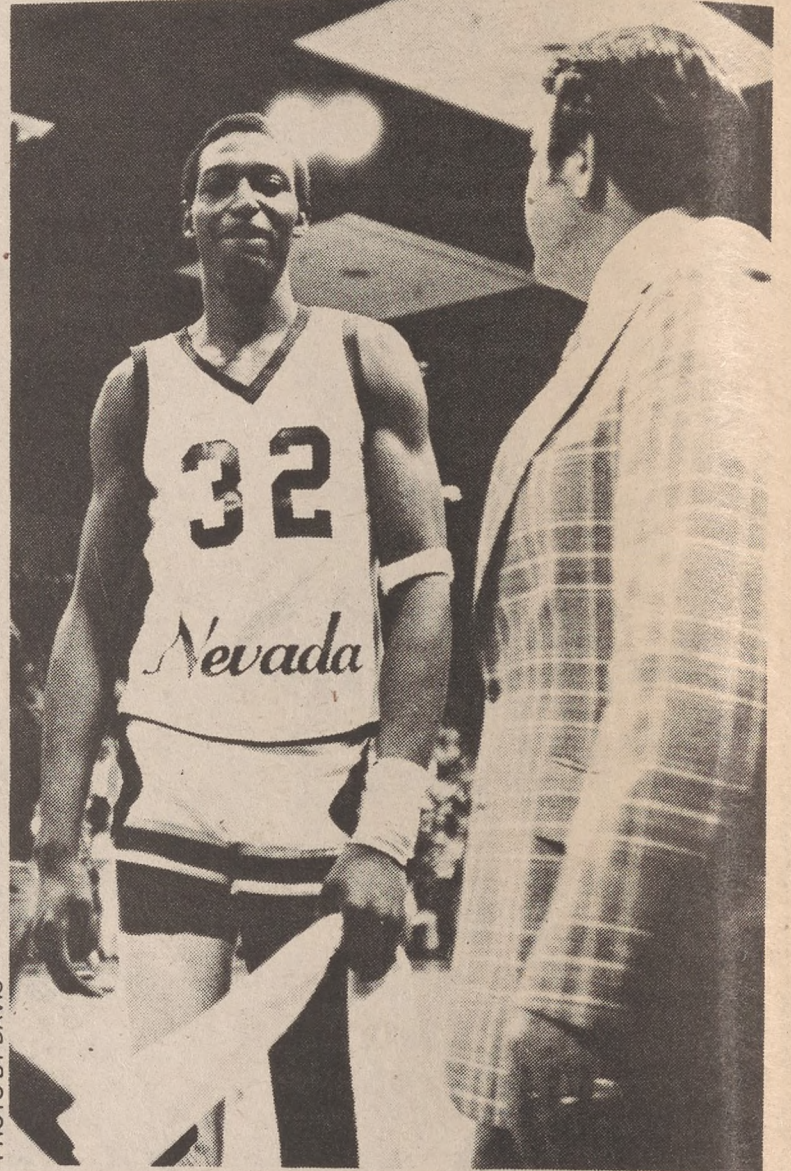

PHOTO BY DAVIS

so did the wins; and a National Invitation Tournament bid was the result.

His long, limbering body gliding up and down the floor of the Coliseum is now only a memory. His future is not reality yet, it is only his past that fans can be certain of.

It was a hell of a gesture by the Athletic Department when they decided to retire his now famous 32 jersey, the only retired number in UNR basketball history.

He deserved it.

## Letters

### Don't go throwing away that helmet

Editor:

If you are the owner of a motorcycle, you had better not throw away your helmet just yet. In the article that I wrote for the Feb. 23 issue of the Sagebrush, entitled "Cars and Bikers Don't Mix," I stated that "the Nevada State Legislature recently repealed a law requiring the wearing of safety helmets on motorcycles...."

This statement was incorrect. The fact is that the controversial bill to scrap Nevada's motorcycle

helmet law, AB 11, DID pass in the State Assembly. However, the bill was later defeated in the Senate on Feb. 27, four days after the article was printed in the Sagebrush.

Incidentally, I hate motorcycles. People who ride them are crazy. Someone very close to me, I won't mention his name, barely survived two motorcycle wrecks. You'd think dummy would have learned the first time, wouldn't you? Now he rides a bicycle.

Bob Grumet

### Rosso's making this guy sick

Editor:

Who the hell is this Rosso character that keeps enlightening us with his "meaningfull" letters of correspondence?

I mean, of what social, economic or anything value do they possess? I'm really surprised the Sagebrush thinks that they are important enough to print them.

Is that your policy, to run any letter you receive no matter how idiotic?

I don't know who this Cindy Thomas is that Rosso felt needed chastising, but I hope she didn't take the letter serious.

I'm sure nobody else did.

THE UNIVERSITY OF NEVADA AT RENO

## Impeachment motion stalls in senate

Carol Clarke

A move to impeach four ASUN senators for absenteeism ran into a major snag last week — each of them serves on the five-member Senate Rules

and Action Committee which was to hear the case. The four have returned to their

for lack of a second. They adjourned after censuring Smith, Williams, Marks and Contri for their absences. The four have returned to their

have served about eight weeks on the council without taking the oath of office because of an oversight of the entire senate. This was a break with tradition but not a violation of the ASUN constitution.

After rereading the constitution Robert Kinney, associate dean of students, said it does not preclude anyone from serving simply because he or she has not been sworn in.

A question was raised about the validity of the council's decisions because two of its members weren't sworn in at the senate's first meeting in January.

"If every one of the decisions came back today the council would do the same because they were honest decisions," Wines said.

## Oops!

The Student Affairs Questionnaire that appeared in the Feb. 27 issue of *Sagebrush* did not indicate where they could be returned.

Students who fill out the questionnaire can return it by mail to Dr. Jack Clarke, Room 209, Thompson Student Service Center.

Students can also place the filled-out questionnaires in student affairs boxes which are located in the Getchell Library, the Jot Travis Student Union, the Life-Health Science Library, the Education Building, and the Agriculture Library. Dr. Clark said students may help the affairs board help them by filling out one of the questionnaires.

*The senate was required to take the action because of a clause in the ASUN constitution.*

and Action Committee which was to hear the case.

The senate had initiated the impeachment proceeding against Elizabeth Contri, Cory Martin Williams, Stan Marks and Naomi Smith.

The senate was required to take the action because of a clause in the ASUN constitution. The clause, Statue 2603, states: "When a senator has accumulated three unexcused absences the executive council shall present charges of impeachment to the senate. The senate can then remove the member by a majority vote of the quorum."

Before the committee heard the case the senate suspended the impeachees from committee duties and temporarily appointed four new members. They were Al Babb, Pat Fritchel, Frank Ponticello and Michael Pacini. Old member Reese Bostwick became chairman.

Move to impeach died in committee

duties on the committee.

It was also revealed last Wednesday that the last two persons elected by the ASUN Senate to the Judicial Council were never sworn in.

Melissa Meredith and Bob Wines

## Survey shows senate not representative

The ASUN Senate is not representative of the UNR student body because most independents don't vote, according to Robert C. Kinney, associate dean of students.

Kinney told an ASUN Senate meeting Feb. 14 results of a survey showed most UNR students commute and do not have an opportunity to get to the polls. The survey was conducted by the Office of Student Services.

At present the only place on campus to vote is the Jot Travis Student Union.

Kinney said 30 percent of the commuter students never enter the student union, 25 percent enter the facility on an average of once a week and only 1 percent use the facility more than five times a week.

Kinney suggested additional ballot boxes be placed in other buildings on campus, such as the library, to facilitate student voting.

Kinney said of the senate, "When they make decisions they should

remember that there is a large non-represented group."

Gregory Neuweiler, ASUN president, agreed the senate was not representative of the general student population but said it was the independents' fault.

Neuweiler said it is against the ASUN constitution to place ballot boxes in buildings other than the student union and "the polls could not be policed." Up until three years ago there were other polling places but there were frequent election violations under that system, he added.

Sen. Reese Bostwick suggested parking meters were more of a deterrent to voting participation than lack of ballot boxes.

The purpose of the survey was to solicit students' input relative to the types of programming desired, use of campus facilities and general information to suggest methods to better serve the UNR commuter student.

## Primary voting begins tomorrow

Voting begins tomorrow for the ASUN student primary elections.

The elections voting will run Wednesday and Thursday from 8 a.m. until 6 p.m. each day. The voting is done by a computer process and will be held in the student lounge of the Jot Travis Student Union. It had originally been scheduled for the Pine Auditorium but because of conflicts, it had to be moved.

Since it takes at least one or more applicants over twice the number of seats available for a senate or executive office, there will be only four primaries.

Primaries are scheduled for the office of ASUN president and vice president of activities. All students are eligible to vote in the primary for those positions.

In addition, two colleges will have a primary for their senate seats. Business administration, which has four seats on the senate, and engineering, with one seat, will have a primary. Only students in those colleges may vote for senate candidates.

Vince Jim Bernabei, Scott Koepf and Dave Ritch will be in the running for ASUN president. The primary will eliminate one of them before the general elections.

Bernabei, an independent, is trying his first time at an ASUN position.

Koepf is currently an ASUN business senator and the president of the newly formed Omega Xi fraternity.

Ritch has been in ASUN government for three years, serving as senator, senate president and vice president in

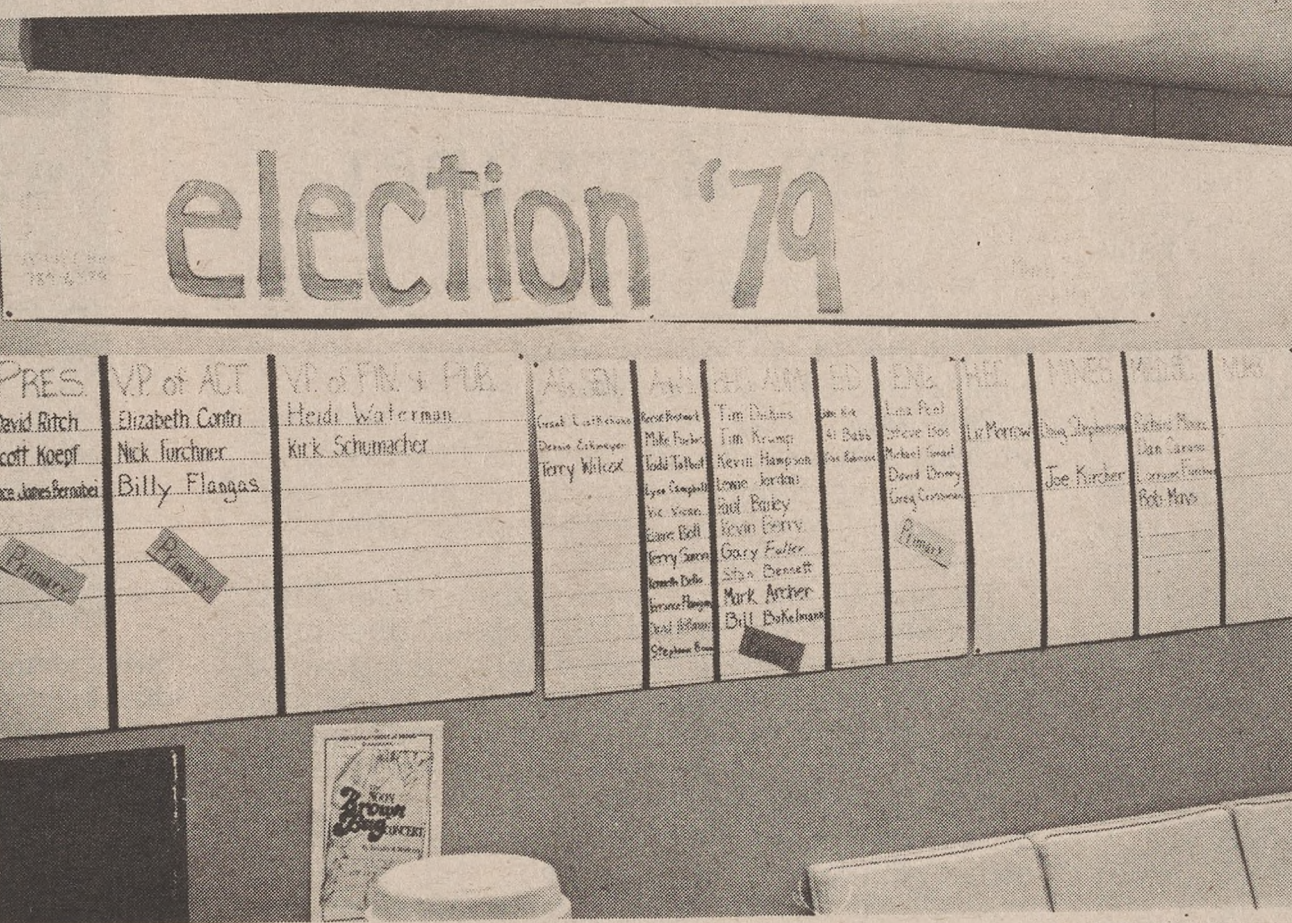

PHOTO BY NEWMAN

charge of activities. He is a member of Sigma Alpha Epsilon fraternity.

The vice president of activities position will see Liz Contri, Nick Furchner and Bill Flangas vying for that spot.

Contri is currently an ASUN senator and a member of the activities board while Furchner is also a senator and on the activities board. Contri is a member of Delta Delta Delta sorority; Fur-

chner is a Sigma Nu.

Flangas, an independent, has never served ASUN before.

Campaigners will probably be seen most frequently the two days of primaries soliciting votes in front of the library, on the street between the business building and Frandsen Humanities.

The results of the primaries will be announced at approximately 8 p.m. at the Beer Barrel and will be listed in Friday's edition of the *Sagebrush*.

## Uniforms found

In the "I'll be darned" category, UNR reports an end to the case of the missing marching band uniforms.

John Carrico, chairman of UNR's Music Department, announced that during construction for the soon-to-open electronic music lab, workers stumbled across some cartons in a storage area of the attic.

When the cartons were opened, lo and behold, there were the navy blue and silver uniforms that Carrico describes as "Big Ten style, with white gloves and everything."

The 90 uniforms were last seen in 1971 or 1972 when the marching band was dissolved, and it was thought they were stored at UNR's Stead campus. But a search there turned up empty.

Carrico estimates the value of the uniforms at nearly \$20,000 since it would take about \$200 to replace a single uniform these days.

The university is looking into the feasibility of reinstating a marching band and, if one materializes, the recently found uniforms — reported to be in good to excellent shape — will come in handy, Carrico said.

# '79 ASUN primary position

## President

PHOTO BY MILLS

### Dave Ritch

During my four years at UNR, I have lived in an apartment, a dorm and at home. I have also worked every year to put myself through school, and I know what it's like to commute to school every day. These experiences give me a BETTER ABILITY TO REPRESENT THE STUDENTS AND GUIDE ASUN TO MEET THE NEEDS OF THESE DIFFERENT GROUPS.

**STUDENT ADVISEMENT CONCERNS:**  
I feel that the process of advisement at UNR needs a lot of help in that there are large differences in the quality of advisement from college to college. I have plans for ASUN to step in and help students more effectively achieve their individual educational goals.

**REGISTRATION PROCESS REFORMS:**  
I am sure that we are all well aware of the problems with registration. It is time for ASUN to take some action to improve the process so that students can get the classes they need when they need them.

**STUDENT ORGANIZATIONAL FUNDING:**  
Since its beginning, ASUN has always helped organizations. As president, I will see to it that ASUN remains committed to this function. It is important that organizations have the necessary funds to afford students the academic, social and athletic opportunities that these organizations give.

**BETTER COMMUNICATION:**  
A lot more effort will be put into scheduling of all ASUN events and their coordination with other groups' functions. This way, STUDENTS CAN GET THE MOST OUT OF EVENTS AND SERVICES PROVIDED BY ASUN.

**A MEANS OF ACHIEVING:**  
One of the most important functions of the student body president is to represent the students and serve

as their spokesman at numerous boards and committees. In the past three and a half years in student government, I have established good working relationships with almost every student group, the administration, regents, faculty and community factions related to the university. IT IS IMPORTANT THAT THE PRESIDENT KNOW THE BEST WAY, AND TO WHOM TO GO TO, TO GET THINGS DONE.

It is equally as important to see that ASUN does not get tied down to bureaucratic and administrative functions, BUT MOVES SWIFTLY AND SMOOTHLY TO RESPOND TO THE VARIOUS NEEDS AND CONCERNS OF THE STUDENTS.

**A RECORD OF INVOLVEMENT — A RECORD OF ACHIEVEMENT**  
ASUN Vice President of Activities  
ASUN Senate President  
ASUN Senator for two years  
Chairman: Student Services Committee  
Program and Budget Committee for two years  
Activities Board for three years  
United Students of the University of Nevada system  
Executive Council  
USUNS Treasurer  
UNR delegate to USUNS for two years  
ASUN representative to faculty senate  
Chancellor's Advisory Cabinet Representative  
Alumni Homecoming Committee  
Chairman UNR Blood Drive Committee  
Blue Key service organization for three years  
Student Sponsor Program for three years  
Senior-Business Administration-Finance Major

I urge everyone to vote and I would also like your support to get a STUDENT ASSOCIATION THAT MEETS STUDENTS' NEEDS!

### Jim Bernabei

I'm Vince Jim Bernabei and I have some good news. The ASUN elections are going to be held March 7, 8 and 14, 15. All full-time UNR students are eligible to vote for all the executive positions.

This once-a-year opportunity gives all UNR students an excellent outlet to voice their concerns, opinions, and disappointments of the previous year. The elections also allow more responsive officials to be elected by the student body.

To present the associated student organization respectfully to the Board of Regents and other groups, each and every one of us must take an active role in ASUN's reformation.

You, as students, must vote. Voice your opinion through the election process! But just voting is not enough; you must vote intelligently. Take the time to be informed. Know what the candidates for student offices plan to do if elected by you.

As a candidate for ASUN president, it is up to me to inform you, the students, of what will be accomplished if you select me as your president for the 1979-80 school year.

I ask you to give this article your thoughtful attention and then cast your ballot accordingly. Please, do not abstain from voting. The student government at UNR will be facing some trying times in the near future because of previous neglect. Your vote is a vote of confidence for the ASUN system. An abstention on your part is a veto of that very same system.

You are either with us or you are against us. There is no middle ground. The ASUN government will need a complete, unified support from the UNR students

if it is to function efficiently and effectively.

As I have stated, the ASUN government will be hard-pressed to meet the challenges presented by the Board of Regents and other competing interests.

One way of overcoming these challenges is to keep the entire student body well informed of the issues as they come up. A knowledgeable student stance will create a strong executive platform on which to stand when dealing with opposing factions.

To keep the students informed on current issues, I consider it my duty as president to utilize the *Sagebrush* to transmit developments that will affect the university and its students. I have consulted with some *Sagebrush* staffers on this and have proposed a weekly column containing decisions reached by the senate and the Board of Regents and also a rundown of the week's upcoming activities.

Since the *Sagebrush* is a bi-weekly publication, and my column would run weekly, the other edition would have a guest columnist representing a responsible student point of view.

An area of executive action that has truly disap-

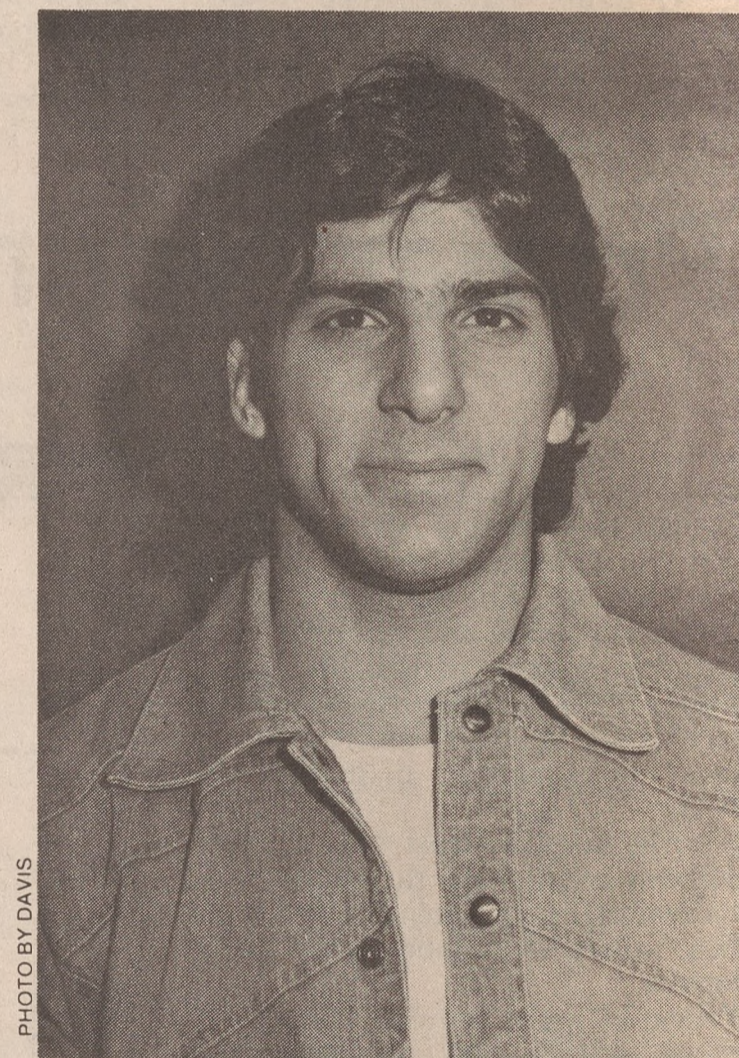

PHOTO BY DAVIS

pointed me and many other students this past year has been the almost total absence of ASUN sponsored concerts, lectures and other student activities of note. I cannot help but feel that the students have been misrepresented altogether in this area. There is no solid reason for this lack of entertainment; there are only lame excuses. With me, Vince Bernabei as president, this situation will be remedied. You can count on that!

Concerts and lectures account for many students' only opportunity to see and hear top-rate performers in person. The students are being deprived of an excellent opportunity to see popular entertainers and speakers at a reasonably low price.

These are only a few of the issues that confront the associated student organization. As of now, we have avoided them. It is time to meet the challenge head on. You can do your part by electing Vince Jim Bernabei ASUN president. Then it will be my turn to do my part by keeping you, the student body, informed and involved in our affairs. Thank you.

## papers

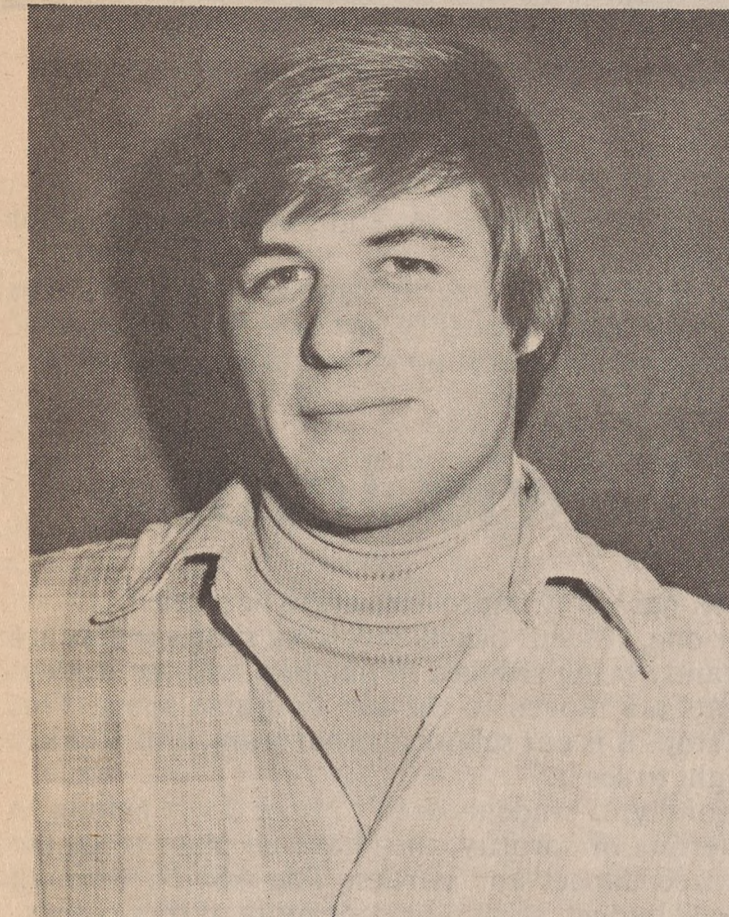

PHOTO BY DAVIS

### Scott Koepf

By being a senator during the last year, I have noticed many problems with ASUN. It has the potential to be a strong organization that caters to the majority of students instead of a minority. ASUN has provided many good services and activities during the past few years, but I believe ASUN is not changing with the demands of the students.

My platform consists mainly of reviewing and changing ASUN to meet the needs of more students, but changing ASUN is not something that can be done overnight. I plan on reviewing each board and program within the ASUN to see if the money is being spent where it could do the most good for the most students. I will gather information from other universities to see if their governments have programs we could institute and benefit from; ASUN must consistently compare itself to other student governments so as to see if we are being as effective as possible. I am not saying ASUN has to be drastically changed or restructured, it simply needs review so as to keep it in line with the students needs.

As student body president, I will not only investigate student and university problems (like the Virginia Street crosswalk problem) but I will also bring up new ideas and programs to ASUN. A few of the many ideas I have are listed below:

**SET UP A LIBRARY SUPPORT FUND:** Since you have no choice in paying for ASUN, then your money should be spent in areas where you will get the benefits you deserve. The library is the one spot that every student on campus uses and it is time ASUN starts to support this part of the university.

**SET UP A BUILDINGS AND GROUNDS IMPROVEMENT FUND:** Instead of just talking about the problems of dormitory, dining, parking and grounds conditions, ASUN should help improve these parts of our university by setting up a fund specifically for this purpose.

**MAKE THE YEARBOOK OPTIONAL:** Yearbooks are paid for by this system at many other universities and I believe that if you don't want a yearbook you shouldn't have to pay for it. An extra fee could be charged at registration for those who desire a yearbook and in this way the yearbook staff would know exactly how many yearbooks to purchase, and at what price.

**EXTEND CHILDCARE SERVICES AND EXPLORE PROGRAMS FOR OFF CAMPUS STUDENTS:** Since 65 percent of UNR's students live off campus, I think ASUN should investigate new programs that will cater to this group.

If elected, I will support USUNS and its lobbyist as it is our major link to the legislature and the budget. I will also support our current strong programs like the teacher-course evaluation and the legal referral service. I believe my one year on senate gives me the experience necessary for the job and I hope you will support me so that ASUN will be reviewed for your benefit.

## V.P. Activities

### Nick Furchner

You, the students, have a right to the best representation in ASUN. Your dollars and activities should be controlled by an EXPERIENCED leader who is capable of making RESPONSIBLE DECISIONS. I am that man.

One of my opponents lacks experience in ASUN; the other, while serving as a senator, frequently abstained on important issues. THERE IS NO PLACE FOR INDECISIVENESS IN THE EXECUTIVE OFFICE. Your representative should abstain ONLY in the case of a conflict of interest. I have not and will not "cop out" on an important issue by casting an abstaining ballot.

This past year I was an ASUN senator and served on the Activities Board. During this time I gained a working knowledge of ASUN and familiarized myself with all the procedures of the Activities Board. I now have the necessary experience, which can be gained ONLY by time in office, to efficiently handle the duties of the vice president.

Above all, STUDENT INPUT should receive the greatest emphasis. We are in office to listen to all students, and if feasible, to implement the programs they wish to have. I cannot promise a campus pub to open next week, nor a Steve Martin show in the Pine Lounge. What I can promise is that I will listen to all students, work toward realistic goals and make decisions benefitting the majority.

I would not be running if I did not feel I was the best candidate for the job. If you, as voters, will examine the candidates and their qualification, I believe you will come to the same conclusion. Thank you for your support.

### Liz Contri

My name is Elizabeth Contri and I am running for ASUN Vice President of Activities. As a student in the field of speech communications I have taken an active role, not only in student government, but also in campus activities. This past year I was a senator for the College of Arts and Science and served on the following committees: Activities Board, Program and Budget, Community Affairs and the Outstanding Teacher and Senior committees. I was chairman of the 1978 Fall Orientation and am presently chairman of the 1979 ASUN Blood Drive. I am also a member of the student orientation staff, Mackay Misses, Colonels Coeds and Sagens.

The activities sponsored by ASUN are important and necessary elements in the students' university life. They serve not only to entertain the students but also to create and diversify their university experience. I feel organization plays a key role in the planning of programs for ASUN. Some of the ways to improve organization are: (1) developing an events calendar (2) increasing the students' input through surveys, and (3) arranging for more publicity. These improvements could be accomplished through reorganizing the structure of the Activities Board.

I feel the following programs are areas of concern:  
**Concerts:**  
With the lack of promoters in the Reno area, ASUN is going to have to start promoting more of their own concerts.

**Dances:**  
Now is the time for ASUN to sponsor their own dances free of charge to students, with other organizations supplying the beverages.

**Showcase Activities:**  
Among the many showcase events we sponsored this year were: Ducks' Breath Comedy Team, UNR Jazz Band, and the Jack Otterness Group. Look for even more popular talents in the future.

**Movies:**  
Saturday movies did not go over too well this year. A combination of old and new movies would provide the students with even more entertainment.

**Major Weeks:**  
One member of the board would be solely responsible for these major weeks. This will enable more organization and innovative ideas.

**Lectures:**  
To meet the needs of the university community there should be a diversity of educational and popular speakers.

**Pub:**  
The campus pub will have a trial run this semester. If there is a positive response, I will support its establishment.

### Bill Flangas

Student participation in university activities recently has been limited and unenthusiastic. This seeming lack of interest can be attributed to three major problem areas:

1. The variety and scope of university activities offered are not appealing to the student body as a whole.

2. The publicity for the activities is inadequate and results in a failure to inform a large percentage of the student population properly.

3. Many of the activities provided are aimed at students over the age of 21 and those who are under 21 cannot fully enjoy or participate in them. If university-sponsored activities are to be more successful these problem areas are going to have to be faced and solved.

Every student pays a certain amount of fees which support university activities. Every student, in turn, should be able to contribute some input concerning the type of events planned. This student input should be an ongoing process, whereby student ideas and opinions should be evaluated continuously and incorporated into the decisions of the Activities Board. Only in this way can the ever-changing interests of the student population be served. It then becomes necessary to maintain an open-door policy so that students or student groups may air their views and have some amount of influence into the type of events offered.

Concerts are always a major event to consider. The quality and variety of musical performances has not appealed to many of the students. In Nevada some of the top entertainment is present. With the shortage of promoters in the Reno area there arises a need to consider promoting our own concerts or to possibly consider dealing with entertainment directors of the local clubs.

University-sponsored dances are another event to discuss. In the recent past there have not been any dances sponsored by the university. Semi-formal dances and other types of dances contribute to the total college experience.

Here at UNR, there are several "major weeks," such as Winter Carnival and Mackay Days. In the past, many of the activities planned for these times have not been entirely successful. One solution to this problem would be to have the plans for these "major weeks" completed with sufficient time to allow for better and more widespread publicity.

Other activities which are presently held but which could use further careful evaluation are the schedule of lectures, scheduling and types of free movies shown and the continuing of special events such as bands in the Manzanita Bowl on sunny afternoons.

The Vice President of Activities has other functions besides acting as Chairman of the Activities Committee. The Vice President of Activities is also an active member of the Executive Council. In this capacity I would like to be instrumental in instituting a committee that will specialize in helping the student to discover and utilize the proper channels in solving his problems.

I sincerely urge all of you to exercise your vote on Wednesday and Thursday and would appreciate your support.

Thank you very much.

# Senators

## Business

### Tim Dickens

It is important for ASUN activities to have sufficient funds. As your Business Senator, I will inject a financial responsibility in funding the various activities.

I will continue to support a strong lobby in Carson City in order to maintain and improve our business education.

I will be a responsible voice in all administrative decisions concerning students.

### Bill Bokelmann

My basic concern as Business Senator would be to increase student involvement in activities. In order to do this, ASUN would have to select activities that are of a quality that students would be interested in attending. Also, there is a need for better promotional campaigns to make students aware of those activities which would interest them most.

I am DEDICATED TO BUSINESS which means I am dedicated to the concerns and desires of the business students of which I am one. I want to be the representative voice of the business students as a whole. We as business students need to know what ASUN is doing for us. If elected Business Senator, I feel that this can be accomplished through me.

I have been involved in student government since my senior year in high school. Therefore, I feel that I am highly qualified for the position of Business Senator.

1974-75 Senior class council member, Valley High School  
1976-77 Vice President, White Pine Hall dormitory  
1977-78 President, White Pine Hall dormitory  
1978-79 Resident Assistant (R.A.), Nye Hall dormitory

I would sincerely appreciate your vote.

### Kevin Hampson

My main concerns are to have the voices of the students heard throughout the University System. Students cannot all be heard at the same time, they need representation. If elected Business College senator, I will represent to the best of my ability the students of the Business College and the university.

Two of the main issues I would like to do something about are:

(1) There must be better seating and more ticket allocations as our Athletic Department grows into national stature.

(2) The night school and summer school programs are very inadequate. Students who work during the days are not able to fulfill their requirements; more required subjects must be offered.

I would appreciate your vote in the upcoming primary and general elections.

Thank you.

### Kevin Berry

I am running for the office of business senator because I feel that I can be an effective leader and representative. If elected to the senate office I will keep a keen eye on student needs, and meet those needs.

It is very difficult to say what will happen next year, but I think that several goals can realistically be reached. One of those goals is a further development of the lobby in Carson City to protect student interests. Also, I believe that a strengthening of ASUN spending is in order. We need to divert money away from useless frills and more towards activities that will reach every student — wasteful spending must be stopped. I will especially support the needs of business students and work closely with extracurricular business organizations such as the student accounting society and Delta Sigma Pi.

At this time of year when everyone is making outlandish promises that are impossible to keep, I have only one promise: that is to work diligently and responsibly for the good of the students.

My name is Kevin Berry, and I urge you to vote in the upcoming election. Your support will be greatly appreciated. Thank you.

### Mark Archer

Hi, my name is Mark Archer and I am running as a candidate in the business senatorial race. I've taken this step forward into the active phase because I've been in a passive phase since I've attended UNR and I'd like to change that situation. I'm an independent and a second-year junior in accounting. I'd appreciate your vote on Wednesday or Thursday. More important than that, I'd like to see you go to the poll and vote. It will only take a few seconds of your time and it is a very important UNR function.

Thanks.

### Stan Bennett

The student legal aid program is a good program, and it should be better advertised so that the students know what it can do for them. With legal problems becoming more common, students should be aware that there is a program that can help them.

We should get a more efficient lobby, working for the students in the legislature.

Students should be well-informed on all matters concerning them. A senator should be the students' spokesman.

There also should be a student teacher-evaluation program. We come to school to learn and we should have teachers capable of teaching.

### Gary Fuller

My name is Gary Fuller; I am running for ASUN senator from the College of Business. I have attended UNR for three years, having been active on several university committees and serving as a resident assistant in the dormitories.

I will assume the position of senator with an emphasis on improved communication. A more centralized approach could create a more productive flow of information throughout all parts of the university community. I will publish a personal bi-weekly report and summary of senate and committee proceedings which I will post in my college.

I support the expansion of campus facilities but with an appreciation for the preservation of the historic buildings. These buildings are integral to our history as well as the beauty of our campus. I will also support UNRAP in its efforts to establish a campus pub. I will investigate the possibility of creating bike, moped and running paths on campus. I will support the Career Planning and Placement Of-

ice's efforts to implement and publicize the annual job fair.

My experience, integrity and knowledge of the University System qualify me for the position of ASUN senator. Your support would be appreciated.

### Lewie Jordan

UNR has many improvements to be made.

For one, student tickets involving sports events are constantly being reduced in number, and the students' seats are moved to the less desirable spots. This must stop. It is our school and our team, and we have the right to see it.

Secondly, if students aren't 21, or don't belong to a fraternity or sorority, they have no place to go for organized dances and parties. The ASUN, through its social budget, should provide more of these needs.

I, when elected, will listen to your comments and suggestions about the problems plaguing UNR and will take steps to solve them. Lewie Jordan means business.

## Engineering

### Steve Bos

Students in the College of Engineering definitely need strong representation on the senate. With the number of students involved in engineering increasing, this is especially important now.

As one of five candidates running for the single seat in engineering I make the promise that if elected I will work diligently and persistently for more ASUN funding of engineering organizations, which seems to me to be one of the most important issues confronting us.

I am open-minded, but not easily intimidated. I am seeking your vote for Steve Bos for engineering senator.

### Joe Kircher

Hi. My name is Joe Kircher and I'm a junior in mining engineering. I have chosen to run for the senator of mines with the firm convictions that I can...

1. Make a total *commitment* to fight for the best interests of the people of the Mackay School of Mines.

2. Open and maintain an avenue of *communication* between the Mackay Student Body, the John Mackay club and the ASUN.

3. Give every metallurgist, geologist, mining engineer, geological engineer, chemical engineer, geophysist, geography and earth sciences major, an *action oriented* and *conscientious representation* at every ASUN meeting.

Unfortunately Mackay School of Mines in the past has sustained its position on former laurels and accomplishments. In the previous year I and other students have felt a turn-about taking place, mines students are beginning to recognize the potential that

the School of Mines holds in the form of tradition and distinction. Certain factions stand in the way of our steady comeback and that is sufficient allocations from the ASUN to support Mackay School of Mines social functions, conferences, field trips, programs, etc. In the form of credit fees we have added nearly \$12,000 this year to the ASUN coffers and to date have received under \$1,100 in support from ASUN. Something is wrong when the ASUN allocates \$8,000 to the UNR cheerleaders then won't even contribute the \$200 needed by students to attend an A.I.M.E. meeting that would fill many mines students with knowledge that would not only benefit them but their peers, too. I feel that as senator I could provide the leadership to loyally represent the needs of mines students and to help restore our Mackay School of Mines to the position it justly deserves in the eyes of the ASUN.

Joe Kircher is willing to work with you on any size problem (except calculus) and give the Mackay School of Mines students the faithful representation in the ASUN Senate you have the right to.

## Dave Briney

The College of Engineering, though one of the smallest per capita, is the fastest growing on campus and, I feel, the most active. The fact that five candidates have filed for one senate seat exemplifies the fact that the student of engineering is not only concerned but willing to participate in the administration of our university.

I am not a politician but I do possess the common sense it takes to be a good engineer and student senator. Student government, contrary to popular belief, is capable of obtaining a wide variety of useful services to the student body.

For instance: legal services, support for clubs and organizations, better dormitory conditions and in addition, movies, concerts and lectures. I personally would like to see an on-campus pub or other social meeting place. Of course, student government is only as effective as the students involved and, if elected, I plan to be the most effective senator possible.

## Gregg Crossman

By serving as president of Nye Hall I have observed the need to get people involved in activities. The more people participating in any one event, the better that event turns out. This is why I would like to see a separate category of competition in the major weeks, such as Homecoming Week and Winter Carnival Week, for dormitories and independent organizations along with the competition between the fraternities and sororities. Also, student input is important to a representative to help him decide the general feeling and mood of the people he represents. Therefore, I would like to see a suggestion/input box placed in the engineering buildings for engineering students in particular.

I also believe that the engineering organizations such as ASME, ASCE and IEEE are important in developing social activities between people who otherwise would only be students together. ASUN support of these organizations through monetary funds is important and I would support any reasonable budget requests.

On the current issue of the ASUN budget, I would oppose any attempt to force ASUN to approve its budget every year through administrative channels. This would tie the hands of ASUN representatives and would stifle them from approving new and innovative programs.

## Mike Smart

As a candidate for engineering senator, I see three issues of primary concern.

Many engineering students do not utilize their ASUN fee by attending ASUN-sponsored events. I suggest that they receive "payback" on their "ASUN dollar" in the form of usable benefits such as funded field trips or some form of monetary support for all engineering societies.

Secondly, the College of Engineering is growing rapidly relative to other colleges in the university. Since 1976, enrollment has increased 15 percent. Over the same time period, enrollment in agriculture decreased 21 percent in medical sciences six percent and in education 13 percent. The current enrollment in engineering (at 571) is also greater than any of these colleges (agriculture 452, medical sciences 504, education 555). Yet, while these other colleges have a smaller (and decreasing) enrollment, they each have two ASUN senators, whereas engineering has *only ONE*. I propose that engineering likewise have two senatorial positions in ASUN.

Finally, I suggest that proposed budget cuts take into account enrollment size as well as special demands. Due to a burgeoning real-world technology and the need for reflection thereof within the academic sphere, the College of Engineering has special budgetary requirements, in addition to the demands imposed by its rising enrollment. Budget cuts should be scaled to reflect these needs in order that the engineering student's education is not unduly compromised.

As your senator, I would work to see that engineering students receive proportional representation, payback on their ASUN dollar, and an education not compromised by disproportionate budget cuts.

## Don't lick any ashtrays

Dear G.T.H.:

I can't quit. I've tried, but I just can't quit smoking. I'm aware of the health hazards, and I've seen the signs which read: "Kissing a smoker is like licking an ash tray," but it's no good. Any tricks, easy answers on latest solutions?

Signed,  
Quitting after each one.

Dear Quitting:

Congratulations...at least you want to stop smoking...that's the first step! Millions of people across the country have stopped in the last few years. If they can quit, so can you!! Nicotine is the toughest drug to detoxify, but you can do it!!

Your timing is just right. Go To Health is going to offer a FREE stop-smoking group starting this month! You can sign up for it at the Stay Well Health Fair next Thursday in the Pine Auditorium.

Dear G.T.H.:

Wow! Yuck! Ugh! Oh, did I ever tie one on last

weekend. There has got to be a cure for the day after!! I saw a bookmark in the library about hangovers, but it didn't give any instant solutions...

Signed,  
Holding My Head

Dear Head:

There was an instant solution on the bookmark you mentioned...don't drink so much. Other than that, you're back to aspirin and Alka Seltzer. Most

of the "morning after recipes" are placebo and myth.

Nothing wrong with drinking, but put a little food in there and space your drinks before you get spaced (it makes for a nicer Sunday).

Enjoy,  
G.T.H.

P.S. See you at the Stay Well Health Fair Thursday, March 8 in the Ed Pine Auditorium 9-5.

## This concert is gonna take some promoting

In what is being billed as a concert with the "bad and the beautiful," High Sierra Concerts' effort to promote this baby will have to go far above and beyond the normal call of duty.

Imagine putting a "has-been" like "Black Oak Arkansas" on the bill with some studio musicians called "Ambrosia" and selling that to a starving Reno audience just begging for a good time and charging \$8 a ticket. At least they get a light show.

Promoter Michael Schivo told me that his company has secured the sound and light systems from the Electric Light Orchestra and Jet Productions and that Reno will get a "fantastic" light show. Well, I saw one for free last week when the solar eclipse cast an eerie gray light over my house. I must admit this light show and sound system does interest me.

"Ambrosia" is the headline band in Wednesday night's show. They will play last. "Tierra," a rock group of local yokels will open the show at approximately 8 p.m.

The headlining trio has been together since the start of the '70s. David Pack, lead guitar, keyboards and vocals; Joe Puerta, bassist and lead vocalist; and Burleigh Drummond, percussionist and vocalist joined forces in Los Angeles in 1970 and have offered listeners several albums to evaluate.

The self-titled debut album contained original and distinctive "Ambrosia" sound, which is sophisticated, intense and contemporary rock with synthesizers, clavinetts, the whole thing.

"Holding On To Yesterday" remains the big hit off the first album while another, "Nice, Nice, Very Nice" was co-written by Kurt Vonnegut Jr.

Alan Parsons was producer and engineer on the group's second release, "Somewhere I've Never Travelled" and, like the first LP, it received a Grammy nomination. The band has some classical influence and a close friendship with Leonard Ber-

nstein. Pack played guitar and sang in the eight-week engagement of Bernstein's "Mass."

The band recently signed with Warner Bros. Records and has a new release, "Life Beyond L.A." Joe Puerta notes that this album is different because "some influences like rhythm and blues and jazz, came out more on this album. Overall it has more drive."

Drummond agrees and says the music is more "accessible."

"Ambrosia" has been to Reno once before, appearing with "K.C. And The Sunshine Band" in an unlikely combination of soul and space.

"Ambrosia" and "Black Oak Arkansas" are sharing the bill, though the distinction of closing the show goes to the former.

I thought "Black Oak" went out with the Vietnam War. I haven't heard too much from them lately.

Jim Dandy is still alive and well with the band and a real showman, I've been told. These southern rockers want to blow our socks off and I say let 'em — they gotta get my shoes off first.

Known for its "raunch and roll," "Black Oak" appeared with "Blue Oyster Cult" in 1977 and some say they sounded better than ever.

### GRAVEL BITS:

Daniel Cook, program director at KOZZ-FM says all is well at the station's new studios located up on North McCarran. Cook says it's "beautiful." Apparently, they got all the room they can use up there, nice new facilities and a view of the valley that is unparalleled. They are co-tenants along with K-ONE...Remember the Doobie Brothers? I do. I remember when Pat Simmons and Tom Johnston stood side by side blasting away on guitars to my high school heart's content. I couldn't get enough of "China Grove," "Listen to the Music," "Take Me In Your Arms" and a lot of other quality produc-

tions. Now, since Johnston's chronic illness and the advent of keyboard artist Michael McDonald, all that is gone. "It" was going in "Takin' It To The Streets," and on its way out with "Living on the Fault Line." But with the latest album "Minute By Minute," the old guitar days are gone and McDonald is the master. Jeff "Skunk" Baxter, formerly of "Steely Dan," has come on as a guitarist but doesn't do it the old way. I think the band should change its name so it won't confuse future listeners. They should be called "Michael McDonald and the Blue Notes..."

## Short Takes

### Kevin LaMar wins ROTC award

UNR senior Kevin LaMar of Las Vegas has been chosen to receive this year's George C. Marshall ROTC award.

LaMar, who is majoring in criminal justice, will receive a certificate of recognition from the George C. Marshall Foundation. He will also attend the foundation's conference in Lexington, Va., April 19-21.

LaMar is a cadet lieutenant colonel and is presently the battalion commander of the UNR ROTC battalion.

He graduated from the U.S. Army Airborne School in June of 1978, and

is attending UNR on a two-year Army ROTC scholarship. He was the recipient of the Kerak Temple of the Shrine Gold Medal Award in 1976, and the Association of the United States Army ROTC Medal in 1978. He has been designated a Distinguished Military Student and will be commissioned in the Regular Army in July 1979.

The award, established in 1976, is presented annually to an outstanding senior cadet in 275 college and university ROTC programs nationwide.

### Burn, baby burn

A fire broke out in a UNR residence hall Feb. 24, but there were no injuries and apparently little damage, according to university police.

The alarm was sounded at about 9:18 p.m. and police and firemen arrived soon after.

Frank Ponticello, resident of Lincoln Hall Room 211, where the blaze occurred, was away at the time.

University police said last Sunday night the exact cause of the fire had not yet been determined, but probably resulted from an electric outlet overload.

There was smoke damage to the second and third floors of the building and water damage on the west wing. A small refrigerator, a cassette player and one speaker were partially destroyed in Ponticello's room, police said.

### Light time

The crossing of Virginia Street will not be so hazardous for UNR students, thanks to a soon-to-be-installed safety light.

Dr. Jack Clarke, chairman of the Student Affairs Board, decided to take action on the pedestrian problem because of a number of complaints by both students and faculty.

"I talked to Ross Ainsworth who is the City of Reno traffic engineer, and he told me that Virginia Street is considered a state highway (Interstate 395)," Clarke said.

### Prezcheck

In the interest of giving people maximum opportunity to learn about each candidate for UNR's presidency, it was announced yesterday their vitae will be on file in UNR's library and available for public inspection.

A vita lists professional experience, research projects, publication activity and other pertinent information about the background of individual candidates.

Harold Morehouse, director of UNR's library, said the vitae are on file at the reference desk, main floor, and anyone wishing to take a look is welcome to do so during library hours.

In March library hours are: Monday-Thursday 8 a.m.-midnight; Friday 8 a.m.-5 p.m.; Saturday 9 a.m.-4 p.m.; Sunday 1 p.m.-midnight.

Presidential interviews will conclude March 23, when the Board of Regents is expected to reach a decision at a special meeting.

### The Armed Forces Health Professions Scholarship Program

Is offered annually by the Air Force. Acceptance to an accredited school of medicine, osteopathy, veterinary medicine, optometry, or clinical psychology in the United States, Canada, or Puerto Rico is the primary prerequisite. Benefits include:

- Payment of full tuition fees
- Books
- Authorized equipment
- Monthly stipend

all of which is tax free.

Receipt of the scholarship is based on personal qualifications rather than financial need. Repayment is one year of service for each year of participation with a minimum of three years service. Further details are available from:

### Fabrics on show Thursday

One-of-a-kind sumptuous fabrics designed and made by Douglas Ram Samuj will be displayed during his lecture March 8 at the Fleischmann Home Economics Building.

The internationally renowned artist and craftsman will lecture at noon in Room 126 and again at 4 p.m. in Room 100.

Samuj creates unique fabrics in that each one is individually designed in 4- to 6-yard pieces. He uses vegetable and other natural dyes, and his subject matter involves much study and research in the fields of botany and ethnic cultures. To gain effective and aesthetic results, he combines such techniques as blockprinting, batik, screen-printing, tie-dyeing and resist-printing.

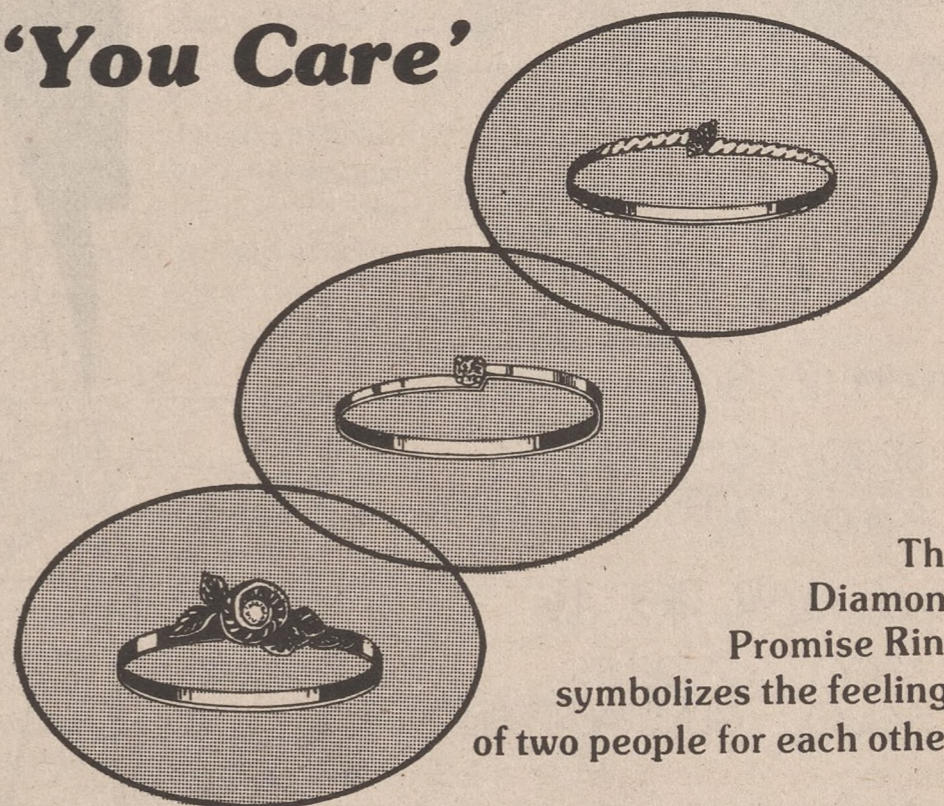

An Australian of East Indian descent, and now a U.S. resident,

Samuj began his art studies in Melbourne, then graduated from Manchester College of Art in London. Returning to Australia, he quickly gained recognition when his creations were exhibited in major galleries throughout the country.

Samuj's fabrics are used primarily for women's apparel—but are also being used by top fashion designers such as Halston and Edith Head. Interior decorators have featured his materials as wall hangings, chair coverings and cushions. He has exhibited in prestigious fabrics departments and to private clients, one of whom is Elizabeth Taylor.

Following the Samuj lecture, his fabrics will be available for private purchase. There will be an open house from 1-4 p.m. in Room 100. The public is invited.

8 p.m. — ASUN Movie — "Jason and the Argonauts," Thompson Student Services, JTU.

8 p.m. — ASUN and Nevada Repertory present "Mame," Church Fine Arts Theatre.

## Spurs begin membership drive

Parties will be held at 5:30 p.m. today and tomorrow in Jot Travis Student Union as part of the Spurs' membership drive that begins this week.

Tammy Durbin, the group's president, said, "What we would like to do is to meet people trying out for Spurs and to show other people what we do."

In addition to the parties, each applicant to Spurs, the UNR sophomore service organization, will have interviews with two active members. "We will look for a willingness to serve, outgoing personality and past participation in activities," Durbin said.

Students who will be sophomores next year and have a 2.5 GPA are

eligible to be Spurs.

Many applications were mailed to prospective Spurs but Durbin urges students who are eligible to come to the parties with or without an application. Applications will be available at the parties or can be picked up at the ASUN office in the student union.

Membership chairmen Debbie Prina and Dawn Carter are already receiving applications. They are coordinating the parties and interviews.

This year, the Spurs' membership drive is earlier than those of other campus organizations. This is "to give the new Spurs a better orientation" and "a chance to know the other Spurs better."

## Geologist to give free lecture

Frank Royse, expert on one of the hottest petroleum areas in the Continental United States, will be at UNR Friday, March 9, to present a free, public lecture.

The lecture, titled "Geology and Petroleum of the Overthrust Belt," is set for 3:30 p.m. in UNR's Lecture Building, Room 2.

The Overthrust Belt is located in Southwest Wyoming and Northern Utah, where giant petroleum fields have been formed.

Royse, who is with the Chevron Company, Denver, Colo., has led the company's team of geologists in exploration of this area. He is recognized

in the industry as possessing the greatest comprehension of the complex geology of the area.

He's presented his fully illustrated lecture to nearly 50 universities and geological societies under the auspices of the American Association of Petroleum Geologists.

Royse is an alumnus of UNR, having graduated from the Mackay School of Mines in 1954.

The Lecture Building is located on the north end of campus, adjacent to the physics-chemistry complex.

## Sierra ski

The UNR Sierra Club will go cross-country skiing this Thursday. Bring your equipment and meet at the Atmospherium-Planetarium, UNR campus, at 12:15. If downhill skiing is your thing, there will be a downhill trip at Boreal Ridge on Friday evening. Lift ticket \$5, and bring your own picnic dinner. For details on either trip, call Charlie Cornish, 673-4750, ext. 321, or 972-1676, ext. 73.

## Vroom, vroom

The Reno Region Sports Car Club of America will sponsor a Time and Distance Rally March 11 at the Holiday Inn, 1000 E. Sixth St. This

event requires a driver and navigator. Registration will be at 11 a.m.

In addition, there will be a Drivers School and Autocross held at UNR's North Virginia parking lot March 24-25. Registration begins both days at 9 a.m.

For information contact Tom States at 358-8080 or Bob Bourbon at 747-4615 or write Reno Region Sports Car Club of America, P.O. Box 5281, Reno Nv. 89503.

# BOOZE NOOZE

Your Arm Chair Guide to the Joy of Mat...

## Found: Cure For Hangovers!

The medical world is set buzzing by the announcement that Dr. R.U. "Bud" Wiser, after 25 years of solid research, has finally discovered the only cure for hangovers. Says Dr. Wiser, (pictured above), "I experimented with (hiccup) cold showers, black coffee, exercise (hiccup) and all of my Great Aunt Mathilda's back home recipes (hiccup) and I always felt the same (hiccup) . . . ROT-TON! I then concluded that time (hiccup) is the only cure for a hangover. We (hiccup) must wait it out!" He went on to say that to prevent a hangover, one shouldn't drink so much the night before. Is this what they call "preventive medicine"?

Drinking is dignified?...sexy?...appealing? ...macho?...elegant?

Dr. Wiser added that further research came to the same conclusions about sobering up: "Too much alcohol overloads the liver. It can only work at one speed and that is the time that it takes to sober up!"

Name:  
Address:

Mail before January 31, 1905

Drinking in excess results in some pretty unelegant physical changes, as we all know. How can you keep this from happening to you? Drink at a slow comfortable rate. Eat. Know your limit. Dare to say "when" or "no thanks." Stop drinking an hour or so before driving home.

Knowing how to take care of yourself is a lot sexier than having to be carried home by your friends.

### Non-"Drink" Drinks

Houdini Cocktail, for two:

- 1/2 pint strawberry ice cream
- 1 cup milk
- 4 tsp. grenadine

Blend ice cream and milk until foamy thick. Pour into glasses. Pour 2 teaspoons grenadine from spoon down inside each glass (forms bright crimson layer at bottom).

## Sports

## Skiers the only one

Julie Wheat

UNR will be the only university out of nine West Coast schools to send alpine skiers to the National Collegiate Athletic Association (NCAA) ski finals this year.

After a heavy snowfall with snow that refused to pack, the downhill events of the Pacific Coast Championships held at Squaw Valley Feb. 22-24 were cancelled. The championship was to be the qualifier for five skiers from the west to go to the NCAAs.

Instead, according to coach Kevin Christensen, "The skiers' previous times were used to qualify them for the Nationals."

Because only UNR had skiers with qualifying times, seven alpine skiers from the team will compete in the NCAA races in Steamboat Springs, Colo. Roger Lancaster, Kevin Johnson, Keith Kullby, Curtis Potts, Bart Fischer, Mark Murray and Mitch

Palmer will represent UNR there March 5-10.

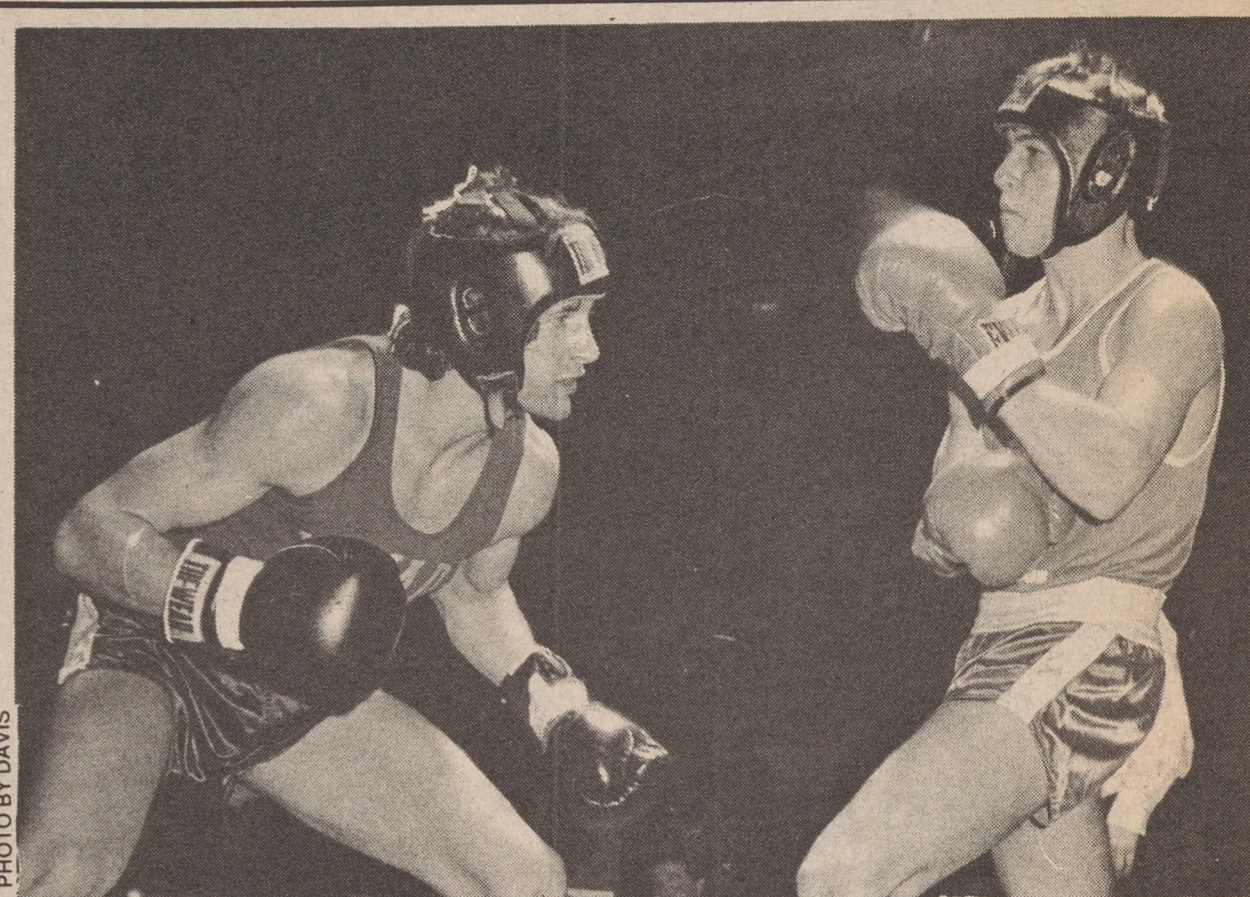

In the 15 kilometer cross-country race on Saturday, two skiers from Alaska placed first and second. UNR's Borre Fossli took third in the qualifying race.

Dean Campondonico and Jim Ashton, both of UNR, finished in the top 10. Commented Christensen, "As freshmen, Dean and Jim did a great job since they were racing against mostly seniors with more experience."

Fossli, along with Keith Kullby of UNR, also qualified for the ski jumping event at the NCAAs.

Christensen sees Reno's chances in the NCAAs as "really good."

"Since we have so many skiers qualifying, we have a great chance because of our backup skiers. We should do better than the school has ever done," he added.

UNR's Steve Korchek (left) during his win last night. The Pack boxers defeated a combination team from Chico and Berkeley in the old gym.

## Kirby's four-hitter salvages Fresno State series

Rick Oxoby

Al Kirby fired a four-hitter to lead UNR to a 2-1 victory over league leading Fresno State Saturday afternoon in the second game of a Northern California Baseball Association doubleheader.

It was the only triumph for the Pack in its three-game series with the Bulldogs. Reno lost the first game

Friday 8-4 and made eight errors in Saturday's opener on its way to an 11-4 defeat.

"It's hard to figure," Reno coach Barry McKinnon said, "One weekend we make one error in three games, then we have eight in one game."

In Friday's game, Reno pitcher Gary Ghan went to the mound with an ERA

of 0.66 but gave up six earned runs in the third inning on six hits and couldn't get a man out. Fresno scored two more runs that inning off reliever Fred Cook on two Reno errors.

Cook, a junior righthander, checked Fresno the rest of the way, giving up only two hits. Third baseman Mike Wallace and designated hitter Wayne Hague each collected three hits for the Pack, who outhit the Bulldogs 11-6. Hague had a triple and a double and Bill Wallace also doubled.

The Pack had two hits apiece from shortstop Don Biehle, second baseman Pat Chaney and catcher John Anderson in Saturday's opener, but the three players were responsible for six errors. Biehle committed three miscues himself.

In Kirby's game-salvaging perfor-

mance in the nightcap, Biehle was the hitting hero for the Pack. He singled home Rob Young, who pinch ran for Bill Wallace after he singled to open the sixth inning. That gave Renoits 2-1 lead. Kirby then retired the Bulldogs in order in the seventh and final inning to improve his record to 3-0.

The Pack is now 6-6 in conference and 8-8 overall, while the Bulldogs keep a firm grip on first place in the NCBA at 9-3. They are 10-7 for the year.

The Pack was scheduled to play a doubleheader at Brigham Young University yesterday, but the games were cancelled because the BYU field is covered with snow. The Wolf Pack travels to USF this weekend for a three-game NCBA series with the Dons.

## NIT bid for Wolf Pack

Chris Healy

Sunday was a special day for everyone involved with the UNR basketball program. For players, coaches and fans alike it was a day filled with emotion, drama and fulfillment.

There was the emotion of watching Edgar Jones, Johnny High and Michael 'Fly' Gray play their last home games. There was drama in the fact that a win could help the Wolf Pack gain their first post-season tournament. Then came the fulfillment of actually receiving the bid to play in the 24-team National Invitational Tournament (NIT).

Going into Sunday's game the team's goal was to push their record to 20-6 and receive the NIT berth they had hoped for. "I'm really proud of these kids. I think we can play with any team in the country," said UNR Coach Jim Carey.

News of the tourney bid came Sunday evening in front of 650 Wolf Pack partisans attending a gathering honoring the team. Athletic Director Dick Trachok was the bearer of the news that the Wolves would have to travel to Corvallis to play Oregon State in one "of the real snake pits in college

basketball."

The Pack wasted no time Sunday afternoon trying to prove to the Nit selection committee that they were worthy to play in their tournament. Led by the Nevada version of the "Three Musketeers," Jones, High and Gray, the Pack ran their fast break past the St. Mary's Gaels 96-78 before the most enthusiastic UNR crowd of the season.

After the game, Edgar's jersey, number 32, was retired in front of 6,300 cheering fans. That is the first time in UNR basketball history that a jersey has been retired. At the gathering after the game, Gray was named the Most Valuable Player of the 1978-79 Wolf Pack.

Gray, who led the West Coast Athletic Conference in scoring (23.5 per game), scored 26 points in Sunday's game. High broke out of a slump with 21 points, six rebounds and three crowd-pleasing slam dunks.

"This is something to start a tradition with," says Carey. "A tournament bid and 20 wins is a sign of success in college basketball."

The Wolf Pack's final record is 20-6 and 9-5 in conference.

# Home crowd favoring Oregon

If the Wolf Pack wants its first-ever post season appearance to be a successful one, then they will have to conquer one of the "best home crowds in basketball," says UNR Coach Jim Carey.

The Oregon State Beavers are 18-9 this season and 11-7 in the Pac-10 Conference. They finished third in the Pac-10 behind NCAA tournament participants UCLA and USC. The Beavers' home court, Gill Coliseum, is known as one of the toughest home courts in college basketball because of the noise factor created by 10,000 fanatic fans.

The Beavers are a strong, young squad, according to Oregon State Coach Ralph Miller. "We start four sophomores and a junior," says Miller, "and we think the NIT will help us with out team for next year."

The leading player for the Beavers is 6'10" sophomore center Steve Johnson. The 230 pound pivot man is the leading scorer for the Beavers with a 18.3 average.

Johnson shoots 65 percent from the field to lead an OSU team that shoots 52 percent overall. "Johnson is a power center and Edgar Jones is a finesse man. I look for a strong match up inside," says Miller.

The Oregon State coach says he would like to "take away the UNR fastbreak" by controlling the boards and getting Jones into foul trouble. "Our biggest problem may be Nevada's two guards. They can really kill you if you don't watch out," says Miller concerning UNR's guard

tandem of Michael 'Fly' Gray and Johnny High.

Both teams are similar offensively in that the center and the two guards handle most of the scoring. The trouble spot for the Beavers could be in the rebounding department where their best is Johnson and he only averages 6.1 per game. With Jones, Mike Longero and Mike Stallings on the front line, UNR may have the advantage.

Oregon State is 11-1 this year in games played at home and that fact caused Carey to comment, "We have to play our best to beat them. Since Edgar came back we have won seven of our last eight games." Carey feels the Pack may have peaked at the right time.

"We feel we can compete with any team in the tourney."

**SLAM DUNKS**—Three teams from the WCAC qualified for post-season tournaments, USF, Pepperdine and UNR...Of the 40 teams that qualified for the NCAA tourney, UNR played four (USF, Pepperdine, Eastern Kentucky and Georgetown) and beat three, losing twice to Pepperdine (without Edgar) and splitting its two games with USF. The Wolves beat Georgetown and Eastern Kentucky to win the Wolf Pack Classic back in December...With Edgar in the lineup, UNR was 17-2, without him, 3-4...The game will be seen and heard on KTVN-TV Channel 2 and KOLO radio. Television begins at 8 p.m. and radio at 7:40.

## Women bombed

The UNR Women's basketball team ended its season on a sour note Friday as it was bombed by a much taller San Jose State team 92-50.

The Spartans dominated the game with its superior height advantage from the offset and cruised to a 49-22 half-time lead. San Jose has not lost in the Nor-Cal conference the last two years and has lost only three non-conference games this year. Two of the losses were to powers UCLA and Long Beach State.

San Jose had three players scoring in double figures. Susan Day popped in a team-high 18 points, while Lee Bernardino chipped in 13 and Elinor Banks had 12. Bernardino also had 11 rebounds and Day had 10.

UNR guard Cindy Rock capped another outstanding season with a 19-point, 10-rebound performance. The all-time women's basketball leading scorer finished the year with a 17.0 points per-game average.

Junior guard Ellen Townsend scored 17 points for UNR, which winds up with a 10-15 overall record and an 8-4 mark against small colleges.

Reno did not receive an at-large berth to the AIAW small college regionals because of its record that included disappointing losses to Laverne, Santa Clara and Sonoma State.

## Softball team has trouble

UNR women's softball coach Olena Plummer said before the season started that her main concern was hitting. She said her team was hitting well in practice but that playing in games would show just how good her team could hit.

Plummer found out the hard way as her team collected only three hits in a doubleheader against two top-rated pitchers, Sue Kensil and Leslie Partch, and UNR fell 1-0 and 4-1 at Cal-Berkeley Saturday.

Kensil hurled a two-hitter against the Pack in a nine-inning opening game before Partch tossed a one-hitter and

struck out 12 in the nightcap.

Berkeley scored the winning run of the extra-inning first game on loser Debbie Flateau's wild pitch in the bottom of the ninth.

Flateau, a lefthander, pitched well in defeat giving up only six hits and striking out three.

Pack righthander Carlinda Poe took the loss in the second game while yielding just four hits and striking out three.

Sue Williams, the Pack's leading hitter a year ago, collected two hits on the day for the Pack.

### Use this code for your assessment:

- 1 yes
- 2 no
- 3 I could improve

### Mark the code number of your answer in the box.

- My weight is within 15% of my recommended weight.
- I trust and value my own judgments
- I walk briskly two miles or more a day.
- I know how to relax my body and mind without using drugs.
- I eat a diet that does not require supplements.
- I have had a tuberculosis skin test within the year.
- I have completed a Cardio-pulmonary Resuscitation (CPR) Program.
- My normal Blood Pressure is 140/90 or less.
